

Radionuclides Rules: Lead and Copper Rule Amendment, EPA ICR No. 1896.04, OMB Control No. 2040-0204. This amendment will update burden and costs associated with the LCR and move the burden from the National Primary Drinking Water Regulations for Lead and Copper; Final Rule, EPA No. 1912.01, OMB Control No. 2040-0210, which expires September 2002, to the Disinfectants/Disinfection Byproducts, Chemical and Radionuclides Rules ICR, EPA ICR No. 1896.03, OMB Control No. 2040-0204. The Disinfectants/Disinfection Byproducts, Chemical, and Radionuclides Rules ICR is the result of a consolidation of activities covered in the 1998 Stage 1 Disinfectants/Disinfection Byproduct Rule (DBPR) ICR, some rules and activities covered in the 1993 Public Water Systems Supervision (PWSS) program ICR and activities and rules previously covered in other Office of Ground Water and Drinking Water (OGWDW) standalone ICRs. As part of the consolidation effort, the Disinfectants/Disinfection, Chemical, and Radionuclides Rules ICR will be amended to include burden and costs associated with the Lead and Copper Rule. The National Primary Drinking Water Regulations (NPDWRs) for Lead and Copper (The Lead and Copper Rule or LCR), promulgated by EPA in 1991, is a regulatory program mandated by the Safe Drinking Water Act (SDWA). The LCR's goal is to reduce the levels of lead and copper at the tap to as close to the maximum contaminant level goals of 0 parts per billion (ppb) of lead and 1.3 ppb of copper as possible. To accomplish this, the LCR requires community and non-transient non-community water systems to conduct periodic monitoring to optimize corrosion control and, under specified conditions, install source water treatment, conduct public education, and/or replace lead service lines in the distribution system.

In January 2000, EPA published the Lead and Copper Rule Minor Revisions (LCRMR) which eliminated unnecessary requirements, streamlined and reduced reporting burden, and promoted consistent national implementation. The LCRMR do not affect the lead or copper rule maximum contaminant level goals, action levels, or the basic regulatory requirements. Monitoring, reporting and recordkeeping are required at both the system and State levels under the National Primary Drinking Water Regulations (NPDWRs). EPA has chosen to require the least frequent collection that remains consistent with overall public health preservation objectives. An agency may not conduct or sponsor,

and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on April 9, 2002 (67 FR 17070-17071), no comments were received.

**Burden Statement:** The annual public reporting and recordkeeping burden for this amendment to a collection of information is estimated to average 2.3 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Public Water Systems and Primacy Agents.

**Estimated Number of Respondents:** 74,587.

**Frequency of Response:** Bi-weekly, monthly, quarterly, annually, semi-annually, triennially, and every nine years.

**Estimated Total Annual Hour Burden:** 1,780,049 hours.

**Estimated Total Annualized Capital, O&M Cost Burden:** \$11,456,047.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above. Please refer to EPA ICR No. 1896.04 and OMB Control No. 2040-0204 in any correspondence.

Dated: July 26, 2002.

## FEDERAL MARITIME COMMISSION

### Notice of Agreement(s) Filed

The Commission hereby gives notice of the filing of the following agreement(s) under the Shipping Act of 1984. Interested parties can review or obtain copies of agreements at the Washington, DC offices of the Commission, 800 North Capitol Street, NW., Room 940. Interested parties may submit comments on an agreement to the Secretary, Federal Maritime Commission, Washington, DC 20573, within 10 days of the date this notice appears in the **Federal Register**.

**Agreement No.:** 011812.

**Title:** Contship/CMA CGM-Safmarine Space Charter Agreement.

**Parties:** Contship Containerlines, CMA CGM, S.A., Safmarine Containerlines N.V.

**Synopsis:** The proposed agreement authorizes Contship and CMA CGM to charter space to Safmarine on the service they operate between the Indian Subcontinent/Middle East and the U.S. East Coast. The parties request expedited review.

By Order of the Federal Maritime Commission.
