Revisions to the California State Implementation Plan, San Joaquin Valley Unified Air Pollution Control District and South Coast Air Quality Management District**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the San Joaquin Valley Unified Air Pollution Control District (SVUAPCD) and South Coast Air Quality Management District (SCAQMD) portions of the California State Implementation Plan (SIP). These revisions concern volatile organic compound (VOC) and particulate matter (PM-10) emissions from commercial charbroiling and VOC emissions from solvent cleaning. We are proposing approval of local rules that regulate these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: Any comments on this proposal must arrive by July 3, 2003.

SUPPLEMENTARY INFORMATION: This proposal addresses the approval of local SVUAPCD Rule 4292 and SCAQMD Rule 1171. In the Rules section of this **Federal Register**, we are approving these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Approval and Promulgation of Implementation Plans Tennessee: Approval of Revisions to the Tennessee State Implementation Plan**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: The EPA is approving revisions to the Tennessee Department of Environment and Conservation's definitions of Volatile Organic Compounds submitted on February 3, 1999, by the State of Tennessee. These revisions are designed for the State Implementation Plan (SIP) to attain the national ambient air quality standards (NAAQS) for ozone under title I of the Clean Air Act (CAA). The additional compounds HFC43-10mee, HCFC-225ca, and HCFC-225cb are added to the list of exempt compounds on the basis that they have negligible contribution to the tropospheric ozone formation.

In the Final Rules section of this **Federal Register**, the EPA is approving the State's SIP revision as a direct final

rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no significant, material, and adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this rule. The EPA will not institute a second comment period on this document. Any parties interested in commenting on this document should do so at this time.
