**SUPPLEMENTARY INFORMATION:** In a notice published in the *Federal Register* of June 7, 2000 (65 FR 36148), FDA announced that a color additive petition (CAP 0C0271) had been filed by Wesley Jessen, Corp., 333 East Howard Ave., Des Plaines, IL 60018 (now Ciba Vision Corp., 11460 Johns Creek Pkwy., Duluth, GA 30097-1556). The petition proposed to amend the color additive regulations to provide for the safe use of mica to color contact lenses.

During its review of the petition, the agency determined that the subject color additives are composite pigments, commonly known as pearlescent pigments, composed of mica coated with iron oxides or mica coated with titanium dioxide. Therefore, FDA is amending the filing notice of June 7, 2000, to state that the petition proposes that the color additive regulations in 21 CFR part 73 subpart D—Medical Devices be amended to provide for the safe use of mica coated with iron oxides or mica coated with titanium dioxide, collectively identified as mica-based pearlescent pigments, in contact lenses.

The agency has determined under 21 CFR 25.32(l) that this action is of a type that does not individually or cumulatively have a significant effect on the human environment. Therefore, neither an environmental assessment nor an environmental impact statement is required.
