Congressional Record

PROCEEDINGS AND DEBATES OF THE 105^{th} congress, second session

Vol. 144

WASHINGTON, FRIDAY, SEPTEMBER 25, 1998

No. 130

House of Representatives

The House met at 9 a.m. and was called to order by the Speaker pro tempore (Mr. MILLER of Florida).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

> Washington, DC, September 25, 1998.

I hereby designate the Honorable DAN MIL-LER to act as Speaker pro tempore on this day.

NEWT GINGRICH, Speaker of the House of Representatives.

PRAYER

The Reverend Douglas Tanner, Faith & Politics Institute, Washington, D.C., offered the following prayer:

Let us pray. Almighty God, we come before You this morning conscious of a change in the seasons. We still see around us signs of a dry summer. Trees have suffered, and some have died. Others, with deeper roots, have reached well below the surface, found water, and grown even in the drought-like conditions, like President Nelson Mandela in his prison cell. We marvel at the ways You redeem Your creation.

We know, O God, that we could experience the coming season in this institution as one of spiritual drought, with little rain falling to nurture mutual respect and appreciation for each other across ideological and party lines. We could see streams of wisdom and statesmanship disappear into a desert of superficial and self-righteous postures

Save us, we pray, from such a season. But if we must fully enter it, deepen the roots in our souls. Nourish our awareness, Lord, of truth, beauty, compassion, and understanding, that in even such a season, we may grow toward Your light. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from New York (Mr. Schu-Mer) come forward and lead the House in the Pledge of Allegiance.

Mr. SCHUMER led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Lundregan, one of its clerks, announced that the Senate had passed with amendments in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 3506. An act to award a congressional gold medal to Gerald R. and Betty Ford.

CONFERENCE REPORT ON H.R. 4103, DEPARTMENT OF DEFENSE AP-PROPRIATIONS ACT, 1999

Mr. YOUNG of Florida submitted the following conference report and statement on the bill (H.R. 4103) making appropriations for the Department of Defense for the fiscal year ending September 30, 1999, and for other purposes:

Conference Report (H. Rept. 105-746)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4103) "making appropriations for the Department of Defense for the fiscal year ending September 30, 1999, and for other purposes," having met, after full and free conference, have agreed to recommend and do rec-

ommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate, and agree to the same with an amendment, as follows:

In lieu of the matter stricken and inserted by said amendment, insert:

Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of chapter 20 of title 10, United States Code, and these obligations shall be reported to Congress on September 30 of each year: Provided, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: Provided further, That upon a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa. the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

SEC. 8010. (a) During fiscal year 1999, the civilian personnel of the Department of Defense may not be managed on the basis of any endstrength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year

(b) The fiscal year 2000 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2000 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 2000.

(c) Nothing in this section shall be construed to apply to military (civilian) technicians.

SEC. 8011. Notwithstanding any other provision of law, none of the funds made available by

this Act shall be used by the Department of Defense to exceed, outside the 50 United States, its territories, and the District of Columbia, 125,000 civilian workyears: Provided, That workyears shall be applied as defined in the Federal Personnel Manual: Provided further, workyears expended in dependent student hiring programs for disadvantaged youths shall not be included in this workyear limitation.

SEC. 8012. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pend-

ing before the Congress.

SEC. 8013. (a) None of the funds appropriated by this Act shall be used to make contributions to the Department of Defense Education Benefits Fund pursuant to section 2006(g) of title 10, United States Code, representing the normal cost for future benefits under section 3015(c) of title 38, United States Code, for any member of the armed services who, on or after the date of enactment of this Act-

(1) enlists in the armed services for a period of active duty of less than three years; or

(2) receives an enlistment bonus under section 308a or 308f of title 37, United States Code,

nor shall any amounts representing the normal cost of such future benefits be transferred from the Fund by the Secretary of the Treasury to the Secretary of Veterans Affairs pursuant to section 2006(d) of title 10, United States Code; nor shall the Secretary of Veterans Affairs pay such benefits to any such member: Provided, That in the case of a member covered by clause (1), these limitations shall not apply to members in combat arms skills or to members who enlist in the armed services on or after July 1, 1989, under a program continued or established by the Secretary of Defense in fiscal year 1991 to test the cost-effective use of special recruiting incentives involving not more than nineteen noncombat arms skills approved in advance by the Secretary of Defense: Provided further, That this subsection applies only to active components of the Army.

(b) None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time spent as a full-time student is credited toward completion of a service commitment: Provided, That this subsection shall not apply to those members who have reenlisted with this option prior to October 1, 1987: Provided further, That this subsection applies only

to active components of the Army.

SEC. 8014. None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of enactment of this Act, is performed by more than ten Department of Defense civilian employees until a most efficient and cost-effective organization analysis is completed on such activity or function and certification of the analysis is made to the Committees on Appropriations of the House of Representatives and the Senate: Provided. That this section and subsections (a). (b), and (c) of 10 U.S.C. 2461 shall not apply to a commercial or industrial type function of the Department of Defense that: (1) is included on the procurement list established pursuant to section 2 of the Act of June 25, 1938 (41 U.S.C. 47), popularly referred to as the Javits-Wagner-O'Day Act; (2) is planned to be converted to performance by a qualified nonprofit agency for the blind or by a qualified nonprofit agency for other severely handicapped individuals in accordance with that Act; or (3) is planned to be converted to performance by a qualified firm under 51 per centum Native American owner-

SEC. 8034. (a) None of the funds appropriated in this Act are available to establish a new Department of Defense (department) federally funded research and development center (FFRDC), either as a new entity, or as a separate entity administrated by an organization managing another FFRDC, or as a nonprofit membership corporation consisting of a consortium of other FFRDCs and other non-profit entities

(b) LIMITATION ON COMPENSATION—FEDER-ALLY FUNDED RESEARCH AND DEVELOPMENT CENTER (FFRDC).—No member of a Board of Directors, Trustees, Overseers, Advisory Group, Special Issues Panel, Visiting Committee, or any similar entity of a defense FFRDC, and no paid consultant to any defense FFRDC, except when acting in a technical advisory capacity, may be compensated for his or her services as a member of such entity, or as a paid consultant by more than one FFRDC in a fiscal year: Provided, That a member of any such entity referred to previously in this subsection shall be allowed travel expenses and per diem as authorized under the Federal Joint Travel Regulations, when engaged in the performance of membership duties.

(c) Notwithstanding any other provision of law, none of the funds available to the department from any source during fiscal year 1999 may be used by a defense FFRDC, through a fee or other payment mechanism, for construction of new buildings, for payment of cost sharing for projects funded by government grants, for absorption of contract overruns, or for certain charitable contributions, not to include employee participation in community service and/or development.

(d) Notwithstanding any other provision of law, of the funds available to the department during fiscal year 1999, not more than 6,206 staff years of technical effort (staff years) may be funded for defense FFRDCs: Provided, That of the specific amount referred to previously in this subsection, not more than 1,105 staff years may be funded for the defense studies and analysis FFRDCs.

(e) Within 60 days after enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report presenting the specific amounts of staff years of technical effort to be allocated by the department for each defense FFRDC during fiscal year 1999: Provided, That, after the submission of the report required by this subsection, the department may not reallocate more than five per centum of an FFRDC's staff years among other defense FFRDCs until 30 days after a detailed justification for any such reallocation is submitted to the congressional defense committees.

(f) The Secretary of Defense shall, with the submission of the department's fiscal year 2000 budget request, submit a report presenting the specific amounts of staff years of technical effort to be allocated for each defense FFRDC during that fiscal year.

(g) Notwithstanding any other provision of law, the Secretary of Defense shall control the total number of staff years to be performed by defense FFRDCs during fiscal year 1999 so as to reduce the total amounts appropriated in titles II, III, and IV of this Act by \$62,000,000: Provided, That the total amounts appropriated in titles II, III, and IV of this Act are hereby re-

duced by \$62,000,000 to reflect savings from the use of defense FFRDCs by the department.

(h) Notwithstanding any other provision of law, none of the reductions for advisory and assistance services contained in this Act shall be applied to defense FFRDCs.

SEC. 8035. None of the funds appropriated or made available in this Act shall be used to procure carbon, alloy or armor steel plate for use in any Government-owned facility or property under the control of the Department of Defense which were not melted and rolled in the United States or Canada: Provided, That these procurement restrictions shall apply to any and all Federal Supply Class 9515, American Society of Testing and Materials (ASTM) or American Iron and Steel Institute (AISI) specifications of carbon, alloy or armor steel plate: Provided further, That the Secretary of the military department responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That these restrictions shall not apply to contracts which are in being as of the date of enactment of this Act.

SEC. 8036. For the purposes of this Act, the term "congressional defense committees" means the National Security Committee of the House of Representatives, the Armed Services Committee of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on National Security of the Committee on Appropriations of the House of Representatives.

SEC. 8038. (a)(1) If the Secretary of Defense, after consultation with the United States Trade Representative, determines that a foreign country which is party to an agreement described in paragraph (2) has violated the terms of the agreement by discriminating against certain types of products produced in the United States that are covered by the agreement, the Secretary of Defense shall rescind the Secretary's blanket waiver of the Buy American Act with respect to such types of products produced in that foreign country.

(2) Ån agreement referred to in paragraph (1) is any reciprocal defense procurement memorandum of understanding, between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the Buy American Act for certain products in that country

ucts in that country.
(b) The Secretary of Defense shall submit to Congress a report on the amount of Department of Defense purchases from foreign entities in fiscal year 1999. Such report shall separately indicate the dollar value of items for which the Buy American Act was waived pursuant to any agreement described in subsection (a)(2), the Trade Agreement Act of 1979 (19 U.S.C. 2501 et seq.), or any international agreement to which the United States is a party.

(c) For purposes of this section, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

SEC. 8039. Appropriations contained in this Act that remain available at the end of the current fiscal year as a result of energy cost savings realized by the Department of Defense shall remain available for obligation for the next fiscal year to the extent, and for the purposes, provided in section 2865 of title 10, United States Code.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8040. Amounts deposited during the current fiscal year to the special account established under 40 U.S.C. 485(h)(2) and to the special account established under 10 U.S.C. 2667(d)(1) are appropriated and shall be available until transferred by the Secretary of Defense to current applicable appropriations or funds of the Department of Defense under the terms and conditions specified by 40 U.S.C. 485(h)(2)(A) and (B) and 10 U.S.C. 2667(d)(1)(B), to be merged with and to be available for the same time period and the same purposes as the appropriation to which transferred.

SEC. 8041. During the current fiscal year, appropriations available to the Department of Defense may be used to reimburse a member of a reserve component of the Armed Forces who is not otherwise entitled to travel and transportation allowances and who occupies transient government housing while performing active duty for training or inactive duty training: Provided, That such members may be provided lodging in kind if transient government quarters are unavailable as if the member was entitled to such allowances under subsection (a) of section 404 of title 37, United States Code: Provided further, That if lodging in kind is provided, any authorized service charge or cost of such lodging may be paid directly from funds appropriated for operation and maintenance of the reserve component of the member concerned.

SEC. 8042. The President shall include with each budget for a fiscal year submitted to the Congress under section 1105 of title 31, United States Code, materials that shall identify clearly and separately the amounts requested in the budget for appropriation for that fiscal year for salaries and expenses related to administrative activities of the Department of Defense, the military departments, and the Defense Agencies.

SEC. 8043. Notwithstanding any other provision of law, funds available for "Drug Interdiction and Counter-Drug Activities, Defense" may be obligated for the Young Marines program.

SEC. 8044. During the current fiscal year, amounts contained in the Department of Defense Overseas Military Facility Investment Recovery Account established by section 2921(c)(1) of the National Defense Authorization Act of 1991 (Public Law 101-510: 10 U.S.C. 2687 note) shall be available until expended for the payments specified by section 2921(c)(2) of that Act: Provided. That none of the funds made available for expenditure under this section may be transferred or obligated until thirty days after the Secretary of Defense submits a report which details the balance available in the Overseas Military Facility Investment Recovery Account, all projected income into the account during fiscal years 1999 and 2000, and the specific expenditures to be made using funds transferred from this account during fiscal year 1999.

SEC. 8045. Of the funds appropriated or otherwise made available by this Act, not more than \$119,200,000 shall be available for payment of the operating costs of NATO Headquarters: Provided, That the Secretary of Defense may waive this section for Department of Defense support provided to NATO forces in and around the former Yugoslavia.

SEC. 8046. During the current fiscal year, appropriations which are available to the Department of Defense for operation and maintenance may be used to purchase items having an investment item unit cost of not more than \$100,000.

SEC. 8047. (a) During the current fiscal year, none of the appropriations or funds available to the Department of Defense Working Capital Funds shall be used for the purchase of an investment item for the purpose of acquiring a new inventory item for sale or anticipated sale during the current fiscal year or a subsequent fiscal year to customers of the Department of Defense Working Capital Funds if such an item would not have been chargeable to the Department of Defense Business Operations Fund during fiscal year 1994 and if the purchase of such an investment item would be chargeable during the current fiscal year to appropriations made to the Department of Defense for procurement.

(b) The fiscal year 2000 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2000 Department of Defense budget shall be prepared and submitted to the Congress on the basis that any equipment which was classified as an end item and funded in a procurement appropriation contained in this Act shall be budgeted for in a proposed fiscal year 2000 procurement appropriation and not in the supply management business area or any other area or category of the Department of Defense Working Capital Funds.

SEC. 8049. Notwithstanding any other provision of law, funds made available in this Act for the Defense Intelligence Agency may be used for the design, development, and deployment of General Defense Intelligence Program intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands

SEC. 8050. Of the funds appropriated by the Department of Defense under the heading "Operation and Maintenance, Defense-Wide", not less than \$8,000,000 shall be made available only for the mitigation of environmental impacts, including training and technical assistance to tribes, related administrative support, the gathering of information, documenting of environmental damage, and developing a system for prioritization of mitigation and cost to complete estimates for mitigation, on Indian lands resulting from Department of Defense activities.

SEC. 8051. Amounts collected for the use of the facilities of the National Science Center for Communications and Electronics during the current fiscal year pursuant to section 1459(g) of the Department of Defense Authorization Act, 1986, and deposited to the special account established under subsection 1459(g)(2) of that Act are appropriated and shall be available until expended for the operation and maintenance of the Center as provided for in subsection 1459(g)(2).

SEC. 8052. None of the funds appropriated in this Act may be used to fill the commander's position at any military medical facility with a health care professional unless the prospective candidate can demonstrate professional administrative skills.

