

responsibility." The participants' "Plan of Action" contained measures that range from tobacco regulation and gun control to the monitoring of financial transactions.

What of the "no passport" world celebrated by Keynes? In Quebec, as at other international trade meetings, state representatives behaved as agents of their country's exporters. You give us this "concession," they intone, and we will allow your exporters to enter our markets in return. Yet this misrepresents grossly the nature of trade and a free economy.

The primary rationale for free trade is not that exporters should gain larger markets, but that consumers should have more choice—even if the former is a consequence of the latter. By presenting themselves as members of an exporters' club, trade negotiators lay themselves open to attack by those who claim that free trade only works to the benefit of corporations.

Economists have known for centuries that free trade can be promoted without free-trade agreements. A country's inhabitants would obtain many of the advantages of free trade if only their own government would stop imposing restrictions on imports. Behind the veil of financial transactions, products are ultimately exchanged against products, so that the more imports that come into a country, the more will foreign demand grow for its exports. Or else, foreign exporters will have to invest in the country, thereby creating a trade deficit; nothing wrong with that either.

In other words, if you want free trade, just trade. Much of the pre-World War I free trade was, indeed, due to Britain's unilateral free-trade policies.

Trade agreements are only helpful to the extent that they help tame domestic producers' interests, support the primacy of consumers, and lock-in the gains from trade. Such treaties should not aim at reducing competition by pursuing other goals, of the sort embraced by the heads of state at Quebec. That would amount to no more than managed trade, the pursuit of which, paradoxically, might be said to unite both the leaders present and the mobs demonstrating against them.

William Watson, a Canadian economist, has noted in the Financial Post that the demonstrators who don't trust governments to negotiate free trade come, contradictorily, from political constituencies generally known for their blind faith in government. As for the small group of anarchists, they apparently do not realize that closed borders, and the prohibition of capitalist acts between consenting adults, actually increase state power.

On one stretch of Saturday's march, demonstrators wore large bar codes taped to their mouths, as if free trade meant turning them into speechless numbers. How droll! These demonstrators were certainly, and perhaps proudly, carrying in their wallets government-imposed Social Security numbers, drivers' licenses and Medicare cards, which, surely, have made them numbered state cattle. Another fabulous irony: American would-be demonstrators complained about being denied entry into Canada, while their entire message is predicated on tighter borders.

Once we realize that free trade is but the individual's liberty to exchange across political borders, it is easy to see that forbidding it requires punishment or threats of punishment. You have to fine or jail the importer who doesn't abide by trade restrictions. In FTAA debates as in other trade issues, a source of much confusion is the failure to realize that free trade is a consequence of individual sovereignty.

HONORING THE LATE DR.
CHARLES TEISSIER FREY

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 24, 2001

Mr. McINNIS. Mr. Speaker, it is with great sadness that I ask this body to pause for a moment and pay respects to one of the great citizens of the Western Slope of Colorado. On March 27, Dr. Charles Teissier Frey passed away. He was 83 years old. His passing is a great loss to the community of Cedaredge, Colorado. Dr. Frey is survived by his four sons, Larry, Robert, William, Stephen, his five grandchildren, wife Ada Lewis, and his sister, Evelyn.

Dr. Frey has been a member of the community since 1947. Before moving to Colorado, Dr. Frey attended Tulane University and Louisiana State University Medical School where he learned to be a doctor. In 1942, he joined the U.S. Army as a physician. Dr. Frey was a member of the American Board of Family Practice and the American Academy of Family Physicians. He has been given numerous honors, awards and distinctions as well as the National Rural Health Practitioner of the Year for 1987.

While in Cedaredge, Dr. Frey served on the Town Council for eight years. He also served as a volunteer with Project HOPE, where he worked on a Navajo Reservation in Belize, British Honduras and Taiwan. He was also a member of the Cedaredge Community Church.

In the late 60's, Dr. Frey gathered a group of acquaintances and friends to arrange funding for a nursing home which would be dedicated to maximum service and minimum profit. For 15 years the Horizons Nursing Home paid no dividends and no fees to the Board of Directors, while serving seniors admirably.

Mr. Speaker, the community of Cedaredge and Dr. Frey's family will miss him greatly. He has done so much for the community, that's why I would like to take a moment and honor Dr. Charles Teissier Frey. He is a great American and distinguished Coloradoan who will be greatly missed.

TRIBUTE HONORING DOCTOR
GORDON GILBERT

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 24, 2001

Mr. McINNIS. Mr. Speaker, I would like to take a moment and pay special tribute to a very special person. Doctor Gordon Gilbert, a professor of physics at Mesa State College for over 20 years who has seen and done a lot in his lifetime. It is with this life of service that I would now like to recognize.

