

Mr. Speaker, on this day, I also want to urge my colleagues to enact legislation that will extend the research and development tax credit because it is set to expire in only a few weeks. The R&D tax credit enjoys strong, bipartisan support and it is supported by all of America's leading science and technology industries, including aerospace, automotive, biotechnology, and telecommunications. The R&D tax credit is specifically designed to encourage our companies to invest in thousands of high-paying, high skilled jobs that support U.S. based research and development. Availability of these jobs has the dual benefit of fueling our nation's scientific and technological leadership and enticing our youth to pursue careers in math, science, engineering and education.

Mr. Speaker, I urge my colleagues to support Space Day by permanently extending the R&D tax credit.

IN RECOGNITION OF NATIONAL
ALLERGY MONTH: FUTURE IM-
PACTS OF THE FOOD QUALITY
PROTECTION ACT

HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 21, 1998

Mr. TOWNS. Mr. Speaker, I rise today to express growing concern that the U.S. Environmental Protection Agency's implementation of the Food Quality Protection Act may sharply reduce the number of pest control products used to eradicate cockroaches and other indoor pests.

Principally, I am concerned that the loss of cockroach control products will exacerbate the already growing problem of asthma and allergies in inner cities, particularly among children. Sadly, no city has been harder hit by the asthma epidemic than New York. In fact, at least 10 percent of New York city school children suffer from asthma. However, the increasing asthma rate is not just a New York problem, but a national one. According to the U.S. Centers for Disease Control, the number of asthmatics have doubled over the last 20 years and more than one third of all asthmatics are children, making it the most common chronic disorder among that sub-population.

The National Institutes of Health cites cockroaches as an important cause of asthma in allergic children. According to a landmark study published in the New England Journal of Medicine last spring, cockroach allergens are largely to blame for increased asthma rates among urban children, and children who are allergic to cockroaches are three times as likely to be hospitalized as other asthmatics. Some of the children participating in the study were from the Bronx and East Harlem.

Thankfully, there are steps we can take to address the skyrocketing asthma rate and to lessen the impact of allergies. One way is more effective control of cockroaches. An editorial accompanying the study recommends the "regular use of insecticides" as one of the more effective means of controlling cockroaches. Since cockroaches regularly become resistant to pesticides, a wide array of pest control products is needed to effectively control infestations.

Although heartened by Vice-President GORE's recent directive that E.P.A. ensure regulatory actions mandated by F.Q.P.A. are based on sound science and reasonable transition rules for agriculture, I urge E.P.A. not to forget the pest control needs of urban populations.

I am concerned that F.Q.P.A. implementation may impact the availability of several pesticides critical for cockroach extermination.

Mr. Speaker, May is Allergy Awareness Month. We should seize upon this window of opportunity to give this important issue the attention it deserves. I hope my colleagues representing other urban areas will join me in urging E.P.A. to keep inner-city residents, especially children, in mind when implementing F.Q.P.A.

FINANCIAL SERVICES
COMPETITION ACT OF 1997

HON. SUE W. KELLY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 21, 1998

Mrs. KELLY. Mr. Speaker, with regard to my earlier colloquy with the Chairman on functional regulation which appears on page H3140 of the May 13, 1998 edition of the CONGRESSIONAL RECORD I would briefly like to quote from the report language from both the House Banking Committee and House Commerce Committee that further illustrates the intent of functional regulation of H.R. 10:

"An important aspect of this new framework is that it would incorporate functional regulation with the Federal Reserve serving as an umbrella regulator to oversee the new financial holding company structure. Securities affiliates would be required to comply with all applicable Federal Securities law . . . The Act would also provide that insurance affiliates be subject to applicable State insurance regulation and supervision."

"Title I . . . expressly limits the authority of the Board of Governors of the Federal Reserve System (Federal Reserve Board) over the affiliates of financial services holding companies. These limitations are designed to facilitate functional regulation of the operative components of a financial services holding company. Specifically, the preeminent authority of the Securities and Exchange Commission (SEC or Commission) and the State insurance regulators over securities firms and the business of insurance, respectively, is preserved."

"Section 113. Authority of state insurance regulator and Securities and Exchange Commission. This section limits the Federal Reserve Board's ability to require that an insurance company or registered broker or dealer provide funds to an affiliated bank if the State insurance authority or the SEC determines in writing that such action would have a materially adverse effect on the financial condition of the insurance company or the broker dealer. The Committee determined that this provision was necessary to make clear that the source of strength doctrine does not extend to securities and insurance affiliates of banks. The section allows the Federal Reserve Board to require the bank holding company to divest the bank within 180 days of receiving such notice from the State insurance authority or the SEC."

"Title III pertains to the regulation of insurance activities, particularly those of national banks, and sets forth appropriate standards for judicial review of regulatory

insurance disputes . . . Subtitle A specifically provides for the functional regulation of insurance. The Committee's purpose in the first part of Subtitle A is to reaffirm the McCarran-Ferguson Act and require State licensing for insurance activities."

