DEPARTMENT OF HEALTH AND HUMAN SERVICES**Office of the Secretary****Agency Information Collection Activities: Submission for OMB Review; Comment Request**

The Department of Health and Human Services, Office of the Secretary publishes a list of information collections it has submitted to the Office of Management and Budget (OMB) for clearance in compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) and CFR 1320.5. The following are those information collections recently submitted to OMB.

1. Analysis of Guidelines for the Conduct of Research Adopted by Medical Schools or their Components—NEW—The Office of Research Integrity

(ORI) is responsible for ensuring the integrity of the research supported by the Public Health Service. Section 493 of the Public Health Service Act, provides that the Secretary by regulation shall require that each entity which applies for a grant, contract or cooperative agreement which involves the conduct of biomedical or behavioral research shall establish policies and procedures to review, investigate and report allegations of research misconduct in connection with the research conducted at or sponsored by the applicant institute with PHS supported funds. ORI plans on requesting copies of the guidelines for the conduct of research adopted by accredited medical schools in the United States. ORI will use the information to develop technical assistance materials and an instructional workshop which will assist medical schools in formulating guidelines. *Respondents:* State and Local governments; Businesses or other for-profit, non-profit institutions—*Burden Information for Solicitation—Number of Respondents:* 125; *Burden per Response:* .25 hours; *Total Burden for Solicitation:* 31 hours; *Burden Information for Check List—Number of Respondents:* 125; *Burden per Response:* 1 hour; *Total Burden for Check List:* 125 hours; *Burden Information for Telephone Calls—Number of Respondents:* 13; *Burden per Response:* 625 hours; *Total Burden for telephone calls:* 16 hours; *Total Burden:* 172 hours.

OMB Desk Officer: Allison Eydt.

Copies of the information collection package listed above can be obtained by calling the OS Reports Clearance Officer on (202) 690-6207. Written comments and recommendations for the proposed information collection should be sent directly to the OMB desk officer designated above the following address:

Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, 725 17th Street, N.W., Washington, D.C. 20503.

Comments may also be sent to Cynthia Agens Bauer, OS Reports Clearance Officer, Room 503H, Hubert H. Humphrey Building, 200 Independence Ave S.W., Washington, D.C., 20201. Written comments should be received within 30 days of this notice.

Dated: June 1, 2000.

Dennis P. Williams,

Deputy Assistant Secretary, Budget.

BILLING CODE 4150-04-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES**Office of the Secretary****Grants and Cooperative Agreements Awards: Association of Schools of Public Health (ASPH)**

AGENCY: Office of International and Refugee Health, Office of Public Health and Science, DHHS

ACTION: The Office of Public Health and Science announces that it will enter into an umbrella cooperative agreement in fiscal year 2000 with the Association of Schools of Public Health (ASPH). This cooperative agreement will establish a framework in which specific projects, which will further department program objectives, will be funded as they are identified over the 5 year period of the agreement. This agreement will be administered by the Office of International and Refugee Health, which will award individual projects on behalf of the DHHS agencies. The cooperative agreement will establish a ceiling of \$6 million for the aggregate amount of the individual projects with funds to be obligated as the projects are funded.

SUMMARY: The purpose of the cooperative agreement with the Association of Schools of Public Health (ASPH) is to promote and sustain collaborations and partnerships between ASPH member schools and international schools of public health thereby improving the functions of these institutions, furthering the development of global public health professionals, and stimulating global public health policy.

