1. What Action Is EPA Taking?

On July 31, 2000, George W. Bush, the Governor of Texas submitted the Texas 30 TAC Chapter 101, General Air Quality Rules, General Rules, as a revision to the existing Texas SIP. Texas specifically submitted revisions to sections 101.01 concerning Definitions; 101.06 concerning Upset Reporting and Recordkeeping Requirements; 101.07 concerning Maintenance, Startup and Shutdown Reporting, Recordkeeping and Operational Requirements; and 101.11 concerning Demonstrations.

In this document, we are approving these revisions to the Texas SIP. For more information on the SIP revision and our evaluation, please refer to our Technical Support Document (TSD) dated October 2000.

2. Where Can I Find EPA Policies on Excess Emission During SSM?

You can find our policies on excess emissions during SSM in the following documents: (1) Memoranda from Kathleen Bennett, formerly Assistant Administrator for Air, Noise and Radiation dated September 28, 1982, and February 15, 1983 (the Bennett Memo—old policy), and (2) Memorandum from Steven A. Herman, Assistant Administrator for Enforcement and Compliance Assurance, dated September 20, 1999 (the Herman Memo—new policy). The Herman Memo supplements the Bennett Memo. Our TSD dated October 2000, contains both of these documents.
