

Title: Fruits, Nuts, and Specialty Crops Surveys.

OMB Control Number: 0535-0039.

Expiration Date of Approval: 09/30/01.

Type of Request: To extend a currently approved information collection.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue state and national estimates of crop and livestock production. The Fruits, Nuts, and Specialty Crops survey program collects information on acreage, yield, production, price, and value of citrus and non-citrus fruits and nuts and other specialty crops in States with significant commercial production. The program provides data needed by the U.S. Department of Agriculture and other government agencies to administer programs and to set trade quotas and tariffs. State Departments of Agriculture and universities also use forecasts and estimates provided by these surveys.

The Fruits, Nuts, and Specialty Crops Program was last approved by OMB in 1998 for a 3-year period. NASS intends to request that the survey be approved for another 3 years.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 17 minutes per response.

Respondents: Producers, processors, and handlers.

Estimated Number of Respondents: 53,000.

Estimated Total Annual Burden on Respondents: 17,000 hours.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

Copies of this information collection and related instructions can be obtained without charge from Ginny McBride, the Agency OMB Clearance Officer, at (202) 720-5778.