After receiving his masters degree from the Massachusetts Institute of Technology, Dr. Gilbert went on to work for the Apollo Space Project at NASA. He was part of the team involved with the lunar landing. When that program finished, he went back to MIT to earn his doctorate. When he finished school, the University of Arizona offered him a faculty position, where he spent 10 years observing and

researching galaxies and quasars from the new Kitt Peak National Observatory.

Dr. Gilbert's dream has always been to teach, and that finally came true in 1980, when a small liberal arts college in Colorado hired him and a group of distinguished colleagues to build their physics program, which today is cutting edge. Dr. Gilbert has an unusual but highly successful style in his classes. He has been known to show up as Isaac Newton, Galileo, or Albert Einstein.

Dr. Gilbert has continued to teach and do research while battling prostate cancer for the last 10 years. "I'm told I have about three more years. I've been told that every other year since 1992." Despite all he has accomplished, his greatest gift is being a dad to his three kids, Beth, James, and Thomas. "It may be true. I don't laugh at it. I don't take it for granted. But I do know the roses have never smelled sweeter."

Mr. Speaker, Dr. Gilbert has done a lot for science, space exploration and his students. And despite having cancer, he is still giving it his all in the classroom and with his family. I applaud, Gordon and all that he has accomplished in his lifetime, and I want to thank him and wish him all the best in the future.

TRIBUTE TO COLORADO STATE
SENATOR JIM DYER

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 24, 2001

Mr. McINNIS. Mr. Speaker. I would like to take this opportunity to thank Colorado State Senator Jim Dyer of Durango for his years of service to the State of Colorado and to wish him good luck in his new position. Senator Dyer has accepted a nomination by Colorado Governor Bill Owens to join the Colorado Public Utilities Commission. Although the State Senate will miss Jim greatly, I know that Jim's leadership and service to the State of Colorado will continue with the PUC.

Senator Dyer has been a member of the State Legislature for 15 years serving in the House for 12 years and the Senate for 3 years. He was first elected to the House in 1986, and then in 1998 he was elected to the state Senate. He served as the chair of Agriculture and Natural Resources Committee, as well as on the Veterans and Military Relations Committee and the Transportation Committee. "I think we've all been served well by Jim. Regardless of the fact we're of different political parties, he's a good friend of mine. . . . Jim has always taken a strong stance for us locally. Jim has never lost the viewpoint that small government is important to the process," said County Commissioner Fred Klatt.

Senator Dyer has also had a distinguished career in the military. Senator Dyer served in the U.S. Navy from 1959–1964 and the U.S. Marines from 1964–1979 with three tours of duty in Vietnam. During his years in the military, Senator Dyer was recognized with the Soldiers Medal, three Bronze Stars, the Air Medal, the Gallantry Cross with Palm (Republic of Vietnam), and the Order of Military Merit (Republic of Korea).

In his spare time, Senator Dyer is involved as a member of the VFW, the American Legion, the National Rifle Association, and the

Durango Historical Society. "I feel he has been a very fine Senator and represented our area very well. He has always been responsive to our needs and responsive when he could do things for us at the state level," said Mayor Jim Shepard.

Mr. Speaker, I would like to take this opportunity to congratulate Senator Jim Dyer on his new position and wish his good luck in the future. He will be missed in the state legislature.

Mr. Speaker, Senator Dyer is a person of high integrity and honor. I consider it a privilege to have known and worked with him.

Jim has served the State of Colorado well in the state Senate and I know he will continue that record of leadership in his new capacity with the Colorado Public Utilities Commission.

TRIBUTE TO SENATOR GINETTE (GIGI) DENNIS

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 24, 2001

Mr. McINNIS Mr. Speaker, I would like to take this opportunity to thank Colorado State Senator Gigi Dennis for her years of service to the State of Colorado and to wish her good luck in her new position. Senator Gigi has served in the Colorado State Senate since 1995, but is resigning at the end of the month to accepted an appointment from President George W. Bush to become the Colorado Director of the Department of Agriculture's Office of Rural Development. "I'm proud of her," said her husband Dean Dennis. "I'm proud of her accomplishments." I know that Gigi's friends and neighbors in south-central Colorado, her colleagues in the Colorado legislature, and elected officials all across Colorado—including me—share Dean's sentiments. We are all proud of Gigi!

Senator Dennis has held numerous positions of real significance during her seven years in office, including Vice Chair of the Transportation Committee, a Member of the Legislative Council and Chairman of the Majority Caucus. Senator Dennis also served as the Rio Grande County Republican Secretary. Additionally, she served as a member of the State Accountability Commission on Education, and the Vice Chairman of the Education Committee (NCSL).

Senator Dennis summed up her feelings like this: "This resignation is not like walking away from my constituents, but creating a bigger circle of people I can impact through this office. In the end, it doesn't make any difference who gets the credit or who wins the fight. . .but whether Colorado citizens are better off for what we do. I'm extremely honored that President Bush has selected me for this position. This is another terrific opportunity to continue to help the State of Colorado, particularly the rural areas that I've represented over the years."

