SEC. 2. FINDINGS.

The Congress finds the following:

(1) The use of tobacco products by the Nation's children is a pediatric disease of epic and worsening proportions that results in new generations of tobacco-dependent children and adults.

(2) A consensus exists within the scientific and medical communities that tobacco products are inherently dangerous and cause cancer, heart disease, and other serious adverse health effects.

(3) Nicotine is an addictive drug.

(4) Virtually all new users of tobacco products are under the minimum legal age to purchase such products.

(5) Tobacco advertising and marketing contribute significantly to the use of nicotine-containing tobacco products by adolescents.

(6) Because past efforts to restrict advertising and marketing of tobacco products have failed adequately to curb tobacco use by adolescents, comprehensive restrictions on the sale, promotion, and distribution of such products are needed.

(7) Federal and State governments have lacked the legal and regulatory authority and resources they need to address comprehensively the public health and societal problems caused by the use of tobacco products.

(8) Federal and State public health officials, the public health community, and the public at large recognize that the tobacco industry should be subject to ongoing oversight.

(9) Under Article I, Section 8 of the Constitution, the Congress is vested with the responsibility for regulating interstate commerce and commerce with Indian tribes.

(10) The sale, distribution, marketing, advertising, and use of tobacco products are activities in and substantially affecting interstate commerce because they are sold, marketed, advertised, and distributed in interstate commerce on a nationwide basis, and have a substantial effect on the Nation's economy.

(11) The sale, distribution, marketing, advertising, and use of such products substantially affect interstate commerce through the health care and other costs attributable to the use of tobacco products.

(12) The citizens of the several States are exposed to, and adversely affected by, environmental smoke in public buildings and other facilities which imposes a burden on interstate commerce.

(13) Civil actions against tobacco product manufacturers and others are pending in Federal and State courts arising from the

use, marketing, and sale of tobacco products. Among these actions are cases brought by the attorneys general of more than 40 States, certain cities and counties, and the Commonwealth of Puerto Rico, and other parties, including Indian tribes, and class actions brought by private claimants (such as in the Castano Civil Actions), seeking to recover monies expended to treat tobacco-related diseases and for the protection of minors and consumers, as well as penalties and other relief for violations of antitrust, health, consumer protection, and other laws.

(14) Civil actions have been filed throughout the United States against tobacco product manufacturers and their distributors, trade associations, law firms, and consultants on behalf of individuals or classes of individuals claiming to be dependent upon and injured by tobacco products.

(15) These civil actions are complex, time-consuming, expensive, and burdensome for both the litigants and Federal and State courts. To date, these civil actions have not resulted in sufficient redress for smokers or non-governmental third-party payers. To the extent that governmental entities have been or may in the future be compensated for tobacco-related claims they have brought, it is not now possible to identify what portions of such past or future recoveries can be attributed to their various antitrust, health, consumer protection, or other causes of action.

(16) It is in the public interest for Congress to adopt comprehensive public health legislation because of tobacco's unique position in the Nation's history and economy; the need to prevent the sale, distribution, marketing and advertising of tobacco products to persons under the minimum legal age to purchase such products; and the need to educate the public, especially young people, regarding the health effects of using tobacco products.

(17) The public interest requires a timely, fair, equitable, and consistent result that will serve the public interest by (A) providing that a portion of the costs of treatment for diseases and adverse health effects associated with the use of tobacco products is borne by the manufacturers of these products, and (B) restricting throughout the Nation the sale, distribution, marketing, and advertising of tobacco products only to persons of legal age to purchase such products.

(18) Public health authorities estimate that the benefits to the Nation of enacting Federal legislation to accomplish these goals would be significant in human and economic terms.

(19) Reducing the use of tobacco by minors by 50 percent would prevent well over 60,000 early deaths each year and save up to \$43 billion each year in reduced medical costs, improved productivity, and the avoidance of premature deaths.

(20) Advertising, marketing, and promotion of tobacco products have been especially directed to attract young persons to use tobacco products and these efforts have resulted in increased use of such products by youth. Past efforts to oversee these activities have not been successful in adequately preventing such increased use.

(21) In 1995, the tobacco industry spent close to \$4,900,000,000 to attract new users, retain current users, increase current consumption, and generate favorable long-term attitudes toward smoking and tobacco use.

(22) Tobacco product advertising often misleadingly portrays the use of tobacco as socially acceptable and healthful to minors.

(23) Tobacco product advertising is regularly seen by persons under the age of 18, and persons under the age of 18 are regularly exposed to tobacco product promotional efforts.

(24) Through advertisements during and sponsorship of sporting events, tobacco has become strongly associated with sports and has become portrayed as an integral part of sports and the healthy lifestyle associated with rigorous sporting activity.

(25) Children are exposed to substantial and unavoidable tobacco advertising that leads to favorable beliefs about tobacco use, plays a role in leading young people to overestimate the prevalence of tobacco use, and increases the number of young people who begin to use tobacco.

(26) Tobacco advertising increases the size of the tobacco market by increasing consumption of tobacco products including increasing tobacco use by young people.

(27) Children are more influenced by tobacco advertising than adults, they smoke the most advertised brands, and children as young as 3 to 6 years old can recognize a character associated with smoking at the same rate as they recognize cartoons and fast food characters.

(28) Tobacco company documents indicate that young people are an important and often crucial segment of the tobacco market.

(29) Comprehensive advertising restrictions will have a positive effect on the smoking rates of young people.

(30) Restrictions on advertising are necessary to prevent unrestricted tobacco advertising from undermining legislation prohibiting access to young people and providing for education about tobacco use.

(31) International experience shows that advertising regulations that are stringent and comprehensive have a greater impact on overall tobacco use and young people's use than weaker or less comprehensive ones. Text-only requirements, while not as stringent as a ban, will help reduce underage use of tobacco products while preserving the informational function of advertising.

(32) It is in the public interest for Congress to adopt legislation to address the public health crisis created by actions of the tobacco industry.

(33) If, as a direct or indirect result of this Act, the consumption of tobacco products in the United States is reduced significantly, then tobacco farmers, their families, and their communities may suffer economic hardship and displacement, notwithstanding their lack of involvement in the manufacturing and marketing of tobacco products.

(34) The use of tobacco products in motion pictures and other mass media glamorizes its use for young people and encourages them to use tobacco products.

SEC. 3. PURPOSE.

The purposes of this Act are—

(1) to clarify the authority of the Food and Drug Administration to regulate tobacco products under the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), by recognizing it as the primary Federal regulatory authority with respect to the manufacture, marketing, and distribution of tobacco products;

(2) to require the tobacco industry to fund both Federal and State oversight of the tobacco industry from on-going payments by tobacco product manufacturers;

(3) to require tobacco product manufacturers to provide ongoing funding to be used for an aggressive Federal, State, and local enforcement program and for a nationwide licensing system to prevent minors from obtaining tobacco products and to prevent the unlawful distribution of tobacco products, while expressly permitting the States to adopt additional measures that further restrict or eliminate the products' use;

(4) to ensure that the Food and Drug Administration and the States may continue to address issues of particular concern to public

health officials, especially the use of tobacco by young people and dependence on tobacco;

(5) to impose financial surcharges on tobacco product manufacturers if tobacco use by young people does not substantially decline;

(6) to authorize appropriate agencies of the Federal government to set national standards controlling the manufacture of tobacco products and the identity, public disclosure, and amount of ingredients used in such products;

(7) to provide new and flexible enforcement authority to ensure that the tobacco industry makes efforts to develop and introduce less harmful tobacco products;

(8) to confirm the Food and Drug Administration's authority to regulate the levels of tar, nicotine, and other harmful components of tobacco products;

(9) in order to ensure that adults are better informed, to require tobacco product manufacturers to disclose research which has not previously been made available, as well as research generated in the future, relating to the health and dependency effects or safety of tobacco products;

(10) to impose on tobacco product manufacturers the obligation to provide funding for a variety of public health initiatives;

(11) to establish a minimum Federal standard for stringent restrictions on smoking in public places, while also to permit State, Tribal, and local governments to enact additional and more stringent standards or elect not to be covered by the Federal standard if that State's standard is as protective, or more protective, of the public health;

(12) to authorize and fund from payments by tobacco product manufacturers a continuing national counter-advertising and tobacco control campaign which seeks to educate consumers and discourage children and adolescents from beginning to use tobacco products, and which encourages current users of tobacco products to discontinue using such products;

(13) to establish a mechanism to compensate the States in settlement of their various claims against tobacco product manufacturers;

(14) to authorize and to fund from payments by tobacco product manufacturers a nationwide program of smoking cessation administered through State and Tribal governments and the private sector;

(15) to establish and fund from payments by tobacco product manufacturers a National Tobacco Fund;

(16) to affirm the rights of individuals to access to the courts, to civil trial by jury, and to damages to compensate them for harm caused by tobacco products;

(17) to continue to permit the sale of tobacco products to adults in conjunction with measures to ensure that they are not sold or accessible to underage purchasers;

(18) to impose appropriate regulatory controls on the tobacco industry; and

(19) to protect tobacco farmers and their communities from the economic impact of this Act by providing full funding for and the continuation of the Federal tobacco program and by providing funds for farmers and communities to develop new opportunities in tobacco-dependent communities.

SEC. 4. SCOPE AND EFFECT.

(a) INTENDED EFFECT.—This Act is not intended to—

(1) establish a precedent with regard to any other industry, situation, circumstance, or legal action; or

(b) ADDITIONAL MEASURES.—Except as otherwise expressly provided in this Act, nothing in this Act, the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq.), or rules promulgated under such Acts, shall limit the authority of a Federal agency (including the Armed Forces), a State or its political subdivisions, or the government of an Indian tribe to enact, adopt, promulgate, and enforce any law, rule, regulation, or other measure with respect to tobacco products, including laws, rules, regulations, or other measures relating to or prohibiting the sale, distribution, possession, exposure to, or use of tobacco products by persons of any age that are in addition to the provisions of this Act and the amendments made by this Act. No provision of this Act or amendment made by this Act shall limit or otherwise affect any State, Tribal, or local taxation of tobacco products.

"(7) it is a tobacco product for which an exemption has been granted under section 906(f) for investigational use and the person who was granted such exemption or any investigator who uses such tobacco product under such exemption fails to comply with a requirement prescribed by or under such section.

"(7) if, in the case of any tobacco product distributed or offered for sale in any State—

"(A) its advertising is false or misleading in any particular; or

"(9) if it is a tobacco product subject to a performance standard established under section 907, unless it bears such labeling as may be prescribed in such performance standard; or

“(10) if there was a failure or refusal—

“(B) to furnish any material or information required by or under section 909; or

“(C) to comply with a requirement under section 912.

“(b) **PRIOR APPROVAL OF STATEMENTS ON LABEL.**—The Secretary may, by regulation, require prior approval of statements made on the label of a tobacco product. No regulation issued under this subsection may require prior approval by the Secretary of the content of any advertisement and no advertisement of a tobacco product, published after the date of enactment of the National Tobacco Policy and Youth Smoking Reduction Act shall, with respect to the matters specified in this section or covered by regulations issued hereunder, be subject to the provisions of sections 12 through 15 of the Federal Trade Commission Act (15 U.S.C. 52 through 55). This subsection does not apply to any printed matter which the Secretary determines to be labeling as defined in section 201(m).

“(4) All documents (including underlying scientific information) relating to research activities, and research findings, conducted, supported, or possessed by the manufacturer (or agents thereof) that relate to the issue of whether a reduction in risk to health from tobacco products can occur upon the employment of technology available or known to the manufacturer.

An importer of a tobacco product not manufactured in the United States shall supply the information required of a tobacco product manufacturer under this subsection.

“**SEC. 905. ANNUAL REGISTRATION.**

“(a) **DEFINITIONS.**—As used in this section—

“(1) the term ‘manufacture, preparation, compounding, or processing’ shall include repackaging or otherwise changing the container, wrapper, or labeling of any tobacco product package in furtherance of the distribution of the tobacco product from the original place of manufacture to the person who makes final delivery or sale to the ultimate consumer or user; and

“(2) the term ‘name’ shall include in the case of a partnership the name of each partner and, in the case of a corporation, the name of each corporate officer and director, and the State of incorporation.

“(h) **FOREIGN ESTABLISHMENTS MAY REGISTER.**—Any establishment within any foreign country engaged in the manufacture, preparation, compounding, or processing of a tobacco product or tobacco products, may register under this section under regulations promulgated by the Secretary. Such regulations shall require such establishment to

provide the information required by subsection (i) of this section and shall include provisions for registration of any such establishment upon condition that adequate and effective means are available, by arrangement with the government of such foreign country or otherwise, to enable the Secretary to determine from time to time whether tobacco products manufactured, prepared, compounded, or processed in such establishment, if imported or offered for import into the United States, shall be refused admission on any of the grounds set forth in section 801(a).

“(i) **REGISTRATION INFORMATION.**—

“(1) **PRODUCT LIST.**—Every person who registers with the Secretary under subsection (b), (c), or (d) of this section shall, at the time of registration under any such subsection, file with the Secretary a list of all tobacco products which are being manufactured, prepared, compounded, or processed by that person for commercial distribution and which has not been included in any list of tobacco products filed by that person with the Secretary under this paragraph or paragraph (2) before such time of registration. Such list shall be prepared in such form and manner as the Secretary may prescribe and shall be accompanied by—

“(A) in the case of a tobacco product contained in the applicable list with respect to which a performance standard has been established under section 907 or which is subject to section 910, a reference to the authority for the marketing of such tobacco product and a copy of all labeling for such tobacco product;

“(B) in the case of any other tobacco product contained in an applicable list, a copy of all consumer information and other labeling for such tobacco product, a representative sampling of advertisements for such tobacco product, and, upon request made by the Secretary for good cause, a copy of all advertisements for a particular tobacco product; and

“(2) **BIENNIAL REPORT OF ANY CHANGE IN PRODUCT LIST.**—Each person who registers with the Secretary under this section shall report to the Secretary once during the month of June of each year and once during the month of December of each year the following:

“(A) A list of each tobacco product introduced by the registrant for commercial distribution which has not been included in any list previously filed by that person with the Secretary under this subparagraph or paragraph (1) of this subsection. A list under this subparagraph shall list a tobacco product by its established name and shall be accompanied by the other information required by paragraph (1).

“(B) If since the date the registrant last made a report under this paragraph that person has discontinued the manufacture, preparation, compounding, or processing for commercial distribution of a tobacco product included in a list filed under subparagraph (A) or paragraph (1), notice of such discontinuance, the date of such discontinuance, and the identity of its established name.

“(C) If since the date the registrant reported under subparagraph (B) a notice of discontinuance that person has resumed the manufacture, preparation, compounding, or processing for commercial distribution of the tobacco product with respect to which such notice of discontinuance was reported, notice of such resumption, the date of such

resumption, the identity of such tobacco product by established name, and other information required by paragraph (1), unless the registrant has previously reported such resumption to the Secretary under this subparagraph.

“(D) Any material change in any information previously submitted under this paragraph or paragraph (1).

“(j) REPORT PRECEDING INTRODUCTION OF CERTAIN SUBSTANTIALLY-EQUIVALENT PRODUCTS INTO INTERSTATE COMMERCE.—

“(1) IN GENERAL.—Each person who is required to register under this section and who proposes to begin the introduction or delivery for introduction into interstate commerce for commercial distribution of a tobacco product intended for human use that was not commercially marketed (other than for test marketing) in the United States as of August 11, 1995, as defined by the Secretary by regulation shall, at least 90 days before making such introduction or delivery, report to the Secretary (in such form and manner as the Secretary shall by regulation prescribe)—

“(A) the basis for such person’s determination that the tobacco product is substantially equivalent, within the meaning of section 910, to a tobacco product commercially marketed (other than for test marketing) in the United States as of August 11, 1995, that is in compliance with the requirements of this Act; and

“(B) action taken by such person to comply with the requirements under section 907 that are applicable to the tobacco product.

“(2) APPLICATION TO CERTAIN POST-AUGUST 11TH PRODUCTS.—A report under this subsection for a tobacco product that was first introduced or delivered for introduction into interstate commerce for commercial distribution in the United States after August 11, 1995, and before the date of enactment of the National Tobacco Policy and Youth Smoking Reduction Act shall be submitted to the Secretary within 6 months after the date of enactment of that Act.

“SEC. 906. GENERAL PROVISIONS RESPECTING CONTROL OF TOBACCO PRODUCTS.

“(a) IN GENERAL.—Any requirement established by or under section 902, 903, 905, or 909 applicable to a tobacco product shall apply to such tobacco product until the applicability of the requirement to the tobacco product has been changed by action taken under section 907, section 910, or subsection (d) of this section, and any requirement established by or under section 902, 903, 905, or 909 which is inconsistent with a requirement imposed on such tobacco product under section 907, section 910, or subsection (d) of this section shall not apply to such tobacco product.

“(b) INFORMATION ON PUBLIC ACCESS AND COMMENT.—Each notice of proposed rule-making under section 907, 908, 909, or 910, or under this section, any other notice which is published in the Federal Register with respect to any other action taken under any such section and which states the reasons for such action, and each publication of findings required to be made in connection with rule-making under any such section shall set forth—

“(1) the manner in which interested persons may examine data and other information on which the notice or findings is based; and

“(2) the period within which interested persons may present their comments on the notice or findings (including the need therefor) orally or in writing, which period shall be at least 60 days but may not exceed 90 days unless the time is extended by the Secretary by a notice published in the Federal Register stating good cause therefor.

“(c) LIMITED CONFIDENTIALITY OF INFORMATION.—Any information reported to or other-

wise obtained by the Secretary or the Secretary’s representative under section 904, 907, 908, 909, or 910 or 704, or under subsection (e) or (f) of this section, which is exempt from disclosure under subsection (a) of section 552 of title 5, United States Code, by reason of subsection (b)(4) of that section shall be considered confidential and shall not be disclosed, except that the information may be disclosed to other officers or employees concerned with carrying out this chapter, or when relevant in any proceeding under this chapter.

“(d) RESTRICTIONS.—

“(1) The Secretary may by regulation require that a tobacco product be restricted to sale, distribution, or use upon such conditions, including restrictions on the access to, and the advertising and promotion of, the tobacco product, as the Secretary may prescribe in such regulation if, because of its potentiality for harmful effect or the collateral measures necessary to its use, the Secretary determines that such regulation would be appropriate for the protection of the public health. The finding as to whether such regulation would be appropriate for the protection of the public health shall be determined with respect to the risks and benefits to the population as a whole, including users and non-users of the tobacco product, and taking into account—

“(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

“(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

No such condition may require that the sale or distribution of a tobacco product be limited to the written or oral authorization of a practitioner licensed by law to prescribe medical products.

“(2) The label of a tobacco product shall bear such appropriate statements of the restrictions required by a regulation under subsection (a) as the Secretary may in such regulation prescribe.

“(3) No restriction under paragraph (1) may prohibit the sale of any tobacco product in face-to-face transactions by a specific category of retail outlets.

“(e) GOOD MANUFACTURING PRACTICE REQUIREMENTS.—

“(1) METHODS, FACILITIES, AND CONTROLS TO CONFORM.—

“(A) The Secretary may, in accordance with subparagraph (B), prescribe regulations requiring that the methods used in, and the facilities and controls used for, the manufacture, pre-production design validation (including a process to assess the performance of a tobacco product), packing and storage of a tobacco product, conform to current good manufacturing practice, as prescribed in such regulations, to assure that the public health is protected and that the tobacco product is in compliance with this chapter.

“(B) The Secretary shall—

“(i) before promulgating any regulation under subparagraph (A), afford an advisory committee an opportunity to submit recommendations with respect to the regulation proposed to be promulgated;

“(ii) before promulgating any regulation under subparagraph (A), afford opportunity for an oral hearing;

“(iii) provide the advisory committee a reasonable time to make its recommendation with respect to proposed regulations under subparagraph (A); and

“(iv) in establishing the effective date of a regulation promulgated under this subsection, take into account the differences in the manner in which the different types of tobacco products have historically been produced, the financial resources of the dif-

ferent tobacco product manufacturers, and the state of their existing manufacturing facilities; and shall provide for a reasonable period of time for such manufacturers to conform to good manufacturing practices.

“(2) EXEMPTIONS; VARIANCES.—

“(A) Any person subject to any requirement prescribed under paragraph (1) may petition the Secretary for a permanent or temporary exemption or variance from such requirement. Such a petition shall be submitted to the Secretary in such form and manner as the Secretary shall prescribe and shall—

“(i) in the case of a petition for an exemption from a requirement, set forth the basis for the petitioner’s determination that compliance with the requirement is not required to assure that the tobacco product will be in compliance with this chapter;

“(ii) in the case of a petition for a variance from a requirement, set forth the methods proposed to be used in, and the facilities and controls proposed to be used for, the manufacture, packing, and storage of the tobacco product in lieu of the methods, facilities, and controls prescribed by the requirement; and

“(iii) contain such other information as the Secretary shall prescribe.

“(B) The Secretary may refer to an advisory committee any petition submitted under subparagraph (A). The advisory committee shall report its recommendations to the Secretary with respect to a petition referred to it within 60 days after the date of the petition’s referral. Within 60 days after—

“(i) the date the petition was submitted to the Secretary under subparagraph (A); or

“(ii) the day after the petition was referred to an advisory committee,

whichever occurs later, the Secretary shall by order either deny the petition or approve it.

“(C) The Secretary may approve—

“(i) a petition for an exemption for a tobacco product from a requirement if the Secretary determines that compliance with such requirement is not required to assure that the tobacco product will be in compliance with this chapter; and

“(ii) a petition for a variance for a tobacco product from a requirement if the Secretary determines that the methods to be used in, and the facilities and controls to be used for, the manufacture, packing, and storage of the tobacco product in lieu of the methods, controls, and facilities prescribed by the requirement are sufficient to assure that the tobacco product will be in compliance with this chapter.

“(D) An order of the Secretary approving a petition for a variance shall prescribe such conditions respecting the methods used in, and the facilities and controls used for, the manufacture, packing, and storage of the tobacco product to be granted the variance under the petition as may be necessary to assure that the tobacco product will be in compliance with this chapter.

“(E) After the issuance of an order under subparagraph (B) respecting a petition, the petitioner shall have an opportunity for an informal hearing on such order.

“(3) Compliance with requirements under this subsection shall not be required before the period ending 3 years after the date of enactment of the National Tobacco Policy and Youth Smoking Reduction Act.

“(f) EXEMPTION FOR INVESTIGATIONAL USE.—The Secretary may exempt tobacco products intended for investigational use from this chapter under such conditions as the Secretary may prescribe by regulation.

“(g) RESEARCH AND DEVELOPMENT.—The Secretary may enter into contracts for research, testing, and demonstrations respecting tobacco products and may obtain tobacco

products for research, testing, and demonstration purposes without regard to section 3324(a) and (b) of title 31, United States Code, and section 5 of title 41, United States Code.

“SEC. 907. PERFORMANCE STANDARDS.

