

ACTION: Final rule; technical amendment.

SUMMARY: The Food and Drug Administration (FDA) is amending its regulations to remove references to certain room numbers that no longer are valid because the address of the Center for Food Safety and Applied Nutrition (CFSAN) changed to 5100 Paint Branch Pkwy., College Park, MD, on December 14, 2001. FDA also is amending its regulations to remove a reference to an alternate site for submissions of documents to the Docket Management Branch. This alternate site is no longer available effective December 14, 2001. This action is editorial in nature and is intended to improve the accuracy and clarity of the agency's regulations.

EFFECTIVE DATE: December 14, 2001.

FOR FURTHER INFORMATION CONTACT: Louis B. Brock, Office of Regulations and Policy, Center for Food Safety and Applied Nutrition (HFS-24), 5100 Paint Branch Pkwy., College Park, MD, 20740-3835, 301-436-2378.

SUPPLEMENTARY INFORMATION: In the **Federal Register** of November 6, 2001 (66 FR 56034), FDA amended its regulations to reflect that on December 14, 2001, CFSAN's address was changed to 5100 Paint Branch Pkwy., College Park, MD 20740. This change of address will make room numbers cited in certain regulations invalid. Therefore, FDA is amending its regulations in 21 CFR parts 73, 101, 172, 173, 177, 178, and 184 to remove the phrase "rm. 3321" wherever it appears. FDA also is amending 21 CFR 10.20(f) to add a period after "20857" and to remove the following phrase: ", except that a submission which is required to be received by the Branch by a specified date may be delivered in person to the FDA building in Washington (Room 6819, 200 C Street, SW., Washington, DC 20204) and will be considered as received by the Branch on the date on which it is delivered." This alternate

site, originally provided for the convenience of the public, is no longer available because CFSAN's address has changed to College Park.

Publication of this document constitutes final action on these changes under the Administrative Procedure Act (5 U.S.C. 553). Notice and public procedure are unnecessary because FDA is merely correcting nonsubstantive errors.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs, 21 CFR chapter I is amended as follows:

1. Section 10.20(f) is amended by adding a period after "20857" and by removing the rest of the sentence.

2. Parts 73, 101, 172, 173, 177, 178, and 184 are amended by removing the words "rm. 3321" wherever they appear.

Dated: December 19, 2001.

Margaret M. Dotzel,
Associate Commissioner for Policy.

BILLING CODE 4160-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

21 CFR Part 510

New Animal Drugs; Change of Sponsor's Address

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect a change of sponsor's address for Phibro Animal Health.

DATES: This rule is effective December 27, 2001.

FOR FURTHER INFORMATION CONTACT: Lonnie W. Luther, Center for Veterinary Medicine (HFV-102), Food and Drug Administration, 7500 Standish Pl., Rockville, MD 20855, 301-827-0209.

SUPPLEMENTARY INFORMATION: Phibro Animal Health, One Parker Plaza, Fort Lee, NJ 07024, has informed FDA of a change of sponsor's address to 710 Rt. 46 East, suite 401, Fairfield, NJ 07004. Accordingly, the agency is amending the regulations in 21 CFR 510.600(c)(1) and (c)(2) to reflect the change.

This rule does not meet the definition of "rule" in 5 U.S.C. 804(3)(A) because it is a rule of "particular applicability." Therefore, it is not subject to the congressional review requirements in 5 U.S.C. 801-808.

List of Subjects in 21 CFR Part 510

Administrative practice and procedure, Animal drugs, Labeling, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act and under authority delegated to the Commissioner of Food and Drugs and redelegated to the Center for Veterinary Medicine, 21 CFR part 510 is amended as follows:

PART 510—NEW ANIMAL DRUGS

1. The authority citation for 21 CFR part 510 continues to read as follows:

Authority: 21 U.S.C. 321, 331, 351, 352, 353, 360b, 371, 379e.

2. Section 510.600 is amended in the table in paragraph (c)(1) by revising the entry for "Phibro Animal Health" and in the table in paragraph (c)(2) by revising the entry for "066104" to read as follows:

§ 510.600 Names, addresses, and drug labeler codes of sponsors of approved applications.

