But the real urgency here is that we have got to buy time by conservation and by efficiency so that we can use the limited resources of oil that we have, not only to continue the economies we now have in the world, but to make the investments we must make in these renewables so that we are going to continue to be able to live the kinds of quality lives that we have been living.

I am sure that Americans are up to this. What we need is leadership articulating the problem and articulating the things that Americans need to do. Americans just need leadership. We are the envy of the world and we need to be a world leader in this because we use most of the oil in the world.

#### REQUESTS FOR FUTURE FUNDING FOR MILITARY OPERATIONS IN AFGHANISTAN AND IRAQ

SEC. 1024. (a) FINDINGS.—The Senate makes the following findings:

(1) The Department of Defense Appropriations Act, 2004 (Public Law 108-87) and the Department of Defense Appropriations Act, 2005 (Public Law 108-287) each contain a sense of the Senate provision urging the President to provide in the annual budget requests of the President for a fiscal year under section 1105(a) of title 31, United States Code, an estimate of the cost of ongoing military operations in Iraq and Afghanistan in such fiscal year.

(2) The budget for fiscal year 2006 submitted to Congress by the President on February 7, 2005, requests no funds for fiscal year 2006 for ongoing military operations in Iraq or Afghanistan.

(3) According to the Congressional Research Service, there exists historical precedent for including the cost of ongoing military operations in the annual budget requests of the President following initial funding for such operations by emergency or supplemental appropriations Acts, including—

(A) funds for Operation Noble Eagle, beginning in the budget request of President George W. Bush for fiscal year 2005;

(B) funds for operations in Kosovo, beginning in the budget request of President George W. Bush for fiscal year 2001;

(C) funds for operations in Bosnia, beginning in budget request of President Clinton for fiscal year 1997;

(D) funds for operations in Southwest Asia, beginning in the budget request of President Clinton for fiscal year 1997;

(E) funds for operations in Vietnam, beginning in the budget request of President Johnson for fiscal year 1966; and

(F) funds for World War II, beginning in the budget request of President Roosevelt for fiscal year 1943.

(4) The Senate has included in its version of the fiscal year 2006 budget resolution, which

was adopted by the Senate on March 17, 2005, a reserve fund of \$50,000,000,000 for overseas contingency operations, but the determination of that amount could not take into account any Administration estimate on the projected cost of such operations in fiscal year 2006.

(5) In February 2005, the Congressional Budget Office estimated that fiscal year 2006 costs for ongoing military operations in Iraq and Afghanistan could total \$65,000,000,000.

(b) SENSE OF SENATE.—It is the sense of the Senate that—

(1) any request for funds for a fiscal year after fiscal year 2006 for an ongoing military operation overseas, including operations in Afghanistan and Iraq, should be included in the annual budget of the President for such fiscal year as submitted to Congress under section 1105(a) of title 31, United States Code;

(2) the President should submit to Congress, not later than September 1, 2005, an amendment to the budget of the President for fiscal year 2006 that was submitted to Congress under section 1105(a) of title 31, United States Code, setting forth detailed cost estimates for ongoing military operations overseas during such fiscal year; and

(3) any funds provided for a fiscal year for ongoing military operations overseas should be provided in appropriations Acts for such fiscal year through appropriations to specific accounts set forth in such appropriations Acts.

(c) ADDITIONAL REQUIREMENTS FOR CERTAIN REPORTS.—(1) Each semiannual report to Congress required under a provision of law referred to in paragraph (2) shall include, in addition to the matters specified in the applicable provision of law, the following:

(A) A statement of the cumulative total of all amounts obligated, and of all amounts expended, as of the date of such report for Operation Enduring Freedom.

(B) A statement of the cumulative total of all amounts obligated, and of all amounts expended, as of the date of such report for Operation Iraqi Freedom.

(C) An estimate of the reasonably foreseeable costs for ongoing military operations to be incurred during the 12-month period beginning on the date of such report.

(2) The provisions of law referred to in this paragraph are as follows:

(A) Section 1120 of the Emergency Supplemental Appropriations Act for Defense and for the Reconstruction of Iraq and Afghanistan, 2004 (Public Law 108-106; 117 Stat. 1219; 10 U.S.C. 113 note).

(B) Section 9010 of the Department of Defense Appropriations Act, 2005 (Public Law 108-287; 118 Stat. 1008; 10 U.S.C. 113 note).

In evaluating the testimony of the applicant or other witness in support of the application, the immigration judge will determine whether or not the testimony is credible, is persuasive, and refers to specific facts sufficient to demonstrate that the applicant has satisfied the applicant’s burden of proof. In determining whether the applicant has met such burden, the immigration judge shall weigh the credible testimony along with other evidence of record. Where the immigration judge determines that the applicant should provide evidence which corroborates otherwise credible testimony, such evidence must be provided unless the applicant demonstrates that the applicant does not have the evidence and cannot reasonably obtain the evidence.

## MEASURING STABILITY AND SECURITY IN IRAQ

In the wake of the recent Iraqi elections, public discourse about the U.S. occupation of that country has focused on the need for and the advisability of declaring a timetable for U.S. military withdrawal. Instead of focusing on exit strategies, however, the conferees believe there is a need to recast this debate by considering "strategies for success". Success in Iraq will be achieved, of course, only to the extent any new Iraqi government can legitimately and effectively rule the country, which in turn largely depends on that government's ability to protect its people and secure its borders.

The discussion on this issue should not be simply about how many Iraqi forces have been trained and equipped, but about how many can perform to reasonable standards so that they may be expected to successfully conduct their assigned missions. This is the basis for assessing U.S. military readiness, and should serve as the basis for judging the capabilities of Iraqi security forces.

The conferees believe that the Administration must develop and provide to the Congress a more comprehensive set of performance indicators and measures of stability and security in Iraq than is currently available. This undoubtedly will lead to a more informed debate over how best to allocate U.S. resources to help secure Iraq. As such, the conferees direct the Secretary of Defense (in consultation with other appropriate members of the , National Security Council) to provide a report to the Speaker of the House of Representatives, the Majority Leader of the Senate, and the congressional defense committees that identifies security, economic, and Iraqi security force training performance standards and goals, accompanied by a notional timetable for achieving these goals. At a minimum, the report should include detailed descriptions of the following:

## Stability and Security in Iraq:

- Key measures of political stability, including the important political milestones that must be achieved over the next several years.
- The primary indicators of a stable security environment in Iraq, such as number of engagements per day, numbers of trained Iraqi forces, trends describing numbers and types of ethnic and religious-based hostile encounters, and so on. In addition, the report should include:
  - The estimated strength of the Iraqi insurgency and the extent to which it is composed of non-Iraqi fighters; and,
  - A description of all militia operating in Iraq, including the number, size, equip-

ment strength, military effectiveness, sources of support, legal status, and efforts to disarm or reintegrate each militia.

- The key indicators of economic activity that should be considered as the most important for determining the prospects of stability in Iraq, including: unemployment levels; electricity, water, and oil production rates; and hunger and poverty levels.

- The criteria the Administration will use to determine when it is safe to begin withdrawing our forces from Iraq.

## Security Force Training and Performance:

- The training Iraqi military and other Ministry of Defense forces have received and what equipment they are using. In particular, the report should include the key criteria for assessing the capabilities and readiness of the Iraqi military forces, goals for achieving certain capability and readiness levels (as well as for recruiting, training, and equipping these forces), and the milestones and notional timetable for achieving these goals.

- The operational readiness status of the Iraqi military forces, including: the type, number, size, and organizational structure of Iraqi battalions that are:

- Capable of conducting counterinsurgency operations independently;
- Capable of conducting counterinsurgency operations with the support of U.S. or coalition forces; and,
- Not ready to conduct counterinsurgency operations.

- The rates of absenteeism in the Iraqi military forces and the extent to which insurgents have infiltrated these forces.

- The training Iraqi police and other Ministry of Interior forces have received and what equipment they are using. In particular, the report should include the key criteria for assessing the capabilities and readiness of these forces, goals for achieving certain capability and readiness levels (as well as for recruiting, training, and equipping), and the milestones and notional timetable for achieving these goals. This should include:

- The number of police recruits that have received classroom training and the duration of such instruction;
- The number of veteran police officers who have received classroom instruction and the duration of such instruction;
- The number of police candidates screened by the Iraqi Police Screening Service, the number of candidates derived from other entry procedures, and the success rates of those groups of candidates;
- The number of Iraqi police forces who have received field training by international

police trainers and the duration of such instruction; and,

—Attrition rates and measures of absenteeism and infiltration by insurgents.

- The estimated total number of Iraqi battalions needed for the Iraqi security forces to perform duties now being undertaken by coalition forces, including defending Iraq's borders and providing adequate levels of law and order throughout the country.

- The effectiveness of the Iraqi military and police officer cadres and the chain of command.

- The number of U.S. and coalition advisors needed to support the Iraqi security forces and associated ministries.

Finally, the conferees direct the Secretary to include in this report (or classified annex to the report, as necessary) an assessment of U.S. military requirements, including planned force rotations, through the end of calendar year 2006. The conferees direct the Secretary to submit this report not later than 60 days after the enactment of this Act, and every 90 days thereafter through the end of fiscal year 2006.

## CLASSIFIED PROGRAMS

Recommended adjustments to classified programs are addressed in a classified annex accompanying this report.

## VETERAN-OWNED BUSINESSES

The conferees are aware that Presidential Executive Order 13360, issued on October 20, 2004, established a goal of not less than 3 percent for participation by service-disabled veteran-owned businesses in Federal contracting with the Department of Defense and all Federal agencies. The conferees note with concern that the Department is far from reaching that goal with only 0.2 percent of total prime contracts and 0.3 percent of total subcontracts awarded to service-disabled veteran-owned business in fiscal year 2003. The conferees would encourage the Department to follow the intent of Executive Order 13360 and make every effort to increase contracting opportunities with service-disabled veteran-owned businesses and to report to the congressional defense committees not later than September 30, 2005 a plan of action to reach the goal established by the President.

## MEDICAL SUPPORT FOR TACTICAL UNITS

The conferees recommend an increase of \$150,000,000 in Operation and Maintenance, Army, to address medical requirements for those tactical units currently deployed to or returning from the Iraq or Afghanistan theaters. The conferees encourage the Department of the Army to focus these funds on the replenishment of medical supply and equipment needs within the combat theaters, to include bandages and other blood-clotting supplies that utilize advanced hemostatic, wound-dressing technologies, and on the provision of medical care for soldiers who have returned home in a medical holdover status.

## CRITICAL MEDICAL RESEARCH

The conferees believe the military treatment facilities and other medical research and teaching organizations of the Department of Defense are playing a critical role in support of our forces serving in harm's way in Iraq and Afghanistan. The conferees note that these facilities and organizations have provided and are continuing to provide much needed improvements in critical care for military personnel who have been wounded in battle.

The conferees recognize the need for maintaining all of our military medical facilities in time of war, believing the continuation of this capability to be of the highest importance. As such, the conferees direct that funding available to the Department of De-

fense should not be used to close any military medical facility which is conducting critical medical research, or medical training, or caring for wounded soldiers.

## TELEPHONE CALLING CARDS FOR INJURED SERVICEMEMBERS

The conferees commend the individuals, organizations, and corporations who have donated telephone cards for use by injured servicemembers recuperating from injuries sustained while serving in the Global War on Terrorism. The conferees encourage the Services to distribute the donated cards to all military treatment facilities providing care to those injured during contingency operations. The Services should also ensure that servicemembers recuperating in Fisher Houses, Malone Houses, or similar rehabilitation facilities are provided phone cards on a similar basis.

## POST DEPLOYMENT STAND-DOWN PROGRAM

The conferees are aware of the success of the Air National Guard's Post Deployment Stand-down Program. The conferees direct the Director, Army National Guard, in consultation with the Director, Air National Guard, to assess the feasibility and advisability of implementing a similar program for the Army National Guard. The Director, Army National Guard shall report his findings and recommendations to the congressional defense committees not later than September 30, 2005.

## OVERSEAS HUMANITARIAN, DISASTER AND CIVIC AID

## MODULARITY

The conferees direct the Secretary of Defense to submit to the congressional defense committees a report, not later than September 1, 2005, detailing the Department of Defense's long-range plan for executing and funding the Army's Modular Force initiative (Modularity). The report should identify personnel and equipment requirements, unit restructuring timelines, and associated costs. In addition, the conferees are concerned that the budgeting methods employed to support this initiative may result in inefficient program management and acquisition practices. Accordingly, the conferees direct that this report also include DoD plans to review multi-year procurement authority or any other measures to ensure the DoD can contract for required equipment as efficiently as possible.

UP-ARMORED HMMWV REPORTING  
REQUIREMENT

The conferees direct the Secretary of Defense to submit a report to the congressional defense committees not later than 60 days after enactment of this Act, and every 60 days thereafter until the termination of Operation Iraqi Freedom, setting forth the current requirements of the Armed Forces for Up-Armored High Mobility Multipurpose Wheeled Vehicles (HMMWVs). In addition, the conferees direct the Secretary of Defense

to submit a report to the congressional defense committees not later than 60 days after enactment of this Act setting forth the most effective and efficient options available to the Department of Defense for transporting Up-Armored HMMWVs to Iraq and Afghanistan.

JOINT IMPROVISED EXPLOSIVE DEVICE (IED)  
NEUTRALIZER

Improvised Explosive Devices (IEDs) continue to kill and seriously injure U.S. Service men and women as they prosecute the Global War on Terrorism. The conferees are deeply concerned that currently employed counter-IED technology has failed to achieve desired results for our warfighters. The conferees are aware of a new direct discharge technology, known as Joint IED Neutralizer or JIN, which has recently demonstrated the capability to effectively neutralize IEDs. The conferees strongly encourage the Department of Defense to procure and employ JIN for counter-IED operations.

## LITENING PODS

The conferees clarify that funding in the bill for additional F/A-18 LITENING pods is available for all Expeditionary Marine Corps F/A-18 aircraft.

## SPECIAL OPERATIONS COMMAND

The conference agreement provides \$475,627,000, an increase of \$55,000,000 above

the President's request, as proposed by the House, for equipment required by the United States Special Operations Command (USSOCOM) to prosecute the Global War on Terrorism. The conferees agree that from the additional funding provided \$20,000,000 shall be for the procurement of Multi-Band/Multi Mission radios and that \$5,000,000 shall be for Silver Fox Unmanned Aerial Vehicles. The conferees have adjusted the amounts in the project level table for the Communications Equipment and Electronics and the Small Arms and Weapons lines accordingly. The conferees are aware that, subsequent to the submission of the President's request, another Special Operations Combat Talon II aircraft was lost, significantly diminishing the combat capabilities of USSOCOM. The conferees agree that the remaining \$30,000,000 of the funds provided above the request shall be used for a combat loss replacement aircraft.

RESEARCH, DEVELOPMENT, TEST AND  
EVALUATION

The conference agreement provides a total of \$587,282,000 for Research, Development, Test and Evaluation appropriations, instead of \$508,321,000 as proposed by the House, and \$552,322,000, as proposed by the Senate. The following table identifies changes made to the request and other funding provided.

