SUPPLEMENTARY INFORMATION:

A. Background

DoD has developed a three-year roll-out plan for supplier implementation of RFID. This rule addresses the second year of the plan. Year one of the plan was implemented in the final rule published at 70 FR 53955 on September 13, 2005. This interim rule adds requirements for contractors supplying materiel to DoD to affix passive RFID tags at the case and palletized unit load levels when shipping packaged petroleum, lubricants, oils, preservatives, chemicals, additives, construction and barrier materials, and medical materials to the Defense Distribution Depots in Albany, GA; Anniston, AL; Barstow, CA; Cherry Point, NC; Columbus, OH; Corpus Christi, TX; Hill, UT; Jacksonville, FL; Oklahoma City, OK; Norfolk, VA; Puget Sound, WA; Red River, TX; Richmond, VA; San Diego, CA; Tobyhanna, PA; and Warner Robins, GA; and the Air Mobility Command Terminals at Charleston Air Force Base, Charleston, SC; Naval Air Station, Norfolk, VA; and Travis Air Force Base, Fairfield, CA. The rule requires that the specified commodities delivered to the specified locations be tagged with a readable passive RFID tag in accordance with the applicable implementation plan at http://www.acq.osd.mil/log/rfid/implementation_plan.htm. The data encoding schemes that contractors may write to the tags are located at http://www.acq.osd.mil/log/rfid/tag_data.htm. In addition, contractors must send an advance shipment notice in accordance with the procedures at http://www.acq.osd.mil/log/rfid/advance_shipment_ntc.htm, to provide the association between the unique identification encoded on the passive tag(s) and the product information at the applicable case and palletized unit load levels.

This rule was not subject to Office of Management and Budget review under Executive Order 12866, dated September 30, 1993.

B. Regulatory Flexibility Act

This rule may have an impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* DoD has prepared a separate regulatory flexibility analysis, available at <http://www.acq.osd.mil/log/rfid/regflex.htm>. The analysis is summarized as follows:

This rule adds requirements for DoD contractors supplying materiel to DoD to affix passive RFID tags at the case and palletized unit load levels for specified commodities delivered to specified DoD locations. To create an automated and

sophisticated end-to-end supply chain, DoD is dependent upon initiating the technology at the point of origin, the DoD commercial suppliers. Without the assistance of the DoD supplier base to populate the DoD supply chain with passive RFID tags, a fully integrated, highly visible, automated end-to-end supply chain is untenable. DoD contractors are presently required to print and affix military shipping labels to every package delivered to DoD. For packaged operational rations, clothing, individual equipment, tools, personal demand items, and weapon system repair parts shipped to the Defense Distribution Depot in Susquehanna, PA, or the Defense Distribution Depot in San Joaquin, CA, DoD contractors already are required to affix passive RFID tags at the case and palletized unit load levels.

Options to comply with the requirements of the rule can be as simple as replacing existing military shipping label printers with RFID-enabled printers, which will allow DoD contractors to print military shipping labels with embedded RFID tags. The regulatory flexibility analysis describes other options and approximate costs to comply. The rule will also require contractors to provide an electronic advance shipment notice in accordance with the procedures at http://www.acq.osd.mil/log/rfid/advance_shipment_ntc.htm, to associate RFID tag data with the corresponding shipment. The objective of the rule is to improve visibility of DoD assets in the supply chain, increase accuracy of shipments and receipts, and reduce the number of logistic "touch points" in order to decrease the amount of time it takes to deliver materiel to the warfighter. The rule does not duplicate, overlap, or conflict with any other Federal rules.

C. Paperwork Reduction Act

This interim rule adds new information collection requirements. The Office of Management and Budget (OMB) has approved the information collection requirements for use through October 31, 2006, under OMB Control Number 0704-0434, in accordance with the emergency processing procedures of 5 CFR 1320.13. DoD invites comments on: (a) Whether the collection of information is necessary for the proper performance of the functions of DoD, including whether the information will have practical utility; (b) the accuracy of the estimate of the burden of the information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the

information collection on respondents, including the use of automated collection techniques or other forms of information technology.

Title: Defense Federal Acquisition Regulation Supplement (DFARS); Radio Frequency Identification Advance Shipment Notices.

Type of Request: New collection. (Of the following 31,556 estimated annual burden hours, 21,038 hours were previously approved under OMB Control Number 0704-0434, for the advance shipment notice requirements in the final rule published at 70 FR 53955 on September 13, 2005.)

Number of Respondents: 25,500.

Responses Per Respondent: 3,981.

