Standard Airworthiness Certification of New Aircraft; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This document makes a correction to the final rule published in the **Federal Register** on September 1, 2006 (71 FR 52250), which amends regulations for issuing airworthiness certificates to certain new aircraft manufactured in the United States. This action is necessary to add an amendment number to the headings section at the beginning of the final rule. This correction does not make substantive changes to the final rule.

DATES: *Effective Date:* October 2, 2006.

FOR FURTHER INFORMATION CONTACT: Dan Hayworth, Airworthiness Certification Branch, AIR-230, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267-8449.

SUPPLEMENTARY INFORMATION:

Background

The September 1, 2006, final rule (71 FR 52250) inadvertently failed to include in the headings section at the beginning of the rule an amendment number for the change to 14 CFR part 91. Amendment numbers are a means by which the FAA keeps track of changes to its regulations. The final rule included an amendment number for the changes to 14 CFR part 21 (No. 21-88), but not for part 91. For this reason, we are adding amendment number 91-293 to the headings section at the beginning of the rule.

Correction

Issued in Washington, DC, on September 11, 2006.

Licensing and Safety Requirements for Launch; Correction

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: This document makes two minor corrections to a final rule that amends commercial space transportation regulations governing the launch of expendable launch vehicles. 71 FR 50507 (Aug. 25, 2006). This action is necessary to correct a paragraph designation and add a notation of a reserved appendix. This correction does not make substantive changes to the final rule.

EFFECTIVE DATES: September 25, 2006.

FOR FURTHER INFORMATION CONTACT: René Rey, Licensing and Safety Division, AST-200, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone (202) 267-7538; e-mail Rene.Rey@faa.gov.

SUPPLEMENTARY INFORMATION:

Background

In the August 25, 2006, final rule (71 FR 50507, 50531), amendatory instruction no. 6 added paragraph (d), *Measurement system consistency* to 14 CFR 413.7. However, an earlier FAA action had added paragraph (d), *Safety approval* to § 413.7. 71 FR 46847, 46852 (Aug. 15, 2006). It was not the FAA's intention in the August 25, 2006 rule to supersede the previously added paragraph (d). Thus, we are changing the paragraph designation of *Measurement system consistency* to 14 CFR 413.7(e).

Also, in the August 25, 2006 rule, amendatory instruction no. 21 added 14 CFR part 417 in its entirety. 71 FR at 50537. The table of contents for the part indicated that appendix F was reserved for future use. However, the text of part 417 inadvertently failed to include any reference to the existence of the reserved appendix. To avoid any possible confusion, we are adding a notation referencing the reserved appendix between the text of appendix E of part 417 and the text of appendix G of part 417.

Justification for Expedited Rulemaking

Section 553 of the Administrative Procedure Act, 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary, or contrary to the public interest, the agency may issue a rule without providing notice and an opportunity for public comment. We have determined there is good cause for making today's action final without prior proposal and opportunity for comment because the changes are minor technical corrections and do not change the substantive requirements of the rule. Thus, notice and public procedure are unnecessary.

The Amendment

■ Accordingly, the FAA amends Chapter 1 of Title 14 of the Code of Federal Regulations as follows:

PART 413—LICENSE APPLICATION PROCEDURES

■ 1. The authority citation for part 413 continues to read as follows:

Authority: 49 U.S.C. 70101-70121.

■ 2. Amend § 413.7 by removing paragraph (d) that was added on August 25, 2006 (71 FR 50531), and by adding paragraph (e) to read as follows:

§ 413.7 Application.

* * * * *

(e) *Measurement system consistency.* For each analysis, an applicant must employ a consistent measurements system, whether English or metric, in its application and licensing information.

PART 417—LAUNCH SAFETY

■ 3. The authority citation for part 417 continues to read as follows:

Authority: 49 U.S.C. 70101–70121.

■ 4. Amend part 417 by adding the heading of Appendix F in alphabetical order as follows:

Appendix F of Part 417—[Reserved]

Issued in Washington, DC, on September 11, 2006.

RIN 2700–AC40

[Notice: (06–067)]

Code of Conduct for International Space Station Crew

AGENCY: National Aeronautics and Space Administration.

ACTION: Final rule.

SUMMARY: The National Aeronautics and Space Administration (NASA) has adopted as final, without change, an interim final rule regarding the policy and procedures for International Space Station crewmembers provided by NASA for flight to the International Space Station.

DATES: *Effective Date:* September 26, 2006.

FOR FURTHER INFORMATION CONTACT:

Mick Schlabs, Senior Attorney, International Law Practice Group, Office of the General Counsel, NASA Headquarters, telephone (202) 358–2068, fax (202) 358–4117.

SUPPLEMENTARY INFORMATION:**A. Background**

NASA published an interim final rule at 65 FR 80303 on December 21, 2000 to set forth policy and procedures with respect to International Space Station crewmembers provided by NASA for flight to the International Space Station. They apply to all persons so provided, including U.S. Government employees, uniformed members of the Armed Services, citizens who are not employees of the U.S. Government, and foreign nationals.

NASA received no comments on the interim final rule. Therefore, NASA has adopted the interim final rule as a final rule without change.

This rule is not a major Federal action as defined in Executive Order 12866.

B. Regulatory Flexibility Act

NASA certifies that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because the administrative notification requirements of the rule are expected to affect less than 10 contracts per year.

C. Paperwork Reduction Act

The information collection requirements of the rule do not reach the threshold for requiring the Office of Management and Budget's approval under 44 U.S.C. 3501, et seq.

Guidance for Industry: Questions and Answers Regarding the Final Rule on Establishment and Maintenance of Records (Edition 4); Availability

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice of availability of guidance.

SUMMARY: The Food and Drug Administration (FDA) is announcing the availability of a guidance entitled “Questions and Answers Regarding Establishment and Maintenance of Records (Edition 4).” The guidance responds to various questions raised about the Public Health Security and Bioterrorism Preparedness and Response Act of 2002 (the Bioterrorism

Act) and the agency's implementing regulation, which requires the establishment and maintenance of records by persons who manufacture, process, pack, transport, distribute, receive, hold, or import food in the United States. Such records are to allow for the identification of the immediate previous sources and the immediate subsequent recipients of food. Persons covered by the regulation who employ 500 or more full-time equivalent employees (FTEs) had to be in compliance by December 9, 2005, and those who employ 11 to 499 FTEs had to be in compliance by June 9, 2006. Persons who employ 10 or fewer FTEs have until December 11, 2006, to be in compliance. “Person” includes an individual, partnership, corporation, and association.
