

4. There have been no amendments to the Iranian Transactions Regulations, 31 C.F.R. Part 560 (the "ITR"), since my report of September 17, 1997.

5. During the current 6-month period, the Department of the Treasury's Office of Foreign Assets Control (OFAC) made numerous decisions with respect to applications for licenses to engage in transactions under the ITR, and issued seven licenses. The majority of denials were in response to requests to authorize commercial exports to Iran—particularly of machinery and equipment for various industries—and the importation of Iranian-origin goods. The licenses issued authorized certain financial transactions, transactions relating to air safety policy, and to disposal of U.S.-owned goods located in Iran. Pursuant to sections 3 and 4 of Executive Order 12959 and consistent with the Iran-Iraq Arms Non-Proliferation Act of 1992 and other statutory restrictions concerning certain goods and technology, including those involved in air-safety cases, the Department of the Treasury continues to consult with the Departments of State and Commerce on these matters.

The U.S. financial community continues to scrutinize transactions associated with Iran and to consult with OFAC about their appropriate handling. Many of these inquiries have resulted in investigations into the activities of U.S. parties and, where appropriate, the initiation of enforcement action.

6. The U.S. Customs Service has continued to effect numerous seizures of Iranian-origin merchandise, primarily carpets, for violation of the import prohibitions of the ITR. Various enforcement actions carried over from previous reporting periods are continuing and new reports of violations are being aggressively pursued. Since my last report, OFAC has collected six civil monetary penalties totaling nearly \$84,000 for violations of IEEPA and the ITR.

7. The expenses incurred by the Federal Government in the 6-month period from September 15, 1997, through March 14, 1998, that are directly attributable to the exercise of powers and authorities conferred by the declaration of a national emergency with respect to Iran are reported to be approximately \$1.3 million, most of which represent wage and salary costs for Federal personnel. Personnel costs were largely centered in the Department of the Treasury (particularly in the Office of Foreign Assets Control, the U.S. Customs Service, the Office of the Under Secretary for Enforcement, and the Office of the General Counsel), the Department of State (particularly the Bureau of Economic and Business Affairs, the Bureau of Near Eastern Affairs, the Bureau of Intelligence and Research, and the Office of the Legal Adviser), and the Department of Commerce (the Bureau of Export Administration and the General Counsel's Office).

8. The situation reviewed above continues to present an extraordinary and

unusual threat to the national security, foreign policy, and economy of the United States. The declaration of the national emergency with respect to Iran contained in Executive Order 12957 and the comprehensive economic sanctions imposed by Executive Order 12959 underscore the United States Government's opposition to the actions and policies of the Government of Iran, particularly its support of international terrorism and its efforts to acquire weapons of mass destruction and the means to deliver them. The Iranian Transactions Regulations issued pursuant to Executive Orders 12957, 12959, and 13059 continue to advance important objectives in promoting the non-proliferation and antiterrorism policies of the United States. I shall exercise the powers at my disposal to deal with these problems and will report periodically to the Congress on significant developments.