This cooperative agreement is a collaborative effort between the Office of International and Refugee Health and the Association of Schools of Public Health (ASPH) to develop the next generation of professionals trained in public health and to promote and sustain the development of the global public health professional by facilitating collaborative efforts and partnerships between American schools of public health and schools abroad. These collaborations will include, but not be limited to, training opportunities such as internships and fellowships, research projects, exchanging information through publications, meetings, distance learning opportunities, and faculty exchanges. The collaborative effort will provide for a more diverse and globally capable public health workforce. In today's world, it is essential for public health workers both in the U.S. and abroad to be trained to address health issues in a global environment as well

as those in their own nations. This cooperative agreement will provide a mechanism to stimulate global public health education. Results from collaborative research can be used in curriculum development, publications, and presentations at national or international meetings and to contribute to the improvement of global health. International cooperation such as this serves to meet the objectives of Healthy People 2010. This cooperative agreement will assist the OIRH in its mission to promote the health of the world's population by advancing the Department of Health and Human Service's global strategies and partnerships, thus serving the health of the people of the United States.

This program addresses the 1997 IOM report titled, "America's Vital Interest in Global Health: Protecting Our People, Enhancing Our Economy, and Advancing Our International Interests." This IOM report states the need for public health workers to be exposed to international health training to deal with the health issues of a world that is growing more diverse, but closer due to international travel and commerce, for example, emerging and drug resistant infectious diseases in one country represent a threat to the health and economics of all countries. Tobacco is a global problem by virtue of global marketing and cultural development. Answers to these challenges requires global thinking, training, and collaboration.

AUTHORITY: This cooperative agreement is authorized by Section 307 of the Public Health Service Act.

Background

Assistance will be provided only to the Association of Schools of Public Health (ASPH). No other applications are solicited. ASPH is the only organization providing services specified under this cooperative agreement because:

1. ASPH represents the 29 accredited schools of public health in the United States. These schools represent the primary educational system that trains personnel to operate the Nation's public health agencies, and to administer disease prevention and health promotion programs. ASPH has the institutional knowledge of the needs of both the schools of public health and the public health agencies as well as the access and communications network to coordinate activities of the accredited schools of public health.

2. ASPH is the only organization that can comprehensively affect the development and implementation of international health curricula to public

health workers in all of its 29 member schools of public health and provide international experiences to students and faculty in the environment of public health organizations.

3. ASPH is uniquely positioned to partner with international practitioners of public health because of its affiliation with international organizations such as the Association of Schools of Public Health in the European Region (ASPHER), the World Federation of Public Health Associations, the Pan American Health Organization (PAHO), and the World Health Organization (WHO).

4. ASPH is working through its Global Health Committee to provide the framework for its member schools of public health and the practitioners of public health in Federal, State and local governments to partner and share their experience and expertise with international schools of public health, and to enable the international perspectives of Public health to be incorporated into curricula for teaching health administration, health promotion and disease prevention, prevention-based health service delivery and health research methods. This will assist future public health workers to improve the health of the people of the United States and the world and to reduce health disparities suffered by racial and ethnic minorities. Such exchanges will assure consistent approaches to the preparation of public health workers worldwide and their performance in controlling today's major global health issues.

5. ASPH provides the structure and experience for instituting comprehensive international public health education programs and implementing programs that strengthen the public system by preparing public health workers to work in international locations and with diverse populations.

Where To Obtain Additional Information

If you are interested in obtaining additional information regarding this project, contact *Jerry Rutkoski* at 301-443-4560.

Dated: June 2, 2000.

David Satcher,

Assistant Secretary for Health and Surgeon General.

BILLING CODE 4160-17-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-00-38]

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques for other forms of information technology. Send comments to Anne E. O'Connor, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

NIOSH Training Grants, 42 CFR Part 86, Application and Regulations (OMB No. 9020-0261)—Extension—National Institute for Occupational Safety and Health (NIOSH). Public law 91-596 requires CDC/NIOSH to provide an adequate supply of professionals to carry out the purposes of the Act to assure a safe and healthful work environment. NIOSH supports educational programs through training grant awards to academic institutions for the training of industrial hygienists, occupational physicians, occupational health nurses and safety professionals. Grants are provided to 15 Education and Research Centers (ERCs) which provide multi-disciplinary graduate academic and research training for professionals, continuing education for practicing professionals and outreach programs in the Region. There are also currently 41
