SUPPLEMENTARY INFORMATION:

I. Description of Proposed System of Records

The Education Debt Reduction Program (EDRP) allows VA to provide education debt reduction payments to employees with qualifying loans who occupy certain health care positions for which recruitment and retention of qualified personnel is difficult. The specific health care professions that are covered by the EDRP include: physician, dentist, podiatrist, licensed pharmacist, licensed practical/vocational nurse, expanded-function dental auxiliary, registered nurse, certified registered nurse anesthetist, physician assistant, optometrist, physical therapist, occupational therapist, certified respiratory therapy technician, and registered respiratory therapist. The purpose of the program is to help VA meet its needs for qualified health care staff.

The Education Debt Reduction Program—VA (115VA10) system of records contains personal identification information related to the application material, to education loan verification documentation, to award processes, to employment status, and to service periods covered by an award such as name, address, social security number, employing facility name, job title, grade, education level, education debt reduction payment amounts, service periods covered by education debt reduction payments, name and address of the lending institution, original loan amount, current loan amount, and loan payment amount. It also contains individual information about applicants who have been denied awards and award recipients who have been

terminated from program participation. Additionally, it may contain information about why an applicant declined to accept an award. Since applicants typically are denied awards because they do not meet the eligibility requirements to participate in the program, the specific nature of an applicant's ineligibility would be another element of information contained in the system of records. The information in this system of records is maintained in electronic and hard copy format and is periodically updated through recurring reports provided by local VA facilities about the progress of their program participants. This information is necessary to effectively administer the educational assistance program. It is used to determine and document an individual applicant's initial eligibility for education debt reduction awards; calculate the payment amounts and related service periods for award recipients; ensure that award amounts are consistent with applicable law, regulations and policy; monitor the amount of principal and interest that a participant paid to reduce the balance on a qualifying loan during each service period covered by the award; monitor the employment status of award recipients during their service periods; and evaluate and report program results and effectiveness. Any information in this system may be used by local VA supervisory officials and program coordinators to ensure that it is accurate and that award recipients are in compliance with the terms for participating in the program. Data about individual program participants may change (e.g., changes in employment status), and that could impact certain terms of their awards such as the amounts of the education debt reduction payments and/or the beginning and ending dates of their service periods. Data changes may also impact assessments of the effectiveness of the educational assistance program. Accordingly, local supervisory officials and program coordinators must periodically review individual data in the system of records to ensure its accuracy. There are no debts to recover since each award payment is made at the conclusion of a service period. An individual who leaves before completing a service period is eligible to receive a pro-rata share of the payment for an entire service period based on the amount of time actually served in paid status during the service period.

II. Proposed Routine Use Disclosures of Data in the System

We are proposing to establish the following routine use disclosures of

information, which will be maintained in the system:

- Any information in this system that is necessary to verify accuracy and completeness of the application information may be disclosed to lending institutions and other relevant organizations or individuals.

VA may need to disclose applicant information in order to verify that candidates for EDRP awards meet applicable program requirements. Employees must meet certain requirements to be eligible to participate in the Education Debt Reduction Program. For example, the applicants must be recently appointed employees serving in one of the authorized positions for which recruitment and retention is difficult. Further, they must owe any amount of principal or interest under a loan, the proceeds of which were used by or on behalf of that individual to pay costs relating to a course of education or training which led to a degree that qualified the individual for a position listed above.

- Any information in the system may be disclosed to a Federal agency in order to determine if an applicant has any obligation under another Federal Program that would render the applicant ineligible to participate in the EDRP.

Since participation in the EDRP is limited to recently appointed VA employees, it is necessary to ensure that applicants for EDRP awards who have transferred to VA from other Federal agencies do not have obligations that would conflict with the terms and conditions of the program.

- Any information in the system may be used to evaluate and report program results and effectiveness to appropriate officials including members of Congress on a routine and ad hoc basis.

The purpose of the debt reduction program is to assist in meeting the staffing needs of VHA for health professionals in occupations for which recruitment or retention of qualified personnel is difficult. Congress must have access to information from the system to assess how effectively the program accomplishes its purpose and to support decisions to continue, modify or curtail its use.

- The record of an individual who is covered by this system may be disclosed to a member of Congress or staff person acting for the member when the member or staff person requests the record on behalf of and at the request of that individual.

Individuals sometimes request the help of a member of Congress in resolving some issues relating to a matter before VA. The member of

Congress then writes VA, and VA must be able to give sufficient information to be responsive to the inquiry.

- To the National Archives and Record Administration (NARA) in records management inspections conducted under authority of Title 44 United States Code.

NARA is responsible for archiving old records no longer actively used but which may be appropriate for preservation; they are responsible in general for the physical maintenance of the Federal government's records. VA must be able to turn records over to this agency in order to determine the proper disposition of such records.

- Disclosure of information to the Federal Labor Relations Authority (FLRA), including its General Counsel, when requested in connection with the investigation and resolution of allegations of unfair labor practices, in connection with the resolution of exceptions to arbitrator awards when a question of material fact is raised, in connection with matters before the Federal Service Impasses Panel, and to investigate representation petitions and conduct or supervise representation elections.

The release of information to FLRA from this Privacy Act system of records is necessary to comply with the statutory mandate under which FLRA operates.

- Disclosure may be made to officials of labor organizations recognized under 5 U.S.C. chapter 71 when relevant and necessary to their duties of exclusive representation concerning personnel policies, practices, and matters affecting working conditions.

- Disclosure may be made to the VA-appointed representative of an employee, including all notices, determinations, decisions, or other written communications issued to the employee in connection with an examination ordered by VA under medical evaluation (formerly fitness-for-duty) examination procedures or Department-filed disability retirement procedures.

- Disclosure may be made to officials of the Merit Systems Protection Board, including the Office of the Special Counsel, when requested in connection with appeals, special studies of the civil service and other merit systems, review of rules and regulations, investigation of alleged or possible prohibited personnel practices, and such other functions, promulgated in 5 U.S.C. 1205 and 1206, or as may be authorized by law.

- Disclosure may be made to the Equal Employment Opportunity Commission when requested in connection with investigations of

alleged or possible discrimination practices, examination of Federal affirmative employment programs, compliance with the Uniform Guidelines of Employee Selection Procedures, or other functions vested in the Commission by the President's Reorganization Plan No. 1 of 1978.

III. Compatibility of the Proposed Routine Uses

The Privacy Act permits VA to disclose information about individuals without their consent for a routine use when the information will be used for a purpose that is compatible with the purpose for which VA collected the information. In all of the routine use disclosures described above, either the recipient of the information will use the information in connection with a matter relating to one of VA's programs, will use the information to provide a benefit to VA, or disclosure is required by law.

The notice of intent to publish and an advance copy of the system notice have been sent to the appropriate Congressional committees and to the Director of the Office of Management and Budget (OMB) as required by 5 U.S.C. 552a(r) (Privacy Act) and guidelines issued by OMB (65 FR 77677), December 12, 2000.

Approved: October 3, 2002.

Secretary of Veterans Affairs.
