II. Background

A. What Action is EPA Taking?

On February 25, 2002, March 19, 2002, and May 7, 2002, NRDC filed objections with EPA regarding final rules establishing certain tolerances under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21

U.S.C. 346a, for the following seven pesticides:

- (1) Imidacloprid;
- (2) Mepiquat;
- (3) Bifenazate;
- (4) Zeta-cypermethrin;
- (5) Diflubenzuron;
- (6) Halosulfuron methyl; and
- (7) Pymetrozine.

NRDC's objections concern a number of issues under section 408 of the FFDCA including the additional 10x safety factor for the protection of infants and children and aggregate exposure to pesticide chemical residues. In the **Federal Register** of June 19, 2002, 67 FR 41628 (FRL-7167-7), the Agency announced the availability of, and sought public comment on these objections. EPA has received a request to extend the comment period. An extension was requested due to the broad nature of the NRDC objections documents and the large number of issues raised. The requestor felt that an extension to the comment period would give all interested parties the opportunity to develop detailed and comprehensive comments on these issues. The objections are available on EPA's website at <http://www.epa.gov/fedrgstr/EPA-PEST/2002/June/Day-19/p15465.htm>

The Agency provided a 60-day comment period, which was scheduled to end August 19, 2002. In response to the request for an extension, the Agency is extending the comment period on the NRDC tolerance objections to September 17, 2002.