**HIGH SPEED, HEAVY LIFT, SHALLOW DRAFT-CAPABLE WATERCRAFT DEMONSTRATION**

The Department of Defense Appropriations Act, 2005 (Public Law 108-287) appropriated \$6,300,000 under "Research, Development, Test and Evaluation, Navy" for the Varicraft program. To clarify the intent of Congress, the funding provided for this program in P. L. 108-287 is intended for the High Speed, Heavy Lift, Shallow Draft-Capable Watercraft Demonstration.

**DDX PERMANENT MAGNET MOTOR**

The conferees agree with language included in the Senate report regarding the DDX permanent magnet motor and direct that not less than \$5,000,000 of the funds provided in this Act for "Research, Development, Test and Evaluation, Navy" be made available for this program.

**REVOLVING AND MANAGEMENT FUNDS**

**DEFENSE WORKING CAPITAL FUNDS**

The conference agreement includes \$1,511,300,000 for the Defense Working Capital Funds, instead of \$1,411,300,000 as proposed by the House, and \$1,311,300,000 as proposed by the Senate, to be allocated as follows:

Overhead Cover Systems and CMU Barracks.—The conference agreement includes funds for overhead cover systems and concrete masonry unit barracks to strengthen force protection measures to better protect troops against indirect fire attack. The conferees expect the Department to focus its force protection efforts on identified threats facing troops in Operation Iraqi Freedom and Operation Enduring Freedom such as rocket propelled grenades and mortar artillery. In doing so, the Department should purchase existing force protection technology that has been field-tested and certified against such threats, including, but not limited to, mortar-proof canopies and housing and blast resistant barriers.

**MARINE CORPS FORCE STRUCTURE REVIEW GROUP**

The Department of Defense requested \$75,020,000 in emergency funding for the Marine Corps Force Structure Review Group (FSRG) initiative, which will provide additional combat forces within the Marine Corps' current end-strength of 175,000. By increasing the number of combat-ready marines while turning over less essential tasks to civilians, FSRG will help to alleviate the overall stress on the Marine Corps produced by deployments related to the Global War on Terrorism. While the conferees understand and support this initiative, they are concerned over the manner in which the military construction requirements were programmed and budgeted. Although the FSRG initiative was set in motion in April 2004, no funding for FSRG military construction was programmed into the fiscal year 2006 budget request. The Marine Corps and DOD instead chose to use this supplemental request as the sole vehicle for funding the FSRG, yet the emergency appropriation requested provides only half of the fiscal year 2005 requirement. The conferees are disappointed that the FSRG was deemed important and urgent enough to proceed immediately, yet the appropriate budgeting decisions were not given commensurate priority. The conferees expect that future military construction requests for the Marine Corps, including any fiscal year 2006 budget amendment, will include the necessary funding to accommodate the force structure and basing decisions being made under FSRG.

The conferees also note that the request was submitted prior to the final basing decision for the second of two new infantry battalions, the 1st and 2nd Battalions, 9th Marine Regiment, to be created under FSRG. After submission of the request, the Marine Corps confirmed that both battalions will be stationed at Camp Lejeune, North Carolina. These two battalions will add 1,904 marines at Camp Lejeune, more than half of the projected net increase of 3,546 to the base population under FSRG. A field visit to Camp Lejeune confirmed that the installation does not currently have adequate billeting for the existing base population, let alone the two battalions that the Marine Corps will begin standing up this year. The present occupancy rate at the camp already greatly exceeds the Marine Corps standard, and this situation will worsen under FSRG without remedial action. The conferees believe that additional unaccompanied housing is urgently needed at Camp Lejeune, and agree to provide \$32,500,000 for the construction of bachelor enlisted quarters in support of the marines of the 2/9 Battalion.

**MILITARY CONSTRUCTION, AIR FORCE**

The conference agreement includes \$140,983,000 as proposed by the Senate, instead of \$301,386,000 as proposed by the House. The conference agreement also makes these funds available until September 30,

2006 as proposed by the House, instead of September 30, 2007 as proposed by the Senate. The fun. are provided as follows:

Aerial Port, Ali Al Salem Air Base, Kuwait.—The Air Force requests \$75,500,000 to construct the first phase of an Aerial Port at Ali Al Salem Air Base in Kuwait. The conference agreement provides no funding for this facility at this time.

The conferees support the United States presence in Kuwait and appreciate the long-standing cooperation between our two nations. The conferees also recognize the desire of the Government of Kuwait to move U.S. aerial port operations out of Kuwait City International Airport (KCIA) in order to free space at the airport for other uses. However, for several reasons, the conferees have declined to recommend funding for a new aerial port facility at this time.

The \$75,500,000 in emergency supplemental appropriations requested for this facility would fund only the first phase of a nearly half-billion dollar plan for infrastructure improvements at Ali Al Salem. However, given construction times and the limited scope of the project proposed here, the first phase would provide neither emergency relief nor a complete replacement of the extant port capacity at KCIA. In addition, since submission of the supplemental request, the Air Force has learned that extensive runway repair at Ali Al Salem will be required for the base to accommodate the volume and type of air traffic envisioned in aerial port operations.

Moreover, as both the House and the Senate noted in their respective reports, the United States does not currently have a formal agreement with the host nation regarding future use of this facility or the sharing of costs for subsequent construction phases. Consequently, it is not possible for the conferees to determine the commitment the United States would be undertaking by providing the first phase of funding now. The conferees also believe that because of uncertainties regarding the future of other facilities in the region, there is some question as to whether an extensive aerial port facility in Kuwait will be required for the long-term. The conferees are not opposed to a U.S. contribution to what would be a mutually beneficial project, but encourage the Defense Department to first negotiate with the Government of Kuwait an agreement regarding appropriate phasing, use, and cost-sharing.

ISR Launch and Recovery Facility and Maintenance Complex, Al Dhafra Air Base, United Arab Emirates—The Air Force requests \$66,000,000 to build these facilities. The conference agreement provides no funding for these facilities at this time.

As with the aerial port facility in Kuwait, this facility represents more a long-term investment in enduring infrastructure than it does an immediate response to emergency requirements. ISR operations have been conducted successfully from Al Dhafra for several years and while it would be more convenient to conduct operations from permanent rather than expeditionary facilities, the conferees do not believe this is a compelling argument for emergency appropriations. As is the case with Ali Al Salem, this project is only part of extensive additional construction envisioned at Al Dhafra, yet no agreement covering use or cost sharing has been negotiated with the host nation. The conferees recognize and value the extensive and ongoing cooperation between the United States and the United Arab Emirates and are not opposed in principle to a U.S. contribution to infrastructure investments at Al Dhafra. However, the conferees believe investment in this project would be inappropriate on an emergency basis and premature at this time.

ITEMS OF INTEREST TO THE MILITARY QUALITY OF LIFE SUBCOMMITTEE OF THE HOUSE AND THE MILITARY CONSTRUCTION SUBCOMMITTEE OF THE SENATE

Requested Reports.—The Department of Defense has submitted the long overdue overseas basing master plans; therefore, the conference agreement does not include a provision under the military construction accounts to prohibit the obligation of funds until these plans were submitted as proposed by the House. The Senate bill contained no similar provision.

The House report included a request for additional information from the Army, Marine Corps, and Air Force on issues related to the supplemental request. The Army reports were received on April 7, 2005. The Marine Corps and Air Force reports have not been received. The conferees are concerned with the Executive Branch's lack of responsiveness to Congressional requests and expect the Secretary and the Director of OMB to take steps to make this a high priority.

Budgeting for Enduring Installations.—The conferees approve of the Department's improved master planning efforts for overseas facilities, including those in the Central Command (CENTCOM) area of responsibility. A key benefit of master planning is the alignment of strategic objectives with budget needs over a long period of time. The conferees believe CENTCOM's master planning initiative is sufficiently well developed to enable future military construction at enduring facilities in the region to be incorporated into the regular authorization and appropriations process. The conferees expect the Department to pursue such initiatives through that avenue rather than through emergency appropriations.

GENERAL PROVISIONS—THIS TITLE

The conferees agree to retain and amend section 1001, as proposed by the House and Senate, which provides the Secretary of Defense authority to transfer up to \$3,000,000,000 of funds made available in this title.

This restriction on new obligations does not apply to funds used to reimburse accounts for obligations made prior to enactment.

Sec. 2105. The conference agreement includes a general provision, as proposed by the House, that establishes certain auditing requirements for counternarcotics and alternative development funding in fiscal year 2005 in Afghanistan.

Sec. 2106. The conference agreement includes a provision, similar to that proposed by the House and Senate, regarding a reporting requirement regarding the Palestinian Authority, and provides that up to \$5,000,000 from funds provided for the West Bank and Gaza may be used for an independent audit of Palestinian Authority expenditures and accounting procedures.

Sec. 2107. The conference agreement includes a provision allowing certain amounts in the fiscal year 2005 State Department Appropriations Act to be subject to certain reprogramming requirements, as proposed by the Senate.

Sec. 2108. The conference agreement includes a general provision similar to that proposed by the Senate, which earmarks \$20,000,000 provided in Public Law 108-106 under the heading "Iraq Relief and Reconstruction Fund" for assistance for families and communities of innocent Iraqi victims of the military operations. This assistance is designated as the "Marla Ruzicka Iraqi War Victims Fund", in memory of Marla Ruzicka who on April 16, 2005, died at the age of 28 in a car bomb attack in Baghdad. Marla Ruzicka inspired the creation of this program and a similar program in Afghanistan.

Sec. 2109. The conference agreement includes a general provision, as proposed by the Senate, that makes a technical change to the Millennium Challenge Authorization Act, 2003.

Sec. 2110. The conference agreement includes a provision, similar to that proposed by the House, requiring that recipients of United States emergency humanitarian assistance establish a code of conduct consistent with internationally accepted principles established to protect victims of disasters from exploitation.

Sec. 2111. The conference agreement includes a new provision requiring that funds in the following accounts be allocated as indicated in the statement of managers accompanying this Act: "Economic Support Fund" and "Assistance for the Independent States of the Former Soviet Union". Any change to these allocations is subject to the regular notification procedures of the Committees on Appropriations.

The conference agreement does not include Senate sections 2104, 2107, 2108, and 2111.

### TITLE III—DOMESTIC APPROPRIATIONS FOR THE WAR ON TERROR

#### CHAPTER 1

##### Department of Energy

##### NATIONAL NUCLEAR SECURITY ADMINISTRATION DEFENSE NUCLEAR NONPROLIFERATION

The conference agreement provides \$84,000,000 for defense nuclear nonprolifera-

tion, of which \$55,000,000 is to address urgent priorities outside of the former Soviet Union to secure nuclear materials from diversion or theft by terrorists or states of concern, and \$29,000,000 is for the deployment of radiation detection equipment and the training of law enforcement officials in overseas ports to provide them with the technical means to detect, deter, and interdict illicit trafficking in nuclear and other radioactive materials through the MegaPorts program.

#### CHAPTER 2

##### Department of Homeland Security

##### CUSTOMS AND BORDER PROTECTION

##### SALARIES AND EXPENSES

The conferees provide \$124,425,000 for costs associated with hiring, training, equipping and supporting 500 Border Patrol agents, instead of \$105,451,000 as proposed by the Senate and no funding as proposed by the House. Funds are to remain available until September 30, 2006. Of this amount, \$49,075,000 in new funding is provided and designated an emergency requirement. The conferees have included bill language that requires the Secretary of Homeland Security to provide the Committees on Appropriations a plan not later than June 15, 2005, for the expeditious implementation and execution of these funds.

The conferees are concerned that the amounts appropriated in Public Laws 107-117 and 108-11 for "Customs and Border Protection" have not been fully obligated. The conferees direct the Secretary of Homeland Security to immediately utilize the remaining funds for the purposes appropriated. The conferees further direct the Secretary to submit, within 30 days of enactment of this Act, a plan for the obligation of these funds.

##### CONSTRUCTION

The conferees provide \$51,875,000 for construction costs associated with hiring an additional 500 Border Patrol agents, instead of \$41,500,000 as proposed by the Senate, and no funding proposed by the House. Funding is to remain available until September 30, 2006. The conferees have included bill language that requires the Secretary of Homeland Security to provide the Committees on Appropriations a plan not later than June 15, 2005, for the expeditious implementation and execution of these funds. This funding is designated an emergency requirement.

##### IMMIGRATION AND CUSTOMS ENFORCEMENT

##### SALARIES AND EXPENSES

The conferees provide a total of \$454,250,000 for Immigration and Customs Enforcement, Salaries and Expenses, as opposed to \$276,000,000 proposed by the Senate and no funding as proposed by the House. Of these funds, \$349,050,000 is designated as an emergency requirement. Of this amount, \$93,050,000 is made available to fund an additional 50 criminal investigator positions, 168 Immigration Enforcement Agents and Deportation Officers, and 1,950 additional detention beds; and not less than \$11,000,000 is made available to immediately lift the hiring freeze. The conferees do not provide the \$389,613,000 in non-emergency funding that was proposed by the Senate.

The conferees endorse the views expressed in the Senate Committee report (Senate Report 109-152), and direct Immigration and Customs Enforcement (ICE) to realign its Detention and Removal Operation Program, by program, project, and activity, as set forth on pages 51 and 52 of that report. The conferees also direct ICE to make available additional user fees as set forth on page 52 of that report. Because the conferees have included funds above the realigned amounts referenced above, in lieu of the Senate reporting requirement, the conferees direct the

Secretary to submit a detailed report by June 15, 2005, to the Committees on Appropriations on the Department's plan for an expeditious implementation of the hiring and spending authorized in this Act, showing the on-board level of FTEs for each individual office by location; the number of vacant FTEs; and the new hires planned by week for each office beginning the week after enactment of this Act through September 30, 2005.

The conferees are aware that ICE has been unable to obligate for fiscal year 2005 enhancements and initiatives due to the uncertainty of its financial condition and its pending reprogramming. The conferees wish to ensure that these programs are initiated in an orderly way, that requisite funds do not lapse, and that continuity of funding is assured. Therefore, within the total amounts provided, the conferees include \$85,200,000, offset by a rescission, and direct the Department to include funding required to annualize and continue activities supported with these funds in its fiscal year 2007 budget.

##### UNITED STATES COAST GUARD

##### OPERATING EXPENSES

The conference agreement includes \$111,950,000 for U.S. Coast Guard operations in support of Operation Iraqi Freedom and Operation Enduring Freedom as proposed by both the House and the Senate. The entire amount is designated as an emergency requirement.

##### ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

The conference agreement includes \$49,200,000 as proposed by the House and the Senate, to remain available until September 30, 2007. The conferees agree that the funds may be used for procurement of new U.S. Coast Guard 110-foot patrol boats or major refits, renovation, and subsystem replacement for these boats, as proposed by the House. The Senate proposed this funding be used only for renovation and subsystem replacement. The entire amount is designated as an emergency requirement.

