BILLING CODE 7020-02-P

INTERNATIONAL TRADE COMMISSION

[Investigations Nos. 731-TA-1006-1009 (Preliminary)]

Urea Ammonium Nitrate Solutions From Belarus, Lithuania, Russia, and Ukraine

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is materially injured by reason of imports from Belarus, Russia, and Ukraine of urea ammonium nitrate solutions, provided for in subheading 3102.80.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV). The Commission has determined that U.S. imports from Lithuania are negligible.²

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations with regard to Belarus, Russia, and Ukraine. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce of an affirmative preliminary determination in the investigation under section 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of these investigations need not enter a separate appearance for the final phase of the

¹ The record is defined in sec. 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

² Commissioner Lynn M. Bragg, however, further finds that subject imports of urea ammonium nitrate solutions from Lithuania will imminently account for more than 3 percent of total import volume of all such merchandise, and determines that there is a reasonable indication that an industry in the United States is threatened with material injury by reason of imports of the subject merchandise from Lithuania that are alleged to be sold at LTFV.

investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

Background

On April 19, 2002, a petition was filed with the Commission and Commerce by the Nitrogen Solutions Fair Trade Committee, an ad hoc coalition of U.S. producers of urea ammonium nitrate solutions, which consists of CF Industries, Inc. of Long Grove, IL; Mississippi Chemical Corp. of Yazoo City, MS; and Terra Industries, Inc. of Sioux City, IA, alleging that an industry in the United States is materially injured or threatened with material injury by reason of LTFV imports of urea ammonium nitrate solutions from Belarus, Lithuania, Russia, and Ukraine. Accordingly, effective April 19, 2002, the Commission instituted antidumping duty investigations Nos. 731-TA-1006-1009 (Preliminary).

Notice of the institution of the Commission's investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of April 29, 2002 (67 FR 20994). The conference was held in Washington, DC, on May 10, 2002, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determinations in these investigations to the Secretary of Commerce on June 3, 2002. The views of the Commission are contained in USITC Publication 3517 (June 2002), entitled *Urea Ammonium Nitrate Solutions from Belarus, Lithuania, Russia, and Ukraine: Investigations Nos. 731-TA-1006-1009 (Preliminary)*.

Issued: June 4, 2002.

By order of the Commission.

Marilyn R. Abbott,

Secretary.

BILLING CODE 7020-02-P

DEPARTMENT OF LABOR

Employment Standards Administration

Wage and Hour Division; Minimum Wages for Federal and Federally Assisted Construction; General Wage Determination Decisions

General wage determination decisions of the Secretary of Labor are issued in accordance with applicable law and are based on the information obtained by the Department of Labor from its study of local wage conditions and data made available from other sources. They specify the basic hourly wage rates and fringe benefits which are determined to be prevailing for the described classes of laborers and mechanics employed on construction projects of a similar character and in the localities specified therein.

The determinations in these decisions of prevailing rates and fringe benefits have been made in accordance with 29 CFR part 1, by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276(a) and of other Federal statutes referred to in 29 CFR part 1, Appendix, as well as such additional statutes as may from time to time be enacted containing provisions for the payment of wages determined to be prevailing by the Secretary of Labor in accordance with the Davis-Bacon Act. The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public comment procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in the effective date as prescribed in that section, because the necessity to issue current construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General wage determination decisions, and modifications and supersedeas decisions thereto, contain no expiration dates and are effective from their date of notice in the **Federal Register**, or on the date written notice is received by the agency, whichever is earlier. These decisions are to be used in accordance with the provisions of 29
