

DEPARTMENT OF HEALTH AND HUMAN SERVICES**42 CFR Part 130**

RIN 0906-AA56

Ricky Ray Hemophilia Relief Fund Program**AGENCY:** Health Resources and Services Administration, HHS.**ACTION:** Interim final rule.

SUMMARY: The Ricky Ray Hemophilia Relief Fund Act of 1998, established the Ricky Ray Hemophilia Relief Fund Program designed to provide compassionate payments to certain individuals with blood-clotting disorders, such as hemophilia, who contracted HIV through the use of antihemophilic factor administered between July 1, 1982, and December 31, 1987. The Act also provides for payments to certain persons who contracted HIV from the foregoing individuals. Specified survivors of these categories of individuals may also receive payments. The Department is seeking public comment on this interim final rule to establish procedures and requirements for documentation of eligibility and to establish a mechanism for providing compassionate payments to individuals who are eligible for payment under the statute.

DATES: This regulation is effective on July 31, 2000. Written comments must be submitted on or before June 30, 2000. Petitions may be postmarked, or accompanied by a receipt from a commercial carrier or U.S. Postal Service, on but not before July 31, 2000.

ADDRESSES: All comments concerning this interim final rule should be submitted to the Ricky Ray Program Office, Bureau of Health Professions (BHP), Health Resources and Services Administration, Room 8A-54, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20857. Comments will be available for public inspection at the above address in room 8A-54, BHP/HRSA, between the hours of 8:30 a.m. and 5 p.m. on Federal Government work days.

SUPPLEMENTARY INFORMATION: The Ricky Ray Hemophilia Relief Fund Act of 1998 (Pub. L. 105-369) established a Trust Fund with an authorization of \$750 million to "provide for compassionate payments with regard to individuals

with blood-clotting disorders, such as hemophilia, who contracted human immunodeficiency virus due to contaminated antihemophilic factor * * *". The statute mandates payments of \$100,000 to any individual with HIV infection who has any blood-clotting disorder and was treated with antihemophilic factor at any time between July 1, 1982, and December 31, 1987. The spouse or former spouse of such an individual who acquired HIV from that individual is eligible for payment, and children who acquired HIV through perinatal transmission from a parent who is or was one of the persons described above may also be eligible for payment. In addition to these individuals, certain survivors also may be eligible for payment: a lawful spouse of the person with HIV; if there is no surviving spouse, the payment is to be made in equal shares to all children of the person with HIV; if there is no surviving spouse or children, the parents of the person with HIV will receive the payment in equal shares. If none of these individuals is living, the money will remain in the Fund. There is no provision for payment to be made to an estate or any individual other than those explicitly mentioned.

In order to receive a payment, either the individual who is eligible for payment, or his or her personal representative, must file a petition for payment with sufficient documentation to prove that he or she meets the requirements of the statute. The statute mandates that the Secretary of Health and Human Services establish requirements for documentation and establish a mechanism for paying the eligible individuals.

The purpose of this interim final rule is to seek public comment on the documentation we will require for payment as well as on our payment process.

Background

When the statute was passed in 1998, it included, as noted above, an authorization for \$750 million, and a directive to pay \$100,000 to eligible individuals. At that time, however, there were no funds appropriated to implement this statute. We were concerned that the statute expired 5 years from enactment, and we did not know when, if ever, Congress would appropriate funds to implement it. There was also the possibility that funds might be appropriated in later years, forcing us to begin the actual implementation process near the time when the statute would expire. We sought a solution to preserve the rights of eligible individuals so that they

would not be disadvantaged should one of the less desirable funding scenarios develop.

The solution we devised was to allow individuals who believed that they were eligible for payment under this statute to file Notices of Intent. We wanted to preserve the rights of these individuals while at the same time, keeping the burden on them to a minimum. Since we did not know if funds would ever be made available, we did not want people to spend great time and effort rushing to file their petitions with the documentation required to prove they were eligible. Consequently, we published a notice in the **Federal Register** on March 24, 1999 (64 FR 14251), asking for Notices of Intent from individuals who believed they were eligible for payment. These Notices of Intent were minimal: the petitioner's name, address, and phone number, and similar information about the petitioner's attorney or other representative. We stated that eligible individuals would be able to file a formal petition for payment if and when we were provided the funds to implement the statute. We received more than 6,000 notices. We made clear in the **Federal Register** that these notices did not qualify individuals for payment, but simply preserved their rights under the statute. Payments would be based on petitions filed with appropriate documentation at a later time. As explained below, now that funds have been appropriated, we have begun the payment process which requires a formal petition. This process supersedes the Notice of Intent process, and, therefore, a Notice of Intent is no longer necessary.

