Predictive Instrument Research in Technology to Reduce Medical Errors; Notice of Award

A. Purpose

The purpose of the program will be to build upon the lessons learned with clinical predictive instruments (CPIs) in cardiac diseases and to further develop and adapt this technology for use with other clinically important and expensive medical conditions and care.

B. Eligible Applicant

The only eligible applicant is New England Medical Center. No other applications were solicited.

The House of Representatives Conference Report accompanying the Departments of Labor, Health and Human Services, and Education and Related Agencies Appropriation Bill ending September 30, 2002, and For Other Purposes (H.R. 3061, 107th Congress), recognized the New England Medical Center's unique qualifications for carrying out the activities specified in this grant (H.R. Rep. 107-342).

C. Availability of Funds

Approximately \$346,146 is available in FY 2002 to fund one award. The award began June 1, 2002, and will be made for a 12-month budget period within a project period of one year.

D. Where To Obtain Additional Information

Should you have questions after reviewing the contents of all the documents, business management

technical assistance may be obtained from: René Benyard, Grants Management Specialist, Acquisition and Assistance, Branch B, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 2920 Brandywine Road, Room 3000, Mailstop K-75, Atlanta, GA 30341-4146, Telephone: (770) 488-2722, email address: bnb8@cdc.gov.

For program technical assistance, contact: Steve L. Solomon, M.D., Program Management Official, Division of Health Care Quality Promotion, National Center for Infectious Diseases, Centers for Disease Control and Prevention (CDC), 1600 Clifton Road, NE., Mailstop E-55, Atlanta, GA 30333, Telephone: (404) 498-1124, email address: ssolomon@cdc.gov.

Dated: June 11, 2002.

Advisory Board on Radiation and Worker Health: Meeting.

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following Committee meeting.

Name: Advisory Board on Radiation and Worker Health (ABRWH).

Times and Dates: 8 a.m.-5 p.m., July 1, 2002; 8 a.m.-5 p.m., July 2, 2002.

Place: Hyatt Regency Denver, 1750 Welton Street, Denver, Colorado 80202, telephone (303) 295-5885, fax (303) 296-6352.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 65 people.

Background: The Advisory Board on Radiation and Worker Health ("the Board") was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President, through the Secretary of Health and Human Services (HHS), on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Board include providing advice on the development of probability of causation guidelines which have been promulgated by HHS, advice on methods of dose reconstruction which have also been promulgated as a final rule, evaluation of the validity and quality of dose reconstructions conducted by the National Institute for Occupational Safety and Health (NIOSH) for qualified cancer claimants, and advice on the addition of classes of workers to the Special Exposure Cohort.

In December 2000 the President delegated responsibility for funding, staffing, and operating the Board to HHS, which subsequently delegated this authority to CDC. NIOSH implements this responsibility for CDC. The charter was signed on August 3, 2001, and in November 2001, the President completed the initial appointment of Board members. The initial tasks of the Board have been to review and provide advice on the proposed, interim, and final rules of HHS.

Purpose: This board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this Program; and (c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class.

Matters to be Discussed: Agenda for this meeting will focus on the draft Special
