

under the landfill, however, EPA and ADEQ have determined that the 1,1-DCE plume is from an upgradient source, and that the 19th Avenue Landfill is not contributing (*Assessment of Upgradient 1,1-DCE for City of Phoenix 19th Avenue Landfill*, Dames & Moore, November 1998). Vinyl chloride was detected above the action level in one of the monitoring wells and was also from off-site sources unrelated to the landfill. Vinyl chloride has not been above the action level since 2002 (*19th Avenue Landfill Exceedence Report for Vinyl Chloride*, URS, June 2002, and *Response to Agency Comments to the June 2002 Report*, URS, April 2003). Arsenic has been detected above action levels in two of the on-site wells, however arsenic is below levels of concern outside the boundaries of the landfill. EPA and ADEQ determined that the source of the arsenic is not contamination from the landfill itself, but native arsenic present in the soils. The arsenic is being mobilized into groundwater over a small area due to the oxygen low conditions near the landfill. (*Exceedence Report for Arsenic at Monitoring Well I-4*, URS, December 2003, *Technical Memorandum of Arsenic Concentrations in Groundwater Monitor Wells*, Hugh Rieck, ADEQ, April 2004, and *Exceedence Report for Arsenic at Monitoring Well I-4*, URS, June 2006, reference arsenic report). Again, if in the future it is determined that groundwater is impacted by the landfill, the protections will remain in place to compel cleanup. The supporting information that is referenced above is available in the deletion docket and site repositories and can also be provided to DWAZ.

Summary of Comment #2, Request from Michael Pops, President, Concerned Residents of South Phoenix: Mr. Pops contacted EPA and ADEQ by telephone with a request to extend the public comment period. He believed the community outreach EPA conducted regarding the notice was inadequate and requested that EPA and ADEQ conduct an outreach campaign to fully inform the affected community of the proposed action. He also was concerned with future use of the Site, and that the community would be unable to provide input or ensure that redevelopment plans would be acceptable to the community.

Response to Comment #2: EPA decided not to extend the timeframe for comment on this action beyond the required 30 days. EPA believes there was adequate time for the community to raise significant concerns regarding the deletion, and that the deletion action itself will not impact the community's

ability to comment on issues regarding the Site. EPA had issued a fact sheet to the Site mailing list and published a notice in the local paper, *The Arizona Republic*. We will work with ADEQ and the City of Phoenix to update the Community Involvement Plan and add other local newspapers and community groups to the outreach strategy as suggested for future actions. The public will continue to have an opportunity to comment to ADEQ, the lead agency, on any actions or activities associated with the Site even after deletion, particularly during the statutory Five-Year Review process.

Regarding future development at the Site, any plans would still need to follow all the applicable criteria under CERCLA and the NCP, and be protective of human health and the environment. In addition, the City of Phoenix filed a Declaration of Environmental Use Restriction on the property title in July 2006, prohibiting residential use and ensuring a process by which no landowner will be allowed to interfere with the remedy.

Summary of Comment #3, Letter from Karen O'Regan, City of Phoenix, Environmental Programs: This comment is in "support and concurrence" with the deletion action, and an expression of the commitment the City has to ensuring the remedy will be maintained and the groundwater monitored. The City will work with ADEQ on any "viable reuse proposals".

Response to Comment #3: EPA appreciates the concurrence, and on-going commitment to ensure the remedy will be maintained. EPA encourages the City to consider community concerns regarding the Site in the future, particularly as associated with the issues expressed by the community during this public comment period, and any input that may be provided during additional community involvement activities.

Shipping and Transportation; Technical, Organizational, and Conforming Amendments

ACTION: Final rule.

SUMMARY: This rule makes non-substantive changes throughout Titles 46 and 49 of the Code of Federal Regulations. The purpose of this rule is to make conforming amendments and technical corrections to Coast Guard navigation and navigable water regulations. This rule will have no substantive effect on the regulated public.

DATES: This final rule is effective September 25, 2006.

ADDRESSES: Comments and material received from the public, as well as documents mentioned in this preamble as being available in the docket, are part of docket USCG–2006–25697 and are available for inspection or copying at the Docket Management Facility, U.S. Department of Transportation, room PL–401, 400 Seventh Street, SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. You may also find this docket on the Internet at <http://dms.dot.gov>.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call Mr. Ray Davis, Coast Guard, telephone 202–

SUPPLEMENTARY INFORMATION:

Regulatory History

We did not publish a notice of proposed rulemaking (NPRM) for this regulation. Under both 5 U.S.C. 553(b)(A) and (b)(B), the Coast Guard finds that this rule is exempt from notice and comment rulemaking requirements because these changes involve agency organization and practices, and good cause exists for not publishing an NPRM for all revisions in the rule because they are all non-substantive changes. This rule consists only of corrections and editorial, organizational, and conforming amendments. These changes will have no substantive effect on the public; therefore, it is unnecessary to publish an NPRM. Under 5 U.S.C. 553(d)(3), the Coast Guard finds that, for the same reasons, good cause exists for making this rule effective less than 30 days after publication in the **Federal Register**.

Background and Purpose

Each year Titles 46 and 49 of the Code of Federal Regulations are updated on October 1. This rule, which becomes effective September 25, 2006, makes other technical and editorial corrections throughout Titles 46 and 49. This rule does not create any substantive requirements.

Regulatory Evaluation

This rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not “significant” under the regulatory policies and procedures of the Department of Homeland Security (DHS). We expect the economic impact of this rule to be so minimal that a full Regulatory Evaluation under the regulatory policies and procedures of DHS is unnecessary. As this rule involves internal agency practices and procedures and non-substantive changes, it will not impose any costs on the public.

Small Entities

Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we have considered whether this rule would have a significant economic impact on a substantial number of small entities. The term “small entities” comprises

small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. This rule does not require a general NPRM and, therefore, is exempt from the requirements of the Regulatory Flexibility Act. Although this rule is exempt, we have reviewed it for potential economic impact on small entities.

Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 or more in any one year. Though this rule will not result in an expenditure of this magnitude, we do discuss the effects of this rule elsewhere in this preamble.

Taking of Private Property

This rule will not effect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and does not create an environmental risk to

health or risk to safety that may disproportionately affect children.

Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of the Office of Information and Regulatory Affairs has not designated it as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Technical Standards

The National Technology Transfer and Advancement Act (NTTAA) (15 U.S.C. 272 note) directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through the Office of Management and Budget, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies. This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

Environment

We have analyzed this rule under Commandant Instruction M16475.1D, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA)(42 U.S.C. 4321–4370f), and have concluded that there are no factors in this case that would limit the use of a categorical exclusion under section 2.B.2 of the Instruction. Therefore, this

rule is categorically excluded, under figure 2–1, paragraph (34)(a) and (b), of the Instruction from further environmental documentation because this rule involves editorial, procedural, and internal agency functions. A final “Environmental Analysis Check List” and a final “Categorical Exclusion Determination” are available in the docket where indicated under **ADDRESSES**.