In November 1999, we received an appropriation of \$75 million to implement the statute, of which up to \$10 million may be used for administrative expenses. We continued our work to establish the administrative mechanisms to pay individuals. These mechanisms include the organizational structure to manage the program, a Ricky Ray Fund in the Department of the Treasury, Privacy Act/Confidentiality regulations, and accounting procedures. We have also met with a wide range of organizations and expert individuals, seeking their input on how best to implement the statute. We also intensified our efforts to establish the proper regulatory framework for implementation; hence this rule.

The Current Appropriation

The statute requires payments of \$100,000 to eligible individuals. The appropriation for this statute in FY 2000

is \$75 million, of which up to \$10 million may be used for administrative expenses. Since the FY 2000 appropriation is less than the \$750 million that was authorized for the Ricky Ray Hemophilia Relief Fund, there are insufficient funds at this time to pay all individuals we believe will be eligible (up to 7,500) a \$100,000 payment. We will pay the full \$100,000 to individuals who file petitions "in the order received" until all appropriated funds are expended. Further petitions that are reviewed and determined to be eligible will remain in queue for payment from subsequent appropriations. The FY 2000 Supplemental Appropriations Bill requests an additional \$100 million for the Fund. The President's budget for FY 2001 proposes \$100 million, of which up to \$10 million may be used for administrative expenses, for the Ricky Ray Fund. Assuming funds are provided in subsequent years, our intention is to continue the payment process until all eligible petitions have been paid before the Fund expires in FY 2004, as required under current statute.

Summary of Regulation

This regulation can be conceptualized in three parts: the process for payment, the documentation required to prove eligibility, and the reconsideration process.

The Process for Payment

Given the fact that the statute requires payments to be made to individuals who file petitions "in the order received," we need to establish a process to ensure this provision is met. First, we need to establish a date on which we will begin to accept petitions. It is important to set this specific date to allow all eligible individuals an equal opportunity to file. We are establishing July 31, 2000, as the first day we will accept petitions. No petition sent (*i.e.*, postmarked) earlier will be accepted, and we will return any petition postmarked before that date. The fact that someone filed a Notice of Intent in response to the **Federal Register** notice of March 24, 1999, does not establish a place in queue. In addition, there is no need to file a Notice of Intent before a full petition is filed. As noted above, the Notice of Intent was our method for preserving the right to file in case funds were not appropriated in sufficient time to allow for a reasonable process for filing petitions within the statutory deadline. To the extent feasible, we hope to forward a copy of the petition form to all individuals who filed a Notice of Intent.

Since we have only enough money under this year's appropriation to pay a relatively small number of eligible individuals, we need to establish an equitable process to determine the "order received." We are establishing July 31, 2000, as the date on which we will begin to accept petitions. Any petition postmarked on that date, or stamped by a commercial carrier or the U.S. Postal Service on that date, will be considered as "first to arrive." Petitions postmarked later will be sorted after those postmarked on the initial date. Petitions with earlier postmarks *will be returned*. Furthermore, no private meter postmarks will be allowed and, to assure fairness to all petitioners, we will not accept hand-delivered petitions.

We expect that there will be many petitions postmarked on the initial date. Therefore, these petitions will be the "first received." To ensure fairness in the payment process, we will begin a random selection procedure to determine the order in which petitions will be processed among the "first received." This process will be equitable to allow sufficient time for distant mailings.

It is our intention to begin to select envelopes containing the petitions "first received" in a random manner and begin numbering them from one until all are numbered. We will continue this procedure for petitions postmarked on later days. We will then begin with number one and continue to process petitions and make payments as long as funds are available.