Mr. Speaker, I would like to take this opportunity to congratulate Senator Gigi Dennis on her new position and wish her good luck in the future. She will be missed in the state legislature.

Gigi has served the State of Colorado well in the state Senate and I know she will continue that record of leadership in her new capacity with the Department of Agriculture.

HONORING OMI, WINNER OF THE MALCOLM BALDRIGE AWARD

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 24, 2001

Mr. McINNIS. Mr. Speaker, I would like to take this opportunity to congratulate, Operations Management International, Inc., one of the 2000 Malcolm Baldrige National Quality Award winners. President Clinton presented the Malcolm Baldrige award to OMI. The award, first presented in 1988, recognizes US companies for business performance excellence and competitive improvement. It is the highest-level quality award given in the U.S.

The Baldrige Award evaluates organizations on seven performance excellence criteria: leadership, strategic planning, customer and market focus, information and analysis and human resource focus. This award recognizes organizations that play a major role in energizing our nation's economy and quality of life. OMI uses these criteria as a cornerstone for its "Obsessed With Quality" process. OMI is an employee-owned global leader in the management of water, wastewater and utility systems.

This is the first time that a water treatment company has won the Baldrige Award. OMI operates and maintains more than 160 public and private sector wastewater and water treatment facilities in 29 states and eight countries. Their primary services are processing raw wastewater to produce clean, environmentally safe effluent and processing raw groundwater and surface water to produce clean, safe drinking water.

"OMI began its quality journey in 1990 when we initiated our 'Obsessed with Quality' process. Winning the Baldrige Award demonstrates how our quality process continues to positively affect the millions of lives our people touch. . . My thanks to all OMI associates for a job well done," said OMI President Don S. Evans.

Mr. Speaker, OMI is helping our economy grow and is setting an example for other businesses to follow. I want to thank them and congratulate them for their continued success.

HONORING THE 100TH ANNIVERSARY OF WESTERN STATE COLLEGE

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 24, 2001

Mr. McINNIS. Mr. Speaker, I would like to take this opportunity to wish Western State College in Gunnison, Colorado a happy 100th birthday. Since 1901 Western State College has been a model of excellence. It is that record of achievement that I would now like to honor.

On April 16, 2001, then Governor James B. Orman signed a bill creating the Colorado State Normal School at Gunnison. This bill was a victory for the citizens of Gunnison, who would claim the first college west of the divide. This was the culmination of years of work on the part of Gunnison area citizens. Early efforts for a college came in 1885 when Archie

M. Stevenson, a Gunnison resident and state senator for the district, introduced a bill in the Colorado General Assembly.

The cornerstone for the Normal School building was laid in October of 1910 with the first classes beginning in September of 1911. A total of 13 students attended classes taught by ten professors. In 1923 the college's name was changed to Western State College and it became a liberal arts college. Over the years Western has earned a reputation as a College whose faculty care deeply about teaching and working closely with the students.

Western State College has developed strong academic programs in many areas and have attracted faculty with degrees from all over the world. Western's biology program has received a "Program of Excellence" award from the Colorado Commission on Higher Education. In 1975, Western's Water Workshop began, and continues to attract participants from around this region to work on one of west's most pressing issues.

Western has recently opened a state of the art \$9 million science building, making it one of the most sophisticated science facilities in the state. Its athletic department has placed in the top 10 nationally over the past few years in the Sears Cup for outstanding Division II schools.

Mr. Speaker, for 100 years, Western State College has continued to excel in its educational mission. I would like Congress to praise the institution for its outstanding accomplishments and wish it continued success and another 100 years of excellence.

TRIBUTE HONORING THE WINERY

HON. SCOTT McINNIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Tuesday, April 24, 2001

Mr. McINNIS. Mr. Speaker, I would like to recognize two of Grand Junction's leading restaurateurs and an outstanding dining establishment. After 28 years, Winery owner Frank Bering is retiring from the business, turning over the reins to Chris Blackburn who recently purchased this long-time staple of Main Street eateries. I would now like to pay tribute to both of these outstanding individuals and a wonderful restaurant known throughout western Colorado—The Winery.

Frank founded The Winery 28 years ago after he moved to the Western Slope from Chicago. Frank decided Grand Junction needed a good restaurant after he ordered a glass of red wine, which was served chilled instead of room temperature. With the help of Grand Junction residents, Frank opened The Winery. "I'm bittersweet about it, but I'm going on to a new life," Frank said in a recent Grand Junction Daily Sentinel story about leaving the business.

Frank's restaurant did very well, thanks both to great food and the oil and uranium boom of the late 70's and early 80's. It was then that Frank decided to open up G.B. Gladstone's, and managed to keep it going through the economic bust of the 80's. My good friend Chris Blackburn, who recently bought Gladstone's as well, views Frank as a pioneer who saw potential where no one else did. According to John Moss, another restaurant owner and personal friend of mine, Frank did more