I would like to thank the Chairman and his staff for their assistance and agreement with this language as for the intent of functional regulation in H.R. 10.

HONORING GREGORY DON
HUNSUCKER

HON. GARY A. CONDIT

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 21, 1998

Mr. CONDIT. Mr. Speaker, I rise today to recognize my longtime friend, Mr. Gregory Don Hunsucker, who is being presented with the coveted Labor Leader of the Year by the Merced-Mariposa Central Labor Council. Don is being awarded this prestigious honor on Saturday, June 13, 1998.

In 1971, Don was hired by the Retail Clerks International Association as a Special Representative and Organizer. He came to the United Food and Commercial Workers Union, Local 1288 in 1973 as a Business Representative. One year later, he was promoted to Administrative Assistant to the President. In 1976, Don was elected Secretary-Treasurer of the local union and became president and chief executive officer of the union in 1978.

His leadership has long been appreciated by organized labor. Under his guidance, Local 1288 has become the official representative of more than 9,500 United Food and Commercial Workers in the counties of Merced, Madera, Fresno, Mariposa, Kings and Tulare. In addition to his duties at the Local Union, he is President of the Valley Clerks Joint Council of the UFCW, Vice President of the California Federal of Labor, AFL-CIO; President of the Fresno-Madera-Tulare-Kings Counties Central Labor Council, AFL-CIO; Vice President of the Southwestern States Council of United Food and Commercial Workers; Special Representative of the United Food and Commercial Workers International Union; Trustee of the Northern Fund; Chairman of the Northern California United Food and Commercial Workers Caucus and Vice President of Fresno Area Coalition of Organized Labor.

Don Hunsucker's leadership extends throughout Central California, touching the charitable spirit of all who live here. He is a member of the Countryside Free Will Baptist Church in Visalia; he has served as Executive Board Member of the United Way, the Easter Seal Society, Fresno City Civil Service Board, Bid Compliance Committee of the City of Fresno, Blue Ribbon Task Force on Council of Ethics and Operations, and a member of the California State University of Fresno Boosters Club.

Don and his wife of 30 years, Linda Mae (Balakian), live in Fresno. They have two children, Michelle Lou Ann, 25, and Jerry Gregory Don, 21. Don has a strong advocate for working men and women over the years. He is a man of integrity who give unselfishly to those around him. He has set an example for others to follow. I consider it an honor to call him my friend and ask my colleagues in the House of

Representatives to join me in honoring Don Hunsucker.

INTRODUCTION OF LEGISLATION

HON. BENJAMIN A. GILMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 21, 1998

Mr. GILMAN. Mr. Speaker, today, I would like to introduce two bills—one to authorize the Mongaup Visitor's Center, and the other to extend the Upper Delaware Citizen's Advisory Counsel.

Mr. Speaker, as you may know, in 1978, along with out good friend and colleague JOE MCDADE, I introduced Federal legislation establishing the Upper Delaware Scenic and Recreational River as a component of the National Wild and Scenic Rivers System.

The property proposed as the location of the Upper Delaware Scenic and Recreational River's primary visitor facility—the Mongaup Visitor Center—is owned by the State of New York's Department of Environmental Conservation. The property was acquired by the State in 1986 as part of a much larger purchase of a 10,000-acre tract intended to provide habitat for a population of wintering bald eagles. New York State legislation authorizing Federal development of the property as a visitor center by means of a long-term lease was passed in 1993. A legislative support data package was prepared in 1994 for Federal legislation authorizing development of the site, to appropriate funds for development and to increase the Upper Delaware's operational base to provide for year-round operation.

The site for the Mongaup Visitor Center contains abundant natural and cultural resources and this proposal will identify and develop strategies to protect the Mongaup area's natural resources, including: wintering bald eagles; upland forest; hemlock and laurel gorges and steep slopes; riverine and flood plain forest, and a mile of river front with natural sand beaches. The possible presence of prehistoric elements will also be evaluated.

The visitor center will benefit the community in many respects. It will serve as an educational asset, a local museum, a class room, and meeting place. Bordered by the Delaware River, the Mongaup River and New York State highway route 97 in the town of Deerpark in Orange County, NY—it is the only center of its kind within an hour's drive from New York City. Both the proposed visitor center, Mongaup site and the Upper Delaware Valley have enormous unrealized potential to provide both the local and visiting public with an exceptional experience.

I am also introducing a bill that will extend the Upper Delaware Citizens Advisory Council for another 10 years. The Upper Delaware CAC provides an excellent forum for citizens of the Upper Delaware to have an opportunity to impact and interact with the National Park Service and Department of the Interior.

Accordingly, I urge my colleagues to help pass these two measures which will benefit the State of New York on economic, environmental and educational levels.

