

2001 will be drawn from the Regulatory Determination category and are not duplicated under the Research or Occurrence Priorities categories.

A Research Plan has been prepared to describe the nature, timing and priority of research needed in order to meet the CCL research information needs of the Agency. The plan focuses on contaminants that are on CCL1. Nevertheless, it is important for some research to be conducted on emerging pathogens and chemicals to ensure that any future CCL includes contaminants that are of potential public health concern. The SAB has been asked to review this plan.

The DWC began its discussion of the CCL Research Plan at its meeting on August 8–9, 2000 (for further information, see 65 **Federal Register** 44051–44053). The charge questions were discussed by panelists and as a result of the discussions the Committee decided to prepare an Advisory to EPA noting its preliminary advice and the need for additional information [An SAB Advisory on EPA's Draft Contaminant Candidate List (CCL) Research Plan; EPA–SAB–DWC–ADV–00–007—copies are available at www.epa.gov/sab under the REPORTS heading]. The discussion at the January 11–12, 2001 DWC meeting will focus on the revised Research Plan and begin its drafting of the final report to the Administrator.

Charge to the Committee—EPA asks whether: (i) it considered the appropriate existing information about CCL contaminants in formulating the Plan; (ii) it identified the key science questions; (iii) they identified appropriate research by subject and scope to address the identified science questions; (iv) the relative priorities and timetable proposed for the planned research are appropriate; and (v) the process used to identify data gaps and prioritize research needs is sound.

Availability of Review Materials—Additional information on the materials provided to the Committee for its CCL Research Plan review can be obtained by contacting Dr. Robert Clark, US EPA, National Risk Management Research Laboratory, Cincinnati, OH by telephone at (513) 569–7201 or by e-mail at clark.robertm@epa.gov.

For Further Information—Any member of the public wishing further information concerning this meeting or wishing to submit brief oral comments (10 minutes or less) must contact Thomas O. Miller, Designated Federal Officer, Science Advisory Board (1400A), U.S. Environmental Protection

Agency, 1200 Pennsylvania Avenue, NW, Washington, DC 20460; telephone (202) 564–4558; FAX (202) 501–0582; or via e-mail at miller.tom@epa.gov. Requests for oral comments must be *in writing* (e-mail, fax or mail) and received by Mr. Miller no later than noon Eastern Time on August 2, 2000.

Providing Oral or Written Comments at SAB Meetings

It is the policy of the Science Advisory Board to accept written public comments of any length, and to accommodate oral public comments whenever possible. The Science Advisory Board expects that public statements presented at its meetings will not be repetitive of previously submitted oral or written statements.

Oral Comments: In general, each individual or group requesting an oral presentation at a face-to-face meeting will be limited to a total time of ten minutes. For teleconference meetings, opportunities for oral comment will usually be limited to no more than three minutes per speaker and no more than fifteen minutes total. Deadlines for getting on the public speaker list for a meeting are given above. Speakers should bring at least 35 copies of their comments and presentation slides for distribution to the reviewers and public at the meeting. **Written Comments:** Although the SAB accepts written comments until the date of the meeting (unless otherwise stated), written comments should be received in the SAB Staff Office at least one week prior to the meeting date so that the comments may be made available to the committee for their consideration. Comments should be supplied to the appropriate DFO at the address/contact information noted above in the following formats: one hard copy with original signature, and one electronic copy via e-mail (acceptable file format: WordPerfect, Word, or Rich Text files (in IBM-PC/Windows 95/98 format). Those providing written comments and who attend the meeting are also asked to bring 25 copies of their comments for public distribution.

General Information—Additional information concerning the Science Advisory Board, its structure, function, and composition, may be found on the SAB Website (<http://www.epa.gov/sab>) and in The FY1999 Annual Report of the Staff Director which is available from the SAB Publications Staff at (202) 564–4533 or via fax at (202) 501–0256. Committee rosters, draft Agendas and meeting calendars are also located on our website.

Meeting Access—Individuals requiring special accommodation at this meeting, including wheelchair access to the conference room, should contact Mr. Miller at least five business days prior to the meeting so that appropriate arrangements can be made.

II. Background

A. What Action is the Agency Taking?

The Agency has issued REDs for the pesticide active ingredients listed in this document. Under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended in 1988, EPA is conducting an accelerated reregistration program to reevaluate existing pesticides to make sure they meet current scientific and regulatory standards. The data base to support the reregistration of each of the chemicals listed in this document is substantially complete, and each pesticide's risks have been mitigated so that it will not pose unreasonable risks to people or the environment when used according to its approved labeling. In addition, EPA is reevaluating existing pesticides and reassessing tolerances under the Food Quality Protection Act (FQPA) of 1996. The pesticides included in this notice also have been found to meet the FQPA safety standard.

All registrants of pesticide products containing one or more of the active ingredients, listed in this document, have been sent the appropriate REDs, and must respond to labeling requirements and product-specific data requirements (if applicable) within 8 months of receipt. Products also containing other pesticide active ingredients will not be reregistered until those other active ingredients are determined to be eligible for reregistration.

The reregistration program is being conducted under Congressionally-mandated time frames, and EPA recognizes both the need to make timely reregistration decisions and to involve the public. Therefore, EPA is issuing these REDs as final documents with a 60-day comment period. Although the 60-day public comment period does not affect the registrant's response due date, it is intended to provide an opportunity for public input and a mechanism for initiating any necessary amendments to the REDs. All comments will be carefully considered by the Agency. If any comment significantly affects a RED, EPA will amend the RED by publishing the amendment in the **Federal Register**.

B. What is the Agency's Authority for Taking this Action?

The legal authority for these reregistration eligibility decisions falls under FIFRA, as amended in 1988 and 1996. FIFRA section 4(g)(2)(A) directs that, after submission of all data

concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," before calling in product-specific data on individual end-use products, and either reregistering products or taking "other appropriate regulatory action."
