BILLING CODE 6560-50-P

DEPARTMENT OF THE INTERIOR**Bureau of Land Management****43 CFR Parts 3000, 3100, 3150, 3200, 3500, 3580, 3600, 3730, 3810, and 3830****[WO-610-4111-02-24 1A]****RIN 1004-AD95****Minerals Management: Adjustment of Cost Recovery Fees****AGENCY:** Bureau of Land Management, Interior.**ACTION:** Final rule.

SUMMARY: This final rule amends the Bureau of Land Management (BLM) mineral resources regulations to update some fees that cover the BLM's cost of processing certain documents relating to its mineral programs and some filing fees for mineral-related documents. These updates include fees for actions such as lease applications, name changes, corporate mergers, lease consolidations, and lease reinstatements. The fee changes are the BLM's continued response to recommendations made by the Department of the Interior's Office of Inspector General in a 1988 report. This report was part of a 1980s Presidential initiative, which called for all Federal agencies to charge appropriate user fees for agency services, consistent with the law. This final rule also makes some editorial corrections to the rule.

DATES: This final rule is effective October 1, 2007.

SUPPLEMENTARY INFORMATION:**Background**

The BLM has specific authority to charge fees for processing applications and other documents relating to public lands under Section 304 of the Federal

Land Policy and Management Act of 1976 (FLPMA), 43 U.S.C. 1734. In 2005, the BLM published a final cost recovery rule (70 FR 58854) establishing or revising certain fees and service charges, and also establishing the method it would use to adjust those fees and service charges.

At 43 CFR 3000.12(a), the rule provides that the BLM will annually adjust fees established in Subchapter C according to changes in the Implicit Price Deflator for Gross Domestic Product (IPD-GDP), which is published quarterly by the U.S. Department of Commerce. (See also 43 CFR 3000.10.) Because the fee recalculations are simply based on a mathematical formula, we have changed the fees in a final rule without providing opportunity for notice and comment. This final rule will allow the BLM to update these fees and service charges by October 1 of this year, as required by the 2005 regulation. The public had opportunity to comment on this procedure during the comment period on the cost recovery rule, and this new rule simply administers the procedure set forth in those regulations. The Department of the Interior, therefore, for good cause finds under 5 U.S.C. 553(b)(B) and (d)(3) that notice and public comment procedures are unnecessary, and that the rule may be effective less than 30 days after publication.

Discussion of Final Rule

Because the 2005 cost recovery final rule did not become effective until November 7, 2005, there was not a full calendar year between the effective date and the October 1 deadline the following year for updating the fees. See 43 CFR 3000.12(a). The BLM therefore decided to issue this first fee update rule in 2007, to be effective on October 1, 2007. The fees in the 2005 rule reflect adjustments using the Implicit Price Deflator for 4th Quarter 2004. See 70 FR 58857. The fee updates that will be effective each October 1 will be based on the Implicit Price Deflator for the 4th Quarter of the preceding calendar year. This first fee update, based on the Implicit Price Deflator for 4th Quarter 2006, thus reflects inflation over eight calendar quarters. Future adjustments will reflect inflation over four calendar quarters.

While preparing this rule, we found that in compiling the fee table at 43 CFR 3000.12 for the 2005 final rule (70 FR 58854), we overlooked some already-existing filing fees. The following

sections contain fees that should be reflected in the fee table:¹

- In subpart 3150: sections 3152.1 (application for oil and gas geophysical exploration permit (Alaska))² (\$25) and 3152.3 (renewal of exploration permit (Alaska)) (\$25)
- In subpart 3273: sections 3273.15 (site license application) (\$50) and 3273.26 (assignment or transfer of site license) (\$50)
- In part 3500: sections 3510.12(b) (lease modifications or fringe acreage leases) (\$25); 3512.12, 3512.13(a)(6)(iii), 3512.16(b), and 3512.17(b) (assignments, subleases, or transfer of operating rights) (\$25); 3512.19 (transfer of overriding royalty) (\$25); and 3516.15 (use permits) (\$25)
- In part 3580: sections 3583.3 (Shasta and Trinity hardrock leases) (\$25) and 3586.2 (renewal of existing sand and gravel leases in Nevada) (\$25)
- In Group 3700: section 3736.2(b) (notice of protest of placer mining operations) (\$10)
- In Group 3800: sections 3816.2 (application to open lands to location) (\$10) and 3830.21(h) (recording a notice of intent to locate mining claims on Stockraising Homestead Act lands) (\$25)

In this final rule, we moved these fees to the fee table at 43 CFR 3000.12 and included a reference to the fee table in the relevant section of the rule text. This is an administrative revision for the convenience of the reader and has no substantive effect.

