(B) directed the Secretary of the Interior to establish the Sudbury, Assabet, and Concord River Study Committee to advise the Secretary of the Interior in conducting the study and the consideration of management alternatives should the river be included in the National Wild and Scenic Rivers System.

(2) The study determined the following river segments are eligible for inclusion in the National Wild and Scenic Rivers System based on their free-flowing condition and outstanding scenic, recreation, wildlife, cultural, and historic values:

(A) The 16.6-mile segment of the Sudbury River beginning at the Danforth Street Bridge in the town of Framingham, to its confluence with the Assabet River.

(3) The towns that directly abut the segments, including Framingham, Sudbury, Wayland, Lincoln, Concord, Bedford, Carlisle, and Billerica, Massachusetts, have each demonstrated their desire for National Wild and Scenic River Designation through town meeting votes endorsing designation.

(4) During the study, the Study Committee and the National Park Service prepared a comprehensive management plan for the seg-

ment, entitled "Sudbury, Assabet and Concord Wild and Scenic River Study, River Conservation Plan", dated March 16, 1995, which establishes objectives, standards, and action programs that will ensure long-term protection of the rivers' outstanding values and compatible management of their land and water resources.

(5) The Study Committee voted unanimously on February 23, 1995, to recommend that the Congress include these segments in the National Wild and Scenic Rivers System for management in accordance with the River Conservation Plan.
