#### **The Applicable Statute**

Unless otherwise indicated, all citations to the statute are references to the Tariff Act of 1930, as amended. In addition, unless otherwise indicated, all citations to the Departments's regulations are to the current regulations, codified at 19 CFR part 351 (2001).

#### **Background**

On August 27, 2001, the Department of Commerce (the Department) received a request from respondent Zhenxing Chemical Company to conduct an administrative review. The Department also received a request on August 30, 2001 from petitioner, Nation Ford Chemical Company (NFC), to conduct an administrative review of Zhenxing Chemical Company. On October 1, 2001, the Department published a notice of initiation of an administrative review of the antidumping duty order on sulfanilic acid from the People's Republic of China, covering the period

August 1, 2000 through July 31, 2001 (67 FR 31770). On May 10, 2002, the Department published its preliminary results of this administrative review (67 FR 31770).

#### **Extension of Time Limits for Final Results**

Because of the complexities involved in this review, including the need to analyze new public information on factor valuation timely submitted by the parties since the preliminary results of review, it is not practical to complete this review within the time limits mandated by section 751(a)(3)(A) of the Act. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limit for the final results of review from September 7, 2002 to November 15, 2002.

This notice is published in accordance with sections 751(a)(2)(B) and 777 (i)(1) of the Act.

Dated: August 29, 2002.

**SUPPLEMENTARY INFORMATION:**

#### **I. Notice of Appeal**

Millennium Pipeline Company, L.P. (Millennium or Appellant) filed a notice of appeal with the Secretary of Commerce (Secretary) pursuant to section 307(c)(3)(A) of the Coastal Zone Management Act of 1972 (CZMA), as amended, 16 U.S.C. 1451 *et seq.*, and the Department of Commerce's implementing regulations, 15 CFR Part 930, Subpart H, (revised, effective January 8, 2001). The appeal is taken from an objection by the New York Department of State (State) to Millennium's consistency certification for U.S. Army Corps of Engineers and Federal Energy Regulatory Commission permits to construct and operate a natural gas pipeline. The certification indicates that the project is consistent with the State's coastal management program. The project would traverse Lake Erie and cross the Hudson River, affecting the natural resources or land and water uses of New York's coastal zone.

The Appellant requests that the Secretary override the State's consistency objections for a procedural reason, concerning the timing of the State's objection to the Millennium

project. The Appellant also requests an override of the State's objection on the two substantive grounds provided in the CZMA. The first ground requires the Secretary to determine that the proposed activity is "consistent with the objectives" of the CZMA. To make this determination, the Secretary must find that: (1) The proposed activity furthers the national interest as articulated in section 302 or 303 of the CZMA, in a significant or substantial manner; (2) the national interest furthered by the proposed activity outweighs the activity's adverse coastal effects, when those effects are considered separately or cumulatively; and (3) no reasonable alternative is available that would permit the proposed activity to be conducted in a manner consistent with the enforceable policies of the State of New York's coastal zone management program. 15 CFR 930.121.

The second substantive ground for overriding a State's objection considers whether the proposed activity is necessary in the interest of national security. To reach this conclusion, the Secretary must find that a national defense or other national security interest would be significantly impaired if the activity in question was not permitted to go forward as proposed. 15 CFR 930.122.

## II. Public Comments

Public comments are invited on any of the issues that the Secretary must consider in deciding this appeal. Comments must be received by December 2, 2002, and may be submitted by email to [Millennium.comments@noaa.gov](mailto:Millennium.comments@noaa.gov). Comments may also be sent by mail to the Office of the Assistant General Counsel for Ocean Services, National Oceanic and Atmospheric Administration (NOAA). Comments will be made available to the Appellant and the State; they are also expected to be posted on a Department of Commerce website identified below.

## III. Appeal Documents

The Secretary has required that Millennium file its initial brief and supplementary information on August 12, 2002, and that the State of New York file its initial brief and supplementary material on September 30, 2002. NOAA intends to provide the public with access to all materials and related documents comprising the appeal record via the Internet at <http://www.ogc.doc.gov/czma.htm>, except that certain materials or documents or portions thereof may be withheld if they contain confidential materials, critical energy infrastructure information,

national security information or other types of information that would be inappropriate for public release. Likewise, these public materials and documents also will be available during business hours at the NOAA Office of the Assistant General Counsel for Ocean Services. In addition, the State of New York may make copies of public filings by the parties available for review during business hours at the office of the New York Department of State.

## IV. Public Hearing Notice

A public hearing has been scheduled to obtain information relevant to issues to be decided by the Secretary in the Millennium appeal. The public hearing will be held on Wednesday, November 13, 2002, at the Hilton Tarrytown Hotel. Further details concerning the hearing will be available via the Internet at <http://www.ogc.doc.gov/czma.htm> or through other forms of public notice.