We also revised sections 3211.10(a) and 3504.10, which address fees in parts 3200 and 3500, respectively, to reflect the relocation of the fees to the table at 43 CFR 3000.12. In section 3211.10(a), we added to the list the filing fees noted above. In section 3504.10, instead of separate paragraphs for filing fees and processing fees, new paragraph (a)

¹ This rule will not include in the fee table at 43 CFR 3000.12 the \$10 filing fee for requesting publication of notice of Leasing Act filing found at 43 CFR 3742.3-1(b)(4). The BLM is in the process of drafting a proposed rule that would, among other things, propose to remove this fee. The document to which this fee pertains relates to mining claims located in 1954 and earlier; no document of this type has been filed with the BLM in recent decades. If any such document were filed, the BLM would address it under a different part.

² Section 365 of the Energy Policy Act of 2005 (Pub. L. 109-58) directed in subsection (j) that "the Secretary shall not implement a rulemaking that would enable an increase in fees to recover additional costs related to processing drilling-related permit applications and use authorizations." In the 2005 cost recovery rule, the BLM interpreted this prohibition to apply to geophysical exploration permits. 70 FR 58854-58855. However, the \$25 fees for geophysical exploration permit applications for Alaska and renewals of exploration permits for Alaska pre-dated the 2005 cost recovery rule and were not affected by the Energy Policy Act prohibition.

Simply has the fee table, to which we added the filing fees and reordered the listed actions to put them in the same order as the corresponding sections in the rule text. The reference to exploration licenses that was in paragraph (a) was moved to new paragraph (b). These are also administrative revisions with no substantive effect.

Finally, we corrected minor errors in the existing rule. In section 3000.10(c), we changed the word “annually” to “quarterly” to correctly reflect the frequency of publication of the Implicit Price Deflator for Gross Domestic Product. In section 3103.1–2(a)(1), which addresses where fees should be submitted, we deleted the word “filing”, as the fees referenced include processing fees. In section 3602.11(c),

we changed “as provided in section 3602.31(a)” to “as provided in section 3602.31(b)”, which is the correct cross-reference. We also changed the title of the fee table at 43 CFR 3000.12 to: “FY [YEAR] Processing and Filing Fee Table.” These are administrative revisions with no substantive effect.

The calculations that resulted in the new fees are included in the table below.

³ The Existing Fee was established by the 2005 cost recovery rulemaking, published October 7, 2005 (70 FR 58854), effective November 7, 2005.

⁴From 4th Quarter 2004 (109.426), to 4th Quarter 2006 (116.895) the IPD–GDP increased by 6.83%. The value in the IPD–GDP Increase column is 6.83% of the Existing Fee.

⁵The sum of the Existing Fee and IPD–GDP Increase is the New Value.

⁶The New Fee for 2008 is the New Value rounded to the nearest \$5.00.

⁷As explained in footnote 1, above, the Energy Policy Act of 2005 (Pub. L. 109–58) prohibited certain fee increases that the BLM interpreted to apply to geophysical exploration permit applications. The \$25 fee for geophysical exploration permit applications for Alaska pre-dated the 2005 cost recovery rule and was not affected by the Energy Policy Act prohibition. However, we interpret the provision quoted as prohibiting us from increasing this \$25 fee.

⁸We interpret the Energy Policy Act prohibition discussed in footnotes 1 and 6, above, as prohibiting us from increasing this \$25 fee, as well.

⁹The fee for nomination of lands under Part 3200 was added to the table by the final rule published on May 2, 2007 (72 FR 24400). Because the fee has been in effect for less than one year, we did not update it in this rulemaking.

How Fees Are Adjusted

The figures in the “New Value” column in the table above, not those in the “New Fee” column, will be used in the future as the basis for calculating the annual adjustment to these fees. Because the new values are rounded to the nearest \$5.00 in setting the new fees, future fees based on the figures in the “New Fee” column would become significantly over-or-under-valued over time. However, if the “New Value” column is blank because the fee was not updated in this rulemaking, future adjustments will be based on the figures in the “New Fee” column. Adjustments to future fees will be made by multiplying the annual change in the IPD–GDP by the reported New Value in the previous year’s rulemaking. This calculation will define a new value for that year, which will then be rounded to the nearest \$5.00 to establish the new adjusted fee.

Procedural Matters

Regulatory Planning and Review (Executive Order 12866). This document is not a significant rule and the Office of Management and Budget has not reviewed this rule under Executive Order 12866. We have made the assessments required by E.O. 12866 and the results are given below.

The BLM has determined that the rule will not have an annual effect on the economy of \$100 million or more. It will not adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or state, local, or Tribal governments or communities. This determination is based on the analysis that the BLM prepared in conjunction with the 2005 final rule. For instructions on how to view a copy of the analysis, please contact one of the persons listed in the **FOR FURTHER INFORMATION CONTACT** section, above.