Important Notice

The process described above, in light of limited appropriations, means that those who file complete petitions earlier will be paid before those who file later or who file without complete documentation. We encourage all potential petitioners to complete their petitions and to compile all required documents, so that they can have their petitions postmarked on or as close to the initial date as possible.

We are required under the statute to determine whether a petition is eligible for payment "not later than 120 days after the date the petition is filed." We anticipate receiving thousands of petitions within a short time. We cannot process them all simultaneously and have insufficient funds to pay all petitions that are processed. Therefore, we intend to implement this provision based on the date we determine that a petition is complete.

As a part of this process, if we open a petition and determine it is incomplete, we will notify the petitioner of this and give the petitioner 60

calendar days from the date of notification to submit the missing information. In the event that the petitioner is unable to secure the required documentation to complete the petition, the petitioner may submit a statement to the Secretary within 60 calendar days which shows good cause why the required legal and/or medical documentation is not available. If the petition is completed within that timeframe or if we determine that the petitioner has provided an adequate showing of good cause for not submitting the required documentation, and the petitioner is eligible for payment, we will pay that petitioner based on the number assigned in the random numbering process. If the required documentation is not included even after the opportunity to complete this documentation within 60 days, or if an adequate showing of good cause why the documentation is unavailable is not provided, the petition will be denied, subject to a right of reconsideration. Any subsequent filing of a petition will result in that petition being assigned a new number based on the date it is postmarked.

Filing Deadlines

First, we note that the Ricky Ray Hemophilia Relief Fund Act states that the Secretary may not pay a petition unless it is filed within 3 years after the date of the enactment of the Act. This statute was enacted on November 12, 1998; thus, the statutory filing deadline is November 11, 2001. However, since November 11, 2001, is a Sunday and is the Veteran's Day holiday, and since November 12, 2001, is the day on which Veteran's Day holiday is observed by the Federal Government, we have extended the deadline for filing a petition to Tuesday, November 13, 2001.

Second, we are calling special attention to the deadline for filing full petitions as it relates to our Notice of Intent procedures described in the **Federal Register** of March 24, 1999. The Notice of Intent was described in that March 24 document as satisfying the statutory filing deadline of November 11, 2001. However, as noted above, that procedure was an interim one that we developed before we knew whether Congress would provide funds to operate the program. Now that we have funds for paying petitions and for operating the program, we are able to establish a procedure which requires compliance with the statutory deadline. Therefore, even if a timely Notice of Intent was filed, a petitioner must file a full petition by the November 13, 2001, deadline. Furthermore, any individual who has not filed a Notice of Intent

need not file such a notice; it is only the filing of a full petition that will establish eligibility under the statute. Finally, those who filed a Notice of Intent should understand that their place in queue for processing and payment will be determined by the date of submission of their full petitions and will not be related to the date they filed their Notices of Intent or to the case numbers assigned to those notices.

We would also like to note other deadlines that apply under the regulation. First, where a petitioner submits a petition which is denied payment, the petitioner may file a new petition, which includes documentation that was not included in the original petition. The deadline for filing this new petition is November 13, 2001. Second, where a petitioner submits a petition and the Secretary has not yet made the determination whether the petition meets the requirements of the Act, the petitioner may supplement the original petition with additional documentation. The petitioner may file this supplemental documentation at any time until the date of the Secretary's determination. Third, where a survivor files an amendment to a petition, which is required when a petition has already been submitted but the petitioner has died before payment is made, the deadline for filing this amendment is the date of the Secretary's determination of eligibility or the date of payment, whichever is later. Survivors must file amendments to petitions in order to retain the original assigned order number and to receive payment under the Act.

Documentation Required

It is extremely important to establish the medical and legal documentation required so that we can begin to make payments to individuals who are eligible for payment. We are attempting to balance our fiduciary and accountability responsibilities with our desire to impose a minimal burden on those who file a petition. We are therefore, providing two options to meet the medical documentation requirement. The first is medical records, test results, prescription information, or other documentation deemed credible by the Secretary (which may include, but is not limited to, infusion logs and packing slips). The second is a sworn affidavit by a doctor or nurse practitioner verifying that the relevant medical requirements have been satisfied. We are also requiring a variety of legal documents from most petitioners. We encourage all petitioners to consult the Petition Documentation Checklist to determine the specific

documentation required for each petition.

