

A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

David P. Boergers,
Secretary.

DEPARTMENT OF ENERGY

Western Area Power Administration

Notice of Floodplain/Wetlands Involvement for the Boyd-Valley 115-kV Transmission Line Rebuild and Upgrade Project

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of floodplain/wetlands involvement.

SUMMARY: Western Area Power Administration (Western), a power marketing agency of the U.S. Department of Energy (DOE), is the lead Federal agency for a rebuild and upgrade of 2 miles of Western's existing Boyd-Valley 115-kilovolt (kV) transmission line, which is connected to Platte River Power Authority's (PRPA) Boyd and Valley 115-kV substations. This project is located in Loveland, Colorado. PRPA plans to replace Western's existing H-frame wood pole, 115-kV single-circuit transmission line with two new circuits constructed on double-circuit single-pole steel structures. The rebuild and upgrade will use the same right-of-way as the existing transmission line. Based on the Federal Emergency Management Administration (FEMA) flood insurance maps, the project area is within the 100-year floodplain (base flood) for the Big Thompson River. Approximately 1 mile of the project right-of-way is located within the designated 100-year floodplain. In accordance with the DOE's floodplain/wetland review requirements (10 CFR 1022), Western will prepare a floodplain/wetlands assessment and will perform the proposed actions in a manner so as to avoid or minimize potential harm to or within the affected floodplain/wetlands.

DATES: Comments on the proposed floodplain/wetlands action are due to the address below no later than January 11, 2001.

ADDRESSES: Comments should be addressed to Mr. Jim Hartman, Environment Manager, Rocky Mountain Customer Service Region, Western Area Power Administration, P.O. Box 3700, Loveland, CO 80539-3003, fax (970) 461-7213, email hartman@wapa.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Rodney Jones, Environmental Specialist, Rocky Mountain Customer Service Region, Western Area Power Administration, P.O. Box 3700, Loveland, CO 80539-3003, phone (970) 461-7371, email rjones@wapa.gov.

SUPPLEMENTARY INFORMATION: The proposal to rebuild and upgrade the Boyd-Valley transmission line would involve construction activities within the floodplain, including removal of 1 mile of the existing 115-kV wood pole H-frame transmission line and the construction of 1 mile of new double-circuit single-pole steel transmission line. The floodplain/wetlands assessment will examine the proposed rebuild and upgrade of the transmission line. The Boyd-Valley transmission line crosses the floodplain of the Big Thompson River in Larimer County, Colorado in T. 5N., R. 69W., Sections 23 and 24. Maps and further information are available from Western from the contact above.

Dated: December 14, 2000.

Michael S. Hacksaylo,
Administrator.

BILLING CODE 6450-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6923-1]

Policy on Alternative Dispute Resolution

AGENCY: Environmental Protection Agency.

ACTION: Notice.

SUMMARY: This document publishes the final policy of the United States Environmental Protection Agency (EPA) regarding the use of alternative dispute resolution ("ADR"). A draft of this policy was published in the **Federal Register** (65 FR 59837) on October 6, 2000, for public comment. The public comment period closed on December 5, 2000, and no comments were received. Therefore, EPA is republishing this policy as a final policy. Nothing in this

document creates any right or benefit by a party against the United States.

FOR FURTHER INFORMATION CONTACT: W. Robert Ward, Dispute Resolution Specialist, U.S. EPA, Ariel Rios Building, 1200 Pennsylvania Avenue, NW., (MC 2310A), Washington, DC, 20460; (202) 564-2922; *adr@epa.gov*.

