

2005 (Public Law 109-81; 20 U.S.C. 1001 note) is amended by striking "July 31, 2008" and inserting "August 15, 2008".

(b) **RULE OF CONSTRUCTION.**—Nothing in this section, or in the Higher Education Extension Act of 2005 as amended by this Act, shall be construed to limit or otherwise alter the authorizations of appropriations for, or the durations of, programs contained in the amendments made by the Higher Education Reconciliation Act of 2005 (Public Law 109-171), by the College Cost Reduction and Access Act (Public Law 110-84), or by the Ensuring Continued Access to Student Loans Act of 2008 (Public Law 110-227) to the provisions of the Higher Education Act of 1965 and the Taxpayer-Teacher Protection Act of 2004.

(c) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall take effect as if enacted on July 31, 2008.

The **SPEAKER** pro tempore. Pursuant to the rule, the gentleman from New York (Mr. **BISHOP**) and the gentleman from Wisconsin (Mr. **PETRI**) each will control 20 minutes.

The Chair recognizes the gentleman from New York.

GENERAL LEAVE

Mr. **BISHOP** of New York. Mr. Speaker, I request 5 legislative days during which Members may revise and extend and insert extraneous material on S. 3352 into the RECORD.

The **SPEAKER** pro tempore. Is there objection to the request of the gentleman from New York?

There was no objection.

Mr. **BISHOP** of New York. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, I rise in support of S. 3352, a bill to temporarily extend programs under the Higher Education Act of 1965.

We are at the final stages of completing the Higher Education Act, which we anticipate bringing to the floor for consideration of the conference report this week.

The bill under consideration today, S. 3352, will extend the programs under the Higher Education Act until August 15, 2008 to allow sufficient time for the Clerk to enroll the bill and send it to the President for his signature.

It has been nearly 10 years since the Higher Education Act was last authorized. I look forward to joining my colleagues on both sides of the aisle in both Chambers in completing the work on the HEA on behalf of our Nation's hardworking families and students.

Let me take a moment to commend the leadership of the Education Committee on both sides of the Capitol and on both sides of the aisle and their staffs for working so hard and so diligently to bring this very important piece of legislation to the floor in a bipartisan fashion.

The conference report has virtually unanimous agreement, and it includes in it several very important areas that will move us forward on issues of access and affordability on behalf of our students. It simplifies the student financial aid application process. It strengthens the campus-based financial aid programs principally through strengthening the Perkins loan pro-

gram. It improves access to higher education for veterans. It deals with the abuses that we all now know so much about in the student loan program by incorporating the provisions of the Student Loan Sunshine Act. It strengthens the role of creditors, cracks down on diploma mills, and it strengthens college prep programs such as the TRIO programs.

□ 1230

These are just some of the important and beneficial features of the Higher Education Act that are now working their way through the conference process. Once it reaches the floor, I urge my colleagues to support it and to participate in the speedy passage of this important legislation.

With that, I reserve the balance of my time.

Mr. **PETRI**. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of S. 3352, to temporarily extend the programs under the Higher Education Act of 1965. I am pleased to announce that this is the very last extension of the Higher Education Act that Congress will have to pass during this reauthorization. It has been a long journey, but I fully expect that Chairman **MILLER**, that senior Republicans **MCKEON** and **KELLER** and that the rest of my colleagues will be here on the floor later this week to pass a conference report.

Since 2003, we've passed over one dozen extensions of this law since it first expired. S. 3352 will ensure that vital Federal college access and student aid programs will continue to serve those students for the next 2 weeks who depend upon them while the final conference report makes its way to the President's desk.

I am excited that Congress is ready to pass the Senate proposals that will ensure that students and their families will have the ability to get higher education Pell Grants, to obtain Perkins loans and to gain additional transparency into the costs of college, especially as students are getting ready to head back to school in a few short weeks.

Mr. **PETRI**. I urge my colleagues to support this extension, and I yield back the balance of my time.

Mr. **BISHOP** of New York. Mr. Speaker, I yield back the balance of my time.

The **SPEAKER** pro tempore. The question is on the motion offered by the gentleman from New York (Mr. **BISHOP**) that the House suspend the rules and pass the Senate bill, S. 3352.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

CONFERENCE REPORT ON H.R. 4137, COLLEGE OPPORTUNITY AND AFFORDABILITY ACT OF 2008

“(i) prepopulate the electronic version of the FAFSA with student and parent taxpayer data; or

“(ii) generate an expected family contribution without additional action on the part of the student and taxpayer; and

“(C) whether the data elements collected on the FAFSA that are needed to determine eligibility for student aid, or to administer the Federal student financial aid programs under this title, but are not needed to compute an expected family contribution, such as information regarding the student’s citizenship or permanent residency status, registration for selective service, or driver’s license number, can be reduced without adverse effects.

“(2) **REPORT ON FAFSA SIMPLIFICATION EFFORTS TO DATE.**—Not later than 90 days after the date of enactment of the Higher Education Opportunity Act, the Secretary shall provide a written report to the authorizing committees on the work the Department has done with the Secretary of the Treasury regarding—

“(A) how the expected family contribution of a student can be calculated using substantially less income and asset information than was used on March 31, 2008;

“(B) the extent to which the reduced income and asset information will result in a redistribution of Federal grants and subsidized loans under this title, State aid, or institutional aid, or in a change in the composition of the group of recipients of such aid, and the amount of such redistribution;

“(C) how the alternative approaches for calculating the expected family contribution will—

“(i) rely mainly, in the case of students and parents who file income tax returns, on information available on the 1040, 1040EZ, and 1040A; and

“(ii) include formulas for adjusting income or asset information to produce similar results to the existing approach with less data;

“(D) how the Internal Revenue Service can provide to the Secretary of Education income and other data needed to compute an expected family contribution for taxpayers and dependents of taxpayers, and when in the application cycle the data can be made available;

“(E) whether data provided by the Internal Revenue Service can be used to—

“(i) prepopulate the electronic version of the FAFSA with student and parent taxpayer data; or

“(ii) generate an expected family contribution without additional action on the part of the student and taxpayer;

“(F) the extent to which the use of income data from two years prior to a student's planned enrollment date will change the expected family contribution computed in accordance with part F, and potential adjustments to the need analysis formula that will minimize the change; and

“(G) the extent to which the data elements collected on the FAFSA on March 31, 2008, that are needed to determine eligibility for student aid or to administer the Federal student financial aid programs, but are not needed to compute an expected family contribution, such as information regarding the student's citizenship or permanent residency status, registration for selective service, or driver's license number, can be reduced without adverse effects.

“(3) STUDY.—

“(A) FORMATION OF STUDY GROUP.—Not later than 90 days after the date of enactment of the Higher Education Opportunity Act, the Comptroller General shall convene a study group the membership of which shall include the Secretary of Education, the Secretary of the Treasury, the Director of the Office of Management and Budget, the Director of the Congressional Budget Office, representatives of institutions of higher education with expertise in Federal and State financial aid assistance, State chief executive officers of higher education with a demonstrated commitment to simplifying the FAFSA, and such other individuals as the Comptroller General and the Secretary of Education may designate.

“(B) STUDY REQUIRED.—The Comptroller General, in consultation with the study group convened under subparagraph (A) shall—

“(i) review and build on the work of the Secretary of Education and the Secretary of the Treasury, and individuals with expertise in analysis of financial need, to assess alternative approaches for calculating the expected family contribution under the statutory need analysis formula in effect on the day before the date of enactment of the Higher Education Opportunity Act and under a new calculation that will use substantially less income and asset information than was used for the 2008–2009 FAFSA;

“(ii) conduct an additional analysis if necessary; and

“(iii) make recommendations to the authorizing committees.

“(C) OBJECTIVES OF STUDY.—The objectives of the study required under subparagraph (B) are—

“(i) to determine methods to shorten the FAFSA and make the FAFSA easier and less time-consuming to complete, thereby increasing higher education access for low-income students;

“(ii) to identify changes to the statutory need analysis formula that will be necessary to reduce the amount of financial information students and families need to provide to receive a determination of eligibility for student financial aid without causing significant redistribution of Federal grants and subsidized loans under this title; and

“(iii) to review State and institutional needs and uses for data collected on the FAFSA, and to determine the best means of addressing such needs in the case of modification of the FAFSA as described in clause (i), or modification of the need analysis formula as described in clause (ii).

“(D) REQUIRED SUBJECTS OF STUDY.—The study required under subparagraph (B) shall examine—

“(i) with respect to simplification of the financial aid application process using the statutory requirements for need analysis—

“(I) additional steps that can be taken to simplify the financial aid application process for students who (or, in the case of dependent students, whose parents) are not required to file a Federal income tax return for the prior taxable year;

“(II) information on State use of information provided on the FAFSA, including—

“(aa) whether a State uses, as of the time of the study, or can use, a student's expected family contribution based on data from two years prior to the student's planned enrollment date;

“(bb) the extent to which States and institutions will accept the data provided by the Internal Revenue Service to prepopulate the electronic version of the FAFSA to determine the distribution of State and institutional student financial aid funds;

“(cc) what data are used by States, as of the time of the study, to determine eligibility for State student financial aid, and whether the data are used for merit- or need-based aid;

“(dd) whether State data are required by State law, State regulations, or policy directives; and

“(ee) the extent to which any State-specific information requirements can be met by completion of a State application linked to the electronic version of the FAFSA; and

“(III) information on institutional needs, including the extent to which institutions of higher education are already using supplemental forms to collect additional data from students and their families to determine eligibility for institutional funds; and

“(ii) ways to reduce the amount of financial information students and families need to provide to receive a determination of eligibility for student financial aid, taking into account—

“(I) the amount of redistribution of Federal grants and subsidized loans under this title caused by such a reduction, and the benefits to be gained by having an application process that will be easier for students and their families;

“(II) students and families who do not file income tax returns;

“(III) the extent to which the full array of income and asset information collected on the FAFSA, as of the time of the study, plays an important role in the awarding of need-based State financial aid, and whether the State can use an expected family contribution generated by the FAFSA, instead of income and asset information or a calculation with reduced data elements, to support determinations of eligibility for such State aid programs and, if not, what additional information will be needed or what changes to the FAFSA will be required; and

“(IV) information on institutional needs, including the extent to which institutions of higher education are already using supplemental forms to collect additional data from students and their families to determine eligibility for institutional funds; and

“(V) changes to this Act or other laws that will be required to implement a modified need analysis system.

“(4) CONSULTATION.—The Secretary shall consult with the Advisory Committee on Student Financial Assistance established under section 491 as appropriate in carrying out this subsection.

“(B) REPORTS ON FAFSA SIMPLIFICATION EFFORTS.—The Secretary shall report to the authorizing committees, from time to time, on the progress of the simplification efforts under this subsection.

“(g) ADDRESSING THE DIGITAL DIVIDE.—The Secretary shall utilize savings accrued by moving more applicants to the electronic version of the forms described in subsection (a)(3) to improve access to the electronic version of the forms described in such subsection for applicants meeting the requirements of subsection (b) or (c) of section 479.

“(h) ADJUSTMENTS.—The Secretary shall disclose, on the form notifying a student of the student's expected family contribution, that the student may, on a case-by-case basis, qualify for an adjustment under section 479A to the cost of attendance or the values of the data items required to calculate the expected contribution for the student or parent. Such disclosure shall specify—

JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and the Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 4137), submit the following joint statement to the House and the Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report:

Section 1. Short title; table of contents

The Senate amendment and the House bill have different short Titles for the Act. The Senate amendment titles the Act the “Higher Education Amendments of 2007.” The House bill titles the Act the “College Opportunity and Affordability Act of 2007.” The Senate amendment lists “references” and “general effective date” as separate Sections in the table of contents. The House bill combines “references” and “general effective date” in one Section.

The Senate recedes with an amendment to title the conference report the “Higher Education Opportunity Act.”

Section 2. References

The Senate amendment and the House bill provide that references are to the Higher Education Act of 1965 (HEA) unless otherwise expressly provided.

The Conferees adopt the provision as proposed by both the Senate and the House.

Section 3. General Effective Date

The Senate amendment and the House bill provide that the amendments in this Act are effective on the date of enactment, unless otherwise specified.

The Conferees adopt the provision as proposed by both the Senate and the House.

TITLE I—GENERAL PROVISIONS

Section 101. General definition of institution of higher education

The House bill amends the definition of an institution of higher education to explicitly include homeschooled students meeting the requirements of Section 484(d)(3).

The Senate amendment and the House bill modify the definition of an institution of higher education to include an additional type of educational degree. The Senate amendment and the House bill allow public or nonprofit private institutions of higher education to enroll students who are dually or concurrently enrolled in the institution and a secondary school as regular students.

The Senate recedes.

Section 102. Definition of institution of higher education for purposes of Title IV programs

The Senate amendment and the House bill retain the provision requiring proprietary institutions of higher education to receive at least ten percent of their revenues from non-Title IV sources. The requirement is moved from the section in Title I that defines institutions of higher education to the section in Title IV that contains program participation agreement requirements. The Senate amendment and the House bill allow proprietary institutions and postsecondary vocational institutions to admit students who are dually or concurrently enrolled in the institution and a secondary school as regular students.

The Conferees adopt the provisions as proposed by both the Senate and the House with an additional provision to allow for proprietary institutions to offer bachelor's degrees in liberal arts. In adding this provision, the Conferees do not intend to affect the eligibility of current programs or alter the method used by the Secretary in determining “recognized occupations” as required by 102(b)(1)(A)(i). The Conferees intend for the Secretary to continue to refer to the latest

edition of the Dictionary of Occupational Titles published by the Department of Labor's Bureau of Labor Statistics in making this determination. Additionally, the Conferees understand that some programs offered by an institution may fit both the definitions in (A)(i) and (ii). The Conferees do not intend the terms “gainful employment in a recognized occupation” and “liberal arts” to be mutually exclusive.

The House bill adds nursing schools to the types of institutions of higher education located outside the United States that may be for-profit (proprietary) institutions of higher education and authorized to certify unsubsidized Stafford Loans and PLUS Loans to eligible students.

The Senate amendment contains no similar provision.

The Senate recedes.

The Senate amendment clarifies that graduate medical schools located outside of the United States which, under current law, are eligible to participate in Title IV, Part B loan programs because they have a clinical training program that was approved by a state as of January 1, 1992, must have continuously operated a state approved clinical training program in not less than one state that has approved the program.

The House bill clarifies that graduate medical schools located outside of the United States which, under current law, are eligible to participate in Title IV, Part B because they have a clinical training program that was approved by a state as of January 1, 1992, must continue to operate a state approved clinical training program in not less than one state that has approved the program.

The Senate recedes.

The House bill adds a specific set of criteria that nursing schools located outside of the United States are required to meet in order to qualify to certify unsubsidized Stafford Loans and PLUS Loans for their students. Such nursing schools must have agreements with hospitals or nursing schools located in the United States that include provisions for students to complete their clinical training at those hospitals or schools. They must also agree to reimburse the Secretary for the costs of any loan defaults to the extent that the institution's cohort default rate exceeds five percent.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to specify that to be eligible, nursing schools located outside of the United States must have agreements with hospitals or accredited schools of nursing located in the United States that require the nursing students to complete training and receive a degree from the partner accredited institution of higher education and to permit the eligible nursing schools to certify subsidized Stafford loans in addition to unsubsidized Stafford and PLUS loans. Also, such international nursing schools must agree to reimburse the Secretary for the cost of any loan defaults for students included in the school's cohort default rate the previous year. In addition, at least seventy-five percent of the students or graduates from such nursing schools must receive a passing score on the National Council Licensure Exam for Registered Nurses in the year prior to the year the school is eligible to certify Part B loans.

The House bill adds a third set of criteria that graduate medical schools located outside of the United States can meet in order to be eligible to offer unsubsidized Stafford Loans and PLUS Loans to their students. The House bill permits such eligibility for graduate medical schools outside the United States that have a clinical training program that was approved by the U.S. state prior to January 1, 2008, and agree to reimburse the

Secretary for the costs of any loan defaults included in the institution's cohort default rate during the previous fiscal year.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to require the advisory panel of medical experts to submit a report to the Secretary and the authorizing committees within one year after date of enactment of this Act that will provide recommendations for alternate eligibility criteria for participation in the loan programs by foreign medical schools that do not meet the current statutory criteria. 180 days after the submission of the report, the Secretary may issue proposed regulations that would establish alternate criteria for the eligibility of graduate medical schools located outside of the United States. The Secretary may issue final regulations no earlier than one year after the issuance of the proposed regulations.

The Senate amendment increases the pass rate percentage required for foreign medical schools to be eligible to certify student loan eligibility from sixty percent to seventy-five percent effective July 1, 2010.

The House bill contains no similar provision.

The House recedes.

Section 103. Additional definitions

The Senate amendment and the House bill include a definition of "authorizing committees."

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment and the House bill contain definitions of "critical foreign language" that reference an August 2, 1985 Federal Register notice. The House definition includes "Except as otherwise provided" at the beginning of the definition. The House bill authorizes the Secretary of Education to update the list of critical languages.

The Senate recedes.

The House bill adds a definition for a "high-need school."

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to move the definition to Title II and modify the definition.

The House bill includes a definition for "universal design."

The Senate amendment contains no similar definition.

The Senate recedes with an amendment adopting the definition of the term as found in Section 3 of the Assistive Technology Act of 1998.

The House bill includes a definition for "universal design for learning."

The Senate amendment contains no similar definition.

The Senate recedes with an amendment to define "universal design for learning" as follows: a scientifically valid framework for guiding educational practice that provides flexibility in the ways information is presented, in the ways students respond or demonstrate knowledge and skills, and in the ways students are engaged; and, reduces barriers in instruction, provides appropriate accommodations, supports, and challenges, and maintains high achievement expectations for all students, including students with disabilities and students who are limited English proficient.

Section 104. Protection of student speech and association rights

The Senate amendment expands on the current sense of Congress on the protection of student speech and association rights in several ways, including by specifying that the diversity of institutions of higher education and educational missions is a strength of higher education in the United

States; institutions of higher education have different missions and should design their academic programs in accordance with their educational goals; colleges should facilitate the free and open exchange of ideas; students should not be intimidated, harassed, discouraged from speaking out, or discriminated against; and students should be treated equally and fairly. The Senate amendment modifies current law to require that any sanctions on students be imposed "objectively and fairly."

The House bill contains no similar provisions.

The House recedes.

Section 105. Treatment of territories and territorial student assistance

The House bill changes the Title of Section 113. The House bill deletes Subsection (b), which expired September 30, 2004. That provision addressed the eligibility of institutions of higher education in the Freely Associated States for TRIO programs.

The Senate amendment contains no similar provisions.

The Senate recedes.

Section 106. National Advisory Committee on Institutional Quality and Integrity

The Senate amendment replaces the existing National Advisory Committee on Institutional Quality and Integrity (NACIQI) and establishes a new Committee with a new name—the Accreditation and Institutional Quality and Integrity Committee. The Senate amendment provides that the Committee is established "to assess the process of accreditation and the institutional eligibility and certification" of institutions of higher education.

The House bill contains the same provision except it does not rename the Committee.

The Senate recedes.

The Senate amendment specifies that NACIQI will have fifteen Committee members with five members appointed by the Secretary, five members appointed by the Speaker of the House (based on recommendations from the Majority and Minority leaders in the House), and five members appointed by the President pro tempore of the Senate (based on recommendations from the Majority and Minority Leaders in the Senate).

The House bill specifies that the NACIQI will have eighteen members with six members appointed by the Secretary, six members appointed by the Speaker of the House (three members based on recommendations from the House Majority Leader and three members based on recommendations from the House Minority Leader) and six members appointed by the President pro tempore of the Senate (three members based on recommendations from the Majority Leader in the Senate and three members based on recommendations from the Minority Leader in the Senate).

The Senate recedes.

The Senate amendment and the House bill establish qualifications for NACIQI members.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment and the House bill establish six year terms and a process for filling vacancies for NACIQI members. The Senate amendment and the House bill require vacancies to be filled in the same manner as the original appointment and not later than ninety days after the vacancy occurs. If the vacancy occurs in a position to be filled by the Secretary, the Secretary must post a notice in the Federal Register not later than thirty days after the vacancy.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The Senate amendment creates initial terms for members, staggering the expira-

tion of the terms of appointment. Members appointed by the Secretary will serve two-year terms.

The House bill creates initial terms for members, staggering the expiration of the terms of appointment. Members appointed by the Secretary will serve three year terms.

The Senate recedes.

The Senate amendment and the House bill establish the process for selecting a chairperson. The Senate amendment and the House bill retain all of the current functions of NACIQI, except for developing standards and criteria for specific categories of institutions of higher education for which no accrediting agency exists.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The House bill adds the requirement that the NACIQI take into consideration complaints, and the resolution of such complaints by the Accreditation Ombudsman, when advising the Secretary about accrediting agencies of associations.

The Senate amendment contains no similar provision.

The House recedes.

The Senate amendment and the House bill retain the requirement that the NACIQI meet at least twice a year and that the Secretary publish the date of each meeting in the Federal Register. The Chairperson is required to establish the agenda, which must include an opportunity for public comment, and provide it to NACIQI members upon notification of the meeting. The Senate amendment and the House bill drop the requirement that the meeting date and agenda be approved by the Secretary.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The Senate amendment requires that the Secretary's designee be invited to all meetings. The designee may facilitate the flow of information between the NACIQI and the Secretary, but has no authority over the agenda.

The House bill contains no similar provision.

The House recedes with an amendment to strike the language clarifying that the designee may facilitate the flow of information between NACIQI and the Secretary, but has no authority over the agenda.

The Conferees recognize that the Federal Advisory Committee Act requires that the Secretary appoint a designated federal official to be present at meetings of NACIQI.

The Senate amendment and the House bill require the provisions of the Federal Advisory Committee Act, except Section 14, apply to the NACIQI. Section 14 addresses the termination, renewal, and continuation of federal advisory Committees.

The Conferees adopt the provision as proposed by both the Senate and the House.

The House bill prohibits the NACIQI from basing a recommendation for the denial of an application for recognition by an accrediting agency on any reason other than those included in Section 496.

The Senate amendment contains no similar provision.

The House recedes.

The Senate amendment and the House bill require the Secretary to publish a notice in the Federal Register that contains information about NACIQI members, and to solicit nominations for NACIQI positions to be filled by the Secretary. The Senate amendment and the House bill require the NACIQI to provide an annual report to the Secretary that includes a detailed summary of the activities of the NACIQI, general information about the meetings, a list of NACIQI members and their contact information, and a list of NACIQI functions. Both the Senate amendment and the House bill sunset the NACIQI on September 30, 2012.

The Conferees adopt the provisions as proposed by both the Senate and the House with an amendment to remove the contact information for NACIQI members from the information to be provided in the annual report and to change the termination date of NACIQI to September 30, 2014.

The Senate amendment terminates the current NACIQI thirty days after enactment.

The House bill contains no similar provision.

The House recedes with an amendment to end the terms of current NACIQI members on the date of enactment of this Act.

The House bill establishes the new committee on January 1, 2009.

The Senate amendment contains no similar provision.

The Senate recedes.

Section 107. Drug and alcohol abuse prevention

The Senate amendment and the House bill require an institution of higher education, in its biennial review, to determine the number of drug and alcohol-related incidents and fatalities that have occurred on the institution's property or as part of the institution's activities and that are reported to that institution of higher education.

The Senate and the House recede with an amendment to replace "incidents" with "violations," amend the language to require that violations be reported to "campus officials" (as opposed to institutions), and replace "property" with "campus."

By requiring institutions to report drug and alcohol-related violations and fatalities, the Conferees intend to ensure that the information reported by institutions of higher education cover incidents that are located on the campus of the institution of higher education (as that term is defined by the Clery Act) and that are reported to officials at the institution of higher education. Officials shall include campus security and school administrators, and may include other employees at the institution of higher education if they are required to report or enforce institutional policies.

The House bill extends the authorization of appropriations for such sums as necessary for the Alcohol and Drug Abuse prevention grants to fiscal year 2009 and the five succeeding fiscal years.

The Senate amendment contains no similar provision.

The Senate recedes.

The House bill eliminates the National Recognition Awards.

The Senate amendment contains no similar provision.

The Senate recedes.

Section 108. Prior rights and obligations

The Senate amendment changes the authorization period to fiscal year 2008 and each succeeding fiscal year. The House bill changes the authorization period to fiscal year 2009 and each succeeding fiscal year.

The Senate recedes.

Section 109. Diploma mills

The House bill included, in title VIII, provisions that defined diploma mills, required the Secretary to create a database of accrediting agencies and associations, eligible institutions, and credible foreign-degree granting institutions, required the Secretary of Education to develop a diploma mill task force and required the task force to submit a report to Congress on a plan to prevent diploma mills from being created.

The Senate amendment had no such provisions.

The Senate recedes with an amendment to move the definition of a diploma mill to Title I, require the Secretary to maintain information and resources on the Department's website to assist students and fami-

lies in understanding what a diploma mill is and how to avoid a diploma mill and strike the other provisions.

Section 110. Improved information concerning the federal student financial aid website

The Senate amendment and the House bill require the Secretary to ensure that the homepage of the U.S. Department of Education's website includes a link to student financial aid information. The House bill further specifies that the link is to the federal student financial aid website at the Department of Education.

The Senate recedes.

The House bill authorizes the Secretary to use administrative funds for operations and expenses to promote the availability of the federal student financial aid website.

The Senate amendment contains no similar provision.

The House recedes.

The Senate amendment requires the Secretary no later than 180 days after the date of enactment of this Act to contract with an independent organization with expertise in the development of consumer-friendly websites to develop improvements to the usefulness and accessibility of information provided by the Department of Education on college financial planning and student financial aid on its website.

The House bill contains no similar provision.

The Senate recedes.

The Senate amendment requires the Secretary, not later than one year after the date of enactment of the Act, to implement the improvements to the college financial planning and student financial aid website developed by the contractor. The Senate amendment requires the Secretary to publicize the availability of information on the college financial planning and student financial aid website.

The House bill contains no similar provisions.

The House recedes with an amendment to remove the deadline and the references to the outside contractor, to specify that the Secretary shall continue to improve the usefulness and accessibility of information provided by the Department and to require that the access to additional sources of information be coordinated through the Department's database.