A. Persons with HIV

The terms used below refer to the relationship to the individual with a blood-clotting disorder and HIV.

1. To prove an individual with a blood-clotting disorder is eligible for payment, the petition must include medical documentation that the individual had a blood-clotting disorder, such as hemophilia, and was treated with antihemophilic factor at any time between July 1, 1982, and December 31, 1987, and contracted an HIV infection.

2. For lawful spouses with HIV who are filing, in addition to the medical documentation for the individual with a blood-clotting disorder, the petition must include evidence of marriage consisting of a marriage certificate or other proof of a lawful marriage and proof that the spouse has HIV.

3. For former lawful spouses with HIV, we are requiring the medical documentation for the individual with a blood-clotting disorder, proof that he or she was married to the individual with a blood-clotting disorder at any time after the individual's treatment with antihemophilic factor (the date of treatment must have been between July 1, 1982, and December 31, 1987), proof of the termination of the marriage (such as a divorce certificate), and medical documentation which shows with reasonable certainty that the former spouse contracted HIV from the individual with a blood-clotting disorder.

4. For the child with HIV who is filing (or for whom a personal representative is filing) because the parent is or was one of the persons described above, in addition to medical documentation for the individual with a blood-clotting disorder, we are requiring a birth certificate or other proof that the person filing is, in fact, the child of an individual with a blood-clotting disorder or his or her spouse or former spouse, a marriage certificate or other proof of a lawful marriage between the individual with a blood-clotting disorder and his spouse or former spouse, and medical documentation that the child acquired HIV infection through perinatal transmission from the individual with a blood-clotting disorder or his or her former spouse.

B. Survivors of Persons with HIV

1. For the surviving spouse of a person with HIV, in addition to the medical and legal documentation for the person with HIV, we are requiring evidence of the death of the person with

HIV, evidence of a lawful marriage, and a sworn statement that they were married at the time of the death of the person with HIV.

2. For the surviving child/children of a person with HIV, in addition to the medical and legal documentation for the person with HIV, we are requiring evidence of the death of the person with HIV, evidence that the petitioner is, in fact, the child or stepchild of the person with HIV, and a sworn statement that either states that there are no other survivors eligible for payment or provides information about others who are eligible.

3. For the surviving parent of a person with HIV, in addition to the medical and legal documentation for the person with HIV, we are requiring proof of the death of the person with HIV, evidence to prove that the petitioner is, in fact, the parent, and a sworn statement that either states that there are no other survivors eligible for payment or provides information about others who are eligible.

In cases in which more than one (*i.e.*, multiple) surviving children or surviving parents are filing, they may file one petition form jointly, which will contain the required documentation for all survivors, or they can file separate petition forms, which together will contain all of the required documentation for all survivors. In either case, survivors who have submitted all required documentation and are otherwise eligible for payment under the Act, will be paid their share(s) of the payment. Payment share(s) for multiple surviving children or surviving parents who do not submit the required documentation will remain in the Fund until such time as they complete their petitions by submitting such documentation or, if they have not submitted the documentation until the time that the Fund terminates, will revert back to the Treasury.

Petitioners Who Filed Claims Under the Factor Concentrate Settlement

We expect that many petitioners have previously filed claims under the "Factor Concentrate Settlement" (that is, under the class settlement in the case of *Susan Walker v. Bayer Corporation, et al.*). In order for these petitioners to satisfy the documentation requirements, they may submit original or duplicate copies of the documents submitted in the class action. However, while the settlement documents may be submitted, they do not necessarily meet all of the documentation requirements under the Ricky Ray Hemophilia Relief Fund Act. Thus, if the documents submitted in the class action do not

consist of all documentation required under the Act, these petitioners must submit additional documentation in order to establish eligibility under the Act.

