DEPARTMENT OF VETERANS AFFAIRS

RIN 2900-AJ09

Eligibility Reporting Requirements

AGENCY: Department of Veterans Affairs.

ACTION: Interim final rule.

SUMMARY: This document amends the Department of Veterans Affairs (VA) adjudication regulations concerning eligibility verification reports (EVRs) for recipients of pension under programs in effect prior to January 1, 1979. The amendment reduces the number of circumstances under which VA requires such pensioners to furnish annual EVRs. The intended effect of this amendment is to reduce the reporting burden on these beneficiaries, reduce the workload at VA regional offices, and enable VA to use its resources more effectively.

DATES: Effective date: October 6, 1998.

Comment date: Comments must be received on or before December 7, 1998.

ADDRESSES: Mail or hand-deliver written comments to: Director, Office of Regulations Management (02D), Department of Veterans Affairs, 810 Vermont Ave., NW, Room 1154, Washington, DC 20420. Comments should indicate that they are submitted in response to "RIN: 2900-AJ09." All written comments received will be available for public inspection at the above address in the Office of Regulations Management, Room 1158, between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except holidays). (In addition, see the Paperwork Reduction Act heading under the Supplementary Information section of this preamble regarding submission of comments on the information collection burden.)

FOR FURTHER INFORMATION CONTACT: John Bisset, Jr., Consultant, Regulations Staff, Compensation and Pension Service, Veterans Benefits Administration, 810 Vermont Avenue, NW, Washington, DC 20420, telephone (202) 273-7210.

SUPPLEMENTARY INFORMATION: The term "eligibility verification report" (EVR)

means a VA form requesting information, such as income and marital status, that VA needs to determine or verify eligibility for its need-based benefit programs, such as old law pension and section 306 pension. The term "old law pension" means the disability and death pension programs that were in effect on June 30, 1960. The term "section 306 pension" means those disability and death pension programs in effect on December 31, 1978.

Old law and section 306 pension are need-based benefits in that an individual's eligibility for either depends on his or her income being below a certain limit. If an individual's income exceeds the limit, the individual is no longer eligible. Also, the rate of pension paid is affected by the number of dependents the eligible individual has. For these reasons, EVRs request information concerning income and marital status.

Former 38 CFR 3.256(b)(3) required every old law and section 306 pension recipient, as a condition to continuing to receive pension, to furnish VA an EVR upon request. Former 38 CFR 3.256(b)(2) required VA to require an EVR under the following circumstances: (i) If the Social Security Administration has not verified the recipient's Social Security number and, if the recipient is married, his or her spouse's Social Security number; (ii) if there is any reason to believe that the recipient or, if the recipient's spouse's income could affect entitlement, his or her spouse may have received income other than Social Security benefits during the current or previous calendar year; or (iii) if the Secretary determines that an EVR is necessary to preserve program integrity. This interim final rule requires VA to require an EVR from an old-law or section-306 pension recipient only if the Secretary determines that an EVR is necessary to preserve program integrity.

VA has determined that it is no longer necessary to require EVRs from old law or section 306 pension recipients solely on the bases described in former 38 CFR 3.256(b)(2)(i) and (ii). VA required EVRs in these circumstances to help determine whether the recipients' income exceeded applicable limits. However, the annual income of all old law and section 306 pension recipients has been below applicable limits every year since 1978, and we believe it unlikely that their income will exceed applicable limits in the future. If a recipient's income does exceed the applicable limit, 38 CFR 3.256(a) still requires that he or she promptly notify VA.

Based on these facts, we have determined that it is no longer necessary

to require old law and section 306 pension recipients to submit EVRs based on unverified Social Security numbers or suspected additional income.

Requiring fewer EVRs from old law and section 306 pensioners will reduce the reporting burden for these elderly beneficiaries (the average age is 75) without significantly increasing the risk of erroneous pension payments. Because the rates of payment do not change, changes in income have no effect on payments except in the rare instance of income exceeding the income limit. Furthermore, VA has data exchange programs with other agencies such as the Internal Revenue Service, the Social Security Administration, the Railroad Retirement Board, and the Office of Personnel Management. These computer matching programs increase the likelihood that VA will learn of increases in income in those rare instances where the beneficiary failed to report the change. This amendment will also reduce workload at VA regional offices and enable VA to redirect scarce resources to other types of claims processing.

VA will still require old law and section 306 pensioners to furnish EVRs if it determines that it is necessary to preserve program integrity, which means it is necessary for VA, or an agency with oversight authority over VA, to verify that EVR-exempt beneficiaries are accurately reporting changes in entitlement factors. 38 CFR 3.256 is amended accordingly.

Paperwork Reduction Act

Under the Paperwork Reduction Act of 1995, as amended (44 U.S.C. 3501–3520), this interim final rule includes information collection provisions in 38 CFR 3.256 and 3.277. Prior to the effective date of this document, the information collections contained in §§ 3.256 and 3.277 were approved by OMB through November 30, 2000, under OMB Control No. 2900–0101. For some recipients of pension under programs in effect prior to January 1, 1979, this interim final rule eliminates the previous requirement they submit EVRs to VA annually. The only action concerning information collection taken by this document is to eliminate certain collections of information contained in the approval under OMB Control No. 2900–0101. In accordance with section 3507(j) of the Act and 5 CFR 1320.13, we have requested that OMB approve the information collection provisions in §§ 3.256 and § 3.277 under OMB Control No. 2900–0101 on an emergency basis for 180 days.