The House bill requires the Secretary to publish information on the federal student financial aid website about student financial assistance available from other federal departments and agencies. The House bill requires each federal department and agency to respond promptly to requests from the Secretary for information about student financial aid programs available through the department or agency. The House bill defines "non-departmental student financial assistance program."

The Senate amendment contains no similar provisions.

The Senate recedes with an amendment to require the Secretary to request information from other departments and agencies and to make such information easily accessible and searchable through the federal student financial aid website and to include links or other appropriate access to a national database on student financial assistance for the study of science, technology, engineering and math, and to information about all federal and state student financial assistance available to eligible members and veterans of the Armed Forces and their families. To identify the information useful for military members and veterans, the Secretary is required to coordinate with the Secretary of Defense and the Secretary of Veterans Affairs.

The House bill establishes "maintenance of effort" (MOE) requirements that, after July

1, 2008, states must meet to receive funding under the House-proposed "Grants for Access and Persistence" (GAP) program, which replaces the existing Special Leveraging Educational Assistance Partnership program. If a state does not meet the MOE requirements, the Secretary shall withhold funds that would be available to the state for the GAP program until the state has made significant efforts to meet those requirements. The House bill requires the Secretary to conduct a study of cost containment methods used by institutions of higher education, to disseminate information from the study, to publicly recognize institutions of higher education doing an effective job of cost containment, and to work with institutions of higher education to implement cost containment methods.

The Senate amendment contains no similar provisions.

The House recedes.

Section 111. Transparency in college tuition for consumers

The Senate amendment and the House bill set forth how "net price" is to be calculated under the transparency in college tuition section. The Senate definition focuses on tuition and fees "paid by" a full-time undergraduate student, while the House definition focuses on tuition and fees "actually charged" to a full-time undergraduate student.

The Senate and the House recede with an amendment to define "net price" as the average yearly price actually charged to a full-time, first-time undergraduate student receiving student aid, calculated by subtracting average grant aid from federal, state and institutional sources from the cost of attendance and to add a definition of cost of attendance for this section that means the average annual cost of tuition and fees, room and board, books and supplies, and transportation for first time, full-time degree or certificate seeking undergraduate students enrolled at an institution, as such data are currently reported by institutions to the Secretary and made available on the College Navigator website.

The Conferees recognize that a number of colleges and universities offer programs that reduce or eliminate student debt or otherwise significantly reduce the cost of college for students and that such programs shall be considered grant aid from institutional sources for the purposes of calculating net price under this Section. The Conferees also recognize that some public two-year institutions calculate tuition and fees for residents of the community college district using an in-district tuition and fee schedule. The Conferees intend for in-district tuition and fee rates to be used in calculating the net price, tuition and fees and cost of attendance for those community colleges in the same manner as in-state tuition and fees and in-state students are used in calculating the net price, tuition and fees and cost of attendance for four-year public institutions.

The Senate amendment and the House bill require the development of education price indices that reflect the annual change in tuition and fees for undergraduate students by institutional category and for all institutions of higher education overall.

The Senate and the House recede.

The Senate amendment and the House bill require the Secretary to report annually information on institutional tuition and fees. The House bill specifically requires that this information be made available on the College Navigator website.

The Senate recedes.

The Senate amendment requires the Secretary to develop and make publicly available a national list and a list for each state,

referred to as "Higher Education Price Increase Watch Lists." The lists rank each institution of higher education that has an increase in tuition and fees in excess of the percentage increase in its applicable higher education price index based on the change in the tuition and fees over the preceding two years. The House bill requires the Secretary to publish three annual lists to be created at the national level by institutional category: the five percent of institutions of higher education with the highest tuition and fees; the five percent of institutions of higher education with the lowest tuition and fees; and the five percent of institutions of higher education with the highest percentage increase in tuition and fees over the most recent three-year period.

The Senate and the House recede with an amendment to require the Secretary to publish six lists, by institutional category: the five percent of institutions of higher education that have the highest tuition and fees for the most recent year; the five percent of institutions of higher education that have the highest net price for the most recent year; the five percent of institutions of higher education that have the largest percentage increase in tuition and fees over the most recent three years; the five percent of institutions of higher education that have the largest percentage increase in net price over the most recent three years; the ten percent of institutions of higher education that have the lowest tuition and fees for the most recent year; and the ten percent of institutions of higher education that have the lowest net price for the most recent year.

The Conferees recognize that many institutions of higher education have developed innovative tuition practices to restrain costs and increase the predictability of college expenses for students and parents. The Conferees commend the use of these innovative approaches, including the use of guaranteed tuition plans, and do not intend to subject institutions that use them to a reporting standard that portrays the cost of attendance in an inaccurate or misleading way. Therefore, in calculating the affordability and transparency lists in subsections (b)(3) and (b)(4) of Section 132, the Conferees direct the Secretary to develop a method for accurately representing the percentage change in tuition and fees and net price for students at institutions offering guaranteed tuition plans. However, the Conferees do not intend to otherwise change the applicability of these subsections to such institutions, or exempt such institutions from the requirements of subsection (d), where applicable.

For reporting purposes, the Senate amendment requires reporting by nine institutional categories. The House bill requires use of the nine institutional categories in the Senate amendment and an additional category that includes institutions of higher education overall.

The House recedes.

The House bill requires any institution of higher education that is in the five percent of institutions of higher education by sector, based on the percentage increase in tuition and fees over a three year period, to provide the Secretary with a description of the factors contributing to the increase in tuition and fees. These institutions of higher education are also required to establish a quality efficiency task force to review their operations, analyze their operating costs in comparison with costs at other institutions of higher education in the same category, identify and evaluate areas for cost reduction, develop annual benchmarks for costs reduction in the identified areas, and submit a report to the Secretary. If an institution of higher education fails to meet the benchmarks, it must also provide the Secretary a

detailed explanation for why the benchmarks were not met. The House bill requires the Secretary to compile the information submitted by institutions of higher education, submit an annual report to the authorizing Committees, and publish the annual report on the College Navigator website.

The Senate amendment contains no similar provisions.

The Senate recedes with an amendment to require institutions of higher education that appear on either or both lists of institutions of higher education with the greatest percentage increases in net price or in tuition and fees to submit to the Secretary a description of the major areas in the institution's budget with the greatest cost increases, an explanation of cost increases, and a description of the steps the institution of higher education will take to reduce costs in those major areas. If the cost increases were not in the exclusive control of the institution of higher education, the institution must include a description of the other entities that participate in the determination. Institutions of higher education that are required to submit such report and that appear on the same list for two consecutive years are required to submit a follow-up report describing the progress on the steps identified in the report submitted in the previous year.

The House bill exempts from the cost increase list and the reporting requirements those institutions of higher education whose tuition and fees are in the lowest quartile for institutions of higher education in their sector, and institutions of higher education whose total dollar increase in tuition and fees was less than \$500 over the three year period.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to provide one exemption for institutions of higher education whose total dollar increase in tuition and fees or in net price was less than \$600 over the three year period and, beginning in 2014 and every three years thereafter, to increase such dollar amount based on increases in the consumer price index.

The Senate amendment and the House bill require the Secretary to report annually on state higher education appropriations. The House bill specifically requires the Secretary to publish this information on the College Navigator website. The Senate amendment requires the Secretary to report on the percentage change in the state appropriations per enrolled student in a public institution of higher education compared with the percentage change in tuition and fees for each public institution of higher education for each of the previous five years, and the total amount of grant aid provided by the state to students attending an institution of higher education in the state. The House bill requires a similar comparison but bases it on full-time equivalent (FTE) students.

The Senate and the House recede with an amendment to base the five year percentage change in state spending and in tuition and fees on FTE students at public institutions of higher education in the state and to require one comparison chart for all public institutions of higher education in the state, rather than for each school separately. The Secretary is also required to report the percentage change in need-based and merit-based aid provided by each state to full-time students.

The Senate amendment and the House bill require the Secretary, in consultation with institutions of higher education, to develop a net price calculator. The Senate amendment permits institutions of higher education to use a net price calculator developed by the Secretary or to develop their own. The House bill requires institutions of higher education

to use the single net price calculator developed by the Secretary. Both the Senate and the House require institutions of higher education to adopt and use a net price calculator not later than three years after the date of enactment of the Act.

The House recedes with an amendment to permit institutions of higher education to use their own calculator as long as it includes at least the same data elements as the one developed by the Secretary. A net price estimate must be accompanied by a disclaimer explaining that such estimate does not represent a final determination or actual award of financial assistance; shall not be binding on the Secretary, the institution of higher education, or the state; and that the estimate may change. Students must complete the Free Application for Federal Student Aid (FAFSA) in order to be eligible for, and receive, an actual financial aid award, which may include Federal grants, loans, or work-study assistance under Title IV.

The Senate amendment and the House bill include new requirements related to data collected from institutions of higher education. The Senate amendment requires the Secretary to develop a model document, known as the University and College Accountability Network (U-CAN), that institutions of higher education can use voluntarily to report basic information about the institution of higher education that would then be posted on the appropriate Department of Education website. The House bill would require the Secretary to post the data elements on the College Navigator website.

The Senate recedes.

The data elements required to be reported by institutions of higher education in the Senate amendment and the House bill are similar. The House bill requires institutions to report information on: the number of undergraduate students who have registered with the relevant institutional office as students with disabilities; graduation rates by income category; the number of full-time, part-time, and adjunct faculty, and the number of graduate teaching and research assistants with instructional responsibilities; average annual grant data by income category; and the institution's cohort default rate.

The Senate recedes with an amendment to require institutions of higher education to report: the percentage of undergraduate students who have formally registered as students with disabilities, unless the percentage is below three percent, in which case the institution may report "three percent or less"; percentage of first-time, full-time students who receive degrees or certificates within the normal time for completion, and within 150 percent and 200 percent of the normal time; the number of full-time and part-time faculty and graduate teaching assistants with primarily instructional responsibilities; the average annual grant amount for a first-time, full-time undergraduate student who receives financial aid and is enrolled at the institution of higher education; and the institution's cohort default rate. The Secretary is required to provide, on each institution's College Navigator webpage, a link to the appropriate section of the Bureau of Labor Statistics website that provides regional data on starting salaries in all major occupations.

The Senate amendment requires data to be published for the preceding five academic years, while the House bill requires data to be published for the preceding three academic years. The Senate amendment requires net price data for one year, while the House bill requires data for the three preceding academic years.

The Senate recedes.

The Senate amendment requires the Secretary to consult with current and prospective college students and their families and

institutions of higher education in making improvements to the College Navigator website.

The House bill contains no similar provision.

The House recedes.

The Senate amendment includes an authorization of appropriations for carrying out this subsection.

The House bill contains no similar provision.

The Senate recedes.

The Conferees encourage the Secretary to continue to improve the College Navigator to maximize its usefulness for searching through data in a manner that is beneficial to the public. The Conferees also recognize that the Secretary currently collects information for the College Navigator for institutions of higher education that do not participate in Title IV programs and encourage the Secretary to continue to collect information from such institutions that choose to provide it.

The House bill requires the Secretary to include a higher education pricing summary page on the College Navigator website that can be sorted and searched by users and contains various data elements related to price.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to include the net price on the summary page for the three most recent available academic years and, beginning July 1, 2010, the average net price by income category for students receiving federal student financial aid.

The Conferees note that the Secretary currently collects information on instructional spending and the Conferees do not intend to limit the Secretary in publishing this information on the pricing summary page.

The House bill establishes income categories for reporting purposes and requires the Secretary to update the income categories annually based on inflation. The House bill includes an exemption from reporting institutional aid data by income category at institutions of higher education where income data is not collected from recipients of institutional aid.

The Senate amendment contains no similar provisions.

The Senate recedes with an amendment to change the income categories to: \$0-\$30,000; \$30,001-\$48,000; \$48,001-\$75,000; \$75,001-\$110,000; and \$110,001 and up, and to require reporting only for students receiving federal student financial aid under Title IV.

The House bill includes a provision in title IV that would require all institutions that receive title IV aid to provide every incoming student with a multi-year tuition schedule or a single-year tuition schedule with non-binding estimates of tuition levels, after financial aid is awarded, for the following several years. The Secretary has the authority to waive this requirement if the institution can demonstrate that it has suffered economic distress, dramatic reduction of state or federal aid or other circumstances that the Secretary would deem valid.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to move the multi-year tuition concept to Title I and to require the Secretary to develop a multi-year tuition calculator to provide estimates of annual tuition and fees and the total amount of tuition prospective students may pay for the duration of their program of study, based on the average annual percentage change in the institution's tuition and fees for the three most recent academic years. The calculator shall be developed in such a manner to allow for the comparison of estimates across multiple institutions of higher education. Such calculation must in-

clude a separate disclaimer that the calculation is an estimate only and shall not be binding on the Secretary of Education, the institution of higher education, or the state and may change due to state appropriations or other factors and that the student must complete the FAFSA in order to be eligible for aid. In the case of an institution that offers a multi-year tuition guarantee program, the calculator must allow a prospective student to enter estimates of tuition and fees based on the provisions of the guarantee program.

The House bill requires a survey of student aid recipients to be conducted at least once every four years. The House bill also requires the survey to be conducted on a state-by-state basis. The House bill expands on the current goals of the survey by requiring the survey to: consider the impact of education loan debt on students' career choices; describe the role of the price of postsecondary education in students' decisions about which institution of higher education to attend; and describe how the cost of textbooks and other instructional materials affect the cost of postsecondary education for students. The House bill retains current law with respect to the survey design, except that it clarifies that the survey shall (rather than "should") be designed and administered in consultation with Congress and the postsecondary education community. The House bill requires the survey results to be made available in printed and electronic form.

The Senate amendment contains no similar provisions.

The Senate recedes.

The House bill authorizes the Secretary to issue regulations to carry out the provisions in this Section.

The Senate amendment contains no similar provision.

The Senate recedes.

The House bill presents six findings related to higher education and the availability of consumer information about institutions of higher education. The House bill includes a sense of Congress stating that institutions of higher education should participate in efforts to provide concise and accessible online information to prospective students and their families.

The Senate amendment contains no similar provisions.

The House recedes.

Section 112. Textbook information

The House bill includes provisions that provide more information on the cost of textbooks designed to ensure that students have better and timelier access to course materials.

The House bill requires publishers to provide faculty members with price information, copyright dates of all previous editions in the preceding ten years, substantial content revisions made between the current and previous editions, and to disclose whether the textbook or supplemental materials are available in any other format.

The House bill requires publishers that sell a college textbook and supplemental material as a single product to offer the college textbook and each supplement as a separate item.

The House bill requires institutions of higher education to publish in course schedules for pre-registration and registration purposes, to the "maximum extent practicable," the International Standard Book Number (ISBN) and the retail price of course materials.

The House bill requires an institution of higher education to provide upon request to any college bookstore its course schedule and materials required or recommended for each course.

The House bill provides that nothing about these programs supersedes an institution's autonomy with respect to the selection of course materials.

The House bill's textbook information program is effective as of July 1, 2008.

The Senate amendment contains no similar provisions.

The Senate recedes with amendments to the provisions to clarify the definitions of an integrated textbook and supplemental materials, and clarify that the provisions apply only to institutions receiving federal financial assistance. The amendments require a publisher to provide to faculty or others selecting textbooks, the wholesale price, and if available, the retail price at which books are made available to the public, respectively, and specify the copyright dates of the three previous editions need to be provided. The amendments also specify that an institution shall, to the maximum extent practicable, make the required textbook information, including ISBN information, available on its Internet course schedule in a manner of the institution's choosing. Further, an institution shall publish a link to this information in its written course schedule. The amendments also encourage institutions to disseminate information to students about institutional programs that would help students save money on textbooks, such as rental programs or buy-back programs, prohibit the Secretary of Education from promulgating regulations on the section, and require the Government Accountability Office to conduct a review of the implementation of these provisions.

The Conferees intend that the provisions in this section decrease the cost of textbooks for students in higher education by ensuring that faculty, students, and bookstores all have sufficient, relevant, and timely information to make informed purchasing decisions. The information provided as a result of these provisions should be provided in a consumer-friendly manner and should be easily accessible. The Conferees further recognize the shared goals of identifying ways to decrease the burden of textbook costs on students by all parties, and the innovation of institutions, publishers, and bookstores in working toward this goal.

The Conferees recognize the cost savings to students of used textbooks. Further the Conferees do not intend the definition of "integrated textbooks" to discourage faculty and students from using such textbooks in their courses. Textbooks without explicit third-party contract limitations should not be considered as integrated if an identical used textbook or used supplemental material is commonly available to a student, thus making the materials fully usable for its intended purpose and meeting the requirements of a course of instruction at an institution of higher education.

It is the intention of the Conferees that institutions of higher education that do not offer Internet course schedules are not required to create such schedules for the purposes of satisfying the requirements of this section; and that institutions satisfy the requirements by providing a link to another appropriate website that satisfies the requirements of the paragraph, provided that such link is clearly and prominently located on the institution's Internet course schedule.

Further, the Conferees recognize the changing use of technology in the textbook marketplace. The provisions require institutions, to the maximum extent practicable, to disclose the ISBN information for each required textbook. As ISBN information changes, or is replaced by another standard identification system, the Conferees urge institutions to provide students with the most up-to-date and accurate information.

The Conferees understand that while regulations are prohibited in the context of implementation, enforcement and oversight, the Secretary of Education may need to develop non-regulatory guidance. The Conferees recognize that the Secretary has a variety of means by which to publicize these provisions, including publication in government materials, and should provide for the broad dissemination of such information through communication with institutions of higher education and other relevant stakeholders.

Section 113. Database of student information prohibited

The Senate amendment and the House bill prohibit the development, implementation, or maintenance of a federal database of personally identifiable information.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment exempts from the prohibition systems needed for the operation of programs authorized by Titles II, IV, or VII.

The House bill exempts from the prohibition systems needed for the operation of programs authorized by Titles II, IV, or VII and any data required to be collected by the Secretary under this Act.

The House recedes.

The Senate amendment and the House bill provide that nothing in this Act prohibits a state or consortium of states from developing, implementing, or maintaining state developed databases to track students over time.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Conferees support the prohibition on the creation of a national database for the purpose of student tracking. This prohibition should not be construed to prohibit the Secretary from performing surveys that are necessary to monitor the operation of the student aid programs, in particular the National Postsecondary Student Aid Survey which is a valuable source of information on how students and families finance their postsecondary education.

Section 114. In-state tuition rates for armed forces members, spouses, and dependent children

The House bill prohibits public institutions of higher education from charging the dependents of members of the Armed Forces on active duty for more than thirty days, whose domicile or permanent duty station is in the same state, more than in-state tuition rates. The House bill requires public institutions of higher education to allow members of the Armed Forces or their dependents who are receiving an in-state tuition rate to continue to pay that rate while continuously enrolled at the institution of higher education even if there is a subsequent change in the permanent duty station of the member to a location outside the state.

The Senate amendment contains no similar provisions.

The Senate recedes with an amendment to specify that the prohibitions apply to states that receive funds under the HEA and to strike the definition of state.

Section 115. State Higher Education Information System Pilot program

The Senate amendment and the House bill establish a State Higher Education Information System Pilot program to assist up to five states in developing state-level postsecondary data systems.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment authorizes such sums as may be necessary beginning in fiscal year 2008 and each of the five succeeding fiscal years.

The House bill authorizes such sums as may be necessary for fiscal year 2009 and each of the four succeeding fiscal years.

The House recedes with an amendment to replace fiscal year 2008 with fiscal year 2009.

Section 116. State commitment to affordable college education

The House amendment establishes “maintenance of effort” (MOE) requirements that, after July 1, 2008, states must meet to receive funding under the House-proposed “Grants for Access and Persistence” (GAP) program, which replaces the existing Special Leveraging Educational Assistance Partnership program. State funding provided for public institutions (for non-capital and non-research and development expenses or costs) must not be less than the average amount provided during the five most recent preceding academic years. States must also provide funding for student financial aid for students attending private institutions in the state in an amount not less than the average amount provided during the 5 most recent preceding academic years. If a state does not meet the MOE requirements, the Secretary shall withhold funds that would be available to the state for the GAP program until the state has made significant efforts to meet those requirements. States may receive a waiver of the requirements for exceptional or uncontrollable circumstances.

The Senate bill contains no similar provisions.

The Senate recedes with an amendment to require states to meet the MOE in order to receive an initial grant under the new College Access Challenge Grant program instead of the existing GAP program and to accommodate states with biennial appropriation cycles.

The Conferees understand states currently face increased deficits and challenging state budgets. It is not the intent of the conferees to compound state economic challenges, but rather to secure a strong federal-state partnership to increase access to higher education for middle- and low-income families. The conferees acknowledge that the Secretary has authority to provide a waiver for states meeting the threshold of “exceptional or uncontrollable circumstances” which include sudden and unforeseen declines in a state’s budget.

Section 117. Performance-Based Organization for the delivery of federal student financial assistance

The Senate amendment changes the description of the functions of the Performance-Based Organization (PBO) at the Department of Education from “operational” to “administrative and oversight.” The Senate amendment makes the PBO responsible for the administration of federal student financial assistance programs. The Senate amendment also directs the PBO to utilize procurement systems that streamline operations, improve internal controls, and enhance management.

The House bill contains no similar provisions.

The House recedes with an amendment to delete the requirement that the Chief Operating Officer of the PBO provide an annual briefing to the authorizing Committees on the steps the PBO has taken and is taking to ensure that lenders are providing the information required under Title IV; but instead, requires a representative of the Secretary to provide a briefing at any time upon request of the authorizing Committees on the steps the Department has taken to ensure the integrity of the student loan programs, including lender and guaranty agency compliance with the requirements of Title IV.

Section 118. Procurement flexibility

The Senate amendment amends Section 142 by modifying the Chief Operating Officer du-

ties, including the fee for service arrangements, and replacing the term “sole source” with the term “single-source basis.”

The House bill contains no similar provision.

The House recedes.

Section 119. Certification regarding the use of certain federal funds

The Senate amendment specifies that federal funds received by an institution of higher education or other postsecondary educational institution may not be used to pay any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, or an employee of a Member of Congress in awarding a federal contract, making a federal grant or loan, entering into any federal cooperative agreement, or in extending, continuing, renewing, amending, or modifying any federal contract, grant, loan, or cooperative agreement. No federal student aid funding may be used to hire a lobbyist or to secure an earmark. Each institution of higher education or other postsecondary educational institution receiving federal funding must annually certify that these requirements have been met.

The House bill contains no such provision.

The House recedes with an amendment to clarify that the prohibition relates to funds received by an institution under the Higher Education Act.

The Conferees wish to clarify that this Section is not intended to prohibit an employee of an institution of higher education from receiving federal funds for participating in a peer review process for a Federal program.

Section 120. Institution and lender reporting and disclosure requirements

Both the Senate amendment and the House bill add a new Part E to Title I, instituting lender and institutional requirements relating to education loans.

The Senate and House recede with amendments to Part E as follows:

PART E—LENDER & INSTITUTION REQUIREMENTS RELATING TO EDUCATION LOANS

Section 151. Definitions

The Senate amendment defines “cost of attendance” as it is defined under Title IV, Section 472.

The House bill defines “postsecondary educational expenses” as defined under Title IV, Section 472.

Both the Senate and the House recede.

The Senate amendment defines “covered institution” as any educational institution that offers a postsecondary educational degree, certificate, or program of study (including an institution defined in Section 102) and receives any federal funding or assistance. The definition includes any employee or agent of the institution of higher education, or an organization or entity affiliated with, or directly or indirectly controlled by the institution of higher education.

The House bill defines “covered institution” as any educational institution that offers a postsecondary educational degree, certificate, or program of study (including an institution defined in Section 102) and receives any federal funding or assistance. The definition includes any employee or authorized agent of the institution of higher education, including an alumni association, booster club, or other organization directly or indirectly authorized by the institution of higher education.

The Senate and the House recede with an amendment to define “covered institution” as any institution of higher education as such term is defined in Section 102, that receives any federal funding or assistance. Definitions of “agent” and “institution-affiliated organization” are also added. An

"agent" means an officer or employee of a covered institution or an institution-affiliated organization. An "institution-affiliated organization" means any organization that is directly or indirectly related to a covered institution and is engaged in the practice of recommending, promoting, or endorsing education loans for students attending such covered institution or the families of such students, except that the term does not include any lender with respect to any education loans secured, made or extended by such lender.

The Senate amendment defines "educational loan" as any loan made, insured, or guaranteed under Title IV.

The House bill defines "educational loan" as including any loan made, insured, or guaranteed under Title IV; or any educational loan that is not made, insured, or guaranteed under Title IV, but that is issued by a lender expressly for postsecondary educational expenses to a student, or the parent of the student, regardless of whether the loan involves enrollment certification by the educational institution that the student attends..

The Senate recedes with an amendment to replace "educational loan" with "education loan" and to specify that loans made, insured, or guaranteed under Title IV refer to loans made under Parts B and D of Title IV.

The Senate amendment defines "educational loan arrangement" as an arrangement or an agreement between a lender (of loans made under Title IV, and as defined under Section 151(5)) and a covered institution, under which a lender provides or issues (Title IV) educational loans to students attending a covered institution, or their parents; and which is related to the covered institution recommending, promoting, endorsing, or using the (Title IV) educational loans of the lender, and which involves the lender paying a fee or providing other material benefit to the institution of higher education or groups of students attending the institution of higher education.

The House bill defines "preferred lender arrangement" as an arrangement or agreement between a lender and a covered institution, under which a lender provides or issues educational loans to students attending a covered institution, or their parents; and which is related to the covered institution recommending, promoting, or endorsing, educational loan products of the lender; and which does not include arrangements with respect to the Direct Loan program loans, Perkins Loans, or Federal Family Education Loan (FFEL) parent PLUS Loans made in accordance with Section 499(b).

The Senate recedes with an amendment to change "parents" to "families" of students, strike the reference to Perkins Loans, and to include in the definition arrangements or agreements between a lender and an institution-affiliated organization.

The Senate amendment defines "lender" as a financial institution participating in the FFEL, and the Secretary for the Direct Loan program loans; and in each case, the term includes any individual, group, or entity acting on behalf of the lender with respect to a Title IV education loan.

The House bill defines "lender" as meaning a "creditor;" except that it does not include an issuer of credit secured by a dwelling or under an open end credit plan, and includes an agent of a lender.

