

Hortica Insurance, I have no doubt that his commitment to community will continue unabated for years to come. For the past years of service, and for those to come, I offer my utmost thanks to Mr. Bob McClellan of Edwardsville, Illinois. Enjoy your retirement, Bob.

IN RECOGNITION OF MR. AND MRS.  
ROBERT MILLER

**HON. MIKE ROGERS**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 19, 2008*

Mr. ROGERS of Alabama. Madam Speaker, I respectfully request the attention of the House today to pay recognition to an important day in the lives of two constituents of mine, Mr. and Mrs. Robert Miller.

On June 28th, the Millers will celebrate their 50th wedding anniversary. The couple will gather with friends and family at the Townsend's Warehouse on the 28th to commemorate this special occasion.

I would like to congratulate Robert and Patricia for reaching this important milestone in their lives. They are shining examples of love and dedication for us all, and I wish them and their family all the best at this important occasion.

IN HONOR OF THE 140TH ANNIVERSARY OF THE YPSILANTI DISTRICT LIBRARY

**HON. JOHN D. DINGELL**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 19, 2008*

Mr. DINGELL. Madam Speaker, I rise today to honor the Ypsilanti district library and to commemorate its 140 years of service to the Ypsilanti community. In 1868, only 31 years after Michigan became a State, a group of three women who were committed to promoting reading and literacy founded the library in the small room of a building on Huron St. It began with only 175 books, and today has expanded to three branches with a collection of over 300,000 volumes.

In addition to this impressive collection of reading material, the library provides other outstanding services to the community. It offers classes on computer skills and specific software programs, which provide participants with the tools they need to succeed in this technology-driven world. Last year, the library ran over 1,000 youth-oriented programs, which reached over 24,000 people in the Ypsilanti area. The Ypsilanti Library's "Tumblebooks" program provides animated picture books online for young children, which promotes early reading skills. Such services are invaluable in Michigan, as they help combat illiteracy while sparking a child's imagination and desire to continue learning.

Libraries offer themselves as a tremendous resource to those who are learning to read and those who love to read. Without libraries many young children would not have access to new books or computers with access to the Internet. I have always believed that teaching children to read provides them with an impor-

tant lifelong tool. The Ypsilanti district library should be commended for what it has done to further this cause.

I am proud of the Ypsilanti library's many contributions to Michigan's 15th Congressional district and ask my colleagues to join me in congratulating the library on 140 wonderful years of service.

CONGRESS MUST ACT TO HELP  
SHRIMPERS

**HON. RON PAUL**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 19, 2008*

Mr. PAUL. Madam Speaker, the American shrimp industry is a textbook example of a great American business crippled by foolish government policies. Congress and the federal bureaucracy have burdened shrimpers with needless regulations and laws that dramatically raise shrimpers' cost of doing business while subsidizing American shrimpers' overseas competitors. Unless Congress soon reverses course and repeals these destructive government policies, many shrimpers will be forced out of business.

Congress's refusal to take any constructive action to address skyrocketing fuel costs has, in particular, hurt shrimpers. Some shrimpers are so desperate to lower their fuel costs that they are going to Mexico in search of affordable fuel. Think about this, Madam Speaker it is cheaper for shrimpers to travel to Mexico to buy gas than to obtain gas in the USA. Yet, Congress still refuses to take reasonable actions, such as expanding offshore drilling or repealing federal laws that delay the production of refineries, to expand oil supply and thus reduce the price of fuel.

The federal government has also imposed numerous regulations on shrimpers dealing with use of items such as bycatch reduction devices and turtle excluder devices (TEDS). Madam Speaker, it is common to speak of the negative effects of regulations as "unintended consequences." However, it is difficult to speak of the effects of the TEDS on shrimpers as unintended consequences when the National Marine Fisheries Service heard industry representatives and representatives of communities whose economies rely on a thriving shrimping industry present first-hand testimony on how these TEDS regulations would harm shrimpers.

The problems shrimpers face are compounded by foreign competitors who are taking advantage of the government-created vulnerabilities in the American shrimp industry. Adding insult to injury, the federal government is forcing American shrimpers to subsidize their competitors through international agencies such as the Overseas Private Investment Corporation, the Export-Import Bank, and the International Monetary Fund! In fact, United States taxpayers have provided over \$16,500,000,000 to the home countries of the leading foreign competitors of American shrimpers since 1999.

In order to stop the federal government from punishing shrimpers with unfair regulations and forcing them to subsidize their major competitors, I introduced the Shrimp Importation Financing Fairness Act. This legislation would place a moratorium on any restrictive regula-

tions negatively impacting the shrimp industry and prevent any taxpayer money from going to any country that exported more than 20 million pounds of shrimp to the United States in the previous six months. However, Congress chose not to even take these simple steps to help the American shrimp industry.

