XII. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**.

This action is not a "major rule" as defined by 5 U.S.C. 804(2). This rule will be effective May 30, 2000.

List of Subjects in 40 CFR Part 131

Dated: March 30, 2000.

Carol M. Browner,
Administrator.

For the reasons set forth in the preamble, 40 CFR Part 131 is amended as follows:

PART 131—WATER QUALITY STANDARDS

1. The authority citation for Part 131 continues to read as follows:

Authority: 33 U.S.C. 1251 *et seq.*

Subpart C—[Amended]

2. Existing 131.21 is amended by revising paragraphs (c) and (d) and by adding paragraphs (e), and (f) to read as follows:

§ 131.21 EPA review and approval of water quality standards.

* * * * *

(c) *How do I determine which water quality standards are applicable for purposes of the Act?* You may determine which water quality standards are applicable water quality standards for purposes of the Act from the following table:

If—	Then—	Unless or until—	In which case—
(1) A State or authorized Tribe has adopted a water quality standard that is effective under State or Tribal law and has been submitted to EPA before May 30, 2000...	...the State or Tribe's water quality standard is the applicable water quality standard for purposes of the Act...	...EPA has promulgated a more stringent water quality standard for the State or Tribe that is in effect...	...the EPA-promulgated water quality standard is the applicable water quality standard for purposes of the Act until EPA withdraws the Federal water quality standard.
(2) A State or authorized Tribe adopts a water quality standard that goes into effect under State or Tribal law on or after May 30, 2000...	...once EPA approves that water quality standard, it becomes the applicable water quality standard for purposes of the Act...	...EPA has promulgated a more stringent water quality standard for the State or Tribe that is in effect...	...the EPA promulgated water quality standard is the applicable water quality standard for purposes of the Act until EPA withdraws the Federal water quality standard.

(d) *When do I use the applicable water quality standards identified in paragraph (c) above?*

Applicable water quality standards for purposes of the Act are the minimum standards which must be used when the CWA and regulations implementing the CWA refer to water quality standards, for example, in identifying impaired waters and calculating TMDLs under section 303(d), developing NPDES permit limitations under section 301(b)(1)(C), evaluating proposed discharges of dredged or fill material under section 404, and in issuing certifications under section 401 of the Act.

(e) *For how long does an applicable water quality standard for purposes of the Act remain the applicable water quality standard for purposes of the Act?*

A State or authorized Tribe's applicable water quality standard for purposes of the Act remains the applicable standard until EPA approves a change, deletion, or addition to that water quality standard, or until EPA promulgates a more stringent water quality standard.

(f) *How can I find out what the applicable standards are for purposes of the Act?*

In each Regional office, EPA maintains a docket system for the States and authorized Tribes in that Region, available to the public, identifying the applicable water quality standards for purposes of the Act.