SEC. 8053. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for

other purposes'', approved March 3, 1933 (41 U.S.C. 10a et seq.).

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a "Made in America" inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code, whether the person should be debarred from contracting with the Department of Defense.

(c) In the case of any equipment or products purchased with appropriations provided under this Act, it is the sense of the Congress that any entity of the Department of Defense, in expending the appropriation, purchase only Americanmade equipment and products, provided that American-made equipment and products are cost-competitive, quality-competitive, and available in a timely fashion.

SEC. 8054. None of the funds appropriated by this Act shall be available for a contract for studies, analysis, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines—

(1) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work;

(2) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source; or

(3) the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support:

Provided, That this limitation shall not apply to contracts in an amount of less than \$25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

SEC. 8055. (a) Except as provided in subsections (b) and (c), none of the funds made available by this Act may be used—

(1) to establish a field operating agency; or

(2) to pay the basic pay of a member of the Armed Forces or civilian employee of the department who is transferred or reassigned from a headquarters activity if the member or employee's place of duty remains at the location of that headquarters.

(b) The Secretary of Defense or Secretary of a military department may waive the limitations in subsection (a), on a case-by-case basis, if the Secretary determines, and certifies to the Committees on Appropriations of the House of Representatives and Senate that the granting of the waiver will reduce the personnel requirements or the financial requirements of the department.

(c) This section does not apply to field operating agencies funded within the National Foreign Intelligence Program.

SEC. 8056. Funds appropriated by this Act for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 1999 until the enactment of the Intelligence Authorization Act for Fiscal Year 1999.

SEC. 8057. Notwithstanding section 303 of Public Law 96–487 or any other provision of law, the Secretary of the Navy is authorized to lease real and personal property at Naval Air Facility, Adak, Alaska, pursuant to 10 U.S.C. 2667(f), for commercial, industrial or other purposes: Provided, That notwithstanding any other provision of law, the Secretary of the Navy may remove hazardous materials from facilities, buildings, and structures at Adak, Alaska, and may demolish or otherwise dispose of such facilities, buildings, and structures.

SEC. 8084. The Under Secretary of Defense (Comptroller) shall submit to the congressional defense committees by February 1, 1999 a detailed report identifying, by amount and by separate budget activity, activity group, subactivity group, line item, program element, program, project, subproject, and activity, any activity for which the fiscal year 2000 budget request was reduced because Congress appropriated funds above the President's budget request for that specific activity for fiscal year 1999.

SEC. 8085. Funds appropriated in title II of this Act for supervision and administration costs for facilities maintenance and repair, minor construction, or design projects may be obligated at the time the reimbursable order is accepted by the performing activity: Provided, That for the purpose of this section, supervision and administration costs includes all in-house Government cost.

SEC. 8086. The Secretary of Defense may waive reimbursement of the cost of conferences, seminars courses of instruction or similar educational activities of the Asia-Pacific Center for Security Studies for military officers and civilian officials of foreign nations if the Secretary determines that attendance by such personnel, without reimbursement is in the national security interest of the United States: Provided. That costs for which reimbursement is waived pursuant to this subsection shall be paid from appropriations available for the Asia-Pacific Center.

SEC. 8087. (a) Notwithstanding any other provision of law, the Chief of the National Guard Bureau may permit the use of equipment of the National Guard Distance Learning Project by any person or entity on a space-available, reimbursable basis. The Chief of the National Guard Bureau shall establish the amount of reimbursement for such use on a case-by-case basis.

(b) Amounts collected under subsection (a) shall be credited to funds available for the National Guard Distance Learning Project and be available to defray the costs associated with the use of equipment of the project under that subsection. Such funds shall be available for such purposes without fiscal year limitation.

SEC. 8088. Using funds available by this Act or any other Act, the Secretary of the Air Force, pursuant to a determination under section 2690 of title 10, United States Code, may implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community in the Federal Republic of Germany: Provided, That in the City of Kaiserslautern such agreements will include the

use of United States anthracite as the base load energy for municipal district heat to the United States Defense installations: Provided further, That at Landstuhl Army Regional Medical Center and Ramstein Air Base, furnished heat may be obtained from private, regional or municipal services, if provisions are included for the consideration of United States coal as an energy

SEC. 8089. During the current fiscal year, the amounts which are necessary for the operation and maintenance of the Fisher Houses administered by the Departments of the Army, the Navy, and the Air Force are hereby appropriated, to be derived from amounts which are available in the applicable Fisher House trust fund established under 10 U.S.C. 2221 for the Fisher Houses of each such department.

SEC. 8090. During the current fiscal year, refunds attributable to the use of the Government travel card by military personnel and civilian employees of the Department of Defense and refunds attributable to official Government travel arranged by Government Contracted Travel Management Centers may be credited to operation and maintenance accounts of the Department of Defense which are current when the refunds are received.

SEC. 8091. During the current fiscal year, not more than a total of \$60,000,000 in withdrawal credits may be made by the Marine Corps Supply Management activity group of the Navy Working Capital Fund, Department of Defense Working Capital Funds, to the credit of current applicable appropriations of a Department of Defense activity in connection with the acquisition of critical low density repairables that are capitalized into the Navy Working Capital

SEC. 8092. Notwithstanding 31 U.S.C. 3902, during the current fiscal year interest penalties may be paid by the Department of Defense from funds financing the operation of the military department or defense agency with which the invoice or contract payment is associated.

SEC. 8093. At the time the President submits his budget for fiscal year 2000 and any fiscal year thereafter, the Department of Defense shall transmit to the congressional defense committees a budget justification document for the active and reserve Military Personnel accounts, to be known as the "M-1", which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel in any budget request, or amended budget request, for

that fiscal year.

SEC. 8094. None of the funds appropriated in title IV of this Act may be used to procure enditems for delivery to military forces for operational training, operational use or inventory requirements: Provided. That this restriction does not apply to end-items used in development, prototyping, and test activities preceding and leading to acceptance for operational use: Provided further, That this restriction does not apply to programs funded within the National Foreign Intelligence Program: Provided further, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do

SEC. 8095. The budget of the President for fiscal year 2000 submitted to Congress pursuant to section 1105 of title 31, United States Code, and each annual budget request thereafter, shall include budget activity groups (known as "subactivities") in all appropriations accounts provided in this Act, as may be necessary, to separately identify all costs incurred by the Department of Defense to support the North Atlantic Treaty Organization and all Partnership For Peace programs and initiatives. The budget justification materials submitted to Congress in support of the budget of the Department of Defense for fiscal year 2000, and subsequent fiscal years, shall provide complete, detailed estimates for all such costs.

SEC. 8096. None of the funds made available in this Act may be obligated or expended to enter into or renew a contract with a contractor that is subject to the reporting requirement set forth in subsection (d) of section 4212 of title 38, United States Code, but has not submitted the most recent report required by such subsection for 1998 or a subsequent year.

SEC. 8097. None of the funds made available in this Act may be used to approve or license the sale of the F-22 advanced factical fighter to any foreign government.

SEC. 8098. None of the funds appropriated or otherwise made available by this Act may be made available for the United States Man and the Biosphere Program, or related projects.

SEC. 8099. (a) The Secretary of Defense may, on a case-by-case basis, waive with respect to a foreign country each limitation on the procurement of defense items from foreign sources provided in law if the Secretary determines that the application of the limitation with respect to that country would invalidate cooperative programs entered into between the Department of Defense and the foreign country, or would invalidate reciprocal trade agreements for the procurement of defense items entered into under section 2531 of title 10, United States Code, and the country does not discriminate against the same or similar defense items produced in the United States for that country.

(b) Subsection (a) applies with respect to-(1) contracts and subcontracts entered into on or after the date of the enactment of this Act;

(2) options for the procurement of items that are exercised after such date under contracts that are entered into before such date if the option prices are adjusted for any reason other than the application of a waiver granted under subsection (a).

(c) Subsection (a) does not apply to a limitation regarding construction of public vessels, ball and roller bearings, food, and clothing or textile materials as defined by section 11 (chapters 50-65) of the Harmonized Tariff Schedule and products classified under headings 4010, 4202, 4203, 6401 through 6406, 6505, 7019, 7218 through 7229, 7304.41 through 7304.49, 7306.40, 7502 through 7508, 8105, 8108, 8109, 8211, 8215, and 9404.

SEC. 8100. Notwithstanding 31 U.S.C. 1552(a), of the funds provided in Department of Defense Appropriations Acts, not more than the specified amounts from the following accounts shall remain available for the payment of satellite onorbit incentive fees until the fees are paid:

"Missile Procurement, Air Force, 1995/1997", \$20,978,000; and

"Missile Procurement, Air Force, 1996/1998". \$16,782,400.

SEC. 8101 None of the funds in this Act may be used by the National Imagery and Mapping Agency for mapping, charting, and geodesy activities unless contracts for such services are awarded in accordance with the qualifications based selection process in 40 U.S.C. 541 et seq. and 10 U.S.C. 2855: Provided, That such agency may continue to fund existing contracts for such services for not more than 180 days from the date of enactment of this Act: Provided further, That an exception shall be provided for such services that are critical to national security after a written notification has been submitted by the Deputy Secretary of Defense to the Committees on Appropriations of the House of Representatives and the Senate.

SEC. 8102. Funds made available to the Civil Air Patrol in this Act under the heading "Drug Interdiction and Counter-Drug Activities, Defense'' may be used for the Civil Air Patrol Corporation's counterdrug program, including its demand reduction program involving youth programs, as well as operational and training drug reconnaissance missions for federal, state and

local government agencies; for administrative costs, including the hiring of Civil Air Patrol Corporation employees; for travel and per diem expenses of Civil Air Patrol Corporation personnel in support of those missions; and for equipment needed for mission support or performance: Provided, That of these funds, \$300,000 shall be made available to establish and operate a distance learning program: Provided further, That the Department of the Air Force should waive reimbursement from the Federal, State and local

government agencies for the use of these funds. SEC. 8103. During fiscal year 1999, advance billing for services provided or work performed by the Working Capital Fund activities of the Department of the Air Force in excess of

\$100,000,000 is prohibited. SEC. 8104. (e) FUNDING FOR CERTAIN COSTS OF TRANS-FERS.—There is established in the Treasury of the United States a special account to be known as the Defense Vessels Transfer Program Account. There is hereby appropriated into that account such sums as may be necessary for the costs (as defined in section 502 of the Congressional Budget Act of 1974 (2 U.S.C. 661a)) of the lease-sale transfers authorized by subsection (c). Funds in that account are available only for the purpose of covering those costs.

- (f) NOTIFICATION OF CONGRESS.—Not later than 30 days after the date of the enactment of this Act, the Secretary of the Navy shall submit to Congress, for each naval vessel that is to be transferred under this section before January 1, 1999, the notifications required under section 516 of the Foreign Assistance Act of 1961 (22 U.S.C. 2321j) and section 525 of the Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1998 (Public Law 105-118; 111 Stat. 2413).
- (g) GRANTS NOT COUNTED IN ANNUAL TOTAL OF TRANSFERRED EXCESS DEFENSE ARTICLES.—
 The value of a vessel transferred to another country on a grant basis under section 516 of the Foreign Assistance Act of 1961 (22 U.S.C. 2321j) pursuant to authority provided by subsection (a) shall not be counted for the purposes of subsection (g) of that section in the aggregate value of excess defense articles transferred to countries under that section in any fiscal year.
- (h) COSTS OF TRANSFERS.—Any expense incurred by the United States in connection with a transfer authorized by this section shall be charged to the recipient (notwithstanding section 516(e)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2321j(e)(1)) in the case of a transfer authorized to be made on a grant basis under subsection (a)).
- (i) REPAIR AND REFURBISHMENT IN UNITED STATES SHIPYARDS.—To the maximum extent practicable, the Secretary of the Navy shall require, as a condition of the transfer of a vessel under this section, that the country to which the vessel is transferred have such repair or refurbishment of the vessel as is needed, before the vessel joins the naval forces of that country, performed at a shipyard located in the United States, including a United States Navy shipward
- (j) EXPIRATION OF AUTHORITY.—The authority to transfer a vessel under this section shall expire at the end of the two-year period beginning on the date of the enactment of this Act.

SEC. 8111. None of the funds in this Act may be used to compensate an employee of the Department of Defense who initiates a new start program without notification to the Office of the Secretary of Defense and the congressional defense committees, as required by Department of Defense financial management regulations.

SEC. 8112. None of the funds made available by this Act shall be used by the Army to reduce civilian personnel workforce levels at United States Army, Pacific (USARPAC) bases and at Major Range and Test Facility Bases (MRTFBs) in the United States in fiscal year 1999 below levels assumed in this Act unless the Secretary of the Army notifies the Congressional defense committees not less than 30 days prior to implementation of any civilian personnel workforce reductions.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8113. Of the funds made available under title II of this Act, the following amounts shall be transferred to the Defense Working Capital Funds for the purpose of funding operations of the Defense Commissary Agency:

"Operation and Maintenance, Army", \$338,400,000;

"Operation and Maintenance, Navy", \$255.000.000:

\$255,000,000; ''Operation and Maintenance, Marine Corps'', \$86,600,000; and

"Operation and Maintenance, Air Force", \$302,071,000:

Provided, That the transfer authority provided in this section is in addition to any other transfer authority contained elsewhere in this Act.

SEC. 8114. Of the amounts made available in title II of this Act under the heading "Operation and Maintenance, Navy", \$20,000,000 is available only for emergency and extraordinary expenses associated with the accident involving a United States Marine Corps A-6 aircraft on February 3, 1998, near Cavalese, Italy: Provided, That these funds shall remain available

until expended: Provided further, That notwithstanding any other provision of law, the funds made available by this section may be available for payments to persons, communities, or other entities in Italy for reimbursement for property damages resulting from the accident involving a United States Marine Corps A-6 aircraft on February 3, 1998, near Cavalese, Italy: Provided further, That notwithstanding any other provision of law, funds made available under this section may be used to rebuild or replace the funicular system in Cavalese destroyed on February 3, 1998 by that aircraft: Provided further, That any amount paid to any individual or entity from the amount appropriated under this section shall be credited against any amount subsequently determined to be payable to that individual or entity under chapter 163 of title 10. United States Code, section 127 of that title, or any other authority provided by law for administrative settlement of claims against the United States with respect to damages arising from the accident described in this section: Provided further, That payment of an amount under this section shall not be considered to constitute a statement of legal liability on the part of the United States or otherwise to prejudge any judicial proceeding or investigation arising from the accident described in this section: Provided further, That no part of any payment authorized by this section shall be paid to or received by agents or attorneys for services rendered in connection with obtaining such payment, any contract to the contrary notwithstanding.

