

suspend liquidation of all entries of welded large diameter line pipe from Japan that are entered, or withdrawn from warehouse, for consumption on or after the date of publication of this notice in the **Federal Register**. We will instruct Customs to require a cash deposit or the posting of a bond equal to the amount by which the NV exceeds the EP, as indicated in the chart below. These suspension-of-liquidation instructions will remain in effect until further notice. The dumping margins are as follows:

Manufacturer/exporter	Margin (percent)
Nippon Steel Corporation (Nippon) .....	30.80
Kawasaki Steel Corporation (Kawasaki) .....	30.80
All Others .....	30.80

#### ITC Notification

In accordance with section 733(f) of the Act, we have notified the ITC of our determination. If our final antidumping determination is affirmative, the ITC will determine whether these imports are materially injuring, or threaten material injury to, the U.S. industry. The deadline for that ITC determination would be the later of 120 days after the date of this preliminary determination or 45 days after the date of our final determination.

#### Public Comment

Case briefs must be submitted no later than 50 days after the publication of this notice in the **Federal Register**. Rebuttal briefs must be filed within five days after the deadline for submission of case briefs. A list of authorities used, a table of contents, and an executive summary of issues should accompany any briefs submitted to the Department. Executive summaries should be limited to five pages total, including footnotes. Public versions of all comments and rebuttals should be provided to the Department and made available on diskette.

Section 774 of the Act provides that the Department will hold a hearing to afford interested parties an opportunity to comment on arguments raised in case or rebuttal briefs, provided that such a hearing is requested by any interested party. If a request for a hearing is made in an investigation, the hearing will tentatively be scheduled for two days after the deadline for submission of the rebuttal briefs, at the U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230. In the event that the Department receives requests for hearings from parties to more than one large diameter line pipe

case, the Department may schedule a single hearing to encompass all cases. Parties should confirm by telephone the time, date, and place of the hearing 48 hours before the scheduled time.

Interested parties who wish to request a hearing, or to participate if one is requested, must submit a written request within 30 days of the publication of this notice. Requests should specify the number of participants and provide a list of the issues to be discussed. Oral presentations will be limited to issues raised in the briefs.

If this investigation proceeds normally, we will make our final determination in this investigation no later than 75 days after the date of this preliminary determination.

This determination is published pursuant to sections 733(f) and 777(i)(1) of the Act.

Dated: June 19, 2001.

##### Announcing Approval of Federal Information Processing Standard (FIPS) 140-2, Security Requirements for Cryptographic Modules

**AGENCY:** National Institute of Standards and Technology (NIST), Commerce.

**ACTION:** Notice.

**SUMMARY:** The Secretary of Commerce approves FIPS 140-2, Security Requirements for Cryptographic Modules, which supersedes FIPS Standard 140-1, and makes it compulsory and binding on Federal agencies for the protection of sensitive, unclassified information, FIPS 140-1, which was first published in 1994, specified that it would be reviewed within five years. FIPS 140-2 is the result of the review and replaces FIPS 140-1.

**DATE:** This standard is effective November 25, 2001.

**FOR FURTHER INFORMATION CONTACT:** Mr. Ray Snouffer, (301) 975-4436, National Institute of Standards and Technology, 100 Bureau Drive, STOP 8930, Gaithersburg, MD 20899-8930.

A copy of FIPS 140-2 is available electronically from the NIST website at: <<http://csrc.nist.gov/cryptval/>>

**SUPPLEMENTARY INFORMATION:** FIPS 140-1, Security Requirements for Cryptographic Modules, first issued in 1994, identified requirements for four security levels for cryptographic modules to provide for a wide spectrum of data sensitivity (e.g., low value administrative data, million dollar funds transfers, and life protecting data), and a diversity of application environments. Over 140 modules have been tested by accredited private-sector laboratories and validated to-date as conforming to this standard. The standard provided that it be reviewed within five years to consider its continued usefulness and to determine whether new or revised requirements should be added.
