

clear that I believe that the American public school system is rooted in the vision of Thomas Jefferson. He saw a future where every child in the Nation could look forward to a thorough public education, comparable in quality but under local control. I want it to be clear that when I speak about small class size as a national goal, it is in the context of local control. So I do not support a national mandate for smaller class size.

I believe that any distribution formula for the funds should give credit to and not penalize those States, such as Wisconsin, which have gotten ahead of this and have invested some resources.

I also believe very firmly that any national funding in this area has to be paid for. It cannot be done on the basis of deficit spending or, in effect, borrowing from Social Security.

But with those qualifications, I reiterate that there is a great national purpose in trying to reduce class sizes for children. Therefore, the Federal Government has a limited but important role in ensuring that the Nation makes the proper investments in students today so that it can meet the challenges of the 21st century.

Mr. President, we should take the necessary steps now to help school districts reduce class size as part of an overall effort to improve education and ensure that our children have the best chance to excel and reach their full potential.

Mr. WELLSTONE. Mr. President, I thank my colleague, Senator FEINGOLD, for his remarks about smaller class size and the importance of education. His remarks are very important, and I associate myself with and support his resolution.

Subtitle C—Comprehensive One-Call Notification

SEC. 3301. FINDINGS.

Congress finds that—

(1) unintentional damage to underground facilities during excavation is a significant cause of disruptions in telecommunications, water supply, electric power, and other vital public services, such as hospital and air traffic control operations, and is a leading cause of natural gas and hazardous liquid pipeline accidents;

(2) excavation that is performed without prior notification to an underground facility operator or with inaccurate marking of such a facility prior to excavation can cause damage that results in fatalities, serious injuries, harm to the environment and disruption of vital services to the public; and

(3) protection of the public and the environment from the consequences of underground facility damage caused by excavations will be enhanced by a coordinated national effort to improve one-call notification programs in each State and the effectiveness and efficiency of one-call notification systems that operate under such programs.

SEC. 3302. ESTABLISHMENT OF ONE-CALL NOTIFICATION PROGRAMS.

(a) IN GENERAL.—Subtitle III is amended by adding at the end thereof the following:

"CHAPTER 61—ONE-CALL NOTIFICATION PROGRAMS

"Sec.

"6101. Purposes.

"6102. Definitions.

"6103. Minimum standards for State one-call notification programs.

"6104. Compliance with minimum standards.

"6105. Review of one-call system best practices.

"6106. Grants to States.

"6107. Authorization of appropriations.

"§ 6101. Purposes

"The purposes of this chapter are—

- "(1) to enhance public safety;
- "(2) to protect the environment;
- "(3) to minimize risks to excavators; and
- "(4) to prevent disruption of vital public services,

by reducing the incidence of damage to underground facilities during excavation through the adoption and efficient implementation by all States of State one-call notification programs that meet the minimum standards set forth under section 6103.

"§ 6102. Definitions

"For purposes of this chapter:

"(1) ONE-CALL NOTIFICATION SYSTEM.—The term "one-call notification system" means a system operated by an organization that has as 1 of its purposes to receive notification from excavators of intended excavation in a specified area in order to disseminate such notification to underground facility operators that are members of the system so that such operators can locate and mark their facilities in order to prevent damage to underground facilities in the course of such excavation.

"(2) STATE ONE-CALL NOTIFICATION PROGRAM.—The term "State one-call notification program" means the State statutes, regulations, orders, judicial decisions, and other elements of law and policy in effect in a State that establish the requirements for the operation of one-call notification systems in such State.

"(3) STATE.—The term 'State' means a State, the District of Columbia, and Puerto Rico.

"(4) SECRETARY.—The term 'Secretary' means the Secretary of Transportation.

"§ 6103. Minimum standards for State one-call notification programs

"(a) MINIMUM STANDARDS.—A State one-call notification program shall, at a minimum, provide for—

"(1) appropriate participation by all underground facility operators;

"(2) appropriate participation by all excavators; and

"(3) flexible and effective enforcement under State law with respect to participation in, and use of, one-call notification systems.

"(b) APPROPRIATE PARTICIPATION.—In determining the appropriate extent of participation required for types of underground facilities or excavators under subsection (a), a State shall assess, rank, and take into consideration the risks to the public safety, the environment, excavators, and vital public services associated with—

"(1) damage to types of underground facilities; and

"(2) activities of types of excavators.

"(c) IMPLEMENTATION.—A State one-call notification program also shall, at a minimum, provide for—

"(1) consideration of the ranking of risks under subsection (b) in the enforcement of its provisions;

"(2) a reasonable relationship between the benefits of one-call notification and the cost of implementing and complying with the requirements of the State one-call notification program; and

"(3) voluntary participation where the State determines that a type of underground facility or an activity of a type of excavator poses a de minimis risk to public safety or the environment.