SEC. 8115. (a) None of the funds appropriated or otherwise made available under this Act may be obligated or expended for any additional deployment of forces of the Armed Forces of the United States to Yugoslavia, Albania, or Macedonia unless and until the President, after consultation with the Speaker of the House of Representatives, the Majority Leader of the Senate, the Minority Leader of the House of Representatives, and the Minority Leader of the Senate, transmits to Congress a report on the deployment that includes the following:

(1) The President's certification that the presence of those forces in each country to which the forces are to be deployed is necessary in the national security interests of the United States.

(2) The reasons why the deployment is in the national security interests of the United States.
(3) The number of United States military per-

sonnel to be deployed to each country.
(4) The mission and objectives of forces to be

(4) The mission and objectives of forces to be deployed.
(5) The expected schedule for accomplishing

the objectives of the deployment.
(6) The exit strategy for United States forces

engaged in the deployment.
(7) The costs associated with the deployment and the funding sources for paying those costs.

(8) The anticipated effects of the deployment on the morale, retention, and effectiveness of United States forces.

(b) Subsection (a) does not apply to a deployment of forces—

(1) in accordance with United Nations Security Council Resolution 795; or

(2) under circumstances determined by the President to be an emergency necessitating immediate deployment of the forces.

(c) Nothing in this section shall be deemed to restrict the authority of the President under the Constitution to protect the lives of United States citizens

SEC. 8116. (a) ENSURING YEAR 2000 COMPLIANCE OF INFORMATION TECHNOLOGY AND NATIONAL SECURITY SYSTEMS.—None of the funds appropriated or otherwise made available by this Act may (except as provided in subsection (b)) be obligated or expended on the development or modernization of any information technology or national security system of the Department of Defense in use by the Department of Defense (whether or not the system is a mission critical system) if the date-related data processing capability of that system does not

meet certification level 1a, 1b, or 2 (as prescribed in the April 1997 publication of the Department of Defense entitled "Year 2000 Management

(b) EXCEPTION FOR CERTAIN INFORMATION TECHNOLOGY AND NATIONAL SECURITY SYS-TEMS.—The limitation in subsection (a) does not apply to an obligation or expenditure for an information technology or national security system that is reported to the Office of the Secretary of Defense by October 1, 1998, in accordance with the preparation instructions for the May 1998 Department of Defense quarterly report on the status of year 2000 compliance, if-

(1) the obligation or expenditure is directly related to ensuring that the reported system

achieves year 2000 compliance;

(2) the system is being developed and fielded to replace, before January 1, 2000, a noncompliant system or a system to be terminated in accordance with the May 1998 Department of Defense quarterly report on the status of year 2000 compliance; or

(3) the obligation or expenditure is required for a particular change that is specifically required by law or that is specifically directed by

the Secretary of Defense.

(c) Unallocated Reductions of Funds Not TO APPLY TO MISSION CRITICAL SYSTEMS. Funds appropriated or otherwise made available by this Act for mission critical systems are not subject to any unallocated reduction of funds made by or otherwise applicable to funds appropriated or otherwise made available by this Act.

(d) CURRENT SERVICES OPERATIONS NOT AF-FECTED.—Subsection (a) does not prohibit the obligation or expenditure of funds for current services operations of information technology

and national security systems.

(e) WAIVER AUTHORITY.—The Secretary of Defense may waive subsection (a) on a case-bycase basis with respect to an information technology or national security system if the Secretary provides the congressional defense committees with written notice of the waiver, including the reasons for the waiver and a timeline for the testing and certification of the system as year 2000 compliant.

(f) REQUIRED REPORT.—(1) Not later than December 1, 1998, the Secretary of Defense shall submit to the congressional defense committees a

report describing-

(A) an executable strategy to be used throughout the Department of Defense to test information technology and national security systems for year 2000 compliance (to include functional capability tests and military exercises);

(B) the plans of the Department of Defense for ensuring that adequate resources (such as testing facilities, tools, and personnel) are available to ensure that all mission critical systems achieve year 2000 compliance; and

(C) the criteria and process to be used to certify a system as year 2000 compliant.

(2) The report shall also include-

(A) an updated list of all mission critical systems: and

guidelines for developing contingency plans for the functioning of each information technology or national security system in the event of a year 2000 problem in any such system.

(g) CAPABILITY CONTINGENCY PLANS.—Not later than December 30, 1998, the Secretary of Defense shall have in place contingency plans to ensure continuity of operations for every critical mission or function of the Department of Defense that is dependent on an information technology or national security system.

(h) INSPECTOR GENERAL EVALUATION.—The Inspector General of the Department of Defense shall selectively audit information technology and national security systems certified as year 2000 compliant to evaluate the ability of systems to successfully operate during the actual year 2000, including the ability of the systems to access and transmit information from point of origin to point of termination.

(i) DEFINITIONS.—For purposes of this section:

(1) The term "information technology" has the meaning given that term in section 5002 of the Clinger-Cohen Act of 1996 (40 U.S.C. 1401).

(2) The term "national security system" has the meaning given that term in section 5142 of

such Act (40 U.S.C. 1452). (3) The term "development or modernization" has the meaning given that term in paragraph E of section 180203 of the Department of Defense Financial Management Regulation 7000.14-R), but does not include any matter covered by subparagraph 3 of that paragraph.

(4) The term "current services" has the meaning given that term in paragraph C of section 180203 of the Department of Defense Financial Management Regulation (DOD 7000.14-R).

(5) The term "mission critical system" means an information technology or national security system that is designated as mission critical in the May 1998 Department of Defense quarterly report on the status of year 2000 compliance. SEC. 8117. (a) EVALUATION OF YEAR 2000 COM-

PLIANCE AS PART OF TRAINING EXERCISES PRO-GRAMS.—Not later than December 15, 1998, the Secretary of Defense shall submit to Congress a plan for the execution of a simulated year 2000 as part of military exercises described in subsection (c) in order to evaluate, in an operational environment, the extent to which information technology and national security systems involved in those exercises will successfully operate during the actual year 2000, including the ability of those systems to access and transmit information from point of origin to point of termination.

(b) EVALUATION OF COMPLIANCE IN SELECTED EXERCISES.—In conducting the military exercises described in subsection (c), the Secretary of

Defense shall ensure that—

(1) at least 25 of those exercises (referred to in this section as "year 2000 simulation exercises") are conducted so as to include a simulated year 2000 in accordance with the plan submitted under subsection (a);

(2) at least two of those exercises are conducted by the commander of each unified or

specified combatant command; and

(3) all mission critical systems that are expected to be used if the Armed Forces are involved in a conflict in a major theater of war are tested in at least two exercises.

(c) COVERED MILITARY EXERCISES.—A military exercise referred to in this section is a military exercise conducted by the Department of Defense, during the period beginning on January 1, 1999, and ending on September 30, 1999-

 under the training exercises program known as the "CJCS Exercise Program"

(2) at the Naval Strike and Air Warfare Center, the Army National Training Center, or the Air Force Air Warfare Center; or

(3) as part of Naval Carrier Group fleet training or Marine Corps Expeditionary Unit training

(d) ALTERNATIVE TESTING METHOD.—In the case of an information technology or national security system for which a simulated year 2000 test as part of a military exercise described in subsection (c) is not feasible or presents undue risk, the Secretary of Defense shall test the system using a functional end-to-end test or through a Defense Major Range and Test Facility Base. The Secretary shall include the plans for these tests in the plan required by subsection (a). Tests under this subsection are in addition to the 25 tests required by subsection (b).

(e) AUTHORITY FOR EXCLUSION OF SYSTEMS NOT CAPABLE OF PERFORMING RELIABLY IN YEAR 2000 SIMULATION.—(1) In carrying out a year 2000 simulation exercise, the Secretary of Defense may exclude a particular information technology or national security system from the year 2000 simulation phase of the exercise if the Secretary determines that the system would be incapable of performing reliably during the year 2000 simulation phase of the exercise. In such a case, the system excluded shall be replaced in accordance with the year 2000 contingency plan for the system.

(2) If the Secretary of Defense excludes an information technology or national security system from the year 2000 simulation phase of an exercise as provided in paragraph (1), the Secretary shall notify Congress of that exclusion not later than two weeks before commencing that exercise. The notice shall include a list of each information technology or national security system excluded from the exercise, a description of how the exercise will use the year 2000 contingency plan for each such system, and a description of the effect that continued year 2000 noncompliance of each such system would have on military readiness.

(3) An information technology or national security system with cryptological applications that is not capable of having its internal clock adjusted forward to a simulated later time is exempt from the year 2000 simulation phase of an

exercise under this section

(f) COMPTROLLER GENERAL REVIEW.—Not later than January 30, 1999, the Comptroller General shall review the report and plan submitted under subsection (a) and submit to Congress a briefing evaluating the methodology to be used under the plan to simulate the year 2000 and describing the potential information that will be collected as a result of implementation of the plan, the adequacy of the planned tests, and the impact that the plan will have on military readiness

(g) DEFINITIONS.—For the purposes of this sec-

(1) The term ''information technology'' has the meaning given that term in section 5002 of the Clinger-Cohen Act of 1996 (40 U.S.C. 1401).

(2) The term "national security system" has the meaning given that term in section 5142 of such Act (40 U.S.C. 1452).

(3) The term "mission critical system" means an information technology or national security system that is designated as mission critical in the May 1998 Department of Defense quarterly report on the status of year 2000 compliance.

SEC. 8118. During the current fiscal year and hereafter, no funds appropriated or otherwise available to the Department of Defense may be used to award a contract to, extend a contract with, or approve the award of a subcontract to any person who within the preceding 15 years has been convicted under section 704 of title 18, United States Code, of the unlawful manufacture or sale of the Congressional Medal of Honor.

SEC. 8119. (a) The Secretary of Defense shall submit to the Committees on Appropriations of the Senate and the House of Representatives a report on food stamp assistance for members of the Armed Forces. The Secretary shall submit the report at the same time that the Secretary submits to Congress, in support of the fiscal year 2001 budget, the materials that relate to the funding provided in that budget for the Department of Defense.

(b) The report shall include the following:

(1) The number of members of the Armed Forces and dependents of members of the Armed Forces who are eligible for food stamps

(2) The number of members of the Armed Forces and dependents of members of the Armed Forces who received food stamps in fiscal year

(3) A proposal for using, as a means for eliminating or reducing significantly the need of such personnel for food stamps, the authority under section 2828 of title 10, United States Code, to lease housing facilities for enlisted members of the Armed Forces and their families when Government quarters are not available for such personnel.

(4) A proposal for increased locality adjustments through the basic allowance for housing and other methods as a means for eliminating or reducing significantly the need of such personnel for food stamps.

(5) Other potential alternative actions (including any recommended legislation) for eliminating or reducing significantly the need of such personnel for food stamps.

- (6) A discussion of the potential for each alternative action referred to in paragraph (3) or (4) to result in the elimination or a significant reduction in the need of such personnel for food
- (c) Each potential alternative action included in the report under paragraph (3) or (4) of subsection (b) shall meet the following require-
- (1) Apply only to persons referred to in paragraph (1) of such subsection.

(2) Be limited in cost to the lowest amount feasible to achieve the objectives.

(d) In this section:

(1) The term "fiscal year 2001 budget" means the budget for fiscal year 2001 that the President submits to Congress under section 1105(a) of title 31, United States Code.

(2) The term "food stamps" means assistance under the Food Stamp Act of 1977 (7 U.S.C. 2011 et seq.).

SEC. 8120. None of the funds appropriated or otherwise made available by this Act in Titles III and IV may be used to enter into or renew a contract with any company owned, or partially owned, by the People's Republic of China or the People's Liberation Army of the People's Republic of China.

SEC. 8121. (a) Chapter 157 of title 10, United States Code, is amended by inserting after section 2641 the following:

"§ 2641a. Transportation of American Samoa veterans on Department of Defense aircraft for certain medical care in Hawaii

"(a) TRANSPORTATION AUTHORIZED.—The Secretary of Defense may provide transportation on Department of Defense aircraft for the purpose of transporting any veteran specified in subsection (b) between American Samoa and the State of Hawaii if such transportation is required in order to provide hospital care to such veteran as described in that subsection.

'(b) VETERANS ELIGIBLE FOR TRANSPORT.—A veteran eligible for transport under subsection

(a) is any veteran who-

'(1) resides in and is located in American Samoa: and

'(2) as determined by an official of the Department of Veterans Affairs designated for that purpose by the Secretary of Veterans Affairs, must be transported to the State of Hawaii in order to receive hospital care to which such veteran is entitled under chapter 17 of title 38 in facilities of such Department in the State of Hawaii

ADMINISTRATION.—(1) Transportation "(c) may be provided to veterans under this section only on a space-available basis.

'(2) A charge may not be imposed on a veteran for transportation provided to the veteran under this section.

'(d) DEFINITIONS.—In this section:

'(1) The term 'veteran' has the meaning given that term in section 101(2) of title 38.

'(2) The term 'hospital care' has the meaning given that term in section 1701(5) of title 38.

(b) The table of sections at the beginning of chapter 157 of such title is amended by inserting after the item relating to section 2641 the following new item:

"2641a. Transportation of American Samoa veterans on Department of Defense aircraft for certain medical care in Hawaii.''

SEC. 8122. ADDITIONAL FUNDING FOR KOREAN WAR VETERANS MEMORIAL. Section 3 of Public Law 99-572 (40 U.S.C. 1003 note) is amended by adding at the end the following:

(c) ADDITIONAL FUNDING.

"(1) IN GENERAL.—In addition to amounts made available under subsections (a) and (b), the Secretary of the Army may expend, from any funds available to the Secretary on the date of enactment of this paragraph, \$2,000,000 for repair of the memorial.

(2) DISPOSITION OF FUNDS RECEIVED FROM CLAIMS.—Any funds received by the Secretary of

the Army as a result of any claim against a contractor in connection with construction of the memorial shall be deposited in the general fund

of the Treasury.''.

SEC. 8123. Of the funds available under title VI for "Chemical Agents and Munitions De-struction, Army" for research and development, \$18,000,000 shall be made available for the program manager for the Assembled Chemical Weapons Assessment (under section 8065 of the Department of Defense Appropriations Act, 1997) for demonstrations of technologies under the Assembled Chemical Weapons Assessment, for planning and preparation to proceed from demonstration of an alternative technology immediately into the development of a pilot-scale facility for the technology, and for the design, construction, and operation of a pilot facility for the technology.