Both the Senate and the House recede with an amendment to define the terms "eligible lender" and "lender." The term "eligible lender" has the meaning given such term in section 435(d). The term "lender" means an eligible lender, in the case of a loan made, insured, or guaranteed under Part B of Title IV; the Secretary, in the case of any loan issued or provided to a student under Part D

of Title IV; and, a private educational lender as defined in Section 140(a) of the Truth in Lending Act, in the case of a private education loan.

The Senate amendment defines "officer" as including a director or trustee of an institution of higher education.

The House bill defines "officer" as including a director or trustee of a covered institution if the individual is treated as an employee of the covered institution (see Section 151(1)).

The Senate recedes with an amendment to include in the definition of "officer" a director or trustee of an institution-affiliated organization if such individual is treated as an employee.

The House bill defines "private educational loan."

The Senate amendment contains no similar provision.

The House recedes with an amendment to use the term "private education loan" in place of "private educational loan" and to refer to the definition used in Section 140(a) of the Truth in Lending Act.

Section 152. Responsibilities of covered institutions, institution-affiliated organizations and lenders

The Senate amendment institutes requirements for lenders and institutions of higher education participating in "educational loan arrangements." The Senate provision is applicable to arrangements between lenders of Title IV educational loans and covered institutions of higher education.

The House bill institutes requirements for lenders and institutions of higher education participating in "preferred lender arrangements." The House provision is applicable to arrangements between lenders (i.e., creditors) and covered institutions of higher education. The House provision applies to lenders of loans made, insured, or guaranteed under Title IV, and private educational loans, except that it does not apply to arrangements with respect to Direct loans, Perkins Loans, or parent PLUS loans made in accordance with Section 499(b).

The Senate recedes with an amendment to make no reference to Perkins Loans.

The House amendment prohibits a covered institution that enters into a preferred lender arrangement regarding private educational loans from agreeing to allow the lender to use the institution's name or likeness in the marketing of private educational loans to students attending the institution in any way that implies the institution's endorsement of the private educational loans.

The Senate bill contains no similar provision.

The Senate recedes with an amendment to extend the prohibition to institution-affiliated organizations of covered institutions.

The Senate amendment requires a covered institution that enters into an educational lender arrangement to disclose the name of the lender in documentation related to the loan.

The House bill contains no similar provision.

The House recedes with an amendment to require covered institutions, and institution-affiliated organizations of such institutions, that enter into a preferred lender arrangement with a lender regarding private education loans to ensure that the name of the lender is displayed in all information and documentation related to the loan.

The House bill requires FFEL lenders that participate in one or more "preferred lender arrangements" to annually certify compliance with requirements of the Act and to report on and attest to such compliance in its annual compliance audit.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment that provides: "If an audit is required pursuant to Section 428(b)(1)(U)(iii), the lender's compliance with requirements of this section shall be reported on and attested to annually by the auditor of such the lender."

The Senate amendment requires lenders participating in educational loan arrangements, prior to providing a Title IV education loan to a student, to disclose to the student certain information about the terms and conditions of such loans. These disclosures must include: interest rates of educational loans and sample educational loan costs, by type of loan. For each type of educational loan offered, the disclosure must include information on: types of repayment plans available; availability of and conditions for no-penalty, early repayment; capitalization of interest; terms and conditions of deferment and forbearance; all available repayment benefits and the percentage of all borrowers who qualify for such benefits; the percent of borrowers who received such benefits in the preceding academic year; collection practices in cases of default; all fees, including late payment penalties, a borrower may be charged; and, such other information as the Secretary may require.

The House bill contains no similar provision.

The House recedes with an amendment to incorporate the disclosure requirements in the Senate amendment into the disclosures required under Subsections (a),(c) and (d) of Section 433. The revised disclosure requirements are applicable to loans made, insured or guaranteed under Parts B or D of Title IV, other than consolidation loans. Lenders of private education loans must comply with the disclosures required under Title X of this Act.

The Senate amendment requires lenders participating in education loan arrangements to annually report to the Secretary any reasonable expenses paid or given to an individual employed in the financial aid office of a covered institution, or who has responsibilities with respect to educational loans or other types of financial aid. The lenders must report the following: the amount of each specific instance of reimbursement; the name of each individual to whom a reimbursement was made; the date of the activity being reimbursed; and, a brief description of the activity being reimbursed. The Secretary shall annually compile such information into a report and transmit the report to the House Education and Labor Committee and the Senate Committee on Health, Education, Labor and Pensions.

The House bill contains no similar provision.

The House recedes with an amendment to require each FFEL lender, on an annual basis, to report to the Secretary any reasonable expenses paid or given under the exception clauses in 435(d)(5)(D), 487(e)(7) and 487(e)(3)(B) to any agent of a covered institution who is employed in the financial aid office of a covered institution, or who otherwise has responsibilities with respect to education loans or other financial aid activities of the institution of higher education, and any similar expenses paid or provided to any agent of an institution-affiliated organization of a covered institution who is involved in the practice of recommending, promoting, or endorsing education loans. The report shall include: the amount for each specific instance in which the lender provided such reimbursement; the name of the agent for whom expenses were paid or to whom the reimbursement was made; the dates of the activity for which the expenses were paid or the reimbursement was made; and, a brief description of the activity for which the expenses were paid of the reimbursement was

made. The Secretary shall summarize the information contained in the lender reports and provide a report annually to the authorizing Committees.

The House bill requires the Secretary to display on the Department of Education website, and to provide to colleges and universities, specified information to be used for counseling and consumer information for prospective borrowers. The Secretary shall make such information widely known and shall promote its availability and use by prospective and current students and borrowers, and those entering repayment.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to clarify the types of information that must be reported and to change the placement of the provision.

Section 153. Loan information to be disclosed and model disclosure form for covered institutions, institution-affiliated organizations, and lenders participating in preferred lender arrangements

The Senate amendment and the House bill require the Secretary, not later than 180 days after enactment, to prepare a report on the adequacy of the information provided to students and their parents about education loans, after consulting with students, representatives of covered institutions of higher education (including financial aid administrators, registrars, and business officers), lenders, loan servicers, and guaranty agencies.

Both the Senate and the House recede with an amendment to strike the report requirement and instead to require the Secretary, not later than eighteen months after enactment, to coordinate with the Board of Governors of the Federal Reserve, and consult with students, their families, representatives of covered institutions (including financial aid administrators, admission officers, and business officers), representatives of institution-affiliated organizations, high school guidance counselors, lenders, loan servicers, and guaranty agencies, and to determine the minimum information that lenders, covered institutions, and institution-affiliated organizations participating in preferred lender arrangements must make available regarding education loans that are offered to students and their families. Both the Senate and House recede also with an amendment to change references from "parents" to "families" throughout the Section.

The Senate amendment and the House bill require the Secretary to develop a model format (Senate) or model disclosure form (House) to be used by lenders participating in "preferred lender arrangements" (House) or "educational loan arrangements" (Senate) for providing information to institutions of higher education and the Secretary, for each type of education loan provided by lenders to students attending a covered institution, and about why the covered institution believes the terms and conditions of each type of loan provided pursuant to the educational loan arrangement are beneficial to borrowers. The House bill requires the Secretary to prescribe this model format by regulation.

The Senate amendment requires the model format to provide certain information on the terms and conditions of loans, disaggregated by loan type, including interest rates and terms and conditions of loans for the forthcoming academic year; any benefits that are contingent on borrower repayment behavior; the average amount borrowed from the lender by students enrolled in the institution, by loan type, for the preceding academic year; the average interest rate on loans borrowed by such students for the preceding academic

year; and the amount of interest that may be required to be paid according to a standard repayment period on the average amount borrowed from the lender by such students, on such type of loan, for the preceding academic year.

The House bill also requires the model disclosure form to provide information on the terms and conditions of loans, disaggregated by loan type, including the interest rate or range of rates, and whether rates are fixed or variable; the frequency and amount of interest rate adjustments; co-borrower requirements; any fees associated with the loan; available repayment terms; the opportunity for deferment or forbearance, including whether in-school deferment is available; any additional terms and conditions of the loan, including any benefits contingent on repayment behavior of the borrower; the annual percentage rate for such loans, determined in the manner required under Section 107 of the Truth in Lending Act (15 U.S.C. 1606); an example of the total cost of the educational loan over the life of the loan; consequences of default, including any limitations on loan discharge in bankruptcy; contact information for the lender; and, philanthropic contributions by the lender to the covered institution. The House bill requires this information to be provided for opportunity pool loans and requires private lenders, as well as FFEL lenders, to use the model format. The House bill additionally requires the model format to be easy for students and parents to understand; to be easily usable by lenders, institution of higher education, guaranty agencies, and servicers; to provide relevant information on federal and private educational loans; to be based on the report's findings, and to be developed in consultation with specified entities.

Both the Senate and the House recede with an amendment to require the Secretary to consider the merits of requiring covered institutions and institution-affiliated organizations that have preferred lender arrangements to provide prospective borrowers and families the following information for each type of loan made, insured or guaranteed under Title IV: the interest rate and terms and conditions of the loan for the next award year, including loan forgiveness and deferment; information on any charges such as origination and federal default fees that are payable on the loans, and whether those charges will be paid by the lender or the borrower; the yearly and cumulative maximum amounts that may be borrowed; the average amount borrowed from the lender by undergraduate and graduate students who were enrolled and who graduated the preceding year; the amount the borrower may pay in interest, based on a standard repayment plan and the average amount borrowed by students who graduated from the institution of higher education the preceding year with subsidized and unsubsidized Stafford loans and PLUS loans; the consequences for the borrower of defaulting on a loan, including limitations on the discharge of an education loan in bankruptcy; the contact information for the lender; and other information suggested by those with whom the Secretary has consulted. In addition, the amendment requires the Secretary, in determining the minimum information that lenders, covered institutions, and institution-affiliated organizations participating in preferred lender arrangements shall make available regarding education loans that are offered to students and the families of students, to incorporate identical or similar disclosures developed by the Board of Governors of the Federal Reserve pursuant to Section 128(e)(1) of the Truth in Lending Act.

The House bill also requires the model format to provide, with respect to private edu-

cational loans recommended by the covered institution, the method of determining the interest rate of the loan; potential finance charges, late fees, penalties, and adjustments to the principal, based on defaults or late payments of the borrower; and, such other information as the Secretary may require.

The Senate amendment contains no similar provision.

The House recedes.

The Senate amendment and the House bill require the Secretary to submit the report and model format (Senate) or disclosure form (House) to the authorizing Committees and make the report and model format available to covered institutions of higher education, lenders, and the public. The Senate amendment and the House bill require the Secretary to encourage lenders that have educational loan (Senate) or preferred lender (House) arrangements with covered institutions of higher education, and covered institutions of higher education to use the model forms.

Both the Senate and the House recede with an amendment that the Secretary shall, after consulting with the public and in coordination with the Board of Governors of the Federal Reserve specify the information covered institutions and institution-affiliated organizations with preferred lender arrangements must provide to prospective borrowers and the families of such borrowers regarding loans made, insured, or guaranteed under Title IV and require covered institutions and institution-affiliated organizations to provide such information on a model disclosure form developed by the Secretary or on a form developed by the institution of higher education. The Secretary shall update the model disclosure form periodically.

The Senate amendment and the House bill require lenders that participate in educational loan (Senate) or preferred lender (House) arrangements to report the information contained on the model disclosure form to the institutions of higher education even if they do not use the form. The House bill specifies that such information shall be reported to institutions of higher education by March 1 of each year.

The Senate recedes with an amendment to require lenders that participate in preferred lender arrangements to report information for Part B loans annually to a covered institution or an institution-affiliated organization and to the Secretary, by a date to be determined by the Secretary.

The House bill specifies that the development and prescription by regulation of the initial model disclosure form shall not be subject to the requirement that it be published in final form by November 1 prior to the start of the award year, nor shall it be subject to negotiated rulemaking. However, such requirements shall apply to the updating of the model disclosure form.

The Senate contains no similar provision.

The House recedes.

The Senate amendment and the House bill require covered institutions of higher education to submit an annual report to the Secretary that includes the information on the model form, a detailed explanation of why the institution of higher education believes the terms and conditions of each loan provided through an agreement are beneficial to the students attending the institution or to the students' parents. Institutions of higher education must make the report available to the public and provide it to students who are attending or who plan to attend the covered institution.

The House bill requires covered institutions of higher education, on their website and in publications, mailings, electronic messages or media describing financial aid opportunities to prospective or current students or their parents, to include the following: a statement indicating that students

are not limited to or required to use the lenders recommended by the institution of higher education; that the institution of higher education is required to process the documents required to obtain a federal educational loan from any eligible lender the student selects. The website and other publications must also disclose, at a minimum, all of the information provided by the model disclosure form (or updated form) with respect to any lender of federal or private educational loans (including opportunity pools) recommended by the institution of higher education; the maximum amount of federal grant and loan aid available to students in an easy-to-understand format; and, the institution's cost of attendance.

Both the Senate and the House recede with an amendment to require covered institutions and institution-affiliated organizations to make the information that the Secretary requires for the model disclosure format and the information that a private educational lender provides to a covered institution and institution-affiliated organizations pursuant to Sections 128(e)(12) and 128(e)(1) of the Truth in Lending Act, available in time for students and families to consider before selecting a lender or applying for an education loan. The Senate and House further require covered institutions and institution-affiliated organizations to prepare and submit to the Secretary an annual report, by a date to be determined by the Secretary, that includes for each lender that has a preferred lender arrangement with the covered institution and institution-affiliated organization the information the Secretary requires for the model disclosure form and the information private educational lenders participating in a preferred lender arrangements provide to covered institutions and institution-affiliated organizations, for each type of education loan provided pursuant to the preferred lender arrangement. The reports must also include an explanation of why the covered institution or institution-affiliated organization entered into a preferred lender arrangement, including why the terms, conditions, and provisions of each type of loan for students are beneficial for students or the families of students. The covered institution or institution-affiliated organizations shall ensure that the report is made available to the public and provided to students attending or planning to attend the covered institution. Each covered institution that has a preferred lender arrangement must disclose on its website, in addition to this information and the disclosures required under the program participation agreement, the maximum amount of federal financial assistance available to students and a statement that the institution of higher education is required to process the documents required to obtain a federal education loan from any eligible lender the student selects.

The House bill requires the Secretary, not later than one year after submitting the model disclosure form and report, to assess the adequacy of the model disclosure form and, after consultation with specified entities, prepare a list of improvements identified as beneficial to borrowers and to take such improvements into consideration in updating the model disclosure form.

The Senate amendment contains no similar provision.

The House recedes.

The House bill requires covered institutions of higher education that make information on private educational loans available to students or their parents to also make certain information about private loans and federal student aid under Title IV available. Covered institutions of higher education must inform students, or their parents, of their eligibility for federal student

aid, including loans under Title IV; the terms and conditions of private educational loans that may be less favorable than the terms and conditions of Title IV student loans for which they are eligible; and must clearly distinguish between private educational loans and loans made, insured, or guaranteed under Title IV.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to change references to "student or parent" to "prospective borrower"; to clarify that the prospective borrower must be informed that the borrower may qualify for federal financial assistance through a Title IV program of this Act; and, to modify language to require covered institutions and institution-affiliated organizations to inform prospective borrowers that the terms or conditions of Title IV loans may be more favorable than the provisions of private loans. The other disclosure requirements in the House bill and the Senate amendment are moved to Sections 428(c), 433(a) and (b), and 485(b), (d), and (1) as amended by this Act.

Section 154. Loan information to be disclosed and model disclosure form for institutions participating in the William D. Ford Federal Direct Loan Program

The Conferees establish a new Section that requires the Secretary to provide each institution of higher education participating in the William D. Ford Direct Loan program with a completed model disclosure form including the same information for Federal Direct Stafford loans, Federal Direct Unsubsidized Stafford loans and Federal Direct PLUS loans made to, or on behalf of, students attending the institution as is required on such forms for loans described in section 151(3)(A). The Conferees require institutions participating in the Direct Loan program to make the information the Secretary provides available to students attending or planning to attend the institution and their families.

TITLE II—TEACHER QUALITY ENHANCEMENTS

The Senate amendment and the House bill strike and replace Title II of the Higher Education Act.

The Senate and the House recede with amendments as follows.

Section 201. Teacher quality enhancement
Section 200. Definitions

The Senate amendment and the House bill adopt the current definition for "Arts and Sciences" and eliminate the current definition of "Poverty Line." The Senate amendment and House bill add the same definitions of "Children from Low-Income Families," "Core Academic Subjects," "Early Childhood Educator," "Educational Service Agency," "Essential Components of Reading Instruction," "Exemplary Teacher," "High-Need Early Childhood Education Program," "Highly Competent," "Highly Qualified," "Limited English Proficient," "Professional Development," and "Teaching Residency Program."

The Conferees adopt that provisions as proposed by both the Senate and the House with an amendment to adopt the definition for "parent" as found in the Elementary Secondary Education Act (ESEA).

The Senate amendment and the House bill contain definitions for "Early Childhood Education Programs," but the House bill definition of "Early Childhood Education Program" differs in two respects by specifying that Head Start programs include Migrant and Seasonal Head Start, as well as American Indian/Alaska Native Head Start programs, and by including prekindergarten programs authorized under Section 619 or

Part C of the Individuals with Disabilities Education Act.

The Senate recedes with an amendment to add "or a program authorized under Section 619 of the Individuals with Disabilities Education Act" after "State prekindergarten program" in the definition of "Early Childhood Education Programs," to clarify that a state licensed or regulated child care program does not include a school and an eligible state prekindergarten program is one that serves children from birth to age six.

The Senate amendment and the House bill contain definitions of "eligible partnerships." The House bill definition includes alternative certification programs and teacher professional development programs within partner institutions of higher education.

The Senate recedes with an amendment to allow teacher professional development programs to be included in the partnership only if they are existing programs with proven outcomes within a four year institution of higher education that provides intensive and sustained collaboration between faculty and local educational agencies in order to meet the requirements of this Title.

The Senate amendment and the House bill amend the definition of a "High-Need Local Educational Agency" in the same manner and include references to rural locale codes. The Senate amendment lists specific rural locale codes and the House bill references rural locale codes currently being used by the Department of Education. The Senate amendment includes locale codes correspond to the designations of small town (6); rural, outside major statistical area (7); and rural, inside major statistical area (8). The House bill provides the labels for locale codes that correspond to the following numerical designations: rural, fringe (41); rural, distant (42); and rural, remote (43).

The House and Senate recede with an amendment to align the definition of local educational agencies with the definition in the Elementary and Secondary Education Act.

The Senate amendment and the House bill amend the definition of "High-Need School" in the same manner; except, the Senate amendment defines a rural school as one designated with a locale code of 6, 7, or 8. The House bill defines a rural school as one designated with a locale code of Rural: Fringe, Rural: Distant, or Rural: Remote.

The Senate and the House recede with an amendment to define a high-need school as one that is either in the highest quartile of low-income schools in a ranking of all schools served by a local educational agency, as determined by various poverty indicators, or, in the case of an elementary school, one that serves not less than sixty percent of students who are eligible for free or reduced price school lunch under the Richard B. Russell National School Lunch Act, and for all other schools, that serves not less than 45 percent of such students.

The Senate amendment and the House bill define "Induction Program" to include periodic, structured time for collaboration with other teachers, as well as time for information-sharing among teachers, principals, administrators, and participating faculty. However, the Senate amendment allows such collaboration to be with any other teachers in the same department or field, and the House bill specifies that such collaboration shall be with mentor teachers.

The House recedes with an amendment to include mentor teachers in addition to other teachers who shall be provided collaboration time and to include other appropriate instructional staff in information sharing time.

The Senate amendment and the House bill define an "Induction Program" as having a

teacher preparation program that includes interdisciplinary collaboration. However, the House bill specifies that the collaboration occurs with those who prepare new teachers with respect to the learning process and the assessment of learning.

The Senate recedes.

The Senate amendment and the House bill define an "Induction Program" as having a teacher preparation program that provides assistance with the understanding of data, particularly student achievement data, and the applicability of that data in classroom instruction.

The Senate and the House recede with an amendment that the program shall provide assistance with "the applicability of such data in classroom instruction."

The Senate amendment defines an "Induction Program" as having a regular evaluation of the new teacher.

The House bill specifies that the evaluation include formal observation and feedback, at least four times a year by multiple evaluators, including master teachers and the principal, who must use valid and reliable benchmarks of teaching skills and standards developed with input from teachers in the evaluation.

The Senate recedes with an amendment to indicate that the evaluation shall consist of "regular and structured observation and evaluation of the new teachers by multiple evaluators, using valid and reliable measures of teaching skills."

The Conferees intend that measures of teaching skills employed during observation and evaluation of new teachers include the teaching skills described later in this Section. Using such a definition of skills in developing metrics for the observation and evaluation of new teachers will require prioritizing these teaching skills while developing a rubric or procedures for evaluation. The Conferees intend that such rubrics or procedures be developed through consultation and cooperation among teachers, mentors, principals and others involved in the process of observation and evaluation.

The House bill defines the term "Literacy Coach."

The Senate amendment contains no similar provision.

The House recedes.

The Senate amendment and the House bill define a "Partner Institution" as an institution of higher education, which may include a two-year institution of higher education offering a dual program with a four-year institution of higher education that also meets additional criteria.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Conferees recognize the essential role that community colleges play in teacher preparation, providing the first two years of postsecondary education for many teacher candidates. The Conferees further recognize that two-year institutions of higher education, by definition, provide the initial portion of pre-baccalaureate teacher preparation that each candidate must complete at a four-year institution of higher education. Some two-year institutions of higher education, however, have begun to partner with four-year institutions of higher education and offer students a path to a baccalaureate degree and full state teacher certification. The Conferees intend that to be considered a "partner institution" and therefore, part of a partnership eligible to receive funds under this Title, the two-year institution of higher education must partner with a four-year institution of higher education and work together to carry out the activities required under this Title. It is, therefore, essential that two- and four-year institutions of higher education cooperate to ensure that the

initial years of pre-baccalaureate preparation offered at each two-year institution of higher education provide courses of study that are aligned with curriculum at the four-year institution of higher education in order to meet the state requirements for teacher certification. Cooperation between institutions of higher education should include a formal agreement to ensure that the institutions have developed an articulated transfer policy so that teacher candidates beginning at a two-year institution will be adequately supported during completion of their pre-baccalaureate preparation at the four-year institution of higher education.

The Senate amendment and the House bill further define a "Partner Institution" as one that includes a teacher preparation program that requires each student meet high academic standards and participate in intensive clinical experience. The House bill also requires each student to demonstrate such high academic standards.

The Senate recedes with an amendment to strike "and demonstrate" and insert after "high academic standards", "or demonstrate a record of success, as determined by the institution".

The House bill defines a "Partner Institution" as including a teacher preparation program whose participants include current teachers who seek ongoing professional development and that requires the faculty of arts and sciences of the partner institution of higher education to lead collaborative seminars for the purpose of improving student learning and developing curriculum units.

The Senate amendment contains no similar provision.

The House recedes.

The Senate amendment defines "Principles of Scientific Research."

The House bill contains no similar provision.

The House recedes with an amendment to the definition that provides that the term includes, appropriate to the research being conducted, "strong claims of causal relationships, only with respect to research designs that eliminate plausible competing explanations for observed results, which may include random-assignment experiments."

The Senate amendment and the House bill contain the same definition of "Scientifically Valid Research."

The Senate and the House recede with an amendment to strike the word "accepted" with regard to principles of scientific research.

Both the Senate amendment and the House bill define "Teacher Mentoring." However, the House bill defines the term to include programs that provide training in classroom management.

The Senate recedes with an amendment to include approaches that improve the school-wide climate for learning, such as positive behavioral interventions and supports.

The Senate amendment and the House bill further define "Teacher Mentoring" to include providing regular and ongoing opportunities for mentors and mentees to observe each other's teaching methods.

The Conferees adopt the provision as proposed by both the Senate and the House.

The House bill defines "Teacher Mentoring" to include paid release time for mentors.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to clarify that mentors are provided paid release time "as applicable."

The Senate amendment and the House bill include similar definitions of "Teaching Skills." However, the House bill defines the term to include skills that enable the teach-

er to effectively manage a classroom, including the ability to implement positive behavioral intervention support strategies.

The Senate recedes with an amendment to include in the definition skills that enable a teacher to effectively teach higher-order analytical, evaluation, problem-solving, and communication skills, and to clarify that skills include the ability to implement positive behavioral "interventions and support strategies."

PART A—TEACHER QUALITY PARTNERSHIP GRANTS

Section 201. Purposes

The Senate amendment and the House bill both modify Section 201(a)(3) of the HEA. The Senate amendment provides that a purpose of this Section is to hold institutions of higher education accountable for preparing highly qualified teachers.

The House bill specifies that teacher preparation programs be held accountable for preparing highly qualified teachers.

The Senate recedes with an amendment to clarify that the focus of the program be on prospective and new teachers.

Section 202. Partnership Grants

This placement should meet the subject areas or grade level priorities deemed most in need by the local agency and its partners, but with full recognition of the needs of the teaching residency program to implement practices consistent with ongoing induction and support of the new teacher. This recognition may require establishing a priority on placing graduates of the residency program together in cohorts that encourage the effective induction and subsequent retention of these new teachers.

program for HBCU's, including those identified by the GAO in its October 2006 report on the program. The Conferees also intend for the Secretary to continue the Department of Education's reported efforts to explore other options to improve the program. In particular, the Conferees intend for the Secretary to explore alternative methods of compensating the designated bonding authority that would reduce the cost of bond issuance incurred by participating HBCU's, while simultaneously ensuring that the compensation is sufficient to ensure interest on the part of companies to compete to become the program's designated bonding authority. Currently, HBCU's that participate in the program pay up to two percent of the proceeds of bonds issued to the designated bonding authority. The Conferees intend for the Secretary to consider, among other options, a fee structure that would charge up to two percent of the proceeds from bond issuance but not above a reasonable amount (to be determined after an assessment of the actual costs of bond issuance). To ensure continued improvements are made to the program and that it is meeting the needs of HBCU's, the Conferees intend to engage in robust oversight of the Department of Education's administration of the program.