The Reconsideration Process

Every individual who filed a petition and is denied payment may ask for a reconsideration. The request must be sent to the Deputy Associate Administrator for Health Professions, Health Resources and Services Administration, at the address designated in the regulation. The request must be received by the Department within 60 calendar days of the date the Department denied payment. The request should state the reasons for the reconsideration, but may not include any additional documentation not previously provided. The Deputy Associate Administrator will convene a panel to review all requests. The panel will consist of three individuals who are independent of the Ricky Ray Program Office and who are qualified to evaluate the petitions. The panel will review the case and make a recommendation to the Deputy Associate Administrator, who will review the recommendation and make a final determination as to whether or not the petitioner is eligible for payment. If the petition is deemed eligible for payment, it will be processed as soon as practicable in accordance with available funds.

Assistance Available to the Public

The Ricky Ray Program office will respond to inquiries from petitioners and other individuals regarding program policies and Trust Fund status, as well as questions relating to the content, format and procedure for filing a full petition. This information may be obtained by telephoning the Ricky Ray Program Office at 1-888-496-0338 between the hours of 8:30 a.m. and 5 p.m. (Eastern Standard Time). This is a toll-free number. Interested parties may also contact the Program office by regular or electronic mail. The e-mail address is Rray_program@hrsa.gov. Additional program information, including downloadable versions of all forms needed to file a petition, may be obtained at the Ricky Ray Program Office website located at <http://www.hrsa.gov/bhpr/rickyray>. The website will be regularly updated.

Justification for Omitting Notice of Proposed Rulemaking

The Department has decided to issue this document as an interim final regulation with a comment period of 30 days after publication in the **Federal**

Register. Under 5 U.S.C. 553(b), the Secretary has determined that it is contrary to the public interest to follow proposed rulemaking procedures before issuance of these regulations. We make this finding for the following reasons:

The purpose of the statute is to provide compassionate payments to individuals with blood-clotting disorders and HIV, to certain other individuals, and to their survivors. These are individuals with significant medical and other financial needs, and a delay in their ability to obtain the compassionate payments to which they are entitled would be inconsistent with the statutory purpose, with their needs, and thus, with the public interest. In addition, should any such individual die without one of the survivors described in the statute, no payment is permitted to be made to that individual's estate. The sooner the rule becomes effective, the more eligible individuals will be able to recover the statutory payment.

In addition, we believe that the streamlined filing procedures provided for by this rule will impose a minimal burden on petitioners and thus should not result in any controversy. Nevertheless, we are providing for a 30-day comment period which will expire 30 days before the effective date of the rule specified above. Thus, should we receive any significant comments that would cause us to revise this rule in any way that would affect the filing of the petitions, we will be able to do so, or to advise potential petitioners of our intent to do so, before they take any final action to file.

Economic and Regulatory Impact

Executive Order 12866 directs agencies to assess all costs and benefits of available regulatory alternatives and, when rulemaking is necessary, to select regulatory approaches that provide the greatest net benefits (including potential economic, environmental, public health, safety distributive and equity effects). In addition, under the Regulatory Flexibility Act (RFA) of 1980, if a rule has a significant economic effect on a substantial number of small entities, the Secretary must specifically consider the economic effect of the rule on small entities and analyze regulatory options that could lessen the impact of the rule.

Executive Order 12866 requires that all regulations reflect consideration of alternatives, of costs, of benefits, of incentives, of equity, and of available information. Regulations must meet certain standards, such as avoiding an unnecessary burden. Regulations which are "significant" because of cost, adverse effects on the economy,

inconsistency with other agency actions, effects on the budget, or novel legal or policy issues, require special analysis.

The Department has determined that resources to implement this rule are required only of petitioners in submitting their petitions and of the Department in reviewing them. Therefore, in accordance with the RFA of 1980, and the Small Business Regulatory Enforcement Fairness Act of 1996, which amended the RFA, the Secretary certifies that this rule will not have a significant impact on a substantial number of small entities. The Secretary has also determined that this rule does not meet the criteria for a major rule as defined by Executive Order 12866 and would have no major effect on the economy or Federal expenditures.

We have determined that the rule is not a "major rule" within the meaning of the statute providing for Congressional Review of Agency Rulemaking, 5 U.S.C. 801. We have made this decision because Congress, not the Department, determined the amount of compensation to be disbursed to eligible petitioners under the Act. In promulgating this rule, the Department is not exercising any discretion as to the amount of money given to petitioners deemed eligible under the Act.