Of course, American shrimpers, like all American businesses that compete in the global marketplace, also suffers from the weak U.S. dollar. Congress's fiscal irresponsibility is a major cause of the weakening U.S. dollar.

Madam Speaker, it is still not too late or Congress to help the shrimp industry. Congress should immediately end subsidies to American shrimpers' foreign competitors, place a moratorium on harmful regulations imposed on the shrimp industry, and take action to reduce fuel prices by expanding the supply of oil. I urge my colleagues to join me in working to fix the misguided government policies that are harming America shrimpers.

RECOGNIZING SEAN WARREN OF  
VIRGINIA BEACH

**HON. THELMA D. DRAKE**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 19, 2008*

Ms. DRAKE. Madam Speaker, I rise to recognize the outstanding achievements of Sean Warren of Virginia Beach, and to commend him on becoming a Congressional Award Gold Medalist. This recognition by the United States Congress is the highest honor bestowed upon America's youth. It serves as a testament to Sam's strength of character and commitment to our national values of dedication to public service and the cherished qualities of personal growth, initiative, and achievement, all of which are cornerstones of the Congressional Award.

Sean's volunteer efforts are tremendous, speaking very highly of him and his level of commitment to the community and to public service. In earning the rank of Eagle Scout, Sean worked with the Lynnhaven Baseball Fields Executive Board to provide a children's playground area onsite. In addition, he continues to be active within the Boy Scouts of America (BSA) Tidewater Council, serving as Junior Assistant Scoutmaster and Senior Patrol Leader, completing the Venturing Scout program, receiving the BSA Tidewater Council Venturing Leadership Award, and participating in the Physical Fitness QUEST and Fitness for Life programs.

Sean has devoted time and energy to excellence in physical fitness, improving his running and weightlifting capacity for the Navy Junior Reserve Officers Training Corps (NJROTC) and football at Princess Anne High School. He has engaged in opportunities also for advanced leadership experience, including his position as Cadet Athletic Commander for his NJROTC unit and as a member of the 2006 COPE Program. Sean has balanced the challenges of public service with his own personal welfare and developed a well-rounded persona.

Sean has become a role model not only his peers and teammates, but for the large community around him. Upon receiving the Congressional Medal, he joins a most elite group of our Nation's youth who have set and

achieved this very commendable goal. I am certain Sean's incredible accomplishments, dedication to service, and evident leadership talents will continue to speak highly of him, as they do now.

# INTRODUCTION OF IMPORTED ETHANOL FACILITATION ACT

**HON. MARK UDALL**

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 19, 2008*

Mr. UDALL of Colorado. Madam Speaker, today I am introducing a bill to facilitate the importation of ethanol. It is cosponsored by my colleague from Colorado, Mr. PERLMUTTER, and I appreciate his support.

The bill will direct the President to lower the ethanol import tariff, so that it will never be higher than the tax-credit subsidy for blending ethanol into gasoline.

Historically, the ethanol tariff was linked to the subsidy, and so had the effect of precluding foreign ethanol blenders from benefiting from the subsidy. However, the recently-enacted Farm Bill will reduce the subsidy but simultaneously extend the tariff for 2 more years at \$0.54 per gallon.

Unless that changes, the tariff will be changed into a trade barrier that will make it even harder for ethanol imports to enter the U.S. market. This can have serious adverse consequences. For example—

By restricting supplies, it will tend to increase the price of fuel—including both gasoline and ethanol—in the United States.

It will make it harder to import sugar-based ethanol, which can work in today's cars and, like other ethanol emits considerably less lifecycle greenhouse gas than gasoline.

It works against imports from friendly countries that produce ethanol while oil and gasoline imports from OPEC enter the United States tax-free.

It hinders the emergence of a global biofuels marketplace that could permit mutually beneficial trade between producing regions and stabilize both fuel and food prices.

And it tends to increase our dependency on fossil fuels—including petroleum from the Middle East—when we should be working to reduce that dependency.

By restoring the role of the tariff as an offset, not a trade barrier, my bill will prevent those consequences. In this respect, it is a companion to legislation (S. 3080) introduced in the Senate by Senator FEINSTEIN.

In addition, my bill will require the Energy and Commerce Departments to report to Congress regarding the possible effect of further reducing—or even eliminating—the tariff on ethanol on fuel supplies and prices in the United States and on the domestic production of ethanol.

I have included this provision because I think it is worth exploring whether legislation to further reduce or eliminate the tariff could help reduce fuel prices without serious harm to our domestic ethanol industry.

Madam Speaker, this bill alone will not do all that should be done to revise and reform our energy policies. But I think it can help, and I think it deserves the support of all our colleagues.

For the benefit of our colleagues, here is an outline of the bill's provisions:

## SECTION-BY-SECTION OUTLINE

Section one provides a short title, "Imported Ethanol Facilitation Act."

