

## MAURICE RIVER TOWNSHIP

• Mr. TORRICELLI. Mr. President, I rise today to recognize Maurice River Township as it celebrates its 200th anniversary on Saturday October 3rd. It is a pleasure for me to be able to recognize this important milestone.

Maurice River Township has a rich and varied history that will be celebrated and honored this Saturday. Maurice River Township was first chartered as one of six precincts of the County of Cumberland, created by the Colonial Legislature, in the Colony of West Jersey on January 19th, 1747. Together, Greenwich, Hopewell, and Stow Creek, on the North side of Cohansey Creek, as well as Fairfield, Deerfield, and Maurice River on the South side of Cohansey Creek, formed Cumberland County. The Maurice River Precinct contained all of the land on the East side of Prince Maurice's River. In 1798, Maurice River was finally incorporated as a Township by the New Jersey State Legislature.

Over the past 200 years the Township of Maurice River has developed into a thriving community, incorporating the eight villages of Delmont, Bricksboro, Dorchester, Leesburg, Heislerville, Port Elizabeth, Cumberland, and Milmay. Today, Maurice River stands as one of the most vibrant communities in the State of New Jersey, and I am confident it will continue to grow in a positive direction.

The determination and the spirit of the Maurice River community make it a privilege for me to recognize its bicentennial anniversary. The Township has become one of New Jersey's brightest stars, and I look forward to another two hundred years of success.●

## TRIBUTE TO THE BLUE RIDGE RIFLES

• Mr. COVERDELL. Mr. President, I rise today to pay tribute to the Blue Ridge Rifles Precision Drill Team of North Georgia College and State University. The Blue Ridge Rifles finished first overall at the Tulane University Mardi Gras Drill Meet, their tenth such win since 1979.

The Blue Ridge Rifles competed against outstanding competition, hailing from such esteemed institutions as West Point, the United States Air Force Academy, and the Georgia Military College. Furthermore, this competition was scored using Navy-Marine Corps standards of drill, so the Rifles, with their Army-based ROTC training, were competing under unfamiliar rules. The ability of the Rifles to adjust to these changes and compete, let alone win, is nothing short of exceptional.

I also extend congratulations to Cadet Staff Sergeant Justin Shelton and Cadet Second Lieutenant Edward Boyd, who finished first and third in the individual exhibition respectively.

The Blue Ridge Rifles are a proud component of North Georgia College and State University, an dedicated edu-

cational institution renowned for its excellent ROTC program. Mr. President, I encourage my colleagues to join me in honoring this fine organization of young Americans as they celebrate their latest triumph.●

## TRIBUTE TO THE FIRST PRESBYTERIAN CHURCH OF PITTSBURGH

• Mr. SANTORUM. Mr. President, this year marks the 225th anniversary of the First Presbyterian Church of Pittsburgh. Today I rise to congratulate the church on their many years of faithful service.

The First Presbyterian Church of Pittsburgh has a long and esteemed history of reaching out and ministering to those in need. Over the years, the congregation has faithfully given themselves to advance the good of the city. Their impact is evident in the many lives they have so graciously touched along the way.

Mr. President, I ask my colleagues to join with me in extending the Senate's best wishes to the people of the First Presbyterian Church of Pittsburgh and commending them on their 225 years of dedicated service to the city of Pittsburgh. With God's help, their legacy will carry on for another 225 years.●

## RECOGNIZING ANDY WILLIAMS

• Mr. WELLSTONE. Mr. President, I speak today to recognize Andy Williams, an individual who along with only seven others in the nation, has received the National Crime Prevention Council's Ameritech, Award of Excellence in Crime Prevention.

Andy, while employed as a cab driver, made a decision in 1989 that inner-city youth needed both good role models and more chances to learn. He has since devoted his time, energy, and limited resources to the city of St. Paul's young people. Youth in St. Paul have benefited by the creation of his first program, Worker's Organization to Regain Confidence (WORC). After working a 7 or 8 hour day in his cab, he used it to collect kids from school and take them to miscellaneous jobs he had set up for them, providing an alternative to after-school delinquency and crime. Kids took on various jobs such as cleaning windows for a local business, running a lawn service, delivering dinners, learning how to repair small engines, and shovel snow. These programs usually involved 12 to 14 participants.

A successful year later, he expanded WORC into a non-profit organization, guiding at-risk youth in the St. Paul communities of Frogtown and Summit-University. WORC and his newly created subsidiary, SOCK (Save Our City Kids), cooperate with other non-profits to provide work skills, peer counseling, and apprenticeship opportunities. These help the students develop self-confidence, self-respect, and more of the skills crucial to becoming self-sufficient.