Nor on the basis of family well-being will the provisions of this rule for the payment of awards to petitioners affect the following family elements: family safety, family stability; marital commitment; parental rights in the education, nurture and supervision of their children; family functioning, disposable income or poverty; or the behavior and personal responsibility of youth, as determined under section 654(c) of the Treasury and General Government Appropriations Act of 1999. This rule does not have an effect on disposable income because it provides compassionate payments to eligible petitioners without imposing a corresponding burden on petitioners.

Paperwork Reduction Act of 1995

In accordance with section 3506(c)(2)(A) of the Paperwork Reduction Act (PRA) of 1995, the Department is required to solicit public comments, and receive final Office of Management and Budget (OMB) approval, on any information collection requirements set forth in rulemaking. As indicated, in order to implement the Ricky Ray Hemophilia Relief Fund Act of 1998, certain information is required as set forth in §§ 130.20, 130.21, 130.22, 130.23, 130.30, and 130.31 in this rule.

In accordance with the PRA, we are submitting to OMB at this time the

following requirements for seeking emergency review of these provisions. We are requesting an emergency review because the data collection and reporting of this information is needed before the expiration of the normal time limits under OMB's regulations at 5 CFR part 1320, to ensure the timely availability of data as necessary to ensure payment to eligible petitioners. Delaying the data collection would delay implementation of the statutory purpose of providing compassionate payments to individuals with blood-clotting disorders and HIV, to certain other persons, and to their survivors. It is clear that eligible petitioners have significant medical and financial needs, and the emergency review will minimize any delay in their ability to obtain the compassionate payments to which they are entitled in accordance with the statutory purpose. Further, by statute, if an individual dies before receiving payment and there is no

eligible survivor, as described in the statute, the \$100,000 will revert to the Trust Fund. Implementing this regulation and making payments as soon as possible will ensure that Congress' intent in making compassionate payments to eligible individuals will be implemented, to the extent possible. We are requesting OMB's review and approval of this collection within 15 days from the date of publication of this rule, with a 180-day approval period. Written comments and recommendations will be accepted from the public if received by the individual designated below within 13 days from the date of publication of this rule. During this 180-day approval period, we will publish a separate **Federal Register** notice announcing the initiation of an extensive 60-day agency review and public comment period on the requirements set forth.

Collection of Information: The Ricky Ray Hemophilia Relief Fund Program.

Description of Respondents: Individuals who have an HIV infection and have any form of blood-clotting disorder, such as hemophilia, and were treated with antihemophilic factor at any time between July 1, 1982, and December 31, 1987. The spouse and former spouse of such individuals who acquired HIV from that individual qualify for payment, and children who acquired HIV through perinatal transmission from an eligible parent also qualify. In addition to these individuals, certain survivors also qualify.

Estimated Annual Reporting: The estimated annual reporting for this data collection is three hours for completing the petition and providing supporting documentation and one hour for the physician documentation. The estimated annual response burden is as follows:

Form	Number of respondents *	Responses per respondent	Hourly response	Total burden hours	Wage rate	Total hour cost
Petition Form and Supporting Documentation	5,000	1	3	15,000	\$15	\$225,000
Physician Documentation	1,000	1	1	1,000	40	40,000
Total	6,000	16,000	265,000

* It is estimated that no more than 7,500 individuals would be eligible for payment under the statute, and all petitions must be submitted by November 13, 2001. The burden estimate in this table is calculated by annualizing the predicted number of respondents over an 18-month period in which a petition may be filed. Approximately 6,000 of these eligible individuals may have existing documentation resulting from the class settlement *Susan Walker v. Bayer Corporation et al.*

The annual burden estimate includes the time required to review and complete the petition as well as the time to obtain and provide further medical and legal documentation of eligibility. Comments on this information collection activity should be sent to Wendy A. Taylor, OMB Desk Officer, Office of Management and Budget, Room 10235, New Executive Office Building, 725 17th Street, NW., Washington, DC 20053; FAX: (202) 395-6974.

Subpart A—General Provisions

§ 130.1 Purpose.

