STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. FEINGOLD:

S. 3461. A bill to evaluate certain certification programs, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. FEINGOLD. Mr. President, today I introduce a simple bill that is the first step toward helping American workers and businesses. The Skills Standards Certification Evaluation Act of 2008 will require the Secretaries of Labor and Commerce to evaluate skills standards certification programs that have been developed with Federal funding.

Skills Standards Certifications have emerged in the past 2 decades in response to job growth in high-technology and varied industries. The training or classes usually take weeks or months, rather than years. Often, they are developed in response to the needs of one industry or even one company, though the skills may be applicable more widely.

The Federal government has taken conflicting approaches to skills standards certifications over the past two decades. That is why, as part of the Skills Standards Certification Evaluation Act, I require a recommendation from the Secretaries of Labor and Commerce on how Congress ought to move forward with funding for these certification programs. Both the national, top-down, and a local, bottom-up approach have been tried, and a thorough evaluation will make clear how we can move forward to get the most out of the funding the Federal Government provides.

These certifications have a tremendous benefit for workers. First, because the training is often condensed into a few weeks with a flexible schedule, it allows people to complete certifications without leaving a current job and without the financial cost of attending a full-time program that lasts a year or more. In addition, these programs allow workers to clearly demonstrate a certain set of skills, and may open more doors for higher-paying employment. Because these programs can be completed without leaving work, they also allow workers to advance within a career or company to