By July 1, 2005, or prior to the obligation of funds, the Coast Guard is directed to provide to the House and Senate Appropriations Committees an analysis of the costs and benefits of procuring new 110-foot or 123-foot patrol boats versus renovating the existing 110-foot patrol boats. This analysis is to include the expected available patrol boat mission hours over the next 10 years, with the existing fleet versus the yearly mission hours conducted since 9/11 and the 10-year projected mission hour needs. The analysis should explain how the Coast Guard intends to meet the mission needs filled by the 110-foot patrol boat. The conferees note that this information was first requested in 2004 as part of the statement of managers accompanying Public Law 108-334. The report was due on February 10, 2005, but has not been received to date.

##### FEDERAL LAW ENFORCEMENT TRAINING CENTER

##### SALARIES AND EXPENSES

The conferees provide funding for the Federal Law Enforcement Training Center salaries and expenses of \$2,568,000 and make the funding available until September 30, 2006, accommodate the training for new Border Patrol Agents and Immigration and Customs Enforcement agents and officers.

##### ACQUISITION, CONSTRUCTION, IMPROVEMENTS/ AND RELATED EXPENSES

The conferees provide \$1,882,000 for facilities, to remain available until September 30, 2006, for costs associated with additional Border Patrol and ICE training.

## CHAPTER 3

Department of Justice  
GENERAL ADMINISTRATION  
DETENTION TRUSTEE

The conference agreement includes \$184,000,000 for the Detention Trustee account. Funding is provided in lieu of any previous transfers made into this account in fiscal year 2005 from the Asset Forfeiture Fund.

## LEGAL ACTIVITIES

ASSET FORFEITURE FUND  
(RESCISSION)

The conference agreement includes a rescission of \$40,000,000 from unobligated balances in this account.

UNITED STATES MARSHALS SERVICE  
SALARIES AND EXPENSES

The conference agreement provides \$11,935,000 for the United States Marshals Service (USMS) as proposed by the Senate. Recent events prove a need for increased judicial security outside of courthouse facilities to better detect, assess and respond to threats and inappropriate communications made to judges. The conference agreement provides this funding for off-site security enhancements for judges, such as home intrusion detection systems.

In coordination with the Administrative Office of the United States Courts, the USMS shall submit a spending plan to the Committees on Appropriations prior to the obligation of any of these funds. The conferees also believe the USMS should reevaluate existing policies governing judicial protection and direct the USMS to submit a report on its updated policies to the Committees, on Appropriations no later than July 30, 2005.

FEDERAL BUREAU OF INVESTIGATION  
SALARIES AND EXPENSES

The conference agreement provides \$73,991,000 for the Federal Bureau of Investigation (FBI), instead of \$78,970,000 as proposed by the House and \$66,512,000 as proposed by the Senate. The conferees strongly support the FBI's deployment in Iraq and the operations of the Terrorist Screening Center. However, the conferees are disappointed that the fiscal year 2005 budget request did not include sufficient funding for these critical on-going operations. If additional resources are needed for either of these activities, the conferees will support a reprogramming of funding from lower priority programs.

**Iraqi Operations.**—The conference agreement includes \$34,531,000 for operations in Iraq instead of \$40,000,000 as proposed by the House and \$29,062,000 as proposed by the Senate.

**Terrorist Screening Center (TSC).**—The conference agreement includes \$35,210,000 for TSC instead of \$38,970,000 as proposed by the House and \$31,450,000 as proposed by the Senate. The conference agreement adopts the House and Senate report language expressing concern about TSC's continued reliance on temporary duty staff to perform this critical mission.

The conference agreement adopts the House report language requiring the Office of Inspector General to evaluate TSC's plan to support the Secure Flight program. The report to the House and Senate Appropriations Committees shall be submitted by August 1, 2005. The conference agreement adopts the Senate report language requiring submission of a long-term plan for TSC to be submitted no later than September 1, 2005. The report shall include the following: (1) a five year staffing and spending plan for TSC; (2) a list of TSC's existing and projected users, their sponsoring agency, and that agency's financial and in-kind contributions to TSC; (3) a comprehensive description and direct cost

estimate of the unique needs of these users by agency, fiscal year, project, program and activity; (4) an estimated cost on a by-user basis (including a listing of each user agency); and (5) any additional TSC requirements and the costs associated with those requirements.

**Office of Inspector General.**—The conference agreement includes \$1,250,000 to be transferred to the Office of Inspector General (OIG) to support the OIG's review of the TSC and other counterterrorism activities.

**Special Technologies and Applications Section (STAS).**—The conference agreement includes \$3,000,000 for STAS, instead of no funding as proposed by the House and \$6,000,000 as proposed by the Senate. This funding is provided to accelerate the development and deployment of intelligence analysis tools.

The conferees are aware of the unique space requirements of the STAS and direct STAS to work with the General Services Administration and to use existing resources to lease up to 175,000 square feet of additional facility space within its immediate surrounding area.

DRUG ENFORCEMENT ADMINISTRATION  
SALARIES AND EXPENSES

The conference agreement includes \$7,648,000 as proposed by the House and Senate, for the Drug Enforcement Administration's counternarcotics efforts to reduce poppy and heroin production in Afghanistan.

BUREAU OF ALCOHOL, TOBACCO, FIREARMS AND  
EXPLOSIVES  
SALARIES AND EXPENSES

The conferees recommend \$4,000,000 for the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF), instead of \$5,100,000 as proposed by the Senate. The House did not propose any funding for this account.

This funding is provided to support ATF's on-going activities in the Iraq theater of operations, including assistance to the U.S. military. Within the amount provided, \$2,100,000 shall be for expenditures in direct support of explosives enforcement and firearms tracking in Iraq; \$400,000 shall be for a Combined Explosives Exploitation Cell to provide improvised explosive device (IED) technical support to the Department of Defense components in Iraq; and \$1,500,000 for operations to track explosives incidents in Iraq in a centralized database and to provide technical expertise in the exploitation of IED's. The conferees direct that, prior to the obligation of the funds for a centralized database, the ATF shall submit a plan to the Committees on Appropriations that identifies the timetable, requirements, scope and costs related to its creation.

## CHAPTER 4

## LEGISLATIVE BRANCH

## HOUSE OF REPRESENTATIVES

PAYMENT TO WIDOWS AND HEIRS OF DECEASED  
MEMBERS OF CONGRESS

The conference agreement includes the customary death gratuity to Doris K. Matsui, widow of Robert T. Matsui, late a Representative from the State of California.

CAPITOL POLICE  
GENERAL EXPENSES

The conference agreement provides an additional amount of \$11,000,000 for General Expenses, Capitol Police. This includes \$2,600,000 for technical counter measures during the construction of the Capitol Visitor Center. The conferees direct the Capitol Police to purchase the necessary equipment for the Security Services Bureau with available unobligated balances. In addition, \$8,400,000 is provided for the purchase of escape hoods for the Capitol Complex. The conference agreement does not provide funding for radio system repairs and security infrastructure for the Fairchild Building, as proposed by the Senate. The Capitol Police are directed to fund these items with available unobligated balances.

## ARCHITECT OF THE CAPITOL

## CAPITOL GROUNDS

The conference agreement provides an additional amount of \$8,200,000, to remain available until September 30, 2006, to complete perimeter security for the Capitol Square.

## CAPITOL POLICE BUILDINGS AND GROUNDS

The conferees have agreed to provide \$2,500,000 for an Interim Offsite Delivery/Screening Facility and \$1,600,000 for design of a permanent Offsite Delivery/Screening Facility, both to be located at DC Village. The conferees expect that the Architect will move expeditiously to complete this critical project and keep the Committees apprised of progress on a regular basis.

TITLE IV—INDIAN OCEAN TSUNAMI  
RELIEF

## CHAPTER 1

## FUNDS APPROPRIATED TO THE PRESIDENT

## OTHER BILATERAL ASSISTANCE

TSUNAMI RECOVERY AND RECONSTRUCTION FUND  
(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$656,000,000 for emergency relief, rehabilitation and reconstruction aid to countries affected by the tsunami of December 26, 2004 and the earthquakes of December 2004 and March 2005, as proposed by the Senate instead of \$659,000,000 as proposed by the House.

The conference agreement authorizes the Secretary of State to transfer funds to any Federal agency or account for activities authorized under the Foreign Assistance Act of 1961 or under the Agricultural Trade Development and Assistance Act of 1954. Of these funds, up to \$17,500,000 may be transferred to USAID's operating expenses and \$1,000,000 may be transferred to USAID's Office of Inspector General to cover the unexpected costs of administering and auditing the assistance.

The conference agreement includes authority, as proposed by the Senate, to use funds appropriated under this heading to address the potential health crisis should the avian influenza virus become pandemic in Southeast Asia. The Committees on Appropriations expect to be consulted prior to the obligation or expenditure of such funds.

The conference agreement allows \$10,000,000 to be transferred to and consolidated with USAID's "Development Credit Authority" for the cost of direct loans and loan guarantees. An additional \$5,000,000 may be transferred to and consolidated with the State Department's "Emergencies in the Diplomatic and Consular Service" account.

The conference agreement provides authority for the United States to participate with

other countries in a multilateral agreement to defer and reschedule the debt owed to United States Government agencies by the governments of countries affected by the tsunami and earthquakes. To get their debt rescheduled, the governments of these countries must commit to provide an equivalent amount of resources to the victims of the natural disasters. To ensure transparency, the Secretary of State is required to arrange for an outside independent evaluation of each country's compliance with the commitment.

The conference agreement provides \$5,000,000 to support environmental recovery activities in tsunami-affected countries.

The conference agreement provides \$10,000,000 for programs and activities that create new economic opportunities for women. The conferees recommend \$10,000,000 for small grants to support training and equipment for women-led, local non-governmental organizations.

The conference agreement provides \$1,500,000 to support initiatives for the protection of women and children from violence, trafficking and exploitation.

The conference agreement provides \$1,500,000 for programs to address the needs of people with disabilities resulting from injuries and trauma caused by the tsunami, instead of \$12,000,000 as proposed by the Senate.

The conference agreement provides that \$12,500,000 should be made available to support initiatives that focus on the immediate and long-term needs of children.

#### GENERAL PROVISIONS—THIS CHAPTER

Sec. 4101. The conference report includes a general provision proposed by both the House and Senate that provides that amounts provided under this chapter shall be in addition to amounts that may be obligated in fiscal year 2005 under section 492(b) of the Foreign Assistance Act of 1961.

Sec. 4102. The conference agreement includes a general provision proposed by the

House that establishes financial reporting requirements for funds appropriated in this chapter prior to their obligation. The purpose of the financial plan is to ensure that the Committees on Appropriations have a complete and detailed understanding of how agencies intend to use the resources provided in this chapter. The provision allows 15 percent of funds to be obligated prior to the submission of the financial report, which is due 30 days after enactment. This restriction on new obligations does not apply to funds used to reimburse accounts for obligations made prior to enactment. The Senate bill did not address this provision.

Sec. 4103. The conference agreement includes a general provision similar to that proposed by both the House and Senate that allows funds appropriated to be obligated and expended notwithstanding section 15 of the State Department Basic Authorization Act, section 313 of the Foreign Relations Authorization Act, section 10 of Public Law 91-672, and section 504(a)(1) of the National Security Act of 1947.

Sec. 4104. The conference agreement includes a general provision, similar to language proposed by the Senate, providing \$25,000,000 to combat the spread of the avian influenza virus. The conferees are gravely concerned by the current outbreak in Southeast Asia, and therefore initiate a coordinated inter-agency program to prevent and control the spread of this virus. The conferees understand that the Centers for Disease Control and Prevention (CDC) of the Department of Health and Human Services have the necessary expertise to implement the bulk of these activities and have accordingly transferred \$15,000,000 to CDC for use in combating the spread of the avian influenza virus in Southeast Asia. The conferees appreciate the valuable role the World Health Organization (WHO) played in combating the SARS outbreak and expect that the United States agencies will work closely with both the WHO and the Food and Agricultural Or-

ganization to address the human and animal components of this outbreak of the avian influenza virus. The conferees recognize that, given the variety of specialties necessary to mount such a program, an inter-agency taskforce and plan will be developed and implemented. The Committees on Appropriations expect to be consulted by this taskforce not later than 30 days following enactment of this Act on the status and implementation of such a plan.

The conference agreement does not include House section 5003 or Senate sections 6052 and 6054.

The conference agreement does not include Senate language regarding the protection of the Galapagos. However, the conferees endorse the findings of that amendment and strongly urge the Government of Ecuador to (1) refrain from actions that could cause harm to the biodiversity of the Galapagos or encourage illegal fishing in the Marine Reserve; (2) select the directorship of the Galapagos National Park Service through a transparent process based on merit; (3) enforce the Galapagos Special Law in its entirety; and (4) prohibit long-line fishing.

The conference agreement does not include sense of the Senate language regarding Nepal. However, the conferees deplore the February 1, 2005 action by the King of Nepal dissolving the multi-party government, and call for the immediate release of all political detainees, the restoration of constitutional liberties, and good faith negotiations with Nepal's political party leaders to restore democracy.

#### CHAPTER 2

The conferees encourage NOAA to develop buoys with capabilities beyond the single purpose of tsunami reporting. The conference agreement includes, by reference, language in the Senate report regarding the submission of a spending plan.

APPROPRIATIONS  
CHAPTER 1

DEPARTMENT OF AGRICULTURE  
OFFICE OF THE SECRETARY

Asian Soybean Rust.—The conferees are aware that Asian Soybean Rust has been identified in the United States and that great harm to soybean production and rural economies may result. It is important that the Department of Agriculture initiate an immediate and strong response to meet this threat. The conferees urge the Secretary to utilize funding from available sources, including contingency and CCC resources, to concentrate research, outreach, and regulatory activities in those areas where Asian Soybean Rust has been identified and where the greatest risk for disease expansion is evident.

(i) Common Computing Environment.—The conferees direct that of the funds made available to the Administrator of the Farm Service Agency, not less than \$33,000,000 shall be available for Geographic Information Systems, of which not less than \$23,500,000 shall be available to the National Agricultural Imagery Program.

Sec. 5104. The conference agreement includes language providing the Secretary of Agriculture flexibility in administering an existing grant to Alaska dairy farmers, as proposed by the Senate.

CHAPTER 2  
DEPARTMENT OF THE INTERIOR  
DEPARTMENTAL MANAGEMENT

RELATED AGENCY  
DEPARTMENT OF AGRICULTURE  
FOREST SERVICE

EMERGENCY FUND

(INCLUDING RESCISSIONS OF FUNDS)

The conference agreement includes modified language proposed by the Senate pro-

viding \$10,000,000 for a grant to Pocono Township, Tannersville, Pennsylvania to assist in the expansion of the only existing injectable influenza vaccine production facility in the United States, which is located in Swiftwater, Pennsylvania. The conferees are agreed that this emergency appropriation is in the nation's interest because of the national need to increase the supply of domestically produced influenza vaccine and to decrease the likelihood of another influenza vaccine shortage. The agreement includes five rescissions of inactive Department of Health and Human Services (HHS) funds to offset the spending. The funding and rescissions were included in the Senate bill. The House bill included neither the appropriation nor the rescissions.