“(a) IN GENERAL.—

“(1) FINDING REQUIRED.—The Secretary may adopt performance standards for a tobacco product if the Secretary finds that a performance standard is appropriate for the protection of the public health. This finding shall be determined with respect to the risks and benefits to the population as a whole, including users and non-users of the tobacco product, and taking into account—

“(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

“(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

“(2) CONTENT OF PERFORMANCE STANDARDS.—A performance standard established under this section for a tobacco product—

“(A) shall include provisions to provide performance that is appropriate for the protection of the public health, including provisions, where appropriate—

“(i) for the reduction or elimination of nicotine yields of the product;

“(ii) for the reduction or elimination of other constituents or harmful components of the product; or

“(iii) relating to any other requirement under (B);

“(B) shall, where necessary to be appropriate for the protection of the public health, include—

“(i) provisions respecting the construction, components, ingredients, and properties of the tobacco product;

“(ii) provisions for the testing (on a sample basis or, if necessary, on an individual basis) of the tobacco product;

“(iii) provisions for the measurement of the performance characteristics of the tobacco product;

“(iv) provisions requiring that the results of each or of certain of the tests of the tobacco product required to be made under clause (ii) show that the tobacco product is in conformity with the portions of the standard for which the test or tests were required; and

“(v) a provision requiring that the sale and distribution of the tobacco product be restricted but only to the extent that the sale and distribution of a tobacco product may be restricted under a regulation under section 906(d); and

“(C) shall, where appropriate, require the use and prescribe the form and content of labeling for the proper use of the tobacco product.

“(3) PERIODIC RE-EVALUATION OF PERFORMANCE STANDARDS.—The Secretary shall provide for periodic evaluation of performance standards established under this section to determine whether such standards should be changed to reflect new medical, scientific, or other technological data. The Secretary may provide for testing under paragraph (2) by any person.

“(4) INVOLVEMENT OF OTHER AGENCIES; INFORMED PERSONS.—In carrying out duties under this section, the Secretary shall, to the maximum extent practicable—

“(A) use personnel, facilities, and other technical support available in other Federal agencies;

“(B) consult with other Federal agencies concerned with standard-setting and other nationally or internationally recognized standard-setting entities; and

“(C) invite appropriate participation, through joint or other conferences, work-

shops, or other means, by informed persons representative of scientific, professional, industry, or consumer organizations who in the Secretary's judgment can make a significant contribution.

“(b) ESTABLISHMENT OF STANDARDS.—

“(1) NOTICE.—

(A) The Secretary shall publish in the Federal Register a notice of proposed rulemaking for the establishment, amendment, or revocation of any performance standard for a tobacco product.

“(B) A notice of proposed rulemaking for the establishment or amendment of a performance standard for a tobacco product shall—

“(i) set forth a finding with supporting justification that the performance standard is appropriate for the protection of the public health;

“(ii) set forth proposed findings with respect to the risk of illness or injury that the performance standard is intended to reduce or eliminate; and

“(iii) invite interested persons to submit an existing performance standard for the tobacco product, including a draft or proposed performance standard, for consideration by the Secretary.

“(C) A notice of proposed rulemaking for the revocation of a performance standard shall set forth a finding with supporting justification that the performance standard is no longer necessary to be appropriate for the protection of the public health.

“(D) The Secretary shall consider all information submitted in connection with a proposed standard, including information concerning the countervailing effects of the performance standard on the health of adolescent tobacco users, adult tobacco users, or non-tobacco users, such as the creation of a significant demand for contraband or other tobacco products that do not meet the requirements of this chapter and the significance of such demand, and shall issue the standard if the Secretary determines that the standard would be appropriate for the protection of the public health.

“(E) The Secretary shall provide for a comment period of not less than 60 days.

“(2) PROMULGATION.—

“(A) After the expiration of the period for comment on a notice of proposed rulemaking published under paragraph (1) respecting a performance standard and after consideration of such comments and any report from an advisory committee, the Secretary shall—

“(i) promulgate a regulation establishing a performance standard and publish in the Federal Register findings on the matters referred to in paragraph (1); or

“(ii) publish a notice terminating the proceeding for the development of the standard together with the reasons for such termination.

“(B) A regulation establishing a performance standard shall set forth the date or dates upon which the standard shall take effect, but no such regulation may take effect before one year after the date of its publication unless the Secretary determines that an earlier effective date is necessary for the protection of the public health. Such date or dates shall be established so as to minimize, consistent with the public health, economic loss to, and disruption or dislocation of, domestic and international trade.

“(3) SPECIAL RULE FOR STANDARD BANNING CLASS OF PRODUCT OR ELIMINATING NICOTINE CONTENT.—Because of the importance of a decision of the Secretary to issue a regulation establishing a performance standard—

“(A) eliminating all cigarettes, all smokeless tobacco products, or any similar class of tobacco products, or

“(B) requiring the reduction of nicotine yields of a tobacco product to zero,

it is appropriate for the Congress to have the opportunity to review such a decision. Therefore, any such standard may not take effect before a date that is 2 years after the President notifies the Congress that a final regulation imposing the restriction has been issued.

“(4) AMENDMENT; REVOCATION.—

“(A) The Secretary, upon the Secretary's own initiative or upon petition of an interested person may by a regulation, promulgated in accordance with the requirements of paragraphs (1) and (2)(B) of this subsection, amend or revoke a performance standard.

“(B) The Secretary may declare a proposed amendment of a performance standard to be effective on and after its publication in the Federal Register and until the effective date of any final action taken on such amendment if the Secretary determines that making it so effective is in the public interest.

“(5) REFERENCE TO ADVISORY COMMITTEE.—The Secretary—

“(A) may, on the Secretary's own initiative, refer a proposed regulation for the establishment, amendment, or revocation of a performance standard; or

“(B) shall, upon the request of an interested person which demonstrates good cause for referral and which is made before the expiration of the period for submission of comments on such proposed regulation,

refer such proposed regulation to an advisory committee, for a report and recommendation with respect to any matter involved in the proposed regulation which requires the exercise of scientific judgment. If a proposed regulation is referred under this subparagraph to the advisory committee, the Secretary shall provide the advisory committee with the data and information on which such proposed regulation is based. The advisory committee shall, within 60 days after the referral of a proposed regulation and after independent study of the data and information furnished to it by the Secretary and other data and information before it, submit to the Secretary a report and recommendation respecting such regulation, together with all underlying data and information and a statement of the reason or basis for the recommendation. A copy of such report and recommendation shall be made public by the Secretary.

“SEC. 908. NOTIFICATION AND OTHER REMEDIES

“(a) NOTIFICATION.—If the Secretary determines that—

“(1) a tobacco product which is introduced or delivered for introduction into interstate commerce for commercial distribution presents an unreasonable risk of substantial harm to the public health; and

“(2) notification under this subsection is necessary to eliminate the unreasonable risk of such harm and no more practicable means is available under the provisions of this chapter (other than this section) to eliminate such risk,

the Secretary may issue such order as may be necessary to assure that adequate notification is provided in an appropriate form, by the persons and means best suited under the circumstances involved, to all persons who should properly receive such notification in order to eliminate such risk. The Secretary may order notification by any appropriate means, including public service announcements. Before issuing an order under this subsection, the Secretary shall consult with the persons who are to give notice under the order.

“(b) NO EXEMPTION FROM OTHER LIABILITY.—Compliance with an order issued under this section shall not relieve any person from liability under Federal or State law. In awarding damages for economic loss in an action brought for the enforcement of any such liability, the value to the plaintiff in

such action of any remedy provided under such order shall be taken into account.

“(c) RECALL AUTHORITY.—

“(1) IN GENERAL.—If the Secretary finds that there is a reasonable probability that a tobacco product contains a manufacturing or other defect not ordinarily contained in tobacco products on the market that would cause serious, adverse health consequences or death, the Secretary shall issue an order requiring the appropriate person (including the manufacturers, importers, distributors, or retailers of the tobacco product) to immediately cease distribution of such tobacco product. The order shall provide the person subject to the order with an opportunity for an informal hearing, to be held not later than 10 days after the date of the issuance of the order, on the actions required by the order and on whether the order should be amended to require a recall of such tobacco product. If, after providing an opportunity for such a hearing, the Secretary determines that inadequate grounds exist to support the actions required by the order, the Secretary shall vacate the order.

“(2) AMENDMENT OF ORDER TO REQUIRE RECALL.—

“(A) If, after providing an opportunity for an informal hearing under paragraph (1), the Secretary determines that the order should be amended to include a recall of the tobacco product with respect to which the order was issued, the Secretary shall, except as provided in subparagraph (B), amend the order to require a recall. The Secretary shall specify a timetable in which the tobacco product recall will occur and shall require periodic reports to the Secretary describing the progress of the recall.

“(B) An amended order under subparagraph (A)—

“(i) shall not include recall of a tobacco product from individuals; and

“(ii) shall provide for notice to persons subject to the risks associated with the use of such tobacco product.

In providing the notice required by clause (ii), the Secretary may use the assistance of retailers and other persons who distributed such tobacco product. If a significant number of such persons cannot be identified, the Secretary shall notify such persons under section 705(b).

“(3) REMEDY NOT EXCLUSIVE.—The remedy provided by this subsection shall be in addition to remedies provided by subsection (a) of this section.

“SEC. 909. RECORDS AND REPORTS ON TOBACCO PRODUCTS.

“(a) IN GENERAL.—Every person who is a tobacco product manufacturer or importer of a tobacco product shall establish and maintain such records, make such reports, and provide such information, as the Secretary may by regulation reasonably require to assure that such tobacco product is not adulterated or misbranded and to otherwise protect public health. Regulations prescribed under the preceding sentence—

“(1) may require a tobacco product manufacturer or importer to report to the Secretary whenever the manufacturer or importer receives or otherwise becomes aware of information that reasonably suggests that one of its marketed tobacco products may have caused or contributed to a serious unexpected adverse experience associated with the use of the product or any significant increase in the frequency of a serious, expected adverse product experience;

“(2) shall require reporting of other significant adverse tobacco product experiences as determined by the Secretary to be necessary to be reported;

“(3) shall not impose requirements unduly burdensome to a tobacco product manufac-

turer or importer, taking into account the cost of complying with such requirements and the need for the protection of the public health and the implementation of this chapter;

“(4) when prescribing the procedure for making requests for reports or information, shall require that each request made under such regulations for submission of a report or information to the Secretary state the reason or purpose for such request and identify to the fullest extent practicable such report or information;

“(5) when requiring submission of a report or information to the Secretary, shall state the reason or purpose for the submission of such report or information and identify to the fullest extent practicable such report or information; and

“(6) may not require that the identity of any patient or user be disclosed in records, reports, or information required under this subsection unless required for the medical welfare of an individual, to determine risks to public health of a tobacco product, or to verify a record, report, or information submitted under this chapter.

In prescribing regulations under this subsection, the Secretary shall have due regard for the professional ethics of the medical profession and the interests of patients. The prohibitions of paragraph (6) of this subsection continue to apply to records, reports, and information concerning any individual who has been a patient, irrespective of whether or when he ceases to be a patient.

“(b) REPORTS OF REMOVALS AND CORRECTIONS.—

(1) Except as provided in paragraph (3), the Secretary shall by regulation require a tobacco product manufacturer or importer of a tobacco product to report promptly to the Secretary any corrective action taken or removal from the market of a tobacco product undertaken by such manufacturer or importer if the removal or correction was undertaken—

“(A) to reduce a risk to health posed by the tobacco product; or

“(B) to remedy a violation of this chapter caused by the tobacco product which may present a risk to health.

A tobacco product manufacturer or importer of a tobacco product who undertakes a corrective action or removal from the market of a tobacco product which is not required to be reported under this subsection shall keep a record of such correction or removal.

“(2) No report of the corrective action or removal of a tobacco product may be required under paragraph (1) if a report of the corrective action or removal is required and has been submitted under subsection (a) of this section.

“SEC. 910. PREMARKET REVIEW OF CERTAIN TOBACCO PRODUCTS.

“(a) IN GENERAL.—

“(1) PREMARKET APPROVAL REQUIRED.—

“(A) NEW PRODUCTS.—Approval under this section of an application for premarket approval for any tobacco product that is not commercially marketed (other than for test marketing) in the United States as of August 11, 1995, is required unless the manufacturer has submitted a report under section 905(j), and the Secretary has issued an order that the tobacco product is substantially equivalent to a tobacco product commercially marketed (other than for test marketing) in the United States as of August 11, 1995, that is in compliance with the requirements of this Act.

“(B) PRODUCTS INTRODUCED BETWEEN AUGUST 11, 1995, AND ENACTMENT OF THIS CHAPTER.—Subparagraph (A) does not apply to a tobacco product that—

“(i) was first introduced or delivered for introduction into interstate commerce for

commerce for commercial distribution in the United States after August 11, 1995, and before the date of enactment of the National Tobacco Policy and Youth Smoking Reduction Act; and

“(ii) for which a report was submitted under section 905(j) within 6 months after such date.

until the Secretary issues an order that the tobacco product is substantially equivalent for purposes of this section or requires premarket approval.

“(2) SUBSTANTIALLY EQUIVALENT DEFINED.—

“(A) For purposes of this section and section 905(j), the term ‘substantially equivalent’ or ‘substantial equivalence’ mean, with respect to the tobacco product being compared to the predicate tobacco product, that the Secretary by order has found that the tobacco product—

“(i) has the same characteristics as the predicate tobacco product; or

“(ii) has different characteristics and the information submitted contains information, including clinical data if deemed necessary by the Secretary, that demonstrates that it is not appropriate to regulate the product under this section because the product does not raise different questions of public health.

“(B) For purposes of subparagraph (A), the term ‘characteristics’ means the materials, ingredients, design, composition, heating source, or other features of a tobacco product.

“(C) A tobacco product may not be found to be substantially equivalent to a predicate tobacco product that has been removed from the market at the initiative of the Secretary or that has been determined by a judicial order to be misbranded or adulterated.

“(3) HEALTH INFORMATION.—

“(A) As part of a submission under section 905(j) respecting a tobacco product, the person required to file a premarket notification under such section shall provide an adequate summary of any health information related to the tobacco product or state that such information will be made available upon request by any person.

“(B) Any summary under subparagraph (A) respecting a tobacco product shall contain detailed information regarding data concerning adverse health effects and shall be made available to the public by the Secretary within 30 days of the issuance of a determination that such tobacco product is substantially equivalent to another tobacco product.

“(b) APPLICATION.—

“(1) CONTENTS.—An application for premarket approval shall contain—

“(A) full reports of all information, published or known to or which should reasonably be known to the applicant, concerning investigations which have been made to show the health risks of such tobacco product and whether such tobacco product presents less risk than other tobacco products;

“(B) a full statement of the components, ingredients, and properties, and of the principle or principles of operation, of such tobacco product;

“(C) a full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and, when relevant, packing and installation of, such tobacco product;

“(D) an identifying reference to any performance standard under section 907 which would be applicable to any aspect of such tobacco product, and either adequate information to show that such aspect of such tobacco product fully meets such performance standard or adequate information to justify any deviation from such standard;

“(E) such samples of such tobacco product and of components thereof as the Secretary may reasonably require;

“(F) specimens of the labeling proposed to be used for such tobacco product; and

“(G) such other information relevant to the subject matter of the application as the Secretary may require.

“(2) REFERENCE TO ADVISORY COMMITTEE.—Upon receipt of an application meeting the requirements set forth in paragraph (1), the Secretary—

“(A) may, on the Secretary's own initiative; or

“(B) shall, upon the request of an applicant,

refer such application to an advisory committee and for submission (within such period as the Secretary may establish) of a report and recommendation respecting approval of the application, together with all underlying data and the reasons or basis for the recommendation.

“(c) ACTION ON APPLICATION.—

“(1) DEADLINE.—

“(A) As promptly as possible, but in no event later than 180 days after the receipt of an application under subsection (b) of this section, the Secretary, after considering the report and recommendation submitted under paragraph (2) of such subsection, shall—

“(i) issue an order approving the application if the Secretary finds that none of the grounds for denying approval specified in paragraph (2) of this subsection applies; or

“(ii) deny approval of the application if the Secretary finds (and sets forth the basis for such finding as part of or accompanying such denial) that one or more grounds for denial specified in paragraph (2) of this subsection apply.

“(B) An order approving an application for a tobacco product may require as a condition to such approval that the sale and distribution of the tobacco product be restricted but only to the extent that the sale and distribution of a tobacco product may be restricted under a regulation under section 906(d).

“(2) DENIAL OF APPROVAL.—The Secretary shall deny approval of an application for a tobacco product if, upon the basis of the information submitted to the Secretary as part of the application and any other information before the Secretary with respect to such tobacco product, the Secretary finds that—

“(A) there is a lack of a showing that permitting such tobacco product to be marketed would be appropriate for the protection of the public health;

“(B) the methods used in, or the facilities or controls used for, the manufacture, processing, or packing of such tobacco product do not conform to the requirements of section 906(e);

“(C) based on a fair evaluation of all material facts, the proposed labeling is false or misleading in any particular; or

“(D) such tobacco product is not shown to conform in all respects to a performance standard in effect under section 907, compliance with which is a condition to approval of the application, and there is a lack of adequate information to justify the deviation from such standard.

“(3) DENIAL INFORMATION.—Any denial of an application shall, insofar as the Secretary determines to be practicable, be accompanied by a statement informing the applicant of the measures required to place such application in approvable form (which measures may include further research by the applicant in accordance with one or more protocols prescribed by the Secretary).

“(4) BASIS FOR FINDING.—For purposes of this section, the finding as to whether approval of a tobacco product is appropriate for the protection of the public health shall be determined with respect to the risks and benefits to the population as a whole, includ-

ing users and non-users of the tobacco product, and taking into account—

“(A) the increased or decreased likelihood that existing users of tobacco products will stop using such products; and

“(B) the increased or decreased likelihood that those who do not use tobacco products will start using such products.

“(5) BASIS FOR ACTION.—

“(A) For purposes of paragraph (2)(A), whether permitting a tobacco product to be marketed would be appropriate for the protection of the public health shall, when appropriate, be determined on the basis of well-controlled investigations, which may include one or more clinical investigations by experts qualified by training and experience to evaluate the tobacco product.

“(B) If the Secretary determines that there exists valid scientific evidence (other than evidence derived from investigations described in subparagraph (A)) which is sufficient to evaluate the tobacco product the Secretary may authorize that the determination for purposes of paragraph (2)(A) be made on the basis of such evidence.

“(d) WITHDRAWAL AND TEMPORARY SUSPENSION.—

“(1) IN GENERAL.—The Secretary shall, upon obtaining, where appropriate, advice on scientific matters from an advisory committee, and after due notice and opportunity for informal hearing to the holder of an approved application for a tobacco product, issue an order withdrawing approval of the application if the Secretary finds—

“(A) that the continued marketing of such tobacco product no longer is appropriate for the protection of the public health;

“(B) that the application contained or was accompanied by an untrue statement of a material fact;

“(C) that the applicant—

“(i) has failed to establish a system for maintaining records, or has repeatedly or deliberately failed to maintain records or to make reports, required by an applicable regulation under section 909;

“(ii) has refused to permit access to, or copying or verification of, such records as required by section 704; or

“(iii) has not complied with the requirements of section 905;

“(D) on the basis of new information before the Secretary with respect to such tobacco product, evaluated together with the evidence before the Secretary when the application was approved, that the methods used in, or the facilities and controls used for, the manufacture, processing, packing, or installation of such tobacco product do not conform with the requirements of section 906(e) and were not brought into conformity with such requirements within a reasonable time after receipt of written notice from the Secretary of nonconformity;

“(E) on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, that the labeling of such tobacco product, based on a fair evaluation of all material facts, is false or misleading in any particular and was not corrected within a reasonable time after receipt of written notice from the Secretary of such fact; or

“(F) on the basis of new information before the Secretary, evaluated together with the evidence before the Secretary when the application was approved, that such tobacco product is not shown to conform in all respects to a performance standard which is in effect under section 907, compliance with which was a condition to approval of the application, and that there is a lack of adequate information to justify the deviation from such standard.

“(2) APPEAL.—The holder of an application subject to an order issued under paragraph (1) withdrawing approval of the application may, by petition filed on or before the thirtieth day after the date upon which he receives notice of such withdrawal, obtain review thereof in accordance with subsection (e) of this section.

“(3) TEMPORARY SUSPENSION.—If, after providing an opportunity for an informal hearing, the Secretary determines there is reasonable probability that the continuation of distribution of a tobacco product under an approved application would cause serious, adverse health consequences or death, that is greater than ordinarily caused by tobacco products on the market, the Secretary shall by order temporarily suspend the approval of the application approved under this section. If the Secretary issues such an order, the Secretary shall proceed expeditiously under paragraph (1) to withdraw such application.

“(e) SERVICE OF ORDER.—An order issued by the Secretary under this section shall be served—

“(1) in person by any officer or employee of the department designated by the Secretary; or

“(2) by mailing the order by registered mail or certified mail addressed to the applicant at the applicant's last known address in the records of the Secretary.

“SEC. 911. JUDICIAL REVIEW.

“(a) IN GENERAL.—Not later than 30 days after—

“(1) the promulgation of a regulation under section 907 establishing, amending, or revoking a performance standard for a tobacco product; or

“(2) a denial of an application for approval under section 910(c),

any person adversely affected by such regulation or order may file a petition with the United States Court of Appeals for the District of Columbia or for the circuit wherein such person resides or has his principal place of business for judicial review of such regulation or order. A copy of the petition shall be transmitted by the clerk of the court to the Secretary or other officer designated by the Secretary for that purpose. The Secretary shall file in the court the record of the proceedings on which the Secretary based the Secretary's regulation or order and each record or order shall contain a statement of the reasons for its issuance and the basis, on the record, for its issuance. For purposes of this section, the term 'record' means all notices and other matter published in the Federal Register with respect to the regulation or order reviewed, all information submitted to the Secretary with respect to such regulation or order, proceedings of any panel or advisory committee with respect to such regulation or order, any hearing held with respect to such regulation or order, and any other information identified by the Secretary, in the administrative proceeding held with respect to such regulation or order, as being relevant to such regulation or order.

“(b) COURT MAY ORDER SECRETARY TO MAKE ADDITIONAL FINDINGS.—If the petitioner applies to the court for leave to adduce additional data, views, or arguments respecting the regulation or order being reviewed and shows to the satisfaction of the court that such additional data, views, or arguments are material and that there were reasonable grounds for the petitioner's failure to adduce such data, views, or arguments in the proceedings before the Secretary, the court may order the Secretary to provide additional opportunity for the oral presentation of data, views, or arguments and for written submissions. The Secretary may modify the Secretary's findings, or make new findings by reason of the additional

data, views, or arguments so taken and shall file with the court such modified or new findings, and the Secretary's recommendation, if any, for the modification or setting aside of the regulation or order being reviewed, with the return of such additional data, views, or arguments.

"(c) STANDARD OF REVIEW.—Upon the filing of the petition under subsection (a) of this section for judicial review of a regulation or order, the court shall have jurisdiction to review the regulation or order in accordance with chapter 7 of title 5, United States Code, and to grant appropriate relief, including interim relief, as provided in such chapter. A regulation or order described in paragraph (1) or (2) of subsection (a) of this section shall not be affirmed if it is found to be unsupported by substantial evidence on the record taken as a whole.