Section two sets out findings regarding the reasons for the bill. It also states the bill's purpose, which is "to ensure that the tariff on ethanol does not exceed the tax credit applicable to blenders of ethanol, to avoid erecting a new trade barrier to imports of ethanol while assuring that foreign blenders will not benefit from the tax credit, and to require a study of potential effects of further reduction in or elimination of the duty on ethanol."

Section three directs the president to act to ensure that the ethanol tariff will not exceed any tax credit applicable to ethanol.

Section four requires the Department of Energy and the Commerce Department to report to Congress regarding the effects any further reduction—or elimination—of the ethanol tariff would have on (1) fuel supplies and fuel prices in the U.S.; and (2) the domestic production of ethanol. The deadline for this report would be 90 days after the bill's enactment.

## THANKING MR. DANIEL G. DOODY FOR HIS SERVICE TO THE HOUSE

**HON. ROBERT A. BRADY**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 19, 2008*

Mr. BRADY of Pennsylvania. Madam Speaker, on the occasion of his retirement on July 6, 2008, we rise today to thank Daniel (Dan) Doody for over 23 years of combined federal government service within the Department of Defense and the U.S. House of Representatives.

Prior to his tenure with the House, Dan spent approximately 15 years of his career in the Department of Defense with responsibilities ranging from program control officer and staff engineer to various management positions supporting complex systems development activities.

In January 2000, Dan came to the U.S. House of Representatives, within the Office of Chief Administrative Office, CAO, as the Deputy Associate Administrator for House Information Resources (HIR). In this role, Dan managed the CAO's technology planning and budgeting activities as well as overseeing systems development projects and operations.

In August 2001, Dan took overall responsibility for HIR, an organization of approximately 270 staff. This role was quickly tested when in September 2001 the nation experienced the tragic events of September 11th followed quickly by the House Office Building anthrax contamination and subsequent closures in October 2001. Immediately thereafter, Dan was assigned the critical role of Program Manager for the House's Business Continuity Disaster Recovery (BCDR) initiatives. The focus of this program was to dramatically improve the House's business continuity planning and recovery capabilities so that House essential support services were easily restored or transitioned to backup systems in the event of an emergency.

Dan continued his duties as HIR Associate Administrator until February 2006 at which time he became the Deputy CAO for Operations. In this role, Dan had responsibility for the operations of HIR, Administrative and Fi-

nancial Services, Workforce Services, and Business Continuity. Dan's attention to detail, skill in developing working relationships at all levels of the House, Legislative Branch, and industry, as well as his uncanny ability to discern good ideas and implementation approaches from the bad, Dan was a voice of reason whose recommendations and opinions were always sought after and held with the highest regard.

Dan has dedicated his life to making the federal government and, in particular, the CAO and the U.S. House of Representatives a better and more secure place to work. After his retirement from the government, Dan's plan is to return to private industry. On behalf of the entire House community, we extend congratulations to Dan for his dedication and outstanding contributions to the U.S. House of Representatives. We wish him many wonderful years in fulfilling his retirement dreams.

## IN TRIBUTE OF REX LAIRD

**HON. ELTON GALLEGLY**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, June 19, 2008*

Mr. GALLEGLY. Madam Speaker, I rise in tribute to Rex Laird, who retired this week after 28 years as Chief Executive Officer of the Ventura County Farm Bureau.

As CEO, Rex was responsible for managing the Farm Bureau's staff, daily operations and finances. He recommended policy to the bureau Board of Directors, implemented board directives, and represented the interests of the membership at legislative and regulatory hearings. He also served as the bureau's liaison with the news media and community organizations.

Rex did it all with a calm, consensus-building demeanor. It's safe to say that Rex and I didn't always agree, but we always parted with a handshake and looked forward to seeing each other again.

Rex commands respect due to his knowledge and passion for Ventura County's agricultural industry. During his tenure, the county's population more than doubled. Restrictions tightened on pesticide use; trade with the Pacific Rim expanded; competition from foreign growers increased; and growers faced floods, freezes, fires, droughts, and agricultural pests.

Rex not only helped steer the industry through it all, he helped it grow and expand. Today, agriculture remains one of Ventura County's top industries, grossing more than \$1.5 billion annually. Agriculture is also diverse in Ventura County, with citrus and nut groves, row crops, livestock and poultry, and nursery stock, among others.

Rex's skill as a consensus builder is epitomized by his role as a founding member of the Ag Futures Alliance Committee, which was formed to promote better understanding and dialog within the community on agricultural issues. The group includes representatives from the community, media, business, agriculture, environmental, and advocacy groups.

In 2005, the California Farm Bureau Federation recognized the Ventura County Farm Bureau for its activities in the Ag Futures Alliance and its leadership role working in a collaborative effort with the Association of Water