SEC. 8124. The Secretary of the Navy may

carry out a competitively awarded vessel scrapping pilot program during fiscal years 1999 and 2000 using funds made available in this Act under the heading "Operation and Maintenance, Navy'': Provided, That the Secretary of the Navy shall define the program scope sufficient to gather data on the cost of scrapping Government vessels and to demonstrate cost effective technologies and techniques to scrap such vessels in a manner that is protective of worker safety and health and the environment.

SEC. 8125. From within the funds provided under the heading "Operation and Maintenance, Army", up to \$500,000 shall be available for paying subcontractors and suppliers for work performed at Fort Wainwright, Alaska, in under Army services contract number DACA85-93-C-0065. Subcontractors and suppliers are to be paid interest calculated in accordance with the Contract Dispute Act of 1978, 41 U.S.C. 601-613.

SEC. 8126. (a) The Secretary of the Army and the Secretary of the Air Force may each enter into one or more multiyear leases of nontactical firefighting equipment, nontactical crash rescue equipment, or nontactical snow removal equipment. The period of a lease entered into under this section shall be for any period not in excess of 10 years. Any such lease shall provide that performance under the lease during the second and subsequent years of the contract is contingent upon the appropriation of funds and shall provide for a cancellation payment to be made to the lessor if such appropriations are not made.

(b) Lease payments made under subsection (a) shall be made from amounts provided in this or future appropriations Acts.

(c) This section is effective for all fiscal years beginning after September 30, 1998.

SEC. 8127. From within funds available for the Department of Defense under title VI of this Act for "Chemical Agents and Munitions Destruction, Army", or the unobligated balances of funds available for "Chemical Agents and Munitions Destruction, Defense", under any other Act making appropriations for military functions administered by the Department of Defense for any fiscal year, the Secretary of Defense may use not more than \$25,000,000 for the Assembled Chemical Weapons Assessment to complete the demonstration of alternatives to baseline incineration for the destruction of chemical agents and munitions and to carry out the pilot program under section 8065 of the Department of Defense Appropriations Act, 1997 (section 101(b) of Public Law 104-208; 110 Stat. 3009-101; 50 U.S.C. 1521 note). The amount specified in the preceding sentence is in addition to any other amount that is made available under title VI of this Act to complete the demonstration of the alternatives and to carry out the pilot program: Provided. That none of these funds shall be taken from any ongoing operational chemical munitions destruction programs.

SEC. 8128. (a) FINDINGS.—The Congress finds that

(1) child experts estimate that as many as 250,000 children under the age of 18 are currently serving in armed forces or armed groups in more than 30 countries around the world;

(2) contemporary armed conflict has caused the deaths of 2,000,000 minors in the last decade alone, and has left an estimated 6,000,000 children seriously injured or permanently disabled;

(3) children are uniquely vulnerable to military recruitment because of their emotional and physical immaturity, are easily manipulated. and can be drawn into violence that they are too young to resist or understand;
(4) children are most likely to become child

soldiers if they are poor, separated from their families, displaced from their homes, living in a combat zone, or have limited access to education:

(5) orphans and refugees are particularly vulnerable to recruitment;

(6) one of the most egregious examples of the use of child soldiers is the abduction of some 10,000 children, some as young as 8 years of age, by the Lord's Resistance Army (in this section referred to as the "LRA") in northern Uganda;

(7) the Department of State's Country Reports on Human Rights Practices for 1997 reports that in Uganda the LRA kills, maims, and rapes large numbers of civilians, and forces abducted children into "virtual slavery as guards, concubines, and soldiers";

(8) children abducted by the LRA are forced to raid and loot villages, fight in the front line of battle against the Ugandan army and the Sudan People's Liberation Army (SPLA), serve as sexual slaves to rebel commanders, and participate in the killing of other children who try to escape;

(9) former LRA child captives report witnessing Sudanese government soldiers delivering food supplies, vehicles, ammunition, and arms to LRA base camps in government-controlled

southern Sudan;

(10) children who manage to escape from LRA captivity have little access to trauma care and rehabilitation programs, and many find their families displaced, unlocatable, dead, or fearful of having their children return home:

(11) Graca Machel, the former United Nations expert on the impact of armed conflict on children identified the immediate demobilization of all child soldiers as an urgent priority, and recommended the establishment through an optional protocol to the Convention on the Rights of the Child of 18 as the minimum age for recruitment and participation in armed forces;

(12) the International Committee of the Red Cross, the United Nations Children's Fund (UNICEF), the United Nations High Commission on Refugees, and the United Nations High Commissioner on Human Rights, as well as many nongovernmental organizations, also support the establishment of 18 as the minimum age for military recruitment and participation in armed conflict.

(b) IN GENERAL.—The Congress hereby-

(1) deplores the global use of child soldiers and supports their immediate demobilization;

(2) condemns the abduction of Ugandan children by the LRA;

(3) calls on the Government of Sudan to use its influence with the LRA to secure the release of abducted children and to halt further abductions; and

(4) encourages the United States delegation not to block the drafting of an optional protocol to the Convention on the Rights of the Child that would establish 18 as the minimum age for participation in armed conflict.

(c) SENSE OF THE CONGRESS.—It is the sense of the Congress that the President and the Secretary of State should—

(1) support efforts to end the abduction of children by the LRA, secure their release, and facilitate their rehabilitation and reintegration into society:

(2) not block efforts to establish 18 as the minimum age for participation in conflict through an optional protocol to the Convention on the Rights of the Child; and

(3) provide greater support to United Nations agencies and nongovernmental organizations working for the rehabilitation and reintegration of former child soldiers into society.

SEC. 8129. Notwithstanding any other provision of law, the Secretary of Defense shall obligate the funds provided for Counterterror Technical Support in the Department of Defense Appropriations Act, 1998 (under title IV of Public Law 105-56) for the projects and in the amounts provided for in House Report 105-265 of the House of Representatives, One Hundred Fifth Congress, First Session: Provided, That the funds available for the Pulsed Fast Neutron Analysis Project should be executed through cooperation with the Office of National Drug Control Policy.

Sec. 8130. Training and Other Programs. SEC. 8146. LIQUIDITY OF WORKING-CAPITAL FUNDS. (a) INCREASED CASH BALANCES.—The Secretary of Defense shall administer the working-capital funds of the Department of Defense during fiscal year 1999 so as to ensure that the total amount of the cash balances in such funds on September 30, 1999, exceeds the total amount of the cash balances in such funds on September 30, 1998, by \$1,300,000,000.

ĂCTIONS REGARDING UNBUDGETED LOSSES.—The Under Secretary of Defense (Comptroller) shall take such actions regarding unbudgeted losses for the working-capital funds as may be necessary in order to ensure that such unbudgeted losses do not preclude the Secretary of Defense from achieving the increase in cash balances in working-capital funds required under subsection (a).

(c) WAIVER.—The Secretary of Defense may waive the requirements of this section upon certifying to Congress, in writing, that the waiver is necessary to meet requirements associated with-

(A) a contingency operation (as defined in section 101(a)(13) of title 10, United States Code): or

(B) an operation of the Armed Forces that commenced before October 1, 1998, and continues during fiscal year 1999.

(2) The waiver authority under paragraph (1) may not be delegated to any official other than the Deputy Secretary of Defense.

(3) The waiver authority under paragraph (1) does not apply to the limitation in subsection (d) or the limitation in section 2208(1)(3) of title 10, United States Code (as added by subsection (e)).

(d) PERMANENT LIMITATION ON ADVANCE BIL-LINGS.—(1) Section 2208(1) of title 10, United States Code, is amended-

(A) by redesignating paragraph (3) as paragraph (4); and

(B) by inserting after paragraph (2) the fol-

lowing new paragraph (3):

(3) The total amount of the advance billings rendered or imposed for all working-capital funds of the Department of Defense in a fiscal year may not exceed \$1,000,000,000.

(2) Section 2208(1)(3) of such title, as added by paragraph (1), applies to fiscal years after fiscal year 1999.

(e) SEMIANNUAL REPORT —(1) The Under Secretary shall submit to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representa-

(A) not later than May 1, 1999, a report on the administration of this section for the six-month period ending on March 31, 1999; and

(B) not later than November 1, 1999, a report on the administration of this section for the sixmonth period ending on September 30, 1999.

(2) Each report shall include, for the period covered by the report, the following:

(A) The profit and loss status of each working-capital fund activity.

(B) The actions taken by the Secretary of each military department to use assessments of surcharges to correct for unbudgeted losses.

SEC. 8147. The Secretary of Defense shall establish, through a revised Defense Integrated Military Human Resources System (DIMHRS), a defense reform initiative enterprise pilot program for military manpower and personnel information: Provided, That this pilot program should include all functions and systems currently included in DIMHRS and shall be expanded to include all appropriate systems within the enterprise of personnel, manpower, training, and compensation: Provided further, That establishing a revised DIMHRS enterprise program for manpower and personnel information superiority the functions of this program shall include, but not be limited to: (1) an analysis and determination of the number and kinds of information systems necessary to support manpower and personnel within the Department of Defense; and (2) the establishment of programs to develop and implement information systems in support of manpower and personnel to include an enterprise level strategic approach, performance and results based management, business process improvement and other non-material solutions, the use of commercial or government off-the-shelf technology, the use of modular contracting as defined by Public Law 104–106, and the integration and consolidation of existing manpower and personnel information systems: Provided further, That the Secretary of Defense shall re-instate fulfillment standards designated as ADS-97-03-GD, dated January. 1997: Provided further, That the requirements of this section should be implemented not later than six months after the date of enactment of this Act.

SEC. 8148. (a) The Secretary of Defense, after consultation with the Chairman of the Joint Chiefs of Staff and the military service chiefs. shall conduct a comprehensive reassessment of existing military compensation, benefits, and related programs. The Secretary shall consider the effectiveness of these programs in providing an adequate standard of living and family support for service members and dependents, the current and projected effects of these programs on recruiting and retention of service members, and improvements which could be gained by potential changes in these programs.

(b) In conducting this assessment, the Secretary's analysis shall consider, but not be limited to, the following areas:

(1) Military pay and benefits, to include special pay and targeted bonus programs;

(2) The military retirement system, including an assessment of the effects of the significant changes made to the retirement system in 1986; (3) Health care programs; and

(4) Housing, family support, and morale, wel-

fare and recreation programs.

(c) The Secretary shall consider the cumulative and complementary ability of these programs, and the effects of potential modifications to these programs, in terms of their ability to contribute to the attainment of existing and future manpower requirements of the military services, as well as the provision of a fair and equitable quality of life for service members and their dependents.

(d) The Secretary shall provide an initial report on these issues to the congressional defense committees within 60 days of the enactment of

this Act.

(e) Concurrent with submission of the fiscal year 2000 budget, the Secretary shall provide a comprehensive assessment of these issues, and proposed changes in existing programs should he determine they are warranted, to the Congress.

This Act may be cited as the "Department of Defense Appropriations Act, 1999''.

And the Senate agree to the same.

JOINT EXPLANATORY STATEMENT

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4103), making appropriations for the Department of Defense for the fiscal year ending September 30, 1999, and for other purposes, submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

The conference agreement on the Department of Defense Appropriations Act, 1999, incorporates some of the provisions of both the House and Senate versions of the bill. The language and allocations set forth in House Report 105-591 and Senate Report 105-200 should be complied with unless specifically addressed in the accompanying bill and statement of the managers to the contrary.

Senate Amendment: The Senate deleted the entire House bill after the enacting clause and inserted the Senate bill. The conference agreement includes a revised bill.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

The conferees agree that for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the term program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 1999, the accompanying House and Senate Committee reports, the conference report and accompanying joint explanatory statement of the managers of the Committee of Conference, the related classified annexes and reports, and the P-1 and R-1 budget justification documents as subsequently modified by Congressional action. The following exception to the above definition shall apply:

For the Military Personnel and the Operation and Maintenance accounts, the term

"program, project, and activity" is defined as the appropriations accounts contained in the Department of Defense Appropriations Act. At the time the President submits his budget for fiscal year 2000, the conferees direct the Department of Defense to transmit to the congressional defense committees budget justification documents to be known as the "M-1" and "O-1" which shall identify, at the budget activity, activity group, and subactivity group level, the amounts requested by the President to be appropriated to the Department of Defense for operation and maintenance in any budget request, or amended budget request, for fiscal year 2000.

SPECIAL INTEREST ITEMS

Items for which the conferees have specifically provided funds through a conference agreement or through adoption of original House or Senate recommendations in Research, Development, Test, and Evaluation or Procurement appropriations are Congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). These items are identified in the respective committee or conference reports using the phrases "only for" or "only to" or are specifically identified in the tables. Each item will be carried on the DD form 1414 in the amount agreed to by the conferees. The Department of Defense shall consult with the congressional defense committees before issuing the DD form 1414 so there is common agreement on items of special interest. In no case will the Department of Defense transfer funds from special interest items through the below threshold reprogramming process. In addition, the term program in Section 8111 includes any subprogram, modification, project, or subproject not previously justified and appropriated in a given appropriation account by the Congress through the normal budget process.

TITLE I-MILITARY PERSONNEL

The conferees agree to the following amounts for the Military Personnel accounts as follows:

[In thousands of dollars]

	Budget	House	Senate	Conference
Active personnel:				
Army	21,002,051	20,908,851	20,822,051	20,841,687

Air Force	856,176	850.576	856,176	852,324
National Guard personnel:				
Army	3,404,595	3,413,195	3,499,595	3.489.987
Air Force	1,376,097	1,372,997	1,376,097	1.377.109
_	=1=	,. =,		
Total, Military Personnel	70,777,086	70,551,811	70,486,263	70,607,566

PAY RAISE INCREASE

The conferees recommend an increase of \$202,455,000 to active and Guard and Reserve personnel accounts to provide for a 3.6 percent military pay raise, an increase of a half

percent over the budget request of 3.1 percent.