The conference agreement also includes a new paragraph providing an additional \$58,000,000 to the Public Health and Social Services Emergency Fund to be transferred to the Centers for Disease Control and Prevention for the purchase of influenza countermeasures for the Strategic National Stockpile. The conferees understand that influenza countermeasures include, but are not limited to, antiviral medications and vaccines. The conferees believe these funds are urgently needed to enhance our nation's preparedness to respond to a severe influenza outbreak, particularly in light of the current reports of Avian influenza activity in Southeast Asia.

This additional funding is offset by a rescission of \$58,000,000 of the cancer hospital loan fund created by section 1016 of the Medicare Modernization Act of 2003.

The conference agreement includes \$5,000,000 in additional funds for the Office of Federal Housing Enterprise Oversight (OFHEO), as proposed by the Senate, with modifications. The House did not include a similar provision. These additional funds have been made available to ensure OFHEO has enough resources to complete all necessary audits and to pay for any litigation costs, as necessary. However, by undertaking

an assessment without first seeking an appropriation and prior to receiving an appropriation, OFHEO has placed the conferees in an untenable situation of appropriating funds after the necessary offsetting receipts have been collected. Hence, without significant amendments the conferees would have been scored for any appropriation subsequent to the assessment. To have made the assessment without informing the Committees on Appropriations demonstrates an ignorance of budgetary rules, an arrogance in program implementation and a serious attempt by OFHEO to ignore statutory intent.

In providing these funds, the conferees require that prior to any use of these appropriations, OFHEO must provide the Committees on Appropriations with a detailed operating plan and henceforth must provide quarterly reports on the use of all funds appropriated to OFHEO.

#### GENERAL PROVISION, THIS CHAPTER

Sec. 6020. The conference agreement includes a provision allowing the transfer of funds from the Defense Site Acceleration Completion account to ensure that projects within Defense Environmental Services are funded without unduly impacting mission activities and statutory requirements, and provides \$2,000,000, from within available funds, for the Tularosa Basin Desalination facility.

Sec. 6023. The conference agreement includes a provision making technical corrections regarding nuclear waste disposal in Title III of division C of Public Law 108-447.

Sec. 6024. The conference agreement modifies a Senate provision related to the "Department of Homeland Security Working Capital Fund". The conferees are displeased with the Department's use of the Working Capital Fund (WCF). The Department of Homeland Security has not complied with the requirements of the fiscal year 2005 Appropriations Act or the statement of managers accompanying the conference report with respect to the WCF. The Department has used the WCF for projects and activities about which Congress has not been informed, or for which Congress has not provided appropriations. While the WCF can be a useful management tool, it will only exist if the rules detailed in the annual appropriations acts and reports are strictly adhered to. The Department must comply with statutory reprogramming notification requirements, regardless of the source of funds, and notify the House and Senate Appropriations Committees prior to initiating a new project, whether it is run through the WCF, reimbursable agreements, the Economy Act, or within any single component of the Department.

The conferees understand that the Operation Integration Staff (I-Staff) has been removed from the WCF, but that funds have been obligated for this purpose in fiscal year 2005. In the past, the Committees objected to the use of the WCF for the I-Staff. The conferees direct a full and complete reporting, within 15 days of enactment of this Act, of all funds obligated in fiscal years 2004 and 2005 for the I-Staff, including funding sources, the number and source of all detailees, and a description and explanation of all travel and contracts. The conferees also understand that the Homeland Secure Data Network (HSDN) has been funded through the WCF. This program is further addressed in this statement of managers. No further obligations for the I-Staff and HSDN shall occur unless an official reprogramming notification is provided to and approved by the House and Senate Appropriations Committees.

Sec. 6025. The conference agreement includes a new general provision requiring annual appropriations justifications for the WCF, and requiring that justifications for each component of the Department carry explicit information about WCF charges, reimbursable agreements, and uses of the Economy Act.

Sec. 6026. The conference agreement includes and modifies a provision, as proposed by the Senate, related to the Chief Information Officer (CIO). The conferees withhold from obligation \$5,000,000 of the CIO's salaries and expenses until the CIO submits an expenditure plan for information technology projects funded by the CIO or funded through the use of reimbursable agreements.

The conferees remind the Department of Homeland Security that it is failing to abide by the statutory requirements for the reprogramming and transfer of funds, and the initiation of new programs, projects or activities. Pursuant to law, advanced notification to the House and Senate Appropriations Committees is required prior to the CIO initiating any new information technology project. The conferees direct the CIO to submit a list of every project underway or planned for fiscal year 2005; a complete list of all legacy systems in operation as of March 1, 2003; the operating status of those systems; and plans for continued operation or termination of each system. The conferees direct the CIO to submit an expenditure plan for all on-going or planned projects, to include but not be limited to: total project

costs, key milestones, obligations to date, contracts entered into, and a list of all funding sources specifying the exact dollar amount.

In addition, the conferees direct the Department to submit a report detailing all reimbursable agreements between the CIO's office and other departmental organizations in effect or planned for fiscal year 2005, as well as all of those anticipated for fiscal year 2006.

The CIO is directed to submit to the House and Senate Appropriations Committees an analysis demonstrating that the Homeland Secure Data Network (HSDN) is more cost effective than other alternatives that were considered prior to the initiation of the project. The report on the HSDN should accompany the expenditure plan required by this Act. The conferees have no bias towards development of the HSDN, but are extremely concerned by the lack of any presentation on the need for this project in the fiscal year 2004 or 2005 appropriations justifications. The conferees note, for example, that the contract for the development and implementation of the HSDN was awarded on April 12, 2004, yet the fiscal year 2004 project plans for the CIO's office were submitted April 20, 2004, with no mention of the HSDN project.

The modification clarifies the specific lands upon which certain activities are authorized and makes other technical changes to the language.

DIVISION B—REAL ID ACT OF 2005

TITLE I—AMENDMENTS TO FEDERAL LAWS TO PROTECT AGAINST TERRORIST ENTRY

Section 101 of the conference agreement includes language modified from language proposed in section 101 of division B of the House bill. The Senate did not include similar language.

Asylum Reform: As the staff of the 9/11 Commission determined, terrorist aliens

have exploited our asylum laws to enter and remain in the United States.

Aliens who pose a danger to the national security of the United States have been barred from receiving asylum and withholding of removal by regulation since 1990. In 1996, Congress amended the Immigration and Nationality Act (INA) to explicitly bar aliens who are inadmissible or deportable under terrorism provisions from receiving asylum and withholding. Despite these bars to dangerous aliens receiving asylum, however, the 9/11 Terrorist Travel monograph notes that "[a] number of terrorists [have] . . . abused the asylum system." Mono. at 106.

For example, Ramzi Yousef and Ahmad Aja, plotters of the first World Trade Center bombing, "concocted bogus political asylum stories when they arrived" to remain in the United States in 1992. *Id.* at 50. Similarly, the Blind Sheikh, Sheikh Abdul Rahman, "avoided being removed from the United States by filing an application for asylum and withholding of deportation to Egypt in . . . 1992." *Id.* at 55.

In addition to these aliens whose asylum abuse was specifically described in the Terrorist Travel Monograph, other alien terrorists have abused our generous asylum laws. In January 1993, 11 months after he applied for asylum, Mir Aimal Kansi, also known as Mir Aimal Kasi, killed two CIA employees in front of CIA headquarters in Langley, Virginia. Camarota, Steven, "The Open Door: How Militant Islamic Terrorists Entered and Remained in the United States, 1993-2001," Center for Immigration Studies, May 2002, at 7, [www.cis.org/articles/2002/Paper21/terrorism2.html](http://www.cis.org/articles/2002/Paper21/terrorism2.html); see also Border Security and Enforcement: The 9/11 Commission Staff Report on Training for Border Inspectors, Document Integrity, and Defects in the U.S. Visa Program Before the Subcommittee on Immigration, Border Security and Citizenship and the Subcommittee on Terrorism, Technology, and Homeland Security of the Senate Judiciary Committee, 108th Cong., 1st Sess. (2005) (statement of Janice Kephart). Kansi had been a visa overstayer for almost a year before filing that application. "The Open Door", at 7. Hesham Hedayet killed two in a shooting spree at LAX on July 4, 2002. Immigration and Naturalization Service's (INS's) Interactions with Hesham Mohamed Ali Hedayet Before the Subcommittee on Immigration, Border Security and Claims of the House Judiciary Committee, 107th Cong., 2d Sess. at 7 (statement of William Yates, Deputy Executive Associate Commissioner, INS) (2002). He entered the United States in 1992, and extended his stay by filing an asylum application one month before his stay ended. *Id.* His application was administratively denied, but he adjusted his status 17 months later after his wife won the visa lottery. *Id.* at 7-8.

Nor did the reforms in the mid-1990s end such abuse. In February 1997, for example, Gazi Ibrahim Abu Mezer was released after entering the United States illegally and after stating that he would be applying for asylum. Special Report of the United States Department of Justice, Office of the Inspector General, "Bombs in Brooklyn: How the Two Illegal Aliens Arrested for Plotting to Bomb the New York Subway Entered and Remained in the United States" (March 1998). In April 1997, he filed an asylum application in which he claimed that "the Israeli government continuously persecuted him." *Id.* On July 31, 1997, Mezer was arrested in a Brooklyn apartment for allegedly planning to bomb the New York City subway system. *Id.*

In January 1999, Somali national Nuradin Abdi was granted asylum. Government's Motion to Detain Defendant and Memorandum in Support at 4, *United States v. Nuradin M.*

*Abdi* (S.D. Ohio 2004) (No. 2:04cr88). *Abdi* purportedly used that status to apply for a travel document to facilitate an act of international terrorism. See Indictment, *United States v. Nuradin M. Abdi* (S.D. Ohio 2004) (No. 2:04cr88). After he returned to the United States, he was charged with conspiring to provide material support to al Qaeda, and the Justice Department claims “that *Abdi*, along with admitted al Qaeda operative *Iyman Ferris* and other co-conspirators, initiated a plot to blow up a Columbus [Ohio] area shopping mall.” Press Release of the United States Department of Justice, “Ohio Man Indicted for Providing Material Support to Al Qaeda, Falsely Obtaining and Using Travel Documents (June 14, 2004), at 2. The government has revoked his asylum because “with the exception of some minor biographical data, every aspect of [*Abdi*’s] asylum application . . . was false.” Government’s Motion to Detain Defendant and Memorandum in Support at 4, *United States v. Nuradin M. Abdi* (S.D. Ohio 2004) (No. 2:04cr88).

Section 101 of Division B responds to terrorist abuse of our asylum laws by amending the INA to limit fraud.

As there are no explicit evidentiary standards for granting asylum in the INA, standards for determining the credibility of an asylum applicant and the necessity for evidence corroborating an applicant’s testimony have evolved through the case law of the Board of Immigration Appeals (BIA) and federal courts. Because these standards are not consistent across federal appellate courts, different results have been reached in similar cases, depending on the court that hears the case.

With regard to sufficiency of the evidence, for example, the BIA and the federal courts agree that credible testimony alone may suffice to sustain the applicant’s burden of proof in some cases, but disagree on when credible testimony alone can meet the burden and when corroboration is needed. The BIA has held that: “Because the burden of proof is on the alien, an applicant should provide supporting evidence, both of general country conditions and of the specific facts sought to be relied on by the applicant, where such evidence is available. If such evidence is unavailable, the applicant must explain its unavailability, and the Immigration Judge must ensure that the applicant’s explanation is included in the record.” *Matter of S-M-J-*, 21 I&N Dec. 722 (BIA 1997).

Section 101 resolves conflicts between administrative and judicial tribunals with respect to standards to be followed in assessing asylum claims. In addition, it makes similar amendments to the standards governing other forms of relief from removal. Finally, this section corrects references within the asylum provisions to reflect changes in the INA generally.

Authority: Subsection 101(a) of Division B would amend paragraph 208(b)(1) of the INA to clarify that the Secretary of Homeland Security and the Attorney General both have authority to grant asylum. Because both the Secretary of Homeland Security and the Attorney General may now exercise authority over asylum depending on the context in which asylum issues arise, paragraphs 101(a)(1) and (2) of Division B would accordingly amend paragraph 208(b)(1) of the INA to insert references to both the Attorney General and the Secretary of Homeland Security.

Paragraph 101(g)(1) of Division B would provide that the references to the authority of the Secretary of Homeland Security would take effect as if enacted on March 1, 2003, which was the official date of transfer of immigration enforcement functions from the INS to the Department of Homeland Security under the Reorganization Plan.

Burden of Proof and Central Reason: Paragraph 101(a)(3) codifies case law standards for granting asylum, both to resolve conflicts between fora and to codify precedential rules.

First, that paragraph would create a new clause 208(b)(1)(B)(i) in the INA. This clause codifies existing regulations and case law standards stating that the burden of proof is on the asylum applicant to establish eligibility as a refugee. This clause also will clarify the standard that an asylum applicant must meet to establish the motivation for persecution claimed.

The INA requires all aliens seeking asylum to establish that they suffered or fear persecution “on account of” one of five factors: race, religion, nationality, membership in a particular social group, or political opinion. As the Supreme Court has held: “since the statute makes motive critical, [an asylum applicant] must provide some evidence of it, direct or circumstantial.” *INS v. Elias-Zacarias*, 502 U.S. 478, 483 (1992).

In explaining the Supreme Court’s decision, the Ninth Circuit stated: “[I]n those cases in which a persecuted activity could stem from many causes, some protected by the statute and others unprotected, the victim must tie the persecution to a protected cause. To do this, the victim needs to show the persecutor had a protected basis (such as the victim’s political opinion) in mind in undertaking the persecution.” *Canas-Segovia v. INS*, 970 F.2d 599, 601 (9th Cir. 1992). The BIA has explained the alien’s burden as follows: an asylum applicant “bear[s] the burden of establishing facts on which a reasonable person would fear that the danger arises on account of” one of the five protected factors. *Matter of Fuentes*, 19 I & N Dec. 658, 662 (BIA 1988).

The main issue in assessing motivation in an asylum context occurs in so-called “mixed motive” cases, where there is more than one possible motive for harm, one protected, others not. In requiring an asylum applicant to establish that at least one central reason for persecution was or will be one of the five factors for asylum relief, this subsection calls for an evaluation of whether the protected characteristic is central to the persecutor’s motivation to act.

Similar language has been advanced as a uniform standard for assessing motivation previously. In the proposed rule dealing with Asylum and Withholding Definitions (the so-called “R-A-” rule dealing with domestic violence cases), former Attorney General Janet Reno proposed to amend the asylum regulations to implement an almost identical proposal, explained as follows:

This rule proposes new language . . . that would require an applicant to show that the protected characteristic is central to the persecutor’s motivation to act. Consistent with current law, this language allows for the possibility that a persecutor may have mixed motives. It does not require that the persecutor be motivated solely by the victim’s possession of a protected characteristic. It does, however, require that the victim’s protected characteristic be central to the persecutor’s decision to act against the victim. For example, under this definition it clearly would not be sufficient if the protected characteristic was incidental or tangential to the persecutor’s motivation.

