

The advisory board will meet at 8:30 a.m. for the regular business meeting to discuss the following subjects.

- Approval of Minutes of Previous Meeting 5/30–5/31/01
- Report of findings by the handcraft subcommittee
- Rate Approval Program
- Discussion and Preparation of outline for report to the Congress
- Agenda for next meeting
- Date for next meeting

The meeting will be open to the public, however, facilities and space for accommodating members of the public are limited, and persons will be accommodated on a first-come-first-served basis.

Assistance to Individuals With Disabilities at the Public Meeting

The meeting site is accessible to individuals with disabilities. If you plan to attend and will need an auxiliary aid or service to participate in the meeting (e.g., interpreting service, assistive listening device, or materials in an alternate format), notify the contact person listed in this notice at least 2 weeks before the scheduled meeting date. Attempts will be made to meet any request(s) we receive after that date, however, we may not be able to make the requested auxiliary aid or service available because of insufficient time to arrange for it.

In light of the events which took place on September 11, 2001, and a recent attempt to relocate National Park Service administrative personnel and offices affecting the publication of notices this notice could not be published at least 15 days prior to the meeting date. The National Park Service regrets these events, but is compelled to hold the meeting as scheduled because of the significant sacrifice re-scheduling would require of committee members who have adjusted their schedules to accommodate the proposed meeting dates, and the high level of anticipation by all parties who will be affected by the outcome of the Board's actions.

Anyone may file with the Board a written statement concerning matters to be discussed. The Board may also permit attendees to address the Board, but may restrict the length of the presentations, as necessary to allow the Board to complete its agenda within the allotted time.

Interested persons may make oral/written presentations to the Advisory Board during the business meeting or file written statements. Such requests should be made to the Director, National Park Service, Attention: Manager, Concession Program, at least 7 days

prior to the meeting. Further information concerning the meeting may be obtained from National Park Service, Concession Program, 1849 C Street NW, Room 7313, Washington, DC 20240, Telephone, 202/565-1210.

Draft minutes of the meeting will be available for public inspection approximately 6 weeks after the meeting, in room 7313, Main Interior Building, 1849 C Street, NW, Washington, DC.

Fran P. Mainella,

Director, National Park Service.

SUPPLEMENTARY INFORMATION:

I. Background

The Coal Mine Health and Safety Act of 1969 was amended by the Federal Mine Safety and Health Act of 1977 after the Buffalo Creek dam failure in 1972 in West Virginia. The refuse pile and impound standards, Title 30 CFR sections 77.215 and 77.216 had been enacted earlier in 1975 and were incorporated into the Act. Additional parts of these Sections were promulgated and enacted in 1992.

The standards require that the agency approve prudently engineered design plans for dams and their impoundments, as well as the plans for hazardous refuse piles that are routinely constructed by coal mine operators. Plan revisions are also required to be submitted for approval. In addition, the standards also require plans when one of these sites is to be abandoned. And plans are required when spontaneous fires erupt and need to be extinguished at the burning site. Records of weekly inspections and instrument monitoring are also required to ensure that the sites remain safe. Finally, the mine operators are also required to submit an annual status report and certification that guarantees that the site is being constructed in accordance with the approved plan, and the site has not been altered during the construction year.

II. Desired Focus of Comments

Currently, the Mine Safety and Health Administration (MSHA) is soliciting comments concerning the proposed extension of the information collection related to Refuse Piles and Impound Structures, Recordkeeping and