"(d) PENALTIES.—To the extent the State determines appropriate and necessary to achieve the purposes of this chapter, a State one-call notification program shall, at a minimum, provide for—

"(1) administrative or civil penalties commensurate with the seriousness of a violation by an excavator or facility owner of a State one-call notification program;

"(2) increased penalties for parties that repeatedly damage underground facilities because they fail to use one-call notification systems or for parties that repeatedly fail to provide timely and accurate marking after the required call has been made to a one-call notification system;

"(3) reduced or waived penalties for a violation of a requirement of a State one-call notification program that results in, or could result in, damage that is promptly reported by the violator;

"(4) equitable relief; and

"(5) citation of violations.

"§ 6104. Compliance with minimum standards

"(a) REQUIREMENT.—In order to qualify for a grant under section 6106, each State shall, within 2 years after the date of the enactment of the Intermodal Transportation Safety Act of 1997, submit to the Secretary a grant application under subsection (b).

"(b) APPLICATION.—

"(1) Upon application by a State, the Secretary shall review that State's one-call notification program, including the provisions for the implementation of the program and the record of compliance and enforcement under the program.

"(2) Based on the review under paragraph (1), the Secretary shall determine whether the State's one-call notification program meets the minimum standards for such a program set forth in section 6103 in order to qualify for a grant under section 6106.

"(3) In order to expedite compliance under this section, the Secretary may consult with the State as to whether an existing State one-call notification program, a specific modification thereof, or a proposed State program would result in a positive determination under paragraph (2).

"(4) The Secretary shall prescribe the form of, and manner of filing, an application under this section that shall provide sufficient information about a State's one-call notification program for the Secretary to evaluate its overall effectiveness. Such information may include the nature and reasons for exceptions from required participation, the types of enforcement available, and such other information as the Secretary deems necessary.

"(5) The application of a State under paragraph (1) and the record of actions of the Secretary under this section shall be available to the public.

"(c) ALTERNATIVE PROGRAM.—A State may maintain an alternative one-call notification program if that program provides protection for public safety, the environment, or excavators that is equivalent to, or greater than, protection under a program that meets the minimum standards set forth in section 6103.

"(d) REPORT.—Within 3 years after the date of the enactment of the Intermodal Transportation Safety Act of 1997, the Secretary shall begin to include the following information in reports submitted under section 60124 of this title—

"(1) a description of the extent to which each State has adopted and implemented the minimum Federal standards under section 6103 or maintains an alternative program under subsection (c);

"(2) an analysis by the Secretary of the overall effectiveness of the State's one-call notification program and the one-call notification systems operating under such program in achieving the purposes of this chapter;

"(3) the impact of the State's decisions on the extent of required participation in one-call notification systems on prevention of damage to underground facilities; and

"(4) areas where improvements are needed in one-call notification systems in operation in the State.

The report shall also include any recommendations the Secretary determines appropriate. If the Secretary determines that the purposes of this chapter have been substantially achieved, no further report under this section shall be required.

"§ 6105. Review of one-call system best practices

"(a) STUDY OF EXISTING ONE-CALL SYSTEMS.—Except as provided in subsection (d), the Secretary, in consultation with other appropriate Federal agencies, State agencies, one-call notification system operators, underground facility operators, excavators, and other interested parties, shall undertake a study of damage prevention practices associated with existing one-call notification systems.

"(b) PURPOSE OF STUDY OF DAMAGE PREVENTION PRACTICES.—The purpose of the study is to assemble information in order to determine which existing one-call notification systems practices appear to be the most effective in preventing damage to underground facilities and in protecting the public, the environment, excavators, and public service disruption. As part of the study, the Secretary shall at a minimum consider—

"(1) the methods used by one-call notification systems and others to encourage participation by excavators and owners of underground facilities;

"(2) the methods by which one-call notification systems promote awareness of their programs, including use of public service announcements and educational materials and programs;

"(3) the methods by which one-call notification systems receive and distribute information from excavators and underground facility owners;

"(4) the use of any performance and service standards to verify the effectiveness of a one-call notification system;

"(5) the effectiveness and accuracy of mapping used by one-call notification systems;

"(6) the relationship between one-call notification systems and preventing intentional damage to underground facilities;

"(7) how one-call notification systems address the need for rapid response to situations where the need to excavate is urgent;

"(8) the extent to which accidents occur due to errors in marking of underground facilities, untimely marking or errors in the excavation process after a one-call notification system has been notified of an excavation;

"(9) the extent to which personnel engaged in marking underground facilities may be endangered;

"(10) the characteristics of damage prevention programs the Secretary believes could be relevant to the effectiveness of State one-call notification programs; and

"(11) the effectiveness of penalties and enforcement activities under State one-call notification programs in obtaining compliance with program requirements.

"(c) REPORT.—Within 1 year after the date of the enactment of the Intermodal Transportation Safety Act of 1997, the Secretary shall publish a report identifying those practices of one-call notification systems that are the most and least successful in—

"(1) preventing damage to underground facilities; and

"(2) providing effective and efficient service to excavators and underground facility operators.

The Secretary shall encourage States and operators of one-call notification programs to adopt and implement the most successful practices identified in the report.