FORCE STRUCTURE CHANGES

The conferees recommend a total of \$106,200,000 in the Military Personnel and Op-

eration and Maintenance accounts for restoration of force structure that was reduced in the budget request, as follow:

[Dollars in thousands]

	Milpers	0&M	Proc.	Total
Air Force B-52 aircraft	3,600	40,100	10,300	54,000
Army Reserve AGR's	15,000			15,000
Navý Reserve P-3 aircraft	2,600	7,600		10,200
Army National Guard civilian technicians		27,000		27,000

PERSONNEL UNDEREXECUTION SAVINGS

The conferees recommend a total reduction of \$220,800,000 for active and reserve military personnel accounts due to lower than projected end strengths, and differences in the actual grade mix of officers and en-

listed recommended in the budget request. The General Accounting Office estimates that the active duty components will have approximately 15,000 fewer personnel on board beginning in fiscal year 1999, and the Reserve components approximately 3,700 per-

sonnel. As a result, the fiscal year 1999 requirements are overstated.

REPLACEMENT MEDALS AND DECORATIONS

The conferees encourage the Secretary of Defense to take all actions necessary to eliminate the backlog of requests of former service members for replacement medals and decorations.

BACKLOG OF UNPAID RETIRED PAY

The conferees direct the Secretary of Defense to take all actions necessary to eliminate any backlog of unpaid retired pay for former service members, to include those retired from the Guard and Reserve. Not later than ninety days after enactment of this

Act, the Secretary of Defense shall submit a report on the backlog of unpaid retired pay. The report shall include the actions taken to eliminate any backlog; the extent of any remaining backlog; and a description of any additional actions required to ensure that retired pay is paid in a timely manner.

MILITARY READINESS

The conferees agree with the concerns delineated in Section 8160 of the Senate-passed fiscal year 1999 Defense Appropriations bill, and the concerns expressed in the report accompanying the House-passed fiscal year 1999 defense Appropriations bill with regards to the indications of declining readiness within the Military Services.

Accordingly, the conferees direct the Secretary of Defense to submit a report to the congressional defense committees not later than June 1, 1999, on the readiness of the Armed Forces of the United States. The Secretary shall include in the report detailed information on each of the following issues: (1) An assessment of current force structure and its sufficiency to execute the National Security Strategy; (2) A service-by-service outline of the force structure expected to be committed to a major regional contingency

as envisioned in the National Security Strategy; (3) A comparison of the force structure outlined in item (2) with the service-by-service order of battle in Desert Shield/Desert Storm as a representative recent major regional conflict; (4) An assessment of the force structure and projected defense appropriations increases necessary to execute the National Security Strategy of the United States assuming current projected ground force levels assigned to the peacekeeping mission in Bosnia are unchanged; (5) A discussion of the United States ground, naval and air force levels in Bosnia that can be sustained without impacting the ability of the Armed Forces to execute the National Security Strategy assuming no increase in force structure or defense appropriations during the period in which forces are assigned to Bosnia; and (6) A complete assessment of recent trends in the Measured readiness of United States forces with a focus on current manning shortfalls, recent declines in aviation mission capable rates, and below standard levels of ground forces training.

OPERATION AND MAINTENANCE REPROGRAMMINGS

The conferees agree that proposed transfers of funds between O-1 budget activities in excess of \$15,000,000 are subject to normal, prior approval reprogramming procedures. In addition, due to continuing concerns about force readiness and the diversion of Operation and Maintenance funds, the conferees agree that the Department should provide written notification to the congressional defense committees for the cumulative value of any and all transfers in excess of \$15,000,000 from the following budget activities and subactivity group categories:

Operation and Maintenance, Army

Land Forces: Divisions, Corps combat forces, Corps support forces, Echelon above corps forces, Land forces operations support; Land Forces Readiness: Land forces depot maintenance; Logistics operations: Ammunition management.

Operation and Maintenance, Navy

Air Operations: Mission and other flight operations, Fleet air training, Aircraft depot maintenance; Ship Operations: Mission and other ship operations, Ship operational support and training, Intermediate maintenance, Ship depot maintenance.

Operation and Maintenance, Marine Corps

Expeditionary Forces: Operational forces, depot maintenance.

Operation and Maintenance, Air Force

Air Operations: Primary combat forces, Primary combat weapons, Air operations training, Depot maintenance; Mobility Operations: Airlift operations, Depot maintenance, Payments to the transportation business area; Basic Skills and Advanced Training: Depot maintenance; Logistics Operations: Depot maintenance.

Further, the Department should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget subactivities.

Operation and Maintenance

Depot maintenance

Operation and Maintenance, Navy:

Aircraft depot maintenance, Ship depot maintenance

Operation and Maintenance, Marine Corps:

Operation and Maintenance, Air Force:

Air Operations, Depot maintenance, Mobility Operations, Depot maintenance, Basic Skills and Advanced Training, Depot maintenance, and

Logistics Operations, Depot maintenance.

OPERATION AND MAINTENANCE BUDGET

OPERATION AND MAINTENANCE BUDGET
EXECUTION DATA

The conferees support the position expressed in the House report accompanying the Defense Appropriations bill for fiscal year 1999 requiring the Department of Defense to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than forty-five days past the close of each

quarter of the fiscal year, and should be provided for each O-1 budget activity, activity group, and subactivity for each of the active, defense-wide, reserve and national guard components. For each O-1 budget activity, activity group and subactivity, these reports should include: the budget request and actual obligations; the DoD distribution of unallocated congressional adjustments to the budget request; all adjustments made by DoD during the process of rebaselining the O&M accounts; all adjustments resulting from below threshold reprogrammings; and all adjustments resulting from prior approval reprogramming requests.

In addition, the conferees require that the Department of Defense provide semiannual written notifications to the congressional defense committees which summarize Operation and Maintenance budget execution to include the effect of rebaselining procedures, other below threshold reprogrammings, and prior approval reprogrammings. The conferees further direct that the Department of Defense provide the House and Senate Committees on Appropriations written notification 30 days prior to executing procedures to rebaseline the Operation and Maintenance accounts.

PENTAGON RENOVATION TRANSFER FUND

The conferees agree to Senate language which establishes the Pentagon Renovation Transfer Fund, totaling \$279,820,000 by transfer from the active component and Defense-Wide Operation and Maintenance accounts.

DOD OUTSOURCING AND PRIVATIZATION INITIATIVES

The conferees are aware of large scale efforts by DoD to privatize many of its support and infrastructure functions in order to reduce costs and free up resources for readiness and modernization. For example, the Defense Reform Initiative projected that DoD could save \$6 billion from competing 150,000 civilian positions over the next five years. However, the conferees harbor significant concerns about DoD's privatization strategy, primarily due to the risk of building unrealistic savings estimates into the budget request. Specifically, these concerns include: 1) uncertainty as to the criteria used to select activities or functions as candidates for outsourcing; 2) the apparent lack of any method to validate savings assumed in DoD budget estimates: and, 3) the lack of any systems or methods to assess the impact of

outsourcing on the readiness or combat power of DoD forces. Accordingly, the conferees direct that the Secretary of Defense submit a report, not later than March 31, 1999, which provides a detailed assessment of the results of DoD's privatization strategy to date. The report shall specify those functions or activities selected for outsourcing, and the criteria used select these functions or activities. The report shall also detail the net savings achieved by outsourcing in fiscal years 1996-1998. This element of the report shall also include estimates of the number of contractor workyears compared to the number of civilian workyears required to perform functions which have been privatized.

LIGHTWEIGHT MAINTENANCE ENCLOSURES

The conferees direct that \$5,000,000 of the funds made available in Operation and Maintenance, Marine Corps be used only for the acquisition of lightweight maintenance enclosures.

COMPETITIVE BANKING PROCEDURES

It is the conferees' intent that the provision of banking services provided by any bank or credit union on military installations and at facilities in the United States shall include the broad range of services including at least all of the following: the receipt of money for deposit, check or draft cashing services, the origination of loans or other extensions of credit, the issuance of promissory notes, and the provision of electronic banking and automated teller machines. The conferees direct the Department of Defense to submit a report to the Committees on Appropriations by February 1, 1999, on the DoD and services policies and procedures for provision of banking services on the basis of full and open competition.

REPORT ON SECURITY IN THE TAIWAN STRAIT

On or before February 1, 1999, the Department of Defense shall provide to Congress a report, in both classified and unclassified form, detailing the security situation in the Taiwan Strait. Such report shall include an analysis of the military forces facing Taiwan from the People's Republic of China, evaluating recent additions to the offensive military capabilities of the People's Republic of China. It should also assess new challenges to the deterrent forces of the Republic of China on Taiwan, consistent with the commitments made by the United States in the Taiwan Relations Act, Public Law 96-8.

ARMY ARSENALS

The conferees are concerned about the effect of DoD's outsourcing and privatization initiatives in certain critical defense functions. Accordingly, the conferees direct that the Army provide 90 days prior notice to the congressional defense committees before awarding any new contracts pursuant to A-76 related studies at Pine Bluff Arsenal, Pine Bluff, Arkansas; Rock Island Arsenal, Rock

Island, Illinois; or Watervliet Arsenal, Watervliet, New York.

ROTARY WING AIRCRAFT SUSTAINMENT PROJECT The conferees direct that \$3,500,000 shall be used for the rotary wing aircraft sustainment project at the Corpus Christi in Operation and Maintenance, Army.

ARMY INSTITUTE FOR PROFESSIONAL DEVELOPMENT

The conferees agree that of the funds provided for Operation and Maintenance, Army,

Army Depot, from within the funds provided \$1,000,000 should be used only for the Army Institute for Professional Development.

MARINE CORPS DEPOT MAINTENANCE

The conferees are concerned about the substantial reduction in the Marine Corps depot maintenance budget from fiscal year 1998 to 1999 and the impact that this will have on the backlog of Marine Corps equipment. The

conferees are also concerned that the budgeted depot maintenance program may have caused the Marine Corps to prematurely consider initiating reductions-in-force among its civilian personnel at the Marine Corps Logistics Base at Barstow. Accordingly, the conferees agree to increase funding for the Marine Corps depot maintenance program by \$20,700,000 above the budget request to address this shortfall, and hereby direct the Marine Corps to include adequate funding in future budget submissions.

CIVIL/MILITARY PROGRAMS

The conferees recommend a total of \$87,394,000 for the Department's civil/military programs. In addition, the conferees recommend a new general provision, Section

8131, which waives the limitation on expenditures for the National Guard Challenge Program for fiscal year 1999. The conferees recognize that both the Department of Justice and Department of Defense have taken steps in developing programs for at-risk youth. The National Guard's highly effective Youth Challenge Program is an example of 22 states working to make productive citizens out of high school drop-outs. The conferees encourage both Departments to work together, combining strengths and successes of each program, exchange ideas, and, when possible, share available resources to enhance and expand the effectiveness of these initiatives. The funding for the civil/military programs for fiscal year 1999 follows:

OEA—SHIPYARD INFRASTRUCTURE REPAIRS

The conferees have agreed to provide \$10,000,000 only for shipyard infrastructure repairs as recommended by the Senate under the Operation and Maintenance, Navy appropriation account.

H.L. HUNLEY

Of the funding provided for the Legacy Program, the conferees agree to provide \$300,000 to prepare conservation plans to preserve the H.L. Hunley, and to develop an

emergency recovery plan associated with raising the ship.

ON-SITE INSPECTION AGENCY

The conferees have agreed to reduce funding for the On-Site Inspection Agency. If additional funds prove necessary to meet emergent requirements stemming from valid treaty obligations, the conferees expect the Department of Defense to submit a reprogramming request subject to normal, prior approval reprogramming procedures.

SECURITY LOCKS

The conferees agree with the Senate report language directing the Department of Defense to provide a report on their security locks retrofit program by December 15, 1998. Furthermore, the conferees agree that of the funds provided in this account \$15,000,000 is for the purchase of additional security locks which meet federal specification FF-L-2740A

JOB PLACEMENT PROGRAM

The conferees are disappointed with the Department's lack of responsiveness to last year's direction to implement a job placement and community outreach services program. Therefore, the conferees again direct the Department to provide at least \$6,000,000 from within available funds for the implementation of this effort which would market and coordinate involvement of existing qualified service providers through the Job Training Partnership Act, facilitate municipal offering of community outreach services and provide data for the evaluation of federal job placement programs.

ARMY/NAVY RESERVE CENTERS

The conferees understand that there are two Army Reserve Centers in Florida and one in Youngstown, Ohio which are in extensive need of repair and renovation. In addition, the Navy Reserve has a facility located in Youngstown, Ohio, which is vacant and needs remediation. The conferees have provided additional funds for Real Property

Maintenance for the Army Reserve and Navy Reserve, and directs that \$2,000,000 be designated to each component to meet these requirements.

JOINT MILITARY TRAINING COMPLEX

The conferees understand that several Reserve units in central Florida have been impacted by the closure of the Orlando Naval

Training Center, and the Department is considering the possibility of developing a joint complex in the Orlando area. The conferees recommend that \$300,000 of the funds provided for "Operation and Maintenance, Army Reserve" be used for feasibility studies and environmental assessments in the support of the joint complex.

SEARCH AND RESCUE SUPPORT

The conferees direct that the Air National Guard provide support for Coast Guard seasonal search and rescue mission requirements at the Francis S. Gabreski Airport in Hampton, New York. Assistance to the Coast Guard will include access to necessary facilities, runway, hangar, operations center, berthing, and maintenance spaces. Seasonal Coast Guard access will be maintained between April 15 and October 15, 1999. The Director of the Air National Guard and the Commandant of the Coast Guard shall enter into a memorandum of agreement (MOA) for use of these facilities and shall provide copies of that agreement to the Committees on Appropriations not later than December 1,

DEFENSE SYSTEMS EVALUATION PROGRAM

The conferees direct that \$2,250,000 of the funds provided for Operation and Maintenance, Air National Guard be for the Defense Systems Evaluation program for support of test and training operations at White Sands Missile Range, New Mexico, and Fort Bliss, Texas.

OVERSEAS CONTINGENCY OPERATIONS TRANSFER FUND

The conferees agree to provide \$439,400,000 for the Overseas Contingency Operations Transfer Fund. This amount covers estimated DoD costs of continuing operations in Southwest Asia.

UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

The conference agreement provides \$7,324,000 for the United States Court of Appeals for the Armed Forces as requested in the budget.

ENVIRONMENTAL RESTORATION, ARMY

The conferees agree to provide \$370,640,000 for Environmental Restoration, Army.

ENVIRONMENTAL RESTORATION, NAVY

The conferees agree to provide \$274,600,000 for Environmental Restoration, Navy.

Environmental Restoration, Formerly Used Defense Sites

The conferees agree to provide \$225,000,000 for Environmental Restoration, Formerly Used Defense Sites.

