COMMISSION**

**[Investigations Nos. 701–TA–417–419 and

(Final)]**

**Carbon and Certain Alloy Steel Wire  
Rod From Brazil, Canada, Germany,  
Indonesia, Mexico, Moldova, Trinidad  
and Tobago, and Ukraine**

**Determinations**

On the basis of the record<sup>1</sup> developed in the subject investigations, the United States International Trade Commission determines, pursuant to section 705(b) of the Tariff Act of 1930 (19 U.S.C. 1671d(b)) (the Act), that an industry in the United States is materially injured by reason of imports from Brazil and Canada of carbon and certain alloy steel wire rod<sup>2</sup> that have been found by the Department of Commerce (Commerce) to be subsidized by the Governments of Brazil and Canada. The Commission also determines, pursuant to section 735(b) of the Act (19 U.S.C. 1673d(b)), that an industry in the United States is materially injured by reason of imports from Brazil, Canada, Indonesia, Mexico, Moldova, Trinidad and Tobago, and Ukraine of carbon and certain alloy steel wire rod that have been found by Commerce to be sold in the United States at less than fair value (LTFV).<sup>3</sup>

<sup>1</sup> The record is defined in 207.2(f) of the Commission's Rules of Practice and Procedure (19 CFR 207.2(f)).

<sup>2</sup> The merchandise covered by these investigations is certain hot-rolled products of carbon steel and alloy steel, in coils, of approximately round cross section, 5.0 mm or more but less than 19.0 mm, in solid cross-sectional diameter. Specifically excluded are steel products possessing the above-noted physical characteristics and meeting the *Harmonized Tariff Schedule of the United States (HTS)* definitions for (a) stainless steel, (b) tool steel, (c) high nickel steel, (d) ball bearing steel, and (e) concrete reinforcing bars and rods. Also excluded are (f) free machining steel products (*i.e.*, products that contain by weight one or more of the following elements: 0.03 percent or more of lead, 0.05 percent or more of bismuth, 0.08 percent or more of sulfur, more than 0.04 percent of phosphorus, more than 0.05 percent of selenium, or more than 0.01 percent of tellurium). Also excluded from the scope are grade 1080 tire cord and tire bead quality wire rod that comport with the specifications, definitions, and applications set forth in Commerce's revised scope language (see, for example, Commerce's final determination of sales at LTFV concerning Canada, 67 FR 55782, August 30, 2002). All products meeting the physical description of subject merchandise that are not specifically excluded are included in the scope of these investigations. The subject merchandise is provided for in HTS subheadings 7213.91, 7213.99, 7227.20, and 7227.90.60.

<sup>3</sup> Chairman Deanna Tanner Okun determines that an industry in the United States is not materially injured or threatened with material injury, and the establishment of an industry in the United States is not materially retarded, by reason of imports from Trinidad and Tobago of carbon and certain alloy steel wire rod that have been found by Commerce to be sold in the United States at LTFV.