"(d) SECRETARIAL DISCRETION.—Prior to undertaking the study described in subsection (a), the Secretary shall determine whether timely information described in subsection (b) is readily available. If the Secretary determines that such information is readily available, the Secretary is not required to carry out the study.

"§ 6106. Grants to States

Mr. INHOFE (for himself and Mr. BREAUX) submitted an amendment intended to be proposed by them to the amendment No. 1676 proposed by Mr. CHAFEE to the bill, S. 1173, *supra*; as follows:

At the end of the bill, add the following:

**TITLE —OZONE AND PARTICULATE
MATTER STANDARDS
FINDINGS AND PURPOSES**

SECTION 1. (a) The Congress finds that—

(1) There is a lack of air quality monitoring data for fine particle levels, measured as PM_{2.5}, in the United States and the States should receive full funding for the monitoring efforts;

(2) Such data would provide a basis for designating areas as attainment or nonattainment for any PM_{2.5} national ambient air quality standards pursuant to the standards promulgated in July 1997;

(3) The President of the United States directed the Administrator in a memorandum dated July 16, 1997, to complete the next periodic review of the particulate matter national ambient air quality standards by July 2002 in order to determine "whether to revise or maintain the standards;"

(4) The Administrator has stated that three years of air quality monitoring data for fine particle levels, measured as PM_{2.5} and performed in accordance with any applicable federal reference methods, is appropriate for designating areas as attainment or nonattainment pursuant to the July 1997 promulgated standards; and

(5) The Administrator has acknowledged that in drawing boundaries for attainment and nonattainment areas for the July 1997 ozone national air quality standards, Governors would benefit from considering implementation guidance from EPA on drawing area boundaries;

(b) The purposes of this title are—

(1) To ensure that three years of air quality monitoring data regarding fine particle levels are gathered for use in the determination of area attainment or nonattainment designations respecting any PM_{2.5} national ambient air quality standards;

(2) To ensure that the Governors have adequate time to consider implementation guidance from EPA on drawing area boundaries prior to submitting area designations respecting the July 1997 ozone national ambient air quality standards;

(3) To ensure that implementation of the July 1997 revisions of the ambient air quality standards are consistent with the purposes of the President's Implementation Memorandum dated July 16, 1997.

PARTICULATE MATTER MONITORING PROGRAM

SEC. 2. (a) Through grants under section 103 of the Clean Air Act the Administrator of the Environmental Protection Agency shall use appropriated funds no later than fiscal 2000 to fund one hundred percent of the cost of the establishment, purchase, operation and maintenance of a PM_{2.5} monitoring network necessary to implement the national ambient air quality standards for PM_{2.5} under section 109 of the Clean Air Act. This implementation shall not result in a diversion or reprogramming of funds from other Federal, State or local Clean Air Act activities. Any funds previously diverted or reprogrammed from section 105 Clean Air Act grants for PM_{2.5} monitors must be restored to State or local air programs in fiscal year 1999.

(b) EPA and the States shall ensure that the national network (designated in section 2(a)) which consists of the PM_{2.5} monitors necessary to implement the national ambient air quality standards is established by December 31, 1999.

(c) The Governors shall be required to submit designations for each area following promulgation of the July 1997 PM_{2.5} national ambient air quality standard within one year after receipt of three years of air quality monitoring data performed in accordance with any applicable federal reference methods for the relevant areas. Only data from the monitoring network designated in section 2(a) and other federal reference method monitors shall be considered for such designations. In reviewing the State Implementation Plans the Administrator shall take into account all relevant monitoring data regarding transport of PM_{2.5}.

(d) The Administrator shall promulgate designations of nonattainment areas no later than one year after the initial designations required under paragraph 2(c) are required to be submitted.

(e) The Administrator shall conduct a field study of the ability of the PM_{2.5} Federal Reference Method to differentiate those particles that are larger than 2.5 micrograms in diameter. This study shall be completed and provided to Congress no later than two years from the date of enactment of this legislation.

OZONE DESIGNATION REQUIREMENTS

SEC. 3. (a) The Governors shall be required to submit designations of nonattainment areas within two years following the July 1997 promulgation of the revised ozone national ambient air quality standards.

(b) The Administrator shall promulgate final designations no later than one year after the designation required under paragraph 3(a) are required to be submitted.

ADDITIONAL PROVISIONS

SEC. 4. Nothing in sections 1–3 above shall be construed by the Administrator of Environmental Protection Agency or any court, State, or person to affect any pending litigation.

ADDITIONAL STATEMENTS

NATO ENLARGEMENT: A HISTORIC BLUNDER

● Mr. MOYNIHAN. Mr. President, in this morning's New York Times, Thomas L. Friedman has written a powerful critique of what he calls "fumbling on NATO expansion." In it he refers to a letter in the spring issue of The National Interest from George F. Kennan who warns that NATO expansion is an historic blunder. Ambassador Kennan's letter came in response to an article by Owen Harries, editor of The National Interest, on "The Dangers of Expansive Realism" in the current, winter issue of The National Interest.