SUPPLEMENTARY INFORMATION: This final policy is consistent with the Administrative Dispute Resolution Act of 1996 (Public Law 104-320, Oct. 19, 1996, 5 U.S.C. 571-583), which requires, in part, that each federal agency adopt a policy that addresses the use of ADR. It is also consistent with provisions of the Civil Justice Reform Act (Public Law 101-650, Dec. 1, 1990, 28 U.S.C. 471-482), the Alternative Dispute Resolution Act of 1998 (Public Law 105-315, Oct. 30, 1998, 28 U.S.C. 651-658), the Regulatory Negotiation Act of 1996 (Pub. Law 104-320, Oct. 19, 1996, 5 U.S.C. 561-570); the Federal Acquisition Streamlining Act (Pub. Law 103-355, Oct. 13, 1994, 41 U.S.C. 405); the Contracts Disputes Act (41 U.S.C. 601-613); Executive Order 12988, "Civil Justice Reform," February 5, 1996; Executive Order 12979, "Agency Procurement Protests," October 25, 1995; the Federal Acquisition Regulation (48 CFR 33.204); Equal Employment Opportunity Commission regulations (29 CFR part 1614); Presidential Memorandum, "Designation of Interagency Committees to Facilitate and Encourage Use of Alternative Means of Dispute Resolution and Negotiated Rulemaking," May 1, 1998; and the Report of the National Performance Review, "Creating a Government that Works Better and Costs Less," September 7, 1993.

EPA Policy on Alternative Dispute Resolution

Purpose

The U.S. Environmental Protection Agency (EPA or the Agency) strongly supports the use of alternative dispute resolution (ADR) to deal with disputes and potential conflicts. ADR refers to voluntary techniques for preventing and resolving conflict with the help of neutral third parties. Experience within this Agency and elsewhere shows that ADR techniques for preventing and resolving conflicts can have many benefits including:

- Faster resolution of issues;
- More creative, satisfying and enduring solutions;
- Reduced transaction costs;
- Fostering a culture of respect and trust among EPA, its stakeholders, and its employees;
- Improved working relationships;

- Increased likelihood of compliance with environmental laws and regulation;

- Broader stakeholder support for agency programs; and

- Better environmental outcomes.

ADR techniques can be effective in both internal Agency disagreements and external conflicts. ADR allows the Agency to have a more productive work environment and to work better with State, Tribal, and local governments, the regulated community, environmental and public health organizations, and the public. This policy is intended to be flexible enough to respond to the full range of disputes EPA faces, and to achieve these objectives:

- Promote understanding of ADR techniques;
- Encourage routine consideration of ADR approaches to anticipate, prevent, and resolve disputes;
- Increase the use of ADR in EPA business;
- Highlight the importance of addressing confidentiality concerns in ADR processes;
- Promote systematic evaluation and reporting on ADR at EPA; and
- Further the Agency's overall mission through ADR program development.

What does EPA mean by the term "ADR"?

EPA adopts the definition of ADR in the Administrative Dispute Resolution Act of 1996 (ADRA): "any procedure that is used to resolve issues in controversy, including but not limited to, conciliation, facilitation, mediation, fact finding, minitrials, arbitration, and use of ombuds, or any combination thereof." 5 U.S.C. 571(3). All these techniques involve a neutral third party. Depending on the circumstances of a particular dispute, neutrals may be Agency employees or may come from outside EPA. Typically, all aspects of ADR are voluntary, including the decision to participate, the type of process used, and the content of any final agreement.

In what types of situations does EPA encourage the use of ADR?

EPA encourages the use of ADR techniques to prevent and resolve disputes with external parties in many contexts, including adjudications, rulemaking, policy development, administrative and civil judicial enforcement actions, permit issuance, protests of contract awards, administration of contracts and grants, stakeholder involvement, negotiations, and litigation. In addition, EPA encourages the use of ADR techniques

to prevent and resolve internal disputes such as workplace grievances and equal employment opportunity complaints, and to improve labor-management partnerships.

While ADR may be appropriate in any of these contexts, the decision to use an ADR technique in a particular matter must reflect an assessment of the specific parties, issues, and other factors. Considerations relevant to the appropriateness of ADR for any particular matter include, at a minimum, the guidelines in section 572 of the ADRA and any applicable Agency guidance on particular ADR techniques or ADR use in specific types of disputes. ADR program staff at EPA headquarters and in the Regions can help the parties assess whether and which form of ADR should be used in a particular matter.

How is EPA organized to support ADR?