This rule will not create inconsistencies or otherwise interfere with an action taken or planned by another agency. This rule does not change the relationships of the onshore minerals programs with other agencies’ actions. These relationships are

included in agreements and memoranda of understanding that would not change with this rule.

In addition, this final rule does not materially affect the budgetary impact of entitlements, grants, loan programs, or the rights and obligations of their recipients. This rule does apply an inflation factor that increases some existing user fees for processing documents associated with the onshore minerals programs. However, these fee increases are less than 7% and do not materially affect the budgetary impact of user fees.

Finally, this rule will not raise novel legal issues. As explained above, this rule simply implements a process to account for inflation that was proposed and explained in the 2005 cost recovery rule.

The Regulatory Flexibility Act. This final rule will not have a significant economic effect on a substantial number of small entities as defined under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). A Regulatory Flexibility Analysis is not required. Accordingly, a Small Entity Compliance Guide is not required. For the purposes of this section, a small entity is defined by the Small Business Administration (SBA) for mining (broadly inclusive of metal mining, coal mining, oil and gas extraction, and the mining and quarrying of nonmetallic minerals) as an individual, limited partnership, or small company considered to be at arm’s length from the control of any parent companies, with fewer than 500 employees. The SBA defines a small entity differently, however, for leasing Federal land for coal mining. A coal lessee is a small entity if it employs not more than 250 people, including people working for its affiliates. The SBA would consider many, if not most, of the operators the BLM works with in the onshore minerals programs to be small entities. The BLM notes that this final rule does not affect service industries, for which the SBA has a different definition of “small entity.”

The final rule will affect a large number of small entities since nearly all of them will face fee increases for activities on public lands. However, we

have concluded that the effects will not be significant. The average increase in the fixed fees will be less than 7 percent as a result of this final rule. The adjustments result in no increase in the fee for processing of eight documents relating to the BLM’s minerals programs. The highest adjustment is for mineral patent adjudications involving more than 10 mining claims, which will be increased by \$170.00. For the 2005 final rule, the BLM completed a threshold analysis which is available for public review in the administrative record for that rule. (For instructions on how to view a copy of that analysis, please contact one of the persons listed in the **FOR FURTHER INFORMATION CONTACT** section, above.) The analysis for the 2005 rule concluded that the fees would not have a significant economic effect on a substantial number of small entities.

The Small Business Regulatory Enforcement Fairness Act. This final rule is not a “major rule” as defined at 5 U.S.C. 804(2). The final rule will not have an annual effect on the economy greater than \$100 million; it will not result in major cost or price increases for consumers, industries, government agencies, or regions; and it will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of U.S.-based enterprises to compete with foreign-based enterprises. For the 2005 final rule, which established the fee adjustment procedure that this rule implements, the BLM completed a threshold analysis, which is available for public review in the administrative record for that rule.

Executive Order 13132, Federalism. The proposed rule will not have a substantial direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. In accordance with Executive Order 13132, the final rule does not have significant Federalism effects. A Federalism assessment is not required.

The Paperwork Reduction Act of 1995. These regulations contain

information collection requirements. As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), we submitted a copy of the proposed information collection requirements to the Office of Management and Budget (OMB) for review. The OMB approved the information collection requirements under the following Control Numbers:

Oil and Gas

- (1) 1004-0034 which expires April 30, 2009;
- (2) 1004-0074 which expires December 31, 2009;
- (3) 1004-0137 which expires July 31, 2010;
- (4) 1004-0162 which expires February 28, 2009;
- (5) 1004-0185 which expires July 31, 2009;

Geothermal

- (6) 1004-0132 which expires July 31, 2010;

Coal

- (7) 1004-0073 which expires March 31, 2010;

Mineral Materials

- (8) 1004-0103 which expires March 31, 2008;

Mining Claims

- (9) 1004-0025 which expires November 30, 2009;
- (10) 1004-0114 which expires February 28, 2010; and

Leasing of Solid Minerals Other Than Oil Shale

- (11) 1004-0121 which expires November 30, 2009.

Takings Implication Assessment (Executive Order 12630). As required by Executive Order 12630, the Department of the Interior has determined that this rule will not cause a taking of private property. No private property rights will be affected by a rule that merely reports changes in service fees. The Department therefore certifies that this final rule does not represent a governmental action capable of interference with constitutionally protected property rights.

Civil Justice Reform (Executive Order 12988). In accordance with Executive Order 12988, the BLM finds that this final rule will not unduly burden the judicial system and meets the requirements of Sections 3(a) and 3(b)(2) of the Executive Order.

