

SUPPLEMENTARY INFORMATION: Section 515 of the Treasury and General Government Appropriations Act for Fiscal Year 2001 (Pub. L. 106-554) directs the Office of Management and Budget (OMB) to issue government-wide guidelines for Federal agencies to ensure and maximize the quality, objectivity, utility and integrity of information disseminated by Federal agencies. In response, OMB issued government-wide guidelines on February 22, 2002 (67 FR 8452), as revised on March 4, 2002 (67 FR 9797), that require Federal agencies that are subject to the Paperwork Reduction Act (44 U.S.C. chapter 35) to develop and publish their own information quality guidelines along with administrative mechanisms to allow persons to request correction of information.

As directed by OMB (67 FR 8452), SSA prepared section 515 draft information quality guidelines and related material and made them available to the public for comment on April 29, 2002 (67 FR 21009). In response to comments, SSA has revised its section 515 information quality guidelines and mechanisms for seeking correction of information. The revised material has been approved by OMB as meeting the requirements established in the OMB government-wide guidelines.

The SSA information quality guidelines and related information are on the agency's Web site at <http://www.ssa.gov/515>. The comments that SSA received on the earlier draft guidelines along with those draft section 515 guidelines and related material are available at <http://policy.ssa.gov/redir2.nsf/closed?OpenPage>.

The SSA received comments from the Office of Management and Budget (OMB) and from two organizations that are concerned with regulatory affairs. All three comment packages were generic in that they cut across all agencies and provided general guidance and direction. We considered all comments received and discuss the most significant ones below.

One issue addressed in all comment packages concerned the scope of applicability for these guidelines. One organization expressed concern that the scope of agency guidelines was too narrow, and another organization expressed concern that the scope of agency guidelines was too broad. We reviewed the SSA guidelines to ensure that they are consistent with the intent and scope of the statute, with the OMB government-wide information quality guidelines, and the guidance provided by OMB. In response to an OMB comment, we added a statement noting that SSA's section 515 information

quality guidelines conform to the guidance, scope of applicability, and intent of the government-wide quality guidelines issued by the OMB. We also added a statement noting that section 515 guidelines apply to information disseminated on or after October 1, 2002.

One comment suggested that each agency's information quality guidelines state that agency submissions for information collection under the Paperwork Reduction Act will include the statement that data to be collected shall conform to section 515 information quality guidelines when appropriate. We added a statement to the SSA guidelines to that effect. In response to another comment, we added a statement establishing criteria for reproducibility of information collected in SSA statistical surveys.

Several comments focused on our procedures to seek correction of information under section 515. In response to one comment, we added a statement noting that these procedures do not replace other established processes for challenges to disseminated information. In response to another comment, we will request that persons seeking correction of information under section 515 indicate how they are affected by the allegedly erroneous information. We also provided more details about the appeals process and set time limits for SSA to respond to initial requests and appeals.

Acting Deputy Commissioner for Policy.
