

DEPARTMENT OF COMMERCE**International Trade Administration**

[A-351-832]

Notice of Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination: Carbon and Certain Alloy Steel Wire Rod from Brazil; Correction

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: May 24, 2002.

SUMMARY: The notice appearing in 67 FR 18586, on Tuesday, April 16, 2002, should be disregarded because it duplicates the notice appearing in 67 FR 18165, on Monday, April 15, 2002. Therefore, the effective date of the preliminary determination is April 15, 2002.

FOR FURTHER INFORMATION CONTACT: Vicki Schepker or Christopher Smith, at (202) 482-1756 or (202) 482-1442, respectively; AD/CVD Enforcement Group II Office 5, Import Administration, Room 1870, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230.

Dated: May 20, 2002

Bernard T. Carreau,
Deputy Assistant Secretary for Group II,
Import Administration.

BILLING CODE 3510-DS-S

DEPARTMENT OF COMMERCE**International Trade Administration**

[A-570-870]

Notice of Final Determination of Sales at Less Than Fair Value: Certain Circular Welded Carbon-Quality Steel Pipe from the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: May 24, 2002.

FOR FURTHER INFORMATION CONTACT: Alex Villanueva or Amy Ryan at (202) 482-3208 and (202) 482-0961, respectively, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

The Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 ("the Act") by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department of Commerce ("Department") regulations are to the regulations at 19 C.F.R. Part 351 (2001).

Final Determination

We determine that certain circular welded carbon-quality steel pipe ("pipe") from the People's Republic of China ("PRC") is being, or is likely to be, sold in the United States at less than fair value ("LTFV"), as provided in section 735 of the Act. The estimated margins of sales at LTFV are shown in the "Continuation of Suspension of Liquidation" section of this notice.

Case History

The preliminary determination in this investigation was published on December 31, 2001. See *Notice of Preliminary Determination of Sales at Less Than Fair Value: Certain Circular Welded Carbon-Quality Steel Pipe From the People's Republic of China*, 66 FR 67500 ("Preliminary Determination"). This investigation covers three mandatory respondents, WeiFang East Steel Pipe Co., Ltd. ("WeiFang"); Tianjin Shuang Jie Steel Pipe Co., Ltd. ("Shuang Jie"); and Baosteel Group International Trade Corporation ("Baosteel"). In addition, there are five voluntary respondents, Tai Feng Qiao Metal Products Co. ("Tai Feng Qiao"); Pangang Group International Economic and Trade Corporation ("Pangang International"); ZheJiang JingZhou HuaLong Petroleum Corrosion-Resistant Steel Pipe Co., Ltd. (Jinzhou"); Walsall Steel Pipe Industrial Co., Ltd. ("Walsall"); China MinMetals ZhuHai Co., Ltd. ("ZhuHai"). Petitioners in this investigation are Allied Tube & Conduit Corporation, Century Tube Corporation, IPSCO Tubulars, Inc., Laclede Steel, LTV Copperweld, Maverick Tube Corporation, Northwest Pipe Company, Sharon Tube Company, Western Tube & Conduit Corporation, Wheatland Tube Company and the United Steelworkers of America, AFL-CIO (collectively, "Petitioners").

On January 16, 2002, pursuant to a request from Shuang Jie, the Department postponed the final determination until May 15, 2002. See *Notice of Postponement of Final Determination of Antidumping Duty Investigation: Certain Circular Welded Carbon-Quality*

Steel Pipe From the People's Republic of China, 67 FR 2189 (January 16, 2002). The Department verified the responses to the antidumping questionnaire of Baosteel and one of its suppliers from January 16-19, 2002; WeiFang from February 3-5, 2002; and Shuang Jie from February 7-9, 2002. After releasing verification reports, we invited parties to comment on these reports and our *Preliminary Determination*. We received comments from petitioners and all three mandatory respondents on March 20, 2002 and rebuttal briefs from the same parties on March 25, 2002. At the requests of Shuang Jie and petitioners, a hearing was held on April 15, 2002.

Based on our analysis of verification findings and the comments received, we have made changes in the margin calculation. Therefore, the final determination differs from the *Preliminary Determination*.

Period of Investigation

The period of investigation ("POI") is October 1, 2000 through March 31, 2001. This period corresponds to the two most recent fiscal quarters prior to the month of the filing of the petition (i.e. May 24, 2001). See 19 C.F.R. 351.204(b)(1).

Scope of Investigation

The products covered by this investigation are certain welded carbon-quality steel pipes and tubes, of circular cross-section, with an outside diameter of 0.372 inches (9.45 mm) or more, but not more than 16 inches (406.4 mm), regardless of wall thickness, surface finish (black, galvanized, or painted), end finish (plain end, beveled end, grooved, threaded, or threaded and coupled), or industry specification (ASTM, proprietary, or other), generally known as standard pipe and structural pipe.

Standard pipes and tubes are intended for the low-pressure conveyance of water, steam, natural gas, air, and other liquids and gases in plumbing and heating systems, air conditioning units, automatic sprinkler systems, and other related uses. Standard pipe may carry liquids at elevated temperatures but may not be subject to the application of external heat. It may also be used for light load-bearing and mechanical applications, such as for fence tubing, and for protection of electrical wiring, such as conduit shells, and for structural applications in general construction. It primarily is made to American Society for Testing and Materials (ASTM) A-53, A-135, and A-795 specifications, but can also be made to the British Standard (BS)-1387 specification.