65 Fed. Reg. 76588, 76592 (Dec. 7, 2000).

Because this standard has not yet been adopted, there is currently no uniform standard for assessing motivation. This statutory standard is, however, in keeping with decisions of reviewing courts. See *Girma v. INS*, 283 F.3d 664, 668 (5th Cir. 2002) (affirming BIA’s finding of no persecution on account of qualifying ground, because in mixed motive

case “applicant . . . must present evidence sufficient for one to reasonably believe that the harm suffered was motivated in meaningful part by a protected ground”); *Ambartsoumian v. Ashcroft*, 388 F.3d 95, 91 (3d Cir. 2004) (applicant failed to show persecution on account of ethnicity, where police harassment was “mainly because he had failed to obtain proper legal documents and permission, and not because of his ethnicity”); *Useinovic v. INS*, 313 F.3d 1025, 1033 (7th Cir. 2002) (applicant failed to show persecution on account of political opinion based on robbery, where no showing that robbery “was primarily aimed at him personally and not at [stealing] valuables.”). Ninth Circuit decisions in *Borja v. INS*, 175 F.3d 732 (9th Cir.1999) and *Briones v. INS*, 175 F.3d 727 (9th Cir.1999) and other cases have substantially undermined a proper analysis of mixed motive cases, however.

Adopting this standard will address another anomaly in the law that has been created by the Ninth Circuit, one that improperly favors asylum applicants who claim that they have been accused of engaging in terrorist, militant, or guerrilla activity. In *Singh v. Iichert*, 63 F.3d 1501, 1509 (9th Cir. 1995), the Ninth Circuit equated the “investigation of and reaction against those thought, rightly or wrongly, to be militants seeking the violent overthrow of the government” with “a classic example of imputed political opinion,” rendering the applicant eligible for asylum. The court there also recognized a presumption of persecution on account of political opinion in the absence of evidence of what it termed a “legitimate government prosecution” of a suspected militant. See id. at 1509 (“In this case, *Singh* was not the target of any legitimate government prosecution. As in *Blanco-Lopez*, [w]e find no evidence in the record . . . that an actual, legitimate, criminal prosecution was initiated against [the applicant.] *Blanco-Lopez* [v. *INS*], 858 F.2d [531], 534 [(9th Cir. 1988)]. If ‘there is no evidence of a legitimate prosecutorial purpose for a government’s harassment of a person . . . there arises a presumption that the motive for harassment is political.’ *Hernandez-Ortiz v. INS*, 777 F.2d 509, 516 (9th Cir.1985) (“When a government exerts its military strength against an individual or a group within its population and there is no reason to believe that the individual or group has engaged in any criminal activity or other conduct that would provide a legitimate basis for governmental action, the most reasonable presumption is that the government’s actions are politically motivated.”)).

This presumption violates the Supreme Court precedent *Elias-Zacarias*, which requires asylum applicants to provide evidence of motivation. Further, this presumption effectively, but improperly, shifts the burden to the government to prove either a “legitimate purpose” for the foreign government’s interest in the alien, or that the alien’s claim is not credible, or that the alien is barred from asylum relief because, for example, that alien actually is a terrorist or a persecutor.

Plainly, an alien who is a terrorist could more easily fabricate a claim that his home government believes erroneously that he is a terrorist. This is suggested by the case of *Gazi Ibrahim Abu Mezer*, who was sentenced to life imprisonment for planning to bomb the New York subway system in 1997. See *United States v. Khalil*, 214 F.3d 111, 115 (2d Cir. 2000), cert. denied, 531 U.S. 937 (2000). *Mezer* was free in the United States after he was arrested in Washington State by the Border Patrol, which initiated formal deportation proceedings against him. Special Report of the United States Department of Justice, Office of the Inspector General, “Bombs

in Brooklyn: How the Two Illegal Aliens Arrested for Plotting to Bomb the New York Subway Entered and Remained in the United States" (March 1998). While in proceedings, Mezer was released on a \$5,000 bond and filed an application for political asylum in the United States. Id. In his asylum application, Mezer claimed that Israeli authorities had persecuted him because they wrongly believed he was a member of Hamas. Id. In support of his claim that Israel authorities had detained him twice without cause, Mezer attached two documents from the International Committee of the Red Cross. Id. One document reflected that Mezer was arrested on July 31, 1990, and held for 42 days for a "security" violation. Id. The second document indicated that Mezer was arrested on November 25, 1990, and held for approximately 90 days for "administrative" reasons. Id.

According to the investigation of the case by the Justice Department's Inspector General, the judge who received that application "did not notice that Mezer had said he was suspected of being a terrorist in Israel. She added that the assertion about Hamas, in itself, was not persuasive evidence that Mezer was a terrorist or that he should be detained, particularly because Mezer denied the assertion and also because he returned for this hearing after he had posted bond." Id. (emphasis added). The Inspector General continued:

INS trial attorneys whom we interviewed discussed some of the reasons that immigration judges do not normally detain aliens based only on their statements that they had been falsely accused of membership in a terrorist organization. First, they said that it was common for aliens to make such claims in support of asylum applications. INS Trial attorney Tammy Fitting estimated that on average, she saw one such claim each day during her work as a trial attorney.

Id. The burden that the government must bear in responding to such claims is compounded by two other issues. First, a regulation that bars the disclosure of information contained in an asylum application, or even the fact that an alien has applied for asylum, hinders the government's ability to confirm the veracity of asylum claims, or to obtain evidence that contradicts an alien's asylum claims. See 8 CFR §208.6. Second, information that ties a specific alien to terrorism is likely to be classified. The use of classified information in section 240 removal proceedings is disfavored, however. See e.g., *Haddam v. INS*, 54 F. Supp. 2d 588, 598 (E.D.Va. 1999) ("The use of secret evidence against a party, evidence that is given to, and relied on, by the IJ and BIA but kept entirely concealed from the party and the party's counsel, is an obnoxious practice, so unfair that in any ordinary litigation context, its unconstitutionality is manifest.").

The "central reason" standard will eliminate this presumption, and require aliens who allege persecution because they have been erroneously identified as terrorists to bear the same burden as all other asylum applicants, that is, they will have to offer direct or circumstantial evidence of motive, in accordance with Supreme Court precedent.

Finally, with respect to so-called "mixed-motive" claims, under this amendment, asylum may be granted where there is more than one motive for mistreatment, as long as at least one central reason for the mistreatment is on account of race, religion, nationality, membership in a particular social group, or political opinion.

Corroboration and Credibility. Clauses 208(b)(1)(B)(ii) and (iii), added by paragraph 101(a)(3) of Division B, will bring clarity and consistency to evidentiary determinations

by codifying standards for determining the credibility of applicant testimony, and determining when corroborating evidence may be required.

Corroboration: As a preliminary matter, new clause 208(b)(1)(B)(ii) of the INA codifies the BIA case law standard that the testimony of an asylum applicant can be sufficient to sustain the asylum applicant's burden of proof without corroboration, where the adjudicator determines that such testimony is credible, persuasive, and refers to specific facts demonstrating refugee status. Many aliens validly seeking asylum arrive in the United States with little or no evidence to corroborate their claims. This clause recognizes that a lack of extrinsic or corroborating evidence will not necessarily defeat an asylum claim where such evidence is not reasonably available to the applicant.

Codifying the BIA's corroboration standards, new clause 208(b)(1)(B)(ii) in the INA states that if an adjudicator determines that an asylum applicant should provide corroborating evidence for otherwise credible testimony, such corroborating evidence must be provided unless the applicant does not have it and cannot reasonably obtain it. Although this provision makes it possible for an alien to prove eligibility for asylum without corroborating evidence, the inability to obtain corroborating evidence does not relieve the applicant from sustaining the burden of proof, that is, the alien must satisfy his burden through other evidence.

This provision is based upon the standard set forth in the BIA's decision in *Matter of S-M-J*, 21 I&N Dec. 722. The BIA held there:

Because the burden of proof is on the alien, an applicant should provide supporting evidence, both of general country conditions and of the specific facts sought to be relied on by the applicant, where such evidence is available. If such evidence is unavailable, the applicant must explain its unavailability, and the Immigration Judge must ensure that the applicant's explanation is included in the record. Moreover, general country condition information may be necessary to support an applicant's testimony where the alien's claim is based on allegations which may be independently verified. "(W)hen the basis of an asylum claim becomes less focused on specific events involving the respondent personally and instead is more directed to broad allegations regarding general conditions in the respondent's country of origin, corroborative background evidence that establishes a plausible context for the persecution claim (or an explanation for the absence of such evidence) may well be essential."

Id. at 724 (internal citations omitted). With respect to evidence to support the applicant's specific claim, the BIA explained:

Unreasonable demands are not placed on an asylum applicant to present evidence to corroborate particular experiences (e.g., corroboration from the persecutor). However, where it is reasonable to expect corroborating evidence for certain alleged facts pertaining to the specifics of an applicant's claim, such evidence should be provided. That is, an asylum applicant should provide documentary support for material facts which are central to his or her claim and easily subject to verification, such as evidence of his or her place of birth, media accounts of large demonstrations, evidence of a publicly held office, or documentation of medical treatment. If the applicant does not provide such information, an explanation should be given as to why such information was not presented. . . . The absence of such corroborating evidence can lead to a finding that the applicant has failed to meet her burden of proof.

Id. at 725-26. Congress anticipates that the standards in *Matter of S-M-J*, including the BIA's conclusions on situations where corroborating evidence is or is not required, will guide the BIA and the courts in interpreting this clause.

Credibility: Proposed new clause 208(b)(1)(B)(iii) of the INA codifies factors identified in case law on which an adjudicator may make a credibility determination, including demeanor, candor, responsiveness, inherent plausibility of the account, consistency between the written and oral statements (regardless of when it was made and whether it was under oath, and considering the circumstances under which the statements were made), internal consistency of a statement, consistency of statements with the country conditions in the country from which the applicant claims asylum, and any inaccuracies or falsehoods in such statements. This section reiterates the rule that an asylum adjudicator is entitled to consider credible testimony along with other evidence.

Again, the creation of a uniform standard for credibility is needed to address a conflict on this issue between the Ninth Circuit on one hand and other circuits and the BIA. In *Elias-Zacarias*, 502 U.S. 478, the Supreme Court rejected the notion that a reviewing court may overturn a determination of the BIA in an asylum case whenever the court believes that the evidence supports a conclusion different from that of the BIA. It explained that "[t]o reverse the BIA finding we must find that the evidence not only supports that conclusion, but compels it." Id. at 481 n.1. Thus, an asylum applicant who "seeks to obtain judicial reversal of the BIA's determination . . . must show that the evidence he presented was so compelling that no reasonable factfinder could fail to find the requisite fear of persecution." Id. at 483-484.

In 1996, as part of IIRIRA, Congress codified the principles that the Court articulated in *Elias-Zacarias*. Congress directed that a court of appeals reviewing an order of removal must confine its review to the administrative record before the agency and must accept the BIA's findings of fact as "conclusive unless any reasonable adjudicator would be compelled to conclude to the contrary." Sections 242(b)(4)(A) and (B) of the INA.

This clause will allow Immigration Judges and the BIA to follow commonsense standards in assessing the credibility of asylum applicants better allowing them to identify and reject fraudulent claims. It should be noted, however, that although clause 208(b)(1)(B)(iii) would allow an adjudicator to base an adverse credibility determination on any of the factors set forth therein, such a determination must be reasonable and take into consideration the individual circumstances of the specific witness and/or applicant.

While the trier of fact is not required to state expressly that the trier has considered each factor in assessing credibility, Congress expects that the trier of fact will describe those factors that form the basis of the trier's opinion. This is true even where the trier of fact bases a credibility determination in part or in whole on the demeanor of the applicant.

Courts have recognized the expertise that Immigration Judges bring to this task. As the Ninth Circuit has held, for example: "An immigration judge alone is in a position to observe an alien's tone and demeanor, to explore inconsistencies in testimony, and to apply workable and consistent standards in the evaluation of testimonial evidence. He is, by virtue of his acquired skill, uniquely qualified to decide whether an alien's testimony has about it the ring of truth." *Sarvia-*

*Quintanilla v. INS*, 767 F.2d 1387, 1395 (9th Cir.1985).

In assessing an applicant's demeanor for purposes of making a credibility assessment, Congress anticipates that triers of fact will rely on those aspects of demeanor that are indicative of truthfulness or deception. For example, in explaining why it "granted special deference to the IJ's eyewitness observations regarding demeanor evidence," the Ninth Circuit cited to an explanation that it had given "in the context of a similarly-situated administrative law judge," holding: "Weight is given to the administrative law judge's determinations of credibility for the obvious reason that he or she sees the witnesses and hears them testify, while the Board and the reviewing court look only at cold records." All aspects of the witness's demeanor—including the expression of his countenance, how he sits or stands, whether he is inordinately nervous, his coloration during critical examination, the modulation or pace of his speech and other non-verbal communication—may convince the observing trial judge that the witness is testifying truthfully or falsely." *Mendoza Manimbao v. Ashcroft*, 329 F.3d 655, 662 (9th Cir. 2003). As noted, a credibility determination should follow an examination of all relevant circumstances, including the circumstances of the individual applicant.

Finally, this provision makes it clear that there is no presumption of credibility, but if no adverse credibility determination is explicitly made, the applicant or witness has a rebuttable presumption of credibility on appeal.

**Effective Dates.** Paragraph 101(g)(2) would provide that the asylum standards established in paragraph 101(a)(3) of Division B shall take effect on the date of enactment and apply to asylum applications made on or after such date, therefore, the standards would not apply by statute to asylum applications filed before the date of enactment, although such standards in existing case law would apply.

**Standards for Granting Withholding of Removal.** Paragraph 241(b)(3) of the INA places restrictions on removal to a country where an alien's life or freedom would be threatened. Withholding is a form of protection similar to asylum, with some critical differences. Asylum is a discretionary form of relief, for which the standard is a "well-founded fear of persecution." Withholding of removal, on the other hand, is mandatory protection from removal for those who can satisfy the higher standard of a "clear probability of persecution," also expressed as "more likely than not" that an alien would be persecuted. There are other key differences between the two forms of relief. A person who has been granted asylum has been admitted into the United States, although the status is not a right to reside permanently in the United States. An alien who is granted withholding has not been granted legal entry into the United States and may be removed to his country when there is no longer any threat to his life or freedom. Withholding of removal is only specific to a particular country and therefore does not preclude removal to another country. An alien granted withholding of removal may not adjust to the status of a lawful permanent resident and the alien's family members are not eligible to come to the United States via the alien's status in the United States.

In contrast, an alien granted asylum may adjust status under subsection 209(b) of the INA after being present in the United States for one year after the grant of asylum if the alien still meets the definition of refugee, is not firmly resettled in any other country and is otherwise admissible as an immigrant (with exemptions from certain grounds of in-

admissibility). Additionally, under paragraph 208(b)(3) of the INA, the spouse and children of an alien granted asylum, if not otherwise eligible for asylum, may be granted asylum themselves if accompanying or following to join the alien. Aside from the higher standard for burden of proof, withholding of removal involves similar consideration of credibility and corroboration factors and some of the same issues regarding Ninth Circuit jurisprudence.