The House bill specifies that the mandatory funds shall remain available for two full fiscal years to be consistent with discretionary Pell Grant funds.

part-time) and includes time prior to the date of enactment. The House bill specifies that only the amount (or percent) of time that the student enrolls shall be counted against the time limit. The House bill also applies the limit only to students who receive their first Pell Grant after July 1, 2008. The Senate recedes.

The House bill sets the expected family contribution (EFC) to \$0 for any Pell eligible student whose parent or guardian was a member of the Armed Forces and died in Iraq or Afghanistan after September 11, 2001. Section 402. Academic competitiveness grants

The Conferees agreed to adopt the following provisions in the Senate amendment and House bill, as indicated, but the provisions were struck from the conference agreement because they were enacted in the "Ensuring Continued Access to Student Loans Act of 2008" (PL 110-227).

The Senate amendment and the House bill remove the term "academic" from all references to year of study in the Academic Competitiveness (AC) and National Science and Mathematics Access to Retain Talent (SMART) grant program provisions. However, the House bill replaces "academic" with "award."

The Senate recedes.

The Senate amendment and the House bill eliminate the requirement that eligible students must be full-time. Both the Senate amendment and the House bill extend AC and SMART grant eligibility to eligible non-citizens. The Senate amendment states that a student must be Pell-eligible and the House bill states that the student must be eligible for federal student aid.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The Senate amendment and the House bill require that a student be enrolled at least half time to receive AC or SMART grants and that for students enrolled less-than-full time, the amount of the grant is reduced in the same manner as Pell Grants.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The House bill eliminates the requirement that a rigorous program must be established by the State or local education agency and replaces it with courses that prepare students for college and work that are beyond the basic graduation requirements and that are recognized by the designated State offi-

cial, or with respect to any private school or home school, the designated school official for such school, consistent with State law.

The Secretary may set priorities according to national security, economic competitiveness and educational needs.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The Senate amendment and the House bill extend eligibility for SMART grants to students studying qualified subjects who are enrolled in institutions of higher education that do not permit declaration of a major. The Senate amendment also extends eligibility to students who are required as part of their degree program to undertake a rigorous course of study in mathematics, biology, chemistry and physics.

The House recedes with an amendment to require that students enrolled in institutions that do not allow for a declaration of a major, that such students must have a cumulative grade point average of at least 3.0, unless they are enrolled in a degree program that requires a rigorous course of study in mathematics, biology, chemistry, and physics, in which there is no specific grade point average.

The Senate amendment extends a fifth year of eligibility for SMART grants to students in programs that require five full years of course work.

The House bill has no similar provision.

In addition, Conferees agree to adopt the following changes to the "Ensuring Contin-

ued Access to Student Loans Act of 2008" (PL 100-227): to waive master calendar and negotiated rulemaking for the changes to the Academic Competitiveness and SMART grant program included in that statute; to make the changes to the program take effect starting on July 1, 2009; to require the appropriate official, consistent with State law, to submit eligible rigorous curricula to the Secretary at such time as the Secretary may require; and to clarify that a rigorous curricula also includes one that is recognized as such by the Secretary in regulations promulgated to carry out this section, as such regulations were in effect on May 6, 2008.

Section 403. Federal TRIO programs

The Senate amendment and the House bill extend the duration of TRIO grants from four to five years, increase minimum grant amounts for each of the TRIO programs to \$200,000 except the evaluation grants which are raised to \$170,000, prioritize high quality service delivery, and prohibit the Secretary from providing assistance to fraudulent programs. The Senate amendment and the House bill clarify that the Secretary may award grants to different campuses of an institution. Both the Senate and the House make the same amendment concerning prior experience and data. The Senate amendment and the House bill make the same amendment concerning the objectives of the Postbaccalaureate Achievement Program, and Educational Opportunity Centers. The Senate amendment and the House bill make conforming amendments to the subparagraph on the Secretary's waiver authority and subsection (e) (Documentation of status as a low-income individual). The Conferees adopt the provisions as proposed by both the Senate and the House.

The House bill clarifies that community-based organizations are eligible for the TRIO programs and removes a requirement in current law that secondary schools be eligible only in exceptional circumstances. The House bill extends the duration for certain grants in order to synchronize current award cycles and requires the Secretary to consider the number, percentages and needs of eligible participants in awarding grants.

The Senate amendment contains no similar provisions.

The Senate recedes with an amendment to specify that "organizations" includes community-based organizations, and to clarify that secondary schools are eligible grantees as appropriate to the purposes of each program.

The additional language clarifies that secondary schools can serve as eligible grantees for TRIO programs that take place in secondary schools (e.g., Upward Bound, Upward Bound Math Science, and Talent Search).

It is the understanding of the Conferees that, when assessing the level of need of an eligible entity for a grant or contract under this chapter, the Department of Education should consider the numbers, percentages, and needs of the eligible students rather than the characteristics of the entity both for pre-college and college-level programs. Focusing on the level of need of a school could unintentionally mask the level of need of students for such services. This provision clarifies that the application process should focus on the needs of the eligible students rather than solely on the characteristics of the institutions attended.

The House bill requires that all TRIO grantees identify services for foster care youth and to ensure such youth receive services. The House bill further clarifies that homeless youth are eligible to participate in programs under this chapter.

The Senate amendment makes the same amendments, but does so in each TRIO program.

The Senate recedes with an amendment to require grantees to identify and make services available for foster care and homeless youth, and to clarify that foster care youth are eligible to participate in programs under this chapter.

The Senate amendment and the House bill set specific requirements that outcome criteria must measure the quality and effectiveness of an entity's program. Both the Senate amendment and the House bill require the Secretary to compare the results with the target established in the application.

The Senate amendment requires the entity to compare the results with the target.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The Senate amendment and the House bill amend the outcome criteria of Talent Search. The House bill also adds language on completing a rigorous secondary school program. The Senate amendment adds language on the postsecondary education completion of students in Talent Search.

The Senate and the House recede with an amendment to include both completion of a rigorous secondary school program and postsecondary education completion as outcome criteria for students in Talent Search.

It is the understanding of the Conferees that grantees under this subchapter receive a low dollar amount per student, which may make measuring postsecondary completion of their students difficult. The Department of Education, should work with grantees to design and implement outcome measures that will not result in reduction of services to current students.

The Senate amendment and the House bill make the same amendment concerning the outcome criteria of Upward Bound. The House bill also adds language on completing a rigorous secondary school program.

The Senate recedes with an amendment to include postsecondary education completion and to specify that students graduate from secondary school with a regular diploma in the standard number of years as outcome criteria for students in Upward Bound.

The Senate amendment and the House bill make the same amendment concerning the outcome criteria of Student Support Services.

The House recedes with an amendment to clarify the outcome criteria relating to the completion of degree programs.

The House bill adds a new appeals process in the event that the Secretary does not accept an application or does not fund an application.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to create an appeal process for TRIO program applicants, in cases where the applicant has evidence of a specific technical, administrative, or scoring error made by the Department, an agent of the Department, or a peer reviewer on an application, which includes review by a secondary review panel, to formally appeal their grant scores.

The need for such a process is evidenced by past errors including the miscalculation of prior experience points by the Department, applications lost or wrongly determined to be incomplete by the Department or its agent (such as Grants.gov), and misunderstandings by peer reviewers of the program

purpose of a grant applicant and the population that that program serves. By including this language, Conferees intend to prevent future errors from wrongly denying programs funding and ensure that all TRIO applicants are subject to a fair and transparent application process.

The Senate amendment authorizes TRIO at such sums as necessary for fiscal year 2008 and the five succeeding fiscal years.

The House bill established the TRIO authorization level at \$950,000,000 for fiscal year 2009 and such sums as necessary for the four succeeding fiscal years.

The Senate recedes with an amendment to authorize \$900,000,000 for fiscal year 2009 and such sums as necessary for each of the five succeeding fiscal years.

The Senate amendment amends veterans eligibility for Upward Bound to include anyone who served on active duty more than 180 days after January 31, 1955; served on active duty after January 31, 1955 and was discharged because of a service connected disability; or was a member of the reserves and called to active duty for more than 180 days.

The House bill amends veterans eligibility for Upward Bound to include anyone who served on active duty more than 180 days; served on active duty and was discharged because of a service connected disability; was a member of the reserves and called to active duty for more than 180 days; or was a member of the reserves who served on active duty in support of a contingency operation on or after September 11, 2001.

The Senate recedes with an amendment to specify that a member of the reserves called to active duty for more than thirty days is eligible for Upward Bound.

The Senate amendment amends the authorizing language for the Talent Search program, by removing language on educational potential and ability to complete and adding language regarding encouraging eligible youths and facilitating students' application for aid. The Senate amendment adds a new subsection to specify required and permissible services.

The House bill contains no similar provisions.

The House recedes with an amendment to move academic tutoring to a permissible service and to require connections to education or counseling services designed to improve financial literacy, instead of requiring the provision of those services.

The Senate amendment provides language authorizing Talent Search to give support to students who are limited English proficient, homeless, and who are in or aging out of foster care.

The House bill authorizes Talent Search to give support to students who are limited English proficient, groups or persons from disadvantaged backgrounds that have particular lower education access or outcomes, or disconnected students.

The House recedes with an amendment to add students from groups that are traditionally underrepresented in postsecondary education, students with disabilities, and other disconnected students.

The Conferees recognize that students who are limited English proficient, students from groups that are traditionally underrepresented in higher education, students with disabilities, homeless students, youth aging out of foster care, or other disconnected students, such as pregnant or parenting teens or youth who have been involved in the juvenile justice system, have additional challenges in accessing postsecondary educational opportunities and persisting until program completion. Therefore, the Conferees encourage TRIO grantees, as appropriate, to offer programs and activities that are specially designed to address the unique challenges these

students face as they work to achieve a college degree.

Further, this provision seeks to increase the number of minority men in higher education as well as other populations who are underrepresented in higher education. The under representation of minority males, especially African American and Latino males, is a matter of public record that is reinforced by high drop-out rates in urban and rural school districts and by lower participation/enrollment rates of these groups in colleges and universities. By encouraging programs to recruit students from these underrepresented populations, this provision helps provide needed supports to these youth so that the higher education student body better reflects national demographics.

The Senate amendment replaces the current Upward Bound subsection (b) Permissible Services with a new subsection (b) Required Services that includes many of the current permissible services. The Senate amendment renames the current subsection (c) Required Services calling it (c) "Additional Required Services for Multiple-Year Grant Recipients." The Senate amendment creates a new subsection (d) Permissible Services that includes services permissible under current law and not listed in the new subsection (b) above.

The House recedes with an amendment to add students from groups that are traditionally underrepresented in postsecondary education, students with disabilities, and other disconnected students.

The Senate amendment gives priority to projects that select not less than thirty percent of their participants from students who have a high risk of academic failure.

The House bill contains no similar provision.

The Senate recedes with an amendment to allow Upward Bound to select academically at-risk students from the population of students that are not both low-income and prospective first generation students.

The Senate amendment prohibits the Secretary from denying a student participation in a project because the student will enter the project after the ninth grade.

The House bill contains no similar provision.

The House bill contains no similar provision.

The House recedes.

The Senate amendment designates certain services as required and others as permissible under the Postbaccalaureate Achievement program authority and adds financial literacy services as a permissible service.

The House recedes with an amendment to add students from groups that are traditionally underrepresented in postsecondary education, students with disabilities, and other disconnected students.

The Senate amendment and the House bill require the same new report from the Secretary to the authorizing committees and include practices regarding evaluations and the dissemination of evaluation findings.

The Senate and House recede with an amendment to require the new report, as well as an evaluation of the Upward Bound program to be implemented by June 30, 2010.

The Conferees intend for the evaluation of the Upward Bound Program to produce reliable data on the extent to which the program is effective in accomplishing its core purpose of generating the skills and motivation necessary for students to succeed in postsecondary education. To that end, the evaluation should be thorough, well-designed, and, to the degree feasible, free of factors that could affect the reliability of the evaluation. As such, the Conferees expect that the evaluation will not include data from the cohort of students selected for Upward Bound while the absolute priority for the program published by the Department of Education in the Federal Register on September 22, 2006, was in effect. The Conferees also expect the evaluation to be designed, consistent with the other requirements regarding evaluations in section 402H, in a manner that controls for other variables that affect students' likelihood of successfully transitioning into postsecondary education, so that the specific impact of Upward Bound, as distinct from other factors, may be evaluated.

In addition, the evaluation should also include an assessment of whether students with specific characteristics are more successful in transitioning to postsecondary education as a result of Upward Bound. For example, consideration could be given to variables such as racial/ethnic group, parents' education level, and level of the students' educational expectation and whether they interact in a way to promote greater success in the program. Finally, the evaluation should build upon past research findings, such as research on programs with similar objectives as Upward Bound, to determine which programs have produced better results than others, and to identify the common program characteristics that are associated with successful transition to postsecondary education. The Conferees expect the authorizing committees to be able to use the results of the evaluation authorized in this section, as well as past research findings, to inform potential changes to Upward Bound in future reauthorizations.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment and the House bill prohibit the Secretary from requiring a grantee to recruit students to serve as a control group for purposes of evaluating any program or project assisted under this chapter.

The Conferees agree to adopt the provision with technical changes.

The House bill requires the Secretary, when designing an evaluation, to consider the burden that may be placed upon participants and institutional review board.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to specify that the Secretary shall continue to consider whether an evaluation meets generally accepted standards of institutional review boards.

Section 404. Gaining early awareness and readiness for undergraduate programs

The Senate amendment removes the requirement that eligible entities "provide or maintain a guarantee to eligible low-income students who obtain a secondary school diploma (or its recognized equivalent), of the financial assistance necessary to permit the students to attend an institution of higher education."

The House bill contains no similar provision.

The House recedes with an amendment to clarify that eligible entities shall provide support and maintain a commitment to assisting participants in obtaining a secondary school degree and succeeding in postsecondary education.

The House bill includes students with disabilities to the description of those to receive services.

The Senate amendment contains no similar provision.

The Senate recedes.

The House bill establishes the duration of grants to be seven years.

The Senate amendment allows funds from a previous grant to be carried over to the following year.

The Senate recedes with an amendment that provides for a grant period of six years or, in the case of an entity that plans to provide services to students through their first year of postsecondary education, for seven years.

The House bill updates the prior commitment provision in current law by giving priority to entities that have carried out successful programs prior to enactment of this Act. The House bill retains the requirement in current law that the Secretary will ensure that students served under the program will continue to receive assistance through completion of secondary school.

The Senate amendment contains no similar provisions.

The Senate recedes.

The Senate amendment amends the definition of a partnership by removing the reference to elementary and secondary schools and replacing it with one or more local educational agencies.

The House bill contains no similar provision.

The House recedes.

The Senate amendment amends the funding rules in current law to: remove references to continuation grants for the program which preceded GEAR UP; remove the requirement that thirty-three percent of funds go to the State grant program and thirty-three percent go to the Partnerships program; require the Secretary to consider the geographic and rural/urban distribution of grants; remove the requirement that twenty-five to fifty percent of grant funds be used for early intervention; and add a new supplement, not supplant provision.

The House bill contains no similar provisions.

The House recedes with an amendment to require the Secretary, in distributing grant funds, to make available no less than thirty-three percent of grant funds to States and no less than thirty-three percent of grant funds to partnerships and to distribute the remaining grant funds between states and partnerships. In awarding grants the Secretary shall take into consideration the number, quality, and promise of the applications; and to the

extent practicable, the geographic distribution of such awards; and the distribution of such awards between urban and rural applicants.

The Senate amendment changes “plans” to “applications” and removes the requirement that an application for a partnership grant “provide for the conduct of a scholarship component.” The Senate amendment expands the contents of the application to include descriptions of how the entity will meet the requirements of program activities, define cohorts of students to be served, and coordinate with existing programs.

The House bill contains no similar provisions.

The House recedes.

In providing assurances that adequate administrative and support staff will be responsible for coordinating the activities of the GEAR UP grant, the Conferees acknowledge the importance of grantees identifying an individual whose primary responsibility is to serve as the coordinator for the GEAR UP grant as well as the other administrative and support staff who will be involved in carrying out the activities described in the grant application.

The House bill permits grantees to provide matching funds over the duration of the grant award period.

The Senate amendment has no similar provision.

The Senate recedes with an amendment to clarify that the grantee must make substantial progress towards meeting the match in each year of the grant award period.

The House bill authorizes grantees and applicants to request a reduction of the matching percentage requirement if they can demonstrate a change in circumstances.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to specify that an entity may request a reduced match at the time of application due to significant economic hardship and a grantee may request a reduced match if matching funding no longer is available and it has exhausted its reserves.

The House bill encourages eligible entities to provide student aid to participants by treating every non-federal dollar as two dollars for the purpose of satisfying the matching requirement.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to permit partnerships that provide scholarships to request a reduced match at the time of their application. Such application must include a description of how a reduced match will assist the entity to provide scholarships.

The Senate amendment and the House bill amend the matching requirement to include funds “obligated,” instead of “paid,” to students from State, local, institutional, or private funds as well as “equipment and supplies, cash contributions from non-Federal sources, transportation expenses, in-kind or discounted program services, indirect costs, and facility usage.”

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment amends the early intervention activities provided under current law to distinguish between Required Activities and Optional Activities. Both States and partnerships are required to provide financial aid information, encourage enrollment in rigorous coursework, and support activities designed to improve the number of participating students who complete secondary school, and enroll in a program of postsecondary education. State grantees are further required to provide scholarships. The Senate amendment requires both State and Partnership grantees to engage in at least

one of several optional activities including mentorship, outreach, support services, curricular development, support for dual enrollment, and, in the case of a partnership, support for scholarships.

The House bill contains no similar provision.

The House recedes with an amendment to clarify that, as part of an entity’s required activities, in order to receive a GEAR UP grant, the entity shall demonstrate to the Secretary that the entity will provide comprehensive mentoring, outreach and supportive services to participating students.

The House bill adds financial and economic literacy education to the list of permissible activities. The House bill adds special programs or tutoring in science, technology, engineering or mathematics to the list of permissible student support activities.

The Senate amendment contains no similar provisions.

The Senate recedes.

The Senate amendment and the House bill provide for optional activities including fostering parental involvement, disseminating information, and additional activities for States. The Senate amendment and the House bill allow grantees to continue to provide services to students through completion of secondary school and into the first year of college.

The Conferees adopt the provisions as proposed by both the Senate and the House with an amendment to change optional activities to permissible activities.

The Senate amendment and the House bill amend the current priority for services to students for entities that do not use a cohort approach. The Senate amendment and the House bill retain students eligible to be counted under Section 1124(c) of the Elementary and Secondary Education Act of 1965, and eligible for free or reduced price lunch under the Richard B. Russell National School Lunch Act. The Senate amendment adds to the list, students eligible under Part E, in addition to Part A of Title IV of the Social Security Act, and students eligible for assistance under subtitle B of Title VII of the McKinney-Vento Homeless Assistance Act. The House bill adds disconnected students, students in foster care, or homeless or unaccompanied youth as defined in Section 725 of the McKinney-Vento Homeless Assistance Act.

The Conferees adopt the provisions as proposed by both the Senate and the House with an amendment to delete the reference to free or reduced price lunch and to give priority to students who are otherwise considered disconnected students.

The Conferees recognize that students who are limited English proficient, students from groups that are traditionally underrepresented in higher education, students with disabilities, homeless students, youth aging out of foster care, or other disconnected students, such as pregnant or parenting teens or youth who have been involved in the juvenile justice system, have additional challenges to access postsecondary educational opportunities and to persist until program completion. Therefore, the Conferees encourage GEAR UP grantees, as appropriate, to offer programs and activities that are specially designed to address the unique challenges these students face as they work to achieve a college degree.

The House bill allows entities in partnerships to collaborate in providing matching resources and participate in other activities.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to require the application to include the sources of matching funds. In the event that the matching funds the entity described in

its application are no longer available, the entity may engage other members of the partnership in a collaborative manner to provide matching resources.

The Senate amendment specifies additional optional activities for States.

The House bill contains no similar provision.

The House recedes with an amendment to change “optional activities” to “permissible activities” and to add providing administrative support to help build the capacity of partnerships to compete for and manage grants as a permissible activity for States.

The Senate amendment identifies providers who may deliver services under the State grant program.

The House bill contains no similar provision.

The House recedes.

The Senate amendment allows State grantees to use less than fifty percent for scholarships if other funds for scholarships can be demonstrated. The Senate amendment requires State grantees to notify students of their eligibility for scholarships.

The House bill contains no similar provisions.

The House recedes.

The Senate amendment requires State grantees to establish a scholarship trust fund containing amounts sufficient to cover the scholarship for each student in each cohort. The Senate amendment requires that scholarships be available for students upon completion of secondary school and enrollment in college. The Senate amendment requires that unused funds be returned to a grantee’s trust fund for redistribution to other eligible students; funds unused after redistribution must be returned to the Secretary.

The House bill contains no similar provisions.

The House recedes with an amendment to require States to hold in reserve an amount that is not less than the scholarship amount multiplied by the number of students estimated to be eligible for a scholarship upon enrollment in an institution of higher education.

The Senate amendment repeals the current provision for 21st Century Scholar Certificates.

The House bill maintains current law.

The Senate amendment and the House bill repeal Academic Achievement Incentive Scholarships.

The Conferees adopt the provision as proposed by both the Senate and the House.

Section 406. Federal Supplemental Educational Opportunity grants

The Senate amendment authorizes the appropriation of such sums as may be necessary for the FSEOG program at such sums as may be necessary for fiscal year 2008 and each of the five succeeding fiscal years (through fiscal year 2013).

The House bill authorizes the appropriation of \$875,000,000 for the FSEOG program for fiscal year 2009, and such sums as may be necessary for the four succeeding fiscal years (through fiscal year 2013).

The House recedes with an amendment to authorize such sums as may be necessary for fiscal year 2009 and the five succeeding fiscal years.

The Senate amendment and the House bill increase the allowance for books and supplies used in calculating each institution of higher education's average cost of attendance for purposes of allocating funds to institutions of higher education according to "fair share" allocation procedures from \$450 to \$600.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment strikes the provision at section 413D(a)(4), authorizing the Secretary to allocate up to ten percent of the amount appropriated for programs authorized under Title IV, Part A (when the appropriation exceeds \$700,000,000), among institutions of higher education from which fifty percent or more Pell Grant recipients either graduate or transfer to four-year institutions of higher education. The Senate amendment makes a technical correction at section 413D(a)(1), pertaining to language for institutional base guarantee funding.

The House bill contains no similar provisions.

The Senate recedes.

Section 407. Leveraging Educational Assistance Partnership program

The Senate amends the program authorization without specifying authorization levels, but with a trigger amount (\$30,000,000) over which Leveraging Educational Assistance Partnership (LEAP) funding would go to Grants for Access and Persistence (GAP) (formerly Special Leveraging Educational Assistance Partnership (SLEAP)).

The House retains an authorization level for the first year (\$200,000,000) and a trigger amount for GAP (\$30,000,000).

The Senate amendment authorizes the program for fiscal year 2008–2013; the House bill for fiscal year 2009–fiscal year 2013.

The Senate recedes with an amendment to authorize \$200,000,000 for fiscal year 2009 and such sums as necessary for five succeeding years, with a reservation that for any fiscal year for which the amount appropriated exceeds \$30,000,000, the excess amount shall be available to carry out Section 415E.

The Senate amendment and the House bill raise the maximum LEAP grant to \$12,500 from \$5,000. The Senate caps the amount at the cost of attendance.

The House recedes.

The Senate amendment removes the requirement that non-federal matching funds for LEAP grants and work-study come only from direct state appropriations.

The House bill contains no similar provision.

The Senate recedes with an amendment to clarify that state funds do not need to be provided by "a direct appropriation."

The Senate amendment and the House bill add a requirement that states notify students that the grants are a part of LEAP and are funded by the federal government and the states. The Senate amendment allows other contributing partners to be listed in the notification as well.

The Senate recedes with an amendment to add the notification, where applicable, other contributing partners.

The Senate amendment and the House bill repeal the previous Special LEAP program and replace it with new "Section 415E. Grants for Access and Persistence" and set purposes for the program.

The Conferees adopt the provision as proposed by both the Senate and the House with an amendment to clarify that community-based organizations can be partners in the program.

The Senate amendment and the House bill require States to apply for GAP funds in partnerships with institutions of higher education and other organizations and determine the federal share based upon the share of students the partner institutions of higher education enroll. The Senate amendment sets the federal share at fifty percent if partner institutions of higher education enroll less than half of FTEs in the state and the House sets it at fifty-seven percent.

The Senate amendment sets the federal share at fifty-seven percent and the House bill sets it at 66.66 percent if partner institutions of higher education enroll more than half of full-time equivalent students in the state.

The Senate recedes.

The Senate amendment and the House bill include similar provisions regarding the non-federal share, except that the Senate amendment refers to the "required share" whereas the House bill specifies the minimum share from non-federal sources.

The Senate recedes.

The Senate amendment and the House bill have similar provisions for the submission of an application; however, the Senate amendment includes language for a State that desires to receive an allotment under this section on behalf of the partnership.

The Senate amendment and the House bill set grant amounts at: not less than the average tuition and fees for students in states with smaller partnerships that are using funds to create a new grant program; up the average cost of attendance for students in states with smaller partnerships that have an existing grant program and are using these funds to expand such program; and, equal to the average cost of attendance for students in states with larger partnerships.

The Senate recedes with an amendment to specify whether a student is in a four-year or two-year institution when establishing a grant amount.

The Senate amendment and the House bill contain provisions regarding partnerships with institutions of higher education serving the majority of students in the state, except that the Senate amendment allows states to determine whether or not students in their State can use GAP grants to attend schools in that State that are not partners in the partnership.

The House recedes.

The Senate amendment and the House bill contain an early notification provision which require states to notify low-income students in grades seven through twelve of their potential eligibility for financial aid, except that the Senate amendment explicitly defines such low-income students as those eligible under the Richard B. Russell National School Lunch Act.

The Senate recedes with an amendment to delete the reference to free and reduced price lunch.

The Senate amendment and the House bill contain similar provisions regarding the required content of notice. The Senate amendment and the House bill contain provisions regarding disclaimer notices to students.

The House recedes with an amendment to include in the disclaimer that grants may be based on state spending for higher education rather than appropriations.