"(d) FINALITY OF JUDGMENT.—The judgment of the court affirming or setting aside, in whole or in part, any regulation or order shall be final, subject to review by the Supreme Court of the United States upon certiorari or certification, as provided in section 1254 of title 28, United States Code.

"(e) OTHER REMEDIES.—The remedies provided for in this section shall be in addition to and not in lieu of any other remedies provided by law.

"(f) REGULATIONS AND ORDERS MUST RECITE BASIS IN RECORD.—To facilitate judicial review under this section or under any other provision of law of a regulation or order issued under section 906, 907, 908, 909, 910, or 914, each such regulation or order shall contain a statement of the reasons for its issuance and the basis, in the record of the proceedings held in connection with its issuance, for its issuance.

"SEC. 912. POSTMARKET SURVEILLANCE

"(a) DISCRETIONARY SURVEILLANCE.—The Secretary may require a tobacco product manufacturer to conduct postmarket surveillance for a tobacco product of the manufacturer if the Secretary determines that postmarket surveillance of the tobacco product is necessary to protect the public health or is necessary to provide information regarding the health risks and other safety issues involving the tobacco product.

"(b) SURVEILLANCE APPROVAL.—Each tobacco product manufacturer required to conduct a surveillance of a tobacco product under subsection (a) of this section shall, within 30 days after receiving notice that the manufacturer is required to conduct such surveillance, submit, for the approval of the Secretary, a protocol for the required surveillance. The Secretary, within 60 days of the receipt of such protocol, shall determine if the principal investigator proposed to be used in the surveillance has sufficient qualifications and experience to conduct such surveillance and if such protocol will result in collection of useful data or other information necessary to protect the public health. The Secretary may not approve such a protocol until it has been reviewed by an appropriately qualified scientific and technical review committee established by the Secretary.

"SEC. 913. REDUCED RISK TOBACCO PRODUCTS.

"(a) REQUIREMENTS.—

"(1) IN GENERAL.—For purposes of this section, the term 'reduced risk tobacco product' means a tobacco product designated by the Secretary under paragraph (2).

"(2) DESIGNATION.—

"(A) IN GENERAL.—A product may be designated by the Secretary as a reduced risk tobacco product if the Secretary finds that the product will significantly reduce harm to individuals caused by a tobacco product and is otherwise appropriate to protect public health, based on an application submitted by

the manufacturer of the product (or other responsible person) that—

"(i) demonstrates through testing on animals and short-term human testing that use of such product results in ingestion or inhalation of a substantially lower yield of toxic substances than use of conventional tobacco products in the same category as the proposed reduced risk product; and

"(ii) if required by the Secretary, includes studies of the long-term health effects of the product.

If such studies are required, the manufacturer may consult with the Secretary regarding protocols for conducting the studies.

"(B) BASIS FOR FINDING.—In making the finding under subparagraph (A), the Secretary shall take into account—

"(i) the risks and benefits to the population as a whole, including both users of tobacco products and non-users of tobacco products;

"(ii) the increased or decreased likelihood that existing users of tobacco products will stop using such products including reduced risk tobacco products;

"(iii) the increased or decreased likelihood that those who do not use tobacco products will start to use such products, including reduced risk tobacco products; and

"(iv) the risks and benefits to consumers from the use of a reduced risk tobacco product as compared to the use of products approved under chapter V to reduce exposure to tobacco.

"(3) MARKETING REQUIREMENTS.—A tobacco product may be marketed and labeled as a reduced risk tobacco product if it—

"(A) has been designated as a reduced risk tobacco product by the Secretary under paragraph (2);

"(B) bears a label prescribed by the Secretary concerning the product's contribution to reducing harm to health; and

"(C) complies with requirements prescribed by the Secretary relating to marketing and advertising of the product, and other provisions of this chapter as prescribed by the Secretary.

"(b) REVOCATION OF DESIGNATION.—At any time after the date on which a tobacco product is designated as a reduced risk tobacco product under this section the Secretary may, after providing an opportunity for an informal hearing, revoke such designation if the Secretary determines, based on information not available at the time of the designation, that—

"(1) the finding made under subsection (a)(2) is no longer valid; or

"(2) the product is being marketed in violation of subsection (a)(3).

"(c) LIMITATION.—A tobacco product that is designated as a reduced risk tobacco product that is in compliance with subsection (a) shall not be regulated as a drug or device.

"(d) DEVELOPMENT OF REDUCED RISK TOBACCO PRODUCT TECHNOLOGY.—A tobacco product manufacturer shall provide written notice to the Secretary upon the development or acquisition by the manufacturer of any technology that would reduce the risk of a tobacco product to the health of the user for which the manufacturer is not seeking designation as a 'reduced risk tobacco product' under subsection (a).

"SEC. 914. PRESERVATION OF STATE AND LOCAL AUTHORITY.

"(a) ADDITIONAL REQUIREMENTS.—

"(1) IN GENERAL.—Except as provided in paragraph (2), nothing in this Act shall be construed as prohibiting a State or political subdivision thereof from adopting or enforcing a requirement applicable to a tobacco product that is in addition to, or more stringent than, requirements established under this chapter.

"(2) PREEMPTION OF CERTAIN STATE AND LOCAL REQUIREMENTS.—

"(A) Except as provided in subparagraph (B), no State or political subdivision of a State may establish or continue in effect with respect to a tobacco product any requirement which is different from, or in addition to, any requirement applicable under the provisions of this chapter relating to performance standards, premarket approval, adulteration, misbranding, registration, reporting, good manufacturing standards, or reduced risk products.

"(B) Subparagraph (A) does not apply to requirements relating to the sale, use, or distribution of a tobacco product including requirements related to the access to, and the advertising and promotion of, a tobacco product.

"(b) RULE OF CONSTRUCTION REGARDING PRODUCT LIABILITY.—No provision of this chapter relating to a tobacco product shall be construed to modify or otherwise affect any action or the liability of any person under the product liability law of any State.

"(c) WAIVERS.—Upon the application of a State or political subdivision thereof, the Secretary may, by regulation promulgated after notice and an opportunity for an oral hearing, exempt from subsection (a), under such conditions as may be prescribed in such regulation, a requirement of such State or political subdivision applicable to a tobacco product if—

"(1) the requirement is more stringent than a requirement applicable under the provisions described in subsection (a)(3) which would be applicable to the tobacco product if an exemption were not in effect under this subsection; or

"(2) the requirement—

"(A) is required by compelling local conditions; and

"(B) compliance with the requirement would not cause the tobacco product to be in violation of any applicable requirement of this chapter.

"SEC. 915. EQUAL TREATMENT OF RETAIL OUTLETS.

—"The Secretary shall issue regulations to require that retail establishments for which the predominant business is the sale of tobacco products comply with any advertising restrictions applicable to retail establishments accessible to individuals under the age of 18."

(3) providing that a person may not be charged with a violation at a particular retail outlet unless the Secretary has provided notice to the retailer of all previous violations at that outlet;

(4) establishing a period of time during which, if there are no violations by a particular retail outlet, that outlet will not be considered to have been the site of repeated violations when the next violation occurs; and

(5) providing that good faith reliance on false identification does not constitute a violation of any minimum age requirement for the sale of tobacco products.

TITLE II—REDUCTIONS IN UNDERAGE TOBACCO USE

Subtitle A—Underage Use

SEC. 201. FINDINGS.

The Congress finds the following:

(1) Reductions in the underage use of tobacco products are critically important to the public health.

(2) Achieving this critical public health goal can be substantially furthered by increasing the price of tobacco products to discourage underage use if reduction targets are not achieved and by creating financial incentives for manufacturers to discourage youth from using their tobacco products.

(3) When reduction targets in underage use are not achieved on an industry-wide basis, the price increases that will result from an industry-wide assessment will provide an additional deterrence to youth tobacco use.

(4) Manufacturer-specific incentives that will be imposed if reduction targets are not met by a manufacturer provide a strong incentive for each manufacturer to make all efforts to discourage youth use of its brands and ensure the effectiveness of the industry-wide assessments.

SEC. 202. PURPOSE.

This title is intended to ensure that, in the event that other measures contained in this Act prove to be inadequate to produce substantial reductions in tobacco use by minors, tobacco companies will pay additional assessments. These additional assessments are designed to lower youth tobacco consumption in a variety of ways: by triggering further increases in the price of tobacco products, by encouraging tobacco companies to work to meet statutory targets for reductions in youth tobacco consumption, and providing support for further reduction efforts.

SEC. 203. GOALS FOR REDUCING UNDERAGE TOBACCO USE.

(a) GOALS.—As part of a comprehensive national tobacco control policy, the Secretary, working in cooperation with State, Tribal, and local governments and the private sector, shall take all actions under this Act necessary to ensure that the required percentage reductions in underage use of tobacco products set forth in this title are achieved.

(b) REQUIRED REDUCTIONS FOR CIGARETTES.—With respect to cigarettes, the required percentage reduction in underage use, as set forth in section 204, means—

Calendar Year After Date of Enactment	Required Percentage Reduction as a Percentage of Base Incidence Percentage in Underage Cigarette Use
Years 3 and 4	15 percent
Years 5 and 6	30 percent
Years 7, 8, and 9	50 percent
Year 10 and thereafter	60 percent

(c) REQUIRED REDUCTIONS FOR SMOKELESS TOBACCO.—With respect to smokeless tobacco products, the required percentage reduction in underage use, as set forth in section 204, means—

Calendar Year After Date of Enactment	Required Percentage Reduction as a Percentage of Base Incidence Percentage in Underage Smokeless Tobacco Use
Years 3 and 4	12.5 percent
Years 5 and 6	25 percent
Years 7, 8, and 9	35 percent
Year 10 and thereafter	45 percent

SEC. 204. LOOK-BACK ASSESSMENT.

(a) ANNUAL PERFORMANCE SURVEY.—Beginning no later than 1999 and annually thereafter the Secretary shall conduct a survey, in accordance with the methodology in subsection (d)(1), to determine—

(1) the percentage of all young individuals who used a type of tobacco product within the past 30 days; and

(2) the percentage of young individuals who identify each brand of each type of tobacco product as the usual brand of that type smoked or used within the past 30 days.

(b) ANNUAL DETERMINATION.—The Secretary shall make an annual determination, based on the annual performance survey conducted under subsection (a), of whether the required percentage reductions in underage use of tobacco products for a year have been achieved for the year involved. The determination shall be based on the annual percent prevalence of the use of tobacco products, for the industry as a whole and of particular manufacturers, by young individuals (as determined by the surveys conducted by the Secretary) for the year involved as compared to the base incidence percentages.

(c) CONFIDENTIALITY OF DATA.—The Secretary may conduct a survey relating to tobacco use involving minors. If the information collected in the course of conducting the annual performance survey results in the individual supplying the information or described in it to be identifiable, the information may not be used for any purpose other than the purpose for which it was supplied unless that individual (or that individual's guardian) consents to its use for such other purpose. The information may not be published or released in any other form if the individual supplying the information or described in it is identifiable unless that individual (or that individual's guardian) consents to its publication or release in other form.

(d) METHODOLOGY.—

(1) IN GENERAL.—The survey required by subsection (a) shall—

(A) be based on a nationally representative sample of young individuals;

(B) be a household-based, in person survey (which may include computer-assisted technology);

(C) measure use of each type of tobacco product within the past 30 days;

(D) identify the usual brand of each type of tobacco product used within the past 30 days; and

(E) permit the calculation of the actual percentage reductions in underage use of a type of tobacco product (or, in the case of the manufacturer-specific surcharge, the use of a type of tobacco product of a manufac-

turer) based on the point estimates of the percentage of young individuals reporting use of a type of tobacco product (or, in the case of the manufacturer-specific surcharge, the use of a type of tobacco product of a manufacturer) from the annual performance survey.

(2) CRITERIA FOR DEEMING POINT ESTIMATES CORRECT.—Point estimates under paragraph (1)(E) are deemed conclusively to be correct and accurate for calculating actual percentage reductions in underage use of a type of tobacco product (or, in the case of the manufacturer-specific surcharge, the use of a type of tobacco product of a particular manufacturer) for the purpose of measuring compliance with percent reduction targets and calculating surcharges provided that the precision of estimates (based on sampling error) of the percentage of young individuals reporting use of a type of tobacco product (or, in the case of the manufacturer-specific surcharge, the use of a type of tobacco product of a manufacturer) is such that the 95-percent confidence interval around such point estimates is no more than plus or minus 1 percent.

(3) SURVEY DEEMED CORRECT, PROPER, AND ACCURATE.—A survey using the methodology required by this subsection is deemed conclusively to be proper, correct, and accurate for purposes of this Act.

(4) SECRETARY MAY ADOPT DIFFERENT METHODOLOGY.—The Secretary by notice and comment rulemaking may adopt a survey methodology that is different than the methodology described in paragraph (1) if the different methodology is at least as statistically precise as that methodology.

(e) INDUSTRY-WIDE NON-ATTAINMENT SURCHARGES.—

(1) SECRETARY TO DETERMINE INDUSTRY-WIDE NON-ATTAINMENT PERCENTAGE.—The Secretary shall determine the industry-wide non-attainment percentage for cigarettes and for smokeless tobacco for each calendar year.

(2) NON-ATTAINMENT SURCHARGE FOR CIGARETTES.—For each calendar year in which the percentage reduction in underage use required by section 203b) is not attained, the Secretary shall assess a surcharge on cigarette manufacturers as follows:

If the non-attainment percentage is:	The surcharge is:
Not more than 5 percent	\$80,000,000 multiplied by the non-attainment percentage
More than 5% but not more than 10%	\$400,000,000, plus \$160,000,000 multiplied by the non-attainment percentage in excess of 5% but not in excess of 10%
More than 10%	\$1,200,000,000, plus \$240,000,000 multiplied by the non-attainment percentage in excess of 10%
More than 21.6%	\$4,000,000,000

(3) NON-ATTAINMENT SURCHARGE FOR SMOKELESS TOBACCO.—For each year in which the percentage reduction in underage use required by section 203c) is not attained, the Secretary shall assess a surcharge on smokeless tobacco product manufacturers as follows:

If the non-attainment percentage is:	The surcharge is:
Not more than 5 percent	\$8,000,000 multiplied by the non-attainment percentage
More than 5% but not more than 10%	\$40,000,000, plus \$16,000,000 multiplied by the non-attainment percentage in excess of 5% but not in excess of 10%
More than 10%	\$120,000,000, plus \$24,000,000 multiplied by the non-attainment percentage in excess of 10%
More than 21.6%	\$400,000,000

(4) STRICT LIABILITY; JOINT AND SEVERAL LIABILITY.—Liability for any surcharge imposed under subsection (e) shall be—

- (A) strict liability; and
- (B) joint and several liability—

(i) among all cigarette manufacturers for surcharges imposed under subsection (e)(2); and

(ii) among all smokeless tobacco manufacturers for surcharges imposed under subsection (e)(3).

(5) SURCHARGE LIABILITY AMONG MANUFACTURERS.—A tobacco product manufacturer shall be liable under this subsection to one or more other manufacturers if the plaintiff tobacco product manufacturer establishes by a preponderance of the evidence that the defendant tobacco product manufacturer, through its acts or omissions, was responsible for a disproportionate share of the non-attainment surcharge as compared to the responsibility of the plaintiff manufacturer.

(6) EXEMPTIONS FOR SMALL MANUFACTURERS.—

(A) ALLOCATION BY MARKET SHARE.—The Secretary shall make such allocations according to each manufacturer's share of the domestic cigarette or domestic smokeless tobacco market, as appropriate, in the year for which the surcharge is being assessed, based on actual Federal excise tax payments.

(B) EXEMPTION.—In any year in which a surcharge is being assessed, the Secretary shall exempt from payment any tobacco product manufacturer with less than 1 percent of the domestic market share for a specific category of tobacco product unless the Secretary finds that the manufacturer's products are used by underage individuals at a rate equal to or greater than the manufacturer's total market share for the type of tobacco product.

(f) MANUFACTURER-SPECIFIC SURCHARGES.—

(1) REQUIRED PERCENTAGE REDUCTIONS.—Each manufacturer which manufactured a brand or brands of tobacco product on or before the date of the enactment of this Act shall reduce the percentage of young individuals who use such manufacturer's brand or brands as their usual brand in accordance with the required percentage reductions described under subsections (b) (with respect to cigarettes) and (c) (with respect to smokeless tobacco).

(2) APPLICATION TO LESS POPULAR BRANDS.—Each manufacturer which manufactured a brand or brands of tobacco product on or before the date of the enactment of this Act for which the base incidence percentage is equal to or less than the *de minimis* level shall ensure that the percent prevalence of young individuals who use the manufacturer's tobacco products as their usual brand remains equal to or less than the *de minimis* level described in paragraph (4).

(3) NEW ENTRANTS.—Each manufacturer of a tobacco product which begins to manufacture a tobacco product after the date of the enactment of this Act shall ensure that the percent prevalence of young individuals who use the manufacturer's tobacco products as their usual brand is equal to or less than the *de minimis* level.

(4) DE MINIMIS LEVEL DEFINED.—The *de minimis* level is equal to 1 percent prevalence of the use of each manufacturer's brands of tobacco product by young individuals (as determined on the basis of the annual performance survey conducted by the Secretary) for a year.

(5) TARGET REDUCTION LEVELS.—

(A) EXISTING MANUFACTURERS.—For purposes of this section, the target reduction level for each type of tobacco product for a year for a manufacturer is the product of the required percentage reduction for a type of tobacco product for a year and the manufacturers base incidence percentage for such tobacco product.

(B) NEW MANUFACTURERS; MANUFACTURERS WITH LOW BASE INCIDENCE PERCENTAGES.—With respect to a manufacturer which begins to manufacture a tobacco product after the

date of the enactment of this Act or a manufacturer for which the baseline level as measured by the annual performance survey is equal to or less than the *de minimis* level described in paragraph (4), the base incidence percentage is the *de minimis* level, and the required percentage reduction in underage use for a type of tobacco product with respect to a manufacturer for a year shall be deemed to be the number of percentage points necessary to reduce the actual percent prevalence of young individuals identifying a brand of such tobacco product of such manufacturer as the usual brand smoked or used for such year to the *de minimis* level.

(6) SURCHARGE AMOUNT.—

(A) IN GENERAL.—If the Secretary determines that the required percentage reduction in use of a type of tobacco product has not been achieved by such manufacturer for a year, the Secretary shall impose a surcharge on such manufacturer under this paragraph.

(B) AMOUNT.—The amount of the manufacturer-specific surcharge for a type of tobacco product for a year under this paragraph is \$1,000, multiplied by the number of young individuals for which such firm is in non-compliance with respect to its target reduction level.

(C) DETERMINATION OF NUMBER OF YOUNG INDIVIDUALS.—For purposes of subparagraph (B) the number of young individuals for which a manufacturer is in noncompliance for a year shall be determined by the Secretary from the annual performance survey and shall be calculated based on the estimated total number of young individuals in such year and the actual percentage prevalence of young individuals identifying a brand of such tobacco product of such manufacturer as the usual brand smoked or used in such year as compared to such manufacturer's target reduction level for the year.

(7) DE MINIMIS RULE.—The Secretary may not impose a surcharge on a manufacturer for a type of tobacco product for a year if the Secretary determines that actual percent prevalence of young individuals identifying that manufacturer's brands of such tobacco product as the usual products smoked or used for such year is less than 1 percent.

(g) SURCHARGES TO BE ADJUSTED FOR INFLATION.—

(1) IN GENERAL.—Beginning with the fourth calendar year after the date of enactment of this Act, each dollar amount in the tables in subsections (e)(2), (e)(3), and (f)(6)(B) shall be increased by the inflation adjustment.

(2) INFLATION ADJUSTMENT.—For purposes of paragraph (1), the inflation adjustment for any calendar year is the percentage (if any) by which—

(A) the CPI for the preceding calendar year, exceeds

(B) the CPI for the calendar year 1998.

(3) CPI.—For purposes of paragraph (2), the CPI for any calendar year is the average of the Consumer Price Index for all-urban consumers published by the Department of Labor.

(4) ROUNDING.—If any increase determined under paragraph (1) is not a multiple of \$1,000, the increase shall be rounded to the nearest multiple of \$1,000.

(h) METHOD OF SURCHARGE ASSESSMENT.—The Secretary shall assess a surcharge for a specific calendar year on or before May 1 of the subsequent calendar year. Surcharge payments shall be paid on or before July 1 of the year in which they are assessed. The Secretary may establish, by regulation, interest at a rate up to 3 times the prevailing prime rate at the time the surcharge is assessed, and additional charges in an amount up to 3 times the surcharge, for late payment of the surcharge.

(i) BUSINESS EXPENSE DEDUCTION.—Any surcharge paid by a tobacco product manufacturer under this section shall not be deductible as an ordinary and necessary business expense or otherwise under the Internal Revenue Code of 1986.

(j) APPEAL RIGHTS.—The amount of any surcharge is committed to the sound discretion of the Secretary and shall be subject to judicial review by the United States Court of Appeals for the District of Columbia Circuit, based on the arbitrary and capricious standard of section 706(2)(A) of title 5, United States Code. Notwithstanding any other provisions of law, no court shall have authority to stay any surcharge payments due the Secretary under this Act pending judicial review.

(k) RESPONSIBILITY FOR AGENTS.—In any action brought under this subsection, a tobacco product manufacturer shall be held responsible for any act or omission of its attorneys, advertising agencies, or other agents that contributed to that manufacturer's responsibility for the surcharge assessed under this section.

If the Secretary determines that a State is not enforcing the law in accordance with such an undertaking, the Secretary may withhold a portion of any unobligated funds under this section otherwise payable to that State.

(2) **ACTIVITIES AND REPORTS REGARDING ENFORCEMENT.**—A State that receives a grant under this subtitle shall—

(d) APPORTIONMENT OF ANNUAL PAYMENT.—

(1) IN GENERAL.—Each tobacco product manufacturer is liable for its share of the applicable base amount payment due each year under subsection (b). The annual payment is the obligation and responsibility of only those tobacco product manufacturers and their affiliates that directly sell tobacco

(2) DETERMINATION OF AMOUNT OF PAYMENT DUE.—Each tobacco product manufacturer is liable for its share of each installment in proportion to its share of tobacco products sold in the domestic market for the calendar year. (3) CALCULATION OF TOBACCO PRODUCT MANUFACTURER'S SHARE OF ANNUAL PAYMENT.—The share of the annual payment apportioned to a tobacco product manufacturer shall be equal to that manufacturer's share of adjusted units, taking into account the manufacturer's total production of such units sold in the domestic market. A tobacco product manufacturer's share of adjusted units shall be determined as follows:

(A) UNITS.—A tobacco product manufacturer's number of units shall be determined by counting each—

- (i) pack of 20 cigarettes as 1 adjusted unit;
- (ii) 1.2 ounces of moist snuff as 0.75 adjusted unit; and
- (iii) 3 ounces of other smokeless tobacco product as 0.35 adjusted units.