Subsection 101(c) of Division B would amend paragraph 241(b)(3) of the INA by applying to and codifying for withholding of removal applications the same standards for sustaining the applicable burden of proof and for assessing credibility that would be used for asylum adjudications under clauses 208(b)(1)(B)(ii) and (iii) of the INA, as added by paragraph 101(a)(3) of Division B.

Subsection 101(h)(2) of Division B would provide that the withholding of removal standards established in subsection 101(c) take effect on the date of enactment and apply to withholding applications made on or after such date. Accordingly, those standards would not apply by statute to applications filed before the date of enactment, although such standards in existing case law would apply.

**Other Applications for Relief.** Subsection 101(d) of Division B would add a new paragraph 240(c)(4) to the INA. This paragraph would apply the credibility and corroboration standards in section 101(a)(3) of Division B to other applications for relief and protection from removal. The new paragraph also codifies the current requirement that an alien applying for relief or protection, and also that he or she merits that relief as a matter of discretion, if the relief is discretionary.

Subsection 101(h)(2) of Division B would provide that the standards established in subsection 101(d) shall take effect on the date of enactment and apply to withholding applications made on or after such date. Accordingly, those standards would not apply by statute to applications filed before the date of enactment, although such standards in existing case law would apply.

**Judicial Review of Corroboration Determinations:** Subsection 101(e) of Division B would amend paragraph 242(b)(4) of the INA by establishing a specific standard of review for reversal of determinations concerning the availability of corroborating evidence by an adjudicator considering an application for asylum, withholding of removal, or other applications for relief or protection. This subsection would apply the prevailing standard of review for factual determinations in subparagraph 242(b)(4)(B) of the INA to determinations about the availability of corroborating evidence, itself a factual determination. This provision underscores that the appropriate standard of review for such determinations is the deferential factual review standard.

Subsection 101(g)(3) of Division B would provide that the standards established in subsection 101(e) shall take effect on the date of enactment and apply to all cases in which the final removal order was issued before, on, or after such date.

**Clarification of Discretionary Relief Provision:** Subsection 101(f) would amend subparagraph 242(a)(2)(B) of the INA by clarifying that the provision barring judicial review of denials of discretionary relief applies regardless of whether the discretionary judgment, decision, or action is made in removal proceedings. It also amends subparagraph 242(a)(2)(B) of the INA by adding reference to the Secretary of Homeland Security, to clarify the text and make it consistent with the aims of the Reorganization Plan for the Department of Homeland Security.

Subsection 101(g)(4) of Division B would provide that the amendments in subsection 101(f) shall take effect on the date of enactment and apply to all cases pending before, on, or after such date.

**Removal of Caps.** Section 209 of the INA currently provides that the Attorney General may adjust the status of aliens granted asylum to lawful permanent residence if they satisfy certain conditions, subject to a cap of 10,000 persons per fiscal year (aside from certain groups of asylees who are or have been exempt from the cap or subject to limits set in other legislation). Paragraph 101(g)(1) of Division B would eliminate the cap for adjustment of status for asylees. It would also replace references to the "Immigration and Naturalization Service" with references to the "Department of Homeland Security" and replace references to the "Attorney General" with references to the "Secretary of Homeland Security or the Attorney General."

Similarly, under section 207(a)(5) of the INA, not more than 1,000 aliens may be admitted as refugees or granted asylum under the provision of section 101(a)(42) therein relating to persecution for resistance to coercive population control methods. Paragraph 101(g)(2) would strike the limitation on grants under this provision.

Subsection 101(f), lifting these caps, shall take effect on the date of enactment of Division B, pursuant to paragraph 101(g)(5).

**Repeal of the Study and Report on Terrorists and Asylum.** Section 5403 of the Intelligence Reform and Terrorism Prevention Act of 2004 provides that "the Comptroller General of the United States shall conduct a study to evaluate the extent to which weaknesses in the United States asylum system and withholding of removal system have been or could be exploited by aliens connected to, charged in connection with, or tied to terrorist activity," including the extent to which precedential court decisions may have affected the ability of the Federal Government to prove that an alien is a terrorist who should be denied asylum and/or removed.

Subsection 101(h) of Division B would repeal the requirement for the study and report, because the other provisions in section 101 of Division B would resolve the vulnerability of the asylum and withholding of removal systems to terrorist exploitation.

Section 102 of the conference agreement includes language modified from language proposed in section 102 of division B of the House bill. The Senate did not include similar language.

Section 102 of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 provides for construction and strengthening of barriers along U.S. land borders and specifically provides for 14 miles of barriers and roads along the border near San Diego, beginning at the Pacific Ocean and extending eastward. It provides for a waiver of the Endangered Species Act of 1973 (ESA) and the National Environmental Policy Act of 1969 (NEPA) to the extent the Attorney General determines it is necessary to ensure expeditious construction of barriers and roads. Despite the existing waiver provision, construction of the San Diego area barriers has been delayed due to a dispute involving other laws. The California Coastal Commission has prevented completion of the San Diego border security infrastructure because it alleges that plans to complete it are inconsistent with the California Coastal Management Program, a state program approved pursuant to the federal Coastal Zone Management Act (CZMA)—notwithstanding the fact that the San Diego border security infrastructure was designed to avoid and/or minimize adverse environmental impacts, and the Bureau of

Customs and Border Protection (CBP) of the Department of Homeland Security testified before the California Coastal Commission that the plans for completion were consistent with the Coastal Management Program to the maximum extent practicable without sacrificing the effectiveness of the border security infrastructure. Continued delays caused by litigation have demonstrated the need for additional waiver authority with respect to other laws that might impede the expeditious construction of security infrastructure along the border, such as the Coastal Zone Management Act.

Current Law. Section 102(c) of IIRIRA provided for a waiver of the ESA and NEPA to the extent the Attorney General determines is necessary to ensure expeditious construction of barriers and roads.

Section 102 of the conference report would amend the current provision to require the Secretary of Homeland Security to waive all laws that he or she determines, in his or her sole discretion, are necessary to ensure the expeditious construction of the border barriers.

Additionally, it would prohibit judicial review of a waiver decision or action by the Secretary and bar judicially ordered compensatory, declaratory, or injunctive, equitable, or any other relief or other remedy for damage alleged to result from any such decision or action. As discussed above, current statutes and the Reorganization Plan for the Department of Homeland Security have not amended and clarified references to executive authority throughout the INA. Accordingly, the provision would have replaced the reference in current law to the Attorney General by a reference to the Secretary of Homeland Security.

The Conferees have revised the House provision in the following respects. First, the revised provision authorizes but does not require the Secretary of DHS to waive any legal requirements that he or she, in his or her sole discretion, determines are necessary to ensure expeditious construction of border security infrastructure. Second, the provision clarifies the intent of the conference report by substituting a reference to waiver of "all legal requirements" for the prior reference to waiver of "all laws", clarifying Congress' intent that the Secretary's discretionary waiver authority extends to any local, state or federal statute, regulation, or administrative order that could impede expeditious construction of border security infrastructure. Third, the conferees provided that any such waiver would become effective upon publication in the Federal Register, thereby ensuring appropriate public notice of such determinations. Finally, the Conferees have provided federal judicial review for claims alleging that the actions or decisions of the Secretary violate the United States Constitution. The Conferees have further provided that such claims must be filed within sixty days of the Secretary's action or decision, and that interlocutory or final judgments, decrees, or orders of federal district courts on such claims may be reviewed only upon petition for a writ of certiorari to the Supreme Court of the United States. The Conferees' intent is to ensure that judicial review of actions or decisions of the Secretary not delay the expeditious construction of border security infrastructure, thereby defeating the purpose of the Secretary's waiver.

Section 106 of the conference agreement includes language modified from language proposed in section 105 of division B of the House bill. The Senate did not include similar language.

Section 106 of Division B addresses a number of judicial review anomalies improperly favoring criminal aliens that were created by

court decisions interpreting changes to the INA in 1996. Since 1961, Congress has consistently provided that only the courts of appeals may review removal orders. From 1961 through 1996, the INA provided that review in the courts of appeals "shall be the sole and exclusive procedure" for judicial review of deportation orders. See INA subsection 106(a) (1995) (entitled "Exclusiveness of procedure"). As the legislative history behind this provision reveals, Congress aimed to "create a single, separate, statutory form of judicial review of administrative orders for the deportation and exclusion of aliens from the United States." H.R. REP. NO. 1086, 87th Cong., 1st Sess., reprinted in 1961 U.S.C.A.N. 2950, 2966 (1961). Congress's "fundamental purpose" was "to abbreviate the process of judicial review of deportation orders" and to "eliminat[e] the previous initial step in obtaining judicial review—a suit in a District Court." *Foti v. INS*, 375 U.S. 217, 224 (1963); accord *Agosto v. INS*, 436 U.S. 748, 752-53 (1978); *Giova v. Rosenberg*, 379 U.S. 18 (1964) (per curiam). Thus, a final order of deportation could be challenged only in the appropriate court of appeals upon a timely filed petition for review.

Such order could not have been challenged in district court by way of habeas corpus. Although the INA contained another provision permitting habeas review, see INA §106(a)(10) (1995), several circuits interpreted that provision as not providing habeas review over deportation orders, but only review over collateral issues, such as whether the alien should be released from custody or granted a stay of deportation pending a petition for review.

Moreover, to the extent that habeas review of deportation orders had been available before 1996, Congress attempted to eliminate it in enacting the Antiterrorism and Effective Death Penalty Act of 1996 (AEDPA), Pub. L. 104-132, 110 Stat. 1214 (April 24, 1996). One of the statute's provisions, entitled "Elimination of Custody Review by Habeas Corpus," expressly repealed the former habeas provision. See subsection 401(e), 110 Stat. 1268, repealing INA paragraph 106(a)(10) (1995). This was part of Congress's broad efforts to streamline immigration proceedings. Indeed, to expedite removal, section 440(a) of AEDPA precluded all judicial review of deportation orders for certain classes of criminal aliens. 110 Stat. 1276-77 (providing that such orders "shall not be subject to review by any court").

Congress continued these streamlining reforms when it enacted the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 (IIRIRA), Pub. L. 104-208, 110 Stat. 3546 (Sept. 30, 1996). In IIRIRA, Congress reestablished that only courts of appeals—and not district courts—could review a final removal order (or, to use the pre-1996 nomenclature, deportation order or exclusion order). See section 242(a)(1) of the INA (incorporating the Hobbs Act, 28 U.S.C. §2347). In addition, Congress made clear that review of a final removal order is the only mechanism for reviewing any issue raised in a removal proceeding. Section 242(b)(9) of the INA (2000); see also IIRIRA §309(c)(4)(A) (transition rules). Together, these provisions were intended to preclude all district court review of any issue raised in a removal proceeding. Finally, as it did in AEDPA, Congress confirmed that criminal aliens could not obtain any judicial review. IIRIRA expressly provided that, "[n]otwithstanding any other provision of law, no court shall have jurisdiction to review any final order of removal against an alien who is removable by reason of having committed" one of various criminal offenses, including aggravated felonies. See section 242(a)(2)(C) (2000) (emphasis added); see also S. Rep. No. 104-249, 104th Cong, 2d Sess. at 7 ("Aliens who violate

U.S. immigration law should be removed from this country as soon as possible.").

Despite Congress's efforts to limit judicial review in 1996, the Supreme Court expanded it just five years later. In *INS v. St. Cyr*, the Supreme Court held that criminal aliens are actually entitled to more review than they had before the 1996 amendments, and more review than non-criminal aliens. *INS v. St. Cyr*, 533 U.S. 289 (2001). Specifically, the Court held that criminal aliens could seek habeas review of their removal orders under 28 U.S.C. §2241. With habeas review, the criminal alien would get review in district court and, on appeal, in the court of appeals.

The basis for the Court's decision was that Congress never "explicitly mention[ed]" section 2241 or habeas when it eliminated all judicial review over criminal aliens' removal orders. *Id.* at 312-13. According to the Court, an explicit reference to section 2241 or habeas was necessary because Congress did not provide for "another judicial forum" for criminal aliens to raise pure questions of law because, as noted, whereas non-criminal aliens could challenge their removal orders in the courts of appeals, under AEDPA and IIRIRA, criminal aliens could not. *Id.* at 298-300, 312-14; see also *id.* at 312 n.36 ("Congress" failure to refer specifically to §2241 is particularly significant."). Thus, as a matter of statutory interpretation, the Court held that criminal aliens could bring habeas actions under section 2241.

The Court recognized that, as a result of its decision, criminal aliens would be able to seek review in district court and, on appeal, in the courts of appeals, whereas non-criminal aliens could obtain review only in the courts of appeals. It noted that Congress could fix this anomaly, however. As the Court stated, "Congress could without raising any constitutional questions, provide an adequate substitute [to section 2241] through the courts of appeals." *Id.* at 314 n.38.

Among the many problems caused by *St. Cyr*, the most significant is that this decision allows criminal aliens to delay their expulsion from the United States for years.

Furthermore, because of *St. Cyr*, aliens who have committed serious crimes in the United States are generally able to obtain more judicial review than non-criminal aliens. As the dissent in *St. Cyr* pointed out, allowing criminal aliens to obtain habeas review of their immigration orders in the district court "brings forth a version of the statute that affords criminal aliens more opportunities for delay-inducing judicial review than are afforded to non-criminal aliens, or even than were afforded to criminal aliens prior to the legislation concededly designed to expedite their removal." 533 U.S. at 327 (Scalia, J. dissenting). This is because, under *St. Cyr*, criminal aliens are able to begin the judicial review process in the district court, and then appeal to the circuit court of appeals. Criminal aliens thus can obtain review in two judicial forums, whereas non-criminal aliens may generally seek review only in the courts of appeals. Not only is this result unfair and illogical, but it also wastes scarce judicial and executive resources.

Finally, the result in *St. Cyr* has created confusion in the federal courts as to what immigration issues can be reviewed, and which courts can review them. The decision in *St. Cyr* itself held that district courts, and not the courts of appeals, have habeas corpus review authority over statutory claims involving discretionary immigration relief. See also *Calcano-Martinez v. INS*, 533 U.S. 348, 351-52 (2001). On the other hand, after *St. Cyr*, every circuit court has held that courts of appeals retain jurisdiction to review limited threshold "jurisdiction to determine jurisdiction" questions raised by criminal aliens in petitions for review. Therefore, following

*St. Cyr*, some issues are still reviewable in the circuit courts while others are reviewable only in the district courts, resulting in bifurcated and inefficient review. Additionally, the circuits have split on the question of which court may entertain constitutional challenges to criminal aliens' removal orders (a question left open in *St. Cyr*). All of this has resulted in piecemeal review, uncertainty, lack of uniformity, and a waste of resources both for the judicial branch and Government lawyers—the very opposite of what Congress tried to accomplish in 1996.

Section 106 of Division B would address the anomalies created by *St. Cyr* and its progeny by restoring uniformity and order to the law. First, under this section, criminal aliens will have fewer opportunities to delay their removal, because they will not be able to obtain district court review in addition to circuit court review, and will not be able to ignore the thirty-day time limit on seeking review. Second, criminal aliens will not receive more judicial review than non-criminals. Under the amendments in section 106, all aliens will get review in the same forum—the courts of appeals. Third, by channeling review to the courts of appeals, section 106 will eliminate the problems of bifurcated and piecemeal litigation. Thus, the overall effect of the proposed reforms is to give every alien a fair opportunity to obtain judicial review while restoring order and common sense to the judicial review process.