TRIBUTE TO MAJ. GEN. MAX BARATZ ON THE OCCASION OF HIS RETIREMENT

HON. STEPHEN E. BUYER

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Thursday, May 21, 1998

Mr. BUYER. Mr. Speaker, today I rise to pay tribute to a distinguished and dedicated military officer who has served this nation with great honor and distinction. Major General Max Baratz, the Chief, Army Reserve, will retire on May 24, 1998 after more than four decades of dedicated and exemplary service in the United States Army and the Army Reserve. Today, I'm proud to take a few minutes to highlight the extraordinary career of Major General Baratz.

His career began in 1956 as an infantry officer. After serving as a platoon leader in the 1st Infantry Division, he carried his love of country and commitment to duty to the United States Army Reserve. As a drilling reservist, he became an engineer officer and served in a variety of staff and leadership positions to include the command of company in an Engineer Training Group and service as an Engineering Battalion Commander.

In November 1976, as a full colonel, Major General Baratz was selected to be the 416th Engineer Command's Chief of Staff. Mr. Speaker, I need not remind you or my distinguished colleagues that only a handful of Army Reservists ever attain or surpass this prestigious rank, and even fewer achieve the rank of major general. But Major General Baratz was no ordinary Army Reservist, and he is no ordinary citizen—soldier.

In 1979 Major General Baratz was selected as a Brigadier General in the Army Reserve.

In November 1983, after 11 years of service in the 416th Engineer Command, the Army selected him as commander. President Reagan was well aware of the asset he had in Max Baratz, and nominated him for his second star—a nomination, I might add, that the other body prudently and expeditiously confirmed. During his tenure of more than three years as the commander of the 416th, also found the time to serve on the Army Reserve Forces Policy Committee, first as an alternate member in the 5th Army Area, and then as the principal member from the 4th Army Area. In the closing days of his command, he was selected to be co-chairman of the Army Reserve Forces Policy Committee, a position he held until December 1990.

In 1991, during Operation Desert Shield, Major General Baratz was called to active duty to serve as the Deputy Commanding General for Reserve Affairs for the same United States Forces Command. He personally oversaw the mobilization of almost 85,000 Army Reservists in support of Operations Desert Shield and Desert Storm. Major General Baratz was personally responsible for one-third of the entire Defense Department's reserve component mobilization to support the Gulf War, and was a major factor in the success of our national efforts in the region. I am thoroughly convinced that, without Major General Baratz personally in charge, our efforts would have been far more difficult and problematic. Those soldiers were the lifeline for the ground forces, and the successful completion of their mission is a testament to the great abilities of this military leader.

Shortly after the Gulf War, Major General Baratz was again called to active duty to be Deputy Commanding General of the United States Army Reserve Command. In this capacity, he was personally responsible for the training and readiness of almost all Army Reserve units in the continental United States. In 1994 he was selected to be the Chief, Army Reserve.

Mr. Speaker, I believe that most people do not know the full scope and awesome responsibilities that come with this position. As the Chief, he oversees Army Reserve policy development and interaction with the Department of the Army and Department of Defense staffs. He is also the Commanding General of the United States Army Reserve Command, as well as the Deputy Commanding General for Reserve Affairs for the United States Forces Command. In short, he is the focal point for virtually all Army reserve component issues.

It should come as no surprise that Major General Baratz was as dedicated and professional in this assignment as he was in all his others. He oversaw a dramatic, and at times, painful reorganization of the Army Reserve that was accomplished, first and foremost, with the needs of the Army and the nation in the forefront of his mind. While its size was being reduced by over one-third, its utility was increasing dramatically. Under his direction, Army Reserve units were the first into and the last out of Haiti. Also, over 70 percent of the Army's reserve component mobilization in support of Operation Restore Democracy came from the Army Reserve. Furthermore, Major General Baratz' efforts were accentuated during the successful deployment of over 15,000 Army Reservists to Bosnia, a figure representing 74 percent of the Army's reserve component mobilization. In fact, more Army Reservists have been mobilized in support of peace keeping efforts in Bosnia than were mobilized during the Vietnam conflict. Under Major General Baratz, the United States Army Reserve is better trained and more relevant to the nation than, perhaps, at any time in its distinguished history.

Mr. Speaker, I believe that we all should say a prayer of thanks for Max Baratz and his desire to serve his country for over four decades and under nine different presidents. The United States Army is an institution that prides itself on leadership by example. The example Max Baratz has set ensures that we will always have dedicated men and women ready to take up the cause of our great nation wherever and whenever required. Mr. Speaker, it is an honor for me to present the distinguished credentials of Major General Max Baratz before the Congress today. However, something tells me that we, as a nation, have not heard the last from him. This tireless patriot may be retiring, but rather than a "farewell," he leaves saying, "until we meet again."

DRUG FREE BORDERS ACT OF 1998

SPEECH OF

HON. PHILIP M. CRANE

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Tuesday, May 19, 1998

Mr. CRANE. Mr. Speaker, I rise in strong support of H.R. 3809, the Drug Free Borders Act of 1998.