The Senate amendment and the House bill contain provisions regarding student eligibility. Students are eligible for grants if they meet not less than two of the following criteria, with priority given to students meeting all of the following criteria: have an expected family contribution equal to zero or a comparable alternative based upon the State's approved criteria, has qualified for a free or reduced price lunch, is eligible for the State's maximum undergraduate award, is participating in, or has participated in, a Federal, State, institutional, or community early information and intervention, mentoring, or outreach program, as recognized by the State agency administering activities under this section, and is receiving, or has received, an access and persistence grant under this section.

Both the Senate and the House recede with an amendment to strike the requirement that students must have had to qualify for a free or reduced price lunch.

The Conferees adopt the provision as proposed by both the Senate and the House with an amendment to clarify that awards are estimated rather than tentative.

Recognizing the serious consequences of student loan default for the borrowers, it is the Conferees’ intent that institutions that exceed the cohort default rate threshold develop a comprehensive strategy to prevent current and former students from defaulting on their federal student loans. The Conferees intend for institutions to establish a default prevention task force that would bring together experts who can address the key components of successful default prevention strategies. For example, default prevention task forces may include representatives from the admissions office, the student aid office, student affairs, and the career and academic advising office. The House bill includes additional reporting requirements under paragraph (2). The House bill requires the Secretary to have a financial and compliance audit of all guaranty agencies participating under Part B, conducted annually by a qualified independent organization. The results of both audits must be submitted to Congress and be made publicly available.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment requiring the GAO to study the respective costs of the Direct Loan and FFEL programs in title XI of this bill.

Section 453. Guaranty agency responsibilities and payments; reports and cost estimates

the authority given her in the Ensuring Continued Access to Student Loans Act, the guaranty agency that previously insured such loan shall cease to have any rights or responsibilities with respect to such loan. The guaranty agency shall maintain a right to a payment they have earned for any activity carried out up to such date.

The Conferees require that the Secretary provide to Congress detailed implementation and budget and cost information on the student loan purchase program authorized under the Ensuring Continued Access to Student Loans Act. The budget and cost information is required to be reported separately for the loan purchase and participation interest purchase programs and reported in a manner that is comparable to that included in the President's budget request for Part B and Part D loans.

Section 454. Loan cancellation for teachers

The Conferees clarify that teachers employed by an educational service agency are eligible for teacher loan forgiveness program in Section 460 of the Higher Education Act.

PART E—FEDERAL PERKINS LOANS

Section 461. Extension of authority/program authority

The Senate amendment authorizes the appropriation of such sums as may be necessary for federal capital contributions for the Federal Perkins Loan program at such sums as may be necessary for fiscal year 2008 through fiscal year 2012.

The House bill authorizes the appropriation of \$350,000,000 for the federal capital contributions for the Federal Perkins Loan program for fiscal year 2009, and such sums as may be necessary for the four succeeding fiscal years (through fiscal year 2013). The House bill extends the authorization of appropriations for federal capital contributions, in the amount of such sums as may be necessary for fiscal year 2014 through fiscal year 2019, to enable students receiving Perkins Loans for academic years ending prior to October 1, 2014, to continue or complete their courses of study.

The Senate recedes with an amendment to authorize appropriations of \$300,000,000 for fiscal year 2009 and for each of the five succeeding fiscal years and extends the authorization of appropriations for federal capital contributions, in the amount of such sums as may be necessary for fiscal year 2014 through fiscal year 2019, to enable students receiving Perkins Loans for academic years ending prior to October 1, 2014, to continue or complete their courses of study.

Section 462. Allowance for books and supplies

The Senate amendment and the House bill increase the allowance for books and supplies used in calculating each institution of higher education's average cost of attendance for purposes of allocating federal capital contributions to institutions of higher education according to "fair share" allocation procedures from \$450 to \$600.

The Conferees adopt the provision as proposed by both the Senate and the House.

Section 463. Agreements with institutions

The House bill amends Federal Perkins Loan program agreements between the Secretary and institutions of higher education to provide that if an institution of higher education has not knowingly failed to maintain an acceptable collection record with respect to a defaulted Perkins Loan, the Secretary may allow the institution of higher education to refer the loan to the Secretary, without recompense, except that the amount collected shall be repaid to the referring institution of higher education within 180 days of collection and shall be treated as an additional federal capital contribution. The

House bill adds language to limit the authority of the Secretary to require the mandatory assignment of Perkins Loans.

The Senate amendment contains no similar provisions.

The Senate recedes.

The Conferees note that the Secretary of Education lacks the authority under this section to require assignment of defaulted Perkins loans. Furthermore, it is the intent of the Conferees that any funds collected from defaulted Perkins loans, including loans that have been assigned to the Department of Education for additional collection activities, be returned to the institution's revolving fund and available for new loans to future students.

The Conferees intend to prohibit administrative measures that would weaken the program by reducing the Perkins Loan funds available to lend to students. For this reason, the Conferees agreed to provisions clarifying that the Secretary is only permitted to require the assignment of defaulted Perkins Loans to the Secretary when an institution of higher education has knowingly failed to maintain collection records. The fact that a loan has been in default for any period of time does not mean that the institution has failed to perform due diligence in its collection and is not grounds for the Secretary to require the assignment of the loan.

Section 464. Perkins loan terms and conditions

The House bill increases annual Perkins Loan limits from \$4,000 to \$5,500 for undergraduate students; and from \$6,000 to \$8,000 for graduate and professional students. The House bill increases aggregate Perkins Loan limits from \$40,000 to \$60,000 for graduate and professional students; from \$20,000 to \$27,500 for undergraduate students who have completed two years of study; and from \$8,000 to \$11,000 for all other students.

The Senate amendment contains no similar provisions.

The Senate recedes.

The Conferees adopt a provision to make the death or disability discharge of Perkins loans consistent with how a loan is discharged in the loan programs in Parts B and D.

The Senate amendment and the House bill remove the requirement that borrowers of Perkins Loans request forbearance in writing and require that the terms of forbearance agreed to by the borrower and the lending institution of higher education must be documented and recorded in the borrower's file and amend a cross-reference regarding forbearance and the Armed Forces Student Loan Interest Payment Program.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to add dependent care expenses to the list of circumstances in which a financial aid administrator may make adjustments and also clarifies that a student’s dislocated worker status shall be considered, in addition to dependent students and parents dislocated worker status, as defined in the Workforce Investment Act. In addition, the discretion of financial aid administrators is expanded to enable them to offer unsubsidized Stafford loans to dependent students whose parents do not support them and refuse to complete a Free Application for Federal Student Aid (FAFSA).

plification may include the sharing of data between the IRS and the Department of Education pursuant to the applicant’s permission.

The House bill specifies that “total income” with respect to dislocated workers is equal to estimated untaxed income and benefits for the current tax year minus estimated excludable income for the current year.

The Senate amendment contains no similar provision.

The House recedes.

erences to statutory authority, applicable regulations.

The Conferees adopt the provisions as proposed by both the Senate and the House with an amendment to add an effective date of July 1, 2010.

Section 483. Improvements to paper and electronic forms and processes

The Senate amendment includes provisions pertaining to common financial aid forms. The House bill includes provisions pertaining to common financial aid forms that are primarily the same as the Senate amendment’s provisions, however, the House bill also specifies that: the application is for applying and reapplying to determine need, and the Secretary shall work to make the FAFSA consumer-friendly, and make the application available in formats that are accessible to individuals with disabilities.

The Senate recedes.

The Senate amendment and the House bill require the Secretary to maintain a paper version of the FAFSA. The Senate amendment requires the Secretary to encourage applicants to file the electronic version of the application.

The House recedes.

The Senate amendment and the House bill require the Secretary to develop an EZ FAFSA for individuals eligible for automatic-zero expected family contribution (auto-zero EFC). The House bill also includes individuals who are eligible for simplified needs test (SNT).

The Senate recedes with an amendment that the Secretary shall use the simplified paper application form after appropriate field testing.

The Senate amendment and the House bill require that the form contain only elements necessary to determine student eligibility for federal student aid if such applicant is eligible for auto-zero EFC. The House bill also extends this provision to applicants eligible for SNT.

The Senate recedes.

The Senate amendment and the House bill include a provision that requires the Secretary to include State data items necessary to award State financial assistance, unless that State does not permit use of the EZ FAFSA.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment and the House bill include a provision regarding free availability and processing of the EZ FAFSA. The House bill further states that the data collected from the EZ FAFSA shall be available to institutions of higher education, guaranty agencies and states.

The Senate recedes.

The Senate amendment states that the Secretary shall phase out printing the full paper FAFSA at such time as it is determined to not be cost effective. Additionally, the Secretary is required to maintain an easily accessible, downloadable paper version and provide a printed version of the full FAFSA upon request.

The House bill requires that an easily accessible version be made available, but specifies that it must be made available on the same website used to provide students with the electronic form.

The Senate and the House recede with an amendment to require the Secretary to maintain the FAFSA in a printable form and provide a printed copy of the full paper version of FAFSA upon request.

The House bill requires the Secretary to report annually to Congress the impact of the digital divide on students applying for Title IV aid. The Secretary’s report must specifically address the impact on independent and dependent students as well as

those students who are traditionally under-represented.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to require the Secretary to maintain the data and report the information periodically, rather than annually.

The Senate amendment and the House bill require the Secretary to produce and make available an electronic version of the FAFSA and to develop a simplified electronic application for auto-zero EFC eligible students. The House bill extends this eligibility to those eligible for simplified needs test.

The Senate amendment and the House bill require the Secretary to include space on the electronic form for State data, except that a student shall be required to enter data only for his/her State.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment and the House bill include a provision regarding data availability. The House bill also requires that the data shall be made available to institutions of higher education, guaranty agencies and States.

The Senate recedes.

The Senate amendment and the House bill include a provision regarding privacy and data confidentiality.

The Senate recedes with an amendment to strike the reference to State aid awarded under the LEAP program.

The Senate amendment and the House bill contain similar provisions regarding the use of electronic signatures.

The Senate recedes with an amendment to add language that the Secretary may "continue to" permit an electronic form to be completed without a signature if a signature is subsequently submitted or if a Personal Identification Number (PIN) is used.

The Senate amendment permits the Secretary to assign PINs to applicants to allow applicants to sign the electronic version of the FAFSA. The House has the same provision, except that it specifies that the PIN can be used in lieu of a signature for forms required by the LEAP program.

The House recedes with an amendment clarifying that the Secretary "may continue to" assign PINs.

The Senate amendment and the House bill include similar provisions regarding PIN improvement, but the Senate amendment specifies that a real time data match must be implemented within 180 days following enactment.

The Senate recedes with an amendment to require the Secretary to "continue to work with" the Social Security Administration to minimize the time it takes for a student to obtain a PIN.

The House bill states that the Secretary shall work to reduce the number of data elements entered by all applicants by fifty percent. The House bill further specifies that the Secretary must submit a report on the reduction process to each of the authorizing committees two years after enactment.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to: use the number of data elements on the FAFSA from the 2009-2010 academic year as the baseline to be reduced by fifty percent; insert language that the Secretary's efforts, in cooperation with representatives from other agencies and organizations, be consistent with other provisions in this section; strike the language exempting form development required under this Act from the reduction goal; and to include a date by which the report shall be submitted.

The Senate amendment specifies that the number of state items on the form shall not be less than the number of items in award year 2005-2006. The House bill specifies that the number of state items shall not be less than the number of items in award year 2008-2009.

The House recedes with an amendment to change the award year to 2008-2009.

The Senate amendment requires the Secretary to review the data annually to determine which items a State needs to award need-based aid and whether the State permits an applicant to file a simplified form.

The House bill requires the Secretary to conduct an annual review of the forms and non-financial data States require to award need-based aid.

The House recedes.

The House bill requires the Secretary to publish an annual notice in the Federal Register requiring States to inform the Secretary what State-specific data are required to deliver State need-based aid and if the State does not permit applicants to use a simplified form.

The Senate amendment contains no similar provision.

The Senate recedes.

The House bill requires States to notify the Secretary if the State permits applicants to file a form for the purposes of determining eligibility and of the State-specific non-financial data the State requires for delivery of need-based aid.

The Senate amendment contains no similar provision.

The House recedes.

The Senate amendment requires that if a State does not permit applicants to use a simplified form the Secretary may decide not to include the State's questions on the FAFSA.

The House bill requires the States that do not permit applicants to use a simplified form due to State law or agency policy to notify the Secretary. The State must also include an estimate of the costs associated with the use a simplified form. The House bill requires that State applicants for LEAP notify the Secretary if the use of a simplified form is permitted.

The House recedes.

Both the Senate and the House recede with an amendment to specify that no data collected on a form for which a fee is charged shall be used to complete the form prescribed under this section, other than a Federal or State income tax form prepared by a paid income tax preparation service for the primary purpose of filing a Federal or State income tax return.

The Senate amendment restricts the use of the applicant's PIN by select entities.

The House bill contains no similar provision.

The House recedes.

The Senate amendment requires the Secretary to permit students to complete the FAFSA as early as practicable prior to January 1 of the student's planned year of enrollment.

The House bill states that students should be able to complete the FAFSA as early as

practicable prior to October 15 in the year prior to the student's planned year of enrollment.

The House recedes.

The Senate amendment and the House bill state that the Secretary shall develop the means to provide students with an early estimate of their financial aid eligibility. The House bill further states that the Secretary must notify applicants that the EFC is subject to change.

The Senate recedes with an amendment to require the Secretary to consult with representatives of States, institutions of higher education and other individuals with experience in student financial aid processes in making updates to forms used to provide early estimates.

The Senate amendment provides that FAFSA data shall be provided to institutions of higher education, guaranty agencies and states without charge. The Senate amendment provides private organizations and consortia that develop software used by Title IV participating institutions of higher education the necessary specifications to produce and distribute software. The Senate amendment authorizes the Secretary to include space for parent's social security number and date of birth on the FAFSA.

The Senate amendment requires the Secretary to test and implement a toll free telephone number for the FAFSA application system.

The House bill contains no similar provision.

The House recedes with an amendment to: strike the requirement that the Secretary test the system not later than two years after the date of enactment of this act; add in language that the Secretary shall "continue to implement" the toll-free telephone based system; and make the submission of applications over this system a separate activity by adding "and (b)" before it.

The Senate amendment authorizes applicants to use a preparer for consultative or preparer services. Any entity that provides any value-added service such as completion or submission of the FAFSA shall provide a clear and conspicuous notice that the FAFSA is free, can be completed without professional assistance, and provide a link to the Department of Education's website. Also, the Senate amendment specifies that the provider cannot charge recipients who qualify for SNT or auto-zero EFC.

The House bill states that any entity that provides any value-added service such as completion or submission of the FAFSA shall provide notice that the FAFSA is free; can be completed without professional assistance; and provide a link to the Department of Education's website.

The House recedes with the amendment that: states that the preparer's identification information is required if a fee is charged for the services; the preparer providing services must clearly inform each individual that the forms are free and may be completed without professional assistance; modifies the language that the FAFSA and EZ FAFSA are free forms that may be completed via paper or electronically; strikes subpart (E) which refers to not charging any fee to any individual who meets specified requirements; and specifies that a preparer is subject to the same penalties as an applicant for purposely giving false or misleading information in the application.

The Senate amendment and the House bill include an early application and demonstration program to determine the benefits and costs of early notification. The House bill's purpose is more detailed.

The Senate recedes with an amendment to title this provision "Early Application and Estimated Award Demonstration Program."

The Senate amendment implements the early application demonstration program within two years of the enactment of this Act. The Senate amendment also states that for all of the dependent students who participate in the demonstration program, those who are also auto-zero EFC eligible shall be provided with an EFC and Pell Grant award amount for the first year.

The House bill contains a similar provision that provides an estimated EFC and aid award for all students.

The House recedes with amendments that: modify the requirement that the Secretary provide each student with "an estimated award"; and strike the requirement that the Secretary provide estimates to students who do not meet the requirements.

The Senate amendment and House bill include provisions identifying participants. The Senate amendment specifies that the secondary school must commit select resources and participate in an evaluation.

The House recedes.

The Senate amendment specifies that the application must contain certain assurances, such as the amount of state need-based aid available, a commitment to provide actual awards and estimates, and a plan to recruit institutions of higher education.

The House bill contains a comparable provision regarding the application process for the demonstration program, but does not include the Senate's specific assurances.

The House recedes with amendments to the application requirements: clarify that the information provided is an estimate rather than an award determination; all participating dependent students must receive estimated awards; State applications must include a plan to select institutions of higher education and postsecondary schools that to the extent possible serve different populations are of varying types "and sectors" (rather than "control").

The Senate amendment grants the Secretary the authority to waive requirements for an institution of higher education to participate in the demonstration program.

The House bill contains no similar provision.

The House recedes.

The Senate amendment requires the Secretary to conduct an evaluation of the demonstration program.

The House bill includes a similar, but less detailed provision.

The House recedes with an amendment to include a description of the extent to which estimated awards differ from actual awards made to students participating in the program.

The Senate amendment and the House bill have a provision requiring the Secretary to consult with the Advisory Committee on Student Financial Assistance in implementing the pilot program.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment requires the Comptroller General and the Secretary, in consultation with a study group, to design and conduct a study to identify and evaluate the means of simplifying the process of applying for Federal student financial aid. The Secretary, with the Secretary of the Treasury, may use Internal Revenue Service data to pre-populate the FAFSA if such use would not negatively impact students, institutions, states or the federal government.

The House bill includes a provision that expresses the Sense of the Congress that the Department of Education and the Secretary of Treasury should work together to develop a process by which the Department of Edu-

cation would be able to obtain student's financial information from the IRS, with the student's permission, to assist with completing the FAFSA.

The House recedes with an amendment that directs the Secretary to continue current FAFSA simplification efforts, in cooperation with the Internal Revenue Service, and to report on efforts to date. In addition, the Comptroller General is to convene a group to study additional simplification of the financial aid application process, using the current statutory requirements, and to identify changes to the need analysis formula that will be necessary to reduce the amount of financial information students and families need to provide to receive a determination of an eligibility for student financial aid.

The Conferees intend that, in evaluating the impact of using income from the year that is two years prior to a student's enrollment on the ability of States and institutions to make financial aid awards and commitments, the Secretary should assess the overall application burden on students and families applying for all types of aid, and any additional costs to States and institutions. The Conferees recognize one of the advantages of the current FAFSA application and process is that it is used by many States and institutions to award State and institutional aid in addition to Federal aid. Students and families would not be well served if the application and award process for Federal student aid were simpler, but the application and award process for State and institutional aid became more cumbersome.

The Senate amendment and the House bill include similar provisions to require the Secretary to use the savings produced by not printing the full paper FAFSA to improve access to the electronic forms for low-income students.

The Senate recedes.

Section 484. Model institutions financial aid offer form

The House bill directs the Secretary to report on the adequacy of the financial aid offer forms provided by institutions of higher education to students and their families. The report should include a model financial aid offer form which includes: cost of attendance the amount of aid that does not have to be repaid, and types and amounts of loans, for which the student is eligible.

The Senate amendment contains no similar provision.

The Senate recedes with amendments to: direct the Secretary to convene a group for the purpose of offering recommendations to improve financial aid offer forms; include additional individuals on the list of members of the group; and modify the contents of the form.

Section 485. Student eligibility

The House bill eliminates the exemption for students from the Republic of the Marshall Islands and the Federated States of Micronesia from providing their social security number when applying for federal student aid.

The Senate amendment contains no similar provision.

The Senate recedes.

The Senate amendment allows institutions to determine that a student has the ability to benefit from postsecondary education if the student satisfactorily completes six credit hours or the equivalent coursework applicable toward a degree or certificate offered by the institution of higher education.

The House bill contains no similar provision.

The House recedes.

The House bill specifies that the provision of assistance to students from the Republic

of Palau only applies for federal student aid under Title IV subpart 1 of Part A and would expire September 30, 2009.

The Senate amendment contains no similar provision.

The Senate recedes.

The Senate amendment and the House bill make several updates to change "telecommunications" to "distance education" to be consistent with the newly added definition of distance education; update the reference to postsecondary vocational institutions to reflect the reauthorization of the Perkins Career and Technical Education Act in 2006.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The House bill allows a student who has lost student aid eligibility due to a drug conviction that complies with requirements established by the Secretary to regain eligibility for Title IV aid if the student successfully passes two unannounced drug tests conducted by a drug rehabilitation program.

The Senate amendment contains no similar provision.

The Senate recedes.

Currently, students lose their eligibility for federal student financial aid if they were convicted for the sale or possession of drugs while receiving such aid. This provision does not affect the eligibility of students who may have been arrested prior to the start of their first year of college, or who were arrested during any period where they were not receiving federal student aid. Current law provides mechanisms by which students may regain their eligibility for federal student financial aid.

The Conferees believe that the Department of Education and institutions of higher education should take steps to ensure that students understand the implications and provisions of section 484(r). As currently worded, the "drug penalty" question on the FAFSA may serve as a barrier to completing the form, as students may not understand the scope of the prohibition. Data from the Department of Education show that in the 2007-2008 award year, at least 15,700 students initially filled the form out in such a way that they would have been ineligible for financial aid for at least part of the academic year. Upon further review and revision of these applications, approximately 5,400 students were deemed ineligible for aid-thirty-four percent of those originally deemed ineligible for aid.

The Conferees believe that the Department of Education should immediately re-word the question on the FAFSA form in order to more accurately reflect the provision.

Furthermore, the Conferees encourage the Department of Education to take steps to ensure the integrity and privacy of the drug tests used by students to regain eligibility. Such drug testing should utilize only highly-reliable methods conducted by qualified drug rehabilitation programs.

The Senate amendment permits students with intellectual disabilities to receive Pell grants, FSEOG, and Federal Work Study under certain circumstances.

The House bill includes similar provisions.

The Senate recedes with an amendment to limit the waivers the Secretary can provide to implement this section.

The Conferees intend to provide eligibility to students with intellectual disabilities attending any inclusive comprehensive transition and postsecondary program for students with intellectual disabilities as defined by this Act, including but not limited to students attending programs participating in grants authorized under subpart 2 of Title VII of this Act, provided that such students meet the eligibility criteria described in this section.

The House bill requires the Secretary, in consultation with the Central Processing

System, to analyze data from the FAFSA containing information regarding the number, characteristics, and circumstances of students denied Federal student aid based on a drug conviction while receiving Federal aid.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to strike "in consultation with the Central Processing System."

The Conferees expect the Secretary to work with the Central Processing System in developing the report or access to federal student aid for certain populations as required in this section. The Conferees understand that, as Congress continues to examine the issue of drug-related student eligibility, it is critical to have full information about the impact of the provision. The Conferees intend that the information collected, analyzed, and made available to the public under this section will provide an understanding of the demographic background of the students excluded from federal aid by the drug prohibition, the nature of the offenses underlying the exclusion, and other characteristics of such students that may better inform the work of Congress as it continues to examine the issue of drug-related student eligibility.

Section 486. Statute of limitations and state court judgments

The Senate amendment and the House bill specify that for the Perkins Loan program, institutions shall not be subject to a defense raised by a borrower on the basis of a claim of infancy under state law.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment provides that obligations to repay loans and grant overpayments, costs and other charges on defaulted loans, and state court judgments shall not apply in the case of deceased student or a deceased student's estate. Neither a deceased student's estate nor the estate of a deceased student's family shall be required to repay any Title IV financial assistance, nor interest, collection costs, or other charges.

The House bill contains no similar provision.

The House recedes.

Section 487. Readmission requirements for service members

The House bill requires any institution of higher education that requires a student, who is a member of the Armed Forces or a member of the Armed Forces in retired status, whose attendance is interrupted by a call or order to active duty to subsequently reapply for readmission at the time of the conclusion of active duty to justify this requirement in writing to the Secretary.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to establish a standard process for students who are required to leave an institution because they have been called to active duty to reenroll at the institution in the same academic standing the student had before leaving the institution. Such process is modeled after the process established for servicemembers to return to employment after serving on active duty in the Uniformed Services Employment and Reemployment Rights Act.

Section 488. Institutional and financial assistance information for students

The Senate amendment requires each institution of higher education to make available to current and prospective students information about its plans for improving the academic program of the institution of higher education.

The House bill contains no similar provision.

The House recedes with an amendment to make a technical change.

The Senate amendment alters the requirement that institutions make available to current and prospective students the terms and conditions under which students receive Federal Family Education Loan and Direct Loan to also include Perkins Loans.

The House bill contains no similar provision.

The House recedes.

The Senate amendment and the House bill require institutions to make available to current and prospective students the institution of higher education's policies and sanctions related to copyright infringement, including a description of actions taken by the institution of higher education to detect and prevent the unauthorized distribution of copyrighted materials on the institution of higher education's technology system.

Both the Senate and the House recede with an amendment to replace language in (iv) with language requiring institutions to make available the development of plans to detect and prevent unauthorized distribution of copyrighted material on the institution of higher education's information technology system which shall, to the extent practicable, include offering alternatives to illegal downloading or peer-to-peer distribution of intellectual property, as determined by the institution of higher education in consultation with the Chief Technology Officer or other designated officer of the institution.

The Conferees have combined elements from both bills to require institutions to advise students about this issue and to certify that all institutions have plans to combat and reduce illegal peer to peer file sharing.

Experience shows that a technology-based deterrent can be an effective element of an overall solution to combat copyright infringement, when used in combination with other internal and external solutions to educate users and enforce institutional policies.

Effective technology-based deterrents are currently available to institutions of higher education through a number of vendors. These approaches may provide an institution with the ability to choose which one best meets its needs, depending on that institution's own unique characteristics, such as cost and scale. These include bandwidth shaping, traffic monitoring to identify the largest bandwidth users, a vigorous program of accepting and responding to Digital Millennium Copyright Act (DMCA) notices, and a variety of commercial products designed to reduce or block illegal file sharing.

Rapid advances in information technology mean that new products and techniques are continually emerging. Technologies that are promising today may be obsolete a year from now and new products that are not even on the drawing board may, at some point in the not too distant future, prove highly effective. The Conferees intend that this Section be interpreted to be technology neutral and not imply that any particular technology measures are favored or required for inclusion in an institution's plans. The Conferees intend for each institution to retain the authority to determine what its particular plans for compliance with this Section will be, including those that prohibit content monitoring. The Conferees recognize that there is a broad range of possibilities that exist for institutions to consider in developing plans for purposes of complying with this Section.