Significantly, this section does not eliminate judicial review, but simply restores such review to its former settled forum prior to 1996. Under section 106, all aliens who are ordered removed by an immigration judge will be able to appeal to the BIA and then raise constitutional and legal challenges in the courts of appeals. No alien, not even criminal aliens, will be deprived of judicial review of such claims. Unlike AEDPA and IIRIRA, which attempted to eliminate judicial review of criminal aliens' removal orders, section 106 would give every alien one day in the court of appeals, satisfying constitutional concerns. The Supreme Court has held that in supplanting the writ of habeas corpus with an alternative scheme, Congress need only provide a scheme which is an "adequate and effective" substitute for habeas corpus. See *Swain v. Pressley*, 430 U.S. 372, 381 (1977). Indeed, in *St. Cyr* itself, the Supreme Court recognized that "Congress could, without raising any constitutional questions, provide an adequate substitute through the courts of appeals." *St. Cyr*, 533 U.S. at 314 n.38 (emphasis added). By placing all review in the courts of appeals, Division B would provide an "adequate and effective" alternative to habeas corpus. *Id.*

Further, while the reforms in section 106 would preclude criminals from obtaining review over non-constitutional, non-legal claims, it would not change the scope of review that criminal aliens currently receive, because habeas review does not cover discretionary determinations or factual issues that do not implicate constitutional due process. See, e.g., *St. Cyr*, 533 U.S. at 306–07 & n.27 (recognizing that habeas courts do not review "exercis[e]s of discretion" or "factual determinations" that do not implicate due process); *Fong Yue Ting v. INS*, 149 U.S. 698, 713–14 (1893) ("Congress might intrust the final determination of . . . facts to an executive officer"); *Heikkila v. Barber*, 345 U.S. 229, 236 (1953) ("the function of the courts has always been limited to the enforcement of due process requirements"); *Ter Yang v. INS*, 109 F.3d 1185, 1195 (7th Cir. 1997) ("the Supreme Court long ago made it clear that this writ does not offer what our petitioners desire: review of discretionary decisions by the political branches of government"); see also *Sol v. INS*, 274 F.3d 648, 651 (2d Cir. 2001) (habeas ju-

isdiction under §2241 does not extend to factual or discretionary determinations).

Moreover, section 106 would not preclude habeas review over challenges to detention that are independent of challenges to removal orders. Instead, the bill would eliminate habeas review only over challenges to removal orders.

Review in the Courts of Appeals. Subparagraph 106(a)(1)(A) of Division B would replace habeas corpus review of specified removal orders with review of constitutional claims and questions of law before the courts of appeal.

It should be noted that the word "pure," in the phrase "pure question of law," which had appeared in prior versions of a proposed section 242(a)(2)(D) of the INA, has been deleted from that phrase in the final version in this subparagraph because it is superfluous. As the ACLU explained during the *St. Cyr* litigation, a "question of law" is a question regarding the construction of a statute. The word "pure" adds no meaning. The purpose of section 106(a)(1)(A)(iii) is to permit judicial review over those issues that were historically reviewable on habeas—constitutional and statutory-construction questions, not discretionary or factual questions. When a court is presented with a mixed question of law and fact, the court should analyze it to the extent there are legal elements, but should not review any factual elements. Factual questions include those questions that courts would review under the "substantial evidence" or 242(b)(4)(B) standard, reversing only when a reasonable factfinder would be compelled to conclude that the decision below was erroneous.

Section 106(a)(1)(B) adds a new section 242(a)(4) to the INA. This provision will allow aliens in section 240 removal proceedings to seek review of "any cause or claim under the United Nations Convention Against Torture and Other Forms of Cruel, Inhuman, or Degrading Treatment or Punishment" in the courts of appeal.

Section 106(a)(2) of Division B would amend section 242(b)(9) of the INA, concerning consolidation of issues for judicial review, to clarify that, except as otherwise provided in section 242 of the INA, no court is to have jurisdiction for habeas review or other non-direct judicial review of a removal order or questions of law or fact arising from such an order. This does not affect habeas corpus review in section 242(e)(2) of the INA. Subsection 242(g) of the INA, concerning exclusive jurisdiction, is also amended to clarify that no habeas review or other non-direct judicial review would be available for any claim arising from a decision or action by the Attorney General regarding the initiation and adjudication of removal proceedings or the execution of removal orders against any alien.

Under subsection 106(b), the effective date of the amendments in subsection 106(a) is the date of enactment of Division B, and the amendments would apply to cases in which the final administrative order of removal, deportation or exclusion was issued before, on, or after the date of enactment. Subsection 106(c) of Division B would provide for the transfer of pending habeas cases from district courts to federal appellate courts in which they could have been properly filed under section 242(b)(2) of the INA or the transitional rules of IIRIRA.

Subsection 106(d) provides that IIRIRA transition-rule cases filed under former subsection 106(a) of the INA (1995), concerning judicial review of deportation and exclusion cases and repealed by the IIRIRA, shall be treated as if they had been filed under section 242 of the INA and that such petitions shall be the sole avenue for judicial review of deportation or exclusion orders, notwithstanding any other provisions of law, includ-

ing habeas review or other non-direct judicial review.

Finally, it should also be noted that section 106 will not preclude habeas review over challenges to detention that are independent of challenges to removal orders. Instead, the bill would eliminate habeas review only over challenges to removal orders.

#### TITLE II—IMPROVED SECURITY FOR DRIVERS' LICENSES AND PERSONAL IDENTIFICATION CARDS

Section 201 of the conference agreement includes language modified from language proposed in section 201 of division B of the House bill. The Senate did not include similar language.

Section 201 is necessary to clarify the Federal law as it pertains to driver's licenses, and relates it to other federal laws that govern state issuance and records keeping of "motor vehicle operator's license." That means that, to the degree that commercial truck driver's licenses and HAZMAT licenses are separately defined by Title 49, this law is directed to the personal driver's licenses and local use commercial vehicle licenses. It also names identification cards as being regulated, as every entity listed under the "State" definition issues identity cards as well as driver's licenses. The Act establishes a minimum definition of "Official Purpose" to limit the use of any licenses or ID cards issued by states that do not meet the Act's requirements. More specifically, the definition provides direction as to what certain categories of temporary license marked clearly on their face to indicate they are not acceptable for federal identification or federal purposes and cannot be used. For example, non-compliant driver's licenses or non-compliant state issued ID cards cannot be used for identification to board federally regulated commercial aircraft, enter nuclear power plants or have access to federally regulated critical infrastructure or similar facilities determined to be vulnerable to attack. Noncompliant driver's licenses or non-compliant state issued ID cards cannot be used for identification for any federal purpose. The Secretary is authorized to establish other purposes for which only those license and ID cards that meet federal standards can be used.

Section 202 of the conference agreement includes language modified from language proposed in section 202 of division B of the House bill. The Senate did not include similar language.

202(a)(1) states that the law is binding on Federal agencies—not the states. Consequently, this Act does not directly impose federal standards with respect to states' issuance of driver's licenses and personal identification cards. The application of the law is indirect, and hence states need not comply with the listed standards. However, states would nevertheless need to adopt such standards and modify any conflicting laws or regulations in order for such documents to be recognized by federal agencies for official purposes. The Federal Government regulates driver's licenses issuance now for HAZMAT and commercial trucks, but not with regard to their physical security, counterfeit resistance or with regard to the confirmation of the identity of an applicant before license issuance. There is also federal regulation regarding Driving Under the Influence of alcohol, including requiring suspension of driving privileges, and provides grants to states for prevention programs. Federal law and regulations (23 CFR Chapter III) also provide detailed prescriptions for driver's safety training as a condition for issuance of licenses, and minimum standards for visual

features to enable distinction between learner's permits and full validity driver's licenses. There is also a National Driver Register Problem Driver Point System, established by the National Driver Register Act of 1982. This Act established a mandate for states to share information about "bad drivers" through this system. Participation in the NDR is optional, conditioned by Federal grants. All 50 States and the District of Columbia participate in the NDR. The system is also referred to as the Problem Driver Pointer System (PDPS). Regulations governing participants require states to collect more information than required for the minimum document requirements under Section 202 as part of the license issuance process. However, the requirements for proof of identification to obtain a license are generalized. When the REAL ID Act becomes law, CFR 23 will need to be substantially revised by DOT to add details to the pertinent sections, as determined through the Department of Homeland Security established regulations implementing the Act. The primary process by which states will share information regarding the identities of driver's license holders will be the PDPS, once upgraded and with complimentary system capacity upgrading by the States.

202(a)(2). The Conferees revised HR 418, which placed compliance certification by the States under the authority of the Secretary of Homeland Security, based on certification by the Secretary of Transportation, so that the Secretary of Homeland Security will determine whether a state is complying with its certifications of compliance with the Act. This establishes a new channel of federal regulation and compliance audit by the Department of Homeland Security for identity management, while requiring coordination of regulations with the Department of Transportation (DOT) of driver's license regimes.

Section 202(b) Minimum Document Requirements. The intent of this requirement is to improve the ability of law enforcement officers at all levels to confirm the identity of the individuals presenting state issued driver's licenses or identification cards.

202(b)(1) Many states don't follow the convention of full legal name. For example, a person might "use" a middle name versus his/her first name, and therefore prefer that the driver's license use that name without regard to the "real" first name. Instead of William Beauford Brown, the state driver's license states simply "Beau Brown." Using a name other than a full legal name results in "no matches" when checked against other public records that use the full legal name. This occurred with some of the licenses and state ID cards obtained by the 9/11 terrorists, where the driver's license "names" were variants on the actual name carried in the passport, despite the terrorists' use of their own, valid passports to verify name.

202(b)(2) The person's date of birth is necessary to differentiate the person from others with the same name—for example, there are thousands of John R. Browns in the U.S., but very few have the same birthday. This is particularly relevant to protect people from being delayed at airports because their name coincides with someone on the "do not fly" list. Additional biographic information on the document most citizens present to board a plane will reduce problems with misidentification that currently plague our security processes.

202(b)(3) Gender is for all but a very few persons a clearly definable and verifiable biometric identifier. It allows law enforcement and airport security to quickly match or "no match" a person against a wants and warrant notification. Systematically employing it throughout the country would not only improve identification of suspected terror-

ists, it would expedite the checks on everyone else by reducing "false positives" where a person is erroneously matched by name with a wanted person.

202(b)(4) Currently every state does post a driver's license number on a permanent driver's license "card," but not all states employ traceable numbers on temporary licenses and temporary state ID cards. This is obviously an important tool in differentiating counterfeit licenses from valid licenses—via a number check.

202(b)(5) requires a digital photograph of the person so that it can be confirmed by comparison to the current and/or future database of the State issuing the license, using existing secure technology designed for that purpose. More than 20 states continue to use a process where "regular" photos are glued into license forms. These are easily altered by breaking the plastic seal, and replacing the valid photo with one of the person who has stolen or "borrowed" the license or ID card from the person to whom it was validly issued. The intent of requiring a digital photo, as in a passport, is to insure that the photo accurately captures the appearance of the person to whom it was issued. It also allows the state to retain a record of the digital image at a relatively low cost, and be able to provide that image to law enforcement quickly via a computer link.

202(b)(6) Having the person's principal residence address is, in fact, a standard requirement in nearly all states, but many states make no effort to verify that it is the principal residence, and not an address of convenience, or a completely irrelevant address selected at random by the applicant. In this last case, the applicant has normally provided a false address to avoid apprehension for a crime, or notification by law enforcement regarding a civil award. Many scowflaw fathers hide their current location to avoid paying child support, as required by federal law.

202(b)(7) requires a person's signature, so that it can be compared to a person's signature when using the card for identity confirmation for both civil, legal and regular financial transactions, as to verify a credit card signature. Signature verification is another means for a law enforcement officer to confirm identity, and is actually of convenience to retail establishments to confirm check and credit card signatures.

202(b)(8) requires physical security features to prevent tampering counterfeiting or duplication of the document for fraudulent purposes. The importance of this requirement cannot be overstated. A majority of states maintain a high level of physical security in the manufacture of their cards. Unfortunately, a significant minority of states do not issue licenses or ID cards with secure physical characteristics. This results in criminals, identity thieves, and amateurs such as college students being able to "manufacture" fake driver's licenses and ID cards from these states. Federal law enforcement officials—national forensic document laboratory—can validate that the driver's licenses of these states are not secure from counterfeiting using easily available technology.

202(b)(9) A common machine-readable technology exists, along with common defined minimum data elements, under the interstate driver's compact to which 46 states already belong. There is inconsistency in actual practice with regard to the order of the data. Further, there has been little research on methods to secure the privacy of the data contained on the machine readable strip. Improvements in the machine readable technology would allow for less data being present on the face of the card in the future, with other data stored securely and only able to be read by law enforcement officials.

Section 202(c) Minimum Issuance Standards The 9/11 Commission report recommended that the federal government correct the chronic weakness among many of the states in the verification of identity for issuance of licenses. That recommendation has been supported by other reports on criminal justice, drunk driving, and underage drinking, albeit for entirely different objectives. Current federal regulations addressing driver's licenses require the states to obtain a date of birth for each applicant, but states set their own criteria for what kind of document they can rely on for the DOB. Consequently, the Commission staff reported noted that it's similarly easy for a terrorist, or for a tourist, entering the U.S. on a valid visa, to build a "document chain" beginning with a counterfeit or an altered document. Precisely because we have many legal immigrants, States rarely check the authenticity of "green cards" or other immigration documents. Which is why 9-11 terrorist Mohammad Atta was able to pass a hand altered immigration document to get a 6 year Florida's driver's license despite holding what was, in fact, a visa that was about to expire. Once implemented, it will also address the problem in which high school and underage college students obtain authentic driver's licenses in states other than ones they grew up in, with a false age that allows them to go into bars and consume alcohol. The provision will establish minimum issuance standards for federal recognition requiring that before a state can issue a driver's license or photo identification card, it would have to verify with the issuing agency, the issuance, validity and completeness of: (1) a photo identification document or a non-photo document containing both the individual's full legal name and date of birth; (2) date of birth; (3) proof of a social security number (SSN) or verification of the individual's ineligibility for a SSN; and (4) name and address of the individual's principal residence. A comparable, but more loosely defined set of identity verification requirements pertaining to minimum requirements for NDR inquiries are stated in CFR 23, 1327.5 to be "Proof of identification—Acceptable forms of identification are driver's license, birth certificate, credit card, employee identification card, and other forms of identification normally accepted by the State." The new requirements do not "preempt any state verification standards" but require that the state establish a common minimum set of standards. Nothing in the law limits a state's prerogative to use other supplementary forms of identity confirmation, nor to use a much lower standard for the issuance of learner's permits or other driving permits that are not eligible to be used for identification purposes by federal agencies. For those forty states who have public policy positions and corroborating state law that establish minimum identity confirmation standards and a legal presence requirement, the standards will provide a common platform

202(c)(2)—Special Requirements This requires a state, before issuing a driver's license or identification card to a person, to require a person to present valid documentary evidence that he or she is either a U.S. citizen or national or an alien legally present in the United States. CRS has noted that there are no special requirements relating to the issuance of identification cards to persons who are not U.S. citizens but are nonetheless U.S. nationals (i.e., most residents of American Samoa or Swain's Island). That will not be necessary within the Act, as the Secretaries of DHS and DOT will accordingly address those special categories of U.S. nationals (a U.S. citizen or "a person who, though not a citizen of the United States,

owes permanent allegiance to the United States").

