

directed fishing for Pacific cod by vessels catching Pacific cod for processing by the inshore component in the Central Regulatory Area of the GOA. Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

**Classification**

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to prevent exceeding the amount of the 2001 A season Pacific cod TAC specified for the inshore component in the Central Regulatory Area constitutes good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B) and 50 CFR 679.20(b)(3)(iii)(A), as such procedures would be unnecessary and contrary to the public interest. Similarly the need to implement these measures in a timely fashion to prevent exceeding the 2001 A season Pacific cod TAC specified for the inshore component in the Central Regulatory Area constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

**Fisheries of the Exclusive Economic Zone Off Alaska; Western Alaska Community Development Quota Program**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Final rule.

**SUMMARY:** NMFS issues a final rule implementing Amendment 66 to the Fishery Management Plan for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area (FMP) and defining directed fishing for pollock CDQ. Amendment 66 removes the allocation of squid to the Western Alaska Community Development Quota (CDQ) Program to prevent the catch of squid from limiting the catch of pollock CDQ. The regulatory amendment defining directed fishing for pollock CDQ implements the intent of the American Fisheries Act (AFA) that only pollock caught while directed fishing for pollock CDQ accrue against the pollock CDQ allocation. Pollock caught incidentally in other groundfish CDQ fisheries will accrue against the pollock incidental catch allowance (ICA) established under the AFA. In addition, this definition allows NMFS to enforce closures to directed fishing for pollock CDQ in areas such as Steller Sea Lion conservation area or the Chinook Salmon Savings Area. This action is necessary to implement Amendment 66 and the CDQ Program-related provisions of the AFA. NMFS expects it to further the goals and objectives of the FMP.

**DATES:** Effective April 6, 2001.

**ADDRESSES:** Copies of Amendment 66 to the FMP, the two Environmental Assessment/Regulatory Impact Review/Initial Regulatory Flexibility Analyses (EA/RIR/IRFA), or the single Final Regulatory Flexibility Analysis (FRFA) prepared for these actions are available