Numerous institutions are utilizing various technology based deterrents in their efforts to combat copyright infringement on their campuses. According to a report of the Joint Committee of the Higher Education and Entertainment Communities, many institutions of higher education have taken

significant steps to deal with the problem. Indiana University, for example, hosts an extensive "Are you legal?" educational campaign for students on the issues, and enforces campus policies on proper use of the network. It acts on DCMA notices by disconnecting students from the network and requires tutorials and quizzes to restore service. Second offenders are blocked immediately and are sent to the Student Ethics Committee for disciplinary action.

Audible Magic's CopySense Network Appliance provides comprehensive control over Peer-to-Peer (P2P) usage on a university's network. The CopySense Appliance identifies and blocks illegal sharing of copyrighted files while allowing other legitimate P2P uses to continue. It filters copyrighted P2P content by sensing an electronic fingerprint unique to the content itself, which is very similar to the way virus filters operate.

Red Lambda's "Integrity" is a network security solution dedicated to the management of file-sharing activities via protocols like P2P, IM, IRC, and FTP. This technology is able to detect all P2P, OS file-sharing, FTP, IM, proxy use, Skype and application tunneling over HTTP, HTTPS, DNS and ICMP protocols.

The University of Maryland, College Park, severely restricts bandwidth for residential networks and block certain protocols. It designed "Project Nethics" to promote the responsible use of information technology through user education and policy enforcement. A third violation can result in eviction from the university housing system. Montgomery College in Maryland enforces an Acceptable Use Policy on its wired and wireless networks.

Additional existing technological approaches can deter illegal file sharing by automatically processing notices sent by scanning vendors then taking actions such as messaging the user via browser redirection, applying the appropriate sanction and automatically re-enable browsing after a timeout or reconnect fee is paid. Other institutions use technology to appropriately manage their campus networks by limiting and/or shaping bandwidth, such as Packeteer's packet shaping technology.

The Senate amendment requires institutions to make available to current and prospective student's information on student body, diversity, the placement in employment and types of employment obtained by graduates, the institutions report on fire safety, and the retention rate of certificate or degree-seeking, full-time undergraduate students.

The House bill contains no similar provision.

The House recedes.

The House bill requires institutions to make available to current and prospective students their policies regarding meningococcal vaccinations.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to clarify that institutions shall disclose policies on all vaccinations, not only meningococcal vaccinations. The Conferees note that institutions of higher education should have a policy on vaccinations of students. Of particular concern are the recent outbreaks of meningitis on college campuses. The Center for Disease Control's Advisory Committee on Immunization Practices has reported that college freshmen, especially those who live in dormitories, are at a modestly increased risk for meningococcal disease compared with other persons of the same age. There are nearly 3,000 cases of meningococcal disease every year in the U.S. According to the Centers for Disease Control and Prevention between ten and twelve percent of the cases are fatal (about 300 to 360).

Among those who survive meningococcal disease, approximately twenty percent suffer long-term consequences, such as brain damage, kidney disease, hearing loss or limb amputations.

The Senate amendment and the House bill allow an institution of higher education to adjust the calculation of completion and graduation rates for certain students. Under the Senate amendment and the House bill, if the number of students who leave school to serve in the Armed Forces, on official church missions, or with a recognized foreign aid service of the Federal government represent twenty percent or more of certificate- or degree-seeking, full-time undergraduate students, the institution of higher education may exclude the time such students were not enrolled from the calculation.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment requires institutions to disaggregate data on completion and graduation rates based on student gender, race/ethnicity, and receipt of a Pell Grant, receipt of specific federal loans but not a Pell Grant, and non-receipt of a Pell Grant or specific federal loans. The Senate amendment does not require the disclosure of data if reporting would not yield statistically reliable information or would reveal personally identifiable information.

The House bill contains no similar provision.

The House recedes.

The Conferees believe that the disaggregation of completion and graduation rates of students attending institutions of higher education, as specified under section 485 (a)(7), will yield important information regarding the degree to which different types of students are completing postsecondary education programs. The Conferees acknowledge that two-year degree-granting institutions of higher education face unique considerations in reporting such data, because these institutions often enroll students for purposes beyond certificate and degree programs. Two-year institutions should not be exempt from reporting completion and graduation rates. However, the Conferees believe it is appropriate for the Secretary to assist these institutions in reporting such data accurately and, if necessary, to develop supplemental measures of success that take into consideration the multiple missions and the varied needs and goals of the individuals who attend two-year institutions and the communities such institutions serve. The group required to be convened under section 485(a)(7)(B) is meant to achieve that goal.

The Senate amendment requires institutions of higher education to offer specific disclosures during a required exit counseling session to borrowers of loans made, insured, or guaranteed under Parts B, D, or E but excludes PLUS Loans and Consolidation Loans.

The House bill contains no similar provisions.

The House recedes with an amendment to reorder the provisions in the section to reduce redundancy, clarify that information on repayment plans shall include the average anticipated monthly repayments under each plan, specify that a general description of loan forgiveness provisions be included, along with a copy of information provided by the Department and add that borrowers must be informed of the consequences of default on loans including adverse credit reports, federal offset, and litigation.

The Senate amendment requires institutions to provide borrowers with a clear and conspicuous notice describing the general effects of using a consolidation loan to discharge a borrower's student loans. The House bill contains no similar provision.

The House recedes.

The Senate amendment amends a requirement for the Secretary to compile and disseminate information on State and other prepaid tuition and savings programs to require the Secretary to also compile and disseminate information on State grant assistance programs. The Senate amendment also requires the Secretary to disseminate such information through means including the Internet.

The House bill contains no similar provision.

The Senate recedes.

The Senate amendment and the House bill add new provisions related to the calculation of completion and graduation rates of student athletes. Under the Senate amendment and the House bill, if students who leave school to serve in the Armed Forces, on official church missions, or with a recognized foreign aid service of the Federal government represent more than twenty percent or more of certificate- or degree-seeking, full-time undergraduate students, the institution of higher education may exclude the time such students were not enrolled from the calculation.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment and the House bill exclude foreign institutions from having to disclose their campus security policies and campus crime statistics.

The Conferees adopt the provision as proposed by both the Senate and the House.

The House bill amends the Clery Act to require greater coordination between campus security and local law enforcement.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to clarify the requirement for greater transparency in the relationship between campus security personnel and State and local law enforcement agencies, including whether institutions have agreements with such agencies, such as written memoranda of understanding, for the investigation of alleged criminal offenses.

It is the intent of the Conferees that the amendments made to this section will help protect students and personnel on campuses.

The House bill adds four crimes to the list of crimes an institutions must report as "hate crimes" in cases where the victim is intentionally selected because of their actual or perceived race, gender, religion, sexual orientation, ethnicity or disability.

The Senate amendment contains no similar provision.

The Senate recedes.

The Conferees believe that this change will facilitate uniformity in campus crime reporting to both the Department of Education and the FBI's Uniform Crime Reporting (UCR) Program, the voluntary national crime data collection program based on the submissions of more than 17,000 city, county, state, tribal, and federal law enforcement agencies. Each of the offense types required under this section is already an integral part of the FBI UCR crime data reporting program.

To increase awareness of hate crimes on college campuses, the 1998 amendments to the Higher Education Act required all colleges and universities to collect and report hate crime statistics to the Office of Postsecondary Education (OPE) of the Department of Education. The Department of Education utilized the definition of hate crime developed by the FBI, but the criminal offenses required to be reported did not match the existing FBI crime categories. The current HEA crime category omissions have resulted in critical gaps in OPE data, as well as discrepancies and substantial inconsistencies between FBI and OPE hate crime sta-

tistics. The Conferees intend for this provision to provide parents and students a more accurate sense of campus safety by making the crime categories required to be reported to the Department of Education parallel those collected by the FBI's UCR Program and published in its annual publications.

The Senate amendment and the House bill require institutions to make available to current and prospective students a statement of current campus policies regarding immediate emergency response and evacuation procedures to notify the campus community of a significant emergency or dangerous situation that poses a threat to students or staff.

The Conferees adopt the provision as proposed by both the Senate and the House.

Both the Senate amendment and House bill change current disclosure requirements for campus safety policies and procedures. The Senate amendment and House bill have similar requirements for institutions notifying the campus community in the event of a significant emergency.

The Conferees adopt the provisions as modified, with an amendment to require institutions to publish their procedures to immediately notify the campus community upon the confirmation of a significant emergency or dangerous situation, unless issuing such notification would compromise efforts to contain the emergency. The amendment also provides that notifications should be made for emergencies on campus as defined by the Clery Act.

The Conferees intend that each institution's statement of emergency policy should clearly articulate a method to promptly determine whether incidents pose an immediate threat to the health or safety of students or staff. This policy statement should include a method, or methods, to initiate dissemination of the required emergency notifications immediately and without any delay following a professional determination by law enforcement or other authorities that an emergency exists. The Conferees believe it is important that the Department be informed by past demonstrated ability of institutions to take immediate action in the face of campus emergencies in developing any regulations related to this provision. Recent examples include:

Florida Atlantic University on April 30, 2008—A shooting incident was reported at 1:16 AM, 26 minutes later alerts were sent out to the campus community, sirens, public address systems and Reverse 911 systems were activated. A follow-up e-mail was sent to the campus community at 2 AM.

Ferrum College (VA) on February 26, 2008—A sighting of a man with a gun was reported at 7:29 AM, 11 minutes later sirens were activated, and by 7:54 a text alert went out to the campus community with additional details concerning the emergency.

Northern Illinois University on February 14, 2008—A multiple shooting incident was reported at 3 PM, and 20 minutes later an alert was posted to the institution's web site.

Because of the importance of informing students and staff of immediate threats to their safety, notification should only be withheld if it is in the professional determination of law enforcement that issuing the notice would put the community at greater risk, and in such a case notice should be withheld for as short a period as possible.

The Conferees recognize that emergencies are volatile, fast-moving and unpredictable events that can encompass a range of natural and man-made situations, from campus fires to the presence of shooting suspects on campus. As such, the Conferees intend that institutions may rely upon the initial known facts of a situation in crafting and disseminating notifications that are timely, accurate and useful to appropriate segments of

the campus community. The Conferees also do not intend to hold institutions responsible for the failure of local law enforcement or other emergency response personnel to provide them with information, or other circumstances beyond their control that may delay the delivery of emergency notifications.

The Conferees intend that institutions should publicize to all students and staff their emergency response and evacuation procedures, both in their annual security report and separately at least once each calendar year as a part of the required test of such procedures. When an emergency happens time is of the essence so it is critical that students and staff know where to turn for information and what to expect.

The Senate amendment and the House bill require the Secretary to report annually to authorizing committees regarding institutions' compliance with this subsection and on the Secretary's monitoring of this compliance. The Senate amendment and the House bill permit the Secretary to seek guidance from the Attorney General regarding the development and dissemination of information to institutions about best practices related to campus crime and safety.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The House bill prohibits an institution of higher education or its employees, offices, or agents from intimidating, threatening, coercing, or otherwise discriminating against an individual for the purpose of interfering with the implementation of this subsection, or any rights or privileges accorded under the is subsection, or because the individual has participated in an investigation, proceeding, or hearing.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to include a rule of construction indicating that nothing in this subsection shall be construed to permit a participating institution or their agent to retaliate, intimidate, threaten, coerce, or otherwise discriminate against any individual with respect to the implementation of any provision of this subsection.

The Senate amendment and the House bill require each institution of higher education participating in Title IV to publicly disclose its current transfer of credit policies, which must include the disclosure of any criteria used by the institution of higher education to evaluate the transfer of credit earned at another institution of higher education and a list of the institutions with which the institution of higher education has established an articulation agreement.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The Senate amendment and the House bill specifically state that nothing in this subsection authorizes the Secretary or the Accreditation and Institutional Quality and Integrity Advisory Committee (Senate amendment) or NACIQI (House bill) to require particular policies, procedures, or practices by institutions with respect to transfer of credit. The Senate amendment and the House bill specifically state that nothing in this section authorizes an officer or employee of the U.S. Department of Education (ED) to exercise any direction, supervision, or control over the curriculum, instruction, administration, or personnel at any institution of higher education or over any accrediting agency, limits the application of the General Education Provisions Act, or creates a legally enforceable right on the part of a student to require an institution of higher education to accept a transfer of credit.

The Senate recedes.

The Senate amendment and the House bill require institutions to report and make public an annual fire safety report.

The House recedes with an amendment to require the Secretary to make policies public, including the installation of fire detection and prevention technologies in student housing, dormitories, and other buildings.

The House bill prohibits an institution of higher education or its employees, offices, or agents from intimidating, threatening, coercing, or otherwise discriminating against an individual for the purpose of interfering with the implementation of this subsection, or any rights or privileges accorded under the is subsection, or because the individual has participated in an investigation, proceeding, or hearing.

The Senate amendment contains no similar provision.

The House recedes.

The House bill requires institutions of higher education to implement procedures for managing reports of missing persons.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to specify that institutions of higher education must establish a policy for students who reside in on-campus housing that includes a notification to the student that the institution of higher education is required to notify a parent or guardian twenty-four hours after the time that the student is deemed to be missing in accordance with official notification procedures established by the institution of higher education.

The House bill requires institutions of higher education to provide each student, upon enrollment, with a "separate, clear, and conspicuous written notice" that provides information on the penalties associated with drug-related offenses.

The Senate amendment contains no similar provision.

The Senate recedes.

The House bill requires institutions of higher education to provide each student, within two weeks of being notified by the Secretary that the student has been convicted of a drug-related offense that resulted in the loss of eligibility for Title IV aid, with a "separate, clear, and conspicuous written notice" that notifies the student of the loss of Title IV eligibility and discusses ways to regain Title IV eligibility.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to require each student who has lost eligibility for any grant, loan, or work-study assistance under this Title as a result of the penalties under 484(r)(1) to be provided such notification by the institution in a reasonable and timely manner.

The Senate amendment adds a new subsection (b) to Section 485 specifying requirements for institutions of higher education to provide entrance counseling prior to disbursement for first-time borrowers loans made, guaranteed, or insured under Part B or Part D. Entrance counseling must meet specified disclosure requirements.

The House bill contains similar provisions on entrance counseling in Title I.

Both the Senate and the House recede with an amendment to merge the entrance counseling provisions from both bills to require institutions of higher education, at or prior to the time of a disbursement to a first-time borrower to provide comprehensive information on the terms and conditions of the loan and of the responsibilities the borrower has with respect to such loan. Such information shall be provided in simple and understandable terms and may be provided: during an entrance counseling session conducted in person; on a separate written form provided to the borrower that the borrower signs and returns to the institution of higher education; or, online, with the borrower ac-

knowledging receipt of the information. Institutions of higher education are encouraged to carry out the entrance counseling through interactive programs that test the borrower's understanding of the terms and conditions of their loans.

Section 489. National Student Loan Data System

The Senate amendment makes technical amendment and requires the Secretary to take actions to maintain the system. The Senate amendment also requires the Secretary to prepare and submit a report to the appropriate committees of Congress, not later than September 30th of each fiscal year, describing certain specified aspects of NSLDS; requires the Secretary to conduct a study regarding the available mechanisms for providing students and parents the ability to opt in or opt out of allowing eligible lenders to access their records in NSLDS; and the appropriate protocols for limiting access to NSLDS, based on the risk assessment required under subchapter III of Chapter 35 of Title 44, U.S.C.; and requires the Secretary to submit the report to the appropriate Congressional committees no later than three years after enactment.

The House bill contains no similar provision.

The House recedes.

The Conferees intend that NSLDS data may be released to outside contractors and analysts if all individuals identifiers are excluded from the data and the outside analyst or contractor is certified according to data confidentiality standards and procedures used by the National Center for Education Statistics.

Section 490. Early awareness of financial aid eligibility

The Senate amendment requires the Secretary to implement, in cooperation with other relevant entities a comprehensive system of early financial aid information in order to provide students and families with early information about financial aid and early estimates of such students' eligibility for financial aid from multiple sources.

The House bill contains no similar provision.

The House recedes with an amendment to strike the provision that required the Secretary to provide early estimates of financial aid awards.

Section 491. Distance Education Demonstration Programs

The Senate amendment and the House bill make a conforming amendment to the existing Distance Education Demonstration Program, to replace Committee on Labor and Human Resources of the Senate and the Committee on Education and the Workforce of the House of Representatives with authorizing committees.

The Conferees adopt the provision as proposed by both the Senate and the House with an amendment to clarify that the reports shall be provided by the Secretary on an annual basis.

Section 492. Articulation agreements

The House bill requires the Secretary to work with States to develop more comprehensive articulation agreements and requires the Secretary to conduct a study.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to move the study to Title XI.

Section 493. Program participation agreements

The Senate amendment and the House bill move the 90/10 rule from an institutional eligibility requirement for proprietary institutions of higher education to a Program Participation Agreement (PPA) requirement for proprietary institutions. Under both the

Senate amendment and the House bill, a proprietary institution must have not less than 10 percent of its revenue from sources other than Title IV funds.

The Conferees adopt the provisions as proposed by both the Senate and the House.

The Senate amendment adds to the PPA a requirement that institutions of higher education develop a "code of conduct."

The House requires institutions of higher education participating in Title IV or whose students get a private education loan to develop a "code of conduct" in accordance with new requirements in Title I.

The Senate recedes.

The House bill requires that officers, employees, and agents of institutions of higher education that have responsibilities with respect to education loans obtain annual training on the code of conduct.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment that removes the training requirement, but requires that officers, employees, and agents with responsibilities with respect to education loans be informed annually of the provisions of the code of conduct.

The House bill requires an institution of higher education to, upon request, disclose to the alleged victim of any violent crime or nonforcible sex offense the final results of any institutional disciplinary proceeding conducted against a student who is the alleged perpetrator of such crime or offense. The House bill also requires that this information be provided to the alleged victim's next of kin, if the alleged victim is deceased.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to require disclosure upon written request and that the disclosure be made available to the next of kin only if the victim dies as a result of the crime or offense.

Both the Senate amendment and the House bill amend section 487(a) by adding a new paragraph which specifies requirements applicable to institutions of higher education that maintain a preferred lender list for loans. The Senate amendment provision applies to preferred lender lists for loans under Part B; while the House bill provision applies to preferred lender lists under Part B, and also for private educational loans if recommended by the institution of higher education.

The Senate recedes.

The House bill requires that upon the request of a private educational lender, acting in connection with an application initiated by a consumer for a private educational loan, an institution of higher education shall certify: that the student is enrolled or is scheduled to enroll at the institution; the student's cost of attendance; and the difference between the cost of attendance of the institution and the student's estimated financial assistance received under this title and other assistance known to the institution. The House bill requires the institution of higher education to disclose the student's ability to select a private educational lender of the borrower's choice and inform students of the impact of a proposed private educational loan on the students' potential eligibility for other financial assistance, including Federal financial assistance under this title.

The Senate amendment has no similar provision.

The Senate recedes with an amendment to require the institution to provide an applicant for a private educational loan with the form required under Section Truth in Lending Act and the information required to complete the form.

The Senate amendment permits the Secretary to modify regulations regarding fi-

nancial and compliance audits of institutions of higher education located outside of the United States. The House bill contains a similar provision that allows the Secretary to waive these requirements for foreign institutions of higher education whose students received less than \$500,000 in loans under Title IV during the award year preceding the audit period. This provision appears at a later point in this document.

The Senate recedes.

The Senate amendment specifies what funds proprietary institutions of higher education may count toward their ten percent of non-Title IV revenue. The House bill specifies what proprietary institutions may count as revenue.

The Senate recedes.

The Senate amendment requires proprietary institutions of higher education to demonstrate that institutional revenue includes funds from non-title IV sources. The House bill includes as revenue from tuition and fees, only those tuition, fees and other institutional charges for students enrolled in programs eligible of assistance under Title IV.

The Senate recedes with an amendment that specifies that funds paid by a student, or on behalf of a student by a party other than the institution, for an education or training program that is not eligible for funds under title IV, may be counted as institutional revenue, provided that the program is both approved or licensed by the appropriate State agency and is accredited by an accrediting agency recognized by the Secretary or provides an industry-recognized credential or certification.

The Senate amendment specifies certain institutional aid provided to a student as institutional revenue under certain conditions. In the case of loans made by an institution to a student, the amount of loan repayments received by the institution during the fiscal year for which compliance with the 90/10 rule is determined is deemed to be institutional revenue.

The House bill also specifies certain institutional aid provided to students as institutional revenue. For each of an institution's fiscal years 2009 through 2012, the principal amount of loans made by an institution to a student, based on the expected interest earned less the estimated amount to account for future defaults and loan forgiveness, accounted for on an accrual basis, in accordance with Generally Accepted Accounting Principles and related standards and guidance, and that meet other specified conditions, are deemed to be institutional revenue. For an institution's fiscal year 2013 and each of an institution's subsequent fiscal years, only the amount of repayments on loans made by an institution to students received during the fiscal year for which compliance with the 90/10 rule is determined is deemed to be institutional revenue.

The Senate recedes with an amendment that for loans made by an institution, for loans disbursed to students between July 1, 2008 and July 1, 2012, the net present value of loans made by the institution, accounted for on an accrual basis and, estimated in accordance with Generally Accepted Accounting Principles and related standards and guidance, and that meet other specified conditions, are deemed institutional revenue.

The Conferees intend that for the fiscal years 2009 through 2012 when the net present value of institutional loans can be calculated as institutional revenue that institutions will only count as institutional revenue the net present value of the loan in the fiscal year the loan is actually made.

In the case of scholarships provided by the institution, the Senate amendment specifies as institutional revenue scholarship funds

that are in the form of monetary aid based upon the academic achievements or financial need of students; disbursed from an established restricted account; and funded by outside sources or income earned on such funds. In addition, the Senate amendment specifies that tuition discounts based upon the academic achievement or financial need of students are considered institutional revenue.

In the case of scholarships provided by the institution, the House bill specifies as institutional revenue scholarship funds that are in the form of monetary aid or tuition discounts based upon the academic achievements or financial need of students; disbursed from an established restricted account; and funded by outside sources or income earned on such funds are considered institutional revenues.

The Senate recedes.

In determining compliance with the 90/10 rule the House bill requires that an institution presume that any title IV program funds disbursed or delivered to or on behalf of a student is used to pay the student's tuition, fees, or other institutional charges, regardless of whether the institution credits those funds to the student's account or pays those funds directly to the student, except to the extent that the student's tuition, fees, or other institutional charges are satisfied by grant funds provided by non-Federal public agencies or private sources independent of the institution; funds provided under a contractual arrangement with Federal, State, or local government agencies for the purpose of providing job training to low-income individuals who are in need of that training; or funds used by a student from savings plans for educational expenses established by or on behalf of the student and which qualify for special tax treatment under the Internal Revenue Code of 1986, provided that the institution can reasonably demonstrate such funds were used to pay the student's tuition, fees, or other institutional charges.

The Senate amendment contains no similar provision. The Senate recedes with an amendment to provide an additional exception to the presumption for scholarships provided by the institution in the form of monetary aid or tuition discounts and that meet other specified conditions and remove the condition that institutions must demonstrate that funds from savings plans that qualify for special tax treatment were used to pay a student's tuition, fees, or other institutional charges. Additionally, the Conferees clarify that, for loans received by students between July 1, 2008 and July 1, 2011, the amount of loan funds for 428H or Federal Direct Unsubsidized Stafford Loans that exceed that loan limits that were in effect prior to May 7, 2008 shall be counted as revenue received by the institution.

The House bill specifies that certain revenues are to be excluded by an institution in determining compliance with the 90/10 rule. Revenues to be excluded are the amount of funds received by an institution under the Federal Work-Study program, unless the institution uses those funds to pay a student's institutional charges; the amount of funds received by an institution under the Leveraging Education Assistance Partnership program; the amount of institutional funds used by an institution to match title IV program funds; the amount of title IV program funds that must be refunded or returned; and the amount charged by an institution for books, supplies, and equipment unless the institution includes that amount as tuition, fees, or other institutional charges.

The Senate amendment contains no similar provision.

The Senate recedes.

Under both the Senate and the House bills, a proprietary institution that fails to comply with the 90/10 rule for two consecutive

years becomes ineligible to participate in Title IV programs. Under the Senate amendment, an institution remains ineligible until it demonstrates to the satisfaction of the Secretary that it is in compliance with the 90/10 rule. Under the House bill, an institution is required to demonstrate compliance with all eligibility requirements for at least three fiscal years following the fiscal year in which the institution became ineligible before the institution can regain eligibility to participate in Title IV programs.

The House and Senate recede with an amendment to modify the sanction such that an institution may be placed on provisional certification and may become ineligible to participate in Title IV programs for a minimum of two institutional fiscal years after the institutional fiscal year the institution failed to comply with the 90/10 rule for two consecutive fiscal years. To regain eligibility to participate in Title IV programs, the institution must demonstrate compliance with all eligibility requirements for at least two institutional fiscal years after the institutional fiscal year in which the institution failed to comply with the 90/10 rule.

The House bill requires the Secretary to submit an annual report to the authorizing committees that contains the result of the calculation of the percentage of revenue derived from Title IV sources of funds for each proprietary institution.

The Senate recedes with an amendment to have the Secretary submit such report no later than July 1, 2009 and on July 1 of each subsequent year, a report to the authorizing committees.

The House bill and the Senate amendment require codes of conduct to include prohibitions on revenue-sharing arrangements. The House bill's prohibition of revenue-sharing arrangements encompasses both Federal and private education loans. The Senate amendment's prohibition of revenue-sharing arrangements applies only to Federal student loans.

The House recedes.

The House bill and the Senate amendment require codes of conduct to include prohibitions on officers, employees or agents of institutions of higher education, and under certain conditions, by the families of officers, employees or agents of institutions of higher education, soliciting or accepting gifts from lenders, guarantors, and servicers of education loans. The House bill includes several exceptions in the definition of gift.

The Senate amendment includes no similar exceptions to the definition of gift as included in the House bill.

The Senate recedes with an amendment to clarify that philanthropic contributions that are not made for any advantage with respect to education loans are not considered gifts for purposes of the section.

