Initiatives

In addition to the general discussion mentioned above, NASA invites comments or questions relative to its ongoing Procurement Innovations, some of which include, but are not limited to, the following:

Focus on Safety & Health: This ensures that contractors take all reasonable safety and occupational health measures in performing NASA contracts.

Risk-Based Acquisition Management: This initiative seeks to integrate the principles of risk management throughout the acquisition process by purposefully considering the various aspects of risk when developing the acquisition strategy, selecting sources, choosing contract type, structuring fee incentives, and conducting contractor surveillance.

Consolidated Contracting Initiative: The CCI initiative emphasizes developing, using, and sharing contracts to meet Agency objectives.

Performance-Based Contracting: This initiative requires structuring all aspects of an acquisition around the purpose of the work to be performed as opposed to how the work is to be performed or broad and imprecise statements of work. It emphasizes quantifiable, measurable performance requirements and quality standards in developing statements of work, selecting contractors, determining contract type, incentives, and performing contract administration, including surveillance.

Award Term Initiative: This initiative will test a non-traditional method of motivating and rewarding contractor performance. Contractors will receive periodic performance evaluations and scores, which can result in an extension of the term of the contract in return for excellent performance.
