

generating the request, storing, filing, and maintaining the data. The additional reporting requirement is estimated to be 100 additional PMNs over and above the current annual projections of PMN submissions. The ICR projects about 185,000 burden hours annually. An additional 100 PMNs at 100 hours each would be covered by this current estimate.

As defined by the PRA and 5 CFR 1320.3(b), "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

V. Submission to Congress and the Comptroller General

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, does not apply because this action is not a rule for purposes of 5 U.S.C. 804(3). Nevertheless, EPA has provided a courtesy copy of this action to each House of the Congress and the Comptroller General of the United States.
