

public comment on this interim rule and with the 30-day delay of effective date generally prescribed by the Administrative Procedure Act (APA). 5 U.S.C 553.

Under section 553(b) of the APA, the OCC is not required to provide notice and an opportunity for public comment on a rule if we find, for good cause, that notice and comment are "impracticable, unnecessary or contrary to the public interest." The OCC finds that notice and public comment on this interim rule are unnecessary because we have already given the public an opportunity to comment on whether to extend the lending limits pilot program, through the rule we proposed on April 23, 2004. All commenters favored extending the program. This extension of the effective date of the pilot program merely provides additional time for the OCC to consider the comments and reach a decision on whether to extend, modify, or terminate the program. Further, the OCC finds that further notice and public comment are not in the public interest because a failure to extend the June 11, 2004 sunset date for the pilot program would cause unnecessary disruption in the operation of the program in its current form.

Under section 553(d) of the APA, the OCC must generally provide a 30-day delayed effective date for final rules. The OCC may dispense with the 30-day delayed effective date requirement "for good cause found and published with the rule." Similarly, section 302 of the Riegle Community Development and Regulatory Improvement Act of 1994 (CDRI), requires a banking agency to make a rule effective on the first day of the calendar quarter that begins on or after the date on which the regulations are published in final form, unless the agency finds good cause for an earlier effective date. 12 U.S.C. 4802(b)(1). The OCC finds that there is good cause to dispense with the two effective date requirements because a failure to extend the June 11, 2004 sunset date would cause unnecessary disruption in the operation of the program in its current form. In addition, the purpose of the APA and CDRI delayed effective date provisions is to afford affected persons a reasonable time to comply with rule changes. The interim rule makes no substantive changes to the existing lending limits pilot program.

#### Paperwork Reduction Act

The Office of Management and Budget (OMB) has reviewed and approved the collection of information requirements contained in the pilot program under control number 1557-0221, in accordance with the Paperwork

Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

#### Notice Format and Technical Corrections

June 3, 2004.

**AGENCY:** Federal Energy Regulatory Commission.

**ACTION:** Final rule.

**SUMMARY:** The Federal Energy Regulatory Commission (Commission) is revising its regulations to simplify the formats it requires for various types of notices. This change will make it easier for the Commission to take advantage of technological upgrades without the necessity of revising its regulations repeatedly. In addition, this Final Rule revises a number of outdated informational references in the Commission's regulations.

**EFFECTIVE DATE:** The rule will become effective July 12, 2004.

#### FOR FURTHER INFORMATION CONTACT:

Wilbur Miller, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, (202) 502-8953.

#### SUPPLEMENTARY INFORMATION:

*Before Commissioners:* Pat Wood, III, Chairman; Nora Mead Brownell, Joseph T. Kelliher, and Sudeen G. Kelly.

1. This Final Rule revises the Federal Energy Regulatory Commission's (Commission's) regulations to simplify the format requirements specified for various notices that are submitted to the Commission. It also contains a number of corrections to information references in various regulations.

2. Currently, several of the Commission's regulations require the inclusion of a form of notice with the filing and require that such forms of notice employ specified formats. These formats include headings, informational content, and similar, non-substantive matters. As the Commission continues to rely more heavily on electronic systems for document submission, detailed format requirements may interfere with its ability to employ upgrades and other improvements. Consequently, the Commission is deleting the format requirements listed below and replacing them with a reference to a new subsection, 18 CFR 385.203(d). That provision, in turn, refers to the Commission's Web site or Public Reference Room for instructions on form of notice formats. The Secretary will issue instructions that will be placed in both locations. This revision will provide for more uniform formatting and make it easier for the Commission to update form of notice formatting by eliminating the need for a rulemaking with every change.

3. The affected provisions of Title 18 of the Code of Federal Regulations are as follows:

- § 33.6—Notices of applications to authorize disposition of jurisdictional facilities.
- § 34.3(k)—Applications for issuance of securities.
- § 35.8(b)—Protests or interventions relating to electric service tariff filings.
- § 36.1(b)(1)—Applications for transmission service under section 211 of the Federal Power Act.
- § 154.209—Notice of proposed changes in gas tariff or of compliance filing.
- § 157.6(b)(7)—Applications for certificates of public convenience and necessity and for orders approving abandonment.
- § 157.205(b)(5)—Prior notice of activity pursuant to blanket certificate under section 7 of the Natural Gas Act.