The House bill and the Senate amendment require codes of conduct to include prohibitions on contracting arrangements between an officer or employee of the institution and a lender of an affiliate of a lender. The House bill includes exceptions, in certain limited circumstances, to allow institution officers, employees and agents to serve on the boards of directors of lenders, guarantors, and servicers of education loans. Similarly, the House bill includes exceptions that allow, under certain conditions, officers, employees and agents of a lender, guarantor, and servicer of education loans to serve as a trustee of an institution.

The Senate amendment includes no similar exceptions to the prohibition.

The Senate recedes with a modification to the exception with respect to officers, employees and agents of a lender, guarantor, and servicer of education loans and an amendment to clarify that the prohibition

applies to consulting arrangements or the provision of other services with respect to educational loans.

The Senate amendment contains provision on institutional interaction with borrowers.

The House bill contains no similar provision.

The House recedes.

The Senate amendment contains a provision on institutional interaction with borrowers.

The House bill contains no similar provision.

The House recedes.

The Conferees recognize that some institutions list specific lenders in financial aid award offer letters to students. For example, in many states, public institutions of higher education will inform students in financial aid offer letters that they are eligible for a loan offered through their state-based student loan agency, and the amount of such loan. The code of conduct provision prohibiting the assignment of loans to a specific lender, through packaging or other means, is not intended to apply to this case, because a financial aid award letter is an offer of aid, and a student may select the named lender, or another lender, at the student's discretion. Other practices, such as the distribution of loan promissory notes to students containing a specific lender's name, are prohibited by this provision.

The House bill prohibits an institution of higher education from requesting or accepting any offer of funds for private educational loans in exchange for the institution of higher education providing the lender with a specified number of loans or loan volume, or a preferred lender arrangement for Title IV loans.

Both the Senate and the House recede with an amendment to require that institutions of higher education prominently disclose the method and criteria used by the institution of higher education in selecting lenders with which to enter into preferred lender arrangements to ensure that the lenders are selected on the basis of the best interest of the borrowers.

The Senate amendment and the House bill require the Secretary to maintain and update a list of lender affiliates of all eligible lenders and to provide such lists to eligible institutions of higher education. The Senate amendment requires consultation by the Secretary with the Director of the Federal Deposit Insurance Corporation.

An institution of higher education shall be deemed to be in compliance with this subsection if the institution of higher education uses the most recent list published by the Secretary and in effect at the time the preferred lender list is created or updated.

The Senate amendment and the House bill require an accrediting agency that has or seeks to include the evaluation of distance education programs within its scope of recognition to demonstrate to the Secretary that its standards effectively address the quality of distance education in the same areas in which it is required to evaluate classroom-based programs. The Senate amendment and House bill state that associations aren't required to have separate standards for accrediting distance education programs.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment and the House bill require accrediting agencies to require that institutions of higher education offering distance education programs have a process by which the institution of higher education establishes that a student registered for a distance education course is the same student that participates in, completes, and receives credit for the course.

The Conferees adopt the provision as proposed by both the Senate and the House. The Conferees expect institutions that offer distance education to have security mechanisms in place, such as identification numbers or other pass code information required to be used each time the student participates in class time or coursework on-line. As new identification technologies are developed and become more sophisticated, less expensive and more mainstream, the Conferees anticipate that accrediting agencies or associations and institutions will consider their use in the future. The Conferees do not intend that institutions use or rely on any technology that interferes with the privacy of the student and expect that students' privacy will be protected with whichever method the institutions choose to utilize.

The Senate amendment modifies the requirement that accrediting agencies assess an institution of higher education's success with respect to student achievement in relation to the institution of higher education's mission, including, as appropriate, consideration of state licensing examinations, and job placement rates to specify that consideration of student achievement in relation to the institution of higher education's mission may include different standards for different institutions of higher education or programs as established by the institution of higher education.

The Senate amendment and the House bill expand existing due process requirements, including: specification of clear and consistent standards; an opportunity for a written response; an opportunity to appeal any adverse action; the right to representation by counsel; and submission to the Secretary a summary of actions that includes the award of accreditation or reaccreditation of an institution of higher education and several adverse actions.

Conferees adopt the provisions as amended, and clarify that the due process provisions allow the institution of higher education to put forward new evidence as long as it relates to a financial matter.

The Senate amendment and the House bill requires an accrediting agency, as part of its accreditation or reaccreditation reviews, to confirm that the institution of higher education has publicly disclosed its transfer of credit policies and that the policies specifically state the criteria used by the institution of higher education regarding the transfer of credit from another institution of higher education.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Conferees adopt the provision as proposed by both the Senate and the House.

The Senate amendment and the House bill prohibit the Secretary from issuing regulations related to the standards used by accrediting agencies to evaluate the institution of higher education with respect to the institution of higher education's success with respect to student achievement, curricula, faculty, and so forth.

The Conferees adopt the provision as proposed by both the Senate and the House.

The House bill establishes a rule of construction that states that none of the requirements that are established related to an accrediting agency's required review of an institution of higher education's success with respect to student achievement, curricula, faculty, and so forth shall restrict an accrediting agency's authority to set, with the involvement of its members, and to apply accreditation standards to institutions of higher education or programs that request review by the agency. In addition, the aforementioned requirements do not restrict the authority of an institution of higher education to develop and use institutional standards to show success with respect to student achievement, and these standards must be considered as part of any accreditation review.

The Senate amendment contains no similar provision.

The Senate recedes.

Section 496. Eligibility and certification procedures

The Senate amendment excludes from the confidentiality requirement the disclosures to inform the state or accrediting agency when the Secretary takes action against an institution of higher education. The Senate amendment requires the Secretary to promptly disclose all program review reports to the institution of higher education under review.

The House recedes.

The House recedes.

The Conferees recognize the Graduate Assistance in Areas of National Need (GAANN) program has been amended to include a subsection which directs the Secretary to consider an "assessment of the current and future professional workforce needs of the United States" when selecting GAANN designated fields. In 2007, the U.S. Bureau of Labor Statistics projected that more than one million new and replacement nurses will be needed by 2016. A significant contributing factor to the nursing shortage is the need for nurse faculty. According to the American Association of Colleges of Nursing, the national nurse faculty vacancy rate in baccalaureate and graduate schools of nursing is 8.8%. Given the revisions to this program and the national shortage of nurses and nurse educators, we respectfully request that the Secretary continue to select nursing as a discipline covered under the GAANN program.

Section 706. Masters degree programs at Historically Black Colleges and Universities and Other Minority Serving Institutions

The House bill establishes a new program to provide competitive grants to qualifying

master's degree programs at a specified list of Historically Black Colleges and Universities and Minority Serving Institutions to provide fellowships to students in specified STEM and health fields.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to create a program for Historically Black Colleges and Universities under section 723, a program for Predominantly Black Institutions under section 724, and to authorize appropriations for both programs under section 725 and to allow grantees to expand the uses of funds.

The Conferees acknowledge that this new authorization dramatically expands the focus on graduate education at the Historically Black Colleges and Universities (HBCUs) by expanding the number of institutional participants in the Title III, B, Section 326 Historically Black Graduate Institution program, and by creating two new masters degree programs in Title VII that serve the Black student community. The Conferees believe that this expansion is warranted in light of the need to dramatically increase the number of minorities, especially African Americans, earning degrees in the physical and natural sciences, computer science, information technology, engineering, mathematics, nursing and allied health, as well as in medicine, veterinary medicine, dentistry, pharmacy, and law. Currently, Title III, B provides grants for undergraduate programs at HBCUs and doctoral and first professional degree programs at HBCUs. Conferees acknowledge that there has been confusion in recent years regarding the Section 326 program and wish to make clear that the focus and intent of the section 326 program is to support doctoral and first professional degree programs at eligible HBCUs.

Recognizing the importance of increasing the number of African Americans holding master's degrees, with this reauthorization, Conferees are creating two master's degree programs to further advance educational opportunities for African Americans. Moreover, the Conferees are committed to increasing funds for the existing Strengthening Historically Black College and University (Section 323) program in order to assure that a strong "pipeline" of qualified baccalaureate degree holders is available to compete for acceptance into HBCU graduate and professional schools, as well as other graduate and professional schools throughout the United States. This should begin by assuring that the infusion of \$85 million in additional funds provided to HBCUs through the College Cost and Reduction Act is retained and used to supplement, and not supplant the \$238.1 million in discretionary Title III, B funds.

Conferees recognize the vital role HBCUs play in our nation's system of higher education. Following passage of the Civil Rights Act of 1964, Congress in 1965 created distinct federal support for HBCUs which, in the face of legally sanctioned discrimination, had worked to raise the educational outcomes of African Americans. Although HBCUs represent just three percent of all colleges and universities in the nation, HBCUs account for 21.6% of all baccalaureate degrees awarded to Black Americans, 11.4% of all master's degrees, and 10.8% of all doctoral degrees. Additionally, HBCUs year in and year out dominate the top 10 lists of colleges and universities in the awarding of baccalaureate and graduate degrees awarded to Black Americans in the sciences and engineering.

Conferees also recognize the significant role that Predominantly Black Institutions (PBIs) have in providing postsecondary education. These institutions are ineligible for funding under Title III, B because they do not meet the definition of an HBCU which

Congress established when HBCUs were first recognized by Congress in 1965. Nevertheless, Conferees recognize that PBIs represent an important cadre of four-year and two-year institutions that serve as the access point for a growing number of urban and rural Black students whose family and financial situations limit their ability to gain access to college in many states. Many of these students come from low-income families and are also “first generation” college students, whose educational preparation for college and family finances to pay for college present special challenges to educational success. PBIs are meeting vital higher education needs for traditionally underrepresented students, a disproportionate number of whom are African American. The master’s program for PBIs aims to serve the needs of a growing number of students seeking to expand their educational opportunities. This program will work hand in hand with the undergraduate PBI program and serve as a pipeline for underrepresented and underserved populations to go on to and pursue a master’s degree.

Conferees recognize that both HBCUs and PBIs contribute to the development of Black master’s professionals. Conferees respect the historical and distinct differences between these types of institutions; at the same time, Conferees recognize that both serve similar communities.

For this reason, Conferees intend that future appropriations authorized under section 725 for each program represent the proportionate number of eligible institutions in sections 723 and 724 relative to the total number of institutions in subpart 4 and in accordance with the minimum grant provisions (sections 723(a) and 724(a)), funding rule provisions (sections 723(f) and 724(f)), and hold harmless provisions (sections 723(g) and 724(g)) in each program. This will ensure equitable levels of funding for each program and will encourage stakeholders to work together to secure resources. An institution shall not receive more than one grant under section 723 or 724 for the same fiscal year. Grants may periodically be renewed for a period of time to be determined by the Secretary.

Section 707. Fund for the Improvement of Postsecondary Education

The Senate amendment adds to the FIPSE authority to include remedial postsecondary English language instruction. The House bill adds to the authority to support and assist

partnerships between institutions of higher education and secondary schools that have not less than ten percent of the schools’ enrollment assessed as late-entering limited English proficient students.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to: create a priority under FIPSE for institutions of higher education that meet certain energy efficiency standards for new construction; and clarify that only funds made available under FIPSE for the purpose of providing direct financial assistance to an individual student are to be limited to eligible citizens, in order to align student eligibility for grants under the FIPSE program with Title IV eligibility.

The Conferees do not intend to limit funds that are made available under FIPSE for programs that are provided to citizens and non-citizen students together, such as an institution wide program or, to exclude non-citizens from such program.

The Senate amendment and the House bill add a new scholarship program under FIPSE for dependent children and spouses of post-9/11 veterans killed or disabled in duty and current active duty military personnel. The Senate amendment describes spousal eligibility; caps scholarships at \$5,000; and accounts for cost of attendance—disallowing the scholarship and other non-loan based aid to exceed cost of attendance. The House bill describes spousal eligibility in a substantively similar way to the Senate and caps scholarships at \$5,000. The Senate amendment and the House bill include a pro-

vision that nonprofit organizations receiving a contract under this subsection may not use more than one percent of funds for administrative costs.

The Senate recedes with an amendment to ensure the grant does not exceed the cost of attendance.

The program is authorized for \$50,000,000 per year for fiscal year 2009–fiscal year 2013.

The House recedes.

The Conferees adopt the provisions with the following amendments.

The Senate amendment and House bill make similar changes to the program supporting postsecondary faculty in educating students with disabilities in Part D of Title VII, and establish a new comprehensive transition program for students with intellectual disabilities, as well as a coordinating center for technical assistance, evaluation, and development of accreditation standards to support such transition programs.

The Senate amendment also amends the program supporting postsecondary faculty in educating students with disabilities to create “disability career pathways” to encourage students with disabilities and non-disabled students to enter disability-related fields.

The House bill contains no similar provision.

The House bill also establishes an Advisory Commission on Accessible Instructional Materials in Postsecondary Education for Students with Disabilities, model demonstration programs to support improved access to postsecondary instructional materials for students with print disabilities, and a National Technical Assistance Center to provide information and technical assistance for

students with disabilities to improve the postsecondary recruitment, retention, and completion rates of such students.

The Senate amendment contains no similar provisions.

The House and Senate recede with an amendment to adopt various changes to the program supporting postsecondary faculty in educating students with disabilities, place the program in a new Subpart 1 of Part D, and establish new subparts 2, 3, and 4 in Part D, as follows:

SUBPART 1—DEMONSTRATION PROJECTS TO SUPPORT POSTSECONDARY FACULTY, STAFF AND ADMINISTRATORS IN EDUCATING STUDENTS WITH DISABILITIES

The Conferees amend the authorized activities of the program to include teaching methods and strategies consistent with the principles of universal design for learning, and specify that such methods and strategies should provide postsecondary faculty, and staff and administrators with the skills and supports necessary to meet the academic and programmatic needs of students with disabilities. The Conferees also add options to the list of authorized activities, including effective transition practices for students with disabilities, accessible distance learning strategies, “disability career pathways,” and curriculum development that makes postsecondary education more accessible to students with disabilities.

The Conferees amend the application requirements to include a description of the extent to which the applicant will work to replicate best practices in serving students with disabilities.

The Conferees require the Secretary to prepare and disseminate reports, reviewing both prior and new demonstration projects authorized under this subpart and providing recommendations on how effective projects can be replicated.

The Conferees authorize such sums as may be necessary for fiscal year 2009 and each of the five succeeding fiscal years to carry out the purposes of this subpart.

SUBPART 2—TRANSITION PROGRAMS FOR STUDENTS WITH INTELLECTUAL DISABILITIES INTO HIGHER EDUCATION

The Conferees establish a new subpart 2 of Part D to support model demonstration programs that promote the successful transition of students with intellectual disabilities into higher education. Comprehensive transition and postsecondary programs for students with intellectual disabilities are defined as degree, certificate, or non-degree programs that are offered by an institution of higher education, designed to support students with intellectual disabilities who are seeking to continue academic, career and technical, and independent living instruction at an institution of higher education, include an advising and curriculum structure, and require students with intellectual disabilities to participate on not less than a half-time basis in coursework and other activities with non-disabled students. The Conferees intend to encourage such programs to integrate students with intellectual disabilities into inclusive activities, coursework and campus settings with nondisabled postsecondary students, and that such programs include measurable outcomes, such as attainment of a degree or certificate.

A student with an intellectual disability is defined as a student with mental retardation or a cognitive impairment characterized by significant limitations in intellectual and cognitive functioning and adaptive behavior, and who is currently, or was formerly, eligible for a free, appropriate public education under the Individuals with Disabilities Education Act (IDEA). The Conferees recognize that some students with disabilities who are

eligible for a free and appropriate public education may not enroll in public schools, nor choose to receive special education services under the Individuals with Disabilities Education Act. The Conferees intend to include such students in the definition of students with intellectual disabilities under this Act, if such students can otherwise demonstrate they meet the eligibility criteria.

The Conferees authorize the Secretary to competitively award grants to institutions of higher education, or consortia of such institutions, to create or expand the model demonstration programs, and specify that the program shall be administered by the office at the Department of Education that administers other postsecondary programs. Grants are authorized to be awarded for a period of five years. The Conferees direct the Secretary, in awarding such grants, to provide for an equitable geographic distribution of grants, provide grants to institutions or consortia that are located in areas that are underserved by such programs and to give preference to institutions or consortia that agree to form partnerships with other relevant agencies that serve students with intellectual disabilities, integrate students with intellectual disabilities into institutionally owned or operated housing offered to students without disabilities, or involve students attending the institution who are studying special education, general education, vocational rehabilitation, assistive technology, or related fields in the model program.

The Conferees authorize various uses of funds for institutions or consortia receiving grants under this subpart, including the provision of individual supports and services for the academic and social inclusion of students with disabilities in academic courses, extracurricular activities, and other aspects of the institution's postsecondary program; a focus on academic enrichment, socialization, independent living skills, and integrated work experiences and career skills; integration of person-centered planning for the participating students; participation of the institution or consortium in the coordinating center established in subpart 4; partnerships with one or more local educational agencies to support students with intellectual disabilities who are still eligible for education and related services under IDEA to participate in the model programs; and the creation and offer of a meaningful credential for students with intellectual disabilities upon completion of the model program. The Conferees also require an institution or consortium receiving a grant under this subpart to provide matching funds of not less than twenty-five percent of the cost of the model program supported under the grant, which may be provided in cash or in kind.

The Conferees require the Secretary to prepare and disseminate a report, within five years of the date of the first grant awarded under this subpart, which reviews the programs supported under this subpart and provides recommendations on how model programs can be replicated. The Conferees include a rule of construction to specify that nothing in the subpart shall be construed to reduce or expand the obligation of a State or local educational agency to provide a free, appropriate public education under IDEA, or eligibility requirements under any Federal, State, or local disability law.

The Conferees recognize that under the Individuals with Disabilities Education Act, nothing prohibits the use of Part B funds to support students with disabilities in transition programs at institutions of higher education, if the Individualized Education Program Team determines that such a program is the appropriate placement for the student.

The Conferees authorize such sums as may be necessary for fiscal year 2009 and each of

the five succeeding fiscal years to carry out the purposes of this subpart, and include a reservation of funds for the coordinating center authorized in subpart 4.

SUBPART 3—COMMISSION ON ACCESSIBLE MATERIALS; PROGRAMS TO SUPPORT IMPROVED ACCESS TO MATERIALS

The Conferees establish a new subpart 3 of Part D that creates an Advisory Commission on Accessible Instructional Materials in Postsecondary Education for Students with Disabilities, and model demonstration programs to support improved access to postsecondary instructional materials for students with print disabilities. The term ‘student with a print disability’ is defined as a student with a disability who experiences barriers to accessing instructional materials in nonspecialized formats, including students eligible under 17 U.S.C. 121(d)(2). The Conferees acknowledge that students with a range of impairments, including but not limited to visual impairments, physical limitations, dyslexia, and intellectual disabilities, may meet this definition. Among other activities, the Conferees intend that the Commission will analyze the different definitions of eligible students in applicable Federal law and make recommendations as to the scope of the definition of student with a print disability.

The Conferees direct the Secretary to appoint nineteen members to the Commission from various categories, including representatives from the Department, the Library of Congress, associations representing individuals with disabilities, associations representing publishers, institutions of higher education with experience in teaching or supporting students with print disabilities, producers of accessible materials, and individuals with print disabilities, including postsecondary students. The Commission is directed to meet for the first time no later than ninety days after the establishment of the Commission.

The Conferees direct the Commission to conduct a comprehensive study to assess the barriers that affect, and the technical solutions that can improve, the timely delivery and quality of accessible instructional materials for students with print disabilities, as well as the effective use of such materials by postsecondary faculty and staff. The Commission is directed to make recommendations related to a comprehensive approach to improve the opportunities for postsecondary students with print disabilities to access instructional materials in specialized formats in a timeframe comparable to the availability of standard instructional materials for postsecondary students without disabilities.

The Commission is also directed to develop recommendations to inform Federal regulations and legislation and support the model demonstration programs to improve access to postsecondary instructional materials for students with print disabilities authorized in the subpart. Such recommendations are to identify best practices related to systems for collecting, maintaining, processing, and disseminating materials in specialized formats; improve the effective use of such materials by faculty and staff while complying with applicable copyright law; and analyze and consider modifications to the terms ‘instructional materials,’ ‘authorized entities,’ and ‘eligible students’ in applicable Federal law for the purpose of improving services to students with disabilities. The Conferees recognize the importance of accessible instructional materials for all students with disabilities, while also recognizing the importance of maintaining appropriate copyright protections, and the opportunity to market universally-designed materials that meet the

needs of all students, for publishers of instructional materials.

In conducting its study and developing its recommendations, the Conferees intend for the Commission to identify, and draw upon the expertise of, national non-profit organizations and other entities with extensive experience providing accessible instructional materials to postsecondary students with print disabilities. Such organizations and entities should have proven track records in conducting research into the creation of file standards for accessible instructional materials, implementing models for the provision of accessible instructional materials for postsecondary students with print disabilities, and collaborating with publishers and other stakeholders in these efforts. The Conferees note that the following organizations and entities have done useful work in these areas: the Recording for the Blind & Dyslexic Technology Advisory Committee, Benetech Bookshare, the Critical Issues Task Force of the Association of American Publishers Higher Education Division, the Center for Applied Special Technology, the Association of Higher Education and Disabilities E-Text Solutions Working Group, the Library of Congress National Digital Information and Infrastructure Preservation Program Copyright Working Group, and the Advisory Council and the Technical Assistance and Development Centers of the National Instructional Materials Access Center. The Conferees recommend that the Commission consider the work of these groups in its efforts, and identify other entities with technical expertise in the Commission's areas of study, including entities that may have used federal dollars to identify solutions.

In developing these recommendations, the Commission is directed to consider how students with print disabilities may obtain materials in accessible formats in a timeframe, comparable to the availability of materials to students without disabilities; and to the maximum extent practicable, at comparable costs; the feasibility of establishing standardized electronic file formats for accessible materials; the feasibility of establishing a national clearinghouse, repository, or file-sharing network for such materials; the feasibility of market-based solutions involving collaborations among publishers and institutions of higher education to increase the availability of accessible materials; solutions utilizing universal design; and solutions for low-incidence, high-cost requests for materials in specialized formats. The Conferees direct the Commission to submit a report detailing its findings and recommendations to the Secretary and the authorizing committees not later than one year after the Commission's first meeting.

With respect to the model demonstration programs to support improved access to postsecondary instructional materials for students with print disabilities, the Conferees authorize the Secretary to award grants or contracts, on a competitive basis, to not less than one partnership consisting of an institution of higher education with demonstrated expertise in meeting the needs of students with print disabilities, and a public or private entity with demonstrated expertise in developing accessible instructional materials, and the technical development expertise necessary for the efficient dissemination of such materials. The partnership may include representatives of the publishing industry.

The Conferees direct partnerships receiving grants or contracts under this subpart to conduct a variety of required activities, including the development and implementation of processes to identify and verify eligibility of postsecondary students with print disabilities; procedures to facilitate methods

to request such materials; procedures to coordinate among institutions of higher education, publishers, and entities that produce materials in specialized formats; systems to deliver specialized materials in a timely fashion, and to reduce duplicative conversions of such materials; procedures to protect against copyright infringement with respect to materials in specialized formats; and outreach and awareness activities for postsecondary students, faculty and staff regarding the acquisition and dissemination of materials in specialized formats and materials utilizing universal design.

The Conferees direct the Secretary, in awarding such grants or contracts, to give preference to partnerships that support a unified search for accessible instructional materials across multiple databases or market-based approaches to make accessible instructional materials available to eligible students at prices comparable to the prices of standard instructional materials.

The Conferees direct the Secretary to submit a report to the authorizing committees, not later than three years after the date of the first contract or grant awarded under this subpart, which details the grants and contracts supported under this subpart, as well as the number of students with print disabilities served by such grants or contracts. The Conferees authorize the Secretary to expand the model programs supported under this subpart on the basis of this report and other related reports.

The Conferees include a rule of construction to specify that nothing in the subpart shall be construed to limit or preempt a State law regarding the production or distribution of postsecondary instructional materials in accessible formats to students with disabilities.

The Conferees authorize such sums as may be necessary for fiscal year 2009 and each of the five succeeding fiscal years to carry out the purposes of this subpart, and include a reservation of funds for the Advisory Commission authorized in the subpart.

SUBPART 4—NATIONAL TECHNICAL ASSISTANCE CENTER; COORDINATING CENTER

The Conferees establish a new subpart 4 of Part D that creates a National Center for Information and Technical Support for Postsecondary Students with Disabilities to provide information on best and promising practices to students with disabilities, the families of such students, and entities awarded grants, contracts, or cooperative agreements under subparts 1, 2, and 3 of Part D to improve the postsecondary recruitment, transition, retention, and completion rates of students with disabilities. Subpart 4 also authorizes a coordinating center to support inclusive comprehensive transition and postsecondary programs for students with intellectual disabilities, including those authorized under subpart 2.

The Conferees establish and support a National Center for Information and Technical Support for Postsecondary Students with Disabilities. The Conferees specify that an institution or higher education or nonprofit organization, with demonstrated expertise in supporting students with disabilities in higher education, technical knowledge related to the dissemination of information in accessible formats, and working with diverse types of institutions of higher education, or partnership of two or more such institutions or organizations, may qualify as the eligible entity authorized to operate the National Center. The Conferees specify that the National Center shall provide information and technical assistance to students with disabilities and the families of such students, to support students across the broad spectrum of disabilities, including information to as-

sist students with disabilities in planning for postsecondary education while they are in secondary school; information to improve the participation of students with disabilities in early outreach programs supported under Title IV; information on research-based supports available in postsecondary settings; information on student mentoring and networking opportunities; and effective recruitment and transition practices for students with disabilities at institutions of higher education.

The Conferees further specify that the National Center shall provide information and technical assistance to postsecondary faculty, staff, and administrators to improve the services provided to, the accommodations for, the retention rates of, and the completion rates of students with disabilities in higher education settings. These activities may include collection and dissemination of best practices and materials for accommodating and supporting students with disabilities; the development of training modules for higher education faculty for such purpose; and development of technology-based tutorials. The Conferees authorize the National Center to build, maintain, and update a database of disability support information related to postsecondary education that shall be made available to the public through a website built to high technical standards of accessibility.