This part establishes criteria and procedures for implementation of the Ricky Ray Hemophilia Relief Fund Act of 1998 (the Act). This statute provides for compassionate payments to certain individuals with blood-clotting disorders, such as hemophilia, who contracted human immunodeficiency virus (HIV) due to contaminated antihemophilic factor within a specified time period, as well as to certain persons who contracted HIV from these individuals. In the event the individual eligible for payment is deceased, the Act also provides for payments to certain survivors of this individual.

§ 130.2 Definitions.

As used in this part:

(a) *Act* means the Ricky Ray Hemophilia Relief Fund Act of 1998, 42 U.S.C. 300c–22 note, as amended.

(b) *Antihemophilic factor* means any blood product (including, but not limited to, fresh frozen plasma, cryoprecipitate, factor VIII concentrate, and factor IX concentrate) used to treat a blood-clotting disorder.

(c) *Blood-clotting disorder* means a disorder (including, but not limited to, hemophilia and von Willebrand's disease) in which the blood does not clot normally, usually resulting in prolonged bleeding.

(d) *Child with HIV* means the individual described in § 130.10(c).

(e) *Former lawful spouse* means a person to whom an individual described in § 130.10(a):

(1) Was married according to the laws of the place where the person resided at any time after the date of the individual's treatment with antihemophilic factor (this date of treatment must have been between July 1, 1982, and December 31, 1987); and

§ 130.31 How and when is a petition for payment filed?

(a) In order to receive payment under the Act, all eligible individuals, as described in subpart B of this part, must file a complete petition with the Secretary. A complete petition is one

(g) *Deadlines.* The *deadline for filing a petition is November 13, 2001*. To meet this deadline, the petition must be postmarked, or accompanied by a receipt from a commercial carrier or U.S. Postal Service, by such date. Any new petition filed after such date will be returned to the petitioner as ineligible for payment, even if the petitioner filed a timely Notice of Intent as provided in the procedure described in the **Federal Register** of March 24, 1999 (64 FR 14251).

(1) If a petitioner submits a petition to the Secretary by November 13, 2001,

and the Secretary has determined, in accordance with § 130.34, that the petition does not meet the requirements of the Act, the petitioner may submit a new petition for payment, which includes additional documentation that was not included in the original petition. The deadline for filing this new petition is November 13, 2001.

(2) If a petitioner submits a petition to the Secretary by November 13, 2001, and the Secretary has not yet made the determination whether the petition meets the requirements of the Act, the petitioner may supplement the original petition with additional documentation at any time until the date of the Secretary's determination.

(*i.e.*, the Factor Concentrate Settlement) must file a complete petition with the Secretary, together with all required documentation, as described in subpart C of this part.

(1) If the petitioner submitted a claim in the Factor Concentrate Settlement which included all of the documents required to establish eligibility under the Act, he or she may submit original or duplicate copies of those documents to the Secretary.

(2) If the petitioner submitted a claim in the Factor Concentrate Settlement which included some, but not all, of the documents required to establish eligibility under the Act, he or she may submit original or duplicate documents as described in paragraph (h)(1) of this section, together with the additional documents required under the Act.

(3) If the petition is filed by someone other than an individual who filed a claim in the Factor Concentrate Settlement (*e.g.*, survivors of the person with HIV, personal representatives), he or she may submit original or duplicate documents as described in paragraph (h)(1) or (h)(2) of this section in order to satisfy that portion of the petition relating to the person with HIV.

§ 130.32 How and when will the Secretary determine the order of receipt of petitions?

(a) The order that the petition was received by the Secretary will be determined by the postmark date or the date indicated by a commercial carrier

or the U.S. Postal Service, in accordance with § 130.31(f).

(b) If the Secretary receives more than one petition which is either postmarked or dated by a commercial carrier or the U.S. Postal Service on the same date, the Department will conduct a random selection of each day's submissions to determine the order within each group of petitions.

(c) A number will be assigned to each petition indicating the order in which it is selected.

§ 130.33 How will the Secretary determine whether a petition is complete?

(a) If the Secretary determines that a petition does not include all of the documentation described in subpart C of this part (*i.e.*, it is incomplete), the petitioner will be given the opportunity to complete the petition prior to a final determination.