Andy has since created several other fruitful programs which continue to benefit the community. His innovations have enabled him and several hundred students to achieve a vision which reflects the nature of the Ameritech Award. His efforts and commitment are a great example for those who wish to make a difference in their own communities. The other programs include: WORC on Bikes, the Drop-In-Center, the Let's Talk program, and Whiz Kids. WORC on Bikes is a program in which youth learn to repair bicycles and eventually earn their own bikes. The Drop-In-Center is a place where any adult or child can stop and discuss personal concerns, such as family problems, alcohol and drug abuse, and violence. The Let's Talk program empowers youth, teenagers, adults, and parents by providing the tools with which solutions to social problems can begin to be addressed. Whiz Kids is a community-based computer education program which makes technology more accessible to youth, while assisting them in developing related skills to prepare them for future endeavors. It is funded entirely through private donations.

Clearly, Andy was selected for this award for his ability to truly make a difference, to persevere, to work for positive results in the lives of youth in the realm of crime prevention and far beyond. On behalf of the children and families who have profited from his exemplary efforts to better various communities in St. Paul, my thanks for his devoted and lasting contribution to the future of our children, and my congratulations on his well-deserved award.●

## TRIBUTE TO COMMANDER LILIA L. RAMIRZ, U.S. NAVY

• Mr. D'AMATO. Mr. President, I welcome this opportunity to pay tribute to Commander Lilia L. Ramirez, U.S. Navy, who is retiring after eighteen years of distinguished service to this nation. She stands out as a pioneer, a leader and an outstanding role model for young people in uniform.

Lilia's United States Navy career is testament to a true American success story. She was born in Bogota, Columbia and emigrated to the U.S. when she was just five years old. Her parents, Alvaro and Ana Ramirez fled the violence in the Columbian countryside in the early 1960's in search if a new life of security and promise for their children in America. With little more than an optimistic spirit. Al and Ana settled in Bayshore, New York where they went on to raise five extraordinary citizens. Through hard work, determination and a deep commitment to each other the Ramirez family actualized their dreams of America.

The eldest of five children, Lilia spoke only Spanish when he arrived in New York as a five year old. Yet Lilia excelled throughout her public education career, graduating with distinction from Brentwood high School and

accepting an appointment to the U.S. Naval Academy as a member of the class of 1981. She was a member of Annapolis' second coeducation class.

As a new Ensign, Lilia sailed for the Naval Communications Area Master Station Western Pacific in Guam, the first of three overseas assignments. While in Guam, Lilia was deployed to the Indian Ocean aboard the submarine U.S.S. *Proteus*, with only a handful of women. After crossing the Equator, she was proudly initiated as a Trusty Shell back in a time-honored sea faring ceremony.

European assignments followed and, while stationed in England as a Navy-Air Force Liaison Officer at RAF Mildenhall, Lilia and two other Annapolis classmates saved the life of an elderly Briton. During their evening of liberty, they discovered the Briton who had collapsed from a heart attack. Next, Lilia served at the U.S. European Command in Stuttgart, Germany as the Officer-in Charge of the Navy-Marine Corps Elements at the headquarters' manpower and personnel directorate. While in Stuttgart, she provided crucial after-action reporting and personnel support in the wake of a terrorist murder of our Navel Attache in Greece and the U.S. Marine Baracks bombing in Beirut.

After five years, Lilia returned to the Washington D.C. area to serve in several assignments, including: the Navy Telecommunications Center at Crystal City, which was the Navy's largest message center; the Navy's Bureau of Personnel, where she was personally involved in assigning a record number of women officers to pursue advanced technical degrees at the Naval Postgraduate School; the Joint Chief of Staff's Command, Control and Communications Systems Directorate. While on the Joint Staff, Lilia coordinated the installation of command and control systems in the field offices of Customs, DEA and the North American Air Defense Command as part of our national anti-drug policy.

In 1990, Lilia was assigned as Officer-in-Charge of the Personnel Support Detachment at Naval Air Station Whidbey Island, in the State of Washington. In this tour, she was responsible for the pay, travel and career advancements matters of 8,000 service members and their families. Lilia returned to the Washington, D.C. area again in 1992, where she served as the base-commander of the Naval Communications Unit Chetentham, a 230-acre facility in rural Maryland. At Chetentham, 300 personnel and 19 tenant commands were under her jurisdiction. She also environmentally protected the wetlands at her base and hosted the local Boy Scout Troop.