BUILDING DEMOLITION AND DEBRIS REMOVAL

To minimize mobilization costs at remote sites, the Department may perform building demolition and debris removal at formerly used defense sites (FUDS) using fiscal year 1999 funds available under this heading. The

conferees direct the Department to conduct building demolition and debris removal at the following formerly used defense sites: Collision Point, Nuvagapak Point and Cape Sarichef, Alaska, or alternative sites in Alaska to optimize cost effectiveness on a regional basis.

CHARLESTON MACALLOY SITE

The conferees concur with the Senate's recommended reporting requirements regarding the Defense Logistics Agency inventory location in Charleston, South Carolina. The conferees expect that, if the Department determines that this site is eligible for formerly used defense sites (FUDS) funding, \$10,000,000 shall be made available as expeditiously as possible considering departmental policies on the allocation of such funds.

GOVERNMENT OWNED CONTRACTOR OPERATED (GOCO) FACILITIES

The conferees are concerned about the Army's limited progress in recovering the costs associated with environmental restoration at former ammunition production GOCO facilities. Therefore, the conferees direct the Army to take the following actions and, by the dates noted, report on their findings to the congressional defense committees.

No later than March 30, 1999, the Army should (1) identify all GOCO ammunition production facilities, the contractors that operated the facilities, and the prime contract numbers of each contract for the operation of the facilities (2) document the current environmental cleanup status, including past and projected clean up costs, for each GOCO facility (3) compile a summary of historical third-party insurance coverage for each GOCO facility, including the names of all the insurers, policy numbers, policy periods, and terms, conditions, and limits of coverage (4) ascertain whether notices of accidents or occurrences, or other appropriate notices, have been given to each of the insurers, including any notices provided by the operating contractor, and (5) determine if any of the GOCO facilities was placed on a standby status and whether insurance cov-

erage remained in force during that period. Not later than June 15, 1999, the conferees expect the Department to (1) file notices of claims with as many of the insurers as possible and to provide a timetable for filing all remaining notices of claims (2) prepare a detailed legal analysis of the potential claims for each of the GOCO facilities including an assessment of applicable case law, potential effect of specific indemnification provisions, pollution exclusion and limitations in the scope of coverage (3) analyze alternative approaches, such as pursuing claims in groups, to maximize insurance recovery, including legal strategy and timetables, and decide on a recommended course of action.

NOTIFICATION OF ENVIRONMENTAL CONTRACT AWARDS

The conferees direct each military service to notify interested State and local authori-

ties and interested Members of Congress upon release of draft solicitations for contracts anticipated to exceed \$5,000,000. The conferees further direct that this requirement shall also apply to all increments of indefinite delivery indefinite quantity-type contracts which meet this threshold.

TOTAL ENVIRONMENTAL REMEDIATION CONTRACTS (TERC)/REMEDIAL ACTION CONTRACTS (RAC)

The conferees direct that not more than twenty-five percent of funding obligated by the Corps of Engineers for environmental remediation shall be executed through TERC contracts. Additionally, the conferees are concerned with the Navy's increasing reliance on the RAC to accomplish environmental remediation. Accordingly, the conferees direct the Secretary of the Navy to report to the congressional defense committees no later than January 15, 1999, on their use of RAC during fiscal year 1998. The conferees further direct that this information be provided quarterly throughout fiscal year 1999.

MITIGATION OF ENVIRONMENTAL DAMAGE

In entering into contracts for the mitigation of environmental damage on Indian lands, the Department is encouraged to extend a preference to Native American owned or operated businesses with experience in the mitigation of environmental damage or environmental technology.

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

The conferees agree to provide \$50,000,000 for Overseas Humanitarian, Disaster, and Civic Aid.

FORMER SOVIET UNION THREAT REDUCTION

The conferees agree to provide \$440,400,000, for the Former Soviet Union Threat Reduction program.

QUALITY OF LIFE ENHANCEMENT. DEFENSE

The conferees agree to provide a total of \$455,000,000 for Quality of Life Enhancement, Defense. Given the substantial backlog of real property maintenance in the areas of barracks, dormitories and related facilities, the conferees direct that these funds be applied to workload for such projects within the United States and its territories. In the case of the Reserve components, these additional funds should be utilized to reduce the backlog in mission and support facilities. The conferees further direct the Secretaries of each of the Military Services to provide the congressional defense committees with a report on each additional project to be funded from funds available in this account prior to solicitation for these projects. This report shall include the location, estimated cost and projected commencement and completion dates for each project.

NIMITZ OVERHAUL

The conferees withdraw direction in the fiscal year 1998 conference report that \$20,000,000 of the amount budgeted for the Nimitz overall is only for the ship self-defense system, since the Navy has requested and this Act provides funds in the fiscal year 1999 Other Procurement, Navy appropriation for the same purpose.

LPD-17

The Navy desires to move to the more capable advanced enclosed mast system (EMS)

for the LPD-17 class ships and has informed the Appropriations Committees it has sufficient funds for this program. The conferees direct the Navy to include the AEMS on LPD 17 and 18 and to provide sufficient funds for the AEMS on subsequent ships. Should additional funding be required the Navy is directed to request reprogramming or ship cost adjustments next year. The conferees concur with the House direction regarding the evaluation of combat systems and ship self defense alternatives for the LPD-17 class ships.

Currently planned systems are not sufficient to meet the anti-ship cruise missile and other threat scenarios. The report to the Appropriations Committees shall include, but not be limited to, alternatives such as multifunction radars together with an evolved sea sparrow to enhance cruise missile defense and Navy plans to ensure the post delivery availability or backfit of enhanced combat system and ship self defense alternatives for the LPD-17 class ships.

DIRECT SUPPORT ELECTRICAL SYSTEM TEST SETS

The conferees urge the DoD to include the general purpose Direct Support Electrical System Test Sets (DSESTS) in the DoD automatic test system family. DSESTS are currently in use by the Army and Marine Corps as automatic test equipment (ATE) on several wheeled and tracked combat vehicles. DSESTS are proven test equipment that are comparable to other ATE included in the ATE family.

DEFENSE AIRBORNE RECONNAISSANCE PROGRAM

The conferees direct that the Air Force use the previously appropriated funds and, if necessary, a below threshold reprogramming to complete the demonstration and test of the Theater Airborne Warning System (TAWS). The conferees believe that any continuation of this program should be budgeted for in the Air Force's fiscal year 2000 request.

PATRIOT ADVANCED CAPABILITY 3 (PAC-3)

The conferees agree to provide \$248,235,000, a decrease of \$95,000,000 to the budget request for Patriot PAC-3 procurement, based on delays in the test program and in execution of the fiscal year (FY) 1998 Low Rate Initial Procurement (LRIP). The conferees direct that the FY 1998 PAC-3 LRIP funds may not be obligated until the PAC-3 missile successfully completes two intercept flight tests.

AEROSTAT JOINT PROJECT OFFICE

The conferees have provided \$15,000,000 for the Aerostat program to participate in joint demonstrations of surveillance technologies and to continue development efforts. Within the available funds, the conferees urge the Defense Department to investigate issues associated with building and demonstrating a deployable mobile large aerostate system platform.

LANDMINE WARFARE/BARRIER—ENG DEV

The conferees understand that the Department has launched a search for alternatives to anti-personnel landmines with the goal of fielding such alternatives as soon as practicable. The conferees support this effort relating to the identification, adaption, modification, research, and development of existing and new technologies and concepts that are militarily equivalent cost effective and safe. These efforts should result in: (1) a combat capability that is equivalent to the combat capability provided by non-self destructing anti-personnel landmines; (2) a

combat capability that is equivalent to the combat capability provided by anti-personnel (AP) submunitions used in mixed antitank mine systems; or (3) a combat capability to replace the entire mixed munitions.

The conference recommendation provides a total of \$32,200,000 as follows: \$17,200,000 (\$12,500,000 in RDT&E, Army and \$4,700,000 in RDT&E, Defense-Wide) for the Army's current Non-Self Destruct Alternatives (NSD-A); \$2,000,000 for studies of NSD-4 designs, beyond man-in-the-loop technology; and \$4,000,000 to research, identify and adapt technology and concepts that could replace capabilities now provided by mixed system or the AP submunitions in mixed systems. The Secretary of Defense shall submit a report to the congressional defense committees not later than April 1, 2000 and April 1, 2001, describing progress made in identifying and fielding such alternative, and future plans in this effort.

The conferees direct that the Secretary of Defense obtain the recommendations of two appropriate scientific organizations regard-

ing concepts that would provide comparable combat capabilities to current anti-personnel landmines and anti-personnel landmines used in mixed systems.

ARMY MISSILE DEFENSE SYSTEMS INTEGRATION

The conferees are aware of the High Accuracy Guidance (HAG) system and its potential to improve the capability of the seeker found in certain missile defense interceptors. Therefore, the conferees strongly urge the Department to conduct additional tests of the HAG system.

ANTI-ARMOR WEAPONS MASTER PLAN

The conferees agree with the House direction with regard to submission of an Anti-Tank Weapon Master Plan and further direct that the scope of the report be expanded to include all DoD weapon systems with an anti-armor capability.

ULTRA-LIGHT STEEL BASED HIGH MOBILITY MULTI-PURPOSE WHEELED VEHICLE (HMMWV)

The conferees direct the Secretary of the Army to submit a report to the congressional defense committees with the fiscal

year 2000 budget request assessing the potential benefits of integrating advanced commercially based tactical truck platforms incorporating leading edge ultra-steel concepts into its HMMWV fleet replacement plan.

MEDICAL RESEARCH PROGRAM MANAGEMENT

The conferees commend the Army for organizing outstanding medical research initiatives in various fields of study that have received high marks from independent review panels and from various advocacy groups. The conferees not especially the 1997 review of the Army's breast cancer research program by the Institute of Medicine of the National Research Council. This review concluded that the Army's program "fills a unique niche among public and private funding sources for cancer research . . . and is a

promising vehicle for forging new ideas and scientific breakthroughs in the nation's fight against breast cancer." The conferees have received similar reports about the other medical research programs managed by the Army. The conferees expect the Army to continue its emphasis on coordinating and integrating its medical research programs with those of the National Institutes of Health to avoid duplication and to accelerate promising avenues of treatment. In setting annual research priorities, the Army should consider ways to maximize involvement from responsible advocacy and survivor groups, especially in the Prostate research program. The conferees also urge the Army to consider ways to lengthen the terms of peer review group members for the Neurofibromatosis program and other small-

er programs to promote consistency of guidance and direction.

METALS REMEDIATION

The conferees urge the Department to provide up to \$2,750,000 for a metals remediation demonstration project at Wheeler Army Air Field. This effort would demonstrate the technology in the fragile Pacific ecosystems and potentially reduce infrastructure and environmental cleanup costs.

DIABETES RESEARCH

The conference agreement includes \$4,500,000 to continue the successful diabetes research program currently underway. The conferees urge the Department to work to include the activities identified in House Report 105-591.

COMMON INTEGRATED ELECTRIC DRIVE SYSTEMS

The conferees agree to Senate direction requiring a report on a common integrated electric drive system for surface combatant ships, but direct that development of superconducting DC homopolar motor technology also be addressed in the report.

VECTORED THRUST DUCTED PROPELLER (VDTP) HELICOPTER

The conferees direct the Navy to submit to the Congress by December 1, 1998, a specific plan for accomplishing a flight demonstration of the VDTP compound helicopter technology. The conferees reiterate last year's language which directed that the Navy's H-60 program office shall have the responsibility for the management and execution of this program.

SEMI-AUTONOMOUS UNDERWATER VEHICLE FOR INTERVENTION MISSIONS

The conferees have just been advised of a potential funding shortfall for the Semi-Autonomous Underwater Vehicle for Intervention Missions (SAUVIM) program in the upcoming year. The conferees encourage the Navy to ensure that sufficient funding is provided for this program to carry it through until the end of 1999.

PROJECT M

The Congress appropriated \$5,000,000 in fiscal year 1998 for Project M, including funds for a prototype system for surface ships. The

Navy has yet to obligate funds for a surface ship application. Of the amount requested in the fiscal year 1999 budget and appropriated in this Act for Project M, \$1,000,000 is only to begin development of a prototype system for surface ships. The conferees direct that the Navy budget funds in the future to ensure an at-sea demonstration of a full scale active control of machinery raft within two years.

ADC(X)

The conferees direct that fiscal year 1999 funds may not be obligated for an ADC(X) program unless the program plan includes ship construction in at least two shipyards.

ICR ENGINE

The conferees agree to provide the amount requested in the budget to continue development of the intercooled recuperated gas turbine engine. The conferees direct the Secretary of Defense to limit obligation of additional funds, while allowing the program to proceed in an orderly basis, until an international memorandum of understanding has been promulgated ending United States government participation in the ICR development program after design review five at a cost of no more than \$60,000,000 in fiscal year 1999 and subsequent fiscal years.

TACTICAL TOMAHAWK

The conferees are aware that the contract solicitation for the tactical Tomahawk weapons control system does not specify the

type of display to be used. The recent contract award for the standard Navy display system for air, surface, and subsurface applications specified that development of new configurations to meet legacy equipment replacement requirements would be accomplished under that contract. Accordingly, the Navy should avoid duplication in development costs and take advantage of the economies of scale and infrastructure support by developing the tactical Tomahawk display under this contract.

SEAWOLF SHOCK TEST

The conferees agree to House language concerning system-level, live-fire shock testing of Seawolf submarines and note that the Commander in Chief of the Atlantic Command has recently indicated that he has no requirement for such a test. The conferees fully endorse the existing live fire legislation and testing for weapon systems in a normal acquisition cycle. The conferees fully expect that the Defense Department will conduct such a test on the New Attack Submarine early in its production cycle, where the lessons-learned from the test can be incorporated into future production of that weapon system. The unique circumstances that caused the Congress not to support the Seawolf shock test should not be viewed either that Congress no longer requires live fire testing nor as a precedent for other

weapon systems to be exempted from the requirements of law.

RANGELESS TRAINING

The House proposed to terminate the Joint Tactical Combat Training System (JTCTS) and eliminate a total of \$17,300,000 in four procurement or RDT&E line items. The House also proposed an alternate system, the integrated Large Area Tracking Range (LATR)/Kadena Interim Training System (KITS), and provided a total of \$15,000,000 in three procurement or RDT&E line items. The Senate provided the amount requested by the Defense Department for JTCTS, with an increase of \$9,827,000 in the Navy RDT&E account to provide an initial JTCTS system to support Cope Thunder exercises. The budget requested funds to initiate JTCTS production in fiscal year 1999.

