

*Sandia National Laboratories,
California*

A Notice of Intent to prepare a Site-Wide Environmental Assessment (SWEA) for Sandia National Laboratories, California (SNL/CA) was published in the **Federal Register** on February 4, 2002 (67 FR 5089). The SWEA will address operations and activities that DOE foresees at SNL/CA for approximately the next 5 to 10 years. The LLNL SWEIS will include the impacts from SNL/CA in the cumulative impacts section.

SWEIS Preparation Process

The SWEIS process begins with the publication of this Notice of Intent in the **Federal Register**. This notice establishes the public scoping period and the public scoping meetings as indicated above under **DATES**. Each public scoping meeting will begin with a briefing on the LLNL mission, proposed changes in operations and facilities, preliminary SWEIS alternatives, and the proposed action of the SWEIS. Copies of the meeting handouts will be available to anyone unable to attend by contacting the NNSA as described above under **ADDRESSES**. Following the initial presentation, NNSA representatives will answer scope-related questions and accept comments. After the close of the public scoping comment period, NNSA will begin development of the draft SWEIS. The draft SWEIS is expected to be available for public review in late 2003. Public meetings will be held following the Notice of Availability of the draft SWEIS. The publication of the final SWEIS is scheduled for mid 2004 and the Record of Decision is scheduled for late 2004.

Classified Material

NNSA will review classified material while preparing this SWEIS. Within the limits of classification, NNSA will provide to the public as much information as possible to assist public understanding and comment. Any classified material NNSA needs to use to explain the purpose and need for the action, the use of materials, or the development of impacts, will be segregated into a classified appendix or supplement, which will not be available for general public review. However, all unclassified results of calculations will be reported in the unclassified section of the SWEIS, to the extent possible in accordance with federal classification requirements.
