

determination within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary determination is published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days and for the final determination to 180 days (or 300 days if the Department does not extend the time limit for the preliminary determination) from the date of publication of the preliminary determination.

Background

On August 30, 1999, the Department published a notice of initiation of administrative review of the antidumping duty order on Silicon Metal from Brazil, covering the period July 1, 1998 through June 30, 1999 (64 FR 47167). The preliminary results are currently due no later than April 1, 2000.

Extension of Time Limit for Preliminary Results of Review

We determine that it is not practicable to complete the preliminary results of this review within the original time limit. Therefore, the Department is extending the time limit for completion of the preliminary results until no later than July 30, 2000. See Decision Memorandum from Thomas Futtner to Holly A. Kuga, dated February 25, 2000, which is on file in the Central Records Unit, Room B-099 of the main Commerce building. We intend to issue the final results no later than 120 days after the publication of the preliminary results notice.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: February 25, 2000.

Holly A. Kuga,

Acting Deputy Assistant Secretary, Import Administration, Group II.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 022500D]

North Carolina and Louisiana Commercial King and/or Spanish Mackerel Fishermen Pilot Economic Survey

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Proposed Collection; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

DATES: Written comments must be submitted on or before May 1, 2000.

ADDRESSES: Direct all written comments to Linda Engelmeier, Departmental Forms Clearance Officer, Department of Commerce, Room 507, 14th and Constitution Avenue NW, Washington DC 20230 (or via the Internet at LEngelme@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to John Vondruska, Department of Commerce, NCAA, National Marine Fisheries Service, Fisheries Economics Office, 9721 Executive Center Drive N., St. Petersburg, FL 33702.

SUPPLEMENTARY INFORMATION:

I. Abstract

The North Carolina and Louisiana Commercial King and/or Spanish Mackerel Fishermen Pilot Economic Survey will consist of telephone screening with in-person interviews of commercial fishermen in North Carolina and Louisiana possessing Federal commercial mackerel fishing permits. The survey will provide NMFS with economic information to better estimate the effects of regulations proposed for the King and Spanish mackerel commercial fisheries. The survey will also provide a better basis for designing statistically-random surveys for other strata of the population of boats that engage in these and other fisheries in a seasonally-complex round of economic activity throughout the Southeast

(coastal states from North Carolina to Texas). Monitoring of these fisheries is required under the Magnuson-Stevens Fishery Conservation and Management Act.

II. Method of Collection

The information sought will be collected through telephone screener interviews and in-person data collection. The frame of vessels in North Carolina and Louisiana holding Federal commercial mackerel fishing permits will be randomly sampled (separately by state).

III. Data

OMB Number: None.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations (commercial mackerel fishermen in North Carolina and Louisiana).

Estimated Number of Respondents: 103.

Estimated Time Per Response: Average response times are estimated at 12 minutes per telephone screening interview, 15 minutes per captain interview, 20 minutes per owner interview, and 45 minutes (15 minutes x 3 times) per typical trip interview for a total time of 92 minutes per respondent.

Estimated Total Annual Burden Hours: 160 hours.

Estimated Total Annual Cost to Public: \$0 (no capital expenditures).

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: February 24, 2000

SUPPLEMENTARY INFORMATION:

I. Abstract

Fishermen wanting to fish in regulated fisheries in the Exclusive Economic Zone off Alaska must apply for a Federal Fisheries Permit, a Federal Processor Permit, a High Seas Power Troller Permit, or an Experimental Fishing Permit. The issuance of a permit is an essential ingredient in the management of fishery resources. Identification of the participants, harvest gear types, descriptions of vessels or shoreside facilities, and expected activity levels is needed to measure the consequences of management controls, and is an effective tool in the enforcement of

other fishery regulations. Experience has shown that fines for violations of specific fishery regulations are not as effective as the threat of a permit revocation that would exclude the vessel from the fishery altogether. Experimental fishing provides information not otherwise available through research or commercial fishing operations.

II. Method of Collection

Each of the four permits is mandatory for certain fishery participants. A permit is obtained through completion of an application form.

III. Data

OMB Number: 0648-0206.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Individuals or households; business or other for-profit organizations.

Estimated Number of Respondents: 2,814.

Estimated Time Per Response: 20 minutes for a Federal Fisheries Permit or Federal Processor Permit application, 30 minutes for applications for a Scallop Moratorium Permit Transfer or High Seas Power Troller Permit in the Salmon Fishery, and 30 hours for an Experimental Fishing Permit application.

Estimated Total Annual Burden Hours: 358.

Estimated Total Annual Cost to Public: \$1,413.

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council and the New England Fishery Management Council Scientific and Statistical Committees (SSC) will hold a joint public meeting.

DATES: The meeting will be held on Monday, March 13, 2000, from 10:00 a.m.- 5:00 p.m.

ADDRESSES: This meeting will be held at the Sheraton International Hotel at Baltimore International Airport, 7032 Elm Road, Baltimore, MD; telephone 410-859-3300.

Council address: Mid-Atlantic Fishery Management Council, 300 S. New Street, Dover, DE 19904, telephone 302-674-2331.

FOR FURTHER INFORMATION CONTACT: Daniel T. Furlong, Executive Director, Mid-Atlantic Fishery Management Council; telephone: 302-674-2331, ext. 19.

SUPPLEMENTARY INFORMATION: The Mid-Atlantic and New England Fishery Management Councils recently initiated management of spiny dogfish (*Squalus acanthias*) pursuant to the Magnuson-Stevens Fishery Conservation and Management Act of 1976 as amended by the Sustainable Fisheries Act through the development of the Spiny Dogfish Fishery Management Plan (FMP). The New England and Mid-Atlantic Fishery Management Councils adopted recommendations relative to second year management measures for spiny dogfish at their respective meetings in November and December 1999. The Councils failed to reach agreement relative to the preferred measures for spiny dogfish in 2000-2001. As such, the respective measures recommended by each Council were presented to the Regional Administrator. The FMP specifies that the Regional