In 1994, Lilia began a tour in the Secretary of the Navy's Office of Legislative Affairs. Lilia was responsible for representing the command, control, communications and tactical intelligence programs to the defense and intelligence committees of both the

House and Senate. In addition to numerous informational visits to the Naval communications and intelligence facilities throughout the United States, Europe and Japan, Lilia escorted Congressional delegations to the refugee camps in Guantanamo Bay, Cuba and later to the national elections in Nicaragua. In 1997, as a member of the team from the U.S. Naval Academy, she visited Peru to advise the Peruvian Navy on integrating women into their naval academy.

As the first U.S. Naval woman to attend the Inter-American Defense College, Lilia again helped blaze a trail for all women. Named as the ambassador of the U.S. Navy, she combined her native Spanish fluency and experience in nation security affairs to impress her Latin American counterparts. She forged lasting relationships with key civilian and military leaders of Latin America and left them with enduring, positive memories of women as military professionals.

Lilia's personal decorations include the Defense Meritorious Service Medal, the Meritorious Service Medal, the Joint Service Commendation Medal and the Navy Commendation Medal (three awards).

The United States, as a nation, owes a great debt of gratitude to Lilia Ramirez whose example will inspire women, Hispanics and all Americans seeking public service and whose work will have a lasting impact on our armed forces for years to come. While we will miss her distinguished career in uniform, we will no doubt continue to enjoy her commitment to her community and Nation. I wish to recognize her entire family, including her father Alvaro, her mother Ana (whom we lost this year to cancer), her brothers Michael and Henry and her sisters Angela and Ana Tulita who are all great American success stories of their own right. Best wishes to Lilia, her husband Randall Lovdahl (Commander, U.S. Navy) and her children Bianca and Beau as they mark this special milestone.●

#### DELAYING THE IMPLEMENTATION OF SECTION 110 OF THE ILLEGAL IMMIGRATION REFORM AND IMMIGRANT RESPONSIBILITY ACT OF 1996

● Mr. MOYNIHAN. Mr. President, I am opposed to implementing section 110 of the Immigration Reform Act of 1996. Its implementation would create widespread chaos and lead to untold congestion at our Northern borders' checkpoints, potentially creating havoc with our largest trading partner, Canada.

Each year, more than eight million trucks cross the eastern United States-Canada border carrying a variety of goods to market. In addition, the Eastern Border Transportation Coalition estimates that over 57 million cars cross that border each year. Sixty percent of these are day trips—people crossing the border to go to work or school, attend cultural events or to

shop. The remaining forty percent of auto border crossings were by vacationers.

If implemented, an automated entry-exit system along the northern border would hamper both trade and tourism. This is not inconsequential. The United States-Canadian trade relationship is the largest in the world, totalling \$272 billion in 1995. Compare this to \$256 billion in trade for the entire European Union during that same period and one gets an idea of how important this relationship is and why it must remain unfettered by chaotic checkpoints.●

#### WETLANDS AND WILDLIFE CONSERVATION ACT

● Mr. GRAMS. Mr. President, I rise today having learned of last night's unanimous consent request on S. 1677—The Wetlands and Wildlife Conservation Act of 1998.

As you know, S. 1677 reauthorizes the North American Wetlands Conservation Act (NAWCA) for the next five years. Mr. President, over its eight year history NAWCA has been a lynchpin in our nations efforts to preserve habitat and protect wildlife.

NAWCA has been a very good program for wildlife, for conservation, and for American taxpayers. For every one dollar of federal money, the program obtains on average a match of another two dollars from private partners. According to Ducks Unlimited, over 550 projects nationwide have been initiated with NAWCA funding. In 1996, 76.9 million individuals took part in wildlife-associated activities, creating over \$100 billion in expenditures for our economy. Additionally, in 1996, over 40 million sportsmen and women spent over \$70 billion in recreational expenditures and millions more Americans spent billions in non-sport activities associated with wildlife.

My home state of Minnesota, in particular, has benefited from NAWCA. Over its eight-year life, NAWCA funding of \$18.4 million has stimulated private partners to contribute over \$25 million more to habitat projects. In 1996, 1.6 million Minnesotans participated in wildlife-associated activities, creating \$3.6 billion in expenditures throughout the state.

But beyond the economic benefits NAWCA provides are the important environmental aspects to the program. The decline in duck, geese, and other waterfowl populations in the early 1980s created the catalyst for the program. By protecting nearly 3.7 million acres of habitat since its creation, NAWCA has helped restore waterfowl populations to their highest level in half a century. In fact, state and federal surveys this past year counted 42 million breeding ducks, the highest level since surveys began in 1955, according to the U.S. Department of the Interior.

I was proud to join my colleagues this past April in cosponsoring S. 1677. I am even more proud to come to the
