

Executive Order 13236 of November 27, 2001

Waiver of Dual Compensation Provisions of the Central Intelligence Agency Retirement Act of 1964

By the authority vested in me as President by the Constitution and the laws of the United States of America, including section 292 of the Central Intelligence Agency Retirement Act of 1964, as amended (50 U.S.C. 2141), and in order to conform the Central Intelligence Agency Retirement and Disability System to the Civil Service Retirement and Disability System, it is hereby ordered as follows:

Section 1. The Director of Central Intelligence may waive the application of the dual compensation reduction provisions of sections 271 and 273 of the Central Intelligence Agency Retirement Act (50 U.S.C. 2111 and 2113) for an employee serving on a temporary basis, but only if, and for so long as, the authority is necessary due to an emergency involving a direct threat to life or property or other unusual circumstances. Employees who receive both salary and annuity pursuant to this authority may not earn additional retirement benefits during this period of employment. This authority may be delegated as appropriate.

Sec. 2. Nothing contained in this order is intended to create, nor does it create, any right, benefit, or privilege, substantive or procedural, enforceable at law by a party against the United States, its agencies, officers, employees, or any other person.

GEORGE W. BUSH

THE WHITE HOUSE,
November 27, 2001.

Executive Order 13237 of November 28, 2001

Creation of the President's Council on Bioethics

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Establishment. There is established the President's Council on Bioethics (the "Council").

Sec. 2. Mission.

(a) The Council shall advise the President on bioethical issues that may emerge as a consequence of advances in biomedical science and technology. In connection with its advisory role, the mission of the Council includes the following functions:

(1) to undertake fundamental inquiry into the human and moral significance of developments in biomedical and behavioral science and technology;

(2) to explore specific ethical and policy questions related to these developments;

(3) to provide a forum for a national discussion of bioethical issues;
