SUPPLEMENTARY INFORMATION:

Title; Associated Form; OMB Number: DoD/Active Duty/Reserve Forces Dental Examination; Associated Form—DoD/Reserve Forces Dental Examination; OMB No. 0720–0022.

Needs and Uses: The information collection requirement is necessary to obtain and record the dental health status of members of the Armed Forces. This form enables civilian dentists to record the results of their examination findings and provide the information to the member's military organization. The military organizations are required by Department of Defense policy to track the dental health status of their members.

Affected Public: Business or other profit; Not-for-profit institutions.

Annual Burden Hours: 44,250.

Number of Respondents: 885,000.

Responses Per Respondent: 1.

Average Burden Per Response: 3 minutes.

Frequency: Annual.

Summary of Collection Information

Respondents are medical professionals who provide dental services to the general public. Members of the Armed Forces of the United States are the recipients of the dental examination. The Armed Forces Active and Reserve component members must maintain their dental health at a predetermined level to prevent dental problems while deployed to a military operation. Reserve component and CONUS remote Active component members usually receive dental care from civilian dentists; therefore, civilian dentists complete the form. Following a routine dental examination, the dentist reviews the categories listed on the form and selects the number corresponding to the condition that best describes the dental health of the patient. If dental problems can be identified, they are indicated on the form. Once the form is complete and the dentist signs it, the member forwards the form to the parent organization. The information on the form is incorporated into a database, and the form is maintained in the health record until no longer needed.

Dated: June 6, 2002.

Alternate OSD Federal Register Liaison Officer, Department of Defense.