(B) DETERMINATION OF ADJUSTED UNITS.—Except as provided in subparagraph (C), a smokeless tobacco product manufacturer's number of adjusted units shall be determined under the following table:

For units:	Each unit shall be treated as:
Not exceeding 150 million	70% of a unit
Exceeding 150 million	100% of a unit

(C) ADJUSTED UNITS DETERMINED ON TOTAL DOMESTIC PRODUCTION.—For purposes of determining a manufacturer's number of adjusted units under subparagraph (B), a manufacturer's total production of units, whether intended for domestic consumption or export, shall be taken into account.

(D) SPECIAL RULE FOR LARGE MANUFACTURERS.—If a tobacco product manufacturer has more than 200 million units under subparagraph (A), then that manufacturer's number of adjusted units shall be equal to the total number of units, and not determined under subparagraph (B).

(E) SMOKELESS EQUIVALENCY STUDY.—Not later than January 1, 2003, the Secretary shall submit to the Congress a report detailing the extent to which youths are substituting smokeless tobacco products for cigarettes. If the Secretary determines that significant substitution is occurring, the Secretary shall include in the report recommendations to address substitution, including consideration of modification of the provisions of subparagraph (A).

(e) COMPUTATIONS.—The determinations required by subsection (d) shall be made and certified by the Secretary of Treasury. The parties shall promptly provide the Treasury Department with information sufficient for it to make such determinations.

(f) NONAPPLICATION TO CERTAIN MANUFACTURERS.—

(1) EXEMPTION.—A manufacturer described in paragraph (3) is exempt from the payments required by subsection (b).

(3) TOBACCO PRODUCT MANUFACTURERS TO WHICH SUBSECTION APPLIES.—A tobacco product manufacturer is described in this paragraph if it—

(A) resolved tobacco-related civil actions with more than 25 States before January 1, 1998, through written settlement agreements signed by the attorneys general (or the equivalent chief legal officer if there is no office of attorney general) of those States; and

(1) INFLATION ADJUSTMENT.—

(A) IN GENERAL.—Beginning with the sixth calendar year after the date of enactment of this Act, the adjusted applicable base amount under section 402(b)(6) is the amount of the annual payment made for the preceding year increased by the greater of 3 percent or the annual increase in the CPI, adjusted (for calendar year 2002 and later years) by the volume adjustment under paragraph (2).

(B) CPI.—For purposes of subparagraph (A), the CPI for any calendar year is the average of the Consumer Price Index for all-urban consumers published by the Department of Labor.

(C) ROUNDING.—If any increase determined under subparagraph (A) is not a multiple of \$1,000, the increase shall be rounded to the nearest multiple of \$1,000.

(2) VOLUME ADJUSTMENT.—Beginning with calendar year 2002, the applicable base amount (as adjusted for inflation under paragraph (1)) shall be adjusted for changes in volume of domestic sales by multiplying the applicable base amount by the ratio of the actual volume for the calendar year to the base volume. For purposes of this paragraph, the term "base volume" means 80 percent of the number of units of taxable domestic removals and taxed imports of cigarettes in calendar year 1997, as reported to the Secretary of the Treasury. For purposes of this subsection, the term "actual volume" means the number of adjusted units as defined in section 402(d)(3)(A).

SEC. 404. PAYMENTS TO BE PASSED THROUGH TO CONSUMERS.

Each tobacco product manufacturer shall use its best efforts to adjust the price at which it sells each unit of tobacco products in the domestic market or to an importer for resale in the domestic market by an amount sufficient to pass through to each purchaser on a per-unit basis an equal share of the annual payments to be made by such tobacco product manufacturer under this Act for the year in which the sale occurs.

SEC. 405. TAX TREATMENT OF PAYMENTS.

All payments made under section 402 are ordinary and necessary business expenses for purposes of chapter 1 of the Internal Revenue Code of 1986 for the year in which such payments are made, and no part thereof is either in settlement of an actual or potential liability for a fine or penalty (civil or criminal) or the cost of a tangible or intangible asset or other future benefit.

(3) WAIVER.—In the case of any failure to make a payment under section 402 that is due to reasonable cause and not to willful neglect, the Secretary of the Treasury may waive all or part of the penalty imposed under subsection (a) to the extent that the Secretary determines that the payment of such penalty would be excessive relative to the failure involved.

SEC. 703. RULES GOVERNING TOBACCO CLAIMS.

(a) GENERAL CAUSATION PRESUMPTION.—In any civil action to which this title applies brought involving a tobacco claim, there shall be an evidentiary presumption that nicotine is addictive and that the diseases identified as being caused by use of tobacco products in the Center for Disease Control and Prevention Reducing the Health Consequences of Smoking: 25 Years of Progress: A Report of the Surgeon General (United States Public Health Service 1989), The Health Consequences of Smoking: Involuntary Smoking, (USPHS 1986); and The Health Consequences of Using Smokeless Tobacco, (USPHS 1986), are caused in whole or in part by the use of tobacco products, (hereinafter referred to as the "general causation presumption"), and a jury empaneled to hear a tobacco claim shall be so instructed. In all other respects, the burden of proof as to the issue of whether a plaintiff's specific disease or injury was caused by smoking shall be governed by the law of the State or Tribe in which the tobacco claim was brought. This general causation presumption shall in no way affect the ability of the defendant to introduce evidence or argument which the defendant would otherwise be entitled to present under the law of the State or Tribe in which the tobacco claim was brought to rebut the general causation presumption, or with respect to general causation, specific causation, or alternative causation, or to introduce any other evidence or argument which the defendant would otherwise be entitled to make.

(b) ACTIONS AGAINST PARTICIPATING TOBACCO PRODUCT MANUFACTURERS.—In any civil action brought involving a tobacco claim against participating tobacco product manufacturers, as that term is defined in title XIV, the provisions of title XIV apply in conjunction with the provisions of this title.

TITLE VIII—TOBACCO INDUSTRY ACCOUNTABILITY REQUIREMENTS AND EMPLOYEE PROTECTION FROM REPRISALS

SEC. 801. ACCOUNTABILITY REQUIREMENTS AND OVERSIGHT OF THE TOBACCO INDUSTRY.

(a) ACCOUNTABILITY.—The Secretary, following regular consultation with the Commissioner of Food and Drugs, the Surgeon General, the Director of the Center for Disease Control or the Director's delegate, and the Director of the Health and Human Services Office of Minority Health shall annually issue a report as provided for in subsection (c).

(b) TOBACCO COMPANY PLAN.—Within a year after the date of enactment of this Act, each participating tobacco product manufacturer shall adopt and submit to the Secretary a plan to achieve the required percentage reductions in underage use of tobacco products set forth in section 201, and thereafter shall update its plan no less frequently than annually. The annual report of the Secretary may recommend amendment of any plan to incorporate additional measures to reduce underage tobacco use that are consistent with the provisions of this Act.

(c) ANNUAL REPORT.—The Secretary shall submit a report to the Congress by January 31 of each year, which shall be published in the Federal Register. The report shall—

(1) describe in detail each tobacco product manufacturer's compliance with the provisions of this Act and its plan submitted under subsection (b);

(2) report on whether each tobacco product manufacturer's efforts to reduce underage smoking are likely to result in attainment of smoking reduction targets under section 201;

(3) recommend, where necessary, additional measures individual tobacco companies should undertake to meet those targets; and

(4) include, where applicable, the extent to which prior panel recommendations have been adopted by each tobacco product manufacturer.

SEC. 802. TOBACCO PRODUCT MANUFACTURER EMPLOYEE PROTECTION.

(a) PROHIBITED ACTS.—No tobacco product manufacturer may discharge, demote, or otherwise discriminate against any employee with respect to compensation, terms, conditions, benefits, or privileges of employment because the employee (or any person acting under a request of the employee)—

(1) notified the manufacturer, the Commissioner of Food and Drugs, the Attorney General, or any Federal, State, or local public health or law enforcement authority of an alleged violation of this or any other Act;

(2) refused to engage in any practice made unlawful by such Acts, if the employee has identified the alleged illegality to the manufacturer;

(3) testified before Congress or at any Federal or State proceeding regarding any provision (or proposed provision) of such Acts;

(4) commenced, caused to be commenced, or is about to commence or cause to be commenced a proceeding under such Acts, or a proceeding for the administration or enforcement of any requirement imposed under such Acts;

(5) testified or is about to testify in any such proceeding; or

(6) assisted or participated, or is about to assist or participate, in any manner in such a proceeding or in any other manner in such a proceeding or in any other action to carry out the purposes of such Acts.

(b) EMPLOYEE COMPLAINT.—

(1) Any employee of a tobacco product manufacturer who believes that he or she has been discharged, demoted, or otherwise discriminated against by any person in violation of subsection (a) of this section may, within 180 days after such violation occurs, file (or have any person file on his or her behalf) a complaint with the Secretary alleging such discharge, demotion, or discrimination. Upon receipt of such a complaint, the Secretary shall notify the person named in the complaint of its filing.

(2)(A) Upon receipt of a complaint under paragraph (1) of this subsection, the Secretary shall conduct an investigation of the violation alleged in the complaint. Within 30 days after the receipt of such complaint, the Secretary shall complete such investigation and shall notify in writing the complainant (and any such person acting in his or her behalf) and the person alleged to have committed such violation of the results of the investigation conducted under this paragraph. Within 90 days after the receipt of such complaint, the Secretary shall (unless the proceeding on the complaint is terminated by the Secretary on the basis of a settlement entered into by the Secretary and the person alleged to have committed such violation) issue an order either providing the relief prescribed in subparagraph (B) of this paragraph or denying the complaint. An order of the Secretary shall be made on the record after notice and the opportunity for a hearing in accordance with sections 554 and 556 of title 5, United States Code. Upon the conclusion of such a hearing and the issuance of a recommended decision that the complaint has merit, the Secretary shall issue a preliminary order providing the relief prescribed in subparagraph (B) of this paragraph, but may not order compensatory damages pending a final order. The Secretary may not enter into a settlement terminating a proceeding

on a complaint without the participation and consent of the complainant.

(B) If, in response to a complaint under paragraph (1) of this subsection, the Secretary determines that a violation of this paragraph has occurred, the Secretary shall order the person who committed such violation to (i) take affirmative action to abate the violation, and (ii) reinstate the complainant to his or her former position together with compensation (including back pay), terms, conditions, and privileges of his or her employment. The Secretary may order such person to provide compensatory damages to the complainant. If an order is issued under this subparagraph, the Secretary, at the request of the complainant, shall assess the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorneys' and expert witness fees) reasonably incurred (as determined by the Secretary), by the complainant for, or in connection with, the bringing of the complaint upon which the order is issued.

(3)(A) The Secretary shall dismiss a complaint filed under paragraph (1) of this subsection, and shall not conduct the investigation required under paragraph (2) of this subsection, unless the complainant has made a *prima facie* showing that any behavior described in subsection (a) of this section was a contributing factor in the unfavorable personnel action alleged in the complaint.

(B) Notwithstanding a finding by the Secretary that the complainant has made the showing required by subparagraph (A) of this paragraph, no investigation required under paragraph (2) of this subsection shall be conducted if the manufacturer demonstrates by clear and convincing evidence that it would have taken the same unfavorable personnel action in the absence of such behavior. Relief may not be ordered under paragraph (1) of this subsection if the manufacturer demonstrates by clear and convincing evidence that it would have taken the same unfavorable personnel action in the absence of such behavior.

(C) The Secretary may determine that a violation of subsection (a) of this section has occurred only if the complainant has demonstrated that any behavior described in subsection (a) of this section was a contributing factor in unfavorable personnel action alleged in the complaint.

(c) JUDICIAL REVIEW.—

(1) Any person adversely affected or aggrieved by an order issued under subsection (a) of this section may obtain review of the order in the United States court of appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred. The petition for review must be filed within 60 days after the issuance of the Secretary's order. Judicial review shall be available as provided in chapter 7 of title 5, United States Code. The commencement of proceedings under this subsection shall not, unless ordered by the court, operate as a stay of the Secretary's order.

(2) An order of the Secretary with respect to which review could have been obtained under paragraph (1) of this subsection shall not be subject to judicial review in any criminal or civil proceeding.

(d) NONCOMPLIANCE.—Whenever a person has failed to comply with an order issued under subsection (b)(2) of this section, the Secretary may file a civil action in the United States district court for the district in which the violation occurred to enforce such order. In actions brought under this subsection, the district courts shall have jurisdiction to grant all appropriate relief, including injunctive relief and compensatory and exemplary damages.

(e) ACTION TO ENSURE COMPLIANCE.—

(1) Any person on whose behalf an order was issued under subsection (b)(2) of this section may commence a civil action to require compliance with such order against the person to whom such order was issued. The appropriate United States district court shall have jurisdiction to enforce such order, without regard to the amount in controversy or the citizenship of the parties.

(2) The court, in issuing any final order under this subsection, may award costs of litigation (including reasonable attorneys' and expert witness fees) to any party whenever the court determines such award is appropriate.

(f) ENFORCEMENT.—Any non-discretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28, United States Code.

(g) APPLICABILITY TO CERTAIN EMPLOYEES.—Subsection (a) of this section shall not apply with respect to any employee who, acting without direction from the manufacturer (or the agent of the manufacturer) deliberately causes a violation of any requirement of this Act, the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 301 et seq), or any other law or regulation relating to tobacco products.

(h) EFFECT ON OTHER LAWS.—This section shall not be construed to expand, diminish, or otherwise affect any right otherwise available to an employee under Federal or State law to redress the employee's discharge or other discriminatory action taken by a tobacco product manufacturer against the employee.

(i) POSTING.—The provisions of this section shall be prominently posted in any place of employment to which this section applies.

TITLE IX—PUBLIC DISCLOSURE OF TOBACCO INDUSTRY DOCUMENTS

SEC. 901. FINDINGS.

The Congress finds that—

(1) the American tobacco industry has made claims of attorney-client privilege, attorney work product, and trade secrets to protect from public disclosure thousands of internal documents sought by civil litigants;

(2) a number of courts have found that these claims of privilege were not made in good faith; and

(3) a prompt and full exposition of tobacco documents will—

(A) promote understanding by the public of the tobacco industry's research and practices; and

(B) further the purposes of this Act.

SEC. 902. APPLICABILITY.

This title applies to all tobacco product manufacturers.

SEC. 903. DOCUMENT DISCLOSURE.

(1) Within 60 days after the date of enactment of this Act, each tobacco product manufacturer shall submit to the Food and Drug Administration the documents identified in subsection (c), including documents for which trade secret protection is claimed, with the exception of any document for which privilege is claimed, and identified in accordance with subsection (b). Each such manufacturer shall provide the Administration with the privilege and trade secret logs identified under subsection (b).

(2) With respect to documents that are claimed to contain trade secret material, unless and until it is finally determined under this title, either through judicial review or because time for judicial review has expired, that such a document does not constitute or contain trade secret material, the Administration shall treat the document as a trade secret in accordance with section 708 of the Federal Food, Drug, and Cosmetic Act (21

U.S.C. 379) and the regulations promulgated thereunder. Nothing herein shall limit the authority of the Administration to obtain and use, in accordance with any provision of the Federal Food, Drug, and Cosmetic Act and the regulations promulgated thereunder, any document constituting or containing trade secret material. Documents and materials received by the Administration under this provision shall not be obtainable by or releasable to the public through section 552 of title 5, United States Code, or any other provision of law, and the only recourse to obtain these documents shall be through the process established by section 905.

SEC. 904. DOCUMENT REVIEW.

(a) ADJUDICATION OF PRIVILEGE CLAIMS.—A claim of attorney-client privilege, trade secret protection, or other claim of privilege with respect to a document required to be submitted by this title shall be heard by a 3-judge panel of the United States District

(b) PRIVILEGE.—The panel shall apply the attorney-client privilege, the attorney work-product doctrine, and the trade secret doctrine in a manner consistent with Federal law.

SEC. 905. RESOLUTION OF DISPUTED PRIVILEGE AND TRADE SECRET CLAIMS.

(a) IN GENERAL.—The panel shall determine whether to uphold or reject disputed claims of attorney-client privilege, attorney work product, or trade secret protection with respect to documents submitted. Any person may petition the panel to resolve a claim that a document submitted may not be disclosed to the public. Such a determination shall be made by a majority of the panel, in writing, and shall be subject to judicial review as specified in this title. All such determinations shall be made solely on consideration of the subject document and written submissions from the person claiming that the document is privileged or protected by trade secrecy and from any person seeking disclosure of the document. The panel shall cause notice of the petition and the panel's decision to be published in the Federal Register.

(b) FINAL DECISION.—The panel may uphold a claim of privilege or protection in its entirety or, in its sole discretion, it may redact that portion of a document that it determines is protected from public disclosure under subsection (a). Any decision of the panel shall be final unless judicial review is sought under section 906. In the event that judicial review is so sought, the panel's decision shall be stayed pending a final judicial decision.

SEC. 906. APPEAL OF PANEL DECISION.

(a) PETITION; RIGHT OF APPEAL.—Any person may obtain judicial review of a final decision of the panel by filing a petition for review with the United States Court of Appeals for the Federal Circuit within 60 days after the publication of such decision in the Federal Register. A copy of the petition shall be transmitted by the Clerk of the Court to the panel. The panel shall file in the court the record of the proceedings on which the panel based its decision (including any documents reviewed by the panel in *camera*) as provided in section 2112 of title 28, United States Code. Upon the filing of such petition, the court shall have exclusive jurisdiction to affirm or set aside the panel's decision, except that until the filing of the record the panel may modify or set aside its decision.

(b) ADDITIONAL EVIDENCE AND ARGUMENTS.—If the any party applies to the court for leave to adduce additional evidence respecting the decision being reviewed and shows to the satisfaction of the court that such additional evidence or arguments are material and that there were reasonable grounds for the failure to adduce such evidence or arguments in the proceedings before the panel, the court may order the panel to provide additional opportunity for the presentation of evidence or arguments in such manner and upon such terms as the court deems proper. The panel may modify its findings or make new findings by reason of the additional evidence or arguments and shall file with the court such modified or new findings, and its recommendation, if any, for the modification or setting aside of the decision being reviewed.

(c) STANDARD OF REVIEW; FINALITY OF JUDGMENTS.—The panel's findings of fact, if supported by substantial evidence on the record taken as a whole, shall be conclusive.

(e) EFFECT OF NON-DISCLOSURE DECISION ON JUDICIAL PROCEEDINGS.—The panel's decision that a document is protected by attorney-client privilege, attorney work product, or trade secret protection is binding only for the purpose of protecting the document from disclosure by the Depository. The decision by the panel shall not be construed to prevent a document from being disclosed in a judicial proceeding or interfere with the authority of a court to determine whether a document is admissible or whether its production may be compelled.

SEC. 907. MISCELLANEOUS.

The disclosure process in this title is not intended to affect the Federal Rules of Civil or Criminal Procedure or any Federal law which requires the disclosure of documents or which deals with attorney-client privilege, attorney work product, or trade secret protection.

SEC. 908. PENALTIES.

(a) GOOD FAITH REQUIREMENT.—Each tobacco product manufacturer shall act in good faith in asserting claims of privilege or trade secret protection based on fact and law. If the panel determines that a tobacco product manufacturer has not acted in good faith with full knowledge of the truth of the facts asserted and with a reasonable basis under existing law, the manufacturer shall be assessed costs, which shall include the full administrative costs of handling the claim of privilege, and all attorneys' fees incurred by the panel and any party contesting the privilege. The panel may also impose civil penalties of up to \$50,000 per violation if it determines that the manufacturer acted in bad faith in asserting a privilege, or knowingly acted with the intent to delay, frustrate, defraud, or obstruct the panel's determination of privilege, attorney work product, or trade secret protection claims.

(b) FAILURE TO PRODUCE DOCUMENT.—A failure by a tobacco product manufacturer to produce indexes and documents in compliance with the schedule set forth in this title, or with such extension as may be granted by the panel, shall be punished by a civil penalty of up to \$50,000 per violation. A separate violation occurs for each document the manufacturer has failed to produce in a timely manner. The maximum penalty under this subsection for a related series of violations is \$5,000,000. In determining the amount of any civil penalty, the panel shall consider the number of documents, length of delay, any history of prior violations, the ability to pay, and such other matters as justice requires. Nothing in this title shall replace or supersede any criminal sanction under title 18, United States Code, or any other provision of law.

"SEC. 420D. STATEMENT OF PURPOSE.

"It is the purpose of this subpart to assist in making available the benefits of post-secondary education to eligible students (determined in accordance with section 420F) in institutions of higher education by providing farmer opportunity grants to all eligible students.

"SEC. 420E. PROGRAM AUTHORITY; AMOUNT AND DETERMINATIONS; APPLICATIONS.

"(a) PROGRAM AUTHORITY AND METHOD OF DISTRIBUTION.—

"(1) PROGRAM AUTHORITY.—From amounts made available under section 1011(d)(5) of the LEAF Act, the Secretary, during the period beginning July 1, 1999, and ending September 30, 2024, shall pay to each eligible institution such sums as may be necessary to pay to each eligible student (determined in accordance with section 420F) for each academic year during which that student is in attendance at an institution of higher education, as an undergraduate, a farmer opportunity grant in the amount for which that student is eligible, as determined pursuant to subsection (b). Not less than 85 percent of the

sums shall be advanced to eligible institutions prior to the start of each payment period and shall be based on an amount requested by the institution as needed to pay eligible students, except that this sentence shall not be construed to limit the authority of the Secretary to place an institution on a reimbursement system of payment.

“(2) CONSTRUCTION.—Nothing in this section shall be construed to prohibit the Secretary from paying directly to students, in advance of the beginning of the academic term, an amount for which the students are eligible, in cases where the eligible institution elects not to participate in the disbursement system required by paragraph (1).

“(3) DESIGNATION.—Grants made under this subpart shall be known as ‘farmer opportunity grants’.

“(b) AMOUNT OF GRANTS.—

“(1) AMOUNTS.—

“(A) IN GENERAL.—The amount of the grant for a student eligible under this subpart shall be—

The schedule of reductions shall be established by regulation and published in the Federal Register.

“(2) MAXIMUM.—No grant under this subpart shall exceed the cost of attendance (as described in section 472) at the institution at which that student is in attendance. In determining whether to approve or disapprove the process, the Secretary shall take into account the effectiveness of the process in enabling students without secondary school diplomas or the recognized equivalent to benefit from the instruction offered by institutions utilizing the process, and shall also take into account the cultural diversity, economic circumstances, and educational preparation of the populations served by the institutions.

“(e) SPECIAL RULE FOR CORRESPONDENCE COURSES.—A student shall not be eligible to receive a grant under this subpart for a correspondence course unless the course is part of a program leading to an associate, bachelor, or graduate degree.

“(f) COURSES OFFERED THROUGH TELECOMMUNICATIONS.—

“(1) RELATION TO CORRESPONDENCE COURSES.—A student enrolled in a course of instruction at an eligible institution of higher education (other than an institute or school that meets the definition in section 521(4)(C) of the Carl D. “(1) PENDING VERIFICATION.—Except as provided in paragraphs (2) and (3), an institution shall not deny, control, delay, or terminate a student's eligibility for assistance under this subpart because social security number verification is pending.