* * * * *

(c) * * *

(1) * * *

Firm name and address					Drug labeler code
*	*	*	*	*	*
Phibro Animal Health, 710 Rt. 46 East, suite 401, Fairfield, NJ 07004 ..					066104

BILLING CODE 4160-01-S

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

30 CFR Part 915

[IA-012-FOR]

Iowa Regulatory Program

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Final rule; approval of amendment.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSM), are approving an amendment to the Iowa regulatory program (Iowa program) under the Surface Mining Control and Reclamation Act of 1977 (SMCRA or the Act). The Iowa Department of Agriculture and Land Stewardship, Division of Soil Conservation, Mines and Minerals Bureau (Division or Iowa) proposed revisions to its April 1999 revegetation success guidelines concerning normal husbandry practices; minimum planting arrangements and tree and shrub stocking requirements for recreational, wildlife, and forested lands; and criteria for dry weight determinations for corn, soybean, oat, and wheat crops. Iowa intends to revise its program to be consistent with the corresponding Federal regulations.

EFFECTIVE DATE: December 27, 2001.

FOR FURTHER INFORMATION CONTACT: John W. Coleman, Office of Surface Mining, Mid-Continent Regional Coordinating Center, Alton Federal Building, 501 Belle Street, Alton, Illinois 62002. Telephone: (618) 463-6460.

SUPPLEMENTARY INFORMATION:

- I. Background on the Iowa Program
- II. Submission of the Amendment
- III. OSM's Findings
- IV. Summary and Disposition of Comments
- V. OSM's Decision
- VI. Procedural Determinations

I. Background on the Iowa Program

Section 503(a) of the Act permits a State to assume primacy for the

regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its program includes, among other things, “ * * * a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act * * *; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Iowa program on January 21, 1981. You can find background information on the Iowa program, including the Secretary's findings, the disposition of comments, and the conditions of approval in the January 21, 1981, **Federal Register** (46 FR 5885). You can find later actions on the Iowa program at 30 CFR 915.10, 915.15, and 915.16.

II. Submission of the Amendment

By letter dated August 17, 2001 (Administrative Record No. IA-446), Iowa sent us an amendment to its program under SMCRA and the Federal regulations at 30 CFR 732.17(b). Iowa sent the amendment in response to required program amendments at 30 CFR 915.16(b), (d), and (e). Iowa proposed changes to its April 1999 revegetation success guidelines entitled “Revegetation Success Standards and Statistically Valid Sampling Techniques.”

We announced receipt of the amendment in the September 24, 2001, **Federal Register** (66 FR 48841). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the adequacy of the amendment. The public comment period closed on October 24, 2001. We did not receive any comments. Because no one requested a public hearing or meeting, we did not hold one.

During our review of the amendment, we identified concerns about a typographical error in a provision for interseeding at Section III.H.4.(c)(ii); the interpretation of the revegetation success standards for recreational, wildlife, and forested lands at Section IV.E; and the interpretation of the dry weight determination for grain samples at Section V.A.2(l). We notified Iowa of the error at Section III.H.4.(c)(ii) and explained our interpretation of its

provisions at Sections IV.E and V.A.2(l) in a letter dated September 12, 2001 (Administrative Record No. IA-446.3A).

By letter dated September 28, 2001 (Administrative Record No. IA-446.5), Iowa agreed to correct the typographical error and concurred with our interpretation of its provisions at Sections IV.E and V.A.2(l).

III. OSM's Findings

This section contains our findings concerning the amendment to the Iowa program. We are making these findings in accordance with the criteria and procedural requirements of the Federal regulations at 30 CFR 732.15 and 732.17. Any revisions that we do not discuss below are minor wording changes or revised cross-references and paragraph notations to reflect organizational changes resulting from this amendment.

A. Normal Husbandry Practices

Section III, Part H of Iowa's April 1999 revegetation success guidelines describes normal husbandry practices that a permittee can use in the repair of rills and gullies without restarting the responsibility period for successful revegetation and bond liability. A permittee may address rill and gully erosion within the permit or partial permit area without restarting the responsibility period only if repairs are completed using the normal husbandry practice guidelines provided in this section. If the repair work requires augmented seeding, fertilization, or irrigation, the period of responsibility will restart. Normal husbandry practices do not include any temporary erosion control structures, such as silt fencing, straw, or hay bale dikes. This section includes requirements for terrace repair and maintenance; riprap repair and maintenance; land smoothing and reseeded; and liming, fertilizing, and interseeding.

The Federal regulations at 30 CFR 816.116(c)(4) for surface mining operations and 30 CFR 817.116(c)(4) for underground mining operations allow the regulatory authority, under specified conditions, to approve selective husbandry practices (excluding augmented seeding, fertilization, or irrigation) without extending the period of responsibility for revegetation success and bond liability. The regulatory authority must obtain prior approval from OSM in accordance with 30 CFR 732.17 that the practices are normal