Annual Responses: 101,515,500.

Average Burden Per Response:

Approximately 1.12 seconds.

Annual Burden Hours: 31,556.

Needs and Uses: DoD needs an advance shipment notice prior to shipment of materiel containing RFID tag data. DoD receiving personnel use the advance shipment notice to associate the unique identification encoded on the RFID tag with the corresponding shipment. Use of RFID technology permits DoD to create an automated and sophisticated end-to-end supply chain, thereby increasing visibility of assets and permitting delivery of supplies to the warfighter more quickly.

Affected Public: Businesses or other for-profit and not-for-profit institutions.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer: Ms. Hillary Jaffe.

Written comments and recommendations on the information collection should be sent to Ms. Jaffe at the Office of Management and Budget, Desk Officer for DoD, Room 10236, New Executive Office Building, Washington, DC 20503, with a copy to the Defense Acquisition Regulations System, Attn: Ms. Robin Schulze, OUSD (AT&L) DPAP (DARS), IMD 3C132, 3062 Defense Pentagon, Washington, DC 20301-3062. Comments can be received from 30 to 60 days after the date of this notice, but comments to OMB will be most useful if received by OMB within 30 days after the date of this notice.

To request more information on this information collection or to obtain a copy of the proposal and associated collection instruments, please write to Defense Acquisition Regulations System, Attn: Ms. Robin Schulze, OUSD (AT&L) DPAP (DARS), IMD 3C132, 3062 Defense Pentagon, Washington, DC 20301-3062.

D. Determination to Issue an Interim Rule

A determination has been made under the authority of the Secretary of Defense that urgent and compelling reasons exist to publish an interim rule prior to affording the public an opportunity to comment. DoD considers the implementation of RFID to be a strategic imperative, necessary to deliver supplies to our warfighters more quickly. Use of RFID technology improves the accuracy of shipment and receipt data, increases the visibility of assets throughout the DoD supply chain, and permits DoD to optimize the manner in which it moves and accounts for materiel. This interim rule adds commodities and DoD locations to those already required by the clause at DFARS 252.211-7006, Radio Frequency Identification.

DoD has developed a three-year roll-out plan for supplier implementation of RFID. This rule addresses the second year of the plan, and is necessary for effective application of RFID technology throughout the DoD supply chain. Comments received in response to this interim rule will be considered in the formation of the final rule.

SUMMARY: NMFS amends the regulations governing the North and South Atlantic

swordfish fisheries to modify the North and South Atlantic Swordfish quotas for the 2005 fishing year (June 1, 2005, through May 31, 2006) to account for updated landings information from the 2003 and 2004 fishing years. This action is necessary to ensure that current quotas are based on the most recent landings information and account for any underharvest from previous fishing years, consistent with the regulations at 50 CFR part 635. Additionally, this action implements a subsequent recommendation by the International Commission for the Conservation of Atlantic Tuna (ICCAT)(Recommendation 04-02) to extend the 2005 North Atlantic swordfish management measures.

DATES: Effective June 19, 2006.

ADDRESSES: For copies of this rule, write to Highly Migratory Species Management Division (F/SF1), 1315 East-West Highway, Silver Spring, MD 20910. Copies are also available on the internet at <http://www.nmfs.noaa.gov/sfa/hms>.

FOR FURTHER INFORMATION CONTACT: Megan Caldwell, by phone: 301-713-2347; by fax: 301-713-1917; or by email: Megan.Caldwell@noaa.gov.

SUPPLEMENTARY INFORMATION: The U.S. Atlantic swordfish fishery is managed under the 1999 Fishery Management Plan for Atlantic Tunas, Swordfish, and Sharks (FMP). Implementing regulations at 50 CFR part 635 are issued under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), 16 U.S.C. 1801 *et seq.* and the Atlantic Tunas Convention Act (ATCA), 16 U.S.C. 971 *et seq.* The ATCA authorizes the promulgation of regulations as may be necessary and appropriate to carry out ICCAT recommendations. Details regarding 2005 North and South Atlantic swordfish commercial quotas and the extension of the 2005 North Atlantic swordfish management measures were provided in the proposed rule (71 FR 7499, February 16, 2006) and are not repeated in this final rule.

Response to Comments

Comments on the proposed rule received during the public comment period are summarized below, together with NMFS' responses.

Comment 1: I am opposed to any increase in catch of swordfish due to the status of the North Atlantic swordfish stock.

Response: North Atlantic swordfish is currently managed under an international rebuilding program to rebuild the stock by 2009. As long as the