“(2) DENIAL OR TERMINATION.—If there is a determination by the Secretary that the social security number provided to an eligible institution by a student is incorrect, the institution shall deny or terminate the student's eligibility for any grant under this subpart until such time as the student provides documented evidence of a social security number that is determined by the institution to be correct.

“(c) DAMAGES RECOVERABLE FOR PERSONAL INJURY UNAFFECTED.—No action taken by the Secretary in connection with the rights afforded under this chapter shall operate to deny to the injured veteran or his or her surviving spouse, child or parent the recovery for that portion of his or her damage not covered hereunder.

a civil action involving a tobacco claim against a participating tobacco product manufacturer may elect to settle such action against said tobacco product manufacturer. If a State makes such an election to enter into a settlement or a consent decree, it may maintain a civil action involving a tobacco claim only to the extent necessary to permit continuing court jurisdiction over the settlement or consent decree. Nothing herein shall preclude any State from bringing suit or seeking a court order to enforce the terms of such settlement or decree.

(c) STATE OPTION FOR ONE-TIME OPT OUT.—Any State that does not make the election described in subsection (b) may continue its lawsuit, notwithstanding subsection (a) of this section. A State that does not make such an election shall not be eligible to receive payments from the trust fund in title IV.

(b) CASTANO CIVIL ACTIONS.—

(1) The rights and benefits afforded in this Act, and the various research activities envisioned by this Act, are provided in settlement of, and shall constitute the exclusive remedy for the purpose of determining civil liability as to those claims asserted in the Castano Civil Actions, and all bases for any such claim under the laws of any State are preempted (including State substantive, procedural, remedial, and evidentiary provisions) and settled. The Castano Civil Actions shall be dismissed with full reservation of the rights of individual class members to pursue claims not based on addiction or dependency in civil actions, as defined in section 1417(2), in accordance with this Act. For purposes of determining application of statutes of limitation or repose, individual actions filed within one year after the effective date of this Act by those who were included within a Castano Civil Action shall be considered to have been filed as of the date of the Castano Civil Action applicable to said individual.

SEC. 1409. SUBSTANTIAL NON-ATTAINMENT OF REQUIRED REDUCTIONS.

(a) ACTION BY SECRETARY.—If the Secretary determines under title II that the non-attainment percentage for any year is greater than 20 percentage points for cigarettes or smokeless tobacco, then the Secretary shall determine, on a brand-by-brand basis, using data that reflects a 1999 baseline, which tobacco product manufacturers are responsible within the 2 categories of tobacco products for the excess. The Secretary may commence an action under this section against the tobacco product manufacturer or manufacturers of the brand or brands of cigarettes or smokeless tobacco products for which the non-attainment percentage exceeded 20 percentage points.

(b) PROCEDURES.—Any action under this section shall be commenced by the Secretary in the United States District Court for the District of Columbia within 90 days after publication in the Federal Register of the determination that the non-attainment percentage for the tobacco product in question is greater than 20 percentage points. Any such action shall be heard and determined by a 3-judge court under section 2284 of title 28, United States Code.

(c) DETERMINATION BY COURT.—In any action under this section, the court shall determine whether a tobacco product manufacturer has shown, by a preponderance of the evidence that it—

(1) has complied substantially with the provisions of this Act regarding underage tobacco use, of any rules or regulations promulgated thereunder, or of any Federal or State laws regarding underage tobacco use;

(2) has not taken any material action to undermine the achievement of the required percentage reduction for the tobacco product in question; and

(3) has used its best efforts to reduce underage tobacco use to a degree at least equal to the required percentage reductions.

(d) REMOVAL OF ANNUAL AGGREGATE PAYMENT LIMITATION.—Except as provided in subsections (e) and (g), if the court determines that a tobacco product manufacturer has failed to make the showing described in subsection (c) then sections 1411 and 1412 of this Act do not apply to the enforcement against, or the payment by, such tobacco product manufacturer of any judgment or settlement that becomes final after that termination is made.

(e) DEFENSE.—An action under this section shall be dismissed, and subsection (d) shall not apply, if the court finds that the Secretary's determination under subsection (a) was unlawful under subparagraph (A), (B), (C), or (D) of section 706(2) of title 5, United States Code. Any judgments paid under section 1412 of this Act prior to a final judgment determining that the Secretary's determination was erroneous shall be fully credited, with interest, under section 1412 of this Act.

(f) REVIEW.—Decisions of the court under this section are reviewable only by the Su-

preme Court by writ of certiorari granted upon the petition of any party. The applicability of subsection (d) shall be stayed during the pendency of any such petition or review.

(g) CONTINUING EFFECT.—Subsection (d) shall cease to apply to a tobacco product manufacturer found to have engaged in conduct described in subsection (c) upon the later of—

(1) a determination by the Secretary under section 201 after the commencement of action under subsection (a) that the non-attainment percentage for the tobacco product in question is 20 or fewer percentage points; or

(2) a finding by the court in an action filed against the Secretary by the manufacturer, not earlier than 2 years after the determination described in subsection (c) becomes final, that the manufacturer has shown by a preponderance of the evidence that, in the period since that determination, the manufacturer—

(A) has complied with the provisions of this Act regarding underage tobacco use, of any rules or regulations promulgated thereunder, and of any other applicable Federal, State, or local laws, rules, or regulations;

(B) has not taken any action to undermine the achievement of the required percentage reduction for the tobacco product in question; and

(C) has used its best efforts to attain the required percentage reduction for the tobacco product in question.

A judgment or settlement against the tobacco product manufacturer that becomes final after a determination or finding described in paragraph (1) or (2) of this subsection is not subject to subsection (d). An action under paragraph (2) of this subsection shall be commenced in the United States District Court for the District of Columbia, and shall be heard and determined by a 3-judge court under section 2284 of title 28, United States Code. A decision by the court under paragraph (2) of this subsection is reviewable only by the Supreme Court by writ of certiorari granted upon the petition of any party, and the decision shall be stayed during the pendency of the petition or review. A determination or finding described in paragraph (1) or (2) of this subsection does not limit the Secretary's authority to bring a subsequent action under this section against any tobacco product manufacturer or the applicability of subsection (d) with respect to any such subsequent action.

SEC. 1410. PUBLIC HEALTH EMERGENCY.

If the Secretary, in consultation with the Commissioner of Food and Drugs, the Surgeon General, the Director of the Center for Disease Control or the Director's delegate, and the Director of the Health and Human Services Office of Minority Health determines at any time that a tobacco product manufacturer's actions or inactions with respect to its compliance with the Act are of such a nature as to create a clear and present danger that the manufacturer will not attain the targets for underage smoking reduction, the Secretary may bring an action under section 1409 seeking the immediate suspension of the tobacco product manufacturer's annual limitation cap on civil judgments. If the court determines that the Secretary has proved by clear and convincing evidence that the subject manufacturer's actions or inactions are of such a nature that they present a clear and present danger that the manufacturer will not attain the targets for underage smoking reduction, the court may suspend the subject manufacturer's annual limitation cap on civil judgments.

SEC. 1411. TOBACCO CLAIMS BROUGHT AGAINST PARTICIPATING TOBACCO PRODUCT MANUFACTURERS.

SEC. 1412. PAYMENT OF TOBACCO CLAIM SETTLEMENTS AND JUDGMENTS.

(a) IN GENERAL.—Except as provided in this section, any judgment or settlement in any civil action to which this subtitle applies shall be subject to the process for payment of judgments and settlements set forth in this section. No participating tobacco product manufacturer shall be obligated to pay a judgment or settlement on a tobacco claim in any civil action to which this title applies except in accordance with this section. This section shall not apply to the portion, if any, of a judgment that imposes punitive damages based on any conduct that—

(1) occurs after the date of enactment of this Act; and

(2) is other than the manufacture, development, advertising, marketing, or sale of tobacco products in compliance with this Act and any agreement incident thereto.

(b) REGISTRATION WITH THE SECRETARY OF THE TREASURY.—

(1) The Secretary shall maintain a record of settlements, judgments, and payments in civil actions to which this title applies.

(2) Any party claiming entitlement to a monetary payment under a final judgment or final settlement on a tobacco claim shall register such claim with the Secretary by filing a true and correct copy of the final judgment or final settlement agreement with the Secretary and providing a copy of such filing to all other parties to the judgment or settlement.

(3) Any participating tobacco product manufacturer making a payment on any final judgment or final settlement to which this section applies shall certify such payment to the Secretary by filing a true and correct copy of the proof of payment and a statement of the remaining unpaid portion, if any, of such final judgment or final settlement with the Secretary and shall provide a copy of such filing to all other parties to the judgment or settlement.

(1) IN GENERAL.—The aggregate payments made by all participating tobacco product manufacturers in any calendar year may not exceed \$8,000,000,000.

(2) IMPLEMENTATION.—The Secretary shall initiate a rulemaking within 30 days after the date of enactment of this Act to establish a mechanism for implementing this subsection in such a way to ensure the fair and equitable payment of final judgments or final settlements on tobacco claims under this title. Amounts not payable because of the application of this subsection, shall be carried forward and paid in the next year, subject to the provisions of this subsection.

(3) INFLATION ADJUSTMENT.—

(A) IN GENERAL.—The amount in paragraph (1) shall be increased annually, beginning with the second calendar year beginning after the date of enactment of this Act, by

the greater of 3 percent or the annual increase in the CPI.

(B) CPI.—For purposes of subparagraph (A), the CPI for any calendar year is the average of the Consumer Price Index for all-urban consumers published by the Department of Labor.

(C) ROUNDING.—If any increase determined under subparagraph (A) is not a multiple of \$1,000, the increase shall be rounded to the nearest multiple of \$1,000.

(d) INJUNCTIVE RELIEF.—A participating tobacco product manufacturer may commence an action to enjoin any State court proceeding to enforce or execute any judgment or settlement where payment has not been authorized under this section. Such an action shall arise under the laws of the United States and may be commenced in the district court of the United States for the district in which the State court proceeding is pending.

(e) JOINT AND SEVERAL LIABILITY.—All participating tobacco product manufacturers shall be jointly and severally liable for, and shall enter into an agreement to apportion among them, any amounts payable under judgments and settlements governed by this section arising in whole or in part from conduct occurring prior to the date of enactment of this Act.

(f) BANKRUPTCY OF PARTICIPATING MANUFACTURER.—No participating tobacco product manufacturer shall cease operations without establishing a surviving entity against which a tobacco claim may be brought. Any obligation, interest, or debt of a participating tobacco product manufacturer arising under such liability apportionment agreement shall be given priority and shall not be rejected, avoided, discharged, or otherwise modified or diminished in a proceeding, under title 11, United States Code, or in any liquidation, reorganization, receivership, or other insolvency proceeding under State law. Mr. MCCAIN. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. ROBERTS). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MCCAIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN addressed the Chair.

The PRESIDING OFFICER. The distinguished Senator from Arizona is recognized.

Mr. MCCAIN. Mr. President, I have reached an understanding with the Senator from South Carolina and the Senator from Kentucky and the Senator from Massachusetts that the Senator from Kentucky would like to speak for half an hour. Senator FAIRCLOTH will be recognized for his first-degree amendment following the statement by the Senator from Kentucky.

Following that it is our understanding there will either be a second-degree amendment to the Faircloth amendment, or, if not, the Faircloth amendment will be disposed of, and following that it was our understanding that the other side of the aisle would have the next amendment, and go back and forth as is the tradition of this body, from one side to the other with amend-

ments. All amendments which are in the first degree will be open, obviously, to second-degree amendments. As the Faircloth amendment would be open to second-degree amendment, so will the next Democrat amendment be open to second-degree amendments.

I expect shortly the Senator from Kentucky to come to speak for approximately half an hour. The Senator from North Carolina is agreeable. I yield the floor.

Mr. KERRY addressed the Chair.

The PRESIDING OFFICER. The Senator from Massachusetts is recognized.

Mr. KERRY. Mr. President, if I could simply clarify that, also I think we would put it in the context of the unanimous consent request that first recognition be for the half hour to the Senator from Kentucky. But if I could clarify it, we would request that the second-degree amendments would be the right of the Democrat leader, and, likewise, the first-degree amendment placed on the Democrat side would be subject to a second-degree amendment by the Republican side. With that understanding, we ask unanimous consent the Senate accept that as the procedure for the first two amendments.

Mr. MCCAIN. Will the Senator yield? I am afraid at this time we just have to have an understanding because it has not been cleared on either side. I am confident that understanding would be honored. But I don't think we can lock it in as a unanimous consent agreement at this time. I would like to have the Senator from Kentucky, if it is agreeable to my friends from South Carolina and Massachusetts, to have the Senator from Kentucky recognized for his statement.

I yield the floor.

Mr. FORD addressed the Chair.

The PRESIDING OFFICER. The Senator from Kentucky is recognized.

Mr. FORD. Mr. President, we are going into probably what can be called a frustrating period. It is difficult for me to in 30 minutes say what is in my heart and on my mind as it relates to the tobacco legislation.

The PRESIDING OFFICER. If the Senator will suspend, we need order in the Senate please. If Senators and staff will take their audible conversations to the cloakroom, it would be appreciated. The Senator from Kentucky is recognized.

Mr. FORD. I thank the Chair for his courtesies. He is a gentleman and a scholar.

Mr. President, today the Senate begins what I hope is a productive debate on S. 1415, the National Tobacco Policy and Youth Smoking Reduction Act. We have come a long way in this debate. But in the 15 weeks left in this session we also have a long way to go.

Nothing surprises me anymore concerning tobacco legislation. Yesterday afternoon they asked me if I was surprised. I said no. I was angry. So, therefore, I wasn't surprised. Last year, I would not have believed the tobacco manufacturers, attorneys general, and public health groups would

have agreed on a comprehensive settlement. But on June 20, 1997, a national settlement was announced. I would not have believed that the Senate Commerce Committee could have reported a bill of this magnitude, and to do so in only one day of markup. But on April 1st, under the leadership of the Senator from Arizona, the Commerce Committee did just that by a vote of 19 to 1. Last Thursday, the Finance Committee modified the bill again in only one day.

But part of the explanation for the success of the chairman of the Commerce Committee was his ability to get Senators to wait to debate many issues. A lot of them were left to the Senate floor. This bill raises hundreds of billions of dollars. Estimates of the Commerce Committee product range from \$516 billion to almost \$1 trillion. This is a tremendous amount of money by any standard. The Finance Committee increased the taxes raised by this bill even further.

But not surprisingly, there is no shortage of ideas around here on what to do with the money. Some want to use it to offset tax cuts. Some want to expand existing spending programs. Some want to fund new spending programs. The one thing nearly all of these ideas have in common is that they have nothing to do with youth smoking. We have taken our eye off the problem of youth smoking. It is how can we raise more money and spend it on other programs.

Somehow, almost miraculously, the two committee chairmen were able to get members of their committee to defer the debate on how to spend all of this money. But that debate cannot be deferred any longer, Mr. President—not if the Senate is actually going to pass a bill. With the confusion that was expressed here yesterday, there are some who are beginning to wonder if a bill can be passed.

How all of this money is used goes to the very heart of the bill, and until we answer these fundamental questions, it is impossible to say with any certainty what kind of bill we have. Mr. President, there is an equally important issue that goes to the heart of the bill as well. It will define what this legislation is really all about. There is no more important issue to me personally than how we treat tobacco farmers and rural and tobacco-growing communities under this bill.

In many ways, tobacco farmers and tobacco-growing communities are the innocent victims in this whole debate. They have not been sued. They have not been accused of withholding documents or information. They have not been accused of manipulating the tobacco grown on their farms.

Mr. President, tobacco farmers and tobacco-growing communities are scared about what is going on in Washington, DC. They are bewildered at the almost daily barrage of hostile comments coming from various sources in this city. Most tobacco farmers are engaged in the same livelihood as their

fathers, their grandfathers, and in some cases their great grandfathers on the same farm and on the same ground.

Just like most Americans, tobacco farmers also don't want to see young people smoke. The poll in my State was something over 90 percent that opposed youth smoking. But they are having a hard time figuring out what some of the difficulties in Congress have to do with youth smoking. To most tobacco farmers much of the discussion in Congress sounds like an attempt to punish an industry with the youth smoking issue finishing a distant second. Tobacco farmers are being lumped in with tobacco manufacturers.

A recent Congressional Quarterly article about the plight of tobacco farmers quoted one farmer from King, NC, about the tobacco debate in Congress. He said, and I quote:

They are making us feel like drug dealers. That just burns me up. They put us in the tobacco industry when all we are doing is growing a legal crop.

Tobacco farmers have been on a roller coaster ride for several years. But that ride has been almost out of control for the last year. Among the greatest disappointments was the June 20th settlement agreement itself. That agreement, which threatens to throw the lives of tobacco farmers into turmoil, did not provide one thin dime for tobacco farmers. Zero. Zip.

The tobacco companies, attorneys general, and public health groups who were huddled in hotel rooms putting the deal together did not even invite tobacco farmers to the table. They would not let them in the door. It is tough to find words to express how insulting I found this.

The June 20th tobacco settlement included money for event sponsors who would lose tobacco sponsorship under the settlement. The settlement had money for teams or entries in such events. They had money for NASCAR races. They had money for rodeos. Somehow, they found \$750 million for these people. But there was nothing for tobacco farmers.

Mr. President, tobacco farmers in my state were at first shocked by news of the settlement. Then they became angry. I encouraged them not to get mad, but to get to work. I urged them to come up with a plan for themselves, to help tobacco farmers and tobacco growing communities deal with the settlement. And Mr. President, tobacco farmers did go to work. I pledged to them last summer that I would do everything in my power to represent their interests, and to see to it that a proposal drafted by tobacco farmers would be included in any legislation considered by Congress. I'm here today to keep my word.

Mr. President, there are 124,000 tobacco farm families producing the crop across 20 states in this country. That represents 6 percent of the farms in the United States. Most of these farms are in the southeast. On average, these tobacco farms are 126 acres—about one-

third the size of the average U.S. farm. So we're talking about small, family farm operations.

In Kentucky, tobacco is produced in 119 of 120 counties. Two-thirds of the farmers in my state produce tobacco. They average about 4 acres of tobacco. It is less than 3 percent of their cropland, yet it brings about 25 percent of their farm income. Most tobacco farmers in my state have family incomes of less than \$35,000—including non-farm income. Make no mistake, we're talking about middle to low-income families.

The tobacco settlement will have a significant negative impact on the family farms in my state, and this impact must be considered in any tobacco legislation.

Tobacco farmers started meeting last summer to deal with the impact of the settlement. They came up with three general principles for tobacco settlement legislation: (1) the legislation must preserve the federal tobacco program; (2) fair compensation should be provided to tobacco farmers should their ability to produce the crop be diminished; and (3) the impact on tobacco farming communities should be taken into account.

Mr. President, farms in my State and other States are valued with the quota. If the quota under the so-called Lugar-McConnell bill is implemented, from \$2 billion to \$4 billion in reduction of farmland value will occur in the fourth year because we lose the quota. What does that do? It has a rippling effect on local taxes, the tax base, the income for the cities and the counties, our school systems, to say nothing of the business community of these small communities.

After countless meetings among tobacco farming groups from states like Kentucky, North Carolina, South Carolina, Tennessee, Virginia, and Georgia, an outline of a tobacco farmer proposal came together. We worked hard to iron out details and put "meat on the bones."

I daresay, Mr. President, there are not many Senators who have sat on the porch of many grocery stores and talked to farmers. There are not many Senators in this body who have sat in the kitchen and had a cup of coffee with farm families, talking about what is about to happen to them and their future. I think I understand and feel what they say because I grew up on a farm and I raised tobacco until I was drafted into World War II.

Finally, last October, I introduced the Long-term Economic Assistance for Farmers Act, or one we refer to as the LEAF Act. It was cosponsored by 9 tobacco state Senators.

But our work didn't stop there. We continued to work through the winter and spring to improve the proposal. Finally, after nine months of work, a consensus proposal was developed to assist tobacco farmers and their communities.

We have provided direct payments to farmers in the event their ability to

produce declines. This is the very heart of the LEAF Act. It is designed to make farmers whole as the value of their assets decline.

We also made changes to make tobacco companies pay for any possible administrative provisions associated with the tobacco program. Mr. President, I have been working for 16 years to eliminate any opportunity for critics to claim that there is a tobacco "subsidy." In 1982, we started requiring tobacco farmers to pay for the tobacco loan program. I worked closely with Senator HELMS to achieve these changes. Senators THURMOND, HOLLINGS, and WARNER were all in the Senate at that time, and will remember these changes.

In 1986, we required tobacco companies to share in these costs. The tobacco loan program has operated at no net cost to taxpayers since that time. Still, there were criticisms. Salaries at USDA, crop insurance, and extension services all are partially attributable to tobacco. Mr. President, under the LEAF Act, all of these costs—and any other conceivable USDA cost associated with tobacco—will now be paid by tobacco companies. There will no longer be any basis, directly or indirectly, to allege that there is a tobacco subsidy. All possible taxpayer costs have been eliminated under the LEAF Act.

And you know something, Mr. President. Our tobacco farmers make an extra payment, a deficit reduction payment that is taken out of their check before they get it from the warehouse and it goes to the general fund. Last year, it was almost \$32 million. And not another farmer in this country—maybe the peanuts—makes a payment out of their check called a budget reduction payment. It was over \$32 million last year.

Mr. President, we have wanted to look beyond the tobacco farmer and the tobacco program. The LEAF Act attempts to take a broader view and deal with the entire impact on tobacco communities and the next generation.

Why is it so important? We had to have some financial underwriting of the 13 colonies—and that was tobacco through Virginia. They underwrote the debt of the colonies. It has been around a long time. "Mr. Jones came in to buy his spring planting and paid for it with some of the finest tobacco I have seen"—a quote from history. That was before we became colonies. The pages of Virginia history are splattered with tobacco juice. Just think about it. And they want to do away with it overnight. It cannot be done.

We've included economic development assistance. We've included grants for higher education for the children of tobacco farm families. And we have included assistance for displaced workers who have jobs in warehousing, processing, and manufacturing tobacco. We understand things are changing for tobacco and we want to prepare these communities.

Mr. President, I'm grateful to Senator MCCAIN for his leadership in including the LEAF Act as Title Ten of S.1415. It's an essential part of the overall picture. It must be included in any tobacco settlement legislation. The LEAF Act has broad support among tobacco farming groups. It's supported by the public health community. President Clinton, who visited Kentucky in April, announced that the LEAF Act satisfies his fifth principle for tobacco legislation of providing assistance to tobacco farmers and tobacco growing communities.

But let me provide fair warning, Mr. President. I will keep my pledge to my tobacco farmers. I will do everything in my power to oppose attempts to undermine the LEAF Act, or attack the federal tobacco program, or threaten the ability of tobacco farmers in my state to deal with the impact of the national tobacco settlement.

How many farmers out there have 98 percent of their product controlled by four companies? There is no leverage. The tobacco farmers have no leverage if we don't have a tobacco program. We have four companies that handle 98 percent of all the product, so if we don't have that, we are at their mercy.