For those state electing to conform to the requirements of this Act, so that their driver's licenses will be accepted for identification purposes by the federal government, this set of requirements establishes the basis for a common statutory basis for subsequent federal regulations.

202(c)(2)(B) The evidence of Legal Status requirements conform almost exactly to those of the laws of the Commonwealth of Virginia, and are parallel to the state laws of New York, Florida, California and roughly thirty other states which have passed laws requiring evidence of lawful presence in the United States. It requires for state license and ID cards verification that an applicant is lawfully present (not present in violation of the Immigration and Naturalization Act) in the United States before issuing a driver's license or personal identification card that is intended to be used for identification purposes by federal agencies. Under this section, persons would only be eligible for temporary drivers' licenses or identification cards if evidence is presented that they: (1) have a valid, unexpired non-immigrant visa or non-immigrant visa status for entry into the United States; (2) have a pending or approved application for asylum in the United States; (3) have entered into the United States in refugee status; (4) have a pending or approved application for temporary protected status in the United States; (5) have approved deferred action status; or (6) have a pending application for adjustment of status to that of an alien lawfully admitted for permanent residence in the United States or conditional permanent resident status in the United States.

202(c)(2)(C) This establishes that, in order to issue temporary licenses or temporary ID cards that will be acceptable to the federal government for identification purposes, a state may only issue a temporary driver's license or identification card with an expiration date equal to the period of time of the applicant's authorized stay in the United States. Clause ii provides that if there is an indefinite end to the period of authorized stay, the card's expiration date shall be one year. The temporary card shall clearly indicate that it is temporary and shall state the expiration date. Clause iii provides for clear display of the expiration date on a temporary card, which is an extremely important requirement for the benefit of public safety and security personnel, police and others who need to inspect people for entry to airports, secure facilities, and for official federal purposes, as defined in the act and by subsequent regulations. A clear display facilitates an expedited inspection, and a clear date to determine validity of the temporary licenses. Clause iv provides that renewals of the temporary cards would be done only upon presentation of valid documentary evidence that the status had been extended by the Secretary of Homeland Security. This is important because renewals of temporary licenses were exploited by the 9/11 terrorists, and have been a major security vulnerability with foreign visitors who decide to overstay their valid visa terms.

202(c)(3)(B) The requirement that licenses for ID purposes for foreign visitors not be issued except when the applicant's identity is confirmed by a passport is intended to strengthen the identity confirmation process for foreign visitors, and to stop the process of accepting unreliable foreign documents for identification. Should an applicant who is not a U.S. citizen or immigrant otherwise meet the identification standards set out in the bill, a State must only provide a temporary license or certificate limited to one year's duration and clearly marked as not

for identification, with the notification to the holder that it is not valid for federal identification or official federal purposes.

202(c)(3)(C) The Act, for purposes of validating states' determination of lawful presence requires that all States enter into a memorandum of understanding with the Secretary of Homeland Security to routinely utilize the automated system known as Systematic Alien Verification for Entitlements, to verify the legal presence status of a person, other than a United States citizen or national, applying for a driver's license or identification card.

Section 202(d) Other requirements are each new procedural standards to be addressed by regulations to be established by DHS under the Act.

202(d)(1) Obtaining and retaining digital images of applicants will assist in expediting applicant identity confirmation for license and ID card renewal process. It will also assist with preventing fraud, and facilitate those states using photo comparison software to identify such frauds, and safeguard against identity theft.

202(d)(2) requires states to keep records of source documents (birth certificates, etc.) for at least 7 years primarily to allow for renewal of driver's licenses without requiring license holders to bring back identity confirming documents. It also establishes a minimum duration during which documentation is available to law enforcement officers investigating and prosecuting suspected identity concealment by criminals and terrorists, as well as obtaining proof and assistance with identity theft crimes. This corrects a current problem in which states don't retain records at all, or destroy them after a few months, hence destroying both the audit trail of proof of valid documents needed to issue a license, as well as fraudulent documents used by law breakers until subsequently discovered by investigators. Although the FBI has provided the counts now used about the false identities maintained by the 19 9-11 terrorists, they may in fact have had more, as state records systems are sometimes so poor that few source documents are available to confirm or deny. The goal is to move all the state's records into electronic format, with each state consolidating electronic records otherwise maintained at County level at the State level. The cost is much lower than the paper filing system still maintained by some States. The initial capital cost for the state is not insignificant, but the incremental savings are great. Although this Act will require licenses be re-issued after every eight years, states will need to have original document records to discern whether the birth certificate was valid that was originally presented when the prior license was issued. The Social Security Administration is pursuing a birth certificate records system with the States that is beginning to have an effect in a few pilot states, which program will be further accelerated by the program put into law through the Intelligence Reform Act that will reduce the state's need to retain a separate record of document images or paper records.

202(d)(3) The requirement to photograph each applicant has as its purpose capturing a recorded photograph of applicants who may be denied a license for insufficient documents or documents that are recognized as fraudulent. This will primarily act as a deterrent to attempted fraud, once the public becomes aware of this new procedure, since frauds and others using false identities will understand that their photograph will be available to law enforcement even if they are denied a license or ID card. It is a particularly important tool for federal law enforcement investigating suspected terrorism and identity theft.

202(d)(4) The requirement to establish an effective procedure to confirm or verify a renewing applicant's information will establish a qualitative floor standard to correct the current problem in some states where license and ID card renewal is done without adequate confirmation of identity of the applicant. Those inadequate procedures are both a source of identity theft and a vulnerability that terrorists might exploit.

202(d)(5) imposes an important requirement to correct a current practice of many states in which multiple driver's licenses with multiple names are allowed to use the same reference Social Security Number as the "reference" SSN to confirm identity. In the event that a SSN is already registered to or associated with another person to which any state has issued a driver's license or identification card, the state shall resolve the discrepancy and take appropriate action. The need for this requirement is illustrated by what was found in Virginia and in New York State when states laws in each were changed post 9/11. In 2002, when Virginia began reconciling SSNs with the Social Security Administration, it found the SSNs of more than a quarter million of its license holders were "non-matches" with the Social Security Administration's records. Similarly New York State found hundreds of thousands of similar license holders in its database.

202(d)(6) corrects the current security vulnerability of state procedures where a license or ID card issued by another state is replaced with a new license or ID card without confiscating the "old" card or notifying the other state of the new issuance. Several of the 9/11 terrorists told the issuing states that they had lost their licenses so that they could have two valid licenses, and then used the duplicate to obtain a license in another state, allowing them to hold multiple licenses from multiple states. This practice of obtaining multiple licenses in multiple states is also routinely exercised by criminals and bad drivers for their respective illegal purposes, which this requirement will correct.

202(d)(7) requiring improved physical security addresses a growing problem of identity thieves and documents purveyors breaking into state facilities and stealing license stock blanks, printing machines, and sometimes actual computer hard drives in which current license holder data is stored.

202(d)(8) subjects state personnel and contractors employed by the states who produce the driver's licenses to security clearance requirements. Investigations of driver's license insider corruption in Virginia, New Jersey and other states in the past three years revealed that a routine security investigation would have prevented key perpetrators from ever being employed to handled documents of high "street" value that can be sold to illegal aliens, criminals, terrorists, and identity thieves.

202(d)(9) requires states to train employees to detect fraud "before it happens" to reduce vulnerability to terrorists, identity thieves, alien smugglers and illegal aliens with false documents and "bad driver" frauds. A few states do this now, and all states need to do this to improve the integrity of the license issuing process.

202(d)(10) limits the term of validity of driver's licenses and ID cards to establish a maximum term, to address the current vulnerability to identity thieves who steal or purchase the valid driver's license, and then assume the identity of a dead person or someone who has left the state and go undiscovered for an indefinite period.

202(d)(11) provides for those categories of special licenses issued by states for local or temporary purposes where the identity of the applicant cannot be assured, or for whom

lawful presence is not determined. Examples of such licenses or Florida license issued as valid only "in state" purposes, and certificates of driving privileges issued by Tennessee and Utah, for which the applicants cannot meet the identity confirmation requirements of the Act. Subparagraph A establishes the requirement that such documents and/or cards be clearly marked as not accepted for federal identification. The provision will allow the state to meet the terms of this act with regard to its non-standard licenses, provided DHS confirms its certification that it's procedures don't provide any "back doors" to licenses or ID cards that intended to be valid for federal identification or federal purposes. Subparagraph B requires a unique design or color indicator such as a special colored border so that federal officials can quickly recognize it is not valid for federal identification or federal purposes.

202(d)(12) requires each state to be able to electronically access information contained in other states' motor vehicle databases. DHS will be expected to establish regulations which adequately protect the privacy of the holders of licenses and ID cards which meet the standards for federal identification and federal purposes. DHS regulations pertaining to the overall security of state databases to safeguard them from unauthorized access or any criminal abuse are not required by this Act because DHS is already subject to privacy protection standards through other federal laws pertaining to cyber security.

202(d)(13) The requirement for states to maintain a motor vehicle database that contains all data fields printed on driver's licenses and identification cards is directed at those states which currently don't store adequate records to allow other states to confirm the validity of the original issues. This requirement is primarily to address identity management minimum standards, and to support the goal of "only one license for one driver." This provision in both parts will correct a significant problem that has led to some states refusing to provide reciprocity to other states with regard to both adequate data and assurance of driver safety, particularly with regard to Driving Under the Influence citations.

Section 203 of the conference agreement includes language modified from language proposed in section 204 of division B of the House bill. The Senate did not include similar language.

Section 203. This section amends 18 U.S.C. §1028(a)(8), which makes it a federal crime to transport, transfer, or otherwise dispose of to another, materials or features used on a document of the type intended or commonly used for identification purposes. By replacing the phrase "false identification features" with "false or actual authentication features," this provision clarifies the scope of the criminal provision, making it a crime to traffic in identification features regardless of whether the feature is false. In addition, section 203(b) requires that the Secretary of Homeland Security enter conviction information into the appropriate aviation screening database. This provision should improve the security of the clearance process while reducing incidents of travelers being delayed because of similar names with people on the "do not fly" watch list.

Section 204 of the conference agreement includes language modified from language proposed in section 205 of division B of the House bill. The Senate did not include similar language.

Section 204 provides grants to states under the discretion of the Secretary of Homeland Security. This will require DHS to establish a process for grant requests, and the time table under which states will need to meet

the requirements of the regulations. Some states are already in compliance with nearly all of the standards established by the act, and it will be incumbent upon DHS to recognize that grants should be only used to assist those states which cannot otherwise meet the minimum standards by the end of 2009. DHS will also need to establish internal certification procedures so that grants awarded are spent for the purposes identified. This provision also authorizes the Secretary to request funds and assign personnel for the administration of this Act through the normal process.

Section 205 of the conference agreement includes language modified from language proposed in section 206 of division B of the House bill. The Senate did not include similar language.

Section 205 requires the Secretary of Homeland Security to consult with the Secretary of Transportation and with the states in the process under which DHS issues regulations, sets standards, and issues grants under this title. This provision establishes that the Secretary, consistent with the Administrative Procedures Act, will follow a conventional regulatory notice procedure, including the established inter agency notification regime, and will not engage in any other form of rule making, such as negotiated rule making.

Section 205 also allows the Secretary of DHS to grant an extension of time only to meet the requirements of section 202(a)(1), which means that all states must meet standards established by the regulation with a uniform deadline for their respective driver's licenses and ID cards to be used for Federal identification and federal purposes.

Section 206 of the conference agreement includes language modified from language proposed in section 207 of division B of the House bill. The Senate did not include similar language.

Section 206 also repeals overlapping and potentially conflicting provisions of the Intelligence Reform and Terrorism Prevention Act of 2004.

Section 207 of the conference agreement includes language modified from language proposed in section 208 of division B of the House bill. The Senate did not include similar language.

Section 207 provides a normal limitation on statutory construction to preserve the authorities and responsibilities of the Secretary of Transportation.

#### TITLE III—BORDER INFRASTRUCTURE AND TECHNOLOGY INTEGRATION

Section 301 of the conference agreement includes language modified from language proposed in section 301 of division B of the House bill. The Senate did not include similar language.

Section 301 requires the Under Secretary of Homeland Security for Border and Transportation Security, in consultation with the Under Secretary of Homeland Security for Science and Technology and the Under Secretary of Homeland Security for Information Analysis and Infrastructure Protection, to study the technology, equipment, and personnel needed by field offices of the Bureau of Customs and Border Protection to address security vulnerabilities within the United States, and conduct a follow-up study at least once every five years thereafter. The Under Secretary of Homeland Security for Border and Transportation Security is required to submit a report to Congress of findings and conclusions from each study, along with legislative recommendations for addressing security vulnerabilities. Section 301(c) authorizes necessary appropriations for fiscal years 2006 through 2011 to carry out recommendations from the first study.

Section 302 of the conference agreement includes language modified from language proposed in section 302 of division B of the House bill. The Senate did not include similar language.

Section 302 requires the Department of Homeland Security to establish a pilot program to identify and test ground surveillance technologies to enhance border security. The program would cover both northern and southern border locations. It also requires DHS to submit a report to designated House and Senate committees within a year of program implementation describing the program and recommending whether it should terminate, be made permanent, or be enhanced.

Section 303 of the conference agreement includes language modified from language proposed in section 303 of division B of the House bill. The Senate did not include similar language.

Section 303 requires the Secretary of Homeland Security, in consultation with various federal, state, local, and tribal agencies, to develop and implement a plan to improve interagency communication systems and enhance information-sharing on matters related to border security on the federal, state, local, and tribal level. DHS would submit a report to designated House and Senate committees within a year of plan implementation which would include any recommendations that the Secretary of Homeland Security found appropriate.

#### TITLE IV—TEMPORARY WORKERS

The conference agreement includes language modified from language proposed by the Senate regarding numerical limits for H2-visas for certain nonimmigrant workers. The House did not include similar language.

#### TITLE V—OTHER CHANGES TO PROVISIONS GOVERNING NONIMMIGRANT AND IMMIGRANT VISA

The conference agreement includes language modified from language proposed by the Senate regarding reciprocal visas for national of Australia. The House did not include similar language.

The conference agreement includes language modified from language proposed by the Senate regarding visas for nurses. The House did not include similar language.

The conferees agree to the Senate amendment relating to the title of the Act. The Senate amended the title to read "An Act Making Emergency Supplemental Appropriations for Defense, the Global War on Terror, and Tsunami Relief, for the fiscal year ending September 30, 2005, and for other purposes."