Since JTCTS has not entered into production, and development and testing has not been completed, there is an opportunity to ensure that the Defense Department has identified the best technical solution prior to expenditure of significant amounts of funds in future years for rangeless training equipment. The conferees also want assurance that combat training systems for tactical aircraft will be compatible with surface ship and submarine training range systems, to the extent practicable, for joint service exercise or Navy battlegroup training. The

conferees direct that the Defense Department conduct a technical evaluation, using actual equipment, to compare the capabilities, performance, and costs of an integrated LATR/KITS system to JTCTS. The conferees therefore agree to provide the full amount requested in RDT&E for JTCTS, plus an additional \$2,500,000 in the Navy RDT&E account only for LATR/KITS integration. The conferees agree to a reduction of a total of \$9,000,000 in Air Force procurement accounts requested for JTCTS, but an increase of a total of \$20,000,000 in Navy and Air Force Other Procurement accounts which is only for purchase of equipment needed to conduct the technical evaluation, and purchase of objective systems once reporting requirements in the next paragraph have been met. Of this amount, \$8,000,000 is only to begin installation of a rangeless training system to support Cope Thunder exercises. Further, the conferees direct that the JTCTS RDT&E funds are provided to proceed with equipping CAG 5 with an initial JTCTS training capability in fiscal year 1999.

The goal of the technical evaluation is to

The goal of the technical evaluation is to ensure that the Defense Department has identified the best technical solution to meet its rangeless training needs which minimizes technical risk at lowest life cycle cost based on performance of real equipment in a realistic environment. The conferees direct that no funds may be obligated for

rangeless training production, other than those needed to conduct the technical evaluation, until the following criteria have been met:

The Director of Operational Test and Evaluation in the Office of the Secretary of Defense has certified to the congressional defense committees that the Defense Department has established a technical evaluation between JTCTS and integrated LATR/KITS which is reasonable, realistic, and objective in order to determine the relative performance of the systems:

The technical evaluation has been conducted and the results reported to the congressional defense committees: and

The Undersecretary of Defense for Acquisition and Technology has certified to the congressional defense committees that the best technical solution to meet DOD rangeless training requirements at the best value has been identified and validated by the results of the technical evaluation. His certification should include a determination whether the most cost effective method to satisfy future Navy and Air Force training needs is to continue development and deployment of JTCTS, begin an evolutionary LATR/KITS system development and deployment, or expand the JTCTS program to include integrated LATR/KITS features.

AVIATION SAFETY

The Committee understands that the U.S. Air Force is working with the Federal Aviation Administration (FAA) to use the capabilities at the FAA Airworthiness Assurance Center of Excellence and other FAA research resources for projects that will enhance the safety of both military and civilian aircraft. The Committee encourages increased coordination to maximize improvements in safety research and to avoid duplicative efforts.

AIRBORNE LASER PROGRAM

The conferees have provided \$267,219,000, a reduction of \$25,000,000 to the budget request. The conferees direct that the first priority within the available funds shall be to conduct a meaningful ground demonstration of the capability to produce a high energy beam, compensate the beam for atmospheric disturbances, and measure the deposition of laser energy on a target under realistic test conditions. The funding level recommended by the conferees reduces concurrency in the program to enable the lessons learned from the test to be incorporated in the program.

HARD AND DEEPLY BURIED TARGET DEFEAT SYSTEM

The conferees have provided a total of \$6,000,000, with \$3,000,000 in the RDT&E, Navy account and \$3,000,000 in the RDT&E, Air Force account. The conferees direct that the \$6,000,000 shall be available only for completion of a joint analysis of alternatives (AOA)

as well as planning efforts associated with establishing a joint hard and deeply buried target defeat program.

TARGET SYSTEMS DEVELOPMENT

The conferees agree with the Senate direction with regard to the KC-135 Big Crow report and further direct that the report be provided no later than December 31, 1998.

TACTICAL AIR RECONNAISSANCE SYSTEM

The conferees believe that if the Defense Department decides to acquire additional sensors for the AF Tactical Air Reconnaissance System (TARS) program, the Department should consider the CA 261, the MAEO and other sensors based on best value, capability and stated Air Force requirements.

WARFIGHTER

The conferees continue to support the Warfighter-1 program. The conferees are concerned however, that the license amendment for commercial operation of the Warfighter-1 sensor has still to be adjudicated 13 months after initial application. While the conferees recognize the importance of a stringent national security review before any commercial remote sensing license is granted, the excessive length of the review process may jeopardize program milestones and objectives.

The conferees therefore, strongly encourage the Secretary of Defense and the Director of Central Intelligence to take immediate steps to resolve remaining license issues and report to the Committees on Appropriations no later than November 15, 1998 on the resolution of all outstanding issues concerning the commercial operation of the Warfighter-1 program.

VOLVED EXPENDABLE LAUNCH VEHICLE (EELV)

The conferees agree to provide \$260,297,000 for the Evolved Expendable Launch Vehicle Program, a reduction of \$20,000,000 to the budget request. The conferees also agree to House language directing that reports and certifications regarding the EELV program be provided to the Committees on Appropriations and necessary program information be provided to the Comptroller General. The conferees do not agree that the obligation of fiscal year 1999 appropriations for the EELV program should be restricted pending the receipt of said reports and certifications.

DEFENSE SATELLITE COMMUNICATIONS SYSTEM (DSCS)

The conferees agree to the House language requiring the Air Force to report to the Committees on Appropriations on the resolution of difficulties associated with the completion of the operational requirements document for the DSCS follow-on system. The conferees do not agree that the report needs to be provided prior to the release of any draft RFP for the DSCS follow-on system.

MISSILE DEFENSE

The conferees are concerned by recent evidence that the theater ballistic missile threat is emerging more rapidly and in a more sophisticated form than previously projected. Further, the recent ballistic missile launch by North Korea clearly demonstrates that longer range missiles, even intercontinental class, could soon be within the reach of our adversaries. Thus, world events continue to clearly validate the Defense Department requirement for national missile defenses as well as a mix of upper and lower tier TMD systems to defend U.S. interests and forward-deployed forces.

Testimony this year by the Chief of Naval Operations, Army Chief of Staff, and Director of the Ballistic Missile Defense Organization established that the department's two upper tier systems, THAAD and Navy Theater Wide, are complements, not substitutes, for each other. The conferees are concerned by the THAAD program's failure to achieve an intercept in five attempts. However, believing that additional testing is the appropriate course of action, the conferees have provided \$445,252,000 to continue the THAAD Demonstration and Validation flight test

program during fiscal year 1999.
The Navy Theater Wide program offers the capability to defend a large area against the medium and longer range ballistic missiles our adversaries are seeking to acquire. The deployability of Navy Theater Wide systems will allow this nation to respond to the theater ballistic missile threat whenever and wherever required. The conferees have a dedicated \$338,446,000 to Navy Theater Wide development and strongly urge the Department of Defense to proceed aggressively with development and adequate testing.

The conferees have also

\$950,473,000 for the development of a national

missile defense system. The conferees are pleased that this program is now poised to make critical progress given the recent NMD contract award. The conferees view NMD as a national priority and place full responsibility on the Department of Defense to prudently and aggressively complete the technical work and testing necessary for an effective national missile defense system which can provide protection for all 50 states.

The conferees also recognize the Airborne Laser as a high priority and promising program for our nation's defense. The program is proceeding on budget and schedule, and the conferees look forward to the results of ground demonstrations which will provide confidence in the capability of the ABL de-

INFORMATION SYSTEMS SECURITY PROGRAM (ISSP)

The conferees have agreed to provide a total of \$251,081,000 for the Information Systems Security Program (ISSP); \$12,000.000 over the amount proposed by both the House and the Senate. In its recommendation, the House included a \$15,000,000 increase in a different program element and directed that the funding be transferred to the ISSP. The agreement reduces the recconference ommended increase to \$12,000,000 and funds the program in the correct program element, which eliminates the need for a transfer of funds. The additional \$12,000,000 is for a new program to establish a clearinghouse for information related to the protection of vital systems data as addressed in the classified annex accompanying the House-passed fiscal year 1999 Department of Defense Appropriations bill.

SUPPORT TECHNOLOGIES—APPLIED RESEARCH

The conferees urge the Department of Defense to give strong consideration to the po-

tential benefits, both military and civilian offered by the EXCEL Stern Cell process. Providing funding for the EXCEL program in fiscal year 1999 would ready technology for clinical trials and provide the nation with a new and aggressive treatment for individuals exposed to weapons of mass destruction.

GULF WAR ILLNESS

The conferees have provided \$23,796,000 for Gulf War Illness research, an increase over the budget of \$4,150,000. The conferees agree that within this increase, \$3,000,000 may be provided for research into Gulf War Syndrome that includes multi-disciplinary studies of fibromyalgia, chronic fatigue syndrome, multiple chemical sensitivity and the use of research methods of cognitive and computational neuroscience.

NUCLEAR EFFECTS TESTING CAPABILITY

The conferees are concerned that insufficient resources and attention are being paid to ensure the continued survivability of weapon platforms and supporting C3I systems from the effects of a nuclear explosion, particularly in light of India and Pakistan's recent nuclear testing. With the termination of underground nuclear testing and the emerging nuclear capability of rogue states, there is an urgent national security requirement for continued above ground qualification and verification testing of new and upgraded military components and subsystems. The conferees agree that the current industry-based Defense Threat Reduction Agency X-ray simulator program should have increased funding for timely development of affordable pulsed power based x-ray test capabilities that were lost with the cessation of underground nuclear tests and encourage the Department to fund this program at adequate levels in future budgets.

TITLE V—REVOLVING AND MANAGEMENT FUNDS

The conferees agree to the following amounts for Revolving and Management Funds programs:

[In thousands of dollars]

	Budget	House	Senate	Conference
Defense Working Capital Funds National Defense Sealift Fund	94,500 418,166	94,500 673,366	94,500 669,566	94,500 703,366

DEFENSE WORKING CAPITAL FUNDS

The conferees agree to provide \$94,500,000 for the Defense Working Capital Fund.

COMMISSARY FUNDING

In view of the Department of Defense decision to move the appropriations requested in support of commissary operations back into the Military Services' operation and maintenance accounts, the conferees expect to see a significant adjustment in the fiscal year 2000 budget request for the Defense Commissary Agency (DeCA) headquarters. The conferees direct the Department of Defense to report to the congressional defense committees on the adjusted responsibilities and purposes of the DeCA headquarters organization in light of this development, no later than December 1, 1998.

NATIONAL DEFENSE SEALIFT FUND

The conferees agree to provide \$708,366,000, an increase of \$290,200,000 to the budget request. The increase consists of \$251,400,000 for a Large Medium Speed Roll-on/Roll-off (LMSR) ship, \$28,800,000 to be transferred as specified in the House bill, and \$10,000,000 only for Marine Corps' maritime prepositioning ship research and development.

In fiscal year 1997, the Congress provided \$250,000,000 above the budget as an initiative

to enhance the capabilities of the Maritime Prepositioning Force through procurement of two ships. The Congress recognized that these ships could not only significantly enhance the capability of the Marine Corps during combat operations but also provide a strategic national asset. In order to expedite fielding of the ships, the Marine Corps chose to convert used commercial ships rather than build new ones. The conferees recently discovered that, as was the case in conversion of used commercial ships for Army strategic sealift, the second and third MPF-E ship conversions have suffered significant cost and schedule difficulties. The conferees understand that the Navy issued a solicitation for the third MPF-E ship, but subsequently cancelled it after issues arose on the second ship. The conferees further understand that the Marine Corps must now divert a substantial amount of funds from the third ship to finance increased costs on the second ship in order to make it viable. Given the unfortunate recent events in this program, the conferees have rescinded \$65,000,000 from the fiscal year 1997 funds for the third MPF-E ship and direct the Department of the Navy to use the remaining funds for the first two ships in order to keep their fielding on track. Since the third ship is no longer viable, the conferees agree to provide \$10,000,000 only for

maritime prepositioning ship research and development to begin work on design of a new-construction ship to meet MPF-2010 requirements. The conferees suggest that the CVN-77 "transition-ship" model, to bridge from the capabilities of current MPF sealift ships to the objective future configuration, should be considered. The conferees direct the Secretary of Defense to develop and budget for a new-construction maritime prepositioning ship program and to report by February 1, 1999 to the congressional defense committees on how technical issues in the MPF-E conversion program will be resolved and the new-construction program implemented.

The conferees also agree to rescind funding appropriated in fiscal year 1996 for the National Defense Features (NDF) program by \$20,000,000 because of serious funding shortages. The conferees continue to believe that the NDF program would provide great benefits to the defense sealift capabilities of the nation. Therefore, the conferees direct that the remaining \$20,000,000 funding be available only for the NDF program and that no funds may be reprogrammed from this program without the approval of the Committees on Appropriations.

PACMEDNET

The conferees have provided \$10,000,000 to continue this activity, including implementation of automated clinical practice guidelines and outcome management on an individual, as well as a population, basis.

MEDICAL RESEARCH ACTIVITIES

Within the Defense Health Program, the conferees provide an additional \$19,500,000 for medical research activities conducted by the Department. The funds are to be used for research that focuses on issues pertinent to our military forces.

Such efforts would include: alcoholism research; sleep management; chemical weaptreatment; disease management; healthcare information protection; lung research; laser eye injury/eye cancer research and treatment; mustard gas anecdote; prostate diagnostic imaging; retinal display technology for cardiovascular research; smoking cessation; neurological examination equipment; digital mammography; Paget's disease; and pediatric asthma. The conferees direct the Deputy Secretary of Defense to work with the Surgeons General of the Services to establish a medical research program that satisfies military objectives in this area.

ABLATABLE DISC LASER VISION CORRECTION

The conferees are aware of the successful clinical trials involving laser vision correction technology and believe this could have

the potential to enhance the combat effectiveness, especially in critical night operations, for nearsighted military personnel. The conferees therefore encourage the Department to determine the cost-effectiveness, utility and desirability of ablatable disc laser vision correction technology for military personnel.

SMOKING CESSATION

The conferees agree that not later than 60 days after enactment, effective tobacco cessation products and counseling may be provided for members of the Armed Forces (including retired members), former members of the Armed Forces entitled to retired or retainer pay and dependents of such members and former members who are identified as likely to benefit from such assistance in a manner that does not impose costs on the individual.