The Conferees direct the National Center to prepare periodic reports to the Secretary and the authorizing committees analyzing the condition of postsecondary success for students with disabilities, including a review of the programs authorized under Part D; annual enrollment and graduation rates of students with disabilities at institutions of higher education; recommendations for effective supports and services for students with disabilities in higher education; recommendations on reducing barriers to full participation of such students in higher education; and a description of successful strategies in improving the success of such students in postsecondary education. The first of such reports shall be submitted not later than three years after the establishment of the Center, and every two years thereafter.

The Conferees specify that in hiring employees of the National Center, the center shall consider prospective employees' experience in providing training and technical assistance to practitioners.

The Conferees establish a Coordinating Center for Model Programs for Students with Intellectual Disabilities, which will serve as a coordinating center for technical assistance, evaluation, and recommendations related to the development of standards for institutions of higher education that offer inclusive comprehensive transition and postsecondary programs for students with intellectual disabilities. The Conferees recognize that there may currently exist inclusive comprehensive transition and postsecondary programs for students with intellectual disabilities as defined by this Act, and intend the Coordinating Center to work with such programs as well as those participating in grants authorized under subpart 2. The Conferees specify that an entity or partnership of entities with demonstrated expertise in the fields of higher education, the education of students with intellectual disabilities, the development of comprehensive transition and postsecondary programs for students with intellectual disabilities, and evaluation and technical assistance may qualify as the eligible entity to operate the coordinating center. The Conferees authorize the Secretary to enter into an agreement with an eligible entity to operate the coordinating center for a period of five years.

The Conferees direct that the coordinating center shall serve as the technical assistance

entity for all comprehensive transition and postsecondary programs for students with intellectual disabilities, and that the center shall provide technical assistance regarding the development, evaluation, and improvement of such programs; develop an evaluation protocol for such programs; and assist recipients of grants under subpart 2 of Part D in providing a meaningful credential to students with intellectual disabilities who complete such programs. The Conferees also direct the coordinating center to develop recommendations on various components of the programs supported under subpart 2, analyze potential funding streams for such programs, develop model memoranda of agreement among institutions of higher education, States, and local educational agencies with respect to such programs; develop mechanisms for the regular communication, outreach and dissemination of information about such programs among relevant groups; and convene a workgroup to develop model criteria, standards, and components of such programs that are appropriate for the development of accreditation standards for these programs.

The Conferees direct the coordinating center to prepare a report to the Secretary, the authorizing committees, and the National Advisory Committee on Institutional Quality and Integrity, no later than five years after the date of establishment of the coordinating center, on the recommendations of the workgroup charged with developing model criteria and standards appropriate for the development of accreditation standards for comprehensive transition and postsecondary programs for students with intellectual disabilities.

The Conferees authorize such sums as may be necessary for fiscal year 2009 and each of the five succeeding fiscal years to carry out the purposes of this subpart.

Section 710. Subgrants to nonprofit organizations

The House bill clarifies that guaranty agencies are eligible for subgrants under the College Access Challenge Grant Program created by CCRAA.

The Senate amendment contains no similar provision.

The Senate recedes.

TITLE VIII—ADDITIONAL PROGRAMS

Section 801. Additional programs

The Senate amendment and the House bill create a new Title VIII to add new programs to the Act.

The Senate and House recede with amendments to Title VIII as follows.

Section 801. Project GRAD

The Senate amendment and the House bill authorize a new program to provide funding through a grant for a non-profit organization called Project GRAD USA to support integrated secondary-postsecondary graduation reform efforts. The Senate amendment establishes the program as a subsection of FIPSE. The House bill establishes the program under Title VIII.

The Senate recedes on placement and with an amendment to strike the term disadvantaged students and replace with low-income students, to reduce the administrative funding from eight percent to five percent, and to include additional outcome criteria for determining the funding level for grantees. The House and Senate recede to require the Secretary enter into a contract, rather than a grant, with Project Grad

Section 802. Mathematics and science scholars program

The Senate amendment establishes a new competitive grant program that authorizes the Secretary to award competitive grants

to states. States would award \$1,000 scholarships to first and second year undergraduate students who complete a rigorous high school program in math and science. States must match fifty percent of federal funds and may set priorities (e.g., underrepresented groups) for the scholarships. The Senate amendment authorizes appropriations of such sums as may be necessary fiscal year 2008 through fiscal year 2009.

The House bill contains no similar provision.

The House recedes with an amendment to increase the scholarship award from \$1,000 to \$5,000, to limit eligibility to first year undergraduate students, and to incorporate provisions from the Math and Science incentives program from Title IV of the House bill.

The Conferees intend that States awarding scholarships from the Mathematics and Science Scholars Program should take into account the regional and geographic needs of the State in determining which eligible students receive the scholarships.

Section 803. Business workforce partnerships for job skill training in high-growth occupations or industries

The Senate amendment authorizes the Secretary to award competitive grants to partnerships between institutions of higher education and local workforce investment boards for development of job training programs in high-growth industries. Grants would fund training for "non-traditional" students meeting specified criteria. The Senate amendment authorizes appropriations of such sums as may be necessary for fiscal year 2008 through fiscal year 2009.

The House bill includes a related Business Workforce Partnership grant program that authorizes the Secretary to award competitive grants to institutions of higher education in partnership with businesses, local workforce investment boards, and labor organizations to develop pathways from education and training to high-demand occupations.

The Senate and the House recede with an amendment to merge the two programs and authorize such sums as may be necessary for fiscal year 2009 and each of the five succeeding fiscal years.

It is the intent of the Conferees that the Workforce Partnerships for Job Skill Training in High-Growth Occupations or Industries created in this bill are awarded as part of a competitive grants process. The Conferees further intend that the Secretary shall consult with experts in the workforce and occupational education and training fields during all parts of the grants process, including the reviewing of applications, awarding grants, and evaluating the success of grantees.

Finally, the Conferees intend for the Secretary to encourage grant recipients pursuing partnerships for the purposes outlined in subsection (e)(1) or (e)(2) to where possible design course offerings and programs that offer credit towards a degree or certificate.

Section 804. Capacity for nursing students or faculty

The Senate amendment and the House bill establish a new program that authorizes the Secretary to award competitive grants to nursing programs to expand faculty and facilities.

The Conferees adopt the provision as proposed by both the Senate and the House with the following amendments.

The Senate amendment authorizes grants beginning in academic year 2006-2007. The House bill authorizes grants beginning in academic year 2008-2009.

The Senate recedes.

The Senate amendment authorizes funding indefinitely. The House bill does not provide

a separate authorization of appropriations for this section.

The House recedes with an amendment to authorize such sums as may be necessary for fiscal year 2009 and each of the five succeeding fiscal years.

The House bill establishes a Nurse Faculty Pilot Project which authorizes the Secretary to award competitive grants to fund scholarships and release time for nurses studying for advanced degrees with the intention of becoming faculty.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to clarify that grants awarded under this section may be used to support partnerships with hospitals or health facilities to improve alignment between nursing education and healthcare delivery methods, fund release time for qualified nurses enrolled in the graduate nursing program and to provide scholarships to qualified nurses in pursuit of an advanced degree with the goal of becoming faculty members in an accredited nursing program.

The conferees recognize that Part D, Section 804, Capacity for Nursing Students and Faculty, combines two distinct programs included in the House bill; a capitation grant program and a nurse faculty pilot project. In considering the designation of the awards and distribution of excess funds, the committee urges the Secretary to ensure an adequate number of awards and funding is provided for the nurse faculty pilot project described in (c)(2)(B). Additionally, the Secretary shall determine the duration in which the nurse faculty pilot project grants are awarded; such time period should not exceed five years but should not be less than three years. After the expiration of the pilot program, the project's success will be evaluated.

Section 805. American history for freedom

The Senate amendment establishes a new program that authorizes the Secretary to award competitive grants to institutions of higher education to establish or strengthen programs that promote "(1) traditional American history; (2) the history and nature of, and threats to, free institutions; or (3) the history and achievements of Western Civilization." The Senate amendment authorizes appropriations for fiscal year 2008 through fiscal year 2013.

The House bill contains no similar provision.

The House recedes with an amendment to authorize such sums as may be necessary for fiscal year 2009 and each of the five succeeding fiscal years.

Section 806. Teach for America

The Senate amendment and the House bill authorize the Secretary to award a grant to Teach For America, Inc. to implement and expand its program of recruiting, selecting, training, and supporting new teachers; and to study the program's effectiveness.

The Conferees adopt the provision as proposed by both the Senate and the House with the following amendments.

The Senate amendment uses the term achievement gains, while the House bill uses the term student learning gains.

The House recedes with an amendment to use the term student achievement gains.

The House bill requires those participating in the peer review process required by the Senate amendment and House bill to meet specific qualifications.

The Senate recedes.

The Senate amendment authorizes appropriations of such sums as may be necessary for fiscal year 2008 through fiscal year 2013.

The House bill authorizes \$20,000,000.

The Senate recedes.

The Senate amendment limits the Teach For America organization from using federal

funds for more than twenty-five percent of its administrative costs.

The House bill contains no similar provision.

The House recedes.

Section 807. The Patsy T. Mink fellowship program

The Senate amendment and the House bill establish a new program to award competitive grants to institutions of higher education for fellowships to minorities and women seeking doctoral degrees with the intent of entering the professoriate.

The Conferees adopt the provision as proposed by both the Senate and the House with an amendment to clarify that the fellowship awards should be given to individuals from groups who are underrepresented in doctoral degree programs, including minorities and women.

The Senate amendment requires that at least thirty percent of funds would be reserved for institutions of higher education eligible for a grant under Titles III or V.

The House bill requires that at least fifty percent of funds would be reserved for institutions of higher education eligible for a grant under Titles III or V.

The House recedes.

The Senate amendment and the House bill establish similar eligibility requirements for students to receive Mink fellowships from grantee institutions of higher education. The Senate amendment requires intent to pursue a career in instruction at certain delineated institutions of higher education; the House bill simply refers to those institutions of higher education eligible to participate in Title IV programs.

The House recedes.

The Senate amendment and the House bill requires each grantee to award a minimum of fifteen fellowships with the grant funds.

The Conferees agree to this provision with an amendment to reduce the minimum number of awards to ten and clarify that the Secretary can use unused appropriated funds to make a grant award to a grantee that would result in less than ten fellowships being awarded.

The Conferees intend that the Patsy Mink Fellowship Program grants will support a minimum of ten fellowships per grant. The goal of this minimum number of fellowships is to enable cohorts of underrepresented individuals to move through graduate education together and increase the likelihood that individuals will complete their education and enter the professoriate. The Conferees recognize that appropriated funds may not always be adequate to ensure that each grant could support this minimum number. In such situations, the Conferees intend that the Secretary award the maximum number of grants that would support the minimum fellowship requirement but would have the flexibility to award a single grant using remaining funds which would not be required to meet the minimum fellowship requirement. The Secretary may not award multiple grants, in any single grant cycle, that do not meet the minimum fellowship requirement.

The Senate amendment includes provisions prohibiting any requirement for preferential treatment in hiring for Mink fellows.

The House bill contains no similar provision.

The House recedes.

Section 808. Improving college enrollment by secondary schools

The Senate amendment and the House bill establish a new program in which the Secretary must contract with a non-profit organization to conduct a needs assessment and provide comprehensive services to urban school districts and rural states in order to improve college-going rates of participating schools.

The Conferees adopt the provision as proposed by both the Senate and the House with the following amendment.

The Senate amendment directs the Secretary to contract with one non-profit organization to carry out the program.

The House bill requires the Secretary to award a grant to a nonprofit organization to carry out the program.

The Senate recedes.

Section 811-818. Early childhood education professional development and career task force

The Senate amendment and the House bill include a program for early childhood development professional development.

The Conferees adopt the provision as proposed by both the Senate and the House with the following amendments.

The Senate amendment and the House bill include a definition of an "early childhood education program." The House bill's definition includes a program authorized under Section 619 or Part C of IDEA.

The Senate recedes.

The Senate amendment provides for a five year grant award period. The House bill provides for a three year grant award period.

The House recedes.

The Senate amendment and the House bill require the development of a State Task Force. The House bill specifies that a representative from the state educational agency and the State Head Start collaboration director participate in the State Task Force. The House bill includes language stating that nothing precludes the State from designating a pre-existing entity to serve as the State Task Force required under this program. The Senate amendment requires a state representative serve on the Task Force, but does not require that person to be from the state educational agency.

The Senate recedes.

The Senate amendment and the House bill include similar provisions for "State Taskforce Activities", except, the House bill specifies that the survey, administered by the Task Force, should collect information disaggregated by specialized knowledge in the education of children with limited English proficiency, in addition to the areas included in the Senate amendment.

The Senate recedes with an amendment to also require the collection of information regarding children with disabilities.

The Senate amendment and the House bill require the State Task Force to develop a plan for a comprehensive professional development and career system for individuals working in early childhood education programs and specify what must be included in the plan.

The Conferees adopt this provision with an amendment to clarify that the plans may, rather than shall, include certain contents.

Section 819. Improving science, technology, engineering and mathematics education with a focus on Alaska Native and Native Hawaiian students

The Senate amendment and the House bill authorize the Secretary to award competitive grants to partnerships to develop or expand STEM programs and academic support services and internships for STEM students, with a focus on Alaska Native and Native Hawaiian students.

The Conferees adopt the provisions as proposed by both the Senate and the House with the following amendment.

The Senate amendment includes a definition of institution of higher education.

The House bill contains no similar provision.

The House recedes.

The Senate amendment includes authorizing language for such sums as necessary to carry out this Part for fiscal year 2008 and five succeeding years.

The House bill contains no similar provision.

The House recedes with amendment to strike 2008 and replace with 2009.

Section 820. Pilot programs to increase college persistence and success

The Senate amendment authorizes the Secretary to award competitive grants to institutions of higher education for scholarships (\$2,000 per year for two years) and counseling services for low-income students with dependents. Scholarship funds are paid upon completion of specified academic milestones. The program is to be evaluated with a random assignment study design. The Senate amendment authorizes such sums as may be necessary for fiscal year 2008 through fiscal year 2013.

The House bill contains the Student Success Grants, which authorizes the Secretary to award competitive grants to eligible institutions of higher education to help low-income students persist and complete postsecondary education and training programs through coaching programs. In addition to supportive services, institutions of higher education would provide grants to eligible students for \$1,500 per student, per year, for five years, with a twenty-five percent non-federal matching requirement.

The Senate and the House recede with an amendment to merge the two programs.

Section 821. Student safety and campus emergency management

The Senate amendment and the House bill create a new student safety and campus emergency grant program.

The Conferees adopt the provision as proposed by both the Senate and the House with the following amendments.

The House bill adds one additional authorized activity that allows funds to be used for the acquisition and installation of access control, video surveillance, intrusion detection, and perimeter security technologies.

The Senate recedes.

The Conferees intend that the authorized emergency communications systems to include multiple technologies, including those currently provided over personal computers, personal digital assistants, message boards, and speaker-sirens, such as mass notification systems using "intelligible voice" messaging. The Conferees are aware that the Department of Defense and other entities use three forms of mass notification systems for interior and exterior emergency communications. These combinations of technologies are important for emergency communications to reassure that there are multiple paths for message delivery. This will allow for messages with intelligible voice messaging over remote speaker-sirens and personal computing devices to notify personnel inside and outside in large open area with real-time information in an endangered areas prior, during, and after the emergency.

Section 822. Model emergency response policies, procedures, and practices

The Senate amendment provides joint authority to the Secretary, Attorney General, and Secretary of Homeland Security to provide technical assistance to institutions of higher education on model emergency response issues and to disseminate relevant information.

The House bill requires the Secretary of Education, in consultation with the Attorney General and Secretary of Homeland Security, to provide these technical assistance and dissemination services.

The Senate recedes with an amendment to clarify that the Secretary shall continue the efforts that are already underway in working with the Attorney General and Secretary of Homeland Security.

Section 823. Preparation for future disasters plan by the Secretary

The House bill requires the Secretary to develop and maintain a disaster relief plan that addresses the needs of institutions of higher education in the event of a natural or man-made disaster that is declared a major disaster or emergency by the President. The House bill requires the Secretary to submit the disaster plan and any revisions to the plan to the authorizing Committees.

The Senate amendment contains no such provision.

The Senate recedes with an amendment to ensure that the Secretary works in coordination with the Secretary of Homeland Security and other appropriate agencies and to strike the requirement that the Secretary submit the plans to the authorizing Committees.

The Conferees remain interested in the progress made by the Secretary of Education, along with other agencies, in developing plans to ensure that the federal government is ready to assist institutions of higher education, their employees and their students in the event of another natural or man-made disaster. The Conferees would appreciate a briefing on the plans as they are developed.

Section 824. Education disaster and emergency relief loan program

The House bill establishes a new education disaster and emergency relief loan program for institutions of higher education for direct or indirect losses incurred as a result of a federally declared major disaster or emergency.

The Senate amendment contains no similar provisions.

The Senate recedes with an amendment to limit the uses of funds.

The Conferees remain interested in the progress made by the Secretary of Education, along with other agencies, in developing plans to ensure that the federal government is ready to assist institutions of higher education, their employees and their students in the event of another natural or man-made disaster. The Conferees intend for Congress, upon its request, to be kept apprised of such plans as they are developed.

The Conferees note the devastating effect that hurricanes Katrina and Rita had on the universities and colleges located in the Gulf region, displacing 83,821 students and resulting in the closure, for the first time, of eleven colleges and universities in New Orleans for a full semester and ten more in Louisiana, Mississippi, Texas, and Florida for an extended period of time. The Conferees are concerned that nearly three years after Katrina and Rita these colleges and universities are still struggling to recover. In particular, colleges and universities are suffering with student enrollments, faculty hiring and retention, as well as recovering financially overall from the damages to the schools. In terms of faculty and staff, it is important to note that salaries and benefits are paid during a disaster even as enrollments drop. The latest statistics reveal the challenges faced by these institutions:

Enrollment:
Pre-hurricanes: More than 70,000 students
Spring 2008: Less than 50,000
Faculty:
Pre-hurricanes: Nearly 11,000
Spring 2008: Approximately 8,000
Damages & Recovery
Damages (Revenue Losses, Physical Damages): Approximately \$1.254 billion
Recovery (Insurance & FEMA): Approximately \$400 million

In developing the disaster loan program, the Conferees intend for the Secretary to consider, as appropriate, the development of

applicable rates of interest, credit reviews, escrow accounts, and provision that loans shall be fairly allocated among as many eligible institutions as possible, consistent with making loans of amounts that will allow for needed construction, replacement, renovation and operations resulting from a major disaster or emergency.

The Conferees commend institutions of higher education that have chosen to use their own resources to address this challenge by developing loan repayment assistance programs to encourage their students and graduates to enter public service jobs. The Conferees are aware of recent concern on the part of some universities that these programs may run afoul of federal law, and would like to ensure that universities that offer such loan repayment or assistance programs, implemented in accordance with the statutory language, and their students and graduates that receive assistance through such programs, do not face liability for such actions under 18 U.S.C. 209 or any other provision of federal law, regulation or practice, including "gift bans" that apply to federal government employees.

The House bill includes prohibitions on gift giving, revenue sharing arrangements, co-branding, participation on advisory councils, and prepayment fees and penalties for covered institutions of higher education and private educational lenders.

The Senate amendment includes no similar provision.

The Senate recedes with an amendment that substitutes the provision that prohibits a covered educational institution financial aid official from participating on a private educational lender’s advisory council with a provision that prohibits certain employees of a covered educational institution from receiving anything of value for service on an advisory board, commission, or group established by a private educational lender, with the exception of reimbursements of reasonable expenses incurred by an employee of such an institution. The Senate amendment also amends the Higher Education Act of 1965 to require institutions of higher education to annually report to the Secretary of Education any reasonable expenses paid or provided by a private educational lender to any employee who is employed in the financial aid office of the institution, or who otherwise has responsibilities with respect to education loans or other financial aid of the institution, for service on a private educational lender’s advisory board, commission, or group. The amendment also requires the Secretary of Education to summarize the information received from institutions of higher education and annually report the information to the authorizing committees.

With respect to this section’s prohibition on co-branding, the Conferees understand that some credit unions share the names of the institutions of higher education whose communities they serve. Nothing in this Section is intended to prohibit a credit union whose name includes the name of a covered educational institution from using its own name in marketing its private education loans.

The Conferees intend that a lender may demonstrate it is not implying endorsement by the covered educational institution of its private education loans by providing a clear prominent and conspicuous disclaimer that the use of the name, emblem, mascot, or logo of a covered educational institution, or other words, pictures, or symbols readily identified with a covered educational institution, in no way implies endorsement by the covered educational institution of the lender’s private education loans and that the lender is not affiliated with the covered educational institution.

The Conferees intend that nothing in this section shall prohibit states or institutions of higher education from using State seals, with appropriate authorization, in the marketing of state education loan products.

Section 1012. Civil liability

The House bill amends TILA to permit borrowers of private education loans to bring an action concerning a violation of specified provisions in any United States District Court, or in any other court of competent jurisdiction, within one year following the date on which the first payment of principal is due on the loan, and provides for the award of certain specified damages with respect to a violation of a borrower’s right of rescission.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to provide for the award of damages with respect to violations of certain specified disclosures and terms required by Section 128 of TILA, as amended by this Act. The Senate amendment also provides that a private educational lender has no civil liability with respect to section 128(e)(3) of TILA, which requires lenders to obtain a prospective borrower’s self-certification of information.

Section 1013. Clerical amendment

The TILA table of sections is amended.

The Senate amendment includes no similar provision.

SUBTITLE B—IMPROVED DISCLOSURES FOR PRIVATE EDUCATION LOANS

The House recedes.

The House bill requires a private educational lender, prior to issuing any funds to a borrower, to obtain from an institution of higher education, such institution of higher education’s certification of the enrollment status of the borrower, the borrower’s cost of attendance, and the difference between the borrower’s cost of attendance and the borrower’s estimated financial assistance received under Title IV of the Higher Education Act and other assistance known to the institution of higher education.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment to replace the requirement that a lender obtain an institution of higher education’s certification of information with a requirement that a lender obtain from a prospective borrower such borrower’s self-certification of information before a private education loan may be consummated. The amendment also amends the Higher Education Act of 1965 to require the Secretary of Education, in consultation with the Board, to develop a borrower self-certification form for the purpose of satisfying the requirement that lenders obtain prospective borrowers’ self-certification of information prior to the consummation of a private education loan. In addition, the amendment includes a rule of construction to clarify that a private educational lender need not perform any additional duty beyond collecting a prospective borrower’s completed and signed self-certification form, and a rule of construction to clarify that the amendment does not create a private right of action against an institution of higher education with respect to the self-certification form developed by the Secretary.

The House bill includes requirements for formatting of new disclosures required by subsection (e) of TILA, as amended by this Act.

The Senate amendment contains no similar provision.

The Senate recedes with an amendment that provides for a model form, to be developed by the Board, based on consumer testing and in consultation with the Secretary of Education, that may be used by private educational lenders for the provision of required disclosures, and a requirement that lenders that have preferred lender arrangements with a covered educational institution must annually provide to such institutions the information the Board determines to include in the model form for each type of education loan the lenders plan to offer to students attending the covered educational institution, or to the families of such students. The Board is directed to, where possible, prevent duplicative disclosure requirements. Private educational lenders that have preferred lender arrangements with covered institutions

are required to provide to the covered educational institutions such information as may be required by the Board as a part of the model form developed under this section.

The House bill provides a borrower of a private education loan up to thirty calendar days to accept the terms of the loan, during which time the rates and terms of the loan may not be changed by the private educational lender, with certain exceptions.

The Senate amendment contains no similar provision.

The Senate recedes.

The House bill provides a borrower of a private education loan the right to cancel a loan without penalty at anytime within three business days of the date the loan is consummated. Disbursement within the three business day cancellation window is prohibited.

The Senate amendment contains no similar provision.

The Senate recedes.

The House bill requires a private educational lender, on or before the date on which a private educational lender issues any funds with respect to a private education loan, to notify the relevant institution of higher education of the amount of the loan and the student on whose behalf the loan is made.

The Senate amendment contains no similar provision.

The House recedes.

The House bill requires the Secretary of the Treasury, in coordination with the Secretary of Education, the Secretary of Agriculture, and appropriate member agencies of the Financial Literacy and Education Commission, to undertake efforts to enhance financial literacy among students at institutions of higher education. Not later than two years after the date of enactment, the Finan-

cial Literacy and Education Commission is required to submit a report to Congress on the state of financial literacy among students at institutions of higher education. The House bill also requires GAO to study and report to Congress on the inclusion of non-individual factors (e.g., institution of higher education cohort default rates, accreditation, and graduation rates) in the underwriting criteria used to determine the pricing of private education loans.

The Senate amendment contains no similar provisions.

The Senate recedes with amendments to: define "covered educational institution," "historically Black colleges and universities" and "land-grant colleges and universities;" expand the scope of the financial literacy efforts to capture both students and their families; clarify that the Secretary of the Treasury shall provide, upon request, testimony before the Senate Committee on Banking, Housing and Urban Affairs and the House Committee on Financial Services on the report required under this section; clarify that GAO shall submit its final report on non-individual factors to the Senate Committee on Banking, Housing, and Urban Affairs, the Senate Committee on Health, Education, Labor and Pensions, the House Committee on Financial Services, and the House Committee on Education and Labor; and move the GAO report to Title XI of this Act.

The Conferees recognize that prison populations in the United States continue to swell, placing financial burdens on operating jurisdictions and representing lost human potential among the citizenry. Given that recidivism of released offenders is a key factor in prison population growth, the Conferees intend for the Secretary to consult with the Secretary of Labor and the Attorney General to determine the benefit of postsecondary education during the period of correctional confinement as a means to reduce post release offending. Further, the Secretary is charged with identifying and studying potential ways to deliver postsecondary education within correctional environments.

The study will examine the degree to which schools of education prepare their teachers to effectively address the five essential components of reading instruction. The study will also examine quality of the teacher preparation reading programs to determine the extent to which these programs incorporate early intervention strategies that target the prevention of reading failure before it occurs. The Conferees believe that teacher preparation programs should be aligned with current research and based on the essential components of reading instruction. These programs should ensure that our Nation's future teachers are adequately prepared to address the diverse learning needs of students with reading and language processing disabilities, including dyslexia. The Conferees are concerned that pre-service teachers do not receive adequate training in the fundamentals of reading instruction during their teacher preparation program, and thus are not prepared to effectively meet the diverse needs of the students that they teach.