I don't know how many farmers around here have heard of "farm buy." They just go directly to the farm and buy it from big farmers, and the small farmer is gone, has no leverage whatsoever. And, as we see, people attack the farm program. A proposal has been made which is nothing short of a thinly veiled bribe to offer larger tobacco farmers a promised lump-sum payment in exchange for eliminating the tobacco program. We found out yesterday it is not a lump sum payment, it is 3 years. And if you look at the bill that was introduced, that is before the Senate, 50 percent of all the money goes to the States and 40 percent of that money will be taken up by the McConnell-Lugar bill. That leaves 10 percent for everybody else. But in the bill it says only 16 percent of the money can go to the farmer.

Where are we on this—40 percent we would have to take in order to pay for it, yet the bill says only 16 percent? We are going to try to correct that if we can, because it is talking out of both sides of the mouth, and you can't do that around here—only for awhile.

This is a classic example of Washington telling people, "We are smarter than you." But it simply won't work. Tobacco farmers want to keep a supply management program. For 3 years, every 3 years, farmers vote on whether to keep the tobacco program. Earlier this year, farmers of flue-cured and burley tobacco, the two largest types of tobacco, voted overwhelmingly to keep the program. In a referendum conducted by USDA for both types of tobacco, almost 98 percent of tobacco farmers voted to keep the program. But now some in Congress want to tell farmers that, "We are smarter than you." That is what is wrong with this

place. That is why people don't like us. There are 98 percent of a group saying, "This is what we would like to have and what we would like to keep." And what do we say up here? "You don't know what you are talking about. This is what is good for you. This is what is good for you. So you don't know what you are talking about, and we are going to take care of it for you."

So, 98 percent of those down there who voted, it doesn't make any difference what you do. This is typical Washington, DC, arrogance. I have already discussed how my small, average tobacco farmer—there are 124,000 of those, but there are only 4 large manufacturers, controlling over 98 percent of the cigarette market. This disparity in bargaining power could not be greater. Unless tobacco farmers have some mechanism to bargain together jointly, they are helpless; they are helpless in dealing with the large tobacco manufacturers. The tobacco program provides that mechanism, and it must not be tampered with as a part of this legislation.

The focus of the bill should be, must be, youth smoking. I voted for smoke-free schools. I have voted, tried every way I can, to stop youth smoking. So I have no apologies to make, because I want to stop it. Over 90 percent of the people polled in my State want to stop it. But the focus of this bill must be on youth smoking, which is to focus on what will work to reduce youth smoking.

Youth smoking rates peaked in the 1970s. Starting in about 1979, youth smoking rates began to decline and continued to decline through the 1980s. Then, about 1991 or 1992, they started to climb again. No one knows exactly why. And guess what; youth alcohol use started to go up at the same time, binge drinking started to go up, marijuana use started to go back up. In fact, youth usage of marijuana has been increasing faster than cigarette smoking during the 1990s. So far, Congress has failed to look broadly at all these trends. Surely this is more than a coincidence. When we look at the causes of youth smoking increases, we should also look at drinking and illegal drug use.

The American people seem to have a better sense of that than Congress. They seem to realize that teenage behavioral changes are more complex than just tobacco, and the youth tobacco rates have been influenced by more than just slick advertising by the tobacco industry. In fact, one recent poll verified these opinions. A Tarrance Group/KRC research poll conducted earlier this month asked people why they thought youth smoking rates had been going up. Mr. President, 58 percent said the influence of peers and friends was the main reason; 18 percent said the parents' example was the main reason; 12 percent said Hollywood, television, and popular culture were the main reasons; and only 6 percent said the tobacco industry and advertising

were the main reasons—only 6 percent. So we have a lot more to learn about this issue, and I think, really, how little we do know should have an influence on how broad we make this legislation.

I have serious concerns about the size of the legislation. These concerns existed even before the Finance Committee took its action to increase the size of the bill. First, the bill as reported by the Commerce Committee appears to contain language never considered by the committee on April 1. I am specifically referring to the annual payments made by the industry. In the McCain committee amendment adopted by the committee, the annual payment starting in the sixth year was set at \$21 billion, plus an adjustment up for inflation and down for volume. However, in the reported bill, the sixth-year payment is the "adjusted applicable base amount," which it defined as the amount of the preceding year, which appears to be \$23.6 billion. I do not know where the language came from. I do not recall it ever being approved by the committee. However, it appears they add \$2.6 billion per year for 20 years to the cost of the bill. In other words, it appears that \$52 billion has been added to the cost of the bill. I hope we can clear up some of these things.

Mr. President, OMB proceeded to take a number of misleading steps to achieve competing objectives. They totally omitted the bill's revenue impact on prices in several respects. They ignored any costs from future legislation and attorneys' fees. They ignored additional regulatory costs of complying with the bill. They ignored price increases resulting from higher sales taxes, State excise taxes, wholesale and retail margin increases, manufacturers' future price increases, and they ignored the new licensing fee in title XI.

But perhaps the most offensive manipulation by OMB involved their conflicting projected volume declines. OMB projected youth smoking would decline by 60 percent when calculating the look-back penalties, but they projected youth smoking to decline by only 29 percent when calculating the price-per-pack increase.

As we say down in Kentucky, there is something about that that ain't right. But you need a small consumption decline to make the price-per-pack increase smaller. OMB just had it both ways. They changed the projections to say the bill costs \$516 billion and raises the price by \$1.10.

Mr. President, I have Wall Street Journal analyses, I have all these things I could read here this morning. I don't know how much time I have left. It is probably getting close to the time.

The PRESIDING OFFICER. The Senator has approximately 4 minutes remaining.

Mr. FORD. Good. I thank the Chair.

Let me also outline several other concerns I have with S. 1415 which I

hope can be corrected or improved during the debate.

First, we have continuing concerns about the potential for a black market. We say we can stop that, but Mexico sells cigarettes that I smoke for 90 cents to \$1 a pack at retail. Indian reservations are selling cigarettes at a retail of around \$1.20. If these new estimates are correct, we are creating a disparity in price of up to \$4 a pack. This is well above the level experts say will cause black market activity. In fact, we already have a considerable amount of smuggling in this country because of the large State excise tax increases in recent years. A disparity in price of only 50 to 60 cents per pack has already proven to be enough to create black market incentives, and they are going on right now within our own country. Canada fussed at us, you know, when they raised their prices. Now we have two borders.

We raised prices that come from Canada and from Mexico, the Caribbean and wherever. These fellows do pretty good out there. They are called cartels. We have had a hard time stopping drugs from coming in. What are we going to do when cigarettes are added to that? When you go down to the skid, "You want some cheap cigarettes or I have another menu on the other side over here starting with marijuana." It is interesting how we are going to provide for that and are playing into the hands of those people.

The international provisions of title XI sets dangerous precedents, Mr. President. If it were any other product, this would not even be tolerated. I hope title XI could be eliminated or substantially improved.

I have concerns that the bill gives the FDA excessive authority to do what I suspect they wanted to do for the last several years—ban the product. It is my hope that we can place reasonable limits on the unbridled authority.

Several serious constitutional concerns have been identified, particularly since the tobacco manufacturers are unlikely to sign on to this legislation. Late last month, four State attorneys general sent a letter to Senator HATCH outlining these concerns. Constitutional concerns throw into jeopardy the advertising and marketing restrictions, the upfront payment, the look-back provisions, the document disclosure section, and the so-called corporate culture language.

These are legitimate concerns. Each one will have a suit filed. It will be completed. They will file another suit. It will be completed, and we will be in court under these provisions for a long, long time. I hope these concerns can be addressed as well.

Mr. President, a recent Wall Street Journal poll showed that Americans have serious doubt about the motives behind this debate. By a nearly 2-to-1 margin, a majority of the people thought the current debate was more about raising taxes to pay for new pro-

grams than it was about reducing youth smoking. We have a chance to change some views with the way this debate on the bill is conducted and the final product.

I have two overriding tests for the final product produced on this floor: No. 1, does the bill adequately compensate and protect farmers and farming communities? And No. 2, is the bill more about reducing youth smoking or punishing an industry?

I look forward to the debate and the opportunity to find the answers to many of these problems. I say to the Chair and to my colleagues in the Senate that I am going to do whatever I can to be sure that the farming community is protected in this bill. With the procedure that occurred late yesterday, to undo all of the work for 10 long months that many of us have put into this legislation, to undo it in a motion is a serious thing. I think it rubbed some of us a little bit the wrong way, as we say. There will be some scorched-Earth approach as we develop this. If we can work out something, I would love to do it. But I will not work out anything that does not compensate and take care of the farmers who I am here to represent, and I intend to represent them as long as I can stand and as long as people will listen to me. I yield the floor.

Mr. GRAMM addressed the Chair.

The PRESIDING OFFICER. The Senator from Texas is recognized.

Mr. KERRY. Mr. President, if I can just inquire, it was my understanding—if I can just inquire—

Mr. GRAMM. I yield without losing my right to the floor, Mr. President.

Mr. KERRY. I understand. I ask the Senator from Texas how long he will be speaking, because I understood the Senator from North Carolina was going to offer an amendment.

Mr. GRAMM. Mr. President, I want to make an opening statement on the bill. I want to cover quite a few areas. I always try to be brief but it is going to take me a reasonable amount of time to complete my statement. What I would like to suggest is that I go ahead and make my opening statement—and I will try to do it as briefly as I can—and then I will yield the floor and allow the normal process to continue.

Mr. KERRY. I thank the Senator.

The PRESIDING OFFICER (Mr. BROWNBACK). The Senator is recognized.

Mr. GRAMM. Mr. President, I begin by congratulating our dear colleague, Senator MCCAIN, for the leadership he has provided on this bill. Senator MCCAIN was asked to report a bill out of the Commerce Committee. He didn't get an opportunity to choose who was on the committee. He didn't get the opportunity to write the bill as he would have chosen to write it. But his mission, as assigned him by the majority leader, was to report a bill from the Commerce Committee.

Serving as a member of the Finance Committee which got sequential referral of this bill and, in the process,

made the bill worse, I begin by saying that no matter where I end up on this bill, I congratulate Senator MCCAIN for the work he has done in bringing the best bill he could, given the committee he had to work with and the many interests competing against each other on this bill.

While we are not on the same side today, I hope that at the end of the process, after conference, perhaps we will be on the same side, but I want to make it clear that, in my opinion, it is unfortunate that when we debate a big issue—and this is a very big issue—often we stand on the floor of the Senate and talk about things that not only don't mean very much to the American public, but often don't mean very much to us.

Today we are debating a very big issue: hundreds of billions of dollars of taxes, hundreds of billions of dollars of spending, a high and noble purpose trying to prevent children from smoking and, in the process, affecting their health. So this is a big issue.

I simply lament that so much of the debate is tainted by trying to impugn the motives of people who are engaged in the debate. We have all seen ads run in the paper that refer to this as the McCain bill which is aimed at raising taxes and increasing spending. The bill does raise taxes, it does increase spending, but that is not the intent of the Senator from Arizona. There is no doubt in my mind that he has brought us the best bill that his committee was capable of writing.

Let me also say that anyone who opposes the bill knows that they are immediately going to be tarred as being the spokesman for the tobacco industry, which in this debate has become the embodiment of all evil on this Earth. I just lament, going into the debate, that we cannot simply debate the issues without getting into impugning the motives of the people who are involved in the debate.

While it may sound trite to many people who might watch this debate, let me say that I believe that for all practical purposes, everyone involved in this debate in the Senate is trying to do what they believe is right, and they are neither the servant, in their own minds, at least, of those who want a massive increase in taxes and spending, nor are they the servant of the tobacco industry.

It is a shame that when you debate a really important issue, that rather than being able to simply focus on the substance of the issue, you end up being pigeonholed, with the debate focused around whose interest you supposedly speak for.

Obviously, the first question we have to ask on this bill is, What is the primary effect of the bill? This bill, obviously, raises taxes by hundreds of billions of dollars. Depending on the estimates you look at—they vary greatly—there is as much as a \$200 billion difference in the estimates as to how much money this bill raises. But once

you get to \$500 or \$600 billion, arguing about another \$100 or \$200 billion does not really add much to the debate.

The bottom line is this bill is a huge tax bill by any definition of "tax bill." It is also a massive spending bill. In fact, we will have never passed a bill—let me state it as my opinion. In trying to look back and attempt to fit this bill into the broad range of legislation dealt with by Congress, it is hard for me to find an initiative that is this big in terms of its fiscal impact since Lyndon Johnson was President in the first year after the Kennedy assassination. So this is a big bill—big taxes, big spending, and a big and noble objective.

The first point I would like to comment on is, Is this about tax and spend, or is this about children smoking? We have ads in the newspapers every day arguing one point or another. We have ads running in many of the States urging our colleagues to not band together with the cigarette companies against our children. We have ads in the paper urging other colleagues to not participate in tax or spend. How can you ferret out what the truth is? Well, obviously, it is a very difficult task. But let me tell you what I think are some of the hallmarks we ought to look at in trying to ferret out the truth.

Let me try first to define the question more precisely. Are we raising tobacco taxes to prevent children from smoking or to fund new spending programs? It seems to me that is a fair question to begin with in this debate. And let me tell you what I think would be some of the hallmarks you would find if the tax increase were to deter smoking rather than to fund programs and the hallmarks you would find if it had instead become a piggy bank for massive new spending.

If the objective of the tax increase was simply to discourage smoking, then I think what we would find would be an effort to give the money back in tax cuts because the objective would be to affect the price of cigarettes, not—Mr. President, could we have order?

The PRESIDING OFFICER. The Senator is correct. If we could take audible conversations from the floor to the cloakroom.

Mr. FORD. I am glad it is audible.

The PRESIDING OFFICER. If we could take the less audible conversations to the cloakroom, it would be appreciated.

Mr. GRAMM. I thank the Chair.

The PRESIDING OFFICER. The distinguished Senator from Texas is recognized.

Mr. GRAMM. Mr. President, I think if you were looking at a rational policy to deter the consumption of an item by raising its price, but your objective was not to collect a huge amount of money to spend and your objective was solely to get people to reduce their consumption of that product, it seems to me that one of the hallmarks of such a program, one of the outward and visible signs of that objective, would be the imposition of an excise tax to raise

the price of that product. But you would try to offset the bulk of that with a tax cut that was more or less aimed at giving tax cuts to people in the same income groups as those who would be paying the higher taxes so that you would not be lowering their real income.

But in this case, I simply note, Mr. President, in looking at this bill we do not see that happening. In this bill, we are seeing hundreds of billions of dollars of new taxes, but we are seeing none of this money given back to the people who are paying these taxes. So I would think that is evidence that raising revenues to fund new spending plays a significant role in this bill and in the final outcome of the bill, whether or not that is the stated objective of the legislation.

I think a second hallmark of a bill that has turned into a giant piggy bank would be the kind of spending which occurs—have you ever noticed when you are spending your own money you tend to spend it pretty prudently, but when suddenly you have an opportunity, a financial bonanza to spend someone else's money, the spending becomes very, very careless?

Well, I would pose as a question, in trying to determine if this is about children or about money—what evidence is there in this bill of careless spending? I want to just present two pieces of evidence. The first has to do with payments to attorneys. I know many Members of this body are attorneys, and I am not going to get into all this business about "some of my best friends are attorneys," and I am not trying to bash attorneys, but I am trying to make a point about spending at a level that could only suggest this bill has become a piggy bank for massive new spending.

Let me begin by looking at the amount of money going to attorneys out of this bill.

By almost anybody's measure, this bill will, if adopted, set out a procedure where attorneys who have been involved in these cases will get a payment of at least \$4 billion. Now, nobody knows what \$1 billion is. Maybe Ross Perot does, but few others know what \$1 billion is, so let me try to convert it down to English.

In the lawsuits which have been settled and where billings have been submitted lawyers are said to be seeking \$5.7 billion.

Now, let me try to convert that into something which people can understand. If the lawyers who have worked on these cases were paid \$1,000 an hour for an estimated total of 200,000 hours they have spent on the lawsuits which have occurred to date, they would be owed \$200 million, but they are reported to be seeking \$5.7 billion or close to an average of \$30,000 an hour and the effective rate of compensation in this bill could be—let me swallow before I say the number—\$100,000 an hour. Now, I ask my colleagues, what kind of legislation would we ever pass,

in representing the 260 million people who live in this country, that would pay anybody \$100,000 an hour to do anything? The plain answer, we all know, is that we would never, ever, pass an appropriations bill that compensated somebody at \$100,000 an hour. In fact, we would be very much challenged and probably criticized—and probably justly—if we were compensating people \$1,000 an hour.

Now, what does it suggest about this bill? Let me make it clear, we are going to have a debate about lawyers' fees, and I will have a lot to say when we have the debate, but my purpose here is not to mock the fact that we could be paying \$100,000 an hour to lawyers under this bill. My point is a far more important point, and that is, how could you have a bill that paid \$100,000 an hour? The only way you could have a bill that paid \$100,000 an hour is if you had put together a bill that had massive amounts of money that are not viewed as money that has come from real taxpayers and, therefore, you have sort of a "slam it up against the wall" kind of approach to distribute the money. Only in a bill where the objective was to raise revenue and spend it without any regard for the priorities of spending it could you possibly end up with a bill that would compensate attorneys at \$100,000 an hour—especially a bill that is sanctioned by the Federal Government and especially a bill where the money is coming not from tobacco companies but from people who are in families, 73 percent of them, that make less than \$50,000.

A look at the lawyer fees in this bill is an important piece of evidence, it seems to me, that needs to be looked at in this debate as to whether this is about smoking or whether it is about money.

The next issue is equally controversial, and I am not going to debate it here. I will probably get into the debate when we have amendments about compensation to tobacco growers, but I want to make the same point about the tobacco settlement with farmers that I made about the lawyers. Let me give a little short course on the history of American tobacco policy. Again, my purpose is not to criticize the policy of the settlement but to make the point about how careless we have been in spending the hundreds of billions of dollars that are entailed in this bill.

The tobacco program started in 1938 as a way of trying to raise the price of tobacco. It was a program instituted by the Government to benefit the tobacco grower, and it was a program where we provided a production quota where the people who were growing tobacco in 1938 received quota based on the number of acres they were growing. The idea was to limit production, to keep people out of the tobacco-growing industry, and to make the price of tobacco products higher than they would be in a competitive market. Not singling out tobacco here, we did it for virtually every other crop, but that is

how the program started. The program was an effort to use Government power to benefit tobacco farmers, something not uncommon. We use Government power all the time to promote the interests of many groups, generally at the expense of the consumer.

Now, what has happened over time is that more and more of the people who own these quotas have moved off to the big cities, and when we are talking about compensating tobacco farmers, you get the idea that we are talking about compensating people who are actually growing tobacco. The great bulk of every proposal that has been made—from the Ford proposal to the Lugar proposal, to the Kennedy proposal, to the Robb proposal—a lot of proposals, but virtually all of these proposals are focused fairly narrowly on compensating people who own the quotas, not the people who grow the tobacco.

Now, why is this important? It is important because 63 percent of the quotas that the Government gave away in the first place are owned by people who don't grow tobacco. So when we are going to compensate under this program in the name of helping tobacco farmers, the truth is that the great bulk of the money is going to people who don't grow tobacco but they have often become very wealthy people by owning a benefit which the Government gave them, and they then leased that quota to grow tobacco to farmers who actually get out and farm tobacco, which is a tough, backbreaking business.

Now, getting to my point. What do you think would be a reasonable compensation for us to give to the holders of these quotas to, in essence, end the program? Let me remind my colleagues that unless the bill has been changed and it has been rewritten—and I am eager to hear what the new provisions are—but unless they have been changed, we are not talking about taking the land when we pay people. We are not talking about barring them from growing tobacco. We are simply compensating them for an effect that we believe this bill will have on demand. And while we throw around numbers, the plain truth is, nobody knows what effect the bill will have on the demand for tobacco.

We are in the midst of a program where we are phasing out Government price supports in the broad base of American agriculture through a bill referred to as Freedom to Farm. Under this bill, we set up a 7-year program where we provide transition payments to farmers so that at the end of the 7 years they have the freedom to farm, the freedom to succeed, and the freedom to fail. Let me say, it is one of the most enlightened policies we have instituted.

Here is my point: We have evidence for seven crops as to how much we have paid people who grow those crops in return for phasing out the Government program. Let me just run through some of these costs. For wheat grow-

ers, we are paying them \$125 an acre. That is to phase out the wheat program. We pay it over 7 years, \$125 an acre. For corn, we pay \$200 an acre, paid out over 7 years. For grain sorghum, we pay \$131 an acre. For barley, we pay \$70 an acre. For oats, we are paying \$8.38 an acre. For upland cotton, we are paying \$245.99 an acre. For rice, we are paying \$714.09 an acre.

Now, how much do you think we are paying per acre in the least costly tobacco bill which has been proposed? Let me give you a hint. It is about \$18,000 an acre. Let me repeat that number. If we paid tobacco quota owners—not tobacco farmers; we are paying the people that own the Government license; relatively little of the money is going to the farmer—if we paid them the total of the amount per acre that we paid all of the other seven crops combined—in other words, we paid them every penny we pay corn, wheat, grain sorghum, barley, oats, upland cotton, and rice combined—we would pay them \$1,495.78 per acre. If we paid them the combined amount for all 7 crops, it would be that amount, but yet we are paying almost 18 times the amount we paid every other crop combined to buy out tobacco producers.

And the final incredible paradox is that we have a market for tobacco quotas. In other words, I could go out this afternoon—I do not know if I could do it this afternoon because this bill is on the floor and I guess people think it might pass. But last week, I could have bought a quota to grow tobacco for \$3,784. I could have bought a quota to grow tobacco for \$3,784. That was the average cost of a quota, at least the only number I could find last week. If people have other numbers, I would be happy to be educated.

But we are getting ready to pay somebody who went out on Friday and bought that quota five times what they paid for the quota, and then we are still going to let them grow tobacco, and we are still going to let them own the land.

I am not here today to criticize the tobacco program. I am here to raise the question, Is this bill about smoking or is it about money?

When we are paying lawyers \$100,000 an hour and when we are paying tobacco growers, or at least the people who own the right to grow tobacco under a Federal licensing program, 18 times what we paid all 7 major crops combined to phase out their program, does it not suggest that this bill is about money, and not only the use of money, the vulgar use of money? How can we justify these kind of numbers?

Let me make it clear. I have many colleagues from tobacco-producing States. I don't have tobacco in my State. It is easy to pile on some State when you don't have the product grown in your State. I experienced that with sheep and goat raisers. I am willing to support a buy out of tobacco growers and the people who hold quotas. But I cannot justify the kind of figures we

are talking about—18 times the combined buy out of all 7 other basic agricultural products when added together.

What does all of this suggest? It suggests that this bill is not only about money and quantities of money, the likes of which we have seldom seen here, but it is also about the perilous use of this money where we are taking money and collecting taxes and we are distributing it to various interest groups and the lack of care with which we are distributing it is clearly indicted by the amounts of money that we are giving people.

We are going to get a chance to vote on both of these issues. I do not want to enter into a debate about them here. I will debate both of them when we get to them.

