

Guidance for Fiscal Year 1997 and Future Years (May 1996), modified slightly to apply to Tribal programs rather than State programs. The entire guidance may be viewed at www.epa.gov/owow/nps/guide.html].

Elements of a Well-Designed Watershed Implementation Plan

A well-designed plan for a successful watershed implementation project typically includes the following:

1. Define the Problem

- *Identification of water quality threat or problem*—Information is provided on whether the water resource is threatened or its use is impaired from the Tribe's nonpoint source assessment report, 303(d) list, or other Tribal water quality assessment reports.

- *Critical areas*—The approximate size and location of the critical areas to be treated is identified on a map and quantified. The critical areas are of an appropriate size to ensure that the measures implemented will have a significant impact on restoring or protecting designated beneficial uses within the watershed.

2. Build a Project Team and Public Support

- *Institutional roles and responsibilities*—Roles and responsibilities of agencies and organizations active within the watershed are identified, regardless of funding source. All Tribal, Federal, and State agencies and other organizations that have potential roles to play in assisting in the design and implementation of the project are identified and included as appropriate in the project development and implementation process. Where possible, one agency at the local level is identified as the lead agency for the watershed project.

- *Information/education and public participation component*—The nonpoint source watershed plan documents how interested and affected public are or will be involved in the selection, design and implementation of the watershed project. Additionally, the educational activities to be conducted in the watershed project are identified, including a schedule. The project also includes a plan for communicating lessons learned to other areas of the Tribe through the Tribe's nonpoint source information and education program.

3. Set Goals and Identify Solutions

- *Nonpoint source control objectives*—The nonpoint source watershed plan describes what is expected to be accomplished in a two to five year period. Objectives relate to all the identified water quality problems, are quantitative, and make progress towards achieving implementation of technology-based measures or achieving Tribal water quality goals. For example, where water goals are not met and a 75 percent reduction of a particular pollutant is needed to achieve them, an objective might be to reduce the pollutant loadings to the waterbody by 75 percent.

4. Implement Controls

- *Implementation schedule*—A schedule describing the location and type of BMPs and programs to be implemented within the watershed and the projected time of

implementation are provided within the plan. The plan also includes an estimate of the costs of the planned activities.

5. Measure Success

- *Monitoring and evaluation*—Utilizing the project goals identified in the work plan, the plan should also provide an appropriate monitoring component to evaluate effectiveness, including ambient effects monitoring, beneficial use assessments, and environmental indicators (see Section II-A and Appendix B of the May 1996 nonpoint source guidance).

BILLING CODE 6560-50-P

FEDERAL COMMUNICATIONS COMMISSION

[CC Docket No. 92-237; DA 00-2822]

Next Meeting of the North American Numbering Council

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: On December 14, 2000, the Commission released a public notice announcing the January 16 and 17, 2001, meeting and agenda of the North American Numbering Council (NANC). The intended effect of this action is to make the public aware of the NANC's next meeting and its agenda.

FOR FURTHER INFORMATION CONTACT: Cheryl Callahan, Designated Federal Officer (DFO) at (202) 418-2320 or cchallaha@fcc.gov. The address is: Network Services Division, Common Carrier Bureau, Federal Communications Commission, The Portals, 445 12th Street, SW, Suite 6A207, Washington, DC 20554. The fax number is: (202) 418-2345. The TTY number is: (202) 418-0484.

SUPPLEMENTARY INFORMATION: Released: December 14, 2000.

The North American Numbering Council (NANC) has scheduled a meeting to be held Tuesday, January 16, 2001, from 8:30 a.m. until 5:00 p.m., and on Wednesday, January 17, from 8:30 a.m., until 12 noon. The meeting will be held at the Federal Communications Commission, Portals II, 445 12th Street, SW, Room TW-C305, Washington, DC.

This meeting is open to members of the general public. The FCC will attempt to accommodate as many participants as possible. The public may submit written statements to the NANC, which must be received two business days before the meeting. In addition, oral statements at the meeting by parties or entities not represented on the NANC

will be permitted to the extent time permits. Such statements will be limited to five minutes in length by any one party or entity, and requests to make an oral statement must be received two business days before the meeting. Requests to make an oral statement or provide written comments to the NANC should be sent to Cheryl Callahan at the address under **FOR FURTHER INFORMATION CONTACT**, stated above.

Proposed Agenda

1. Approval of November 28-29, 2000, meeting minutes.
2. NRO (Dkt No 99-200) Second Report and Order.
3. North American Numbering Plan Administration (NANPA) Report. 2Q00 Neutrality Audit dated Aug 17, NRUF Update, and Enterprise Services Update.
4. Report of NANPA Oversight Working Group. Status of NANPA Requirements and Status of NANPA Performance Review.
5. Report of Numbering Resource Optimization (NRO) Working Group. Final NRUF Requirements Document, Continuing Review of NANP-E, and Monitoring of State Pooling Trials.
6. Industry Numbering Committee Report. NANP-E Alternatives Presentation.
7. CTIA Presentation on Imminent Exhaust Procedures.
8. Report of Toll Free Access Codes IMG.
9. Report of the Local Number Portability Administration (LNPA) Working Group. Wireless Number Portability Subcommittee.
10. Report of Cost Recovery Working Group. Status of NBANC B&C Technical Requirements.
11. Steering Group Meeting. Table of NANC Projects, The Big Picture (outline), 2H00 NANC Meeting Dates.
12. Steering Group Report
13. Report from NBANC
14. Reseller CIC IMG status report
15. Oversight of LLCs NPAC
16. Meeting Procedures IMG
17. Public participation (5 minutes each, if any)
18. Other Business

Federal Communications Commission.

Diane Griffin Harmon,
Deputy Chief, Network Services Division,
Common Carrier Bureau.