EPA's Conflict Prevention and Resolution Center (CPRC) in the Office of General Counsel (OGC) provides ADR services to the entire Agency. The Agency's Dispute Resolution Specialist, designated under the ADRA, is the head of the CPRC. Because the Dispute Resolution Specialist's responsibilities include development and implementation of all Agency ADR policy, Headquarters Offices and Regions are expected to coordinate with the CPRC from the earliest stages in developing any program-specific ADR guidance and in addressing issues during ADR policy implementation. The CPRC also will administer Agency-wide ADR programs, coordinate case management and evaluation, and provide support to program-specific ADR activities. Building on existing ADR efforts at EPA, the CPRC assists other Agency offices in developing effective ways to anticipate, prevent, and resolve disputes, and makes neutral third parties more readily available for those purposes.

Other EPA offices, including the Office of Enforcement and Compliance Assurance, and the Office of Administrative Law Judges, are using ADR to resolve conflicts between the Agency and regulated entities. The Office of Policy, Economics and Innovation and the Office of Cooperative Environmental Management, in partnership with many EPA program offices, use ADR to provide opportunities for stakeholders to contribute to the design of Agency actions that affect them.

EPA Regions have ADR programs that meet their particular needs. For example, in some cases, EPA Regions have identified staff experts to coordinate workplace, enforcement, and

other ADR activities. EPA Regions have also used internal and external neutral third parties to foster stakeholder involvement, resolve workplace disputes, help in organizational problem-solving, and mediate enforcement cases. The CPRC will continue to provide support to existing Regional ADR programs and is available to help in developing new ADR efforts.

Anyone interested in exploring the possibility of ADR in an EPA matter can contact the CPRC, a Regional ADR program, or a program office with an established ADR function for information and assistance regarding mechanics, process design, or advice on what to expect from an ADR process.

How should confidentiality be handled in ADR processes?

A thorough discussion of confidentiality is often critical to success in ADR. It is EPA's policy to maintain confidentiality in ADR processes consistent with the ADRA and other applicable law. Section 574 of the ADRA reflects a balancing of the need for confidentiality in ADR with the dual goals of open government and effective law enforcement. Other federal laws may impact the confidentiality of information in specific cases, potentially compelling disclosure or enhancing protection against disclosure (e.g., Inspector General Act, Freedom of Information Act, Privacy Act). The CPRC can provide further information on authorities that may impact confidentiality in a federal ADR process.

The confidentiality needs and concerns of the parties must be discussed early in every ADR process. EPA staff, the parties, and the neutral third party should be aware of how confidentiality operates in the context of federal ADR. Within this context, the parties and the neutral third party should work together to establish a common understanding of how confidentiality protections apply in a specific process. In most cases, this understanding should be recorded in a written confidentiality agreement. This initial work will benefit all parties by clarifying expectations regarding confidentiality before full initiation of the ADR process.

How will EPA promote commitment to and awareness of ADR within the Agency?

Information Sources: The CPRC, in consultation with Agency program offices and Regions, will compile existing information and develop additional information on ADR practice at EPA and will make this information available to EPA personnel through a

website and through the CPRC. Information may include model agreements to mediate, case selection criteria, descriptions of ADR processes, mechanisms for accessing external neutral third parties, case studies, guidance on confidentiality and evaluating ADR processes, directories of EPA ADR contacts, bibliographies, and links to external sources of information.

Training: The Agency strongly encourages all EPA personnel to learn about ADR. Training is crucial not only for those selected to serve as in-house neutrals, but also for negotiators and others who need to understand how ADR can enhance negotiation and agency decision making. The Dispute Resolution Specialist will identify and recommend relevant ADR training. Training sources may include existing EPA training programs, training sponsored by other agencies, newly developed courses, and commercially available training.

This policy affirms a goal of EPA's Labor/Management Partnership Strategic Plan (Spring 2000) to train line managers, first line supervisors, Federal union representatives and other employees in consensual methods of dispute resolution such as ADR and interest-based negotiation. Finally, the Agency will add skills in negotiation and alternative dispute resolution to its inventory of desirable management characteristics used to prepare and select managers for the Senior Executive Service.