But the point I want to make is this: This is evidence that this bill is about money and not about teenage smoking. It is clear evidence, it seems to me, that in distributing this money the totals are so big that there has not been great care taken with the distribution. Please recognize that if working people got to keep the money, they would spend it wisely. Even if it were in the appropriations process in Congress, much of it might be thrown away but some of it might be used for some good or objective effort.

I simply say this bill stands indicted in how careless we have spent hundreds of billions of dollars in dividing up this windfall, this winning of the lottery, by the designation of this industry as the enemy of the people and thereby creating a right and a public demand that we seize this money.

The next issue I want to talk about is the tax itself. On this issue, I think we have one of the greatest gulfs between the rhetoric of the bill and the reality of the bill that exists. The rhetoric of the bill is that we are taxing these tobacco companies. The rhetoric of the bill is these tobacco companies have conspired to deceive; these tobacco companies have conspired to induce children to smoke. I don't dispute that. I think it is true. I think there is increasing evidence that is true. But the rhetoric is that somehow we are penalizing the tobacco companies and the tobacco industry with this massive bone-crushing tax of hundreds of billions of dollars. That is the rhetoric.

But what is the cold, hard reality? The cold, hard reality is that virtually none of these taxes are being paid for by tobacco companies, and, in fact, we have an incredible provision in the committee bill to make it a crime if the tobacco company absorbs any of the tax and does not pass it through to the consumer. So not only does the tobacco company not pay these hundreds of billions of dollars of taxes, but we have in this bill a provision—almost unimaginable—that makes it a crime for the companies not to force the consumer to pay the tax. So not only do we not tax the tobacco companies but we protect them in case any of them would say, "Well, look, I do not want

to pass the whole thing through but I would like more of the market."

Who pays this tax? I would like to suggest that my colleagues ought to go out in Washington, DC, and walk the streets and try to take a look at who is smoking. What they are going to find when they do that is that basically smoking in America, while there are exceptions to every rule, smoking today is basically a blue-collar phenomenon. When you look at the distribution of the tax burden, you see it as clearly as anything that is visible. The tax that this bill imposes, hundreds of billions of dollars of taxes, will be borne overwhelmingly by blue-collar workers.

According to the Joint Tax Committee, 74 percent of the taxes that will be collected under this bill will be paid for by Americans who are in families who have incomes of less than \$50,000 a year.

So the rhetoric is we are taxing these big, evil, conspiring tobacco companies. But the cold reality is that not only are we not taxing these tobacco companies, but we have provisions in the bill that protect the tobacco companies from anyone not passing the tax through to the consumer.

So every penny, for all practical purposes, of hundreds of billions of dollars we are going to collect is coming from real honest to goodness people who are buying tobacco products, the very victims of the conspiracy that this bill is said to rectify. The very victims of the conspiracy that this bill is aimed at rectifying are the people who will pay these taxes. And 74 percent of them are members of families who earn less than \$50,000 a year.

I don't have any intention, with all due respect, of hurrying up my statement. I intend to cover each of these issues, and I am not going to delay them. I am certainly not filibustering.

Mr. MCCAIN. Will the Senator from Texas yield for a comment?

Mr. GRAMM. I would be happy to yield without losing my right to the floor.

Mr. MCCAIN. The Senator from Texas was not on the floor but we did have an understanding that we would move forward with an amendment. I ask the Senator not to deprive us of any information or knowledge that we need from him. But we did have an understanding before the Senator came to the floor. I could have blocked the Senator from taking the floor. But I didn't choose to.

So I would appreciate it, if at least at some point we could move forward. I thank my dear friend from Texas.

Mr. GRAMM. Let me say, I understand the Senator from Arizona wanting to move the bill forward. There are some key points that need, I believe, to be made before we start voting on amendments. I am not going to be in any way dilatory. I have several other issues I want to cover. But I will move with all due speed in covering them.

But I do want to say that we have a bill that has come to the floor without

objection. We are debating it and I want to make it clear that we are going to debate this bill. We are going to have a full airing of views. It is imperative that we all understand what is in the bill. I intend to object to the unanimous consent requests that would limit my right or the right of other Senators. This is the Senate.

I remind my colleagues that when Jefferson came back from France where he had been Minister to France when the Constitution was written and he asked Washington what the Senate was for—and many of you know the story—Washington, being a southerner, often cooled his tea in a saucer before he drank it. Jefferson asked him what the Senate was for. If you had the House, what did you need the Senate for? And Washington explained to Jefferson that in moments of heated public passion, the heat of public opinion would overwhelm the House but the Senate would be like this saucer, as he poured his tea into his saucer to cool, and it will cool passions before it acts.

So I do not intend to delay, but I do not intend to be hurried either, nor do I intend to have my rights limited even by my dearest of all friends, Senator MCCAIN.

Now, 74 percent of the taxes that are collected under this bill are collected from Americans who are in families that have incomes of less than \$50,000 a year. Far from taxing the evil tobacco companies, the cold reality is, as much as we would like it to be otherwise, as much as we would like to convince ourselves and others that it is otherwise, this is a massive, regressive, crushing tax on blue-collar America.

Let me give you a figure which is astounding to me, and if it weren't from the Joint Tax Committee I would question its validity. But listen to this number. Of Americans who make \$10,000 a year or less—very-low-income Americans—if we pass this bill, we will raise the percentage of their income coming to the Federal Government by 41.2 percent.

Let me give you that number again. For people in America who earn \$10,000 or less, so substantial is the impact of this cigarette tax on the amount of their income coming to the Federal Government that the percentage of their income going in Federal taxes will increase by 41.2 percent from this cigarette tax increase alone.

Who is paying this tax? Americans who make less than \$10,000 a year are seeing their Federal taxes rise by 40 percent as a result of this bill. Those who make between \$10,000 and \$20,000 will see their Federal taxes rise by 9.8 percent. Those who make between \$20,000 and \$30,000 will see their Federal taxes rise by 4.4 percent. Needless to say, by the time you get down to us, Members of the Senate, we see our Federal taxes—relatively few of us smoke, but on average people who make more than \$100,000 will see their Federal taxes rise by only .1 percent.

So I think we are going to have to come to grips with one clear fact about

taxes: We are not taxing tobacco companies. We are not taxing evildoers. We are not taxing conspirers. We are taxing victims.

I hate pulling my mama into the debate, but it is such a beautiful example, I can't resist. My mother is 85 years old. She smokes Marlboros. I have spent my 55 years of life trying to get her to quit smoking, and I have failed. And now the doctors tell me that one part of her that is still in relatively good shape is her lungs. So I have quit trying to get my mother to stop smoking. I still believe it would be good for her not to smoke, but I can't get her to stop.

But here is the point. The whole logic of this bill is saying to Florence Gramm, "Florence, you have been exploited. Joe Camel has made you smoke for 65 years. The tobacco companies, through their advertising, have forced you to smoke. And in doing so, they have affected your health. They have perpetrated a terrible evil, and we are going to do something about it."

So Florence asks, "Well, what are you going to do about it?" Well, what are we going to do about it? We are going to make my 85-year-old mother pay higher taxes. So we tell her she is exploited. We are outraged about it. The President is outraged about it. We are outraged about it. So what do we do to her to show her how outraged we are? We raise her taxes.

Now, please forgive me if I seem to be struck by the incredible paradox that under this bill the victim is penalized and the perpetrator of the fraud is not only not penalized, not taxed, but protected by an incredible provision that forces those who might not pass through all of the tax to my mother to do so.

One final point before I leave taxes in my effort to get on and finish my opening comment goes back to this evidence. What is the evidence that this is about getting people to quit smoking, and what is the evidence that this is about money? Well, let me give you a clear-cut piece of evidence. If the objective of the bill was to get people to quit smoking, you would put the tax on full tilt on day 1. When an amendment was offered in the Finance Committee to raise the tax to \$1.50 a pack, the proponent of the amendment offered it phased in over a 10-year period so as to prevent a consumer backlash.

What is a consumer backlash? Why would you phase a tax in if the objective is to get people to respond to the tax? Well, we all know. Many of us have served on the Finance Committee. All of us have been involved in debates that entailed tax increases. The reason you phase a tax in is to try to hide it from the taxpayer and to try to reduce the backlash to it or the economic or political response to it, and the way you do it is, you start it out small and then each year you make it bigger, hoping nobody notices. But isn't it an incredible paradox that a tax which is supposed to be a tax to shock people

into stopping smoking is phased in so as to minimize the "consumer backlash" to it? If the purpose of the tax was to get people to stop smoking, you would hit people with a tax at its highest level on day 1. Consumer backlash would be what you want. But if the purpose was to raise money, then you would phase in the tax.

I submit that the proposal before us, the amendment to raise the tax to \$1.50, and every proposal save the one in Finance where I raised this point, each of these proposals phases in the tax, and you would never phase in the tax if the purpose of the tax was to get people to respond to it and stop smoking. You would phase in the tax only if you wanted to minimize their response to it and their awareness of it. I think that is additional evidence that the objective of this bill, or at least the likely result of it, is to raise hundreds of billions of dollars and spend the money. The bill is not structured in a way one would believe it would be if its sole objective was to get people to quit smoking.

I have three final issues I want to talk about. The first issue is one that weighs heavily on my mind. Maybe I am the only Member of the Senate who is concerned about this, but it is an issue that I am greatly concerned about. We are setting a precedent for America's future with this bill. There are many elements of the bill that I am sympathetic to, but there is one element I am very frightened about. Here is that element. It is stated in a clear form—maybe overstated, but I don't think so. What has happened in this bill is we have picked, in this case an industry, and it has been so vilified that it is popular to tax the product it produces, even though the tax is on blue collar workers and not the tobacco companies. And the logic of this is, because of the negative impact on people's health of consuming this product, that tobacco, nicotine, is addictive, and the people who sell the product know that and market it in such a way as to get people to consume the product. So as a result, we are getting ready to impose one of history's larger tax increases on the consumers of this product.

This is a view which basically says my mother is not to blame for having smoked for 65 years, it is not her fault; she was induced to smoke by an industry which conspired to attract her as a customer, and to hold her as a customer. Now, if we take that view in this bill, there is no way you can look at this bill without reaching the conclusion that we have decided my mother and the millions of other people who smoke are victims and they have, against their will, made a decision—if we divorce them from responsibility for their own decisions, where does this end? Does anybody here who has ever known an alcoholic not believe that spirits, whiskey, alcohol is addictive? Is there anyone listening to this debate anywhere, who has ever known some-

one who was an alcoholic, who doesn't believe you can get addicted to whiskey?

Next month, are we going to have this same—or next year—are we going to have the same process with regard to hard whiskey and beer and wine? Are we going to discover somewhere in the deep files of the liquor companies 10 years from now that they targeted their ads to today's 15 year olds?

Are we going to discover that the beer brewers have figured out what ads to run to get us to go to the refrigerator and get a cool one? And are we going to start this process next year on alcohol? I don't see how it can be otherwise. Does it end there?

When I go to McDonald's, attracted, as our President is attracted, against my will—I would like to be as thin as the Senator from South Carolina. But McDonald's and every other fast food producer in America conspire against me. They fill up the television with ads that attract me to go and to eat. They do studies to try to determine my weakness. Am I not victimized by McDonald's and Burger King? And, if I am victimized, are they not liable? If I am not responsible, are they not responsible?

Here is my point. I hope my colleagues will not take it as a trivial point because I don't mean it as a trivial point. Where does this end? If we don't hold people accountable for decisions they make, does it end with tobacco? Does it end with alcohol? Does it end with fattening foods? Where does this debate end?

Let me submit the plain truth is everybody who has thought for a millisecond about this issue has thought about this and nobody knows the answer to it. And I submit this is a profound question we need to pray over for an extended period of time before we set a precedent which says people are not responsible for the decisions they make and, therefore, somebody else is responsible, and they can be made liable.

Two final points: Nobody is looking at black markets. We have a bunch of people who are talking as if they are economists and they know what they are talking about. You know, we have all seen—many have repeated the study—if you raise the price of tobacco by 10 percent, you are going to have a 6-percent decline in consumption. If you think about that, everybody knows that is nonsense. So you could, by doubling the price of cigarettes, eliminate smoking in America? Does anybody really believe that? But yet ads run every day with that figure in it. People repeat it. Somebody made it up. It makes no sense whatsoever.

Europe has imposed very, very high taxes on tobacco. Has it stopped teenage smoking? No. Has it stopped adult smoking? No. Will raising the price of cigarettes—other things being the same—have some marginal impact on tobacco use? Yes. But can we say for

every 10 percent we raise prices, consumption will decline by 6 percent? Absolutely not. Any good freshman student in economics would laugh at such an assertion.

But even more laughable is the arrogance of government. Let me just give you some facts. Great Britain has imposed a very high price on tobacco. But have they been able to enforce the tax? The answer is no. Fifty percent of the British market for cigarettes today, according to an article by Bruce Bartlett in the *Wall Street Journal*, and a fairly comprehensive study he has done at the National Center for Policy Analysis and the De Tocqueville Institute—what he has found is that countries that have imposed high tobacco taxes have seen an explosion in black market sales of cigarettes and, as a result, the cigarettes sell at substantially below the price with the tax, and in some cases they sell at less than they sold for before the new tax.

When Britain has 50 percent of its cigarettes that are bought on the black market and smuggled into the country, or are produced illegally there, when Italy has 20 percent, when Spain has 23 percent, when even States in our country at the low level we now tax relative to the levels we are talking about here have experienced that, when there is more money in smuggling cigarettes in Great Britain than in smuggling 20 pounds of marijuana—should not we at least look and make some objective judgment as to whether or not we are taking an action which will fill our country up with illegal cigarettes, and so we will have some hood on the corner who is saying to our children: Look, I can sell you these cigarettes, these brands at this price; I can sell you marijuana for this price; a little crack cocaine for this price. But you know the response you get when you raise this issue? The response is that people who wouldn't know economics from ethnic studies say: There is nothing to this.

There is everything to this. It is a cold reality that in Europe black markets in cigarettes are now a way of life. I think in setting out a policy that is aimed at, at least nominally, getting our children not to smoke, we need some hard evidence about black markets. If we have black markets in Canada, if we have black markets all over Europe, if we have black markets in Asia, what is the reason to believe that we are not going to have black markets in the United States of America? I believe this is an issue which needs to be dealt with.

A final point and I will be through with my opening statement. I am loathe to do this because I know when I do it my telephones are going to ring off the wall, so people who work for me please forgive me. But you get the idea in reading the newspaper in Washington, DC and in working in the Senate that this issue is the all-consuming issue in America; that this is an issue the whole world, at least our part of it,

our constituencies, are focused on and nothing else. One of the things I try to do is to find out what exists within the beltway and what exists in America, and try to determine what the public really thinks and what is it they want us to do.

So last month I got my office to keep pretty meticulous records about the amount of information we were getting in our office about this bill and the tobacco issue. And, as of that period, ads had been run in the *Dallas Morning News* and the *Houston Chronicle*—those are the two biggest papers in my State. Some television ads, I believe, had been run. So the question was, over a 30-day period, how many of the 19 million people in my State thought this was a big enough issue to pick up the telephone and call my office?

Let me give you the results. We had about 1,400 people call our Washington office and say, "Don't raise taxes on cigarettes." Every one of them was generated, as best we could tell—everyone called in on a WATTS number and they had been triggered to do so.

Three hundred people called in and said, "Raise taxes on cigarettes; save our children." But as best we can determine, almost every one of them was triggered with the use of a WATS line and by an organized group.

Here is the most revealing and important thing. Last month, in my seven offices in the State, so far as I am aware, virtually no one called on this issue. It is the No. 1 issue in Washington, DC. Ads are being run here, there, and everywhere. And in 30 days, virtually nobody who actually had to pick up their phone and call, as they normally would call an office—not triggered by a special interest group—called my office on this issue.

Why is that relevant? Why it is relevant is, I think the Senate, as the greatest deliberative body in the world, needs to take a step back and not stop considering the bill—far from it. But we need to not let the special interests that are opposed to the bill or the special interests that are for the bill dominate our thinking on this bill.

We need a broader perspective, and the plain truth is, this is not the be all and end all of America. My view is, we need to be sure we know what we are doing, and we need to do the right thing, because the truth is, obviously we have all been told—every time I raise this issue in one of our closed meetings, people say, "Yeah, but they haven't run the TV commercial yet attacking you," or whomever. Let's not underestimate the American people. My urging here is that we take a long, hard look at this thing and we try to figure out what the right thing is and that we do it.

This is a very important issue. There is a lot of money involved here. A lot of hard-working, blue-collar people are going to suffer, as a result of this tax, a lower standard of living. A lot of people are going to get huge quantities of money.

Let me say that I don't have any doubt that the 1,400 people who called me against this bill on the WATS line were triggered by the tobacco companies, but I also don't have any doubt that almost all of the 300 people who called me for it were triggered by the groups that hope to get billions of dollars from this bill.

As I see this thing, the only two clearly defined constituencies here are people who have a direct interest in the bill. I think we ought to listen to them to see if they have anything to say, but I don't believe we should be frightened of them. I believe we should try to ferret out what are the facts. I think we need to look at each and every one of these issues: Who is paying the taxes? Who is hurt? Who is helped? How is the money being spent? Is the money being spent wisely? Are we going to affect teenage smoking? Is this the best way to do it? Is there a better way to do it? Do we do it without reallocating hundreds of billions of dollars from blue-collar workers to basically bureaucrats and public interest advocates who—I don't know how they determine what the public interest is to advocate it, and I am always suspicious of anybody who advocates the public interest, other than myself.

These are the things that I urge my colleagues to look at. Let's not delay, but let's take the time to know what we are doing. Let's give some prayerful thought about where we are going to be next year if the same thing is happening to alcohol. Where are we going to be the next year if the same thing is happening to the fast food industry? Where does all this end once you start it? I don't know the answer to this, but I think we ought to know the answer before we start down this road.

Let me conclude by simply repeating the remark I made earlier, and that is, I congratulate Senator MCCAIN for his work in the Commerce Committee. Having had a little opportunity to try to have a positive impact in the Finance Committee, I have a greater appreciation of the difficulty he faced. I think it is clear the Finance Committee made the bill worse in every respect than if they had never touched it. The question is, Given that we now have the bill on the floor, what can we do to make it better?

I hope at the end of the process that I might be on the same side as the Senator from Arizona. I think the better we understand the bill, the better the chances are that we will serve the public interest and that that will happen. I yield the floor.

Several Senators addressed the Chair.

The PRESIDING OFFICER (Mr. SESSIONS). The Senator from Arizona.

Mr. MCCAIN. Mr. President, very briefly, I thank the Senator from Texas, as always, for his thoughtful and insightful views. Obviously, I am not in agreement on a number of the things he said, but his and my disagreements have always been very

agreeable. I believe he has contributed an enormous amount. I do agree with him, I don't know what would have happened if we had given the Finance Committee another 24 hours, which I think is, as he mentioned, a cautionary lesson as to what we have had to go through and what we will go through on the floor and what might have happened if it had gone to other committees.

Just one other point I want to make for my friend from Texas. Yes, the attacks have started. Millions of dollars have been directed at me, so I do know what it is like. You say you don't know what it is like. I know what it is like. I am a big boy, and I can take it, but I have been rather interested at the ferocity of these attacks and how personal they have been. Obviously, I will not respond in kind. I would have liked to have seen the tobacco companies spend some of this money on trying to stop kids from smoking and other worthwhile efforts. But it is their right as corporate citizens to do so.

I mention to my colleagues, Senator HOLLINGS has remarks that he would like to make, and it is my understanding, after that, I say to Senator FAIRCLOTH, that we will propound a unanimous consent request which will make his amendment in order, with a motion to table at a time certain after that. That will be at the completion of Senator HOLLINGS' remarks, so we can move forward with the amending process.

I thank Senator FAIRCLOTH for his patience and good humor throughout this delay this morning. I yield the floor.

Mr. HOLLINGS addressed the Chair.

The PRESIDING OFFICER. The Senator from South Carolina is recognized.

Mr. HOLLINGS. Mr. President, the distinguished Senator from Texas reminds me of that youngster who went to the psychiatrist. The psychiatrist drew some circles on the blackboard and said, "Now what do you think of?"

He said, "Sex."

He drew lines up and down. The youngster said, "Sex."

He drew some crosses. He said, "Sex."

The psychiatrist said, "Young man, you're the most oversexed person."

The youngster said, "Doc, you're the one drawing the dirty pictures."

The Senator from Texas is the one drawing the dirty pictures. I have never heard so many extreme nonsensicals in my life. We want to keep his dear mother here. No one is victimizing her. What we are going to try to do is help the doctors to counsel her to stop smoking.

Let's get back to last June, almost a year ago, to show you how far out of kilter this thing has gotten.

What happened was, to the surprise of many—I did not know, and I do not know of any Congressman or Senator who participated. I do not think there was a Congressman at the table. I do not think there was a Senator at the

table. But the tobacco companies, together with the States attorneys general and the White House and the health community, announced a dramatic settlement of \$368 billion. That is without a Congressman or Senator even thinking in these terms.

I have been up here 30 years. And I have worked with the Cancer Institute, Dr. Koop and Dr. Kessler and others. Thirty-some years ago, yes, we put notification on a pack of cigarettes. And we have admonished—I have seen demonstrations by the Cancer Institute that stopped me from smoking. But we have not done near what was announced last June.

Last June, the communities got together on the basis of the companies stating, in essence, "Look, we're tired of winning these cases." As we speak on the floor of the Congress today, no one has won a jury verdict against a tobacco company, period. I think it is in the main, on account of the publicity and the health and the notification of the assumption of risk, that smoking is dangerous to your health. The companies themselves are engaged in advertising Miller High Life Beer, Kraft Foods; different other things of that kind, Ritz Crackers, what have you.

They are good businessmen. They are not a bunch of crooks, as they are trying to be depicted here once the politicians got this particular issue. They have run a touchdown in all the directions and in all extremes. But what happened was the companies said, "Look, rather than paying out all these costs to lawyers and winning every case after case, why don't we get together and continue in an orderly fashion."

We are not going to have prohibition. Even I heard Dr. Koop testify to that before our committee that no, he was not attesting to having prohibition. We are not going to have prohibition of tobacco. Tobacco was here. The Indians were smoking it when we arrived.

Just the other day we had a celebration with our role model, the former distinguished majority leader, Mike Mansfield, whom when you go to the Mansfield Room, he is very proud of that portrait of himself smoking that pipe. And he is 95 years of age.

So we live in the world of reality. Hopefully, this Congress will get back to reality and not the nonsense that we have just heard of about taxes and what the idea was and everything else of that kind.

The idea was to get an arrangement whereby the companies who could win every advertising case about Joe Camel and everything else of that kind says, "We'll stop advertising in this manner. We'll stop spending that money on advertising. We'll stop spending this money on lawyers. And we'll make an agreement with you to pay in so much of our profits. Necessarily, you say that you want to raise the price because that is the best control of tobacco consumption, so we'll go along with raising the price."

We live in the real world. I think it is \$4 or \$5 or something in downtown London. I was visiting with a friend not long ago from Canada. He picked out of his pocket and lit up a cigarette. And I said, "How much, by the way, was that pack?" He said, "This one is \$7, but in Canada it is \$6 to \$10." You see, that shocks us who really have not paid that close attention.

