

Powder River and Billings RMP areas. The Powder River RMP area consists of Treasure, Rosebud, Powder River, Carter, and portions of Custer and Big Horn counties. The Billings RMP area consists of Wheatland, Golden Valley, Musselshell, Sweet Grass, Stillwater, Yellowstone, Carbon, and a portion of Big Horn counties. The State of Montana will evaluate the effects of further permit applications in BLM's planning area and other areas around the state including portions of Blaine, Park and Gallatin counties. BLM and the state have drafted a Memorandum of Understanding to conduct a joint EIS. The joint EIS will analyze impacts to resources as a result of oil and gas, including coal bed methane, development.

The Powder River and Billings RMPs, as amended by BLM's 1994 "Oil and Gas Amendment of the Billings, Powder River and South Dakota RMPs" support limited conventional oil and gas development and coal bed methane exploration and production. Numerous conventional oil and gas wells are located on state and federal minerals in the planning area. An October 18, 2000 meeting of the Coal Bed Methane Coordination Group indicates that industry projects drilling approximately 10,000 coal bed methane wells in the Montana portion of the Powder River Basin over the next 10 years, in addition to an unspecified number of conventional oil and gas wells. In order to analyze an increased interest in oil and gas activity, an EIS and RMP amendment is being prepared.

The public is asked to assist the BLM and the State with identification of issues related to oil and gas development, including coal bed methane. Examples of potential issues (problems, concerns) are: Water (surface and ground), socioeconomics, soils, water, Air, vegetation and wildlife.

Alternatives will be developed to present a range of feasible management actions. The "No Action Alternative" will be included in accordance with 40 CFR 1502.14(d) and represent the continuation of current management.

Development of this RMP Amendment will require involvement of professionals from these disciplines: Air quality, cultural resources, economics, hazardous materials, hydrology, lands, realty, minerals, geology, paleontology, recreation, sociology, soils, vegetation, and wildlife.

Planning criteria help guide the development of the Amendment and EIS by focusing efforts where they are needed, providing direction for the plan, and identifying legal, policy, or regulatory constraints that direct or

limit BLM's ability to resolve issues. After taking into consideration the public's comments on the criteria, they will be finalized to help guide the plan.

The public will be provided the opportunity to review and comment on issues identified by BLM and the State, identify new issues, and comment on the Draft Planning Criteria. A mailing list is being developed and will be used to communicate with and solicit comments from local, state and federal agencies, Native American tribes, the Eastern Montana Resource Advisory Council, and the public at large that may be affected by the plan. As the planning process proceeds, these publics will be encouraged to participate.

Public information will be available at scoping meetings to be held at Broadus, Miles City, Ashland, Billings and Helena, Montana from January 4 through January 11, 2001. See **DATES** and **ADDRESSES** sections for specific meeting information.

The BLM and the State are seeking information from individuals, organizations, and agencies that may be affected by the plan. Specifically, we request any issues, concerns or alternatives that should be addressed in the plan amendment.

This notice meets the requirements of 40 CFR 1501.7 and 43 CFR 1610.2(c).

Dated: December 5, 2000.