- § 292.207(b)(4)—Applications for qualifying facility status.
- § 300.10(a)(1)—Applications for confirmation and approval of rates of Federal Power Marketing Administrations.

- § 365.3(c)—Applications for exempt wholesale generator status.

- § 385.206(b)(10)—Complaints.

- § 385.1104(a)(5)—Petitions for adjustments under the Natural Gas Policy Act. All of these provisions except §§ 157.6(b)(7), 157.205(b)(5) and 385.1104(a)(5) currently contain requirements that notices be provided on diskette. In order to retain these requirements, the revisions provide that the Secretary will specify electronic media.

4. In addition to notice format provisions, the Commission is revising various information references, such as addresses and URLs, that are out of date. Finally, this Final Rule deletes two provisions from the rules governing filings. Section 385.2003(c)(3) currently provides that confidential documents may not be filed via the internet. Section 385.2003(c)(4) provides that documents qualified for electronic filings may not be combined with other documents. These provisions are inconsistent with the Commission's decision, in section 385.2003(c)(2), to delegate to the Secretary the authority to determine what documents may be filed via the internet. They are therefore being deleted.

#### Information Collection Statement

5. The Office of Management and Budget's (OMB) regulations require that OMB approve certain information collection requirements imposed by agency rule. 5 CFR part 1320. This Final Rule contains no information reporting requirements, and is not subject to OMB approval.

#### Environmental Analysis

6. The Commission is required to prepare an Environmental Assessment or an Environmental Impact Statement for any action that may have a significant adverse effect on the human environment.<sup>1</sup> Issuance of this Final Rule does not represent a major Federal action having a significant adverse effect on the human environment under the Commission's regulations implementing the National Environmental Policy Act.<sup>2</sup>

<sup>1</sup> Order No. 486, Regulations Implementing the National Environmental Policy Act, 52 FR 47897 (Dec. 17, 1987), FERC Stats. & Regs. Preambles 1986–1990 ¶ 30,783 (1987).

<sup>2</sup> Order No. 486, 52 FR 47897 (Dec. 17, 1987); FERC Stats. & Regs. [Regulations Preambles 1986–1990] ¶ 30,783 (Dec. 10, 1984) (*codified at 18 CFR Part 380*).

Part 380 of the Commission's regulations lists exemptions to the requirement that an Environmental Analysis or Environmental Impact Statement be done. Included is an exemption for procedural, ministerial or internal administrative actions. 18 CFR § 380.4(1) and (5). This rulemaking is exempt under that provision.

#### Regulatory Flexibility Act Certification

7. The Regulatory Flexibility Act of 1980 (RFA)<sup>3</sup> generally requires a description and analysis of final rules that will have significant economic impact on a substantial number of small entities. This final rule concerns a matter of internal agency procedure and the Commission therefore certifies that it will not have such an impact. An analysis under the RFA is not required.

#### Effective Date

11. These regulations are effective July 12, 2004.

12. The provisions of 5 U.S.C. 801 regarding Congressional review of final rules do not apply to this Final Rule, because the rule concerns agency procedure and practice and will not substantially affect the rights of non-agency parties.

13. The Commission is issuing this as a Final Rule without a period for public comment. Under 5 U.S.C. 553(b), notice

<sup>3</sup> 5 U.S.C. 601–612.

and comment procedures are unnecessary where a rulemaking concerns only agency procedure and practice, or where the agency finds that notice and comment is unnecessary. This rule concerns only matters of agency procedure and will not significantly affect regulated entities or the general public.

**I. Introduction**

1. On February 11, 2004, the Commission issued a Final Rule (Order No. 646)<sup>1</sup> amending its financial reporting regulations by establishing new quarterly financial reporting for respondents that file FERC Annual Reports. Order No. 646 requires all FERC jurisdictional entities filing a FERC Annual Report Form No. 1, 1–F, 2, 2–A or 6 to file supplemental quarterly financial reports. These quarterly financial reports are the FERC Form No. 3–Q, Quarterly Financial Report of Electric Companies, Licensees, and Natural Gas Companies, and the FERC Form No. 6–Q, Quarterly Financial Report of Oil Pipeline Companies. Additionally, Order No. 646 made certain changes to the FERC Annual Reports including adding new reporting schedules for monthly transmission peak load data and ancillary services, updating the corporate officer's certification requirements, and accelerating the filing dates for the FERC Annual Reports.

2. Financial accounting and reporting provides needed information concerning a company's past performance and its future prospects. Without reliable financial information prepared in accordance with the Commission's Uniform Systems of Accounts and related regulations, the