VA intends to seek an extension of the approval for the information collection changes made by this document. Therefore, VA asks for comments regarding the information collection provisions contained in §§ 3.256 and 3.277. After considering any comments received during the comment period, VA will submit a copy of the proposed information collection provisions to OMB for approval.

This document eliminates 22,500 reporting hours from the total of 354,725 burden hours that OMB had previously approved under the same control number. The Secretary has determined that the collection of information is essential to the mission of the agency, that use of the collection of information in this document is needed before the normal time periods established under 5 CFR part 1320, and that public harm is reasonably likely to result if normal clearance procedures are followed. This interim final rule eliminates the need for VA to mail approximately 45,000 elderly recipients of old law or section 306 pensions reporting forms that would require responses. Accordingly, emergency approval of the information collection as amended by this interim final rule is needed to eliminate VA's obligation to mail out unnecessary EVR forms and thereby avoid an unnecessary burden to the public.

Title: Eligibility Verification Reports.

Summary of collection of information:

This collection of information consists of written information concerning entitlement factors in VA's income-based benefit programs, pension and parents' dependency and indemnity compensation, that a person must submit on a form prescribed by the Secretary within 60 days of a request by VA. It also consists of written information concerning the same entitlement factors that a person must report promptly if there is a change affecting entitlement, but need not submit on a form.

Description of need for information and proposed use of information: Any individual who has applied for or receives pension or parents' dependency and indemnity compensation must promptly notify the Secretary of changes affecting entitlement to such benefits and respond within 60 days of a request by VA for written information concerning entitlement factors. The information is required to comply with statutory eligibility requirements.

Description of likely respondents: Individuals or households.

Estimated number of respondents: 664,450.

Estimated frequency of responses:
Once per year.

Estimated total annual reporting and recordkeeping burden: 332,225 hours.

Estimated average burden per collection: 30 minutes.

The Department considers comments by the public on proposed collections of information in—

- Evaluating whether the proposed collections of information are necessary for the proper performance of the functions of the Department, including whether the information will have practical utility;

- Evaluating the accuracy of the Department's estimate of the burden of the proposed collections of information, including the validity of the methodology and assumptions used;

- Enhancing the quality, usefulness, and clarity of the information to be collected; and

- Minimizing the burden of the collections of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

OMB assigns a control number for each collection of information it approves. VA may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Comments on the collection of information must be submitted by October 14, 1998 and be sent to the Office of Management and Budget, Attention: Desk Officer for the Department of Veterans Affairs, Office of Information and Regulatory Affairs, Washington, DC 20503, with copies to the Director, Office of Regulations Management (02D), Department of Veterans Affairs, 810 Vermont Ave., NW, Washington, DC 20420. Comments should indicate that they are submitted in response to "RIN 2900-AJ09." We have asked OMB to act by October 21 1998.

Administrative Procedure Act

There is good cause under the provisions of 5 U.S.C. 553 to publish this interim final rule without regard to prior notice and comment and effective date provisions. Compliance with these provisions would be impracticable, unnecessary, and contrary to the public interest. This interim final rule merely eliminates collections of information that are no longer needed.

Regulatory Flexibility Act

Because no notice of proposed rulemaking was required in connection with the adoption of this interim final rule, no regulatory flexibility analysis is required under the Regulatory Flexibility Act (5 U.S.C. 601-612). Even so, the Secretary hereby certifies that this interim final rule will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act. This interim final rule affects only individuals.

RIN 1018-AB75

Endangered and Threatened Wildlife and Plants; Determination of Endangered or Threatened Status for Five Desert Milk-vetch Taxa From California

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final rule.

SUMMARY: The U.S. Fish and Wildlife Service (Service) determines endangered status pursuant to the Endangered Species Act of 1973, as amended, (Act) for three plants—*Astragalus jaegerianus* (Lane Mountain milk-vetch), *Astragalus lentiginosus* var. *coachellae* (Coachella Valley milk-vetch), and *Astragalus tricarinatus* (triple-ribbed milk-vetch); and threatened status for two plants, *Astragalus lentiginosus* var. *piscinensis* (Fish Slough milk-vetch), and *Astragalus magdalenae* var. *peirsonii* (*Peirson's milk-vetch*). Many taxa in the genus *Astragalus*, including the taxa covered by this rule, are endemic to habitats with specific substrate or hydrologic conditions and are, therefore, naturally limited in distribution by the availability of habitat. The five taxa in this rule occur in specific habitats within the three deserts of California; the Sonoran, Mojave, and Great Basin deserts. *Astragalus jaegerianus* occurs in granitic soils in San Bernardino County; *A. lentiginosus* var. *coachellae* occurs in the dune system of the Coachella Valley in Riverside County; *A. lentiginosus* var. *piscinensis* grows in moist alkaline flats near the border of Inyo and Mono counties; *A. tricarinatus* occurs in canyon slopes and washes in Riverside and San Bernardino counties and *A. magdalenae* var. *peirsonii* occurs primarily on dunes in Imperial County.

These five plant taxa are threatened by one or more of the following—mining, urban development, off-highway vehicle (OHV) use and recreational development, pipeline maintenance, alteration of a wetland ecosystem, and low recruitment possibly due to rabbit herbivory or altered soil hydrology following fishery enhancement activities. Military training, and cattle grazing are potential threats. Two of the taxa are known from fewer than 200 individuals during the last decade. They are vulnerable to extinction from random natural events
