

Continuation of Suspension of Liquidation

We are directing the Customs Service to continue to suspend liquidation of entries of subject merchandise from Coprosider that are entered, or withdrawn from warehouse, for consumption on or after May 4, 2000, and to continue to suspend liquidation of any imports from other companies of subject merchandise entered, or withdrawn from warehouse, for consumption on or after August 2, 2000. We will instruct the Customs Service to require a cash deposit or the posting of a bond equal to the weighted-average amount by which the normal value exceeds the U.S. price, as indicated in the chart below. These suspension-of-liquidation instructions will remain in effect until further notice.

The margins in the final determination are as follows:

	Margin (Percent)
Exporter/Manufacturer:	
Coprosider	26.59
All Others	26.59

ITC Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission ("ITC") of our determination. As our final determination is affirmative, the ITC will, within 45 days, determine whether these imports are materially injuring, or threaten material injury to, the U.S. industry. If the ITC determines that material injury, or threat of material injury does not exist, the proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing Customs officials to assess antidumping duties on all imports of the subject merchandise entered for consumption on or after the effective date of the suspension of liquidation.

This determination is issued and published in accordance with sections 735(d) and 777(i)(1) of the Act.

Dated: December 15, 2000.

Troy H. Cribb,

Assistant Secretary for Import Administration.

University of Florida; Notice of Decision on Application for Duty-Free Entry of Scientific Instrument

This decision is made pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897; 15 CFR part 301). Related records can be viewed between 8:30 A.M. and 5:00 P.M. in Room 4211, U.S. Department of Commerce, 14th and Constitution Avenue, NW., Washington, DC.

Docket Number: 00-033. *Applicant:* University of Florida, Gainesville, FL 32611. *Instrument:* Multi-Sensor Core Logger. *Manufacturer:* GEOTEK Ltd., United Kingdom. *Intended Use:* See notice at 65 FR 65296, November 1, 2000.

Comments: None received. *Decision:* Approved. No instrument of equivalent scientific value to the foreign instrument, for such purposes as it is intended to be used, is being manufactured in the United States.

Reasons: The foreign instrument provides extraction of sediment cores for measurements of P-wave velocity, density, magnetic susceptibility, core thickness and high resolution color images. Woods Hole Oceanographic Institution and a university oceanography department advise that (1) these capabilities are pertinent to the applicant's intended purpose and (2) they know of no domestic instrument or apparatus of equivalent scientific value to the foreign instrument for the applicant's intended use.

We know of no other instrument or apparatus of equivalent scientific value

to the foreign instrument which is being manufactured in the United States.