(b) The petitioner will be notified that the Secretary has determined that the petition is incomplete and, for purposes of retaining the assigned order number described in § 130.32, will be given 60 calendar days from the date of the notice to submit the missing information. If the petitioner submits the missing information within 60 calendar days, and the Secretary determines that the petition meets the requirements of the Act, the petitioner will be paid according to the assigned order number.

(c) If the petitioner is unable to complete the petition, the petitioner may submit written documentation to the Secretary, within 60 calendar days, which shows good cause why the required medical or legal documentation is unavailable. If the Secretary determines that the petitioner has provided an adequate showing of good cause and is otherwise eligible for payment under the Act, the petitioner will be paid according to the assigned order number.

(d) The Secretary will process the petition according to § 130.34 if:

(1) The petition does not include the required documentation, as described in subpart C, even after the opportunity is given to complete it;

(2) The 60-day deadline to complete the petition is not met; or

(3) An adequate showing of good cause why the required medical or legal documentation is unavailable is not provided.

§ 130.34 How will the Secretary determine whether to pay a petition?

(a) Subject to available resources, the Secretary will review each petition filed under the Act and make one of the following determinations:

(1) If the Secretary concludes that the petition does not meet the requirements of the Act, the petitioner will be so notified and payment will not be made. These petitioners may seek reconsideration under § 130.40.

(2) If the Secretary concludes that the petition does meet the requirements of the Act, the petitioner will receive payment as described in § 130.3.

(b) Petitions will be reviewed based upon the assigned number indicating the order of receipt, as described in § 130.32.

§ 130.35 How and when will the Secretary pay a petition?

(a) To the extent practicable, determinations on complete petitions will be made not later than 120 calendar days after the date that the Secretary determines that the petition is complete.

(b) Payments on petitions will be made as soon as practicable after a determination that a complete petition meets the requirements of the Act.

(c) For each eligible individual, as described in subpart B of this part, the Secretary will make only one payment on a petition.

(d) Where there are multiple surviving children or surviving parents, survivors who have submitted all required documentation and are otherwise eligible for payment under the Act, will be paid their share(s) of the payment, as described in § 130.11(b)(2) and (3). If any surviving children or surviving parents who are otherwise eligible for payment have not submitted the required documentation, their share(s) of the payment will remain in the Fund until such time as they complete their petitions by submitting such documentation. If they have not submitted the required documentation by the time that the Fund terminates, their share(s) will revert back to the Treasury.

(e) Payments on petitions will be made to eligible individuals, as described in subpart B, unless the eligible individual is legally incompetent to receive payment. A personal representative may receive payment for a legally incompetent individual by submitting the following written documentation to the Secretary:

(1) Proof showing that the eligible individual does not have the legal capacity to receive payment under the Act, such as a birth certificate showing that the eligible individual is a minor, or other evidence showing that the eligible individual is legally incompetent; and

(2) Proof showing that the personal representative has the authority to receive payment for the eligible individual, such as proof of legal guardianship.

Subpart E—Reconsideration Procedures

To seek such reconsideration, the petitioner must put a request for reconsideration in writing and send it to the Deputy Associate Administrator for Health Professions, Health Resources and Services Administration, Room 8A-54, 5600 Fishers Lane, Rockville, Maryland 20857. The request for reconsideration must be received by the Deputy Associate Administrator for Health Professions within 60 calendar days of the date the Department denied the petition for payment.

(b) *Request for reconsideration.* The request for reconsideration must state the reasons why the petitioner is seeking reconsideration. However, the

request for reconsideration may not include any additional documentation that was not included in the completed petition.

(c) *Review process.* When the Deputy Associate Administrator for Health Professions receives a request for reconsideration, he will convene a panel of three individuals, who are independent of the Ricky Ray Program Office, to review the initial determination and make a recommendation regarding payment. The Deputy Associate Administrator for Health Professions will review the panel's recommendation and then determine whether the petitioner is eligible for payment under the Act. The Deputy Associate Administrator for Health Professions' determination will constitute the Department's final action on the request for reconsideration. If the determination is that the petitioner is eligible for payment, the petitioner will receive payment as described in § 130.3. If the determination is that the petitioner is not eligible for payment, the Deputy Associate Administrator for Health Professions will inform the petitioner in writing of the reasons for this determination.