The National Environmental Policy Act (NEPA). The BLM has determined that this final rule is administrative and involves only procedural changes addressing fee requirements. In promulgating this rule, the government is conducting routine and continuing government business of an administrative nature having limited context and intensity. Therefore, it is

categorically excluded from environmental review under Section 102(2)(C) of NEPA, pursuant to 516 DM 2.3A and 516 DM 2, Appendix 1, Items 1.7 and 1.10. In addition, the final rule does not meet any of the 10 criteria for exceptions to categorical exclusions listed in 516 DM 2, Appendix 2.

Pursuant to Council on Environmental Quality regulations (40 CFR 1508.4) and the environmental policies and procedures of the Department of the Interior, the term "categorical exclusions" means categories of actions which do not individually or cumulatively have a significant effect on the human environment and which have been determined to have no such effect in procedures adopted by a Federal agency and therefore require neither an environmental assessment nor an environmental impact statement.

The Unfunded Mandates Reform Act of 1995. The BLM has determined that this proposed rule is not significant under the Unfunded Mandates Reform Act of 1995, 2 U.S.C. 1532, because it will not result in state, local, private sector, or tribal government expenditures of \$100 million or more in any one year. This proposed rule will not significantly or uniquely affect small governments. Therefore, the BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1501 *et seq.*).

Consultation and Coordination with Indian Tribal Governments (Executive Order 13175). In accordance with Executive Order 13175, the BLM has determined that this proposed rule does not include policies that have tribal implications. A key factor is whether the rule would have substantial direct effects on one or more Indian tribes. The BLM has not found any substantial direct effects. Consequently, the BLM did not utilize the consultation process set forth in section 5 of the Executive Order.

Data Quality Act. In developing this rule, we did not conduct or use a study, experiment, or survey requiring peer review under the Data Quality Act (Pub. L. 106-554).

Effects on the Nation's Energy Supply (Executive Order 13211). In accordance with Executive Order 13211, the BLM has determined that this proposed rule is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The distribution of or use of energy would not be unduly affected by this proposed rule.

■ 3. Revise § 3000.12(a) to read as follows:

§ 3000.12 What is the fee schedule for fixed fees?

(a) The table in this section shows the fixed fees that you must pay to BLM for the services listed for Fiscal Year 2008. These fees are nonrefundable and must be included with documents you file under this chapter. Fees will be adjusted annually according to the change in the Implicit Price Deflator for Gross Domestic Product (IPD–GDP) by way of publication of a final rule in the **Federal Register** and will subsequently be posted on the BLM Web site (<http://www.blm.gov>) before October 1 each year. Revised fees are effective each year on October 1.

Child Care and Development Fund Error Rate Reporting

AGENCY: Administration for Children and Families (ACF), HHS.

ACTION: Final rule.

SUMMARY: This final rule revises the Child Care and Development Fund (CCDF) regulations to provide for the reporting of error rates in the expenditure of CCDF grant funds by the fifty States, the District of Columbia and Puerto Rico. The error rate reports will serve to implement provisions of the *Improper Payments Information Act of 2002 (IPIA)* and the *President's Management Agenda (PMA)*'s goal of "Eliminating Improper Payments."

DATES: Effective October 1, 2007.

I. Background

This final rule adds a new subpart to the Child Care and Development Fund (CCDF) regulations that requires States, the District of Columbia and Puerto Rico to employ a case review process in calculating CCDF error rates in accordance with an error rate methodology established by the Secretary of Health and Human Services (the Secretary). This methodology is specified in this rule and associated information collection forms and instructions. The final rule requires States, the District of Columbia and Puerto Rico to report specified information regarding errors to the Department of Health and Human Services. A discussion of comments received in response to the publication

of a Notice of Proposed Rulemaking (NPRM) on March 2, 2007 (72 FR 9491) may be found below in the preamble. This final rule is not substantively different from the NPRM; however, minor technical changes have been made to address concerns raised by some commenters.

A. Child Care and Development Fund (CCDF)

CCDF provides Federal funds to States, Territories, Indian Tribes and tribal organizations for the purpose of assisting low-income families, including families receiving or transitioning from the Temporary Assistance for Needy Families program (TANF), in the purchase of child care services, thereby allowing parents to work or attend job training or an educational program. States and Territories also must spend no less than four percent of their CCDF allotment on expenditures to improve the quality and availability of child care. CCDF is provided to States, Territories and Tribes—there is no provision for direct funding to individual families or providers.

Federal law establishes eligibility criteria for families receiving CCDF assistance; however, States and Territories administering CCDF funds may impose more restrictive eligibility standards. Regulations governing CCDF are codified in 45 CFR parts 98 and 99, and the Federal definition of a child's eligibility for child care services is set forth in 45 CFR 98.20. This description includes eligibility requirements related to a child's age, a child's special needs or protective services status, family