Mentoring: The Agency encourages those with ADR experience to share their expertise with other Agency personnel. Mentoring and apprenticing can strengthen EPA's ADR program by expanding the number of staff with ADR skills, increasing opportunities to practice ADR techniques, and providing for exchange between more and less experienced ADR professionals.

Funding: Costs associated with ADR processes, including fees for external neutral third parties, are typically paid in whole or in part by the sponsoring EPA office. Depending on the circumstances, other parties or offices also contribute. The Agency expects each program office at Headquarters and each Region to demonstrate a commitment to ADR by making funds available for ADR processes.

How will EPA measure the success of its ADR programs?

Many federal agencies have shown significant time and money savings from the use of ADR and have received intangible benefits such as improved relationships and broader stakeholder support for their programs. Evaluation is

an important way to identify these savings and benefits and is key to systematic improvement of ADR programs. Through evaluation, EPA is committed to measuring the success of its ADR programs and continually improving them to better meet the needs of EPA offices, Regions, and external stakeholders.

Several EPA offices and Regions have already evaluated their ADR efforts. To build on these evaluations and to strengthen the evaluation component of ADR practice across the Agency, the CPRC, consulting with internal and external stakeholders, will develop an evaluation system for ADR at EPA. The evaluation system will include goals and both qualitative and quantitative measures of success.

Where can I get additional information or help with ADR at EPA?

Additional information on ADR contacts within EPA, topics covered in this policy, and others, may be obtained from the CPRC at (202) 564-2922; adr@epa.gov.

What is the legal authority for this policy?

This policy satisfies the requirement of the Administrative Dispute Resolution Act of 1996, 5 U.S.C. 571-583, that each federal agency adopt a policy that addresses the use of ADR. The policy is also consistent with the following federal statutes, regulations, and orders:

- Regulatory Negotiation Act of 1996, 5 U.S.C. 561-570.
- Civil Justice Reform Act, 28 U.S.C. 471-482.
- Alternative Dispute Resolution Act of 1998, 28 U.S.C. 651-658.
- Federal Acquisition Streamlining Act, 41 U.S.C. 405.
- Contracts Disputes Act, 41 U.S.C. 601-613.
- Federal Acquisition Regulation, 48 CFR 33.103 & 33.204.
- Federal Sector Equal Employment Opportunity Regulations, 29 CFR part 1614.
- Civil Justice Reform, Executive Order 12988, 61 FR 4729 (Feb. 5, 1996).
- Agency Procurement Protests, Executive Order 12979, 60 FR 55171 (Oct. 27, 1995).
- Presidential Memorandum, "Designation of Interagency Committees to Facilitate and Encourage Use of Alternative Means of Dispute Resolution and Negotiated Rulemaking," May 1, 1998.

Dated: December 18, 2000.

FEDERAL DEPOSIT INSURANCE CORPORATION

Sunshine Act Meeting; Notice of Agency Meeting

Pursuant to the provisions of the "Government in the Sunshine Act" (5 U.S.C. 552b), notice is hereby given that at 11:28 a.m. on Thursday, December 21, 2000, the Board of Directors of the Federal Deposit Insurance Corporation met in closed session to consider supervisory, resolution, corporate, and personnel matters.

In calling the meeting, the Board determined, on motion of Director Ellen S. Seidman (Director, Office of Thrift Supervision), seconded by Vice Chairman Andrew C. Hove, Jr., concurred in by Director John D. Hawke, Jr. (Comptroller of the Currency), and Chairman Donna Tanoue, that Corporation business required its consideration of the matters on less than seven days' notice to the public; that no earlier notice of the meeting was practicable; that the public interest did not require consideration of the matters in a meeting open to public observation; and that the matters could be considered in a closed meeting by authority of subsections (c)(2), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B) of the "Government in the Sunshine Act" (5 U.S.C. 552b(c)(2), (c)(6), (c)(8), (c)(9)(A)(ii), and (c)(9)(B)).

The meeting was held in the Board Room of the FDIC Building located at 550-17th Street, NW., Washington, DC.

Dated: December 21, 2000.
Federal Deposit Insurance Corporation.

James D. LaPierre,
Deputy Executive Secretary.