CHRONIC DISEASE MANAGEMENT

The conferees strongly request that the Department conduct a study of chronic disease management and the provision of comprehensive care for chronically ill patients outside the hospital emergency room. The conferees believe that such a study may result in a reduction in the number of emergency room visits for chronically ill patients and therefore has the potential to provide savings and a better quality of life.

DENTAL CARE POLICIES

The conferees direct the Secretary of Defense to prepare and submit a report regard-

ing the policies, practices and experience of the uniformed services pertaining to the provision of dental care to dependents, 18 years of age and younger, of active duty members of the uniformed services to the defense congressional oversight committees not later than March 15, 1999.

IMPROVING PATIENT CARE

The conferees are encouraged by Department of Defense efforts to reengineer medical care in accordance with Program Decision Memorandum (PDM) number 1, directed by the Under Secretary of Defense for Personnel and Readiness, the Director of Program Analysis and Evaluation and the Surgeons General. This initiative should improve inpatient and out-patient care in several major urban centers and provide for greater efficiency in the Military Health System. The conferees strongly urge the Department to continue such reengineering efforts and direct the Department to provide a report to the congressional defense committees on subsequent initiatives to accomplish these goals by February 15, 1999.

GALLO INSTITUTE

The conferees strongly support the comprehensive efforts of the Cancer Institute of New Jersey and commend the work of the Gallo Institute to address prostate cancer.

TITLE VIII—GENERAL PROVISIONS

The conference agreement incorporates general provisions of the House and Senate versions of the bill which were not amended. Those general provisions that were amended in conference follow:

The conferees included a general provision (Section 8005) which amends language concerning transfer authority.

The conferees included a general provision (Section 8014) which amends language requiring the Department of Defense to report to the Congress on contracting out Department of Defense functions performed by ten or more Department of Defense personnel.

The conferees included a general provision (Section 8033) which amends House language to earmark funds for the Civil Air Patrol.

The conferees included a general provision (Section 8034) governing the activities of defense federally funded research and development centers (FFRDCs).

The conferees included a general provision (Section 8056) which amends Senate language authorizing intelligence activities.

The conferees included a general provision (Section 8058) which amends language recommending rescissions. The rescissions are:

The conferees included a general provision (Section 8083) which amends a Senate provision transferring funds to cover unanticipated shipbulding cost increases.

The conferees included a general provision (Section 8090) which amends House language regarding the use of refunds from Government travel cards.

The conferees included a general provision (Section 8095) which amends a Senate provision requiring the Department of Defense to identify costs incurred by the Department of Defense to support the North Atlantic Treaty Organization.

The conferees included a general provision (Section 8099) which amends Senate language concerning reciprocal trade agreements and the condition under which the Secretary of Defense may issue waivers to the Buy America Act.

The conferees included a general provision (Section 8101) to provide permanent clarification of the application of the "Brooks Act" qualifications based selection (QBS) process to surveying, mapping, charting and geodesy contracts of the National Imagery and Mapping Agency (NIMA). The conferees expect the officials responsible for the Federal Acquisition Regulations (FAR) to strike and revise the last sentence of section 36.601-4(a)(4) of the FAR (48CFR 36.601-4(a)(4)) to define "Surveying and mapping" in such a manner as to include contracts and subcontracts for services for Federal agencies for collecting, storing, retrieving, or disseminating graphical or digital data depicting natural or man made physical features, phenomena and boundaries of the earth and any information related thereto, including but not limited to surveys, maps, charts, remote sensing data and images and aerial photographic services.

The conferees have included a general provision (Section 8105) which amends Senate language reducing funds available to the Department of Defense by \$70,000,000 for efficiencies realized as a result of the Defense Reform Initiative.

The conferees included a general provision (Section 8106) which amends House language requiring the Secretary of Defense to submit an in-depths analysis of any proposed establishment or expansion of depot facilities by the Reserve components.

The conferees included a general provision (Section 8109) which amends Senate language on National Defense Stockpile Asset sales.

The conferees included a general provision (Section 8110) which amends House language related to the transfer of specific ships under certain conditions.

The conferees included a general provision (Section 8114) which amends House language regarding the Cavalese, Italy accident.

The conferees included a general provision (Section 8115) which amends Senate language regarding limitations on deployment of United States forces to Yugoslavia, Albania, or Macedonia.

The conferees included a general provision (Section 8116) which amends House language prohibiting the expenditure of funds on developing or modernizing any information technology or national security system until that system has been independently certified as Year 2000 compliant.

The conferees included a general provision (Section 8117) which amends House language requiring the Department to include Year 2000 simulations as part of their major military exercises.

The conferees remain concerned about the progress the Department is making in bringing its systems into Year 2000 compliance. However, the conferees are encouraged by the actions outlined in recent letters from the Secretary of Defense and Deputy Secretary of Defense regarding Year 2000 compli-

ance. The conferees believe a strong and sustained effort by the Department is critical to minimizing the risk.

The conferees included a general provision (Section 8119) which amends Senate language requesting a report on the need for food stamp assistance by military families.

The conferees included a general provision (Section 8120) which amends House language prohibiting the Department from contracting with the People's Republic of China (PRC) or the People's Liberation Army of the PRC.

The conferees included a general provision Section 8124) which amends Senate language regarding a vessel scrapping pilot program.

The conferees included a general provision (Section 8125) which amends Senate language providing funds for work performed at Fort Wainwright. Alaska.

The conferees included a general provision (Section 8128) which amends Senate language to express a sense of Congress regarding the use of child soldiers in armed conflicts.

The conferees included a new general provision (Section 8131) which waives limitations on expenditures for the National Guard Youth ChalleNGe Program for fiscal year 1999.

The conferees included a new general provision (Section 8132) which allows the Air Force to convey surplus relocatable shelters.

The conferees included a new general provision (Section 8133) which amends Senate language regarding the donation of surplus dental equipment to Indian Health Service facilities.

The conferees included a new general provision (Section 8134), reducing funds in Title III, Procurement, by \$142,100,000. The House had recommended reducing the budget request by \$142,100,000 in Title II, Operation and Maintenance, in order to reduce total funding requested for advisory and assistance services. The conferees have instead agreed to levy a \$142,100,000 reduction against Title III.

The conferees included a new general provision (Section 8135) which reduces funding available for the Military Personnel and Operation and Maintenance accounts by \$193,600,000 due to foreign currency fluctuation.

The conferees included a new general provision (Section 8136) which reduces funding available for the Operation and Maintenance accounts by \$502,000,000 due to declining prices for bulk fuel.

The conferees included a new general provision (Section 8137) concerning the Global Positioning System. Section 8137 requires the Secretary of Defense to develop strategy to protect the integrity of the GPS frequency spectrum against interference and disruption. The conferees expect this strategy to be devised with the support of the Secretaries of State, Commerce, and Transportation, the director of the Office of Science and Technology Policy, and interested user and industry representatives. The required report shall include plans for collection and analysis of test and demonstration data to be completed in time for presentation by the United States at the World Radiocommunications Conference 2000. The report shall also include recommendations for additional filings for both space-based and ground-based services, as appropriate, to meet civil safety-of-life applications within existing international spectrum bands allocated for radionavigation satellite operations

The conferees included a new general provision (Section 8138) which requires the Secretary of Defense to submit a report regarding military deployment rates for each service.

The conferees have included a general provision (Section 8139) which amends Senate

language directing the Secretary of the Air Force to convey property at the former Pease Air Force Base to the Town of Newington, New Hampshire.

The conferees have included a new general provision (Section 8142) which allows the Secretary of Defense to retain family housing at Fort Buchanan, Puerto Rico.

The conferees have included a new general provision (Section 8143) which allows the Secretary of the Navy to convey the Magnolia housing area to the City of Seattle, Washington.

The conferees have included a new general provision (Section 8144) which conveys an Army Reserve Center in Reading, Pennsylvania to the City of Reading, Pennsylvania.

The conferees have included a new general provision (Section 8145) which directs the Secretary of the Air Force to obligate up to \$7,646,000 of previously appropriated funds for demolition and related environmental restoration of 31 buildings at the former Norton Air Force Base, California. Sufficient funds remain available for obligational adjustments within "Base Realignment and Closure Account, Part I" to absorb this cost within existing balances in the Base Realignment and Closure Accounts.

The conferees have included a new general provision (Section 8146) which establishes a cash objective and policy for unbudgeted operating losses in the Defense Working Capital Funds.

The conferees have included a new general provision (Section 8147) which addresses the Military Personnel Information Systems. The conferees concur in the direction in the House Report regarding military personnel information systems and the revised Defense Integrated Military Human Resources System (DIMHRS). Section 8147 establishes a revised DIMHRS program, a defense reform initiative enterprise pilot program for military and manpower personnel information systems. Manpower and personnel information systems shall include, but not be limited to, personnel, manpower, training, and compensation. Health and dependent systems should only be included for interoperability and coordination purposes. The conferees have provided the budget request for DIMHRS and the Navy Standard Integrated Personnel System (NSIPS) and direct that DIMHRS funding be used for the revised DIMHRS enterprise level pilot program. The conferees direct DoD to provide full funding for this revised program in future budget requests and defense plans. The conferees have provided an additional \$38,000,000 in Operation and Maintenance, Defense-Wide and \$12,000,000 in Procurement, Defense-Wide and direct these funds be obligated as directed in the House Report.

The Department shall identify, develop and approve strategic functional requirements for the current and revised enterprise DIMHRS program through the Under Secretary of Defense for Personnel and Readiness, and in full coordination with the individual services and Joint Chiefs, no later than nine months from the date of enactment of this Act. The DoD Chief Information Officer and Director, Program Analysis and Evaluation, shall establish and incorporate into the budget process mission performance goals and measures and identify functional savings resulting from business process improvements. The Department shall identify changes to the planning, programming, and budgeting system needed to implement the revised DIMHRS enterprise solution including, but not limited to, instituting program elements and activity based costing for this enterprise solution. The conferees direct that configuration management and budget oversight of all manpower and personnel legacy systems be centralized with day to day

operational management remaining with the services. The Department shall provide a report to the Appropriations Committees by May 1, 1999 on the revised enterprise DIMHRS, and how the revised program, budget changes and business process improvement changes comply with Appropriations Committee direction and with Public

Laws 104-106 and 103-62.

The conferees included a new general provision (Section 8148) regarding a review of military compensation. The conferees are deeply concerned with the increasing demands placed on our military personnel, which affect the ability to recruit and retain the highly skilled personnel needed to maintain the all-volunteer force. Operating tempos, particularly for those forces deployed in support of contingency operations, are at historic high rates at the same time force structure has been reduced. People are working harder and under more challenging circumstances. At the same time, outside employment opportunities for highly skilled military personnel, especially in certain career fields, are readily available due to the nation's prolonged period of economic prosperity. In this environment, while none of our military personnel serve for financial advancement, we should not expect them to serve and suffer financial hardship.

These competing demands are being compounded by a widespread perception within the force that there has been, and will continue to be, a steady erosion in those programs associated with military compensation and benefits. For example, the conferees note that while the Administration has in recent years proposed increases in pay rates consistent with existing legal limits, those increases have not reversed the gap between military and private compensation. Of even more concern, it is becoming steadily more apparent that the changes in the military retirement system enacted in 1986 are having a direct impact on the services' reenlistment rates, and have raised fundamental questions of equity between those service members who are under the previously established retirement structure and those who have joined the force since 1986. Finally, the conferees continue to observe persistent problems in other programs intended to provide for an adequate quality of life for service members and their families, including medical care, housing programs, and family support programs. The conferees are convinced that these problems, coupled with the high level of demands being placed on the force and the effects of a healthy economy, are directly responsible for the emergence of downward trends in recruiting and retention of personnel. If these interweaving issues are not dealt with soon, and in a meaningful manner, the conferees fear it could inevitably result in a dramatic decline in the capability of the nation's armed forces.

The conferees believe that a long-term solution to these issues cannot be found by simply focusing on one aspect of these problems, such as pay or retirement, in isolation from the others. The complexity of these issues requires a more broad approach if the Department of Defense is to truly address the new and different demands confronting the military force of the future. Therefore, in Section 8148, the conferees direct the Secretary of Defense, in consultation with the nation's senior military leadership, to undertake a comprehensive reassessment of the array of existing compensation and benefit programs, and the need, if any, for changes in these programs in order to meet both future manpower and quality of life requirements. The conferees intend that this effort provide the underpinning for a total review of these programs and issues by both the executive and legislative branches as soon as

possible, and therefore direct that the Secretary provide an interim report on these issues to the congressional defense committees within 60 days of the enactment of the fiscal year 1999 Department of Defense Appropriations Act. In order to provide for full consideration of these matters in the next Congress, the Secretary is also directed to provide his recommendations on these issues to the Congress in conjunction with submission of the fiscal year 2000 budget request.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain 10 one-minutes from each side.

THE STORY OF THE RIP VAN **DEMOCRATS**

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, remember the story of Rip Van Winkle, who slept for 20 years, then woke up and was surprised by all the changes that had taken place during his slumber? A lot of people do not know this, but Rip Van Winkle had some relatives, the Rip Van Democrats, who have also slept for a long, long time.

The Rip Van Democrats slept for 40 years, until waking up in 1995 to discover that the Republicans had taken over. But during those 40 years of slumber, their liberal friends were out plundering the Social Security trust fund and spending it on big government programs. When they woke up they were shocked, shocked to find out that the liberals had left not only Medicare teetering on the edge of bankruptcy, but Social Security as well. So their only recourse was to blame the Republicans for the mess that their liberal friends themselves had created.

That is the story of the Rip Van Democrats.

VIOLENCE AGAINST WOMEN

(Mr. SCHUMER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHUMER. Mr. Speaker, the Violence Against Women Act significantly changed the way law enforcement and social service agencies respond to women victimized by domestic violence.

Yet, between 50 and 70 percent of men who abuse their female partners also abuse their children. Children who witness domestic violence experience anxiety and depression and other mental disorders.

Thanks to VAWA, more mothers and children have left these horrendous conditions and begun life anew. But unfortunately for many mothers and children, a new battle begins over custody and visitation.

VAWA II, my new bill, will provide many more desperately needed supervised visitation programs in safe and secure locations. Child welfare workers will be trained to better serve victims, and laws that protect these mothers and children will be strengthened.

Mr. Speaker, that is just one more reason to support and bring to the floor the Violence Against Women Act II.

One need only pick up a newspaper to read stories about mothers and their children being injured or killed by the batterer during visitation exchange. The need for supervised visitation areas is great, but the need surpasses the number of available programs.