I never heard of any \$360 billion, and I have been working on the defense budget for years on end. That is only \$245 billion. Here we come with an amount that they agreed to pay themselves with an increase in the cost. The politicians coming around hollering, tax, tax, tax—tax and spend, tax and spend, and everything else, including the companies. Under the whole cloth, the tobacco companies are the ones who thought of the idea of taxing \$368 billion. And this just carries it up to \$500 billion.

So they are the ones who gave us the idea that let us go ahead and see how much, if you please, Mr. President, you could charge on cigarettes, as much as possible, to try to stop the smoking, pay for the advertising, pay the States back for their Medicaid costs, start some children's programs. Yes, they talk about it—tax and spend. The spending is on children, on helping to get children to stop smoking. The distinguished Senator from Texas knows that. We are doing that, and we are going to use that money to try to stop children from smoking.

And, you know, Mr. President, they went even further than I would have gone if I had been their lawyer or I had been the CEO, and that is take some kind of pledge and penalty for what they call "look back." It took me a long time—they said, "We're going to be responsible for stopping smoking in America."

Now, whoever heard of that? We have been trying to do it with notification on the packages. The health community has been trying it. Every doctor now will counsel you. So there is nothing new. But the tobacco companies are supposed to advertise in an adverse fashion and pay a penalty that goes up, up and away if, as a company, they do not comply or accomplish it.

Now, that was a pretty solid agreement that has been distorted in every fashion here which does not seem to get any understanding because the jackals have taken over now, cackling up here about tax and spend and everything else of that kind, going into \$18,000 an acre, \$100,000-an-hour lawyers' fees, and all these other things.

Mr. President, my distinguished colleague from North Carolina has an amendment that he wants to put in—and I want to yield to him just as promptly as I can—relative to legal fees. And we will debate that and the contribution made by trial lawyers.

Let me just state ahead of time, categorically—and I am looking over here at a chart that says "Minimal Ethics." Not at all, absolutely not at all. I have

to say something about that chart. I cannot resist the temptation. I have been at the trial bar, and if they think it is anything unethical, we could go to the company lawyers who are now being investigated for conspiring with the company executives on how to avoid these charges and everything else of that kind.

Man, oh, man, talk about being unethical, after the abuse and the challenge they have been through. There is a little attorney general down there in Mississippi. I was just watching it the other night. I was not that familiar with him—Mike Moore. He literally was sued by his own Governor trying to bring tobacco to the bar of justice. But he stuck to his guns. Maybe they call that unethical bringing that case against the industry, or a contingent fee is unethical. But it goes for the "every mother's son" the best of counsel. And corporate America and the Chamber of Commerce does not like that.

Billable hours, good Lord have mercy, we are going to get into a good debate on billable hours. And there are 60,000 of them registered to practice in the District of Columbia, 60,000—oh, they got all lawyers in Japan right here in the District—59,000 will never see a courtroom or know anything about law. It's fixing me and fixing this one and that one. It's fixing the jury. Unethical? Unethical? I want to hear what is unethical about trial lawyers compared to the billable hour crowd.

But back to the Senator from Texas, and he was talking about the amount of money, the billions here, to buy out the farmers. At least we are paying the farmers who have been making a good living to get out of that, not for those who didn't make a living, went broke, and we came and gave them food stamps to the tune of 431 billion bucks, Resolution Trust Company. Half of it was in the State of Texas. We bought every swimming pool, every tennis court, every golf course, every country club that you could possibly imagine. It was improperly financed. You and I know it. Over \$200 billion to one State. But they want to talk about honest, hard-working tobacco farmers out there at the sweat of their brow being bought out of this particular business, coming up here with all these fanciful figures; \$18,000 an acre—that takes care of the warehouse, that takes care of the bank on the loan, that takes care of the equipment, that takes care of the community, that takes care of his children.

When he is out of the business, how do you send them to college? So you let them come in on Pell grants. Yes, it is a comprehensive approach. The LEAF Act is intended, because we saw last fall that the chairman of the Agriculture Committee wanted to just put them out of business, and not take care of the communities.

I have I don't know how many farmers in South Carolina, I think about 2,000 tobacco farms, over \$200 million, a

big cash crop. So when we saw that, we moved. I want to say this categorically and just dispassionately, how shocked and dismayed I am to get into this particular situation. The record ought to reflect it. When we saw the chairman of the Agriculture Committee who said he had seen polls and everybody in tobacco farming wanted to get out of it, which is out of the whole cloth. I have been traveling to tobacco farmers, campaigning, crisscrossing all over the State. I never saw the tobacco farmers trying to get out of the business, but that is what he said.

I said we are really in trouble. The distinguished Senator from Kentucky, Senator FORD, and I, we have the LEAF Act and, yes, we positioned it. We knew what we were doing because the distinguished chairman of the Commerce Committee came to me and said, "Evidently, they are going to have a tough time getting a bill out of any committee, and the majority leader asked if we can get one out of our committee. I would like to have it bipartisan," the chairman said. I said, "I would like to have it bipartisan, too, but we have to take care of the farmers."

He hesitated a few days and came back and said, "All right, we will take care of the farmers." And we went all the way down to Florence and said the LEAF Act was taken care of, taking care of the farmers. The President of the United States went out to Kentucky and said the LEAF Act is taking care of farmers. We had five conferences trying to get this bill finalized with the White House, with the Republican majority and with the Democratic minority to work out what we could, to get a comprehensive policy and get it over to the House side. Each time we checked, the LEAF Act was there, undisturbed.

Now, last night, out of the clear blue—which is one of the reasons I wanted the floor—we get Senator LUGAR's bill which had one hearing last fall, I think last September, according to the record, never a markup, and get this whining out here about equal treatment. Why we have to give him—the Agriculture Committee likes the bill, had been marked up and reported, like ours had been worked upon. No, we have been hedging against that nonsense of the Lugar approach since last fall and working around the clock, locking down everything, and they come and tell us that they couldn't avoid it. They had to get a majority of the Commerce Committee members. I am dismayed the chairman voted with that majority. After all our work trying to work together. That explains my statement yesterday about the bipartisanship.

Now, back to just exactly what we have here with respect to being victimized and everything else of that kind. I think that agreement, having been worked out within the Commerce Committee and all of these conferences and everything else, was a pretty judicious

instrument in that you cannot have tobacco farmers, Senator, unless there are tobacco companies. You can put the companies out of business. We have a mob scene here, a lynch mob coming forward; get rid of the company.

Every time we agreed on something, Senator MCCAIN and I heard from different groups, "more, more, more, they are liars," they are this, they are that. Let's agree on all of that, you can put them out of business. Then MCCAIN and HOLLINGS can start their own tobacco company or maybe it would be SESSIONS and HOLLINGS. It would be a pretty good business. All we have to do is get the tobacco from Turkey. We don't have any false records they can go and embarrass us with—juries and everything else of that kind. We can go back and get old Joe Camel and start advertising again. Ain't nothing wrong with that. They tried end on end before the courts to kick out their advertising, constitutional right, first amendment, and we can go make a living, and what has happened? Nothing for the children.

So that is a pretty good political charade to come out on the floor of the Senate and say, now, is it tax or is it for the children, and analyze it in this tricky mind as being just a tax. It is an increase in price. You don't have to pay it. It is voluntary. I quit smoking. They say more than half of the people could quit smoking. Yes, it is addictive to some, just like alcohol. We could say get rid of Ronald McDonald, advertising fat for the children. Go after that. With that, I can agree with the Senator from Texas.

When you come right down to it, it is a balancing act that we are engaged in, and nobody wants to acknowledge it. We can get rid of the tobacco companies, but that does nothing for us at all. It doesn't do anything for the health community. It doesn't do anything for the children. It doesn't do anything for the payments to be made. This is money going back to the States. It doesn't do anything for the programs. It doesn't do anything for the look back. It doesn't do anything to anything.

So these people that run around and want \$1.50 and more and more and more, don't even understand the problem, don't even understand what we are trying to do on the floor of the Senate with the tobacco bill.

We are trying to go along with respectable companies—yes, they did stand up and falsely state that they didn't think it was addicting and everything, but those folks are gone. If you don't think they have exactly, just tell the truth. Go over to the Defense Department and get their civil and criminal docket and you will find true blue chip corporations of America trying to defraud the government at every turn. It is a sad thing.

Then I have to look up here at minimal ethics in the business crowd. I talked to my friend, Tom Donohue, yesterday and I worked with him. I

have every chamber of commerce award that you could possibly get.

But to get up here and let this legalistic crowd take over and start controlling—here is the Republican movement that doesn't want to have price controls, wants to deregulate, wants to get rid of the Government, and now wants to fix prices, wants to fix fees. How can you tell when these lawyers have really made the case? It isn't an hourly thing. Until last June, there wasn't any case. Nobody has made any—they have gotten some settlements. I know the best of the best from my hometown tried one for ancillary smoke—what do you call it? Voluntary smoke? Involuntary smoke? Whatever it is—up in Indiana during the months of February and March, and even he lost that.

We are saying that you are not going to have any more immunity, or have a limit on the immunity. They can still bring individuals. They can still bring class actions. Everything is still in the commerce bill.

I would like to have given what they promised last June—the immunity. But we did put an \$8 billion cap on it. But the reason for giving any immunity is that the juries of America have given them immunity, period. They know the assumption of risk and everything else of that kind. It has been out there 30 some years. By the time we get along with some petitions before the court and everything, it will be 40 to 50 years, and everybody will have known about it; you won't be able to get a verdict against the companies.

So we who are responsible for public policy are also at a crossroads. There is a pool of opportunity draining out on us. We ought to be acting this year. We ought to be acting this week. We ought to get with this thing on a realistic basis and how we brought this bill out, and not engage in trickery and come back in and take a bill that never was reported out of the committee, never onto the floor, never in debate, and say, "Stick it in, because we can fix the majority on the Commerce Committee." I am saddened to see that. I never have seen that happen before. I checked with the Parliamentarian. They said yes, it could happen. But I never have seen that and it was sad to see.

I have a lot of other things here that we could touch upon, but the distinguished Senator from North Carolina has been waiting. I hope when he does present his amendment, that he amends the words "minimal ethics." I don't know that any trial lawyer—they win some cases, but they lose a lot of cases.

As between the billable hour crowd and those working for the client rather than for themselves, because the clock keeps running, that is the most vicious thing that ever happened to my profession—this billable hour group. That is the worst thing I have ever seen occur, because I practiced law—never with billable hours; I got results for that client. Then he understood that was the

charge, because we won. When we lost, we assumed all the costs. Everybody knows just that. What has been unethical, according to the testimony made to that attorney general down there, is the companies have been unethically engaged and the Chamber of Commerce has been supporting them.

I hope the Senator from North Carolina will amend the words there on "minimal ethics."

I yield the floor.

Mr. MCCAIN addressed the Chair.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Mr. President, I ask at this time unanimous consent that Senator FAIRCLOTH be recognized to offer an amendment.

Mr. President, we still have one Member on our side who needs to be contacted.

I seek at this time that Senator FAIRCLOTH be recognized to offer an amendment, and that we proceed under the understanding that no second-degree amendment be in order to the amendment until the motion to table is made at 4 p.m.; that, if the amendment is not tabled, the Senator from South Carolina, Senator HOLLINGS, be recognized to offer a relevant second-degree amendment; and the time between now and 4 be equally divided.

Mr. President, this body proceeds on comity. I would like to proceed under that understanding, and as soon as we contact one Member, then we will put this into a formal unanimous consent agreement.

At the moment, I would like to ask for my colleagues' indulgence so that Senator FAIRCLOTH can be recognized to offer his amendment.

Mr. HOLLINGS. If the distinguished leader will yield, I understand we are coming back at 2:15. I was trying to get an hour on our side.

Mr. MCCAIN. We will proceed under that understanding, and we will attempt to put it into a unanimous consent agreement between now and the next 5 or 10 minutes, and, if not, to try to have it between now and by 2:15 when we return.

I yield the floor.

Mr. FAIRCLOTH addressed the Chair.

The PRESIDING OFFICER. The Senator from North Carolina.

Mr. FAIRCLOTH. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. FAIRCLOTH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. FAIRCLOTH. Mr. President, I am offering this important amendment because we cannot allow this tobacco bill to turn into "Wheel of Fortune" for trial lawyers. That is why my amendment caps attorney fees at \$250 per hour.

Under the current bill, trial lawyers will get some \$4 billion per year. Billion—with a "b". And this is a conservative estimate—assuming a 15 percent contingent fee. The Medicaid cases will generate \$1.2 billion per year. The tort cases will yield some \$2.8 billion per year.

A Florida circuit court judge, Harold Cohen, estimated their fees at \$185,186 per hour.

Let's see how this compares to regular Americans.

The average physician earns \$96.15 per hour, the average lawyer makes \$48.07 per hour, pharmacists make \$25.98 per hour, police officers earn \$16.65 per hour, carpenters make \$13.03 per hour, automobile mechanics earn \$12.35 per hour, barbers make \$8.37 per hour, and bakers earn \$7.65 per hour.

The PRESIDING OFFICER. Under the previous order, the Senate is to recess at 12:30. That hour having arrived—

Mr. HOLLINGS. Mr. President, I ask unanimous consent it be extended until 12:45.

The PRESIDING OFFICER. Is there objection?

Mr. FAIRCLOTH. I do not object.

The PRESIDING OFFICER. The Senator is recognized until 12:45.

Mr. FAIRCLOTH. So, Mr. President, who are these "superman" lawyers who deserve to be paid more than 20,000 times the salary of a working American?

Well, one of them is Hugh Rodham, the President's brother-in-law. He is on line to get \$50 million as a Castano group lawyer. Let me tell you about the hard work that he has done to get this big fee. Let me tell you about his background that made him so important to this group of trial lawyers.

Well, actually, let me just read a couple of quotes from major newspapers to describe his work.

"And just for good measure, the state of Florida has hired Hugh Rodham (Hillary Clinton's brother) to be a part of their litigation team, despite his complete lack of experience in these types of cases." That's from the Knoxville News-Sentinel on July 20, 1997.

Here is another choice description of the fifty-million-dollar man and his invaluable work.

Hugh Rodham "spen[t] the last hours of the June 20th settlement talks in a corner reading a paperback by Jack Higgins, 'Drink with the Devil.'" That's from the Washington Post on June 23, 1997.

Mr. President, I don't believe that this amendment needs much more justification than that. Fifty million dollars to sit there reading a book.

But, if that isn't enough, let me talk about the Texas trial lawyers. These fine lawyers will get \$88,000 per hour. This means \$88 million per lawyer. What more can I say?

Well, here's something. The money will be paid from money that was supposed to go for Medicare. Who do we pay—the sick and elderly or the greedy lawyers?

Mr. President, there is a major political force at work behind the scenes in this tobacco legislative effort. I'm not talking about so-called "big tobacco." What I'm talking about is the trial lawyers.

They negotiate settlements in the millions of dollars, and they take fees in the millions of dollars, dwarfing what their clients get. They also stand to be the biggest winners if the tobacco settlement is enacted—a fact that appears to have become obscured in this debate.

Now, with this national tobacco litigation settlement before us, we're not just talking about millions of dollars, or tens of millions of dollars, or even hundreds of millions of dollars.

We are talking about tens of billions—with a "b"—of dollars that will be transferred from the pockets of average smokers in this country into the coffers of a handful of trial lawyers.

I have read published reports that the trial lawyers are estimating that they will make upwards of \$15 billion to \$20 billion. That is hard to fathom.

To illustrate, in the two biggest individual State settlements that have

taken place so far, take a wild guess at what the major issue of controversy has been?

For those of you who have not been paying attention, it has been attorneys' fees for the private plaintiffs' attorneys who were brought in to help the states sue the tobacco companies.

In the State of Texas, for example, their \$15 billion settlement is tied up because the Texas trial lawyers demanded over \$2.3 billion for their work. These demands are ridiculous, and if we approve the McCain bill, we will be approving such billion dollar deals for these trial lawyers.

Yes, the McCain bill provides the option for attorneys to use an arbitration panel to determine reasonable fees, but what attorney would be foolish enough to seek reasonable fees if they can get \$2.8 billion. And, what is considered "reasonable" in this climate?

It is ironic that these trial lawyers were brought in by the various States to pursue claims on behalf of the taxpayers in those States.

That is, they have been brought in to stand in the shoes of our State governments and their taxpayers. But I ask you: who ultimately will be the greatest beneficiaries—the taxpayers or the lawyers? Experience has already provided us with an answer.

We should not forget how the deck has been stacked with respect to these State lawsuits. It was only when State governments decided to use their weight, leverage, and resources to go toe-to-toe with the tobacco companies that these companies decided to settle the cases.

States legislatures have even changed the laws mid-stream and retroactively to tilt the balance in their favor.

The most recent example of this was in April when the Maryland General Assembly voted to change the law to permit the State of Maryland to seek compensation for taxpayer money paid for smoking-related illnesses.

They first sued the companies, then realized winning the lawsuit perhaps was not going to be quite as easy as they first thought. They then went to the Maryland legislature and had the law changed retroactively so that their lawsuit against tobacco companies would be considerably easier.

You can be sure that the Maryland plaintiffs' attorneys who stand to have a huge pay day as a result of this lawsuit were closely involved in lobbying the legislature on changing the liability law.

I'm not saying that the attorneys' should not be reasonably compensated for the hours and energy they have spent in helping the States reach these settlements.

All I am saying is that it is outrageous to say that a group of plaintiffs' attorneys should be allowed to enrich themselves under the guise of claims on behalf of taxpayers. These are the same taxpayers on whose back the spending in the McCain bill will fall.

Let's also look at how this relates to our past debates over tort reform. The motivation behind national tort reform is that our system of justice has been distorted by a group of trial lawyers who caused the litigation explosion in this country.

At a minimum, it is highly ironic that we are now talking about passing a national tobacco settlement bill that will handsomely reward the very same trial lawyers who have so badly corrupted our justice system.

None of us should turn a blind eye to the fact that the debate on tobacco settlement legislation, under the guise of protecting youth, is really a debate about the pot of gold that potentially awaits the trial bar.

And that's not to mention the "tax and spenders" who want to fund a host of social programs unrelated to tobacco. Not only are we standing here debating a huge tax increase on working men and women, we are simultaneously opening a can of worms.

We're talking about sanctioning a handful of attorneys' attempts to enrich themselves at the expense of the clients—in this case, taxpayers—they purport to represent. I urge all my colleagues to give this serious thought.

This tobacco bill is not a lottery. This is not "jackpot justice" for trial lawyers. The trial lawyers are playing "Wheel of Fortune" with the taxpayers money and it must be stopped.

I urge you to support my amendment.

The PRESIDING OFFICER. Is there objection to the request? Without objection, it is so ordered.

Mr. McCAIN. I yield the floor.

The PRESIDING OFFICER. Who yields time?

Mr. HOLLINGS addressed the Chair.

The PRESIDING OFFICER. The Senator from South Carolina.

AMENDMENT NO. 2421

Mr. HOLLINGS. Mr. President, in response to my distinguished colleague from North Carolina, Senator FAIRCLOTH, as the saying goes around here—and it is genuine—I have the greatest respect and friendship for the distinguished Senator. He and I have known each other for a good 30, 40 years almost.

I really am a little dismayed and disappointed to see this assault on attorneys' fees in the context of what is ethical on behalf of trial lawyers. When they put a billboard up with respect to ethical practices and making millions—we will get the board, I guess, and have it displayed.

But let me say a word, Mr. President, about lawyers themselves. A lot has occurred over my few years of public service. In the early days, what we had in the State legislature was about 85 percent of the membership was practicing attorneys. Today, fewer than 15 percent are practicing attorneys. That has come about, in a sense, as a result of billable hours.

When we came out of the war and set up our practices, what really occurred was we had to do services for the client, whether it was in the field of real estate, whether it was in the field of a criminal charge, or whatever. It was an agreed-to fee or, in many instances, a contingent fee on winning the case. That is how I grew up as an attorney, which characterizes me now as a "trial lawyer"—I hope not an unethical one.

I was listening very closely to the Senator from North Carolina. The best I can tell is he used the expression "litigation explosion." We can get into that. We have debated that, and we found through various studies made by the Rand Corporation for corporate America that there is no litigation explosion.

"Corrupted our justice system." The nearest thing I could find out was the fee itself, and it was too large, as the distinguished Senator surmised, and that in itself was unethical.

We know that people make money. I understand that the fellow on *Headline News* today, William Gates, a very, very successful entrepreneur, never completed college, but he is a genius with a business worth some \$39 billion. He makes, doing nothing, just \$125,000. I know he has a modest salary, but it would only go to the tax folks. But he operates, and he operates very successfully. They have 21,000 employees there at that Microsoft entity. Every one of the 21,000 is a millionaire due to the leadership and accomplishment of Mr. Gates.

Now, that is what is to be considered when we talk about trial lawyers taking on a noncase and developing a case. That really nettles my corporate

friends. Incidentally, I should say this, that the corporate friends have been mine over the many, many years, as they well know from my votes here in the U.S. Senate. And we are very proud of the industrial development we have in South Carolina and the efforts of our Chamber of Commerce there. They are highly regarded, highly respected. But they had not gotten into this limbo, so to speak, of being unethical when you win a case.

Specifically speaking, going to lawyers generally, it is the genius of America that fashioned this great Republic. Lawyers, if you please, you can go back, Mr. President, to the earliest days. "Is life so dear or peace so sweet as to be purchased at the price of chains and slavery? Forbid it, Almighty God. I know not what course others may take, but as for me, give me liberty or give me death!"—a lawyer, Patrick Henry.

Or otherwise that 30-some-year-old, with quill in hand, seated at that table, "We hold these truths self-evident, that all men are created equal."—Thomas Jefferson, the lawyer.

The most applicable one, Mr. President, to this present day, "But what is government itself, but the greatest of all reflections on human nature? If men were angels, no government would be necessary. If angels were to govern men, neither external nor internal controls on government would be necessary. In framing a government which is to be administered by men over men, the greatest difficulty lies in this: you must first enable the government to control the governed and in the next place oblige it to control itself."—that is our problem now—James Madison, a lawyer.

Or the Emancipation Proclamation—Abraham Lincoln, a lawyer. Or in the darkest days of the Depression, bringing about not only economic revival, but equal justice under law, "All we have to fear is fear itself."—Franklin Roosevelt, a lawyer. Or giving substance to equal justice under law—Thurgood Marshall.

I know the abhorrence some have for my friend, Morris Dees, down there with the Southern Poverty Law Center, or with Ralph Nader keeping the conscience clear with respect to consumer safety in America. But these are lawyers who are out leading the way.

There is no question, Mr. President, that there is no higher calling for a profession than to eliminate itself. If the ministers could eliminate all sin and the doctors all disease, we lawyers are burdened with the challenge of trying to eliminate injury in cases. When I first came to the Senate that was really what was at hand, what you might call class actions.

Up there in Buffalo, NY, Love Canal, toxic fumes, poisonous air. And as a result of the class actions there, the next thing you know what we had was the Environmental Protection Agency, which in and of itself, despite those who criticize the bureaucracy of it, has
